REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. ROTH, from the Committee on Governmental Affairs, without amendment:

H.R. 2721. A bill to amend title 13, United States Code, to require the collection of statistics on domestic apparel and textile industries (Rept. No. 99-450).

By Mr. ROTH, from the Committee on Governmental Affairs, with amendments:

H.R. 2722. A bill to amend title 13, United States Code, to eliminate the requirement relating to decennial censuses of drainage (Rept. No. 99-451).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, without amendment:

S. 767. A bill to direct the Secretary of the Interior to permit access across certain Federal lands in the State of Arkansas, and for other purposes (Rept. No. 99-452).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute:

S. 977. A bill to establish the Hennepin Canal National Heritage Corridor in the State of Illinois, and for other purposes (Rept. No. 99-453).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment:

S. 2384. A bill to amend Public Law 95-625 to permit the acquisition of certain lands for an administrative site for the New River Gorge National River, WV (Rept. No. 99-454).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, without amendment:

H.R. 2067. A bill to validate conveyances of certain lands in the State of California that form part of the right-of-way granted by the United States to the Central Pacific Railway Company (Rept. No. 99-455).

S. 1026. A bill to direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program (Rept. No. 99-456).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute and an amendment to the title:

S. 2370. A bill to allow the Francis Scott Key Park Foundation, Inc. to erect a memorial in the District of Columbia (Rept. No. 99-457).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute:

S. 2506. A bill to establish a Great Basin National Park in the State of Nevada and for other purposes (Rept. No. 99-458).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute, and an amendment to the title:

H.R. 2205. A bill to erect a memorial on Federal land in the District of Columbia or its environs to honor members of the Armed Forces of the United States who served in the Korean war (Rept. No. 99-459).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, without amendment:

H.R. 4212. A bill to provide for the reauthorization of the Deep Seabed Hard Mineral Resources Act, and for other purposes (Rept. No. 99-460).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute and an amendment to the title:

H.J. Res. 36. Joint resolution authorizing establishment of a memorial in the District of Columbia or its environs (Rept. No. 99-461).

H.J. Res. 142. Joint resolution to authorize the Black Revolutionary War Patriots Foundation to establish a memorial in the District of Columbia at an appropriate site in Constitution Gardens (Rept. No. 99-462).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, without amendment:

H.J. Res. 666. Joint resolution expressing the sense of Congress in support of a commemorative structure within the National Park System dedicated to the promotion of understanding, knowledge, opportunity and equality for all people (Rept. No. 99-463).

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute and an amendment to the title:

S. 1004. A bill to authorize and direct the Secretary of Energy to establish a program to provide for reclamation and other remedial actions with respect to mill tailings at active uranium and thorium processing sites (with additional and minority views) (Rept. No. 99-464).

By Mr. ROTH, from the Committee on Governmental Affairs, without amendment:

H.R. 3168. A bill to require the Director of the Office of Management and Budget to prepare an annual report consolidating the available data on the geographic distribution of Federal funds, and for other purposes.

By Mr. THURMOND, from the Committee on the Judiciary, without amendment and with a preamble:

H.J. Res. 547. Joint resolution to designate October 1986 as "Polish American Heritage Month."

By Mr. ROTH, from the Committee on Governmental Affairs, without amendment:

S. 2452. A bill to designate the United States Post Office to be constructed in Barnwell, South Carolina, as the "Solomon Blatt, Sr., Post Office Building."

By Mr. THURMOND, from the Committee on the Judiciary, without amendment and with a preamble:

S.J. Res. 329. Joint resolution to designate the period of December 1, 1986, through December 7, 1986, as "National Aplastic Anemia Awareness Week."

S.J. Res. 339. Joint resolution to designate the week of November 30, 1986, through December 6, 1986, as "National Home Care Week."

S.J. Res. 385. Joint resolution to designate October 23, 1986 as "National Hungarian Freedom Fighters Day."

S.J. Res. 395. Joint resolution to designate the period October 1, 1986, through September 30, 1987, as "National Institutes of Health Centennial Year."

S.J. Res. 396. Joint resolution to designate the week of October 26, 1986, through November 1, 1986, as "National Adult Immunization Awareness Week."

S.J. Res. 401. Joint resolution to designate the week of October 12, 1986, through October 18, 1986, as "National Job Skills Week."

S.J. Res. 413. Joint resolution to designate the month of October 1986 as "Learning Disabilities Awareness Month."

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. THURMOND, from the Committee on the Judiciary:

Diarmuid F. O'Scannlain, of Oregon, to be U.S. circuit judge for the Ninth Circuit;

Frederic N. Smalkin, of Maryland, to be U.S. district judge for the district of Maryland:

James L. Graham, of Ohio, to be U.S. district judge for the southern district of Ohio; and

George Landon Phillips, of Mississippi, to be U.S. attorney for the southern district of Mississippi for the term of 4 years.

By Mr. HELMS, from the Committee on Agriculture, Nutrition, and Forestry:

W. Kirk Miller of Wisconsin, to be Administrator of the Federal Grain Inspection Service.

(The above nomination was reported from the Committee on Agriculture, Nutrition, and Forestry with the recommendation that it be confirmed, subject to the nominee's commitment to respond to requests to appear and

testify before any duly constituted committee of the Senate.)

By Mr. LUGAR, from the Committee on Foreign Relations:

Treaty Doc. 97-12. Inter-American Convention on Commercial Arbitration (Ex. Rept. No. 99-24); and

Treaty Doc. 99-11. Hague Convention on the Civil Aspects of International Child Abduction (Ex. Rept. No. 99-25).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. MATTINGLY (for himself and Mr. NUNN):

S. 2838. A bill to designate certain National Forest System lands in the State of Georgia to the National Wilderness Preservation System, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. D'AMATO:

S. 2839. A bill to the relief of Jozo Karoglan and Ilana Karoglan, husband and wife, and their child, Matthias Karoglan; to the Committee on the Judiciary.

By Mr. STAFFORD (for himself, Mr. CHAFEE, Mr. DURENBERGER, Mr. MITCHELL, Mr. BURDICK, Mr. HART, Mr. MOYNIHAN, Mr. HUMPHREY, Mr. LAUTENBERG, Mr. BROYHILL, Mr. ROTH, Mr. BAUCUS, Mr. ABDNOR, Mr. SIMPSON, Mr. DOMENICI, and Mr. RIEGLE):

S. 2840. A bill entitled the "Superfund Amendments and Reauthorization Act of 1986", by unanimous consent, ordered held at the desk until the close of business on September 22, 1986.

By Mr. HEINZ (for himself and Mr. NICKLES):

S. 2841. A bill to strengthen the Organ Procurement and Transplantation Network, and for other purposes; to the Committee on Labor and Human Resources.

By Mr. DANFORTH (for himself, Mr. CHAFEE, Mr. BENTSEN, Mr. WILSON, Mr. CRANSTON, Mr. GORE, Mr. HEINZ, and Mr. SASSER):

S. 2842. A bill to encourage the use of copy-code scanners on digital audio tape recording machines; to the Committee on Finance.

By Mr. MATTINGLY:

S. 2843. A bill to amend the Congressional Budget Act of 1974 to minimize the impact on State and local governments of unexpected provisions of legislation proposing the imposition of large unfunded costs on such governments, and for other purposes; to the Committee on Rules and Administration.

By Mr. BOREN (for himself, Mr. MELCHER, Mr. BAUCUS, Mr. HEFLIN, Mr. ABDNOR, and Mr. PRYOR):

S. 2844. A bill to require the Secretary of Agriculture to pay restitution to certain cattle producers for losses incurred in connection with the sale of cattle during a period in which excessive dairy cattle were slaughtered under the whole-herd buy-out program; to the Committee on Agriculture, Nutrition, and Forestry.

By Mrs. KASSEBAUM (for herself, Mr. HART, Mr. ARMSTRONG, Mr. DANFORTH, Mr. DOLE, Mr. BOREN, Mr. NICKLES, Mr. EAGLETON, Mr. BINGAMAN, Mr. DOMENICI and Mr. MCCLURE):

S. 2845. A bill to designate the Sante Fe Trail as an Historic Trail under the National Trails System Act; to the Committee on Energy and Natural Resources.

By Mr. GRASSLEY (for himself and Mrs. HAWKINS):

S. 2846. A bill to provide for research concerning Alzheimer's disease and related dementias; to the Committee on Labor and Human Resources.

By Mr. KASTEN:

S.J. Res. 416. A joint resolution to give special recognition to the birth and achievements of Aldo Leopold; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. HUMPHREY (for himself, Mr. DOLE, Mr. MOYNIHAN, Mr. WALLOP, Mr. MCCLURE, Mr. QUAYLE and Mr. WILSON):

S. Res. 491. A resolution calling for a strong response to the Daniloff arrest; ordered to lie over under the rule.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. MATTINGLY (for himself and Mr. NUNN):

S. 2838. A bill to designate certain National Forest System lands in the State of Georgia to the National Wilderness Preservation System, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

GEORGIA WILDERNESS ACT

Mr. MATTINGLY. Mr. President, today I join with my colleague from Georgia in introducing the Georgia Wildeness Act of 1986. I ask that the bill be considered read twice and referred to the appropriate committee.

This bill will establish approximately 42,000 acres of additional wilderness area in the State of Georgia, and I sincerely urge all of our Senate colleagues to assist Senator NUNN and me in expediting passage of the measure during this session of Congress. I further ask that the bill be printed in the CONGRESSIONAL RECORD, and that the RECORD be held open throughout the remainder of the day for any additional statements, and that such statements be included as though delivered at the time of introduction of the bill.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2838

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Georgia Wilderness Act of 1986".

SEC. 2. In furtherance of the purposes of the Wilderness Act (16 U.S.C. 1131-1136), the following lands in the State of Georgia are hereby designated as wilderness and, therefore, as components of the National Wilderness Preservation System—

(a) certain lands in the Chattahoochee National Forest, Georgia, which comprise approximately 8,562 acres, as generally depicted on a map entitled "Raven Cliffs Wilderness—Proposed," dated September 1986, and which shall be known as the Raven Cliffs Wilderness;

(b) certain lands in the Chattahoochee National Forest, Georgia, which comprise approximately 10,924 acres, as generally depicted on a map entitled "Brasstown Wilderness Proposed," dated 1986, and which shall be known as Brasstown Wilderness;

(c) certain lands in the Chattahoochee National Forest, Georgia, which comprise approximately 9,702 acres, generally depicted on a map entitled "Tray Mountain Wilderness—Proposed," dated 1986, and which shall be known as the Tray Mountain Wilderness;

(d) certain lands in the Chattahoochee National Forest, Georgia, which comprise approximately 9,649 acres, generally depicted on a map entitled "Rich Mountain Wilderness Proposed," dated 1986, and which shall be known as the Rich Mountain Wilderness; and

(e) certain lands in the Chattahoochee National Forest, Georgia, which comprise approximately 2,940 acres, as generally depicted on a map entitled "Cohutta Wilderness addition Proposed," dated 1986, and which is hereby incorporated in and shall be part of the Cohutta Wilderness as designated by Public Law 93-622.

SEC. 3. As soon as practicable after enactment of this Act, the Secretary of Agriculture shall file a map and legal description of each wilderness area designated by this Act with the Committee on Interior and Insular Affairs and the Committee on Agriculture of the United States House of Representatives and with the Committee on Agriculture, Nutrition, and Forestry of the United States Senate. Each such map and description shall have the same force and effect as if included in this Act, except that correction of clerical and typographical errors in each such map and description shall be on file and available for public inspection in the Office of the Chief of the Forest Services, Department of Agriculture.

SEC. 4. Subject to valid existing rights, each wilderness area designated by this Act shall be administered by the Secretary of Agriculture in accordance with the provisions of the Wilderness Act governing areas designated by that Act as wilderness, except that any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the date of enactment of this Act.

By Mr. STAFFORD (for himself, Mr. CHAFEE, Mr. DURENBERGER, Mr. MITCHELL, Mr. BURDICK, Mr. HART, Mr. MOYNIHAN, Mr. HUMPHREY, Mr. LAUTENBERG, Mr. BROYHILL, Mr. ROTH, Mr. BAUCUS, Mr. ABDNOR, Mr. SIMPSON, Mr. DOMENICI, and Mr. RIEGLE):

S. 2840. A bill entitled the "Superfund Amendments and Reauthorization Act of 1986"; ordered held at the desk until close of business on September 22, 1986.

SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT

Mr. STAFFORD. Mr. President, I rise to introduce, and ask to be held at the desk until close of business today, September 19, a 5-year, $8.5 billion extension of the Superfund law. I also ask the leadership to attempt to seek a unanimous consent agreement for passage of this bill, with no amendments to be in order.

Other Members who join me in this proposal include Senators BENTSEN, CHAFEE, DURENBERGER, MITCHELL, BURDICK, HART, MOYNIHAN, HUMPHREY, LAUTENBERG, BROYHILL, ROTH, BAUCUS, ABDNOR, SIMPSON, and DOMENICI.

The bill is identical to the committee of conference bill on Superfund reauthorization that was agreed to by the Senate and House conferees on July 31, 1986. That agreement covers the Superfund Program.

Unfortunately, this bill contains no tax provisions to provide special funding for the program. That is because the conferees who are members of the House Committee on Ways and Means and the Senate Committee on Finance have been unable to agree on such tax provisions. I deeply regret this because it means the Superfund Program will remain comatose. It has been months since any new cleanups were started or old ones continued. Meanwhile Americans across this land remain at risk from the hazards of poisonous chemical releases.

Mr. President, 2 years ago I feared this would happen and even predicted that it might. I urged at that time in the strongest terms that the administration and the Congress come to grips with the difficult and controversial issues surrounding the Superfund Program.

My pleas went unheeded.

Indeed, the administration successfully prevented congressional action during 1984. It is no secret that the administration opposition helped to block Senate action on Superfund. The Congress ended without action on a Superfund reauthorization and the thousands of hours of work invested in Superfund by Members of the Congress were wasted. The Superfund extension died.

So, we began again. We scheduled hearings for February of 1985. The administrator of the Environmental Protection Agency, acting on behalf of the administration, asked that the hearings be canceled. The Senate Committee on Environment and Public Works refused. We went forward and reported a bill to extend Superfund. That bills was S. 51 and it was reported favorably on March 7, 1985, and was referred to the Finance Committee.

The Finance Committee did not act immediately. The administration sought, and received, a delay.

When the Finance Committee reported a bill on May 23, 1985, the bill did not go immediately to the floor. It was sequentially referred to the Committee on Judiciary at the request of that committee. The bill was discharged on June 14, 1985, with that committee having taken no formal action on the bill.

The bill was available for Senate consideration during June, July, August, and early September of last year. Despite several requests for consideration, the bill was not scheduled for action.

Instead, it was not until September 17, 1985, 1 year ago, that the Senate began debate. The bill was passed by the Senate by a rollcall vote of 86 to 13 on September 24, 1985, some week before the tax-supported Superfund expired.

Because the tax that financed the Superfund Program expired on September 30, 1985, this Senator and others sought to win passage of a short-term funding extension. The administration opposed that idea and it failed.

Later, this Senator sought to pass a long-term funding extension. The administration also opposed that, and it failed.

The bill languished in the House until December. The program had no new money, so when the reconciliation bill became available as a vehicle for funding, this Senator and other members of the committee urged that the Committee on Finance and other conferees agreed to a 5-year funding extension for the program.

The conferees did, but not quite. An amendment was added, but money for Superfund would have become available only after the nontax conferees reached agreement. Despite the controversy which surrounded the Superfund tax during the closing days of the last session, the press, the public and the majority of the Congress lost sight of that fact. The amendment provided not one penny of immediate funding for the program.

But that is an academic point. The administration opposed the measure, taking the position that the pressure would be removed from the nontax conferees if funding were provided. The amendment died.

When the second session of the Congress began, the administration continued its opposition to even short-term funding for the program until late March, when it finally relented.

A 90-day emergency appropriation from general revenues was approved by the House and the Senate only hours before we left for the Easter recess. Much of the credit for that extension properly belongs to Representative JAMIE WHITTEN, chairman of the House Appropriations Committee, who listened late one evening to the pleas of this Senator and responded by adding the money to the continuing resolution.

By this time, the committee of conference had begun to work in earnest on the differing bills on Superfund between the House and Senate. The nontax conferees were meeting regularly and making some progress. But the going was slow. The side-by-side comparison of the two bills was more than a thousand pages in length and it told of many thousand of differences between the two bills.

Again, members of the nontax conference wrote to and spoke with the tax conferees, reporting on our decisions and urging them to meet.

Time came and went. A second emergency funding extension was passed in mid-August. The money provided by that extension was only enough to keep power supplied to the respirator that is keeping Superfund at the minimum survival level. Even that money runs out in 11 days, on October 1, 1986.

For nearly 2½ years, the overwhelming majority of the members of the Senate Committee on Environment and Public Works have pressed ourselves, other Members of Congress and the administration to join in the effort to reauthorize the Superfund Program.

And, for nearly 2½ years, we have been frustrated at every turn.

I know of no other task we could have undertaken or any other effort we could have made that would have made a differnce. We have exhausted every possibility, made every plea, solicited every interest. Yet, 2 days past 1 year since the Senate acted, and virtually 2 years since the bill died in the last Congress, it appears we have accomplished nothing.

Meanwhile Americans across this land remain at risk from the hazards known to all of us. Yet the law designed to protect Americans from these hazards is dying a slow—but sure—death.

Swift action on the bill I introduce today is the only way I know of to reverse this situation. It is my hope that this bill will pass the Senate and pass it soon. There is no more time left on the clock for the Senate, for the House, for the administration or for the public.

Mr. President, I ask unanimous consent that the bill and a summary be printed in the RECORD.

S. 2840

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

This Act may be cited as the "Superfund Amendments and Reauthorization Act of 1986".

TABLE OF CONTENTS

Sec. 1. Short title and table of contents.
Sec. 2. CERCLA and Administrator.
Sec. 3. Limitation on contract and borrowing authority.
Sec. 4. Effective date.

TITLE I—PROVISIONS RELATING PRIMARILY TO RESPONSE AND LIABILITY

Sec. 101. Amendments to definitions.
Sec. 102. Reportable quantities.
Sec. 103. Notices; penalties.
Sec. 104. Response authorities.
Sec. 105. National contingency plan.
Sec. 106. Reimbursement.
Sec. 107. Liability.
Sec. 108. Financial responsibility.
Sec. 109. Penalties.
Sec. 110. Health-related authorities.
Sec. 111. Uses of fund.
Sec. 112. Claims procedure.
Sec. 113. Litigation, jurisdiction, and venue.
Sec. 114. Relationship to other law.
Sec. 115. Delegation; regulations.
Sec. 116. Schedules.
Sec. 117. Public participation.
Sec. 118. Miscellaneous provisions.
Sec. 119. Response action contractors.
Sec. 120. Federal facilities.
Sec. 121. Cleanup standards.
Sec. 122. Settlements.
Sec. 123. Reimbursement to local governments.
Sec. 124. Methane recovery.
Sec. 125. Certain special study wastes.
Sec. 126. Worker protection standards.
Sec. 127. Liability limits for ocean incineration vessels.

TITLE II—MISCELLANEOUS PROVISIONS

Sec. 201. Post-closure liability program study, report to Congress, and suspension of liability transfers.
Sec. 202. Hazardous materials transportation.
Sec. 203. State procedural reform.
Sec. 204. Conforming amendment to funding provisions.
Sec. 205. Cleanup of petroleum from leaking underground storage tanks.
Sec. 206. Citizens suits.
Sec. 207. Indian tribes.
Sec. 208. Insurability study.
Sec. 209. Research, development, and demonstration.
Sec. 210. Pollution liability insurance.
Sec. 211. Department of Defense environmental restoration program.
Sec. 212. Oversight and reporting requirements.
Sec. 213. Love Canal property acquisition.

TITLE III—EMERGENCY PLANNING AND COMMUNITY RIGHT-TO-KNOW

Sec. 300. Short title; table of contents.

Subtitle A—Emergency Planning and Notification

Sec. 301. Establishment of State commissions, planning districts, and local committees.
Sec. 302. Substances and facilities covered and notification.
Sec. 303. Comprehensive emergency response plans.
Sec. 304. Emergency notification.
Sec. 305. Emergency training and review of emergency systems.

Subtitle B—Reporting Requirements

Sec. 311. Material safety data sheets.
Sec. 312. Emergency and hazardous chemical inventory forms.
Sec. 313. Toxic chemical release forms.

Subtitle C—General Provisions

Sec. 321. Relationship to other law.
Sec. 322. Trade secrets.
Sec. 323. Provision of information to health professionals, doctors, and nurses.
Sec. 324. Public availability of plans, data sheets, forms, and followup notices.
Sec. 325. Enforcement.
Sec. 326. Civil Actions.
Sec. 327. Exemption.
Sec. 328. Regulations.
Sec. 329. Definitions.
Sec. 330. Authorization of appropriations.

TITLE IV—RADON GAS AND INDOOR AIR QUALITY RESEARCH

Sec. 401. Short title.
Sec. 402. Findings.
Sec. 403. Radon gas and indoor air quality research program.
Sec. 404. Construction of title.
Sec. 405. Authorizations.

SEC. 2. CERCLA AND ADMINISTRATOR.

As used in this Act—

(1) CERCLA.—The term "CERCLA" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).

(2) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

SEC. 3. LIMITATION ON CONTRACT AND BORROWING AUTHORITY.

Any authority provided by this Act, including any amendment made by this Act, to enter into contracts to obligate the United States or to incur indebtedness for the repayment of which the United States is liable shall be effective only to such extent or in such amounts as are provided in appropriation Acts.

SEC. 4. EFFECTIVE DATE.

Except as otherwise specified in section 121(b) of this Act or in any other provision of titles I, II, III, and IV of this Act, the amendments made by titles I through IV of this Act shall take effect on the enactment of this Act.

TITLE I—PROVISIONS RELATING PRIMARILY TO RESPONSE AND LIABILITY

SEC. 101. AMENDMENTS TO DEFINITIONS.

(a) INDIAN TRIBE.—Paragraph (16) of section 101 of CERCLA (defining "natural resources") is amended by striking "or" the last time it appears and inserting before the punctuation at the end thereof the following: ", any Indian tribe, or, if such resources are subject to a trust restriction on alienation, any member of an Indian tribe".

(b) STATE OR LOCAL GOVERNMENT LIMITATION.—Paragraph (20) of section 101 of CERCLA (defining "owner or operator") is amended as follows:

(1) Add the following new subparagraph at the end thereof:

"(D) The term 'owner or operator' does not include a unit of State or local government which acquired ownership or control involuntarily through bankruptcy, tax delinquency, abandonment, or other circumstances in which the government involuntarily acquires title by virtue of its function as sovereign. The exclusion provided under this paragraph shall not apply to any State or local government which has caused or contributed to the release or threatened release of a hazardous substance from the facility, and such a State or local government shall be subject to the provisions of this Act in the same manner and to the same extent, both procedurally and substantively, as any nongovernmental entity, including liability under section 107.".

(2) Amend clause (iii) of subparagraph (A) to read as follows: "(iii) in the case of any facility, title or control of which was conveyed due to bankruptcy, foreclosure, tax delinquency, abandonment, or similar means to a unit of State or local government, any person who owned, operated, or otherwise controlled activities at such facility immediately beforehand.".

(3) Capitalize the first word of subparagraphs (B) and (C) and substitute a period for the semicolon at the end of subparagraphs (A), (B), and (C).

(c) RELEASE.—Paragraph (22) of section 101 of CERCLA (defining "release") is amended by inserting after "environment" the following: "(including the abandonment or discarding of barrels, containers, and other closed receptacles containing any hazardous substance or pollutant or contaminant)".

(d) REMEDIAL ACTION.—Paragraph (24) of section 101 of CERCLA (defining "remedy" and "remedial action") is amended as follows:

(1) Strike "welfare. The term does not include offsite transport" and all that follows down through the semicolon at the end of such paragraph and insert "welfare; the term includes offsite transport and offsite storage, treatment, destruction, or secure disposition of hazardous substances and associated contaminated materials.".

(2) Strike "or" before "contaminated materials" and insert "and associated".

(e) RESPONSE.—Section 101(25) of CERCLA (defining "respond" and "response") is amended by inserting at the end thereof the following: ", all such terms (including the terms 'removal' and 'remedial action') include enforcement activities related thereto.".

(f) ADDITIONAL DEFINITIONS.—Section 101 of CERCLA is amended by striking out "; and" at the end of paragraph (31) and substituting a period, by changing the semicolons at the end of paragraphs (1) through (29) to periods, by inserting "The term" at the beginning of paragraphs (1) through (22) and paragraphs (28) and (31), by inserting "The terms" at the beginning of paragraphs (23) through (27) and paragraphs (29),(30), and (32) by striking out ", the term" in the material preceding paragraph (1), and by adding the following new paragraphs at the end thereof:

"(33) The term 'pollutant or contaminant' shall include, but not be limited to, any element, substance, compound, or mixture, including disease-causing agents, which after release into the environment and upon exposure, ingestion, inhalation, or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains, will or may reasonably be anticipated to cause death, disease, behavioral abnormalities, cancer, genetic mutation, physiological malfunctions (including malfunctions in reproduction) or physical deformations, in such organisms or their offspring; except that the term 'pollutant or contaminant' shall not include petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under subparagraphs (A) through (F) of paragraph (14) and shall not include natural gas, liquefied natural gas, or synthetic gas of pipeline quality (or mixtures of natural gas and such synthetic gas).

"(34) The term 'alternative water supplies' includes, but is not limited to, drinking water and household water supplies.

"(35)(A) The term 'contractual relationship', for the purpose of section 107(b)(3), includes, but is not limited to, land contracts, deeds or other instruments transferring title

or possession, unless the real property on which the facility concerned is located was acquired by the defendant after the disposal or placement of the hazardous substance on, in, or at the facility, and one or more of the circumstances described in clause (i), (ii), or (iii) is also established by the defendant by a preponderance of the evidence:

"(i) At the time the defendant acquired the facility the defendant did not know and had no reason to know that any hazardous substance which is the subject of the release or threatened release was disposed of on, in, or at the facility.

"(ii) The defendant is a government entity which acquired the facility by escheat, or through any other involuntary transfer or acquisition, or through the exercise of eminent domain authority by purchase or condemnation.

"(iii) The defendant acquired the facility by inheritance or bequest.

In addition to establishing the foregoing, the defendant must establish that he has satisfied the requirements of section 107(b)(3)(a) and (b).

"(B) To establish that the defendant had no reason to know, as provided in clause (i) of subparagraph (A) of this paragraph, the defendant must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice in an effort to minimize liability. For purposes of the preceding sentence the court shall take into account any specialized knowledge or experience on the part of the defendant, the relationship of the purchase price to the value of the property if uncontaminated, commonly known or reasonably ascertainable information about the property, the obviousness of the presence or likely presence of contamination at the property, and the ability to detect such contamination by appropriate inspection.

"(C) Nothing in this paragraph or in section 107(b)(3) shall diminish the liability of any previous owner or operator of such facility who would otherwise be liable under this Act. Notwithstanding this paragraph, if the defendant obtained actual knowledge of the release or threatened release of a hazardous substance at such facility when the defendant owned the real property and then subsequently transferred ownership of the property to another person without disclosing such knowledge, such defendant shall be treated as liable under section 107(a)(1) and no defense under section 107(b)(3) shall be available to such defendant.

"(D) Nothing in this paragraph shall affect the liability under this Act of a defendant who, by any act or omission, caused or contributed to the release or threatened release of a hazardous substance which is the subject of the action relating to the facility.

"(36) The term 'Indian tribe' means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village but not including any Alaska Native regional or village corporation, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.".

SEC. 102. REPORTABLE QUANTITIES.

Section 102(a) of CERCLA is amended by adding at the end thereof the following new sentences: "For all hazardous substances for which proposed regulations establishing reportable quantities were published in the Federal Register under this subsection on or before March 1, 1986, the Administrator shall promulgate under this subsection final regulations establishing reportable quantities not later than December 31, 1986. For all hazardous substances for which proposed regulations establishing reportable quantities were not published in the Federal Register under this subsection on or before March 1, 1986, the Administrator shall publish under this subsection proposed regulations establishing reportable quantities not later than December 31, 1986, and promulgate final regulations under this subsection establishing reportable quantities not later than April 30, 1988.".

SEC. 103. NOTICES; PENALTIES.

Section 103(b) of CERCLA is amended by striking out "paragraph" in the last sentence and inserting in lieu thereof "subsection" and by adjusting the left hand margin of the text of such subsection following "federally permitted release," the third place it appears so that there is no indentation of such text.

SEC. 104. RESPONSE AUTHORITIES.

(a) RESPONSE BY POTENTIALLY RESPONSIBLE PARTIES; PUBLIC HEALTH THREATS.—Section 104(a)(1) of CERCLA is amended by striking ", unless the President determines" and all that follows down through "party." and inserting a period and the following: "When the President determines that such action will be done properly and promptly by the owner or operator of the facility or vessel or by any other responsible party, the President may allow such person to carry out the action, conduct the remedial investigation, or conduct the feasibility study in accordance with section 122. No remedial investigation or feasibility study (RI/FS) shall be authorized except on a determination by the President that the party is qualified to conduct the RI/FS and only if the President contracts with or arranges for a qualified person to assist the President in overseeing and reviewing the conduct of such RI/FS and if the responsible party agrees to reimburse the Fund for any cost incurred by the President under, or in connection with, the oversight contract or arrangement. In no event shall a potentially responsible party be subject to a lesser standard of liability, receive preferential treatment, or in any other way, whether direct or indirect, benefit from any such arrangements as a response action contractor, or as a person hired or retained by such a response action contractor, with respect to the release or facility in question. The President shall give primary attention to those releases which the President deems may present a public health threat.".

(b) REMOVAL ACTION.—Section 104(a)(2) of CERCLA is amended to read as follows:

"(2) REMOVAL ACTION.—Any removal action undertaken by the President under this subsection (or by any other person referred to in section 122) should, to the extent the President deems practicable, contribute to the efficient performance of any long term remedial action with respect to the release or threatened release concerned.".

(c) LIMITATIONS ON RESPONSE.—Section 104(a) of CERCLA is further amended by adding after paragraph (2) the following new paragraphs:

"(3) LIMITATIONS ON RESPONSE.—The President shall not provide for a removal or remedial action under this section in response to a release or threat of release—

"(A) of a naturally occurring substance in its unaltered form, or altered solely through naturally occurring processes or phenomena, from a location where it is naturally found;

"(B) from products which are part of the structure of, and result in exposure within, residential buildings or business or community structures; or

"(C) into public or private drinking water supplies due to deterioration of the system through ordinary use.

"(4) EXCEPTION TO LIMITATIONS.—Notwithstanding paragraph (3) of this subsection, to the extent authorized by this section, the President may respond to any release or threat of release if, in the President's discretion, it constitutes a public health or environmental emergency and no other person with the authority and capability to respond to the emergency will do so in a timely manner.".

(d) COORDINATION OF INVESTIGATIONS.—Section 104(b) of CERCLA is amended by inserting "(1) INFORMATION; STUDIES AND INVESTIGATIONS.—" after "(b)" and by adding at the end thereof the following new paragraph:

"(2) COORDINATION OF INVESTIGATIONS.—The President shall promptly notify the appropriate Federal and State natural resource trustees of potential damages to natural resources resulting from releases under investigation pursuant to this section and shall seek to coordinate the assessments, investigations, and planning under this section with such Federal and State trustees.".

(e) INITIAL OBLIGATION OF FUND.—

(1) LIMITATION.—Section 104(c)(1) of CERCLA is amended by striking out "$1,000,000" and "six months" and inserting in lieu thereof "$2,000,000" and "12 months", respectively.

(2) CONTINUED RESPONSE.—Section 104(c)(1) of CERCLA is amended by inserting before "obligations" the following: "or (C) continued response action is otherwise appropriate and consistent with the remedial action to be taken".

(f) FACILITIES OWNED AND OPERATED BY STATES.—Paragraph (3) of section 104(c) of CERCLA is amended by striking out "(ii) at least" and all that follows through the period at the end thereof and inserting "(ii) 50 percent (or such greater amount as the President may determine appropriate, taking into account the degree of responsibility of the State or political subdivision for the release) of any sums expended in response to a release at a facility, that was operated by the State or a political subdivision thereof, either directly or through a contractual relationship or otherwise, at the time of any disposal of hazardous substances therein. For the purpose of clause (ii) of this subparagraph, the term 'facility' does not include navigable waters or the beds underlying those waters.".

(g) CROSS REFERENCE TO CLEANUP STANDARDS.—Section 104(c)(4) of CERCLA is amended to read as follows:

"(4) SELECTION OF REMEDIAL ACTION.—The President shall select remedial actions to carry out this section in accordance with section 121 of this Act (relating to cleanup standards).".

(h) STATE CREDITS.—Section 104(c) of CERCLA is amended by adding the following new paragraph after paragraph (4):

"(5) STATE CREDITS.—

"(A) GRANTING OF CREDIT.—The President shall grant a State a credit against the share of the costs, for which it is responsible under paragraph (3) with respect to a facility listed on the National Priorities List under the National Contingency Plan, for amounts expended by a State for remedial action at such facility pursuant to a contract or cooperative agreement with the President. The credit under this paragraph shall be limited

to those State expenses which the President determines to be reasonable, documented, direct out-of-pocket expenditures of non-Federal funds.

"(B) EXPENSES BEFORE LISTING OR AGREEMENT.—The credit under this paragraph shall include expenses for remedial action at a facility incurred before the listing of the facility on the National Priorities List or before a contract or cooperative agreement is entered into under subsection (d) for the facility if—

"(i) after such expenses are incurred the facility is listed on such list and a contract or cooperative agreement is entered into for the facility, and

"(ii) the President determines that such expenses would have been credited to the State under subparagraph (A) had the expenditures been made after listing of the facility on such list and after the date on which such contract or cooperative agreement is entered into.

"(C) RESPONSE ACTIONS BETWEEN 1978 AND 1980.—The credit under this paragraph shall include funds expended or obligated by the State or a political subdivision thereof after January 1, 1978, and before December 11, 1980, for cost-eligible response actions and claims for damages compensable under section 111.

"(D) STATE EXPENSES AFTER DECEMBER 11, 1980, IN EXCESS OF 10 PERCENT OF COSTS.—The credit under this paragraph shall include 90 percent of State expenses incurred at a facility owned, but not operated, by such State or by a political subdivision thereof. Such credit applies only to expenses incurred pursuant to a contract or cooperative agreement under subsection (d) and only to expenses incurred after December 11, 1980, but before the date of the enactment of this paragraph.

"(E) ITEM-BY-ITEM APPROVAL.—In the case of expenditures made after the date of the enactment of this paragraph, the President may require prior approval of each item of expenditure as a condition of granting a credit under this paragraph.

"(F) USE OF CREDITS.—Credits granted under this paragraph for funds expended with respect to a facility may be used by the State to reduce all or part of the share of costs otherwise required to be paid by the State under paragraph (3) in connection with remedial actions at such facility. If the amount of funds for which credit is allowed under this paragraph exceeds such share of costs for such facility, the State may use the amount of such excess to reduce all or part of the share of such costs at other facilities in that State. A credit shall not entitle the State to any direct payment.".

(i) TREATMENT OF CERTAIN ACTIVITIES AS MAINTENANCE OR REMEDIAL ACTION.—Section 104(c) of CERCLA is amended by adding the following new paragraphs after paragraph (5):

"(6) OPERATION AND MAINTENANCE.—For the purposes of paragraph (3) of this subsection, in the case of ground or surface water contamination, completed remedial action includes the completion of treatment or other measures, whether taken onsite or offsite, necessary to restore ground and surface water quality to a level that assures protection of human health and the environment. With respect to such measures, the operation of such measures for a period of up to 10 years after the construction or installation and commencement of operation shall be considered remedial action. Activities required to maintain the effectiveness of such measures following such period or the completion of remedial action, whichever is earlier, shall be considered operation or maintenance.

"(7) LIMITATION ON SOURCE OF FUNDS FOR O&M.—During any period after the availability of funds received by the Hazardous Substance Superfund established under subchapter A of chapter 98 of the Internal Revenue Code of 1954 from tax revenues or appropriations from general revenues, the Federal share of the payment of the cost of operation or maintenance pursuant to paragraph (3)(C)(i) or paragraph (6) of this subsection (relating to operation and maintenance) shall be from funds received by the Hazardous Substance Superfund from amounts recovered on behalf of such fund under this Act.".

(j) RECONTRACTING.—Section 104(c) of CERCLA is amended by adding the following new paragraph after paragraph (7):

"(8) RECONTRACTING.—The President is authorized to undertake or continue whatever interim remedial actions the President determines to be appropriate to reduce risks to public health or the environment where the performance of a complete remedial action requires recontracting because of the discovery of sources, types, or quantities of hazardous substances not known at the time of entry into the original contract. The total cost of interim actions undertaken at a facility pursuant to this paragraph shall not exceed $2,000,000.".

(k) SITING.—Section 104(c) of CERCLA is amended by adding the following new paragraph after paragraph (8):

"(9) SITING.—Effective 3 years after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the President shall not provide any remedial actions pursuant to this section unless the State in which the release occurs first enters into a contract or cooperative agreement with the President providing assurances deemed adequate by the President that the State will assure the availability of hazardous waste treatment or disposal facilities which—

"(A) have adequate capacity for the destruction, treatment, or secure disposition of all hazardous wastes that are reasonably expected to be generated within the State during the 20-year period following the date of such contract or cooperative agreement and to be disposed of, treated, or destroyed,

"(B) are within the State or outside the State in accordance with an interstate agreement or regional agreement or authority,

"(C) are acceptable to the President, and

"(D) are in compliance with the requirements of subtitle C of the Solid Waste Disposal Act.".

(l) COOPERATIVE AGREEMENTS WITH STATES.—Section 104(d)(1) of CERCLA is amended to read as follows:

"(1) COOPERATIVE AGREEMENTS.—

"(A) STATE APPLICATIONS.—A State or political subdivision thereof or Indian tribe may apply to the President to carry out actions authorized in this section. If the President determines that the State or political subdivision or Indian tribe has the capability to carry out any or all of such actions in accordance with the criteria and priorities established pursuant to section 105(a)(8) and to carry out related enforcement actions, the President may enter into a contract or cooperative agreement with the State or political subdivision or Indian tribe to carry out such actions. The President shall make a determination regarding such an application within 90 days after the President receives the application.

"(B) TERMS AND CONDITIONS.—A contract or cooperative agreement under this paragraph shall be subject to such terms and conditions as the President may prescribe. The contract or cooperative agreement may cover a specific facility or specific facilities.

"(C) REIMBURSEMENTS.—Any State which expended funds during the period beginning September 30, 1985, and ending on the date of the enactment of this subparagraph for response actions at any site included on the National Priorities List and subject to a cooperative agreement under this Act shall be reimbursed for the share of costs of such actions for which the Federal Government is responsible under this Act.".

(m) INFORMATION GATHERING AND ACCESS AUTHORITIES.—Section 104(e) of CERCLA is amended by redesignating paragraph (2) as paragraph (7) and aligning the margin of such paragraph with paragraphs (1) through (6) of such subsection, by inserting "CONFIDENTIALITY OF INFORMATION.—" before "(A) Any records", by striking out paragraph (1), and by striking out "(e)" and inserting in lieu thereof the following:

"(e) INFORMATION GATHERING AND ACCESS.—

"(1) ACTION AUTHORIZED.—Any officer, employee, or representative of the President, duly designated by the President, is authorized to take action under paragraph (2), (3), or (4) (or any combination thereof) at a vessel, facility, establishment, place, property, or location or, in the case of paragraph (3) or (4), at any vessel, facility, establishment, place, property, or location which is adjacent to the vessel, facility, establishment, place, property, or location referred to in such paragraph (3) or (4). Any duly designated officer, employee, or representative of a State or political subdivision under a contract or cooperative agreement under subsection (d)(1) is also authorized to take such action. The authority of paragraphs (3) and (4) may be exercised only if there is a reasonable basis to believe there may be a release or threat of release of a hazardous substance or pollutant or contaminant. The authority of this subsection may be exercised only for the purposes of determining the need for response, or choosing or taking any response action under this title, or otherwise enforcing the provisions of this title.

"(2) ACCESS TO INFORMATION.—Any officer, employee, or representative described in paragraph (1) may require any person who has or may have information relevant to any of the following to furnish, upon reasonable notice, information or documents relating to such matter:

"(A) The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility or transported to a vessel or facility.

"(B) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility.

"(C) Information relating to the ability of a person to pay for or to perform a cleanup.

In addition, upon reasonable notice, such person either (i) shall grant any such officer, employee, or representative access at all reasonable times to any vessel, facility, establishment, place, property, or location to inspect and copy all documents or records relating to such matters or (ii) shall copy and furnish to the officer, employee, or representative all such documents or records, at the option and expense of such person.

"(3) ENTRY.—Any officer, employee, or representative described in paragraph (1) is authorized to enter at reasonable times any of the following:

"(A) Any vessel, facility, establishment, or other place or property where any hazardous substance or pollutant or contaminant may be or has been generated, stored, treated, disposed of, or transported from.

"(B) Any vessel, facility, establishment, or other place or property from which or to which a hazardous substance or pollutant or contaminant has been or may have been released.

"(C) Any vessel, facility, establishment, or other place or property where such release is or may be threatened.

"(D) Any vessel, facility, establishment, or other place or property where entry is needed to determine the need for response or the appropriate response or to effectuate a response action under this title.

"(4) INSPECTION AND SAMPLES.—

"(A) AUTHORITY.—Any officer, employee or representative described in paragraph (1) is authorized to inspect and obtain samples from any vessel, facility, establishment, or other place or property referred to in paragraph (3) or from any location of any suspected hazardous substance or pollutant or contaminant. Any such officer, employee, or representative is authorized to inspect and obtain samples of any containers or labeling for suspected hazardous substances or pollutants or contaminants. Each such inspection shall be completed with reasonable promptness.

"(B) SAMPLES.—If the officer, employee, or representative obtains any samples, before leaving the premises he shall give to the owner, operator, tenant, or other person in charge of the place from which the samples were obtained a receipt describing the sample obtained and, if requested, a portion of each such sample. A copy of the results of any analysis made of such samples shall be furnished promptly to the owner, operator, tenant, or other person in charge, if such person can be located.

"(5) COMPLIANCE ORDERS.—

"(A) ISSUANCE.—If consent is not granted regarding any request made by an officer, employee, or representative under paragraph (2), (3), or (4), the President may issue an order directing compliance with the request. The order may be issued after such notice and opportunity for consultation as is reasonably appropriate under the circumstances.

"(B) COMPLIANCE.—The President may ask the Attorney General to commence a civil action to compel compliance with a request or order referred to in subparagraph (A). Where there is a reasonable basis to believe there may be a release or threat of a release of a hazardous substance or pollutant or contaminant, the court shall take the following actions:

"(i) In the case of interference with entry or inspection, the court shall enjoin such interference or direct compliance with orders to prohibit interference with entry or inspection unless under the circumstances of the case the demand for entry or inspection is arbitrary and capricious, an abuse of discretion, or otherwise not in accordance with law.

"(ii) In the case of information or document requests or orders, the court shall enjoin interference with such information or document requests or orders or direct compliance with the requests or orders to provide such information or documents unless under the circumstances of the case the demand for information or documents is arbitrary and capricious, an abuse of discretion, or otherwise not in accordance with law.

The court may assess a civil penalty not to exceed $25,000 for each day of noncompliance against any person who unreasonably fails to comply with the provisions of paragraph (2), (3), or (4) or an order issued pursuant to subparagraph (A) of this paragraph.

"(6) OTHER AUTHORITY.—Nothing in this subsection shall preclude the President from securing access or obtaining information in any other lawful manner.".

(n) BASIS FOR WITHHOLDING INFORMATION.—Paragraph (7) of section 104(e) of CERCLA (formerly paragraph (2), as redesignated by subsection (l) of this section) is amended by adding the following new subparagraphs at the end thereof:

"(E) No person required to provide information under this Act may claim that the information is entitled to protection under this paragraph unless such person shows each of the following:

"(i) Such person has not disclosed the information to any other person, other than a member of a local emergency planning committee established under title III of the Amendments and Reauthorization Act of 1986, an officer or employee of the United States or a State or local government, an employee of such person, or a person who is bound by a confidentiality agreement, and such person has taken reasonable measures to protect the confidentiality of such information and intends to continue to take such measures.

"(ii) The information is not required to be disclosed, or otherwise made available, to the public under any other Federal or State law.

"(iii) Disclosure of the information is likely to cause substantial harm to the competitive position of such person.

"(iv) The specific chemical identity, if sought to be protected, is not readily discoverable through reverse engineering.

"(F) The following information with respect to any hazardous substance at the facility or vessel shall not be entitled to protection under this paragraph:

"(i) The trade name, common name, or generic class or category of the hazardous substance.

"(ii) The physical properties of the substance, including its boiling point, melting point, flash point, specific gravity, vapor density, solubility in water, and vapor pressure at 20 degrees celsius.

"(iii) The hazards to health and the environment posed by the substance, including physical hazards (such as explosion) and potential acute and chronic health hazards.

"(iv) The potential routes of human exposure to the substance at the facility, establishment, place, or property being investigated, entered, or inspected under this subsection.

"(v) The location of disposal of any waste stream.

"(vi) Any monitoring data or analysis of monitoring data pertaining to disposal activities.

"(vii) Any hydrogeologic or geologic data.

"(viii) Any groundwater monitoring data.".

(o) ACQUISITION OF PROPERTY.—

(1) IN GENERAL.—Section 104 of CERCLA is amended by adding the following new subsection at the end thereof:

"(j) ACQUISITION OF PROPERTY.—

"(1) AUTHORITY.—The President is authorized to acquire, by purchase, lease, condemnation, donation, or otherwise, any real property or any interest in real property that the President in his discretion determines is needed to conduct a remedial action under this Act. There shall be no cause of action to compel the President to acquire any interest in real property under this Act.

"(2) STATE ASSURANCE.—The President may use the authority of paragraph (1) for a remedial action only if, before an interest in real estate is acquired under this subsection, the State in which the interest to be acquired is located assures the President, through a contract or cooperative agreement or otherwise, that the State will accept transfer of the interest following completion of the remedial action.

"(3) EXEMPTION.—No Federal, State, or local government agency shall be liable under this Act solely as a result of acquiring an interest in real estate under this subsection.".

SEC. 105. NATIONAL CONTINGENCY PLAN.

(a) SUBSECTION (a) OF SECTION 105.—Section 105 of CERCLA is amended as follows:

(1) HEADING.—Insert "(a) REVISION AND REPUBLICATION.—" after "105.".

(2) HAZARD RANKING SYSTEM.—In paragraph (8)(A) insert the following after "ecosystems,": "the damage to natural resources which may affect the human food chain and which is associated with any release or threatened release, the contamination or potential contamination of the ambient air which is associated with the release or threatened release,".

(3) NATIONAL PRIORITY LIST.—In paragraph (8)(B):

(A) Strike out "at least four hundred of".

(B) Strike out "facilities at least" and insert in lieu thereof "facilities".

(C) Insert after "in such State." the following: "A State shall be allowed to designate its highest priority facility only once.".

(4) CONFORMING AMENDMENT.—In paragraph (9) insert after "therefor" the following: "and including consideration of minority firms in accordance with subsection (f)".

(5) STANDARDS AND PROCEDURES FOR INNOVATIVE TREATMENT TECHNOLOGIES.—Strike out "and" at the end of paragraph (8), strike out the period at the end of paragraph (9) and insert in lieu thereof "; and", and insert after paragraph (9) the following new paragraph:

"(10) standards and testing procedures by which alternative or innovative treatment technologies can be determined to be appropriate for utilization in response actions authorized by this Act.".

(b) NEW SUBSECTIONS.—Section 105 of CERCLA is amended by adding the following new subsections at the end thereof:

"(b) REVISION OF PLAN.—Not later than 18 months after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the President shall revise the National Contingency Plan to reflect the requirements of such amendments. The portion of such Plan known as 'the National Hazardous Substance Response Plan' shall be revised to provide procedures and standards for remedial actions undertaken pursuant to this Act which are consistent with amendments made by the Superfund Amendments and Reauthorization Act of 1986 relating to the selection of remedial action.

"(c) HAZARD RANKING SYSTEM.—

"(1) REVISION.—Not later than 18 months after the enactment of the Superfund Amendments and Reauthorization Act of 1986 and after publication of notice and opportunity for submission of comments in accordance with section 553 of title 5, United States Code, the President shall by rule pro-

mulgate amendments to the hazard ranking system in effect on September 1, 1984. Such amendments shall assure, to the maximum extent feasible, that the hazard ranking system accurately assesses the relative degree of risk to human health and the environment posed by sites and facilities subject to review. The President shall establish an effective date for the amended hazard ranking system which is not later than 24 months after enactment of the Superfund Amendments and Reauthorization Act of 1986. Such amended hazard ranking system shall be applied to any site or facility to be newly listed on the National Priorities List after the effective date established by the President. Until such effective date of the regulations, the hazard ranking system in effect on September 1, 1984, shall continue in full force and effect.

"(2) HEALTH ASSESSMENT OF WATER CONTAMINATION RISKS.—In carrying out this subsection, the President shall ensure that the human health risks associated with the contamination or potential contamination (either directly or as a result of the runoff of any hazardous substance or pollutant or contaminant from sites or facilities) of surface water are appropriately assessed where such surface water is, or can be, used for recreation or potable water consumption. In making the assessment required pursuant to the preceding sentence, the President shall take into account the potential migration of any hazardous substance or pollutant or contaminant through such surface water to downstream sources of drinking water.

"(3) REEVALUATION NOT REQUIRED.—The President shall not be required to reevaluate, after the date of the enactment of the Superfund Amendments and Reauthorization Act of 1986, the hazard ranking of any facility which was evaluated in accordance with the criteria under this section before the effective date of the amendments to the hazard ranking system under this subsection and which was assigned a national priority under the National Contingency Plan.

"(4) NEW INFORMATION.—Nothing in paragraph (3) shall preclude the President from taking new information into account in undertaking response actions under this Act.

"(d) PETITION FOR ASSESSMENT OF RELEASE.—Any person who is, or may be, affected by a release or threatened release of a hazardous substance or pollutant or contaminant, may petition the President to conduct a preliminary assessment of the hazards to public health and the environment which are associated with such release or threatened release. If the President has not previously conducted a preliminary assessment of such release, the President shall, within 12 months after the receipt of any such petition, complete such assessment or provide an explanation of why the assessment is not appropriate. If the preliminary assessment indicates that the release or threatened release concerned may pose a threat to human health or the environment, the President shall promptly evaluate such release or threatened release in accordance with the hazard ranking system referred to in paragraph (8)(A) of subsection (a) to determine the national priority of such release or threatened release.

"(e) RELEASES FROM EARLIER SITES.—Whenever there has been, after January 1, 1985, a significant release of hazardous substances or pollutants or contaminants from a site which is listed by the President as a 'Site Cleaned Up To Date' on the National Priorities List (revised edition, December 1984) the site shall be restored to the National Priorities List, without application of the hazard ranking system.

"(f) MINORITY CONTRACTORS.—In awarding contracts under this Act, the President shall consider the availability of qualified minority firms. The President shall describe, as part of any annual report submitted to the Congress under this Act, the participation of minority firms in contracts carried out under this Act. Such report shall contain a brief description of the contracts which have been awarded to minority firms under this Act and of the efforts made by the President to encourage the participation of such firms in programs carried out under this Act.

"(g) SPECIAL STUDY WASTES.—

"(1) APPLICATION—This subsection applies to facilities—

"(A) which as of the date of enactment of the Superfund Amendments and Reauthorization Act of 1986 were not included on, or proposed for inclusion on, the National Priorities List; and

"(B) at which special study wastes described in paragraph (2), (3)(A)(ii) or (3)(A)(iii) of section 3001(b) of the Solid Waste Disposal Act are present in significant quantities, including any such facility from which there has been a release of a special study waste.

"(2) CONSIDERATIONS IN ADDING FACILITIES TO NPL.—Pending revision of the hazard ranking system under subsection (c), the President shall consider each of the following factors in adding facilities covered by this section to the National Priorities List:

"(A) The extent to which hazard ranking system score for the facility is affected by the presence of any special study waste at, or any release from, such facility.

"(B) Available information as to the quantity, toxicity, and concentration of hazardous substances that are constituents of any special study waste at, or released from such facility, the extent of or potential for release of such hazardous constituents, the exposure or potential exposure to human population and the environment, and the degree of hazard to human health or the environment posed by the release of such hazardous constituents at such facility. This subparagraph refers only to available information on actual concentrations of hazardous substances and not on the total quantity of special study waste at such facility.

"(3) SAVINGS PROVISIONS.—Nothing in this subsection shall be construed to limit the authority of the President to remove any facility which as of the date of enactment of the Superfund Amendments and Reauthorization Act of 1986 is included on the National Priorities List from such List, or not to list any facility which as of such date is proposed for inclusion on such list.

"(4) INFORMATION GATHERING AND ANALYSIS.—Nothing in this Act shall be construed to preclude the expenditure of monies from the Fund for gathering and analysis of information which will enable the President to consider the specific factors required by paragraph (2).".

SEC. 106. REIMBURSEMENT.

Section 106(b) of CERCLA is amended as follows:

(1) Insert "(1)" after "(b)".

(2) Strike out "who willfully" and insert "who, without sufficient cause, willfully".

(3) Add at the end thereof the following new paragraph:

"(2)(A) Any person who receives and complies with the terms of any order issued under subsection (a) may, within 60 days after completion of the required action, petition the President for reimbursement from the Fund for the reasonable costs of such action, plus interest. Any interest payable under this paragraph shall accrue on the amounts expended from the date of expenditure at the same rate as specified for interest on investments of the Hazardous Substance Superfund established under subchapter A of chapter 98 of the Internal Revenue Code of 1954.

"(B) If the President refuses to grant all or part of a petition made under this paragraph, the petitioner may within 30 days of receipt of such refusal file an action against the President in the appropriate United States district court seeking reimbursement from the Fund.

"(C) Except as provided in subparagraph (D), to obtain reimbursement, the petitioner shall establish by a preponderance of the evidence that it is not liable for response costs under section 107(a) and that costs for which it seeks reimbursement are reasonable in light of the action required by the relevant order.

"(D) A petitioner who is liable for response costs under section 107(a) may also recover its reasonable costs of response to the extent that it can demonstrate, on the administrative record, that the President's decision in selecting the response action ordered was arbitrary and capricious or was otherwise not in accordance with law. Reimbursement awarded under this subparagraph shall include all reasonable response costs incurred by the petitioner pursuant to the portions of the order found to be arbitrary and capricious or otherwise not in accordance with law.

"(E) Reimbursement awarded by a court under subparagraph (C) or (D) may include appropriate costs, fees, and other expenses in accordance with subsections (a) and (d) of section 2412 of title 28 of the United States Code.".

SEC. 107. LIABILITY.

(a) FOREIGN VESSELS.—Section 107(a)(1) of CERCLA is amended by striking out "(otherwise subject to the jurisdiction of the United States)".

(b) RECOVERABLE COSTS AND DAMAGES.—Section 107(a) of CERCLA is amended by striking out "and" at the end of subparagraph (B), striking out the period at the end of subparagraph (C) and inserting "; and" and inserting at the end thereof the following:

"(D) the costs of any health assessment or health effects study carried out under section 104(i).

The amounts recoverable in an action under this section shall include interest on the amounts recoverable under subparagraphs (A) through (D). Such interest shall accrue from the later of (i) the date payment of a specified amount is demanded in writing, or (ii) the date of the expenditure concerned. The rate of interest on the outstanding unpaid balance of the amounts recoverable under this section shall be the same rate as is specified for interest on investments of the Hazardous Substance Superfund established under subchapter A of chapter 98 of the Internal Revenue Code of 1954. For purposes of applying such amendments to interest under this subsection, the term 'comparable maturity' shall be determined with reference to the date on which interest accruing under this subsection commences.".

(c) RENDERING CARE OR ADVICE; EMERGENCY RESPONSE ACTIONS.—Section 107(d) of CERCLA is amended to read as follows:

"(d) RENDERING CARE OR ADVICE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), no person shall be liable

under this title for costs or damages as a result of actions taken or omitted in the course of rendering care, assistance, or advice in accordance with the National Contingency Plan ('NCP') or at the direction of an onscene coordinator appointed under such plan, with respect to an incident creating a danger to public health or welfare or the environment as a result of any releases of a hazardous substance or the threat thereof. This paragraph shall not preclude liability for costs or damages as the result of negligence on the part of such person.

"(2) STATE AND LOCAL GOVERNMENTS.—No State or local government shall be liable under this title for costs or damages as a result of actions taken in response to an emergency created by the release or threatened release of a hazardous substance generated by or from a facility owned by another person. This paragraph shall not preclude liability for costs or damages as a result of gross negligence or intentional misconduct by the State or local government. For the purpose of the preceding sentence, reckless, willful, or wanton misconduct shall constitute gross negligence.

"(3) SAVINGS PROVISION.—This subsection shall not alter the liability of any person covered by the provisions of paragraph (1), (2), (3), or (4) of subsection (a) of this section with respect to the release or threatened release concerned.".

(d) NATURAL RESOURCES.—

(1) DESIGNATION OF FEDERAL AND STATE OFFICIALS.—Section 107(f) of CERCLA is amended by inserting "(1) NATURAL RESOURCES LIABILITY.—" after "(f)" and by adding at the end thereof the following new paragraphs:

"(2) DESIGNATION OF FEDERAL AND STATE OFFICIALS.—

"(A) FEDERAL.—The President shall designate in the National Contingency Plan published under section 105 of this Act the Federal officials who shall act on behalf of the public as trustees for natural resources under this Act and section 311 of the Federal Water Pollution Control Act. Such officials shall assess damages for injury to, destruction of, or loss of natural resources for purposes of this Act and such section 311 for those resources under their trusteeship and may, upon request of and reimbursement from a State and at the Federal officials' discretion, assess damages for those natural resources under the State's trusteeship.

"(B) STATE.—The Governor of each State shall designate State officials who may act on behalf of the public as trustee for natural resources under this Act and section 311 of the Federal Water Pollution Control Act and shall notify the President of such designations. Such State officials shall assess damages to natural resources for the purposes of this Act and such section 311 for those natural resources under their trusteeship.

"(C) REBUTTABLE PRESUMPTION.—Any determination or assessment of damages to natural resources for the purposes of this Act and section 311 of the Federal Water Pollution Control Act made by a Federal or State trustee in accordance with the regulations promulgated under section 301(c) of this Act shall have the force and effect of a rebuttable presumption on behalf of the trustee in any administrative or judicial proceeding under this Act or section 311 of the Federal Water Pollution Control Act.".

(2) USE OF RECOVERED FUNDS.—Section 107(f)(1) of CERCLA (as designated by paragraph (1) of this subsection) is amended by striking out the third sentence and inserting in lieu thereof the following: "Sums recovered by the United States Government as trustee under this subsection shall be retained by the trustee, without further appropriation, for use only to restore, replace, or acquire the equivalent of such natural resources. Sums recovered by a State as trustee under this subsection shall be available for use only to restore, replace, or acquire the equivalent of such natural resources by the State. The measure of damages in any action under subparagraph (C) of subsection (a) shall not be limited by the sums which can be used to restore or replace such resources. There shall be no double recovery under this Act for natural resource damages, including the costs of damage assessment or restoration, rehabilitation, or acquisition for the same release and natural resource".

(3) DEADLINE FOR SECTION 301 REGULATIONS.—Section 301(c)(1) of CERCLA is amended by adding the following at the end thereof: "Notwithstanding the failure of the President to promulgate the regulations required under this subsection on the required date, the President shall promulgate such regulations not later than 6 months after the enactment of the Superfund Amendments and Reauthorization Act of 1986.".

(e) FEDERAL AGENCIES.—Section 107(g) of CERCLA is amended to read as follows:

"(g) FEDERAL AGENCIES.—For provisions relating to Federal agencies, see section 120 of this Act."

(f) FEDERAL LIEN.—Section 107 of CERCLA is amended by adding at the end thereof the following new subsection:

"(l) FEDERAL LIEN.—

"(1) IN GENERAL.—All costs and damages for which a person is liable to the United States under subsection (a) of this section (other than the owner or operator of a vessel under paragraph (1) of subsection (a)) shall constitute a lien in favor of the United States upon all real property and rights to such property which—

"(A) belong to such person; and

"(B) are subject to or affected by a removal or remedial action.

"(2) DURATION.—The lien imposed by this subsection shall arise at the later of the following:

"(A) The time costs are first incurred by the United States with respect to a response action under this Act.

"(B) The time that the person referred to in paragraph (1) is provided (by certified or registered mail) written notice of potential liability.

Such lien shall continue until the liability for the costs (or a judgment against the person arising out of such liability) is satisfied or becomes unenforceable through operation of the statute of limitations provided in section 113.

"(3) NOTICE AND VALIDITY.—The lien imposed by this subsection shall be subject to the rights of any purchaser, holder of a security interest, or judgment lien creditor whose interest is perfected under applicable State law before notice of the lien has been filed in the appropriate office within the State (or county or other governmental subdivision), as designated by State law, in which the real property subject to the lien is located. Any such purchaser, holder of a security interest, or judgment lien creditor shall be afforded the same protections against the lien imposed by this subsection as are afforded under State law against a judgment lien which arises out of an unsecured obligation and which arises as of the time of the filing of the notice of the lien imposed by this subsection. If the State has not by law designated one office for the receipt of such notices of liens, the notice shall be filed in the office of the clerk of the United States district court for the district in which the real property is located. For purposes of this subsection, the terms 'purchaser' and 'security interest' shall have the definitions provided under section 6323(h) of the Internal Revenue Code of 1954.

"(4) ACTION IN REM.—The costs constituting the lien may be recovered in an action in rem in the United States district court for the district in which the removal or remedial action is occurring or has occurred. Nothing in this subsection shall affect the right of the United States to bring an action against any person to recover all costs and damages for which such person is liable under subsection (a) of this section.

"(m) MARITIME LIEN.—All costs and damages for which the owner or operator of a vessel is liable under subsection (a)(1) with respect to a release or threatened release from such vessel shall constitute a maritime lien in favor of the United States on such vessel. Such costs may be recovered in an action in rem in the district court of the United States for the district in which the vessel may be found. Nothing in this subsection shall affect the right of the United States to bring an action against the owner or operator of such vessel in any court of competent jurisdiction to recover such costs.".

SEC. 108. FINANCIAL RESPONSIBILITY.

(a) EVIDENCE OF FINANCIAL RESPONSIBILITY.—Section 108(b)(2) of CERCLA is amended by adding the following at the end thereof: "Financial responsibility may be established by any one, or any combination, of the following: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In promulgating requirements under this section, the President is authorized to specify policy or other contractual terms, conditions, or defenses which are necessary, or which are unacceptable, in establishing such evidence of financial responsibility in order to effectuate the purposes of this Act.".

(b) PHASE-IN PERIOD.—Section 108(b)(3) of CERCLA is amended by striking out "over a period of not less than three and no more than six years" and inserting in lieu thereof "as quickly as can reasonably be achieved but in no event more than 4 years".

(c) DIRECT ACTION; LIABILITY.—Subsections (c) and (d) of section 108 of CERCLA are amended to read as follows:

"(c) DIRECT ACTION.—

"(1) RELEASES FROM VESSELS.—In the case of a release or threatened release from a vessel, any claim authorized by section 107 or 111 may be asserted directly against any guarantor providing evidence of financial responsibility for such vessel under subsection (a). In defending such a claim, the guarantor may invoke all rights and defenses which would be available to the owner or operator under this title. The guarantor may also invoke the defense that the incident was caused by the willful misconduct of the owner or operator, but the guarantor may not invoke any other defense that the guarantor might have been entitled to invoke in a proceeding brought by the owner or operator against him.

"(2) RELEASES FROM FACILITIES.—In the case of a release or threatened release from a facility, any claim authorized by section 107 or 111 may be asserted directly against any guarantor providing evidence of financial responsibility for such facility under subsection (b), if the person liable under section 107 is in bankruptcy, reorganization, or ar-

rangement pursuant to the Federal Bankruptcy Code, or if, with reasonable diligence, jurisdiction in the Federal courts cannot be obtained over a person liable under section 107 who is likely to be solvent at the time of judgment. In the case of any action pursuant to this paragraph, the guarantor shall be entitled to invoke all rights and defenses which would have been available to the person liable under section 107 if any action had been brought against such person by the claimant and all rights and defenses which would have been available to the guarantor if an action had been brought against the guarantor by such person.

"(d) LIMITATION OF GUARANTOR LIABILITY.—

"(1) TOTAL LIABILITY.—The total liability of any guarantor in a direct action suit brought under this section shall be limited to the aggregate amount of the monetary limits of the policy of insurance, guarantee, surety bond, letter of credit, or similar instrument obtained from the guarantor by the person subject to liability under section 107 for the purpose of satisfying the requirement for evidence of financial responsibility.

"(2) OTHER LIABILITY.—Nothing in this subsection shall be construed to limit any other State or Federal statutory, contractual, or common law liability of a guarantor, including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subsection shall be construed, interpreted, or applied to diminish the liability of any person under section 107 of this Act or other applicable law.".

SEC. 109. PENALTIES.

(a) VIOLATIONS AND CRIMINAL PENALTIES.—

(1) NOTICE.—Section 103(b) of CERCLA is amended as follows:

(A) Insert after "knowledge of such release" the following: "or who submits in such a notification any information which he knows to be false or misleading".

(B) Strike out "not more than $10,000 or imprisoned for not more than one year, or both" and insert in lieu thereof "in accordance with the applicable provisions of title 18 of the United States Code or imprisoned for not more than 3 years (or not more than 5 years in the case of a second or subsequent conviction), or both".

(2) DESTRUCTION OF RECORDS.—Section 103(d)(2) of CERCLA is amended by striking out "not more than $20,000, or imprisoned for not more than one year or both." and inserting in lieu thereof "in accordance with the applicable provisions of title 18 of the United States Code or imprisoned for not more than 3 years (or not more than 5 years in the case of a second or subsequent conviction), or both.".

(3) FALSE INFORMATION.—Section 112(b)(1) of CERCLA is amended by striking out "up to $5,000 or imprisoned for not more than one year, or both" and inserting in lieu thereof "in accordance with the applicable provisions of title 18 of the United States Code or imprisoned for not more than 3 years (or not more than 5 years in the case of a second or subsequent conviction), or both".

(b) SECTION 106 PENALTY.—Section 106(b) of CERCLA is amended by striking out "$5,000" and inserting in lieu thereof "$25,000".

(c) CIVIL PENALTIES AND AWARDS.—Section 109 of CERCLA is amended to read as follows:

"SEC. 109. CIVIL PENALTIES AND AWARDS.

"(a) CLASS I ADMINISTRATIVE PENALTY.—

"(1) VIOLATIONS.—A civil penalty of not more than $25,000 per violation may be assessed by the President in the case of any of the following—

"(A) A violation of the requirements of section 103(a) or (b) (relating to notice).

"(B) A violation of the requirements of section 103(d)(2) (relating to destruction of records, etc.).

"(C) A violation of the requirements of section 108 (relating to financial responsibility, etc.), the regulations issued under section 108, or with any denial or detention order under section 108.

"(D) A violation of an order under section 122(d)(3) (relating to settlement agreements for action under section 104(b)).

"(E) Any failure or refusal referred to in section 122(l) (relating to violations of administrative orders, consent decrees, or agreements under section 120).

"(2) NOTICE AND HEARINGS.—No civil penalty may be assessed under this subsection unless the person accused of the violation is given notice and opportunity for a hearing with respect to the violation.

"(3) DETERMINING AMOUNT.—In determining the amount of any penalty assessed pursuant to this subsection, the President shall take into account the nature, circumstances, extent and gravity of the violation or violations and, with respect to the violator, ability to pay, any prior history of such violations, the degree of culpability, economic benefit or savings (if any) resulting from the violation, and such other matters as justice may require.

"(4) REVIEW.—Any person against whom a civil penalty is assessed under this subsection may obtain review thereof in the appropriate district court of the United States by filing a notice of appeal in such court within 30 days from the date of such order and by simultaneously sending a copy of such notice by certified mail to the President. The President shall promptly file in such court a certified copy of the record upon which such violation was found or such penalty imposed. If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the United States, the President may request the Attorney General of the United States to institute a civil action in an appropriate district court of the United States to collect the penalty, and such court shall have jurisdiction to hear and decide any such action. In hearing such action, the court shall have authority to review the violation and the assessment of the civil penalty on the record.

"(5) SUBPOENAS.—The President may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, or documents in connection with hearings under this subsection. In case of contumacy or refusal to obey a subpoena issued pursuant to this paragraph and served upon any person, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the administrative law judge or to appear and produce documents before the administrative law judge, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

"(b) CLASS II ADMINISTRATIVE PENALTY.—A civil penalty of not more than $25,000 per day for each day during which the violation continues may be assessed by the President in the case of any of the following—

"(1) A violation of the notice requirements of section 103(a) or (b).

"(2) A violation of section 103(d)(2) (relating to destruction of records, etc.).

"(3) A violation of the requirements of section 108 (relating to financial responsibility, etc.), the regulations issued under section 108, or with any denial or detention order under section 108.

"(4) A violation of an order under section 122(d)(3) (relating to settlement agreements for action under section 104(b)).

"(5) Any failure or refusal referred to in section 122(l) (relating to violations of administrative orders, consent decrees, or agreements under section 120).

In the case of a second or subsequent violation the amount of such penalty may be not more than $75,000 for each day during which the violation continues. Any civil penalty under this subsection shall be assessed and collected in the same manner, and subject to the same provisions, as in the case of civil penalties assessed and collected after notice and opportunity for hearing on the record in accordance with section 554 of title 5 of the United States Code. In any proceeding for the assessment of a civil penalty under this subsection the President may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents and may promulgate rules for discovery procedures. Any person who requested a hearing with respect to a civil penalty under this subsection and who is aggrieved by an order assessing the civil penalty may file a petition for judicial review of such order with the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which such person resides or transacts business. Such a petition may only be filed within the 30-day period beginning on the date the order making such assessment was issued.

"(c) JUDICIAL ASSESSMENT.—The President may bring an action in the United States district court for the appropriate district to assess and collect a penalty of not more than $25,000 per day for each day during which the violation (or failure or refusal) continues in the case of any of the following—

"(1) A violation of the notice requirements of section 103(a) or (b).

"(2) A violation of section 103(d)(2) (relating to destruction of records, etc.).

"(3) A violation of the requirements of section 108 (relating to financial responsibility, etc.), the regulations issued under section 108, or with any denial or detention order under section 108.

"(4) A violation of an order under section 122(d)(3) (relating to settlement agreements for action under section 104(b)).

"(5) Any failure or refusal referred to in section 122(l) (relating to violations of administrative orders, consent decrees, or agreements under section 120).

In the case of a second or subsequent violation (or failure or refusal), the amount of such penalty may be not more than $75,000 for each day during which the violation (or failure or refusal) continues. For additional provisions providing for judicial assessment of civil penalties for failure to comply with a request or order under section 104(e) (relating to information gathering and access authorities), see section 104(e).

"(d) AWARDS.—The President may pay an award of up to $10,000 to any individual who provides information leading to the arrest and conviction of any person for a violation subject to a criminal penalty under this Act, including any violation of section 103 and any other violation referred to in this section. The President shall, by regulation, prescribe criteria for such an award and may pay any award under this subsection from the Fund, as provided in section 111.

"(e) PROCUREMENT PROCEDURES—Notwithstanding any other provision of law, any executive agency may use competitive procedures or procedures other than competitive procedures to procure the services of experts for use in preparing or prosecuting a civil or criminal action under this Act, whether or not the expert is expected to testify at trial. The executive agency need not provide any written justification for the use of procedures other than competitive procedures when procuring such expert services under this Act and need not furnish for publication in the Commerce Business Daily or otherwise any notice of solicitation or synopsis with respect to such procurement.

"(f) SAVINGS CLAUSE.—Action taken by the President pursuant to this section shall not affect or limit the President's authority to enforce any provisions of this Act.".

SEC. 110. HEALTH-RELATED AUTHORITIES.

Section 104(i) of CERCLA is amended as follows:

(1) Insert "(1)" after "(i)" and redesignate paragraphs (1), (2), (3), (4), and (5) as subparagraphs (A), (B), (C), (D), and (E).

(2) In paragraph (1), strike "and" after "Health Administration," and insert after "Social Security Administration," the following: "the Secretary of Transportation, and appropriate State and local health officials,".

(3) Insert after "chromosomal testing" in subparagraph (D)(as redesignated by paragraph (1) of this subsection) the following: "where appropriate".

(4) Add the following new paragraphs at the end thereof:

"(2)(A) Within 6 months after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the Administrator of the Agency for Toxic Substances and Disease Registry (ATSDR) and the Administrator of the Environmental Protection Agency ("EPA") shall prepare a list, in order of priority, of at least 100 hazardous substances which are most commonly found at facilities on the National Priorities List and which, in their sole discretion, they determine are posing the most significant potential threat to human health due to their known or suspected toxicity to humans and the potential for human exposure to such substances at facilities on the National Priorities List or at facilities to which a response to a release or a threatened release under this section is under consideration.

"(B) Within 24 months after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the Administrator of ATSDR and the Administrator of EPA shall revise the list prepared under subparagraph (A). Such revision shall include, in order of priority, the addition of 100 or more such hazardous substances. In each of the 3 consecutive 12-month periods that follow, the Administrator of ATSDR and the Administrator of EPA shall revise, in the same manner as provided in the 2 preceding sentences, such list to include not fewer than 25 additional hazardous substances per revision. The Administrator of ATSDR and the Administrator of EPA shall not less often than once every year thereafter revise such list to include additional hazardous substances in accordance with the criteria in subparagraph (A).

"(3) Based on all available information, including information maintained under paragraph (1)(B) and data developed and collected on the health effects of hazardous substances under this paragraph, the Administrator of ATSDR shall prepare toxicological profiles of each of the substances listed pursuant to paragraph (2). The toxicological profiles shall be prepared in accordance with guidelines developed by the Administrator of ATSDR and the Administrator of EPA. Such profiles shall include, but not be limited to each of the following:

"(A) An examination, summary, and interpretation of available toxicological information and epidemiologic evaluations on a hazardous substance in order to ascertain the levels of significant human exposure for the substance and the associated acute, subacute, and chronic health effects.

"(B) A determination of whether adequate information on the health effects of each substance is available or in the process of development to determine levels of exposure which present a significant risk to human health of acute, subacute, and chronic health effects.

"(C) Where appropriate, an identification of toxicological testing needed to identify the types or levels of exposure that may present significant risk of adverse health effects in humans.

Any toxicological profile or revision thereof shall reflect the Administrator of ATSDR's assessment of all relevant toxicological testing which has been peer reviewed. The profiles required to be prepared under this paragraph for those hazardous substances listed under subparagraph (A) of paragraph (2) shall be completed, at a rate of no fewer than 25 per year, within 4 years after the enactment of the Superfund Amendments and Reauthorization Act of 1986. A profile required on a substance listed pursuant to subparagraph (B) of paragraph (2) shall be completed within 3 years after addition to the list. The profiles prepared under this paragraph shall be of those substances highest on the list of priorities under paragraph (2) for which profiles have not previously been prepared. Profiles required under this paragraph shall be revised and republished as necessary, but no less often than once every 3 years. Such profiles shall be provided to the States and made available to other interested parties.

"(4) The Administrator of the ATSDR shall provide consultations upon request on health issues relating to exposure to hazardous or toxic substances, on the basis of available information, to the Administrator of EPA, State officials, and local officials. Such consultations to individuals may be provided by States under cooperative agreements established under this Act.

"(5)(A) For each hazardous substance listed pursuant to paragraph (2), the Administrator of ATSDR (in consultation with the Administrator of EPA and other agencies and programs of the Public Health Service) shall assess whether adequate information on the health effects of such substance is available. For any such substance for which adequate information is not available (or under development), the Administrator of ATSDR, in cooperation with the Director of the National Toxicology Program, shall assure the initiation of a program of research designed to determine the health effects (and techniques for development of methods to determine such health effects) of such substance. Where feasible, such program shall seek to develop methods to determine the health effects of such substance in combination with other substances with which it is commonly found. Before assuring the initiation of such program, the Administrator of ATSDR shall consider recommendations of the Interagency Testing Committee established under section 4(e) of the Toxic Substances Control Act on the types of research that should be done. Such program shall include, to the extent necessary to supplement existing information, but shall not be limited to—

"(i) laboratory and other studies to determine short, intermediate, and long-term health effects;

"(ii) laboratory and other studies to determine organ-specific, site-specific, and system-specific acute and chronic toxicity;

"(iii) laboratory and other studies to determine the manner in which such substances are metabolized or to otherwise develop an understanding of the biokinetics of such substances; and

"(iv) where there is a possibility of obtaining human data, the collection of such information.

"(B) In assessing the need to perform laboratory and other studies, as required by subparagraph (A), the Administrator of ATSDR shall consider—

"(i) the availability and quality of existing test data concerning the substance on the suspected health effect in question;

"(ii) the extent to which testing already in progress will, in a timely fashion, provide data that will be adequate to support the preparation of toxicological profiles as required by paragraph (3); and

"(iii) such other scientific and technical factors as the Administrator of ATSDR may determine are necessary for the effective implementation of this subsection.

"(C) In the development and implementation of any research program under this paragraph, the Administrator of ATSDR and the Administrator of EPA shall coordinate such research program implemented under this paragraph with the National Toxicology Program and with programs of toxicological testing established under the Toxic Substances Control Act and the Federal Insecticide, Fungicide and Rodenticide Act. The purpose of such coordination shall be to avoid duplication of effort and to assure that the hazardous substances listed pursuant to this subsection are tested thoroughly at the earliest practicable date. Where appropriate, consistent with such purpose, a research program under this paragraph may be carried out using such programs of toxicological testing.

"(D) It is the sense of the Congress that the costs of research programs under this paragraph be borne by the manufacturers and processors of the hazardous substance in question, as required in programs of toxicological testing under the Toxic Substances Control Act. Within 1 year after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the Administrator of EPA shall promulgate regulations which provide, where appropriate, for payment of such costs by manufacturers and processors under the Toxic Substances Control Act, and registrants under the Federal Insecticide, Fungicide, and Rodenticide Act, and recovery of such costs from responsible parties under this Act.

"(6)(A) The Administrator of ATSDR shall perform a health assessment for each facility

on the National Priorities List established under section 105. Such health assessment shall be completed not later than December 10, 1988, for each facility proposed for inclusion on such list prior to the date of the enactment of the Superfund Amendments and Reauthorization Act of 1986 or not later than one year after the date of proposal for inclusion on such list for each facility proposed for inclusion on such list after such date of enactment.

"(B) The Administrator of ATSDR may perform health assessments for releases or facilities where individual persons or licensed physicians provide information that individuals have been exposed to a hazardous substance, for which the probable source of such exposure is a release. In addition to other methods (formal or informal) of providing such information, such individual persons or licensed physicians may submit a petition to the Administrator of ATSDR providing such information and requesting a health assessment. If such a petition is submitted and the Administrator of ATSDR does not initiate a health assessment, the Administrator of ATSDR shall provide a written explanation of why a health assessment is not appropriate.

"(C) In determining the priority in which to conduct health assessments under this subsection, the Administrator of ATSDR, in consultation with the Administrator of EPA, shall give priority to those facilities at which there is documented evidence of the release of hazardous substances, at which the potential risk to human health appears highest, and for which in the judgment of the Administrator of ATSDR existing health assessment data are inadequate to assess the potential risk to human health as provided in subparagraph (F). In determining the priorities for conducting health assessments under this subsection, the Administrator of ATSDR shall consider the National Priorities List schedules and the needs of the Environmental Protection Agency and other Federal agencies pursuant to schedules for remedial investigation and feasibility studies.

"(D) Where a health assessment is done at a site on the National Priorities List, the Administrator of ATSDR shall complete such assessment promptly and, to the maximum extent practicable, before the completion of the remedial investigation and feasibility study at the facility concerned.

"(E) Any State or political subdivision carrying out a health assessment for a facility shall report the results of the assessment to the Administrator of ATSDR and the Administrator of EPA and shall include recommendations with respect to further activities which need to be carried out under this section. The Administrator of ATSDR shall state such recommendation in any report on the results of any assessment carried out directly by the Administrator of ATSDR for such facility and shall issue periodic reports which include the results of all the assessments carried out under this subsection.

"(F) For the purposes of this subsection and section 111(c)(4), the term 'health assessments' shall include preliminary assessments of the potential risk to human health posed by individual sites and facilities, based on such factors as the nature and extent of contamination, the existence of potential pathways of human exposure (including ground or surface water contamination, air emissions, and food chain contamination), the size and potential susceptibility of the community within the likely pathways of exposure, the comparison of expected human exposure levels to the short-term and long-term health effects associated with identified hazardous substances and any available recommended exposure or tolerance limits for such hazardous substances, and the comparison of existing morbidity and mortality data on diseases that may be associated with the observed levels of exposure. The Administrator of ATSDR shall use appropriate data, risk assessments, risk evaluations and studies available from the Administrator of EPA.

"(G) The purpose of health assessments under this subsection shall be to assist in determining whether actions under paragraph (11) of this subsection should be taken to reduce human exposure to hazardous substances from a facility and whether additional information on human exposure and associated health risks is needed and should be acquired by conducting epidemiological studies under paragraph (7), establishing a registry under paragraph (8), establishing a health surveillance program under paragraph (9), or through other means. In using the results of health assessments for determining additional actions to be taken under this section, the Administrator of ATSDR may consider additional information on the risks to the potentially affected population from all sources of such hazardous substances including known point or nonpoint sources other than those from the facility in question.

"(H) At the completion of each health assessment, the Administrator of ATSDR shall provide the Administrator of EPA and each affected State with the results of such assessment, together with any recommendations for further actions under this subsection or otherwise under this Act. In addition, if the health assessment indicates that the release or threatened release concerned may pose a serious threat to human health or the environment, the Administrator of ATSDR shall so notify the Administrator of EPA who shall promptly evaluate such release or threatened release in accordance with the hazard ranking system referred to in section 105(a)(8)(A) to determine whether the site shall be placed on the National Priorities List or, if the site is already on the list, the Administrator of ATSDR may recommend to the Administrator of EPA that the site be accorded a higher priority.

"(7)(A) Whenever in the judgment of the Administrator of ATSDR it is appropriate on the basis of the results of a health assessment, the Administrator of ATSDR shall conduct a pilot study of health effects for selected groups of exposed individuals in order to determine the desirability of conducting full scale epidemiological or other health studies of the entire exposed population.

"(B) Whenever in the judgment of the Administrator of ATSDR it is appropriate on the basis of the results of such pilot study or other study or health assessment, the Administrator of ATSDR shall conduct such full scale epidemiological or other health studies as may be necessary to determine the health effects on the population exposed to hazardous substances from a release or threatened release. If a significant excess of disease in a population is identified, the letter of transmittal of such study shall include an assessment of other risk factors, other than a release, that may, in the judgment of the peer review group, be associated with such disease, if such risk factors were not taken into account in the design or conduct of the study.

"(8) In any case in which the results of a health assessment indicate a potential significant risk to human health, the Administrator of ATSDR shall consider whether the establishment of a registry of exposed persons would contribute to accomplishing the purposes of this subsection, taking into account circumstances bearing on the usefulness of such a registry, including the seriousness or unique character of identified diseases or the likelihood of population migration from the affected area.

"(9) Where the Administrator of ATSDR has determined that there is a significant increased risk of adverse health effects in humans from exposure to hazardous substances based on the results of a health assessment conducted under paragraph (6), an epidemiologic study conducted under paragraph (7), or an exposure registry that has been established under paragraph (8), and the Administrator of ATSDR has determined that such exposure is the result of a release from a facility, the Administrator of ATSDR shall initiate a health surveillance program for such population. This program shall include but not be limited to—

"(A) periodic medical testing where appropriate of population subgroups to screen for diseases for which the population or subgroup is at significant increased risk; and

"(B) a mechanism to refer for treatment those individuals within such population who are screened positive for such diseases.

"(10) Two years after the date of the enactment of the Superfund Amendments and Reauthorization Act of 1986, and every 2 years thereafter, the Administrator of ATSDR shall prepare and submit to the Administrator of EPA and to the Congress a report on the results of the activities of ATSDR regarding—

"(A) health assessments and pilot health effects studies conducted;

"(B) epidemiologic studies conducted;

"(C) hazardous substances which have been listed under paragraph (2), toxicological profiles which have been developed, and toxicologic testing which has been conducted or which is being conducted under this subsection;

"(D) registries established under paragraph (8); and

"(E) an overall assessment, based on the results of activities conducted by the Administrator of ATSDR, of the linkage between human exposure to individual or combinations of hazardous substances due to releases from facilities covered by this Act or the Solid Waste Disposal Act and any increased incidence or prevalence of adverse health effects in humans.

"(11) If a health assessment or other study carried out under this subsection contains a finding that the exposure concerned presents a significant risk to human health, the President shall take such steps as may be necessary to reduce such exposure and eliminate or substantially mitigate the significant risk to human health. Such steps may include the use of any authority under this Act, including, but not limited to—

"(A) provision of alternative water supplies, and

"(B) permanent or temporary relocation of individuals.

In any case in which information is insufficient, in the judgment of the Administrator of ATSDR or the President to determine a significant human exposure level with respect to a hazardous substance, the President may take such steps as may be necessary to reduce the exposure of any person to such hazardous substance to such level as the President deems necessary to protect human health.

"(12) In any case which is the subject of a petition, a health assessment or study, or a research program under this subsection, nothing in this subsection shall be construed to delay or otherwise affect or impair the authority of the President, the Administrator of ATSDR or the Administrator of EPA to exercise any authority vested in the President, the Administrator of ATSDR or the Administrator of EPA under any other provision of law (including, but not limited to, the imminent hazard authority of section 7003 of the Solid Waste Disposal Act) or the response and abatement authorities of this Act.

"(13) All studies and results of research conducted under this subsection (other than health assessments) shall be reported or adopted only after appropriate peer review. Such peer review shall be completed, to the maximum extent practicable, within a period of 60 days. In the case of research conducted under the National Toxicology Program, such peer review may be conducted by the Board of Scientific Counselors. In the case of other research, such peer review shall be conducted by panels consisting of no less than three nor more than seven members, who shall be disinterested scientific experts selected for such purpose by the Administrator of ATSDR or the Administrator of EPA, as appropriate, on the basis of their reputation for scientific objectivity and the lack of institutional ties with any person involved in the conduct of the study or research under review. Support services for such panels shall be provided by the Agency for Toxic Substances and Disease Registry, or by the Environmental Protection Agency, as appropriate.

"(14) In the implementation of this subsection and other health-related authorities of this Act, the Administrator of ATSDR shall assemble, develop as necessary, and distribute to the States, and upon request to medical colleges, physicians, and other health professionals, appropriate educational materials (including short courses) on the medical surveillance, screening, and methods of diagnosis and treatment of injury or disease related to exposure to hazardous substances (giving priority to those listed in paragraph (2)), through such means as the Administrator of ATSDR deems appropriate.

"(15) The activities of the Administrator of ATSDR described in this subsection and section 111(c)(4) shall be carried out by the Administrator of ATSDR, either directly or through cooperative agreements with States (or political subdivisions thereof) which the Administrator of ATSDR determines are capable of carrying out such activities. Such activities shall include provision of consultations on health information, the conduct of health assessments, including those required under section 3019(b) of the Solid Waste Disposal Act, health studies, registries, and health surveillance.

"(16) The President shall provide adequate personnel for ATSDR, which shall not be fewer than 100 employees. For purposes of determining the number of employees under this subsection, an employee employed by ATSDR on a part-time career employment basis shall be counted as a fraction which is determined by dividing 40 hours into the average number of hours of such employee's regularly scheduled workweek.

"(17) In accordance with section 120 (relating to Federal facilities), the Administrator of ATSDR shall have the same authorities under this section with respect to facilities owned or operated by a department, agency, or instrumentality of the United States as the Administrator of ATSDR has with respect to any nongovernmental entity.

"(18) If the Administrator of ATSDR determines that it is appropriate for purposes of this section to treat a pollutant or contaminant as a hazardous substance, such pollutant or contaminant shall be treated as a hazardous substance for such purpose.".

SEC. 111. USES OF FUND.

(a) AMOUNT OF FUND.—Section 111 of CERCLA is amended by inserting after "(a)" the following: "IN GENERAL.—For the purposes specified in this section there is authorized to be appropriated from the Hazardous Substance Superfund established under subchapter A of chapter 98 of the Internal Revenue Code of 1954 not more than $8,500,000,000 for the 5-year period beginning on the date of enactment of the Superfund Amendments and Reauthorization Act of 1986. The preceding sentence constitutes a specific authorization for the funds appropriated under title II of Public Law 99-160 (relating to payment to the Hazardous Substances Trust Fund).".

(b) USES OF FUNDS UNDER SECTION 111(a).—Section 111(a) of CERCLA is amended by striking out "; and" at the end of paragraph (3) and inserting a period, by striking out the semicolons at the end of paragraphs (1) and (2) and inserting in lieu thereof a period, by capitalizing the first letter in paragraphs (1) through (4), and by adding at the end thereof the following:

"(5) GRANTS FOR TECHNICAL ASSISTANCE.—The cost of grants under section 117(e) (relating to public participation grants for technical assistance).

"(6) LEAD CONTAMINATED SOIL.—Payment of not to exceed $15,000,000 for the costs of a pilot program for removal, decontamination, or other action with respect to lead-contaminated soil in one to three different metropolitan areas.".

(c) NATURAL RESOURCE DAMAGE CLAIMS.—

(1) LIMITATION.—Section 111(b) of CERCLA is amended by inserting "(1) IN GENERAL.—" after "(b)" and by adding at the end thereof the following new paragraph:

"(2) LIMITATION ON PAYMENT OF NATURAL RESOURCE CLAIMS.—

"(A) GENERAL REQUIREMENTS.—No natural resource claim may be paid from the Fund unless the President determines that the claimant has exhausted all administrative and judicial remedies to recover the amount of such claim from persons who may be liable under section 107.

"(B) DEFINITION.—As used in this paragraph, the term 'natural resource claim' means any claim for injury to, or destruction or loss of, natural resources. The term does not include any claim for the cost of natural resource damage assessment.".

(2) CONFORMING AMENDMENT.—Section 111(h) of CERCLA is repealed.

(d) SUBSECTION (c) AMENDMENTS.—

(1) SECTION 111(c)(4).—Section 111(c)(4) of CERCLA is amended by striking out "the costs of epidemiologic studies" and inserting "Any costs incurred in accordance with subsection (m) of this section (relating to ATSDR) and section 104(i), including the costs of epidemiologic and laboratory studies, health assessments, preparation of toxicologic profiles".

(2) NEW PARAGRAPHS IN SECTION 111(c).—Section 111(c) of CERCLA is amended by striking out "; and" at the end of paragraph (5) and inserting a period, by striking out the semicolons at the end of paragraphs (1) through (4) and inserting in lieu thereof a period, by capitalizing the first letter in paragraphs (1), (2), (3), (5), and (6), and by adding at the end thereof the following:

"(7) EVALUATION COSTS UNDER PETITION PROVISIONS OF SECTION 105(d).—Costs incurred by the President in evaluating facilities pursuant to petitions under section 105(d) (relating to petitions for assessment of release).

"(8) CONTRACT COSTS UNDER SECTION 104(a)(1).—The costs of contracts or arrangements entered into under section 104(a)(1) to oversee and review the conduct of remedial investigations and feasibility studies undertaken by persons other than the President and the costs of appropriate Federal and State oversight of remedial activities at National Priorities List sites resulting from consent orders or settlement agreements.

"(9) ACQUISITION COSTS UNDER SECTION 104(j).—The costs incurred by the President in acquiring real estate or interests in real estate under section 104(j) (relating to acquisition of property).

"(10) RESEARCH, DEVELOPMENT, AND DEMONSTRATION COSTS UNDER SECTION 311.—The cost of carrying out section 311 (relating to research, development, and demonstration), except that the amounts available for such purposes shall not exceed the amounts specified in subsection (n) of this section.

"(11) LOCAL GOVERNMENT REIMBURSEMENT.—Reimbursements to local governments under section 123, except that during the 5-fiscal-year period beginning October 1, 1986, not more than 0.1 percent of the total amount appropriated from the Fund may be used for such reimbursements.

"(12) WORKER TRAINING AND EDUCATION GRANTS.—The costs of grants under section 126(g) of the Superfund Amendments and Reauthorization Act of 1986 for training and education of workers to the extent that such costs do not exceed $10,000,000 for each of the fiscal years 1987, 1988, 1989, 1990, and 1991.

"(13) AWARDS UNDER SECTION 109.—The costs of any awards granted under section 109(d).

"(14) LEAD POISONING STUDY.—The cost of carrying out the study under subsection (f) of section 118 of the Superfund Amendments and Reauthorization Act of 1986 (relating to lead poisoning in children).".

(e) LIMITATION ON CERTAIN CLAIMS.—Section 111(e)(2) of CERCLA is amended by adding at the end the following: "No money in the Fund may be used for the payment of any claim under subsection (a)(3) or subsection (b) of this section in any fiscal year for which the President determines that all of the Fund is needed for response to threats to public health from releases or threatened releases of hazardous substances.".

(f) FUND USE OUTSIDE FEDERAL PROPERTY BOUNDARIES.—Section 111(e)(3) of CERCLA is amended by inserting the following before the period: "; except that money in the Fund shall be available for the provision of alternative water supplies (including the reimbursement of costs incurred by a municipality) in any case involving groundwater contamination outside the boundaries of a federally owned facility in which the federally owned facility is not the only potentially responsible party".

(g) INSPECTOR GENERAL.—Section 111(k) of CERCLA is amended to read as follows:

"(k) INSPECTOR GENERAL.—In each fiscal year, the Inspector General of each department, agency, or instrumentality of the United States which is carrying out any authority of this Act shall conduct an annual audit of all payments, obligations, reimbursements, or other uses of the Fund in the prior fiscal year, to assure that the Fund is

being properly administered and that claims are being appropriately and expeditiously considered. The audit shall include an examination of a sample of agreements with States (in accordance with the provisions of the Single Audit Act) carrying out response actions under this title and an examination of remedial investigations and feasibility studies prepared for remedial actions. The Inspector General shall submit to the Congress an annual report regarding the audit report required under this subsection. The report shall contain such recommendations as the Inspector General deems appropriate. Each department, agency, or instrumentality of the United States shall cooperate with its inspector general in carrying out this subsection.".

(h) NEW SUBSECTIONS.—Section 111 of CERCLA is amended by adding after subsection (l) the following new subsections:

"(m) AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY.—There shall be directly available to the Agency for Toxic Substances and Disease Registry to be used for the purpose of carrying out activities described in subsection (c)(4) and section 104(i) not less than $50,000,000 per fiscal year for each of fiscal years 1987 and 1988, not less than $55,000,000 for fiscal year 1989, and not less than $60,000,000 per fiscal year for each of fiscal years 1990 and 1991. Any funds so made available which are not obligated by the end of the fiscal year in which made available shall be returned to the Fund.

"(n) LIMITATIONS ON RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROGRAM.—

"(1) SECTION 311(b).—For each of the fiscal years 1987, 1988, 1989, 1990, and 1991, not more than $20,000,000 of the amounts available in the Fund may be used for the purposes of carrying out the applied research, development, and demonstration program for alternative or innovative technologies and training program authorized under section 311(b) (relating to research, development, and demonstration) other than basic research. Such amounts shall remain available until expended.

"(2) SECTION 311(a).—From the amounts available in the Fund, not more than the following amounts may be used for the purposes of section 311(a) (relating to hazardous substance research, demonstration, and training activities):

"(A) For the fiscal year 1987, $3,000,000.
"(B) For the fiscal year 1988, $10,000,000.
"(C) For the fiscal year 1989, $20,000,000.
"(D) For the fiscal year 1990, $30,000,000.
"(E) For the fiscal year 1991, $35,000,000.

No more than 10 percent of such amounts shall be used for training under section 311(a) in any fiscal year.

"(3) SECTION 311(d).—For each of the fiscal years 1987, 1988, 1989, 1990, and 1991, not more than $5,000,000 of the amounts available in the Fund may be used for the purposes of section 311(d) (relating to university hazardous substance research centers).

"(o) NOTIFICATION PROCEDURES FOR LIMITATIONS ON CERTAIN PAYMENTS.—Not later than 90 days after the enactment of this subsection, the President shall develop and implement procedures to adequately notify, as soon as practicable after a site is included on the National Priorities List, concerned local and State officials and other concerned persons of the limitations, set forth in subsection (a)(2) of this section, on the payment of claims for necessary response costs incurred with respect to such site.".

(i) AUTHORIZATION OF APPROPRIATIONS.—Section 111 of CERCLA is amended by adding the following subsection numbered accordingly:

"( ) GENERAL REVENUE SHARE OF SUPERFUND.—

"(1) IN GENERAL.—The following sums are authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, to the Hazardous Substance Superfund:

"(A) For fiscal year 1986, $212,500,000.
"(B) For fiscal year 1987, $212,500,000.
"(C) For fiscal year 1988, $212,500,000.
"(D) For fiscal year 1989, $212,500,000.
"(E) For fiscal year 1990, $212,500,000.

In addition there is authorized to be appropriated to the Hazardous Substance Superfund for each fiscal year an amount equal to so much of the aggregate amount authorized to be appropriated under this subsection (and paragraph (2) of section 221(b) of the Hazardous Substance Response Revenue Act of 1980) as has not been appropriated before the beginning of the fiscal year involved.

"(2) COMPUTATION.—The amounts authorized to be appropriated under paragraph (1) of this subsection in a given fiscal year shall be available only to the extent that such amount exceeds the amount determined by the Secretary under section 221(b)(1)(B) for the prior fiscal year.".

SEC. 112. CLAIMS PROCEDURE.

(a) CLAIMS AGAINST THE FUND FOR RESPONSE COSTS.—Section 112(a) of CERCLA is amended to read as follows:

"(a) CLAIMS AGAINST THE FUND FOR RESPONSE COSTS.—No claims may be asserted against the Fund pursuant to section 111(a) unless such claim is presented in the first instance to the owner, operator, or guarantor of the vessel or facility from which a hazardous substance has been released, if known to the claimant, and to any other person known to the claimant who may be liable under section 107. In any case where the claim has not been satisfied within 60 days of presentation in accordance with this subsection, the claimant may present the claim to the Fund for payment. No claim against the Fund may be approved or certified during the pendency of an action by the claimant in court to recover costs which are the subject of the claim.".

(b) PROCEDURES.—Section 112(b) is amended by striking "(b)(1)" and inserting "(b)(1) PRESCRIBING FORMS AND PROCEDURES.—" and by striking paragraphs (2), (3), and (4) and inserting the following:

"(2) PAYMENT OR REQUEST FOR HEARING.—The President may, if satisfied that the information developed during the processing of the claim warrants it, make and pay an award of the claim, except that no claim may be awarded to the extent that a judicial judgment has been made on the costs that are the subject of the claim. If the President declines to pay all or part of the claim, the claimant may, within 30 days after receiving notice of the President's decision, request an administrative hearing.

"(3) BURDEN OF PROOF.—In any proceeding under this subsection, the claimant shall bear the burden of proving his claim.

"(4) DECISIONS.—All administrative decisions made hereunder shall be in writing, with notification to all appropriate parties, and shall be rendered within 90 days of submission of a claim to an administrative law judge, unless all the parties to the claim agree in writing to an extension or unless the President, in his discretion, extends the time limit for a period not to exceed sixty days.

"(5) FINALITY AND APPEAL.—All administrative decisions hereunder shall be final, and any party to the proceeding may appeal a decision within 30 days of notification of the award or decision. Any such appeal shall be made to the Federal district court for the district where the release or threat of release took place. In any such appeal, the decision shall be considered binding and conclusive, and shall not be overturned except for arbitrary or capricious abuse of discretion.

"(6) PAYMENT.—Within 20 days after the expiration of the appeal period for any administrative decision concerning an award, or within 20 days after the final judicial determination of any appeal taken pursuant to this subsection, the President shall pay any such award from the Fund. The President shall determine the method, terms, and time of payment.".

(c) STATUTE OF LIMITATIONS.—Section 112(d) of CERCLA is amended to read as follows:

"(d) STATUTE OF LIMITATIONS.—

"(1) CLAIMS FOR RECOVERY OF COSTS.—No claim may be presented under this section for recovery of the costs referred to in section 107(a) after the date 6 years after the date of completion of all response action.

"(2) CLAIMS FOR RECOVERY OF DAMAGES.—No claim may be presented under this section for recovery of the damages referred to in section 107(a) unless the claim is presented within 3 years after the later of the following:

"(A) The date of the discovery of the loss and its connection with the release in question.

"(B) The date on which final regulations are promulgated under section 301(c).

"(3) MINORS AND INCOMPETENTS.—The time limitations contained herein shall not begin to run—

"(A) against a minor until the earlier of the date when such minor reaches 18 years of age or the date on which a legal representative is duly appointed for the minor, or

"(B) against an incompetent person until the earlier of the date on which such person's incompetency ends or the date on which a legal representative is duly appointed for such incompetent person.".

(d) DOUBLE RECOVERY PROHIBITED.— Section 112 of CERCLA is amended by adding the following new subsection at the end thereof:

"(f) DOUBLE RECOVERY PROHIBITED.—Where the President has paid out of the Fund for any response costs or any costs specified under section 111(c)(1) or (2), no other claim may be paid out of the Fund for the same costs.".

SEC. 113. LITIGATION, JURISDICTION, AND VENUE.

(a) NATIONWIDE SERVICE OF PROCESS.—Section 113 of CERCLA is amended by adding the following new subsection at the end thereof:

"(e) NATIONWIDE SERVICE OF PROCESS.—In any action by the United States under this Act, process may be served in any district where the defendant is found, resides, transacts business, or has appointed an agent for the service of process.".

(b) CONTRIBUTION; STATUTE OF LIMITATIONS.—Section 113 of CERCLA is amended by adding the following new subsections after subsection (e):

"(f) CONTRIBUTION.—

"(1) CONTRIBUTION.—Any person may seek contribution from any other person who is liable or potentially liable under section 107(a), during or following any civil action under section 106 or under section 107(a). Such claims shall be brought in accordance with this section and the Federal Rules of Civil Procedure, and shall be governed by Federal law. In resolving contribution

claims, the court may allocate response costs among liable parties using such equitable factors as the court determines are appropriate. Nothing in this subsection shall diminish the right of any person to bring an action for contribution in the absence of a civil action under section 106 or section 107.

"(2) SETTLEMENT.—A person who has resolved its liability to the United States or a State in an administrative or judicially approved settlement shall not be liable for claims for contribution regarding matters addressed in the settlement. Such settlement does not discharge any of the other potentially liable persons unless its terms so provide, but it reduces the potential liability of the others by the amount of the settlement.

"(3) PERSONS NOT PARTY TO SETTLEMENT.—(A) If the United States or a State has obtained less than complete relief from a person who has resolved its liability to the United States or the State in an administrative or judicially approved settlement, the United States or the State may bring an action against any person who has not so resolved its liability.

"(B) A person who has resolved its liability to the United States or a State for some or all of a response action or for some or all of the costs of such action in an administrative or judicially approved settlement may seek contribution from any person who is not party to a settlement referred to in paragraph (2).

"(C) In any action under this paragraph, the rights of any person who has resolved its liability to the United States or a State shall be subordinate to the rights of the United States or the State. Any contribution action brought under this paragraph shall be governed by Federal law.

"(g) PERIOD IN WHICH ACTION MAY BE BROUGHT.—

"(1) ACTIONS FOR NATURAL RESOURCE DAMAGES.—Except as provided in paragraphs (3) and (4), no action may be commenced for damages (as defined in section 101(6)) under this Act, unless that action is commenced within 3 years after the later of the following:

"(A) The date of the discovery of the loss and its connection with the release in question.

"(B) The date on which regulations are promulgated under section 301(c).

With respect to any facility listed on the National Priorities List (NPL), any Federal facility identified under section 120 (relating to Federal facilities), or any vessel or facility at which a remedial action under this Act is otherwise scheduled, an action for damages under this Act must be commenced within 3 years after the completion of the remedial action (excluding operation and maintenance activities) in lieu of the dates referred to in subparagraph (A) or (B). In no event may an action for damages under this Act with respect to such a vessel or facility be commenced (i) prior to 60 days after the Federal or State natural resource trustee provides to the President and the potentially responsible party a notice of intent to file suit, or (ii) before selection of the remedial action if the President is diligently proceeding with a remedial investigation and feasibility study under section 104(b) or section 120 (relating to Federal facilities). The limitation in the preceding sentence on commencing an action before giving notice or before selection of the remedial action does not apply to actions filed on or before the enactment of the Superfund Amendments and Reauthorization Act of 1986.

"(2) ACTIONS FOR RECOVERY OF COSTS.—An initial action for recovery of the costs referred to in section 107 must be commenced—

"(A) for a removal action, within 3 years after completion of the removal action, except that such cost recovery action must be brought within 6 years after a determination to grant a waiver under section 104(c)(1)(C) for continued response action; and

"(B) for a remedial action, within 6 years after initiation of physical on-site construction of the remedial action, except that, if the remedial action is initiated within 3 years after the completion of the removal action, costs incurred in the removal action may be recovered in the cost recovery action brought under this subparagraph.

In any such action described in this subsection, the court shall enter a declaratory judgment on liability for response costs or damages that will be binding on any subsequent action or actions to recover further response costs or damages. A subsequent action or actions under section 107 for further response costs at the vessel or facility may be maintained at any time during the response action, but must be commenced no later than 3 years after the date of completion of all response action. Except as otherwise provided in this paragraph, an action may be commenced under section 107 for recovery of costs at any time after such costs have been incurred.

"(3) CONTRIBUTION.—No action for contribution for any response costs or damages may be commenced more than 3 years after—

"(A) the date of judgment in any action under this Act for recovery of such costs or damages, or

"(B) the date of an administrative order under section 122(g) (relating to de minimis settlements) or 122(h) (relating to cost recovery settlements) or entry of a judicially approved settlement with respect to such costs or damages.

"(4) SUBROGATION.—No action based on rights subrogated pursuant to this section by reason of payment of a claim may be commenced under this title more than 3 years after the date of payment of such claim.

"(5) ACTIONS TO RECOVER INDEMNIFICATION PAYMENTS.—Notwithstanding any other provision of this subsection, where a payment pursuant to an indemnification agreement with a response action contractor is made under section 119, an action under section 107 for recovery of such indemnification payment from a potentially responsible party may be brought at any time before the expiration of 3 years from the date on which such payment is made.

"(6) MINORS AND INCOMPETENTS.—The time limitations contained herein shall not begin to run—

"(A) against a minor until the earlier of the date when such minor reaches 18 years of age or the date on which a legal representative is duly appointed for such minor, or

"(B) against an incompetent person until the earlier of the date on which such incompetent's incompetency ends or the date on which a legal representative is duly appointed for such incompetent.".

(c) PRE-ENFORCEMENT REVIEW.—

(1) CONFORMING AMENDMENT.—Section 113(b) of CERCLA is amended by striking out "subsection" and inserting in lieu thereof "subsections" and inserting "and (h)" after "(a)".

(2) TIMING OF REVIEW; ADMINISTRATIVE RECORD.—Section 113 of CERCLA is amended by adding at the end thereof the following new subsections:

"(h) TIMING OF REVIEW.—No Federal court shall have jurisdiction under Federal law other than under section 1332 of title 28 of the United States Code (relating to diversity of citizenship jurisdiction) or under State law which is applicable or relevant and appropriate under section 121 (relating to cleanup standards) to review any challenges to removal or remedial action selected under section 104, or to review any order issued under section 106(a), in any action except one of the following:

"(1) An action under section 107 to recover response costs or damages or for contribution.

"(2) An action to enforce an order issued under section 106(a) or to recover a penalty for violation of such order.

"(3) An action for reimbursement under section 106(b)(2).

"(4) An action under section 310 (relating to citizens suits) alleging that the removal or remedial action taken under section 104 or secured under section 106 was in violation of any requirement of this Act. Such an action may not be brought with regard to a removal where a remedial action is to be undertaken at the site.

"(5) An action under section 106 in which the United States has moved to compel a remedial action.

"(i) INTERVENTION.—In any action commenced under this Act or under the Solid Waste Disposal Act in a court of the United States, any person may intervene as a matter of right when such person claims an interest relating to the subject of the action and is so situated that the disposition of the action may, as a practical matter, impair or impede the person's ability to protect that interest, unless the President or the State shows that the person's interest is adequately represented by existing parties.

"(j) JUDICIAL REVIEW.—

"(1) LIMITATION.—In any judicial action under this Act, judicial review of any issues concerning the adequacy of any response action taken or ordered by the President shall be limited to the administrative record. Otherwise applicable principles of administrative law shall govern whether any supplemental materials may be considered by the court.

"(2) STANDARD.—In considering objections raised in any judicial action under this Act, the court shall uphold the President's decision in selecting the response action unless the objecting party can demonstrate, on the administrative record, that the decision was arbitrary and capricious or otherwise not in accordance with law.

"(3) REMEDY.—If the court finds that the selection of the response action was arbitrary and capricious or otherwise not in accordance with law, the court shall award (A) only the response costs or damages that are not inconsistent with the national contingency plan, and (B) such other relief as is consistent with the National Contingency Plan.

"(4) PROCEDURAL ERRORS.—In reviewing alleged procedural errors, the court may disallow costs or damages only if the errors were so serious and related to matters of such central relevance to the action that the action would have been significantly changed had such errors not been made.

"(k) ADMINISTRATIVE RECORD AND PARTICIPATION PROCEDURES.—

"(1) ADMINISTRATIVE RECORD.—The President shall establish an administrative record upon which the President shall base the selection of a response action. The administrative record shall be available to the

public at or near the facility at issue. The President also may place duplicates of the administrative record at any other location.

"(2) PARTICIPATION PROCEDURES.—

"(A) REMOVAL ACTION.—The President shall promulgate regulations in accordance with chapter 5 of title 5 of the United States Code establishing procedures for the appropriate participation of interested persons in the development of the administrative record on which the President will base the selection of removal actions and on which judicial review of removal actions will be based.

"(B) REMEDIAL ACTION.—The President shall provide for the participation of interested persons, including potentially responsible parties, in the development of the administrative record on which the President will base the selection of remedial actions and on which judicial review of remedial actions will be based. The procedures developed under this subparagraph shall include, at a minimum, each of the following:

"(i) Notice to potentially affected persons and the public, which shall be accompanied by a brief analysis of the plan and alternative plans that were considered.

"(ii) A reasonable opportunity to comment and provide information regarding the plan.

"(iii) An opportunity for a public meeting in the affected area, in accordance with section 117(a)(2)(relating to public participation).

"(iv) A response to each of the significant comments, criticisms, and new data submitted in written or oral presentations.

"(v) A statement of the basis and purpose of the selected action.

For purposes of this subparagraph, the administrative record shall include all items developed and received under this subparagraph and all items described in the second sentence of section 117(d). The President shall promulgate regulations in accordance with chapter 5 of title 5 of the United States Code to carry out the requirements of this subparagraph.

"(C) INTERIM RECORD.—Until such regulations under subparagraphs (A) and (B) are promulgated, the administrative record shall consist of all items developed and received pursuant to current procedures for selection of the response action, including procedures for the participation of interested parties and the public. The development of an administrative record and the selection of response action under this Act shall not include an adjudicatory hearing.

"(D) POTENTIALLY RESPONSIBLE PARTIES.—The President shall make reasonable efforts to identify and notify potentially responsible parties as early as possible before selection of a response action. Nothing in this paragraph shall be construed to be a defense to liability.

"(l) NOTICE OF ACTIONS.—Whenever any action is brought under this Act in a court of the United States by a plaintiff other than the United States, the plaintiff shall provide a copy of the complaint to the Attorney General of the United States and to the Administrator of the Environmental Protection Agency.".

SEC. 114. RELATIONSHIP TO OTHER LAW.

(a) USED OIL.—Section 114 (c) of CERCLA is amended to read as follows:

"(c) RECYCLED OIL.—

"(1) SERVICE STATION DEALERS, ETC.—No person (including the United States or any State) may recover, under the authority of subsection (a)(3) or (a)(4) of section 107, from a service station dealer for any response costs or damages resulting from a release or threatened release of recycled oil, or use the authority of section 106 against a service station dealer other than a person described in subsection (a)(1) or (a)(2) of section 107, if such recycled oil—

"(A) is not mixed with any other hazardous substance, and

"(B) is stored, treated, transported, or otherwise managed in compliance with regulations or standards promulgated pursuant to section 3014 of the Solid Waste Disposal Act and other applicable authorities.

Nothing in this paragraph shall affect or modify in any way the obligations or liability of any person under any other provision of State or Federal law, including common law, for damages, injury, or loss resulting from a release or threatened release of any hazardous substance or for removal or remedial action or the costs of removal or remedial action.

"(2) PRESUMPTION.—Solely for the purposes of this subsection, a service station dealer may presume that a small quantity of used oil is not mixed with other hazardous substances if it—

"(A) has been removed from the engine of a light duty motor vehicle or household appliances by the owner of such vehicle or appliances, and

"(B) is presented, by such owner, to the dealer for collection, accumulation, and delivery to an oil recycling facility.

"(3) DEFINITION.—For purposes of this subsection, the terms 'used oil' and 'recycled oil' have the same meanings as set forth in sections 1004(36) and 1004(37) of the Solid Waste Disposal Act and regulations promulgated pursuant to that Act.

"(4) EFFECTIVE DATE.—The effective date of paragraphs (1) and (2) of this subsection shall be the effective date of regulations or standards promulgated under section 3014 of the Solid Waste Disposal Act that include, among other provisions, a requirement to conduct corrective action to respond to any releases of recycled oil under subtitle C or subtitle I of such Act.".

(b) DEFINITION OF SERVICE STATION DEALER.—Section 101 of CERCLA is amended by inserting the following at the end thereof:

"(37)(A) The term 'service station dealer' means any person—

"(i) who owns or operates a motor vehicle service station, filling station, garage, or similar retail establishment engaged in the business of selling, repairing, or servicing motor vehicles, where a significant percentage of the gross revenue of the establishment is derived from the fueling, repairing, or servicing of motor vehicles, and

"(ii) who accepts for collection, accumulation, and delivery to an oil recycling facility, recycled oil that (I) has been removed from the engine of a light duty motor vehicle or household appliances by the owner of such vehicle or appliances, and (II) is presented, by such owner, to such person for collection, accumulation, and delivery to an oil recycling facility.

"(B) For purposes of section 114(c), the term 'service station dealer' shall, notwithstanding the provisions of subparagraph (A), include any government agency that establishes a facility solely for the purpose of accepting recycled oil that satisfies the criteria set forth in subclauses (I) and (II) of subparagraph (A)(ii), and, with respect to recycled oil that satisfies the criteria set forth in subclauses (I) and (II), owners or operators of refuse collection services who are compelled by State law to collect, accumulate, and deliver such oil to an oil recycling facility.

"(C) The President shall promulgate regulations regarding the determination of what constitutes a significant percentage of the gross revenues of an establishment for purposes of this paragraph.".

SEC. 115. DELEGATION; REGULATIONS.

Section 115 of CERCLA is not amended.

SEC. 116. SCHEDULES.

Title I of CERCLA is amended by adding the following new section after section 115:

"SEC. 116. SCHEDULES.

"(a) ASSESSMENT AND LISTING OF FACILITIES.—It shall be a goal of this Act that, to the maximum extent practicable—

"(1) not later than January 1, 1988, the President shall complete preliminary assessments of all facilities that are contained (as of the date of enactment of the Superfund Amendments and Reauthorization Act of 1986) on the Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) including in each assessment a statement as to whether a site inspection is necessary and by whom it should be carried out; and

"(2) not later than January 1, 1989, the President shall assure the completion of site inspections at all facilities for which the President has stated a site inspection is necessary pursuant to paragraph (1).

"(b) EVALUATION.—Within 4 years after enactment of the Superfund Amendments and Reauthorization Act of 1986, each facility listed (as of the date of such enactment) in the CERCLIS shall be evaluated if the President determines that such evaluation is warranted on the basis of a site inspection or preliminary assessment. The evaluation shall be in accordance with the criteria established in section 105 under the National Contingency Plan for determining priorities among release for inclusion on the National Priorities List. In the case of a facility listed in the CERCLIS after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the facility shall be evaluated within 4 years after the date of such listing if the President determines that such evaluation is warranted on the basis of a site inspection or preliminary assessment.

"(c) EXPLANATIONS.—If any of the goals established by subsection (a) or (b) are not achieved, the President shall publish an explanation of why such action could not be completed by the specified date.

"(d) COMMENCEMENT OF RI/FS.—The President shall assure that remedial investigations and feasibility studies (RI/FS) are commenced for facilities listed on the National Priorities List, in addition to those commenced prior to the date of enactment of the Superfund Amendments and Reauthorization Act of 1986, in accordance with the following schedule:

"(1) not fewer than 275 by the date 36 months after the date of enactment of the Superfund Amendments and Reauthorization Act of 1986, and

"(2) if the requirement of paragraph (1) is not met, not fewer than an additional 175 by the date 4 years after such date of enactment, an additional 200 by the date 5 years after such date of enactment, and a total of 650 by the date 5 years after such date of enactment.

"(e) COMMENCEMENT OF REMEDIAL ACTION.—The President shall assure that substantial and continuous physical on-site remedial action commences at facilities on the National Priorities List, in addition to those facilities on which remedial action has commenced prior to the date of enactment of the

Superfund Amendments and Reauthorization Act of 1986, at a rate not fewer than:

"(1) 175 facilities during the first 36-month period after enactment of this subsection; and

"(2) 200 additional facilities during the following 24 months after such 36-month period.".

SEC. 117. PUBLIC PARTICIPATION.

Title I of CERCLA is amended by adding the following new section after section 116:

"SEC. 117. PUBLIC PARTICIPATION.

"(a) PROPOSED PLAN.—Before adoption of any plan for remedial action to be undertaken by the President, by a State, or by any other person, under section 104, 106, 120, or 122, the President or State, as appropriate, shall take both of the following actions:

"(1) Publish a notice and brief analysis of the proposed plan and make such plan available to the public.

"(2) Provide a reasonable opportunity for submission of written and oral comments and an opportunity for a public meeting at or near the facility at issue regarding the proposed plan and regarding any proposed findings under section 121(d)(4) (relating to cleanup standards). The President or the State shall keep a transcript of the meeting and make such transcript available to the public.

The notice and analysis published under paragraph (1) shall include sufficient information as may be necessary to provide a reasonable explanation of the proposed plan and alternative proposals considered.

"(b) FINAL PLAN.—Notice of the final remedial action plan adopted shall be published and the plan shall be made available to the public before commencement of any remedial action. Such final plan shall be accompanied by a discussion of any significant changes (and the reasons for such changes) in the proposed plan and a response to each of the significant comments, criticisms, and new data submitted in written or oral presentations under subsection (a).

"(c) EXPLANATION OF DIFFERENCES.—After adoption of a final remedial action plan—

"(1) if any remedial action is taken,

"(2) if any enforcement action under section 106 is taken, or

"(3) if any settlement or consent decree under section 106 or section 122 is entered into,

and if such action, settlement, or decree differs in any significant respects from the final plan, the President or the State shall publish an explanation of the significant differences and the reasons such changes were made.

"(d) PUBLICATION.—For the purposes of this section, publication shall include, at a minimum, publication in a major local newspaper of general circulation. In addition, each item developed, received, published, or made available to the public under this section shall be available for public inspection and copying at or near the facility at issue.

"(e) GRANTS FOR TECHNICAL ASSISTANCE.—

"(1) AUTHORITY.—Subject to such amounts as are provided in appropriations Acts and in accordance with rules promulgated by the President, the President may make grants available to any group of individuals which may be affected by a release or threatened release at any facility which is listed on the National Priorities List under the National Contingency Plan. Such grants may be used to obtain technical assistance in interpreting information with regard to the nature of the hazard, remedial investigation and feasibility study, record of decision, remedial design, selection and construction of remedial action, operation and maintenance, or removal action at such facility.

"(2) AMOUNT.—The amount of any grant under this subsection may not exceed $50,000 for a single grant recipient. The President may waive the $50,000 limitation in any case where such waiver is necessary to carry out the purposes of this subsection. Each grant recipient shall be required, as a condition of the grant, to contribute at least 20 percent of the total of costs of the technical assistance for which such grant is made. The President may waive the 20 percent contribution requirement if the grant recipient demonstrates financial need and such waiver is necessary to facilitate public participation in the selection of remedial action at the facility. Not more than one grant may be made under this subsection with respect to a single facility, but the grant may be renewed to facilitate public participation at all stages of remedial action.".

SEC. 118. MISCELLANEOUS PROVISIONS.

(a) PRIORITY FOR DRINKING WATER SUPPLIES.—Title I of CERCLA is amended by adding the following new section after section 117:

"SEC. 118. HIGH PRIORITY FOR DRINKING WATER SUPPLIES.

"For purposes of taking action under section 104 or 106 and listing facilities on the National Priorities List, the President shall give a high priority to facilities where the release of hazardous substances or pollutants or contaminants has resulted in the closing of drinking water wells or has contaminated a principal drinking water supply.".

(b) REMOVAL AND TEMPORARY STORAGE OF CONTAINERS OF RADON CONTAMINATED SOIL.—Not later than 90 days after the enactment of this Act, the Administrator shall make a grant of $7,500,000 to the State of New Jersey for transportation from residential areas in the State of New Jersey and temporary storage of approximately 14,000 containers of radon contaminated soil which is the subject of a remedial action for which a remedial investigation and feasibility study has been initiated before such date. Such containers shall be transported to and temporarily stored at any site in the State of New Jersey designated by the Governor of such State. For purposes of section 111(a) of CERCLA, the grant under this subsection for transportation and storage of such containers shall be treated as payment of governmental response cost incurred pursuant to section 104 of CERCLA.

(c) UNCONSOLIDATED QUATERNARY AQUIFER.—Notwithstanding any other provision of law, no person may—

(1) locate or authorize the location of a landfill, surface impoundment, waste pile, injection well, or land treatment facility over the Unconsolidated Quaternary Aquifer, or the recharge zone or streamflow source zone of such aquifer, in the Rockaway River Basin, New Jersey (as such aquifer and zones are described in the Federal Register, January 24, 1984, pages 2946-2948); or

(2) place or authorize the placement of solid waste in a landfill, surface impoundment, waste pile, injection well, or land treatment facility over such aquifer or zone.

This subsection may be enforced under sections 309(a) and (b) of the Federal Water Pollution Control Act. For purposes of section 309(c) of such Act, a violation of this subsection shall be considered a violation of section 301 of such Act.

(d) STUDY OF SHORTAGES OF SKILLED PERSONNEL.—The Comptroller General shall study the problem of shortages of skilled personnel in the Environmental Protection Agency to carry out response actions under CERCLA. In particular the Comptroller General shall study—

(1) the types of skilled personnel needed for response actions for which there are shortages in the Environmental Protection Agency,

(2) the extent of such shortages,

(3) pay differential between the public and private sectors for the skilled positions involved in response actions,

(4) the extent to which skilled personnel of Federal and State governments involved in response actions are leaving their positions for employment in the private sector,

(5) the success of programs of the Department of Defense and the Office of Personnel Management in retaining skilled personnel, and

(6) the types of training required to improve the skills of employees carrying out response actions.

The Comptroller General shall complete the study required by this subsection and submit a report on the results thereof to Congress not later than July 1, 1987.

(e) STATE REQUIREMENTS NOT APPLICABLE TO CERTAIN TRANSFERS.—No State or local requirement shall apply to the transfer and disposal of any hazardous substance or pollutant or contaminant from a facility at which a release or threatened release has occurred to a facility for which a final permit under section 3005(a) of the Solid Waste Disposal Act is in effect if the following conditions apply—

(1) Such permit was issued after January 1, 1983 and before November 1, 1984.

(2) The transfer and disposal is carried out pursuant to a cooperative agreement between the Administrator and the State.

(3) The facility at which the release or threatened release has occurred is identified as the McColl Site in Fullerton, California.

The terms used in this section shall have the same meaning as when used in title I of CERCLA.

(f) STUDY OF LEAD POISONING IN CHILDREN.—(1) The Administrator of the Agency for Toxic Substances and Disease Registry shall, in consultation with the Administrator of the Environmental Protection Agency and other officials as appropriate, not later than March 1, 1987, submit to the Congress, a report on the nature and extent of lead poisoning in children from environmental sources. Such report shall include, at a minimum, the following information—

(A) an estimate of the total number of children, arrayed according to Standard Metropolitan Statistical Area or other appropriate geographic unit, exposed to environmental sources of lead at concentrations sufficient to cause adverse health effects;

(B) an estimate of the total number of children exposed to environmental sources of lead arrayed according to source or source types;

(C) a statement of the long term consequences for public health of unabated exposures to environmental sources of lead and including but not limited to, diminution in intelligence, increases in morbidity and mortality; and

(D) methods and alternatives available for reducing exposures of children to environmental sources of lead.

(2) Such report shall also score and evaluate specific sites at which children are

known to be exposed to environmental sources of lead due to releases, utilizing the Hazard Ranking system of the National Priorities List.

(3) The costs of preparing and submitting the report required by this section shall be borne by the Hazardous Substance Superfund established under subchapter A of chapter 98 of Internal Revenue Code of 1954.

(g) FEDERALLY LICENSED DAM.—For purposes of CERCLA in the case of the Milltown Dam in the State of Montana licensed under part 1 of the Federal Power Act and designated as FERC license number 2543-004, if a hazardous substance, pollutant, or contaminant—

(1) has been released into the environment upstream of the dam, and

(2) has subsequently come to be located in the reservoir created by such dam

notwithstanding section 101(20) of such Act, the term "owner or operator" does not include the owner or operator of the dam unless such owner or operator is a person who would otherwise be liable for such release or threatened release under section 107 of such Act.

(h) COMMUNITY RELOCATION AT TIMES BEACH SITE.—For purposes of any Missouri dioxon site at which a temporary or permanent relocation decision has been made, or is under active consideration, by the Administrator as of the enactment of this Act, the terms "remove" and "removal" as used in CERCLA shall be deemed to include the costs of permanent relocation of residents where it is determined that such permanent relocation is cost effective or may be necessary to protect health or welfare. In the case of a business located in an area of evacuation or relocation at such facility, such terms may also include the payment of those installments of principal and interest on business debt which accrue between the date of evacuation or temporary relocation and 30 days following the date that permanent relocation is actually accomplished or, if permanent relocation is formally rejected as the appropriate response, the date on which evacuation or temporary relocation ceases. In the case of an individual unemployed as a result of such evacuation or relocation, such terms may also include the provision of assistance identical to that authorized by sections 407, 408, and 409 of the Disaster Relief Act of 1974; except that the costs of such assistance shall be paid from the Trust Fund established under amendments made to the Internal Revenue Code of 1954 by this Act. Section 104(c)(1) of CERCLA shall not apply to obligations from the Fund for permanent relocation under this paragraph.

(i) LIMITED WAIVERS IN STATE OF ILLINOIS.—

(1) MOBILE INCINERATORS.—In the case of remedial actions specifically involving mobile incinerator units in the State of Illinois, if such remedial actions are undertaken by the State under the authority of a State Superfund law or equivalent authority, the State may, with the approval of the Administrator, waive any permit requirement under subtitle C of the Solid Waste Disposal Act which would be otherwise applicable to such action to the extent that the following conditions are met:

(A) NO TRANSFER.—The incinerator does not involve the transfer of a hazardous substance or pollutant or contaminant from the facility at which the release or threatened release occurs to an offsite facility.

(B) REMEDIAL ACTION.—The remedial action provides each of the following:

(i) Changes in the character or composition of the hazardous substance or pollutant or contaminant concerned so that it no longer presents a risk to public health.

(ii) Protection against accidental emissions during operation.

(iii) Protection of public health considering the multimedia impacts of the treatment process.

(C) PUBLIC PARTICIPATION.—The State provides procedures for public participation regarding the response action which are at least equivalent to the level of public participation procedures applicable under CERCLA and under the Solid Waste Disposal Act.

(2) EFFECT OF WAIVER.—The waiver of any permit requirement under this subsection shall not be construed to waive any standard or level of control which—

(A) is applicable to any hazardous substance or pollutant or contaminant involved in the remedial action; and

(B) would otherwise be contained in the permit.

Such waiver of any permit requirement under subtitle C of the Solid Waste Disposal Act shall only apply to the extent that the facility or remedial action involves the onsite treatment with a mobile incineration unit of waste present at such site. The waiver shall not apply to any other regulated or potentially regulated activity, including the use of the mobile incineration unit for actions not authorized by the State.

(3) EXPIRATION OF AUTHORITY.—The authority of this subsection shall terminate at the end of 3 years, unless the State demonstrates, to the satisfaction of the Administrator, that the operation of mobile incinerators in the State has sufficiently protected public health and the environment and is consistent with the criteria required for a permit under subtitle C of the Solid Waste Disposal Act.

(j) STUDY OF JOINT USE OF TRUCKS.—

(1) STUDY.—The Administrator, in consultation with the Secretary of Transportation, shall conduct a study of problems associated with the use of any vehicle for purposes other than the transportation of hazardous substances when that vehicle is used at other times for the transportation of hazardous substances. At a minimum, the Administrator shall consider—

(A) whether such joint use of vehicles should be prohibited, and

(B) whether, if such joint use is permitted, special safeguards should be taken to minimize threats to public health and the environment.

(2) REPORT.—The Administrator shall submit a report, along with recommendations, to Congress on the results of the study conducted under paragraph (1) not later than 180 days after the date of the enactment of this Act.

(k) RADON ASSESSMENT AND MITIGATION.—

(1) NATIONAL ASSESSMENT OF RADON GAS.—No later than one year after the enactment of this Act, the Administrator shall submit to the Congress a report which shall, to the extent possible—

(A) identify the locations in the United States where radon is found in structures where people normally live or work, including educational institutions;

(B) assess the levels of radon gas that are present in such structures;

(C) determine the level of radon gas and radon daughters which poses a threat to human health and assess for each location identified under subparagraph (A) the extent of the threat to human health;

(D) determine methods of reducing or eliminating the threat to human health of radon gas and radon daughters; and

(E) include guidance and public information materials based on the findings or research of mitigating radon.

(2) RADON MITIGATION DEMONSTRATION PROGRAM.—

(A) DEMONSTRATION PROGRAM.—The Administrator shall conduct a demonstration program to test methods and technologies of reducing or eliminating radon gas and radon daughters where it poses a threat to human health. The Administrator shall take into consideration any demonstration program underway in the Reading Prong of Pennsylvania, New Jersey, and New York and at other sites prior to enactment. The demonstration program under this section shall be conducted in the Reading Prong, and at such other sites as the Administrator considers appropriate.

(B) ANNUAL REPORTS.—The Administrator shall submit annual reports not later than February 1 of each year (beginning February 1, 1987) on the status of the demonstration program carried out under this subsection and on any such demonstration program initiated prior to enactment.

(C) LIABILITY.—Liability, if any, for persons undertaking activities pursuant to the radon mitigation demonstration program authorized under this subsection shall be determined under principles of existing law.

(3) CONSTRUCTION OF SECTION.—Nothing in this subsection shall be construed to authorize the Administrator to carry out any regulatory program or any activity other than research, development, and related reporting, information dissemination, and coordination activities specified in this subsection. Nothing in paragraph (1) or (2) shall be construed to limit the authority of the Administrator or of any other agency or instrumentality of the United States under any other authority of law.

(l) GULF COAST HAZARDOUS SUBSTANCE RESEARCH, DEVELOPMENT, AND DEMONSTRATION CENTER.—

(1) ESTABLISHMENT OF HAZARDOUS SUBSTANCE RESEARCH, DEVELOPMENT, AND DEMONSTRATION CENTER.—The Administrator shall establish a hazardous substance research, development, and demonstration center (hereinafter in this subsection referred to as the "Center") for the purpose of conducting research to aid in more effective hazardous substance response and waste management throughout the Gulf Coast.

(2) PURPOSES OF THE CENTER.—The Center shall carry out a program of research, evaluation, testing, development, and demonstration of alternative or innovative technologies which may be utilized in response actions or in normal handling of hazardous wastes to achieve better protection of human health and the environment.

(3) OPERATION OF CENTER.—(A) For purposes of operating the Center, the Administrator is authorized to enter into contracts and cooperative agreements with, and make grants to, a university related institute involved with the improvement of waste management. Such institute shall be located in Jefferson County, Texas.

(B) The Center shall be authorized to make grants, accept contributions, and enter into agreements with universities located in the States of Texas, Louisiana, Mississippi, Alabama, and Florida in order to carry out the purposes of the Center.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator for purposes of carrying out this subsection for fiscal years beginning after September 30, 1986, not more than $5,000,000.

(m) RADON PROTECTION AT CURRENT NATIONAL PRIORITIES LIST SITES.—It is the sense of the Congress that the President, in selecting response action for facilities included on the National Priorities List published under section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 because of the presence of radon, is not required by statute or regulations to use fully demonstrated methods, particularly those involving the offsite transport and disposition of contaminated material, but may use innovative or alternative methods which protect human health and the environment in a more cost-effective manner.

(n) SPILL CONTROL TECHNOLOGY.—

(1) ESTABLISHMENT OF PROGRAM.—Within 180 days of enactment of this subsection, the Secretary of the United States Department of Energy is directed to carry out a program of testing and evaluation of technologies which may be utilized in responding to liquefied gaseous and other hazardous substance spills at the Liquefied Gaseous Fuels Spill Test Facility that threaten public health or the environment.

(2) TECHNOLOGY TRANSFER.—In carrying out the program established under this subsection, the Secretary shall conduct a technology transfer program that, at a minimum—

(A) documents and archives spill control technology;

(B) investigates and analyzes significant hazardous spill incidents;

(C) develops and provides generic emergency action plans;

(D) documents and archives spill test results;

(E) develops emergency action plans to respond to spills;

(F) conducts training of spill response personnel; and

(G) establishes safety standards for personnel engaged in spill response activities.

(3) CONTRACTS AND GRANTS.—The Secretary is directed to enter into contracts and grants with a nonprofit organization in Albany County, Wyoming, that is capable of providing the necessary technical support and which is involved in environmental activities related to such hazardous substance related emergencies.

(4) USE OF SITE.—The Secretary shall arrange for the use of the Liquefied Gaseous Fuels Spill Test Facility to carry out the provisions of this subsection.

(o) PACIFIC NORTHWEST HAZARDOUS SUBSTANCE RESEARCH, DEVELOPMENT, AND DEMONSTRATION CENTER.—

(1) ESTABLISHMENT.—The Administrator shall establish a hazardous substance research, development, and demonstration center (hereinafter in this subsection referred to as the "Center") for the purpose of conducting research to aid in more effective hazardous substance response in the Pacific Northwest.

(2) PURPOSES OF CENTER.—The Center shall carry out a program of research, evaluation, testing, development, and demonstration of alternative or innovative technologies which may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment.

(3) OPERATION OF CENTER.—

(A) NONPROFIT ENTITY.—For the purposes of operating the Center, the Administrator is authorized to enter into contracts and cooperative agreements with, and make grants to, a nonprofit private entity as defined in section 201(i) of Public Law 96-517 which entity shall agree to provide the basic technical and management personnel. Such nonprofit private entity shall also agree to provide at least two permanent research facilities, one of which shall be located in Benton County, Washington, and one of which shall be located in Clallam County, Washington.

(B) AUTHORITIES.—The Center shall be authorized to make grants, accept contributions, and enter into agreements with universities located in the States of Washington, Oregon, Idaho, and Montana in order to carry out the purposes of the Center.

(4) HAZARDOUS WASTE RESEARCH AT THE HANFORD SITE.—

(A) INTERAGENCY AGREEMENTS.—The Administrator and the Secretary of Energy are authorized to enter into interagency agreements with one another for the purpose of providing for research, evaluation, testing, development, and demonstration into alternative or innovative technologies to characterize and assess the nature and extent of hazardous waste (including radioactive mixed waste) contamination at the Hanford site, in the State of Washington.

(B) FUNDING.—There is authorized to be appropriated to the Secretary of Energy for purposes of carrying out this paragraph for fiscal years beginning after September 30, 1986, not more than $5,000,000. All sums appropriated under this subparagraph shall be provided to the Administrator by the Secretary of Energy, pursuant to the interagency agreement entered into under subparagraph (A), for the purpose of the Administrator entering into contracts and cooperative agreements with, and making grants to, the Center in order to carry out the research, evaluation, testing, development, and demonstration described in paragraph (1).

(5) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator for purposes of carrying out this subsection (other than paragraph (4)) for fiscal years beginning after September 30, 1986, not more than $5,000,000.

(p) SILVER CREEK TAILINGS.—Effective with the date of enactment of this Act, the facility listed in Group 7 in EPA National Priorities List Update #4 (50 Federal Register 37956, September 18, 1985), the site in Park City, Utah, which is located on tailings from noncoal mining operations, shall be deemed removed from the list of sites recommended for inclusion on the National Priorities List, unless the President determines upon site specific data not used in the proposed listing of such facility, that the facility meets requirements of the Hazard Ranking System or any revised Hazard Ranking System.

SEC. 119. RESPONSE ACTION CONTRACTORS.

Title I of CERCLA is amended by adding the following new section after section 118:

"SEC. 119. RESPONSE ACTION CONTRACTORS.

"(a) LIABILITY OF RESPONSE ACTION CONTRACTORS.—

"(1) RESPONSE ACTION CONTRACTORS.—A person who is a response action contractor with respect to any release or threatened release of a hazardous substance or pollutant or contaminant from a vessel or facility shall not be liable under this title or under any other Federal law to any person for injuries, costs, damages, expenses, or other liability (including but not limited to claims for indemnification or contribution and claims by third parties for death, personal injury, illness or loss of or damage to property or economic loss) which results from such release or threatened release.

"(2) NEGLIGENCE, ETC.—Paragraph (1) shall not apply in the case of a release that is caused by conduct of the response action contractor which is negligent, grossly negligent, or which constitutes intentional misconduct.

"(3) EFFECT ON WARRANTIES; EMPLOYER LIABILITY.—Nothing in this subsection shall affect the liability of any person under any warranty under Federal, State, or common law. Nothing in this subsection shall affect the liability of an employer who is a response action contractor to any employee of such employer under any provision of law, including any provision of any law relating to worker's compensation.

"(4) GOVERNMENTAL EMPLOYEES.—A state employee or an employee of a political subdivision who provides services relating to response action while acting within the scope of his authority as a governmental employee shall have the same exemption from liability (subject to the other provisions of this section) as is provided to the response action contractor under this section.

"(b) SAVINGS PROVISIONS.—

"(1) LIABILITY OF OTHER PERSONS.—The defense provided by section 107(b)(3) shall not be available to any potentially responsible party with respect to any costs or damages caused by any act or omission of a response action contractor. Except as provided in subsection (a)(4) and the preceding sentence, nothing in this section shall affect the liability under this Act or under any other Federal or State law of any person, other than a response action contractor.

"(2) BURDEN OF PLAINTIFF.—Nothing in this section shall affect the plaintiff's burden of establishing liability under this title.

"(c) INDEMNIFICATION.—

"(1) IN GENERAL.—The President may agree to hold harmless and indemnify any response action contractor meeting the requirements of this subsection against any liability (including the expenses of litigation or settlement) for negligence arising out of the contractor's performance in carrying out response action activities under this title, unless such liability was caused by conduct of the contractor which was grossly negligent or which constituted intentional misconduct.

"(2) APPLICABILITY.—This subsection shall apply only with respect to a response action carried out under written agreement with—

"(A) the President;

"(B) any Federal agency;

"(C) a State or political subdivision which has entered into a contract or cooperative agreement in accordance with section 104(d)(1) of this title; or

"(D) any potentially responsible party carrying out any agreement under section 122 (relating to settlements) or section 106 (relating to abatement).

"(3) SOURCE OF FUNDING.—This subsection shall not be subject to section 1301 or 1341 of title 31 of the United States Code or section 3732 of the Revised Statutes (41 U.S.C. 11) or to section 3 of the Superfund Amendments and Reauthorization Act of 1986. For purposes of section 111, amounts expended pursuant to this subsection for indemnification of any response action contractor (except with respect to federally owned or operated facilities) shall be considered governmental response costs incurred pursuant to section 104. If sufficient funds are unavailable in the Hazardous Substance Superfund established under subchapter A of chapter 98 of the Internal Revenue Code of 1954 to make payments pursuant to such indemnification or if the Fund is repealed, there are authorized to be appropriated such amounts as may be necessary to make such payments.

"(4) REQUIREMENTS.—An indemnification agreement may be provided under this subsection only if the President determines that each of the following requirements are met:

"(A) The liability covered by the indemnification agreement exceeds or is not covered by insurance available, at a fair and reasonable price, to the contractor at the time the contractor enters into the contract to provide response action, and adequate insurance to cover such liability is not generally available at the time the response action contract is entered into.

"(B) The response action contractor has made diligent efforts to obtain insurance coverage from non-Federal sources to cover such liability.

"(C) In the case of a response action contract covering more than one facility, the response action contractor agrees to continue to make such diligent efforts each time the contractor begins work under the contract at a new facility.

"(5) LIMITATIONS.—

"(A) LIABILITY COVERED.—Indemnification under this subsection shall apply only to response action contractor liability which results from a release of any hazardous substance or pollutant or contaminant if such release arises out of response action activities.

"(B) DEDUCTIBLES AND LIMITS.—An indemnification agreement under this subsection shall include deductibles and shall place limits on the amount of indemnification to be made available.

"(C) CONTRACTS WITH POTENTIALLY RESPONSIBLE PARTIES.—

"(i) DECISION TO INDEMNIFY.—In deciding whether to enter into an indemnification agreement with a response action contractor carrying out a written contract or agreement with any potentially responsible party, the President shall determine an amount which the potentially responsible party is able to indemnify the contractor. The President may enter into such an indemnification agreement only if the President determines that such amount of indemnification is inadequate to cover any reasonable potential liability of the contractor arising out of the contractor's negligence in performing the contract or agreement with such party. The President shall make the determinations in the preceding sentences (with respect to the amount and the adequacy of the amount) taking into account the total net assets and resources of potentially responsible parties with respect to the facility at the time of such determinations.

"(ii) CONDITIONS.—The President may pay a claim under an indemnification agreement referred to in clause (i) for the amount determined under clause (i) only if the contractor has exhausted all administrative, judicial, and common law claims for indemnification against all potentially responsible parties participating in the clean-up of the facility with respect to the liability of the contractor arising out of the contractor's negligence in performing the contract or agreement with such party. Such indemnification agreement shall require such contractor to pay any deductible established under subparagraph (B) before the contractor may recover any amount from the potentially responsible party or under the indemnification agreement.

"(D) RCRA FACILITIES.—No owner or operator of a facility regulated under the Solid Waste Disposal Act may be indemnified under this subsection with respect to such facility.

"(E) PERSONS RETAINED OR HIRED.—A person retained or hired by a person described in subsection (e)(2)(B) shall be eligible for indemnification under this subsection only if the President specifically approves of the retaining or hiring of such person.

"(6) COST RECOVERY.—For purposes of section 107, amounts expended pursuant to this subsection for indemnification of any person who is a response action contractor with respect to any release or threatened release shall be considered a cost of response incurred by the United States Government with respect to such release.

"(7) REGULATIONS.—The President shall promulgate regulations for carrying out the provisions of this subsection. Before promulgation of the regulations, the President shall develop guidelines to carry out this section. Development of such guidelines shall include reasonable opportunity for public comment.

"(8) STUDY.—The Comptroller General shall conduct a study in the fiscal year ending September 30, 1989, on the application of this subsection, including whether indemnification agreements under this subsection are being used, the number of claims that have been filed under such agreements, and the need for this subsection. The Comptroller General shall report the findings of the study to Congress no later than September 30, 1989.

"(d) EXCEPTION.—The exemption provided under subsection (a) and the authority of the President to offer indemnification under subsection (c) shall not apply to any person covered by the provisions of paragraph (1), (2), (3), or (4) of section 107(a) with respect to the release or threatened release concerned if such person would be covered by such provisions even if such person had not carried out any actions referred to in subsection (e) of this section.

"(e) DEFINITIONS.—For purposes of this section—

"(1) RESPONSE ACTION CONTRACT.—The term 'response action contract' means any written contract or agreement entered into by a response action contractor (as defined in paragraph (2)(A) of this subsection) with—

"(A) the President;

"(B) any Federal agency;

"(C) a State or political subdivision which has entered into a contract or cooperative agreement in accordance with section 104(d)(1) of this Act; or

"(D) any potentially responsible party carrying out an agreement under section 106 or 122;

to provide any remedial action under this Act at a facility listed on the National Priorities List, or any removal under this Act, with respect to any release or threatened release of a hazardous substance or pollutant or contaminant from the facility or to provide any evaluation, planning, engineering, surveying and mapping, design, construction, equipment, or any ancillary services thereto for such facility.

"(2) RESPONSE ACTION CONTRACTOR.—The term 'response action contractor' means—

"(A) any—

"(i) person who enters into a response action contract with respect to any release or threatened release of a hazardous substance or pollutant or contaminant from a facility and is carrying out such contract; and

"(ii) person, public or nonprofit private entity, conducting a field demonstration pursuant to section 311(b); and

"(B) any person who is retained or hired by a person described in subparagraph (A) to provide any services relating to a response action.

"(3) INSURANCE.—The term 'insurance' means liability insurance which is fair and reasonably priced, as determined by the President, and which is made available at the time the contractor enters into the response action contract to provide response action.

"(f) COMPETITION.—Response action contractors and subcontractors for program management, construction management, architectural and engineering, surveying and mapping, and related services shall be selected in accordance with title IX of the Federal Property and Administrative Services Act of 1949. The Federal selection procedures shall apply to appropriate contracts negotiated by all Federal governmental agencies involved in carrying out this Act. Such procedures shall be followed by response action contractors and subcontractors.".

SEC. 120. FEDERAL FACILITIES.

(a) IN GENERAL.—Title I of CERCLA is amended by adding the following new section after section 119:

"SEC. 120. FEDERAL FACILITIES.

"(a) APPLICATION OF ACT TO FEDERAL GOVERNMENT.—

"(1) IN GENERAL.—Each department, agency, and instrumentality of the United States (including the executive, legislative, and judicial branches of government) shall be subject to, and comply with, this Act in the same manner and to the same extent, both procedurally and substantively, as any nongovernmental entity, including liability under section 107 of this Act. Nothing in this section shall be construed to affect the liability of any person or entity under sections 106 and 107.

"(2) APPLICATION OF REQUIREMENTS TO FEDERAL FACILITIES.—All guidelines, rules, regulations, and criteria which are applicable to preliminary assessments carried out under this Act for facilities at which hazardous substances are located, applicable to evaluations of such facilities under the National Contingency Plan, applicable to inclusion on the National Priorities List, or applicable to remedial actions at such facilities shall also be applicable to facilities which are owned or operated by a department, agency, or instrumentality of the United States in the same manner and to the extent as such guidelines, rules, regulations, and criteria are applicable to other facilities. No department, agency, or instrumentality of the United States may adopt or utilize any such guidelines, rules, regulations, or criteria which are inconsistent with the guidelines, rules, regulations, and criteria established by the Administrator under this Act.

"(3) EXCEPTIONS.—This subsection shall not apply to the extent otherwise provided in this section with respect to applicable time periods. This subsection shall also not apply to any requirements relating to bonding, insurance, or financial responsibility. Nothing in this Act shall be construed to require a State to comply with section 104(c)(3) in the case of a facility which is owned or operated by any department, agency, or instrumentality of the United States.

"(4) STATE LAWS.—State laws concerning removal and remedial action, including State laws regarding enforcement, shall apply to removal and remedial action at facilities owned or operated by a department, agency, or instrumentality of the United States when such facilities are not included on the National Priorities List. The preceding sentence shall not apply to the extent a State law would apply any standard or re-

quirement to such facilities which is more stringent than the standards and requirements applicable to facilities which are not owned or operated by any such department, agency, or instrumentality.

"(b) NOTICE.—Each department, agency, and instrumentality of the United States shall add to the inventory of Federal agency hazardous waste facilities required to be submitted under section 3016 of the Solid Waste Disposal Act (in addition to the information required under section 3016(a)(3) of such Act) information on contamination from each facility owned or operated by the department, agency, or instrumentality if such contamination affects contiguous or adjacent property owned by the department, agency, or instrumentality or by any other person, including a description of the monitoring data obtained.

"(c) FEDERAL AGENCY HAZARDOUS WASTE COMPLIANCE DOCKET.—The Administrator shall establish a special Federal Agency Hazardous Waste Compliance Docket (hereinafter in this section referred to as the 'docket') which shall contain each of the following:

"(1) All information submitted under section 3016 of the Solid Waste Disposal Act and subsection (b) of this section regarding any Federal facility and notice of each subsequent action taken under this Act with respect to the facility.

"(2) Information submitted by each department, agency, or instrumentality of the United States under section 3005 or 3010 of such Act.

"(3) Information submitted by the department, agency, or instrumentality under section 103 of this Act.

The docket shall be available for public inspection at reasonable times. Six months after establishment of the docket and every 6 months thereafter, the Administrator shall publish in the Federal Register a list of the Federal facilities which have been included in the docket during the immediately preceding 6-month period. Such publication shall also indicate where in the appropriate regional office of the Environmental Protection Agency additional information may be obtained with respect to any facility on the docket. The Administrator shall establish a program to provide information to the public with respect to facilities which are included in the docket under this subsection.

"(d) ASSESSMENT AND EVALUATION.—Not later than 18 months after the enactment of the Superfund Amendments and Reauthorization Act of 1986, the Administrator shall take steps to assure that a preliminary assessment is conducted for each facility on the docket. Following such preliminary assessment, the Administrator shall, where appropriate—

"(1) evaluate such facilities in accordance with the criteria established in accordance with section 105 under the National Contingency Plan for determining priorities among releases; and

"(2) include such facilities on the National Priorities List maintained under such plan if the facility meets such criteria.

Such criteria shall be applied in the same manner as the criteria are applied to facilities which are owned or operated by other persons. Evaluation and listing under this subsection shall be completed not later than 30 months after such date of enactment. Upon the receipt of a petition from the Governor of any State, the Administrator shall make such an evaluation of any facility included in the docket.

"(e) REQUIRED ACTION BY DEPARTMENT.—

"(1) RI/FS.—Not later than 6 months after the inclusion of any facility on the National Priorities List, the department, agency, or instrumentality which owns or operates such facility shall, in consultation with the Administrator and appropriate State authorities, commence a remedial investigation and feasibility study for such facility. In the case of any facility which is listed on such list before the date of the enactment of this section, the department, agency, or instrumentality which owns or operates such facility shall, in consultation with the Administrator and appropriate State authorities, commence such an investigation and study for such facility within one year after such date of enactment. The Administrator and appropriate State authorities shall publish a timetable and deadlines for expeditious completion of such investigation and study.

"(2) COMMENCEMENT OF REMEDIAL ACTION; INTERAGENCY AGREEMENT.—The Administrator shall review the results of each investigation and study conducted as provided in paragraph (1). Within 180 days thereafter, the head of the department, agency, or instrumentality concerned shall enter into an interagency agreement with the Administrator for the expeditious completion by such department, agency, or instrumentality of all necessary remedial action at such facility. Substantial continuous physical onsite remedial action shall be commenced at each facility not later than 15 months after completion of the investigation and study. All such interagency agreements, including review of alternative remedial action plans and selection of remedial action, shall comply with the public participation requirements of section 117.

"(3) COMPLETION OF REMEDIAL ACTIONS.—Remedial actions at facilities subject to interagency agreements under this section shall be completed as expeditiously as practicable. Each agency shall include in its annual budget submissions to the Congress a review of alternative agency funding which could be used to provide for the costs of remedial action. The budget submission shall also include a statement of the hazard posed by the facility to human health, welfare, and the environment and identify the specific consequences of failure to begin and complete remedial action.

"(4) CONTENTS OF AGREEMENT.—Each interagency agreement under this subsection shall include, but shall not be limited to, each of the following:

"(A) A review of alternative remedial actions and selection of a remedial action by the head of the relevant department, agency, or instrumentality and the Administrator or, if unable to reach agreement on selection of a remedial action, selection by the Administrator.

"(B) A schedule for the completion of each such remedial action.

"(C) Arrangements for long-term operation and maintenance of the facility.

"(5) ANNUAL REPORT.—Each department, agency, or instrumentality responsible for compliance with this section shall furnish an annual report to the Congress concerning its progress in implementing the requirements of this section. Such reports shall include, but shall not be limited to, each of the following items:

"(A) A report on the progress in reaching interagency agreements under this section.

"(B) The specific cost estimates and budgetary proposals involved in each interagency agreement.

"(C) A brief summary of the public comments regarding each proposed interagency agreement.

"(D) A description of the instances in which no agreement was reached.

"(E) A report on progress in conducting investigations and studies under paragraph (1).

"(F) A report on progress in conducting remedial actions.

"(G) A report on progress in conducting remedial action at facilities which are not listed on the National Priorities List.

With respect to instances in which no agreement was reached within the required time period, the department, agency, or instrumentality filing the report under this paragraph shall include in such report an explanation of the reasons why no agreement was reached. The annual report required by this paragraph shall also contain a detailed description on a State-by-State basis of the status of each facility subject to this section, including a description of the hazard presented by each facility, plans and schedules for initiating and completing response action, enforcement status (where appropriate), and an explanation of any postponements or failure to complete response action. Such reports shall also be submitted to the affected States.

"(6) SETTLEMENTS WITH OTHER PARTIES.—If the Administrator, in consultation with the head of the relevant department, agency, or instrumentality of the United States, determines that remedial investigations and feasibility studies or remedial action will be done properly at the Federal facility by another potentially responsible party within the deadlines provided in paragraphs (1), (2), and (3) of this subsection, the Administrator may enter into an agreement with such party under section 122 (relating to settlements). Following approval by the Attorney General of any such agreement relating to a remedial action, the agreement shall be entered in the appropriate United States district court as a consent decree under section 106 of this Act.

"(f) STATE AND LOCAL PARTICIPATION.—The Administrator and each department, agency, or instrumentality responsible for compliance with this section shall afford to relevant State and local officials the opportunity to participate in the planning and selection of the remedial action, including but not limited to the review of all applicable data as it becomes available and the development of studies, reports, and action plans. In the case of State officials, the opportunity to participate shall be provided in accordance with section 121.

"(g) TRANSFER OF AUTHORITIES.—Except for authorities which are delegated by the Administrator to an officer or employee of the Environmental Protection Agency, no authority vested in the Administrator under this section may be transferred, by executive order of the President or otherwise, to any other officer or employee of the United States or to any other person.

"(h) PROPERTY TRANSFERRED BY FEDERAL AGENCIES.—

"(1) NOTICE.—After the last day of the 6-month period beginning on the effective date of regulations under paragraph (2) of this subsection, whenever any department, agency, or instrumentality of the United States enters into any contract for the sale or other transfer of real property which is owned by the United States and on which any hazardous substance was stored for one year or more, known to have been released,

or disposed of, the head of such department, agency, or instrumentality shall include in such contract notice of the type and quantity of such hazardous substance and notice of the time at which such storage, release, or disposal took place, to the extent such information is available on the basis of a complete search of agency files.

"(2) FORM OF NOTICE; REGULATIONS.—Notice under this subsection shall be provided in such form and manner as may be provided in regulations promulgated by the Administrator. As promptly as practicable after the enactment of this subsection but not later than 18 months after the date of such enactment, and after consultation with the Administrator of the General Services Administration, the Administrator shall promulgate regulations regarding the notice required to be provided under this subsection.

"(3) CONTENTS OF CERTAIN DEEDS.—After the last day of the 6-month period beginning on the effective date of regulations under paragraph (2) of this subsection, in the case of any real property owned by the United States on which any hazardous substance was stored for one year or more, known to have been released, or disposed of, each deed entered into for the transfer of such property by the United States to any other person or entity shall contain—

"(A) to the extent such information is available on the basis of a complete search of agency files—

"(i) a notice of the type and quantity of such hazardous substances,

"(ii) notice of the time at which such storage, release, or disposal took place, and

"(iii) a description of the remedial action taken, if any, and

"(B) a covenant warranting that—

"(i) all remedial action necessary to protect human health and the environment with respect to any such substance remaining on the property has been taken before the date of such transfer, and

"(ii) any additional remedial action found to be necessary after the date of such transfer shall be conducted by the United States.

The requirements of subparagraph (B) shall not apply in any case in which the person or entity to whom the property is transferred is a potentially responsible party with respect to such real property.

"(i) OBLIGATIONS UNDER SOLID WASTE DISPOSAL ACT.—Nothing in this section shall affect or impair the obligation of any department, agency, or instrumentality of the United States to comply with any requirement of the Solid Waste Disposal Act (including corrective action requirements).

"(j) NATIONAL SECURITY.—

"(1) SITE SPECIFIC PRESIDENTIAL ORDERS.—The President may issue such orders regarding response actions at any specified site or facility of the Department of Energy or the Department of Defense as may be necessary to protect the national security interests of the United States at that site or facility. Such orders may include, where necessary to protect such interests, an exemption from any requirement contained in this title or under title III of the Superfund Amendments and Reauthorization Act of 1986 with respect to the site or facility concerned. The President shall notify the Congress within 30 days of the issuance of an order under this paragraph providing for any such exemption. Such notification shall include a statement of the reasons for the granting of the exemption. An exemption under this paragraph shall be for a specified period which may not exceed one year. Additional exemptions may be granted, each upon the President's issuance of a new order under this paragraph for the site or facility concerned. Each such additional exemption shall be for a specified period which may not exceed one year. It is the intention of the Congress that whenever an exemption is issued under this paragraph the response action shall proceed as expeditiously as practicable. The Congress shall be notified periodically of the progress of any response action with respect to which an exemption has been issued under this paragraph. No exemption shall be granted under this paragraph due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation.

"(2) CLASSIFIED INFORMATION.—Notwithstanding any other provision of law, all requirements of the Atomic Energy Act and all Executive orders concerning the handling of restricted data and national security information, including 'need to know' requirements, shall be applicable to any grant of access to classified information under the provisions of this Act or under title III of the Superfund Amendments and Reauthorization Act of 1986.".

(b) LIMITED GRANDFATHER.—Section 120 of CERCLA shall not apply to any response action or remedial action for which a plan is under development by the Department of Energy on the date of enactment of this Act with respect to facilities—

(1) owned or operated by the United States and subject to the jurisdiction of such Department;

(2) located in St. Charles and St. Louis counties, Missouri, or the city of St. Louis, Missouri, and

(3) published in the National Priorities List.

In preparing such plans, the Secretary of Energy shall consult with the Administrator of the Environmental Protection Agency.

SEC. 121. CLEANUP STANDARDS.

(a) AMENDMENT OF CERCLA.—Title I of CERCLA is amended by adding the following new section after section 120:

"SEC. 121. CLEANUP STANDARDS.

"(a) SELECTION OF REMEDIAL ACTION.—The President shall select appropriate remedial actions determined to be necessary to be carried out under section 104 or secured under section 106 which are in accordance with this section and, to the extent practicable, the national contingency plan, and which provide for cost-effective response. In evaluating the cost effectiveness of proposed alternative remedial actions, the President shall take into account the total short- and long-term costs of such actions, including the costs of operation and maintenance for the entire period during which such activities will be required.

"(b) GENERAL RULES.—(1) Remedial actions in which treatment which permanently and significantly reduces the volume, toxicity or mobility of the hazardous substances, pollutants, and contaminants is a principal element, are to be preferred over remedial actions not involving such treatment. The offsite transport and disposal of hazardous substances or contaminated materials without such treatment should be the least favored alternative remedial action where practicable treatment technologies are available. The President shall conduct an assessment of permanent solutions and alternative treatment technologies or resource recovery technologies that, in whole or in part, will result in a permanent and significant decrease in the toxicity, mobility, or volume of the hazardous substance, pollutant, or contaminant. In making such assessment, the President shall specifically address the long-term effectiveness of various alternatives. In assessing alternative remedial actions, the President shall, at a minimum, take into account:

"(A) the long-term uncertainties associated with land disposal;

"(B) the goals, objectives, and requirements of the Solid Waste Disposal Act;

"(C) the persistence, toxicity, mobility, and propensity to bioaccumulate of such hazardous substances and their constituents;

"(D) short- and long-term potential for adverse health effects from human exposure;

"(E) long-term maintenance costs;

"(F) the potential for future remedial action costs if the alternative remedial action in question were to fail; and

"(G) the potential threat to human health and the environment associated with excavation, transportation, and redisposal, or containment.

The President shall select a remedial action that is protective of human health and the environment, that is cost effective, and that utilizes permanent solutions and alternative treatment technologies or resource recovery technologies to the maximum extent practicable. If the President selects a remedial action not appropriate for a preference under this subsection, the President shall publish an explanation as to why a remedial action involving such reductions was not selected.

"(2) The President may select an alternative remedial action meeting the objectives of this subsection whether or not such action has been achieved in practice at any other facility or site that has similar characteristics. In making such a selection, the President may take into account the degree of support for such remedial action by parties interested in such site.

"(c) REVIEW.—If the President selects a remedial action that results in any hazardous substances, pollutants, or contaminants remaining at the site, the President shall review such remedial action no less often than each 5 years after the initiation of such remedial action to assure that human health and the environment are being protected by the remedial action being implemented. In addition, if upon such review it is the judgment of the President that action is appropriate at such site in accordance with section 104 or 106, the President shall take or require such action. The President shall report to the Congress a list of facilities for which such review is required, the results of all such reviews, and any actions taken as a result of such reviews.

"(d) DEGREE OF CLEANUP.—(1) Remedial actions selected under this section or otherwise required or agreed to by the President under this Act shall attain a degree of cleanup of hazardous substances, pollutants, and contaminants released into the environment and of control of further release at a minimum which assures protection of human health and the environment. Such remedial actions shall be relevant and appropriate under the circumstances presented by the release or threatened release of such substance, pollutant, or contaminant.

"(2)(A) With respect to any hazardous substance, pollutant or contaminant that will remain onsite, if—

"(i) any standard, requirement, criteria, or limitation under any Federal environ-

mental law, including, but not limited to, the Toxic Substances Control Act, the Safe Drinking Water Act, the Clean Air Act, the Clean Water Act, the Marine Protection, Research and Sanctuaries Act, or the Solid Waste Disposal Act; or

"(ii) any promulgated standard, requirement, criteria, or limitation under a State environmental or facility siting law that is more stringent than any Federal standard, requirement, criteria, or limitation, including each such State standard, requirement, criteria, or limitation contained in a program approved, authorized or delegated by the Administrator under a statute cited in subparagraph (A), and that has been identified to the President by the State in a timely manner,

is legally applicable to the hazardous substance or pollutant or contaminant concerned or is relevant and appropriate under the circumstances of the release or threatened release of such hazardous substance or pollutant or contaminant, the remedial action selected under section 104 or secured under section 106 shall require, at the completion of the remedial action, a level or standard of control for such hazardous substance or pollutant or contaminant which at least attains such legally applicable or relevant and appropriate standard, requirement, criteria, or limitation. Such remedial action shall require a level or standard of control which at least attains Maximum Contaminant Level Goals established under the Safe Drinking Water Act and water quality criteria established under section 304 or 303 of the Clean Water Act, where such goals or criteria are relevant and appropriate under the circumstances of the release or threatened release.

"(B)(i) In determining whether or not any water quality criteria under the Clean Water Act is relevant and appropriate under the circumstances of the release or threatened release, the President shall consider the designated or potential use of the surface or groundwater, the environmental media affected, the purposes for which such criteria were developed, and the latest information available.

"(ii) For the purposes of this section, a process for establishing alternate concentration limits to those otherwise applicable for hazardous constituents in groundwater under subparagraph (A) may not be used to establish applicable standards under this paragraph if the process assumes a point of human exposure beyond the boundary of the facility, as defined at the conclusion of the remedial investigation and feasibility study, except where—

"(I) there are known and projected points of entry of such groundwater into surface water; and

"(II) on the basis of measurements or projections, there is or will be no statistically significant increase of such constituents from such groundwater in such surface water at the point of entry or at any point where there is reason to believe accumulation of constituents may occur downstream; and

"(III) the remedial action includes enforceable measures that will preclude human exposure to the contaminated groundwater at any point between the facility boundary and all known and projected points of entry of such groundwater into surface water then the assumed point of human exposure may be at such known and projected points of entry.

"(C)(i) Clause (ii) of this subparagraph shall be applicable only in cases where, due to the President's selection, in compliance with subsection (b)(1), of a proposed remedial action which does not permanently and significantly reduce the volume, toxicity, or mobility of hazardous substances, pollutants, or contaminants, the proposed disposition of waste generated by or associated with the remedial action selected by the President is land disposal in a State referred to in clause (ii).

"(ii) Except as provided in clauses (iii) and (iv), a State standard, requirement, criteria, or limitation (including any State siting standard or requirement) which could effectively result in the statewide prohibition of land disposal of hazardous substances, pollutants, or contaminants shall not apply.

"(iii) Any State standard, requirement, criteria, or limitation referred to in clause (ii) shall apply where each of the following conditions is met:

"(I) The State standard, requirement, criteria, or limitation is of general applicability and was adopted by formal means.

"(II) The State standard, requirement, criteria, or limitation was adopted on the basis of hydrologic, geologic, or other relevant considerations and was not adopted for the purpose of precluding onsite remedial actions or other land disposal for reasons unrelated to protection of human health and the environment.

"(III) The State arranges for, and assures payment of the incremental costs of utilizing, a facility for disposition of the hazardous substances, pollutants, or contaminants concerned.

"(iv) Where the remedial action selected by the President does not conform to a State standard and the State has initiated a law suit against the Environmental Protection Agency prior to May 1, 1986, to seek to have the remedial action conform to such standard, the President shall conform the remedial action to the State standard. The State shall assure the availability of an offsite facility for such remedial action.

"(3) In the case of any removal or remedial action involving the transfer of any hazardous substance or pollutant or contaminant offsite, such hazardous substance or pollutant or contaminant shall only be transferred to a facility which is operating in compliance with section 3004 and 3005 of the Solid Waste Disposal Act (or, where applicable, in compliance with the Toxic Substances Control Act or other applicable Federal law) and all applicable State requirements. Such substance or pollutant or contaminant may be transferred to a land disposal facility only if the President determines that both of the following requirements are met:

"(A) The unit to which the hazardous substance or pollutant or contaminant is transferred is not releasing any hazardous waste, or constituent thereof, into the ground water or surface water or soil.

"(B) All such releases from other units at the facility are being controlled by a corrective action program approved by the Administrator under subtitle C of the Solid Waste Disposal Act.

The President shall notify the owner or operator of such facility of determinations under this paragraph.

"(4) The President may select a remedial action meeting the requirements of paragraph (1) that does not attain a level or standard of control at least equivalent to a legally applicable or relevant and appropriate standard, requirement, criteria, or limitation as required by paragraph (2) (including subparagraph (B) thereof), if the President finds that—

"(A) the remedial action selected is only part of a total remedial action that will attain such level or standard of control when completed;

"(B) compliance with such requirement at that facility will result in greater risk to human health and the environment than alternative options;

"(C) compliance with such requirements is technically impracticable from an engineering perspective;

"(D) the remedial action selected will attain a standard of performance that is equivalent to that required under the otherwise applicable standard, requirement, criteria, or limitation, through use of another method or approach;

"(E) with respect to a State standard, requirement, criteria, or limitation, the State has not consistently applied (or demonstrated the intention to consistently apply) the standard, requirement, criteria, or limitation in similar circumstances at other remedial actions within the State; or

"(F) in the case of a remedial action to be undertaken solely under section 104 using the Fund, selection of a remedial action that attains such level or standard of control will not provide a balance between the need for protection of public health and welfare and the environment at the facility under consideration, and the availability of amounts from the Fund to respond to other sites which present or may present a threat to public health or welfare or the environment, taking into consideration the relative immediacy of such threats.

The President shall publish such findings, together with an explanation and appropriate documentation.

"(e) PERMITS AND ENFORCEMENT.—(1) No Federal, State, or local permit shall be required for the portion of any removal or remedial action conducted entirely onsite, where such remedial action is selected and carried out in compliance with this section.

"(2) A State may enforce any Federal or State standard, requirement, criteria, or limitation to which the remedial action is required to conform under this Act in the United States district court for the district in which the facility is located. Any consent decree shall require the parties to attempt expeditiously to resolve disagreements concerning implementation of the remedial action informally with the appropriate Federal and State agencies. Where the parties agree, the consent decree may provide for administrative enforcement. Each consent decree shall also contain stipulated penalties for violations of the decree in an amount not to exceed $25,000 per day, which may be enforced by either the President or the State. Such stipulated penalties shall not be construed to impair or affect the authority of the court to order compliance with the specific terms of any such decree.

"(f) STATE INVOLVEMENT.—(1) The President shall promulgate regulations providing for substantial and meaningful involvement by each State in initiation, development, and selection of remedial actions to be undertaken in that State. The regulations, at a minimum, shall include each of the following:

"(A) State involvement in decisions whether to perform a preliminary assessment and site inspection.

"(B) Allocation of responsibility for hazard ranking system scoring.

"(C) State concurrence in deleting sites from the National Priorities List.

"(D) State participation in the long-term planning process for all remedial sites within the State.

"(E) A reasonable opportunity for States to review and comment on each of the following:

"(i) The remedial investigation and feasibility study and all data and technical documents leading to its issuance.

"(ii) The planned remedial action identified in the remedial investigation and feasibility study.

"(iii) The engineering design following selection of the final remedial action.

"(iv) Other technical data and reports relating to implementation of the remedy.

"(v) Any proposed finding or decision by the President to exercise the authority of subsection (d)(4).

"(F) Notice to the State of negotiations with potentially responsible parties regarding the scope of any response action at a facility in the State and an opportunity to participate in such negotiations and, subject to paragraph (2), be a party to any settlement.

"(G) Notice to the State and an opportunity to comment on the President's proposed plan for remedial action as well as on alternative plan under consideration. The President's proposed decision regarding the selection of remedial action shall be accompanied by a response to the comments submitted by the State, including an explanation regarding any decision under subsection (d)(4) on compliance with promulgated State standards. A copy of such response shall also be provided to the State.

"(H) Prompt notice and explanation of each proposed action to the State in which the facility is located.

Prior to the promulgation of such regulations, the President shall provide notice to the State of negotiations with potentially responsible parties regarding the scope of any response action at a facility in the State, and such State may participate in such negotiations and, subject to paragraph (2), any settlements.

"(2)(A) This paragraph shall apply to remedial actions secured under section 106. At least 30 days prior to the entering of any consent decree, if the President proposes to select a remedial action that does not attain a legally applicable or relevant and appropriate standard, requirement, criteria, or limitation, under the authority of subsection (d)(4), the President shall provide an opportunity for the State to concur or not concur in such selection. If the State concurs, the State may become a signatory to the consent decree.

"(B) If the State does not concur in such selection, and the State desires to have the remedial action conform to such standard, requirement, criteria, or limitation, the State shall intervene in the action under section 106 before entry of the consent decree, to seek to have the remedial action so conform. Such intervention shall be a matter of right. The remedial action shall conform to such standard, requirement, criteria, or limitation if the State establishes, on the administrative record, that the finding of the President was not supported by substantial evidence. If the court determines that the remedial action shall conform to such standard, requirement, criteria, or limitation, the remedial action shall be so modified and the State may become a signatory to the decree. If the court determines that the remedial action need not conform to such standard, requirement, criteria, or limitation, and the State pays or assures the payment of the additional costs attributable to meeting such standard, requirement, criteria, or limitation, the remedial action shall be so modified and the State shall become a signatory to the decree.

"(C) The President may conclude settlement negotiations with potentially responsible parties without State concurrence.

"(3)(A) This paragraph shall apply to remedial actions at facilities owned or operated by a department, agency, or instrumentality of the United States. At least 30 days prior to the publication of the President's final remedial action plan, if the President proposes to select a remedial action that does not attain a legally applicable or relevant and appropriate standard, requirement, criteria, or limitation, under the authority of subsection (d)(4), the President shall provide an opportunity for the State to concur or not concur in such selection. If the State concurs, or does not act within 30 days, the remedial action may proceed.

"(B) If the State does not concur in such selection as provided in subparagraph (A), and desires to have the remedial action conform to such standard, requirement, criteria, or limitation, the State may maintain an action as follows:

"(i) If the President has notified the State of selection of such a remedial action, the State may bring an action within 30 days of such notification for the sole purpose of determining whether the finding of the President is supported by substantial evidence. Such action shall be brought in the United States district court for the district in which the facility is located.

"(ii) If the State establishes, on the administrative record, that the President's finding is not supported by substantial evidence, the remedial action shall be modified to conform to such standard, requirement, criteria, or limitation.

"(iii) If the State fails to establish that the President's finding was not supported by substantial evidence and if the State pays, within 60 days of judgment, the additional costs attributable to meeting such standard, requirement, criteria, or limitation, the remedial action shall be selected to meet such standard, requirement, criteria, or limitation. If the State fails to pay within 60 days, the remedial action selected by the President shall proceed through completion.

"(C) Nothing in this section precludes, and the court shall not enjoin, the Federal agency from taking any remedial action unrelated to or not inconsistent with such standard, requirement, criteria, or limitation.".

(b) EFFECTIVE DATE.—With respect to section 121 of CERCLA, as added by this section—

(1) The requirements of section 121 of CERCLA shall not apply to any remedial action for which the Record of Decision (hereinafter in this section referred to as the "ROD") was signed, or the consent decree was lodged, before date of enactment.

(2) If the ROD was signed, or the consent decree lodged, within the 30-day period immediately following enactment of the Act, the Administrator shall certify in writing that the portion of the remedial action covered by the ROD or consent decree complies to the maximum extent practicable with section 121 of CERCLA.

Any ROD signed before enactment of this Act and reopened after enactment of this Act to modify or supplement the selection of remedy shall be subject to the requirements of section 121 of CERCLA.

SEC. 122. SETTLEMENTS.

(a) NEW SECTION.—Title I of CERCLA is amended by adding the following new section after section 121:

"SEC. 122. SETTLEMENTS.

"(a) AUTHORITY TO ENTER INTO AGREEMENTS.—The President, in his discretion, may enter into an agreement with any person (including the owner or operator of the facility from which a release or substantial threat of release emanates, or any other potentially responsible person), to perform any response action (including any action described in section 104(b)) if the President determines that such action will be done properly by such person. Whenever practicable and in the public interest, as determined by the President, the President shall act to facilitate agreements under this section that are in the public interest and consistent with the National Contingency Plan in order to expedite effective remedial actions and minimize litigation. If the President decides not to use the procedures in this section, the President shall notify in writing potentially responsible parties at the facility of such decision and the reasons why use of the procedures is inappropriate. A decision of the President to use or not to use the procedures in this section is not subject to judicial review.

"(b) AGREEMENTS WITH POTENTIALLY RESPONSIBLE PARTIES.—

"(1) MIXED FUNDING.—An agreement under this section may provide that the President will reimburse the parties to the agreement from the Fund, with interest, for certain costs of actions under the agreement that the parties have agreed to perform but which the President has agreed to finance. In any case in which the President provides such reimbursement, the President shall make all reasonable efforts to recover the amount of such reimbursement under section 107 or under other relevant authorities.

"(2) REVIEWABILITY.—The President's decisions regarding the availability of fund financing under this subsection shall not be subject to judicial review under subsection (d).

"(3) RETENTION OF FUNDS.—If, as part of any agreement, the President will be carrying out any action and the parties will be paying amounts to the President, the President may, notwithstanding any other provision of law, retain and use such amounts for purposes of carrying out the agreement.

"(4) FUTURE OBLIGATION OF FUND.—In the case of a completed remedial action pursuant to an agreement described in paragraph (1), the Fund shall be subject to an obligation for subsequent remedial actions at the same facility but only to the extent that such subsequent actions are necessary by reason of the failure of the original remedial action. Such obligation shall be in a proportion equal to, but not exceeding, the proportion contributed by the Fund for the original remedial action. The Fund's obligation for such future remedial action may be met through Fund expenditures or through payment, following settlement or enforcement action, by parties who were not signatories to the original agreement.

"(c) EFFECT OF AGREEMENT.—

"(1) LIABILITY.—Whenever the President has entered into an agreement under this section, the liability to the United States under this Act of each party to the agreement, including any future liability to the United States, arising from the release or threatened release that is the subject of the agreement shall be limited as provided in

the agreement pursuant to a covenant not to sue in accordance with subsection (f). A covenant not to sue may provide that future liability to the United States of a settling potentially responsible party under the agreement may be limited to the same proportion as that established in the original settlement agreement. Nothing in this section shall limit or otherwise affect the authority of any court to review in the consent decree process under subsection (d) any covenant not to sue contained in an agreement under this section. In determining the extent to which the liability of parties to an agreement shall be limited pursuant to a covenant not to sue, the President shall be guided by the principle that a more complete covenant not to sue shall be provided for a more permanent remedy undertaken by such parties.

"(2) ACTIONS AGAINST OTHER PERSONS.—If an agreement has been entered into under this section, the President may take any action under section 106 against any person who is not a party to the agreement, once the period for submitting a proposal under subsection (e)(2)(B) has expired. Nothing in this section shall be construed to affect either of the following:

"(A) The liability of any person under section 106 or 107 with respect to any costs or damages which are not included in the agreement.

"(B) The authority of the President to maintain an action under this Act against any person who is not a party to the agreement.

"(d) ENFORCEMENT.—

"(1) CLEANUP AGREEMENTS.—

"(A) CONSENT DECREE.—Whenever the President enters into an agreement under this section with any potentially responsible party with respect to remedial action under section 106, following approval of the agreement by the Attorney General, except as otherwise provided in the case of certain administrative settlements referred to in subsection (g), the agreement shall be entered in the appropriate United States district court as a consent decree. The President need not make any finding regarding an imminent and substantial endangerment to the public health or the environment in connection with any such agreement or consent decree.

"(B) EFFECT.—The entry of any consent decree under this subsection shall not be construed to be an acknowledgment by the parties that the release or threatened release concerned constitutes an imminent and substantial endangerment to the public health or welfare or the environment. Except as otherwise provided in the Federal Rules of Evidence, the participation by any party in the process under this section shall not be considered an admission of liability for any purpose, and the fact of such participation shall not be admissible in any judicial or administrative proceeding, including a subsequent proceeding under this section.

"(C) STRUCTURE.—The President may fashion a consent decree so that the entering of such decree and compliance with such decree or with any determination or agreement made pursuant to this section shall not be considered an admission of liability for any purpose.

"(2) PUBLIC PARTICIPATION.—

"(A) FILING OF PROPOSED JUDGMENT.—At least 30 days before a final judgment is entered under paragraph (1), the proposed judgment shall be filed with the court.

"(B) OPPORTUNITY FOR COMMENT.—The Attorney General shall provide an opportunity to persons who are not named as parties to the action to comment on the proposed judgment before its entry by the court as a final judgment. The Attorney General shall consider, and file with the court, any written comments, views, or allegations relating to the proposed judgment. The Attorney General may withdraw or withhold its consent to the proposed judgment if the comments, views, and allegations concerning the judgment disclose facts or considerations which indicate that the proposed judgment is inappropriate, improper, or inadequate.

"(3) 104(b) AGREEMENTS.—Whenever the President enters into an agreement under this section with any potentially responsible party with respect to action under section 104(b), the President shall issue an order or enter into a decree setting forth the obligations of such party. The United States district court for the district in which the release or threatened release occurs may enforce such order or decree.

"(e) SPECIAL NOTICE PROCEDURES.—

"(1) NOTICE.—Whenever the President determines that a period of negotiation under this subsection would facilitate an agreement with potentially responsible parties for taking response action (including any action described in section 104(b)) and would expedite remedial action, the President shall so notify all such parties and shall provide them with information concerning each of the following:

"(A) The names and addresses of potentially responsible parties (including owners and operators and other persons referred to in section 107(a)), to the extent such information is available.

"(B) To the extent such information is available, the volume and nature of substances contributed by each potentially responsible party identified at the facility.

"(C) A ranking by volume of the substances at the facility, to the extent such information is available.

The President shall make the information referred to in this paragraph available in advance of notice under this paragraph upon the request of a potentially responsible party in accordance with procedures provided by the President. The provisions of subsection (e) of section 104 regarding protection of confidential information apply to information provided under this paragraph. Disclosure of information generated by the President under this section to persons other than the Congress, or any duly authorized Committee thereof, is subject to other privileges or protections provided by law, including (but not limited to) those applicable to attorney work product. Nothing contained in this paragraph or in other provisions of this Act shall be construed, interpreted, or applied to diminish the required disclosure of information under other provisions of this or other Federal or State laws.

"(2) NEGOTIATION.—

"(A) MORATORIUM.—Except as provided in this subsection, the President may not commence action under section 104(a) or take any action under section 106 for 120 days after providing notice and information under this subsection with respect to such action. Except as provided in this subsection, the President may not commence a remedial investigation and feasibility study under section 104(b) for 90 days after providing notice and information under this subsection with respect to such action. The President may commence any additional studies or investigations authorized under section 104(b), including remedial design, during the negotiation period.

"(B) PROPOSALS.—Persons receiving notice and information under paragraph (1) of this subsection with respect to action under section 106 shall have 60 days from the date of receipt of such notice to make a proposal to the President for undertaking or financing the action under section 106. Persons receiving notice and information under paragraph (1) of this subsection with respect to action under section 104(b) shall have 60 days from the date of receipt of such notice to make a proposal to the President for undertaking or financing the action under section 104(b).

"(C) ADDITIONAL PARTIES.—If an additional potentially responsible party is identified during the negotiation period or after an agreement has been entered into under this subsection concerning a release or threatened release, the President may bring the additional party into the negotiation or enter into a separate agreement with such party.

"(3) PRELIMINARY ALLOCATION OF RESPONSIBILITY.—

"(A) IN GENERAL.—The President shall develop guidelines for preparing nonbinding preliminary allocations of responsibility. In developing these guidelines the President may include such factors as the President considers relevant, such as: volume, toxicity, mobility, strength of evidence, ability to pay, litigative risks, public interest considerations, precedential value, and inequities and aggravating factors. When it would expedite settlements under this section and remedial action, the President may, after completion of the remedial investigation and feasibility study, provide a nonbinding preliminary allocation of responsibility which allocates percentages of the total cost of response among potentially responsible parties at the facility.

"(B) COLLECTION OF INFORMATION.—To collect information necessary or appropriate for performing the allocation under subparagraph (A) or for otherwise implementing this section, the President may by subpoena require the attendance and testimony of witnesses and the production of reports, papers, documents, answers to questions, and other information that the President deems necessary. Witnesses shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. In the event of contumacy or failure or refusal of any person to obey any such subpoena, any district court of the United States in which venue is proper shall have jurisdiction to order any such person to comply with such subpoena. Any failure to obey such an order of the court is punishable by the court as a contempt thereof.

"(C) EFFECT.—The nonbinding preliminary allocation of responsibility shall not be admissible as evidence in any proceeding, and no court shall have jurisdiction to review the nonbinding preliminary allocation of responsibility. The nonbinding preliminary allocation of responsibility shall not constitute an apportionment or other statement on the divisibility of harm or causation.

"(D) COSTS.—The costs incurred by the President in producing the nonbinding preliminary allocation of responsibility shall be reimbursed by the potentially responsible parties whose offer is accepted by the President. Where an offer under this section is not accepted, such costs shall be considered costs of response.

"(E) DECISION TO REJECT OFFER.—Where the President, in his discretion, has provided a nonbinding preliminary allocation of responsibility and the potentially responsible parties have made a substantial offer providing for response to the President which he rejects, the reasons for the rejection shall

be provided in a written explanation. The President's decision to reject such an offer shall not be subject to judicial review.

"(4) FAILURE TO PROPOSE.—If the President determines that a good faith proposal for undertaking or financing action under section 106 has not been submitted within 60 days of the provision of notice pursuant to this subsection, the President may thereafter commence action under section 104(a) or take an action against any person under section 106 of this Act. If the President determines that a good faith proposal for undertaking or financing action under section 104(b) has not been submitted within 60 days after the provision of notice pursuant to this subsection, the President may thereafter commence action under section 104(b).

"(5) SIGNIFICANT THREATS.—Nothing in this subsection shall limit the President's authority to undertake response or enforcement action regarding a significant threat to public health or the environment within the negotiation period established by this subsection.

"(6) INCONSISTENT RESPONSE ACTION.—When either the President, or a potentially responsible party pursuant to an administrative order or consent decree under this Act, has initiated a remedial investigation and feasibility study for a particular facility under this Act, no potentially responsible party may undertake any remedial action at the facility unless such remedial action has been authorized by the President.

"(f) COVENANT NOT TO SUE.—

"(1) DISCRETIONARY COVENANTS.—The President may, in his discretion, provide any person with a covenant not to sue concerning any liability to the United States under this Act, including future liability, resulting from a release or threatened release of a hazardous substance addressed by a remedial action, whether that action is onsite or offsite, if each of the following conditions is met:

"(A) The covenant not to sue is in the public interest.

"(B) The covenant not to sue would expedite response action consistent with the National Contingency Plan under section 105 of this Act.

"(C) The person is in full compliance with a consent decree under section 106 (including a consent decree entered into in accordance with this section) for response to the release or threatened release concerned.

"(D) The response action has been approved by the President.

"(2) SPECIAL COVENANTS NOT TO SUE.—In the case of any person to whom the President is authorized under paragraph (1) of this subsection to provide a covenant not to sue, for the portion of remedial action—

"(A) which involves the transport and secure disposition offsite of hazardous substances in a facility meeting the requirements of sections 3004 (c), (d), (e), (f), (g), (m), (o), (p), (u), and (v) and 3005(c) of the Solid Waste Disposal Act, where the President has rejected a proposed remedial action that is consistent with the National Contingency Plan that does not include such offsite disposition and has thereafter required offsite disposition; or

"(B) which involves the treatment of hazardous substances so as to destroy, eliminate, or permanently immobilize the hazardous constituents of such substances, such that, in the judgment of the President, the substances no longer present any current or currently foreseeable future significant risk to public health, welfare or the environment, no byproduct of the treatment or destruction process presents any significant hazard to public health, welfare or the environment, and all byproducts are themselves treated, destroyed, or contained in a manner which assures that such byproducts do not present any current or currently foreseeable future significant risk to public health, welfare or the environment,

the President shall provide such person with a covenant not to sue with respect to future liability to the United States under this Act for a future release or threatened release of hazardous substances from such facility, and a person provided such covenant not to sue shall not be liable to the United States under section 106 or 107 with respect to such release or threatened release at a future time.

"(3) REQUIREMENT THAT REMEDIAL ACTION BE COMPLETED.—A covenant not to sue concerning future liability to the United States shall not take effect until the President certifies that remedial action has been completed in accordance with the requirements of this Act at the facility that is the subject of such covenant.

"(4) FACTORS.—In assessing the appropriateness of a covenant not to sue under paragraph (1) and any condition to be included in a covenant not to sue under paragraph (1) or (2), the President shall consider whether the covenant or condition is in the public interest on the basis of such factors as the following:

"(A) The effectiveness and reliability of the remedy, in light of the other alternative remedies considered for the facility concerned.

"(B) The nature of the risks remaining at the facility.

"(C) The extent to which performance standards are included in the order or decree.

"(D) The extent to which the response action provides a complete remedy for the facility, including a reduction in the hazardous nature of the substances at the facility.

"(E) The extent to which the technology used in the response action is demonstrated to be effective.

"(F) Whether the Fund or other sources of funding would be available for any additional remedial actions that might eventually be necessary at the facility.

"(G) Whether the remedial action will be carried out, in whole or in significant part, by the responsible parties themselves.

"(5) SATISFACTORY PERFORMANCE.—Any covenant not to sue under this subsection shall be subject to the satisfactory performance by such party of its obligations under the agreement concerned.

"(6) ADDITIONAL CONDITION FOR FUTURE LIABILITY.—(A) Except for the portion of the remedial action which is subject to a covenant not to sue under paragraph (2) or under subsection (g) (relating to de minimis settlements), a covenant not to sue a person concerning future liability to the United States shall include an exception to the covenant that allows the President to sue such person concerning future liability resulting from the release or threatened release that is the subject of the covenant where such liability arises out of conditions which are unknown at the time the President certifies under paragraph (3) that remedial action has been completed at the facility concerned.

"(B) In extraordinary circumstances, the President may determine, after assessment of relevant factors such as those referred to in paragraph (4) and volume, toxicity, mobility, strength of evidence, ability to pay, litigative risks, public interest considerations, precedential value, and inequities and aggravating factors, not to include the exception referred to in subparagraph (A) if other terms, conditions, or requirements of the agreement containing the covenant not to sue are sufficient to provide all reasonable assurances that public health and the environment will be protected from any future releases at or from the facility.

"(C) The President is authorized to include any provisions allowing future enforcement action under section 106 or 107 that in the discretion of the President are necessary and appropriate to assure protection of public health, welfare, and the environment.

"(g) DE MINIMIS SETTLEMENTS.—

"(1) EXPEDITED FINAL SETTLEMENT.—Whenever practicable and in the public interest, as determined by the President, the President shall, as promptly as possible, reach a final settlement with a potentially responsible party in an administrative or civil action under section 106 or 107 if such settlement involves only a minor portion of the response costs at the facility concerned and, in the judgment of the President, the conditions in either of the following subparagraph (A) or (B) are met:

"(A) Both of the following are minimal in comparison to other hazardous substances at the facility:

"(i) The amount of the hazardous substances contributed by that party to the facility.

"(ii) The toxic or other hazardous effects of the substances contributed by that party to the facility.

"(B) The potentially responsible party—

"(i) is the owner of the real property on or in which the facility is located;

"(ii) did not conduct or permit the generation, transportation, storage, treatment, or disposal of any hazardous substance at the facility; and

"(iii) did not contribute to the release or threat of release of a hazardous substance at the facility through any action or omission.

This subparagraph (B) does not apply if the potentially responsible party purchased the real property with actual or constructive knowledge that the property was used for the generation, transportation, storage, treatment, or disposal of any hazardous substance.

"(2) COVENANT NOT TO SUE.—The President may provide a covenant not to sue with respect to the facility concerned to any party who has entered into a settlement under this subsection unless such a covenant would be inconsistent with the public interest as determined under subsection (f).

"(3) EXPEDITED AGREEMENT.—The President shall reach any such settlement or grant any such covenant not to sue as soon as possible after the President has available the information necessary to reach such a settlement or grant such a covenant.

"(4) CONSENT DECREE OR ADMINISTRATIVE ORDER.—A settlement under this subsection shall be entered as a consent decree or embodied in an administrative order setting forth the terms of the settlement. In the case of any facility where the total response costs exceed $500,000 (excluding interest), if the settlement is embodied as an administrative order, the order may be issued only with the prior written approval of the Attorney General. If the Attorney General or his designee has not approved or disapproved the order within 30 days of this referral, the order shall be deemed to be approved unless the At-

torney General and the Administrator have agreed to extend the time. The district court for the district in which the release or threatened release occurs may enforce any such administrative order.

"(5) EFFECT OF AGREEMENT.—A party who has resolved its liability to the United States under this subsection shall not be liable for claims for contribution regarding matters addressed in the settlement. Such settlement does not discharge any of the other potentially responsible parties unless its terms so provide, but it reduces the potential liability of the others by the amount of the settlement.

"(6) SETTLEMENTS WITH OTHER POTENTIALLY RESPONSIBLE PARTIES.—Nothing in this subsection shall be construed to affect the authority of the President to reach settlements with other potentially responsible parties under this Act.

"(h) COST RECOVERY SETTLEMENT AUTHORITY.—

"(1) AUTHORITY TO SETTLE.—The head of any department or agency with authority to undertake a response action under this Act pursuant to the national contingency plan may consider, compromise, and settle a claim under section 107 for costs incurred by the United States Government if the claim has not been referred to the Department of Justice for further action. In the case of any facility where the total response costs exceed $500,000 (excluding interest), any claim referred to in the preceding sentence may be compromised and settled only with the prior written approval of the Attorney General.

"(2) USE OF ARBITRATION.—Arbitration in accordance with regulations promulgated under this subsection may be used as a method of settling claims of the United States where the total response costs for the facility concerned do not exceed $500,000 (excluding interest). After consultation with the Attorney General, the department or agency head may establish and publish regulations for the use of arbitration or settlement under this subsection.

"(3) RECOVERY OF CLAIMS.—If any person fails to pay a claim that has been settled under this subsection, the department or agency head shall request the Attorney General to bring a civil action in an appropriate district court to recover the amount of such claim, plus costs, attorneys' fees, and interest from the date of the settlement. In such an action, the terms of the settlement shall not be subject to review.

"(4) CLAIMS FOR CONTRIBUTION.—A person who has resolved its liability to the United States under this subsection shall not be liable for claims for contribution regarding matters addressed in the settlement. Such settlement shall not discharge any of the other potentially liable persons unless its terms so provide, but it reduces the potential liability of the others by the amount of the settlement.

"(i) SETTLEMENT PROCEDURES.—

"(1) PUBLICATION IN FEDERAL REGISTER.—At least 30 days before any settlement (including any settlement arrived at through arbitration) may become final under subsection (h), or under subsection (g) in the case of a settlement embodied in an administrative order, the head of the department or agency which has jurisdiction over the proposed settlement shall publish in the Federal Register notice of the proposed settlement. The notice shall identify the facility concerned and the parties to the proposed settlement.

"(2) COMMENT PERIOD.—For a 30-day period beginning on the date of publication of notice under paragraph (1) of a proposed settlement, the head of the department or agency which has jurisdiction over the proposed settlement shall provide an opportunity for persons who are not parties to the proposed settlement to file written comments relating to the proposed settlement.

"(3) CONSIDERATION OF COMMENTS.—The head of the department or agency shall consider any comments filed under paragraph (2) in determining whether or not to consent to the proposed settlement and may withdraw or withhold consent to the proposed settlement if such comments disclose facts or considerations which indicate the proposed settlement is inappropriate, improper, or inadequate.

"(j) NATURAL RESOURCES.—

"(1) NOTIFICATION OF TRUSTEE.—Where a release or threatened release of any hazardous substance that is the subject of negotiations under this section may have resulted in damages to natural resources under the trusteeship of the United States, the President shall notify the Federal natural resource trustee of the negotiations and shall encourage the participation of such trustee in the negotiations.

"(2) COVENANT NOT TO SUE.—An agreement under this section may contain a covenant not to sue under section 107(a)(4)(C) for damages to natural resources under the trusteeship of the United States resulting from the release or threatened release of hazardous substances that is the subject of the agreement, but only if the Federal natural resource trustee has agreed in writing to such covenant. The Federal natural resource trustee may agree to such covenant if the potentially responsible party agrees to undertake appropriate actions necessary to protect and restore the natural resources damaged by such release or threatened release of hazardous substances.

"(k) SECTION NOT APPLICABLE TO VESSELS.—The provisions of this section shall not apply to a release from a vessel.

"(l) CIVIL PENALTIES.—A potentially responsible party which is a party to an administrative order or consent decree entered pursuant to an agreement under this section or section 120 (relating to Federal facilities) or which is a party to an agreement under section 120 and which fails or refuses to comply with any term or condition of the order, decree or agreement shall be subject to a civil penalty in accordance with section 109.

"(m) APPLICABILITY OF GENERAL PRINCIPLES OF LAW.—In the case of consent decrees and other settlements under this section (including covenants not to sue), no provision of this Act shall be construed to preclude or otherwise affect the applicability of general principles of law regarding the setting aside or modification of consent decrees or other settlements.".

(b) CONTRIBUTION.—Section 308 of CERCLA is amended by adding the following at the end thereof: "If an administrative settlement under section 122 has the effect of limiting any person's right to obtain contribution from any party to such settlement, and if the effect of such limitation would constitute a taking without just compensation in violation of the fifth amendment of the Constitution of the United States, such person shall not be entitled, under other laws of the United States, to recover compensation from the United States for such taking, but in any such case, such limitation on the right to obtain contribution shall be treated as having no force and effect.".

SEC. 123. REIMBURSEMENT TO LOCAL GOVERNMENTS.

(a) Title I of CERCLA is amended by adding the following after section 122:

"SEC. 123. REIMBURSEMENT TO LOCAL GOVERNMENTS.

"(a) APPLICATION.—Any general purpose unit of local government for a political subdivision which is affected by a release or threatened release at any facility may apply to the President for reimbursement under this section.

"(b) REIMBURSEMENT.—

"(1) TEMPORARY EMERGENCY MEASURES.—The President is authorized to reimburse local community authorities for expenses incurred (before or after the enactment of the Superfund Amendments and Reauthorization Act of 1986) in carrying out temporary emergency measures necessary to prevent or mitigate injury to human health or the environment associated with the release or threatened release of any hazardous substance or pollutant or contaminant. Such measures may include, where appropriate, security fencing to limit access, response to fires and explosions, and other measures which require immediate response at the local level.

"(2) LOCAL FUNDS NOT SUPPLANTED.—Reimbursement under this section shall not supplant local funds normally provided for response.

"(c) AMOUNT.—The amount of any reimbursement to any local authority under subsection (b)(1) may not exceed $25,000 for a single response. The reimbursement under this section with respect to a single facility shall be limited to the units of local government having jurisdiction over the political subdivision in which the facility is located.

"(d) PROCEDURE.—Reimbursements authorized pursuant to this section shall be in accordance with rules promulgated by the Administrator within one year after the enactment of the Superfund Amendments and Reauthorization Act of 1986.".

SEC. 124. METHANE RECOVERY.

(a) IN GENERAL.—Title I of CERCLA is amended by adding the following new section after section 123:

"SEC. 124. METHANE RECOVERY.

"(a) IN GENERAL.—In the case of a facility at which equipment for the recovery or processing (including recirculation of condensate) of methane has been installed, for purposes of this Act:

"(1) The owner or operator of such equipment shall not be considered an 'owner or operator', as defined in section 101(20), with respect to such facility.

"(2) The owner or operator of such equipment shall not be considered to have arranged for disposal or treatment of any hazardous substance at such facility pursuant to section 107 of this Act.

"(3) The owner or operator of such equipment shall not be subject to any action under section 106 with respect to such facility.

"(b) EXCEPTIONS.—Subsection (a) does not apply with respect to a release or threatened release of a hazardous substance from a facility described in subsection (a) if either of the following circumstances exist:

"(1) The release or threatened release was primarily caused by activities of the owner or operator of the equipment described in subsection (a).

"(2) The owner or operator of such equipment would be covered by paragraph (1), (2), (3), or (4) of subsection (a) of section 107 with respect to such release or threatened re-

lease if he were not the owner or operator of such equipment.

In the case of any release or threatened release referred to in paragraph (1), the owner or operator of the equipment described in subsection (a) shall be liable under this Act only for costs or damages primarily caused by the activities of such owner or operator.".

(b) REGULATION UNDER THE SOLID WASTE DISPOSAL ACT.—Unless the Administrator of the Environmental Protection Agency promulgates regulations under subtitle C of the Solid Waste Disposal Act addressing the extraction of wastes from landfills as part of the process of recovering methane from such landfills, the owner and operator of equipment used to recover methane from a landfill shall not be deemed to be managing, generating, transporting, treating, storing, or disposing of hazardous or liquid wastes within the meaning of that subtitle. If the aqueous or hydrocarbon phase of the condensate or any other waste material removed from the gas recovered from the landfill meets any of the characteristics identified under section 3001 of subtitle C of the Solid Waste Disposal Act, the preceding sentence shall not apply and such condensate phase or other waste material shall be deemed a hazardous waste under that subtitle, and shall be regulated accordingly.

SEC. 125. CERTAIN SPECIAL STUDY WASTES.

Title I of CERCLA is amended by adding the following new section after section 124:

"SEC. 125. SECTION 3001(b)(3)(A)(i) WASTE.

"(a) REVISION OF HAZARD RANKING SYSTEM.—This section shall apply only to facilities which are not included or proposed for inclusion on the National Priorities List and which contain substantial volumes of waste described in section 3001(b)(3)(A)(i) of the Solid Waste Disposal Act. As expeditiously as practicable, the President shall revise the hazard ranking system in effect under the National Contingency Plan with respect to such facilities in a manner which assures appropriate consideration of each of the following site-specific characteristics of such facilities:

"(1) The quantity, toxicity, and concentrations of hazardous constituents which are present in such waste and a comparison thereof with other wastes.

"(2) The extent of, and potential for, release of such hazardous constituents into the environment.

"(3) The degree of risk to human health and the environment posed by such constituents.

"(b) INCLUSION PROHIBITED.—Until the hazard ranking system is revised as required by this section, the President may not include on the National Priorities List any facility which contains substantial volumes of waste described in section 3001(b)(3)(A)(i) of the Solid Waste Disposal Act on the basis of an evaluation made principally on the volume of such waste and not on the concentrations of the hazardous constituents of such waste. Nothing in this section shall be construed to affect the President's authority to include any such facility on the National Priorities List based on the presence of other substances at such facility or to exercise any other authority of this Act with respect to such other substances.".

SEC. 126. WORKER PROTECTION STANDARDS.

(a) PROMULGATION.—Within one year after the date of the enactment of this section, the Secretary of Labor shall, pursuant to section 6 of the Occupational Safety and Health Act of 1970, promulgate standards for the health and safety protection of employees engaged in hazardous waste operations.

(b) PROPOSED STANDARDS.—The Secretary of Labor shall issue proposed regulations on such standards which shall include, but need not be limited to, the following worker protection provisions:

(1) SITE ANALYSIS.—Requirements for a formal hazard analysis of the site and development of a site specific plan for worker protection.

(2) TRAINING.—Requirements for contractors to provide initial and routine training of workers before such workers are permitted to engage in hazardous waste operations which would expose them to toxic substances.

(3) MEDICAL SURVEILLANCE.—A program of regular medical examination, monitoring, and surveillance of workers engaged in hazardous waste operations which would expose them to toxic substances.

(4) PROTECTIVE EQUIPMENT.—Requirements for appropriate personal protective equipment, clothing, and respirators for work in hazardous waste operations.

(5) ENGINEERING CONTROLS.—Requirements for engineering controls concerning the use of equipment and exposure of workers engaged in hazardous waste operations.

(6) MAXIMUM EXPOSURE LIMITS.—Requirements for maximum exposure limitations for workers engaged in hazardous waste operations, including necessary monitoring and assessment procedures.

(7) INFORMATIONAL PROGRAM.—A program to inform workers engaged in hazardous waste operations of the nature and degree of toxic exposure likely as a result of such hazardous waste operations.

(8) HANDLING.—Requirements for the handling, transporting, labeling, and disposing of hazardous wastes.

(9) NEW TECHNOLOGY PROGRAM.—A program for the introduction of new equipment or technologies that will maintain worker protections.

(10) DECONTAMINATION PROCEDURES.—Procedures for decontamination.

(11) EMERGENCY RESPONSE.—Requirements for emergency response and protection of workers engaged in hazardous waste operations.

(c) FINAL REGULATIONS.—Final regulations under subsection (a) shall take effect one year after the date they are promulgated. In promulgating final regulations on standards under subsection (a), the Secretary of Labor shall include each of the provisions listed in paragraphs (1) through (11) of subsection (b) unless the Secretary determines that the evidence in the public record considered as a whole does not support inclusion of any such provision.

(d) SPECIFIC TRAINING STANDARDS.—

(1) OFFSITE INSTRUCTION; FIELD EXPERIENCE.—Standards promulgated under subsection (a) shall include training standards requiring that general site workers (such as equipment operators, general laborers, and other supervised personnel) engaged in hazardous substance removal or other activities which expose or potentially expose such workers to hazardous substances receive a minimum of 40 hours of initial instruction off the site, and a minimum of three days of actual field experience under the direct supervision of a trained, experienced supervisor, at the time of assignment. The requirements of the preceding sentence shall not apply to any general site worker who has received the equivalent of such training. Workers who may be exposed to unique or special hazards shall be provided additional training.

(2) TRAINING OF SUPERVISORS.—Standards promulgated under subsection (a) shall include training standards requiring that onsite managers and supervisors directly responsible for the hazardous waste operations (such as foremen) receive the same training as general site workers set forth in paragraph (1) of this subsection and at least eight additional hours of specialized training on managing hazardous waste operations. The requirements of the preceding sentence shall not apply to any person who has received the equivalent of such training.

(3) CERTIFICATION; ENFORCEMENT.—Such training standards shall contain provisions for certifying that general site workers, onsite managers, and supervisors have received the specified training and shall prohibit any individual who has not received the specified training from engaging in hazardous waste operations covered by the standard.

(4) TRAINING OF EMERGENCY RESPONSE PERSONNEL.—Such training standards shall set forth requirements for the training of workers who are responsible for responding to hazardous emergency situations who may be exposed to toxic substances in carrying out their responsibilities.

(e) INTERIM REGULATIONS.—The Secretary of Labor shall issue interim final regulations under this section within 60 days after the enactment of this section which shall provide no less protection under this section for workers employed by contractors and emergency response workers than the protections contained in the Environmental Protection Agency Manual (1981) "Health and Safety Requirements for Employees Engaged in Field Activities" and existing standards under the Occupational Safety and Health Act of 1970 found in subpart C of part 1926 of title 29 of the Code of Federal Regulations. Such interim final regulations shall take effect upon issuance and shall apply until final regulations become effective under subsection (c).

(f) COVERAGE OF CERTAIN STATE AND LOCAL EMPLOYEES.—Not later than 90 days after the promulgation of final regulations under subsection (a), the Administrator shall promulgate standards identical to those promulgated by the Secretary of Labor under subsection (a). Standards promulgated under this subsection shall apply to employees of State and local governments in each State which does not have in effect an approved State plan under section 18 of the Occupational Safety and Health Act of 1970 providing for standards for the health and safety protection of employees engaged in hazardous waste operations.

(g) GRANT PROGRAM.—

(1) GRANT PURPOSES.—Grants for the training and education of workers who are or may be engaged in activities related to hazardous waste removal or containment or emergency response may be made under this subsection.

(2) ADMINISTRATION.—Grants under this subsection shall be administered by the National Institute of Environmental Health Sciences.

(3) GRANT RECIPIENTS.—Grants shall be awarded to nonprofit organizations which demonstrate experience in implementing and operating worker health and safety training and education programs and demonstrate the ability to reach and involve in training programs target populations of workers who are or will be engaged in hazardous waste removal or containment or emergency response operations.

SEC. 127. LIABILITY LIMITS FOR OCEAN INCINERATION VESSELS.

(a) DEFINITION OF INCINERATION VESSEL.—Section 101 of CERCLA is amended by adding the following after paragraph (37):

"(38) The term 'incineration vessel' means any vessel which carries hazardous substances for the purpose of incineration of such substances, so long as such substances or residues of such substances are on board.".

(b) LIABILITY.—Section 107 of CERCLA is amended as follows:

(1) Subsection (a)(3) is amended by inserting "or incineration vessel" after "facility".

(2) Subsection (a)(4) is amended by inserting ", incineration vessels" after "facilities".

(3) Subparagraph (A) of subsection (c)(1) is amended by inserting ", other than an incineration vessel," after "vessel".

(4) Subparagraph (B) of subsection (c)(1) is amended by inserting "other than an incineration vessel," after "other vessel,".

(5) Subparagraph (D) of subsection (c)(1) is amended by inserting "any incineration vessel or" before "any facility".

(c) FINANCIAL RESPONSIBILITY.—Section 108(a) of CERCLA is amended as follows:

(1) Paragraph (1) is amended by inserting "to cover the liability prescribed under paragraph (1) of section 107(a) of this Act" after "whichever is greater)";

(2) Add a new paragraph to read as follows:

"(4) In addition to the financial responsibility provisions of paragraph (1) of this subsection, the President shall require additional evidence of financial responsibility for incineration vessels in such amounts, and to cover such liabilities recognized by law, as the President deems appropriate, taking into account the potential risks posed by incineration and transport for incineration, and any other factors deemed relevant.".

(d) SAVINGS CLAUSE.—Section 106 of the Marine Protection, Research, and Sanctuaries Act of 1972 is amended by adding the following new subsection at the end thereof:

"(g) SAVINGS CLAUSE.—Nothing in this Act shall restrict, affect or modify the rights of any person (1) to seek damages or enforcement of any standard or limitation under State law, including State common law, or (2) to seek damages under other Federal law, including maritime tort law, resulting from noncompliance with any requirement of this Act or any permit under this Act.".

(e) MARITIME TORT.—Section 107(h) of CERCLA is amended by inserting ", under maritime tort law," after "with this section" and by inserting before the period "or the absence of any physical damage to the proprietary interest of the claimant".

TITLE II—MISCELLANEOUS PROVISIONS

SEC. 201. POST-CLOSURE LIABILITY PROGRAM STUDY, REPORT TO CONGRESS, AND SUSPENSION OF LIABILITY TRANSFERS.

Subsection (k) of section 107 of CERCLA is amended by adding at the end the following new paragraphs:

"(5) SUSPENSION OF LIABILITY TRANSFER.—Notwithstanding paragraphs (1), (2), (3), and (4) of this subsection and subsection (j) of section 111 of this Act, no liability shall be transferred to or assumed by the Post-Closure Liability Trust Fund established by section 232 of this Act prior to completion of the study required under paragraph (6) of this subsection, transmission of a report of such study to both Houses of Congress, and authorization of such a transfer or assumption by Act of Congress following receipt of such study and report.

"(6) STUDY OF OPTIONS FOR POST-CLOSURE PROGRAM.—

"(A) STUDY.—The Comptroller General shall conduct a study of options for a program for the management of the liabilities associated with hazardous waste treatment, storage, and disposal sites after their closure which complements the policies set forth in the Hazardous and Solid Waste Amendments of 1984 and assures the protection of human health and the environment.

"(B) PROGRAM ELEMENTS.—The program referred to in subparagraph (A) shall be designed to assure each of the following:

"(i) Incentives are created and maintained for the safe management and disposal of hazardous wastes so as to assure protection of human health and the environment.

"(ii) Members of the public will have reasonable confidence that hazardous wastes will be managed and disposed of safely and that resources will be available to address any problems that may arise and to cover costs of long-term monitoring, care, and maintenance of such sites.

"(iii) Persons who are or seek to become owners and operators of hazardous waste disposal facilities will be able to manage their potential future liabilities and to attract the investment capital necessary to build, operate, and close such facilities in a manner which assures protection of human health and the environment.

"(C) ASSESSMENTS.—The study under this paragraph shall include assessments of treatment, storage, and disposal facilities which have been or are likely to be issued a permit under section 3005 of the Solid Waste Disposal Act and the likelihood of future insolvency on the part of owners and operators of such facilities. Separate assessments shall be made for different classes of facilities and for different classes of land disposal facilities and shall include but not be limited to—

"(i) the current and future financial capabilities of facility owners and operators;

"(ii) the current and future costs associated with facilities, including the costs of routine monitoring and maintenance, compliance monitoring, corrective action, natural resource damages, and liability for damages to third parties; and

"(iii) the availability of mechanisms by which owners and operators of such facilities can assure that current and future costs, including post-closure costs, will be financed.

"(D) PROCEDURES.—In carrying out the responsibilities of this paragraph, the Comptroller General shall consult with the Administrator, the Secretary of Commerce, the Secretary of the Treasury, and the heads of other appropriate Federal agencies.

"(E) CONSIDERATION OF OPTIONS.—In conducting the study under this paragraph, the Comptroller General shall consider various mechanisms and combinations of mechanisms to complement the policies set forth in the Hazardous and Solid Waste Amendments of 1984 to serve the purposes set forth in subparagraph (B) and to assure that the current and future costs associated with hazardous waste facilities, including post-closure costs, will be adequately financed and, to the greatest extent possible, borne by the owners and operators of such facilities. Mechanisms to be considered include, but are not limited to—

"(i) revisions to closure, post-closure, and financial responsibility requirements under subtitles C and I of the Solid Waste Disposal Act;

"(ii) voluntary risk pooling by owners and operators;

"(iii) legislation to require risk pooling by owners and operators;

"(iv) modification of the Post-Closure Liability Trust Fund previously established by section 232 of this Act, and the conditions for transfer of liability under this subsection, including limiting the transfer of some or all liability under this subsection only in the case of insolvency of owners and operators;

"(v) private insurance;

"(vi) insurance provided by the Federal Government;

"(vii) coinsurance, reinsurance, or pooled-risk insurance, whether provided by the private sector or provided or assisted by the Federal Government; and

"(viii) creation of a new program to be administered by a new or existing Federal agency or by a federally chartered corporation.

"(F) RECOMMENDATIONS.—The Comptroller General shall consider options for funding any program under this section and shall, to the extent necessary, make recommendations to the appropriate committees of Congress for additional authority to implement such program.".

SEC. 202. HAZARDOUS MATERIALS TRANSPORTATION.

(a) REGULATION REQUIREMENT.—Section 306(a) of CERCLA is amended (1) by striking out "within ninety days after the date of enactment of this Act" and inserting in lieu thereof "within 30 days after the enactment of the Superfund Amendments and Reauthorization Act of 1986" and (2) by inserting "and regulated" before "as a hazardous material".

(b) CONFORMING AMENDMENT.—Section 306(b) of CERCLA is amended by inserting "and regulation" after "prior to the effective date of the listing".

SEC. 203. STATE PROCEDURAL REFORM.

(a) IN GENERAL.—Title III of CERCLA is amended by adding the following new section at the end thereof:

"SEC. 309. ACTIONS UNDER STATE LAW FOR DAMAGES FROM EXPOSURE TO HAZARDOUS SUBSTANCES.

"(a) STATE STATUTES OF LIMITATIONS FOR HAZARDOUS SUBSTANCE CASES.—

"(1) EXCEPTION TO STATE STATUTES.—In the case of any action brought under State law for personal injury, or property damages, which are caused or contributed to by exposure to any hazardous substance, or pollutant or contaminant, released into the environment from a facility, if the applicable limitations period for such action (as specified in the State statute of limitations or under common law) provides a commencement date which is earlier than the federally required commencement date, such period shall commence at the federally required commencement date in lieu of the date specified in such State statute.

"(2) STATE LAW GENERALLY APPLICABLE.—Except as provided in paragraph (1), the statute of limitations established under State law shall apply in all actions brought under State law for personal injury, or property damages, which are caused or contributed to by exposure to any hazardous substance, or pollutant or contaminant, released into the environment from a facility.

"(3) ACTIONS UNDER SECTION 107.—Nothing in this section shall apply with respect to

any cause of action brought under section 107 of this Act.

"(b) DEFINITIONS.—As used in this section—

"(1) TITLE I TERMS.—The terms used in this section shall have the same meaning as when used in title I of this Act.

"(2) APPLICABLE LIMITATIONS PERIOD.—The term 'applicable limitations period' means the period specified in a statute of limitations during which a civil action referred to in subsection (a)(1) may be brought.

"(3) COMMENCEMENT DATE.—The term 'commencement date' means the date specified in a statute of limitations as the beginning of the applicable limitations period.

"(4) FEDERALLY REQUIRED COMMENCEMENT DATE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the term 'federally required commencement date' means the date the plaintiff knew (or reasonably should have known) that the personal injury or property damages referred to in subsection (a)(1) were caused or contributed to by the hazardous substance or pollutant or contaminant concerned.

"(B) SPECIAL RULES.—In the case of a minor or incompetent plaintiff, the term 'federally required commencement date' means the later of the date referred to in subparagraph (A) or the following:

"(i) In the case of a minor, the date on which the minor reaches the age of majority, as determined by State law, or has a legal representative appointed.

"(ii) In the case of an incompetent individual, the date on which such individual becomes competent or has had a legal representative appointed.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) of this section shall take effect with respect to actions brought after December 11, 1980.

SEC. 204. CONFORMING AMENDMENT TO FUNDING PROVISIONS.

(a) HAZARDOUS SUBSTANCES SUPERFUND.—Section 221(a) of CERCLA is amended by striking out "Hazardous Substance Response Trust Fund" and inserting in lieu thereof "Hazardous Substances Superfund".

(b) CROSS REFERENCE TO FUNDING PROVISIONS.—Section 221(c) of CERCLA is amended to read as follows:

"(c) EXPENDITURES FROM TRUST FUND.—Amounts in the Hazardous Substances Superfund established under subchapter A of chapter 98 of the Internal Revenue Code of 1954 shall be available for expenditure only as provided in section 111 of this Act.".

SEC. 205. CLEANUP OF PETROLEUM FROM LEAKING UNDERGROUND STORAGE TANKS.

(a) DEFINITION OF PETROLEUM.—Section 9001(2)(B) of the Solid Waste Disposal Act is amended by striking out all that follows "petroleum" and inserting in lieu thereof a period. Section 9001 of such Act is amended by adding at the end thereof the following:

"(8) The term 'petroleum' means petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).".

(b) STATE INVENTORIES.—Section 9002 of the Solid Waste Disposal Act is amended by adding the following new subsection at the end thereof:

"(c) STATE INVENTORIES.—Each State shall make 2 separate inventories of all underground storage tanks in such State containing regulated substances. One inventory shall be made with respect to petroleum and one with respect to other regulated substances. In making such inventories, the State shall utilize and aggregate the data in the notification forms submitted pursuant to subsections (a) and (b) of this section. Each State shall submit such aggregated data to the Administrator not later than 270 days after the enactment of the Superfund Amendments and Reauthorization Act of 1986.".

(c) FINANCIAL RESPONSIBILITY.—

(1) REQUIREMENTS.—Section 9003(c) of the Solid Waste Disposal Act is amended by striking "and" at the end of paragraph (4), striking the period at the end of paragraph (5) and substituting "; and" and by adding the following new paragraph at the end thereof:

"(6) requirements for maintaining evidence of financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank.".

(2) CONFORMING AMENDMENT.—Section 9003(d) of such Act is amended by striking out paragraph (1) and renumbering paragraphs (2) through (5) as paragraphs (1) through (4), respectively.

(3) OTHER METHODS.—Section 9003(d)(1) of such Act (as redesignated by paragraph (2) of this subsection) is amended by striking out "or" after "credit," and by striking out the period at the end thereof and inserting in lieu thereof the following: "or any other method satisfactory to the Administrator.".

(4) Section 9003(d) of such Act is further amended by adding at the end thereof the following new paragraph:

"(5)(A) The Administrator, in promulgating financial responsibility regulations under this section, may establish an amount of coverage for particular classes or categories of underground storage tanks containing petroleum which shall satisfy such regulations and which shall not be less than $1,000,000 for each occurrence with an appropriate aggregate requirement.

"(B) The Administrator may set amounts lower than the amounts required by subparagraph (A) of this paragraph for underground storage tanks containing petroleum which are at facilities not engaged in petroleum production, refining, or marketing and which are not used to handle substantial quantities of petroleum.

"(C) In establishing classes and categories for purposes of this paragraph, the Administrator may consider the following factors:

"(i) The size, type, location, storage, and handling capacity of underground storage tanks in the class or category and the volume of petroleum handled by such tanks.

"(ii) The likelihood of release and the potential extent of damage from any release from underground storage tanks in the class or category.

"(iii) The economic impact of the limits on the owners and operators of each such class or category, particularly relating to the small business segment of the petroleum marketing industry.

"(iv) The availability of methods of financial responsibility in amounts greater than the amount established by this paragraph.

"(v) Such other factors as the Administrator deems pertinent.

"(D) The Administrator may suspend enforcement of the financial responsibility requirements for a particular class or category of underground storage tanks or in a particular State, if the Administrator makes a determination that methods of financial responsibility satisfying the requirements of this subsection are not generally available for underground storage tanks in that class or category, and—

"(i) steps are being taken to form a risk retention group for such class of tanks; or

"(ii) such State is taking steps to establish a fund pursuant to section 9004(c)(1) of this Act to be submitted as evidence of financial responsibility.

A suspension by the Administrator pursuant to this paragraph shall extend for a period not to exceed 180 days. A determination to suspend may be made with respect to the same class or category or for the same State at the end of such period, but only if substantial progress has been made in establishing a risk retention group, or the owners or operators in the class or category demonstrate, and the Administrator finds, that the formation of such a group is not possible and that the State is unable or unwilling to establish such a fund pursuant to clause (ii).".

(d) EPA RESPONSE PROGRAM.—Section 9003 of the Solid Waste Disposal Act is amended by adding after subsection (g) the following new subsection:

"(h) EPA RESPONSE PROGRAM FOR PETROLEUM.—

"(1) BEFORE REGULATIONS.—Before the effective date of regulations under subsection (c), the Administrator (or a State pursuant to paragraph (7)) is authorized to—

"(A) require the owner or operator of an underground storage tank to undertake corrective action with respect to any release of petroleum when the Administrator (or the State) determines that such corrective action will be done properly and promptly by the owner or operator of the underground storage tank from which the release occurs; or

"(B) undertake corrective action with respect to any release of petroleum into the environment from an underground storage tank if such action is necessary, in the judgment of the Administrator (or the State), to protect human health and the environment.

The corrective action undertaken or required under this paragraph shall be such as may be necessary to protect human health and the environment. The Administrator shall use funds in the Leaking Underground Storage Tank Trust Fund for payment of costs incurred for corrective action under subparagraph (B), enforcement action under subparagraph (A), and cost recovery under paragraph (6) of this subsection. Subject to the priority requirements of paragraph (3), the Administrator (or the State) shall give priority in undertaking such actions under subparagraph (B) to cases where the Administrator (or the State) cannot identify a solvent owner or operator of the tank who will undertake action properly.

"(2) AFTER REGULATIONS.—Following the effective date of regulations under subsection (c), all actions or orders of the Administrator (or a State pursuant to paragraph (7)) described in paragraph (1) of this subsection shall be in conformity with such regulations. Following such effective date, the Administrator (or the State) may undertake corrective action with respect to any release of petroleum into the environment from an underground storage tank only if such action is necessary, in the judgment of the Administrator (or the State), to protect human health and the environment and one or more of the following situations exists:

"(A) No person can be found, within 90 days or such shorter period as may be necessary to protect human health and the environment, who is—

"(i) an owner or operator of the tank concerned,

"(ii) subject to such corrective action regulations, and

"(iii) capable of carrying out such corrective action properly.

"(B) A situation exists which requires prompt action by the Administrator (or the State) under this paragraph to protect human health and the environment.

"(C) Corrective action costs at a facility exceed the amount of coverage required by the Administrator pursuant to the provisions of subsections (c) and (d)(5) of this section and, considering the class or category of underground storage tank from which the release occurred, expenditures from the Leaking Underground Storage Tank Trust Fund are necessary to assure an effective corrective action.

"(D) The owner or operator of the tank has failed or refused to comply with an order of the Administrator under this subsection or section 9006 or with the order of a State under this subsection to comply with the corrective action regulations.

"(3) PRIORITY OF CORRECTIVE ACTIONS.—The Administrator (or a State pursuant to paragraph (7)) shall give priority in undertaking corrective actions under this subsection, and in issuing orders requiring owners or operators to undertake such actions, to releases of petroleum from underground storage tanks which pose the greatest threat to human health and the environment.

"(4) CORRECTIVE ACTION ORDERS.—The Administrator is authorized to issue orders to the owner or operator of an underground storage tank to carry out subparagraph (A) of paragraph (1) or to carry out regulations issued under subsection (c)(4). A State acting pursuant to paragraph (7) of this subsection is authorized to carry out subparagraph (A) of paragraph (1) only until the State's program is approved by the Administrator under section 9004 of this subtitle. Such orders shall be issued and enforced in the same manner and subject to the same requirements as orders under section 9006.

"(5) ALLOWABLE CORRECTIVE ACTIONS.—The corrective actions undertaken by the Administrator (or a State pursuant to paragraph (7)) under paragraph (1) or (2) may include temporary or permanent relocation of residents and alternative household water supplies. In connection with the performance of any corrective action under paragraph (1) or (2), the Administrator may undertake an exposure assessment as defined in paragraph (10) of this subsection or provide for such an assessment in a cooperative agreement with a State pursuant to paragraph (7) of this subsection. The costs of any such assessment may be treated as corrective action for purposes of paragraph (6), relating to cost recovery.

"(6) RECOVERY OF COSTS.—

"(A) IN GENERAL.—Whenever costs have been incurred by the Administrator, or by a State pursuant to paragraph (7), for undertaking corrective action or enforcement action with respect to the release of petroleum from an underground storage tank, the owner or operator of such tank shall be liable to the Administrator or the State for such costs. The liability under this paragraph shall be construed to be the standard of liability which obtains under section 311 of the Federal Water Pollution Control Act.

"(B) RECOVERY.—In determining the equities for seeking the recovery of costs under subparagraph (A), the Administrator (or a State pursuant to paragraph (7) of this subsection) may consider the amount of financial responsibility required to be maintained under subsections (c) and (d)(5) of this section and the factors considered in establishing such amount under subsection (d)(5).

"(C) EFFECT ON LIABILITY.—

"(i) NO TRANSFERS OF LIABILITY.—No indemnification, hold harmless, or similar agreement or conveyance shall be effective to transfer from the owner or operator of any underground storage tank or from any person who may be liable for a release or threat of release under this subsection, to any other person the liability imposed under this subsection. Nothing in this subsection shall bar any agreement to insure, hold harmless, or indemnify a party to such agreement for any liability under this section.

"(ii) NO BAR TO CAUSE OF ACTION.—Nothing in this subsection, including the provisions of clause (i) of this subparagraph, shall bar a cause of action that an owner or operator or any other person subject to liability under this section, or a guarantor, has or would have, by reason of subrogation or otherwise against any person.

"(D) FACILITY.—For purposes of this paragraph, the term 'facility' means, with respect to any owner or operator, all underground storage tanks used for the storage of petroleum which are owned or operated by such owner or operator and located on a single parcel of property (or on any contiguous or adjacent property).

"(7) STATE AUTHORITIES.—

"(A) GENERAL.—A State may exercise the authorities in paragraphs (1) and (2) of this subsection, subject to the terms and conditions of paragraphs (3), (5), (9), (10), and (11), and including the authorities of paragraphs (4), (6), and (8) of this subsection if—

"(i) the Administrator determines that the State has the capabilities to carry out effective corrective actions and enforcement activities; and

"(ii) the Administrator enters into a cooperative agreement with the State setting out the actions to be undertaken by the State.

The Administrator may provide funds from the Leaking Underground Storage Tank Trust Fund for the reasonable costs of the State's actions under the cooperative agreement.

"(B) COST SHARE.—Following the effective date of the regulations under subsection (c) of this section, the State shall pay 10 per centum of the cost of corrective actions undertaken either by the Administrator or by the State under a cooperative agreement, except that the Administrator may take corrective action at a facility where immediate action is necessary to respond to an imminent and substantial endangerment to human health or the environment if the State fails to pay the cost share.

"(8) EMERGENCY PROCUREMENT POWERS.—Notwithstanding any other provision of law, the Administrator may authorize the use of such emergency procurement powers as he deems necessary.

"(9) DEFINITION OF OWNER.—As used in this subsection, the term 'owner' does not include any person who, without participating in the management of an underground storage tank and otherwise not engaged in petroleum production, refining, and marketing, holds indicia of ownership primarily to protect the owner's security interest in the tank.

"(10) DEFINITION OF EXPOSURE ASSESSMENT.—As used in this subsection, the term 'exposure assessment' means an assessment to determine the extent of exposure of, or potential for exposure of, individuals to petroleum from a release from an underground storage tank based on such factors as the nature and extent of contamination and the existence of or potential for pathways of human exposure (including ground or surface water contamination, air emissions, and food chain contamination), the size of the community within the likely pathways of exposure, and the comparison of expected human exposure levels to the short-term and long-term health effects associated with identified contaminants and any available recommended exposure or tolerance limits for such contaminants. Such assessment shall not delay corrective action to abate immediate hazards or reduce exposure.

"(11) FACILITIES WITHOUT FINANCIAL RESPONSIBILITY.—At any facility where the owner or operator has failed to maintain evidence of financial responsibility in amounts at least equal to the amounts established by subsection (d)(5)(A) of this section (or a lesser amount if such amount is applicable to such facility as a result of subsection (d)(5)(B) of this section) for whatever reason the Administrator shall expend no monies from the Leaking Underground Storage Tank Trust Fund to clean up releases at such facility pursuant to the provisions of paragraph (1) or (2) of this subsection. At such facilities the Administrator shall use the authorities provided in subparagraph (A) of paragraph (1) and paragraph (4) of this subsection and section 9006 of this subtitle to order corrective action to clean up such releases. States acting pursuant to paragraph (7) of this subsection shall use the authorities provided in subparagraph (A) of paragraph (1) and paragraph (4) of this subsection to order corrective action to clean up such releases. Notwithstanding the provisions of this paragraph, the Administrator may use monies from the fund to take the corrective actions authorized by paragraph (5) of this subsection to protect human health at such facilities and shall seek full recovery of the costs of all such actions pursuant to the provisions of paragraph (6)(A) of this subsection and without consideration of the factors in paragraph (6)(B) of this subsection. Nothing in this paragraph shall prevent the Administrator (or a State pursuant to paragraph (7) of this subsection) from taking corrective action at a facility where there is no solvent owner or operator or where immediate action is necessary to respond to an imminent and substantial endangerment of human health or the environment.".

(e) FINANCIAL RESPONSIBILITY IN STATE PROGRAMS.—

(1) Section 9004(c)(1) of the Solid Waste Disposal Act is amended by striking out "financed by fees on tank owners and operators and".

(2) Section 9004(c)(2) of the Solid Waste Disposal Act is amended by striking out "or" after "credit" in the first sentence and by striking out the period at the end thereof and inserting in lieu thereof the following: "or any other method satisfactory to the Administrator.". Such section is further amended by adding after the word "terms" in the second sentence the following: "including the amount of coverage required for various classes and categories of underground storage tanks pursuant to section 9003(d)(5)".

(f) AUTHORITY TO ENTER FOR CORRECTIVE ACTIONS.—

(1) Section 9005(a) of the Solid Waste Disposal Act is amended by inserting the words "taking any corrective action" after the

word "study", inserting the words "acting pursuant to subsection (h)(7) of section 9003 or" after the words "or representative of a State", striking the word "and" before the words "permit such officer", and inserting the words "and permit such officer to have access for corrective action" after the words "relating to such tanks" in the first sentence thereof. Such section is further amended by inserting the words "taking corrective action," after the word "study," in the second sentence thereof.

(2) Section 9005(a) of the Solid Waste Disposal Act is amended by striking the word "and" at the end of paragraph (2), striking out the period at the end of paragraph (3) and inserting "; and", and adding the following new paragraph at the end thereof—

"(4) to take corrective action.".

(3) Section 9005 of the Solid Waste Disposal Act is amended by changing the heading thereof to read as follows—

"INSPECTIONS, MONITORING, TESTING AND CORRECTIVE ACTION".

(g) COORDINATION WITH OTHER LAWS.—Section 9008 of the Solid Waste Disposal Act is amended to read as follows:

"STATE AUTHORITY

"SEC. 9008. Nothing in this subtitle shall preclude or deny any right of any State or political subdivision thereof to adopt or enforce any regulation, requirement, or standard of performance respecting underground storage tanks that is more stringent than a regulation, requirement, or standard of performance in effect under this subtitle or to impose any additional liability with respect to the release of regulated substances within such State or political subdivision.".

(h) POLLUTION LIABILITY INSURANCE.—

(1) STUDY.—The Comptroller General shall conduct a study of the availability of pollution liability insurance, leak insurance, and contamination insurance for owners and operators of petroleum storage and distribution facilities. The study shall assess the current and projected extent to which private insurance can contribute to the financial responsibility of owners and operators of underground storage tanks and the ability of owners and operators of underground storage tanks to maintain financial responsibility through other methods. The study shall consider the experience of owners and operators of marine vessels in getting insurance for their liabilities under the Federal Water Pollution Control Act and the operation of the Water Quality Insurance Syndicate.

(2) REPORT.—The Comptroller General shall report the findings under this subsection to the Congress within 15 months after the enactment of this subsection. Such report shall include recommendations for legislative or administrative changes that will enable owners and operators of underground storage tanks to maintain financial responsibility sufficient to provide all cleanup costs and damages that may result from reasonably foreseeable releases and events.

(i) CRIMINAL PENALTIES RELATING TO USED OIL.—Subtitle C of the Solid Waste Disposal Act is amended as follows:

(1) In paragraphs (4) and (5) of section 3008(d) after "hazardous waste" insert "or any used oil not identified or listed as a hazardous waste under this subtitle".

(2) Delete "accompanied by a manifest; or" in paragraph (5) and insert "accompanied by a manifest;".

(3) Insert "; or" after paragraph (6).

(4) Add the following new paragraph after paragraph (6):

"(7) knowingly stores, treats, transports, or causes to be transported, disposes of, or otherwise handles any used oil not identified or listed as a hazardous waste under subtitle C of the Solid Waste Disposal Act—

"(A) in knowing violation of any material condition or requirement of a permit under this subtitle C; or

"(B) in knowing violation of any material condition or requirement of any applicable regulations or standards under this Act;".

(5) In section 3008(e):

(A) Insert "or used oil not identified or listed as a hazardous waste under this subtitle" immediately after "this subtitle".

(B) Strike "or" immediately before "(6)".

(C) Insert ", or (7)" immediately after "(6)".

(j) STATE PROGRAMS FOR USED OIL.—Section 3006 of the Solid Waste Disposal Act is amended by adding the following new subsection at the end thereof:

"(h) STATE PROGRAMS FOR USED OIL.—In the case of used oil which is not listed or identified under this subtitle as a hazardous waste but which is regulated under section 3014, the provisions of this section regarding State programs shall apply in the same manner and to the same extent as such provisions apply to hazardous waste identified or listed under this subtitle.".

SEC. 206. CITIZENS SUITS.

Title III of CERCLA is amended by adding the following new section after section 309:

"SEC. 310. CITIZENS SUITS.

"(a) AUTHORITY TO BRING CIVIL ACTIONS.—Except as provided in subsections (d) and (e) of this section and in section 113(h) (relating to timing of judicial review), any person may commence a civil action on his own behalf—

"(1) against any person (including the United States and any other governmental instrumentality or agency, to the extent permitted by the eleventh amendment to the Constitution) who is alleged to be in violation of any standard, regulation, condition, requirement, or order which has become effective pursuant to this Act (including any provision of an agreement under section 120, relating to Federal facilities); or

"(2) against the President or any other officer of the United States (including the Administrator of the Environmental Protection Agency and the Administrator of the ATSDR) where there is alleged a failure of the President or of such other officer to perform any act or duty under this Act, including an act or duty under section 120 (relating to Federal facilities), which is not discretionary with the President or such other officer.

Paragraph (2) shall not apply to any act or duty under the provisions of section 311 (relating to research, development, and demonstration).

"(b) VENUE.—

"(1) ACTIONS UNDER SUBSECTION (a)(1).—Any action under subsection (a)(1) shall be brought in the district court for the district in which the alleged violation occurred.

"(2) ACTIONS UNDER SUBSECTION (a)(2).—Any action brought under subsection (a)(2) may be brought in the United States District Court for the District of Columbia.

"(c) RELIEF.—The district court shall have jurisdiction in actions brought under subsection (a)(1) to enforce the standard, regulation, condition, requirement, or order concerned (including any provision of an agreement under section 120), to order such action as may be necessary to correct the violation, and to impose any civil penalty provided for the violation. The district court shall have jurisdiction in actions brought under subsection (a)(2) to order the President or other officer to perform the act or duty concerned.

"(d) RULES APPLICABLE TO SUBSECTION (a)(1) ACTIONS.—

"(1) NOTICE.—No action may be commenced under subsection (a)(1) of this section before 60 days after the plaintiff has given notice of the violation to each of the following:

"(A) The President.

"(B) The State in which the alleged violation occurs.

"(C) Any alleged violator of the standard, regulation, condition, requirement, or order concerned (including any provision of an agreement under section 120).

Notice under this paragraph shall be given in such manner as the President shall prescribe by regulation.

"(2) DILIGENT PROSECUTION.—No action may be commenced under paragraph (1) of subsection (a) if the President has commenced and is diligently prosecuting an action under this Act, or under the Solid Waste Disposal Act to require compliance with the standard, regulation, condition, requirement, or order concerned (including any provision of an agreement under section 120).

"(e) RULES APPLICABLE TO SUBSECTION (a)(2) ACTIONS.—No action may be commenced under paragraph (2) of subsection (a) before the 60th day following the date on which the plaintiff gives notice to the Administrator or other department, agency, or instrumentality that the plaintiff will commence such action. Notice under this subsection shall be given in such manner as the President shall prescribe by regulation.

"(f) COSTS.—The court, in issuing any final order in any action brought pursuant to this section, may award costs of litigation (including reasonable attorney and expert witness fees) to the prevailing or the substantially prevailing party whenever the court determines such an award is appropriate. The court may, if a temporary restraining order or preliminary injunction is sought, require the filing of a bond or equivalent security in accordance with the Federal Rules of Civil Procedure.

"(g) INTERVENTION.—In any action under this section, the United States or the State, or both, if not a party may intervene as a matter of right. For other provisions regarding intervention, see section 113.

"(h) OTHER RIGHTS.—This Act does not affect or otherwise impair the rights of any person under Federal, State, or common law, except with respect to the timing of review as provided in section 113(h) or as otherwise provided in section 309 (relating to actions under State law).

"(i) DEFINITIONS.—The terms used in this section shall have the same meanings as when used in title I.".

SEC. 207. INDIAN TRIBES.

(a) DEFINITION.—For definition of Indian tribe, see the amendments made by section 101 of this Act.

(b) FUTURE MAINTENANCE AND COST SHARING.—Section 104(c)(3) of CERCLA is amended by adding at the end thereof the following: "In the case of remedial action to be taken on land or water held by an Indian tribe, held by the United States in trust for Indians, held by a member of an Indian tribe (if such land or water is subject to a trust restriction on alienation), or otherwise within the borders of an Indian reservation, the requirements of this paragraph for assurances regarding future maintenance and cost-sharing shall not apply, and the Presi-

dent shall provide the assurance required by this paragraph regarding the availability of a hazardous waste disposal facility.".

(c) LIABILITY.—Section 107 of CERCLA is amended as follows:

(1) In subsection (a) by inserting "or an Indian tribe" after "State";

(2) In subsection (f):

(A) Insert after "State" the third time that word appears the following: "and to any Indian tribe for natural resources belonging to, managed by, controlled by, or appertaining to such tribe, or held in trust for the benefit of such tribe, or belonging to a member of such tribe if such resources are subject to a trust restriction on alienation".

(B) Insert "or Indian tribe" after "State" the fourth time that word appears.

(C) Add before the period at the end of the first sentence the following: ", so long as, in the case of damages to an Indian tribe occurring pursuant to a Federal permit or license, the issuance of that permit or license was not inconsistent with the fiduciary duty of the United States with respect to such Indian tribe".

(D) Insert "or the Indian tribe" after "State government".

(3) In subsection (i) insert "or Indian tribe" after "State" the first time it appears.

(4) In subsection (j) insert "or Indian tribe" after "State" the first time it appears.

(d) NATURAL RESOURCES CLAIMS, DELEGATION, ETC.—Section 111 of CERCLA is amended as follows:

(1) In subsection (b), insert before the period at the end thereof the following: ", or by any Indian tribe or by the United States acting on behalf of any Indian tribe for natural resources belonging to, managed by, controlled by, or appertaining to such tribe, or held in trust for the benefit of such tribe, or belonging to a member of such tribe if such resources are subject to a trust restriction on alienation";

(2) In subsection (c)(2) insert "or Indian tribe" after "State".

(3) In subsection (f) insert "or Indian tribe" after "State"; and

(4) In subsection (i) insert after "State," the following: "and by the governing body of any Indian tribe having sustained damage to natural resources belonging to, managed by, controlled by, or appertaining to such tribe, or held in trust for the benefit of such tribe, or belonging to a member of such tribe if such resources are subject to a trust restriction on alienation,".

(e) TREATMENT OF TRIBES GENERALLY.—Title I of CERCLA is amended by adding the following new section after section 125:

"SEC. 126. INDIAN TRIBES.

"(a) TREATMENT GENERALLY.—The governing body of an Indian tribe shall be afforded substantially the same treatment as a State with respect to the provisions of section 103(a) (regarding notification of releases), section 104(c)(2) (regarding consultation on remedial actions), section 104(e) (regarding access to information), section 104(i) (regarding health authorities) and section 105 (regarding roles and responsibilities under the national contingency plan and submittal of priorities for remedial action, but not including the provision regarding the inclusion of at least one facility per State on the National Priorities List).

"(b) COMMUNITY RELOCATION.—Should the President determine that proper remedial action is the permanent relocation of tribal members away from a contaminated site because it is cost effective and necessary to protect their health and welfare, such finding must be concurred in by the affected tribal government before relocation shall occur. The President, in cooperation with the Secretary of the Interior, shall also assure that all benefits of the relocation program are provided to the affected tribe and that alternative land of equivalent value is available and satisfactory to the tribe. Any lands acquired for relocation of tribal members shall be held in trust by the United States for the benefit of the tribe.

"(c) STUDY.—The President shall conduct a survey, in consultation with the Indian tribes, to determine the extent of hazardous waste sites on Indian lands. Such survey shall be included within a report which shall make recommendations on the program needs of tribes under this Act, with particular emphasis on how tribal participation in the administration of such programs can be maximized. Such report shall be submitted to Congress along with the President's budget request for fiscal year 1988.

"(d) LIMITATION.—Notwithstanding any other provision of this Act, no action under this Act by an Indian tribe shall be barred until the later of the following:

"(1) The applicable period of limitations has expired.

"(2) 2 years after the United States, in its capacity as trustee for the tribe, gives written notice to the governing body of the tribe that it will not present a claim or commence an action on behalf of the tribe or fails to present a claim or commence an action within the time limitations specified in this Act.".

SEC. 208. INSURABILITY STUDY.

Section 301 of CERCLA is amended by adding the following new subsection at the end thereof:

"(g) INSURABILITY STUDY.—

"(1) STUDY BY COMPTROLLER GENERAL.—The Comptroller General of the United States, in consultation with the persons described in paragraph (2), shall undertake a study to determine the insurability, and effects on the standard of care, of the liability of each of the following:

"(A) Persons who generate hazardous substances: liability for costs and damages under this Act.

"(B) Persons who own or operate facilities: liability for costs and damages under this Act.

"(C) Persons liable for injury to persons or property caused by the release of hazardous substances into the environment.

"(2) CONSULTATION.—In conducting the study under this subsection, the Comptroller General shall consult with the following:

"(A) Representatives of the Administrator.

"(B) Representatives of persons described in subparagraphs (A) through (C) of the preceding paragraph.

"(C) Representatives (i) of groups or organizations comprised generally of persons adversely affected by releases or threatened releases of hazardous substances and (ii) of groups organized for protecting the interests of consumers.

"(D) Representatives of property and casualty insurers.

"(E) Representatives of reinsurers.

"(F) Persons responsible for the regulation of insurance at the State level.

"(3) ITEMS EVALUATED.—The study under this section shall include, among other matters, an evaluation of the following:

"(A) Current economic conditions in, and the future outlook for, the commercial market for insurance and reinsurance.

"(B) Current trends in statutory and common law remedies.

"(C) The impact of possible changes in traditional standards of liability, proof, evidence, and damages on existing statutory and common law remedies.

"(D) The effect of the standard of liability and extent of the persons upon whom it is imposed under this Act on the protection of human health and the environment and on the availability, underwriting, and pricing of insurance coverage.

"(E) Current trends, if any, in the judicial interpretation and construction of applicable insurance contracts, together with the degree to which amendments in the language of such contracts and the description of the risks assumed, could affect such trends.

"(F) The frequency and severity of a representative sample of claims closed during the calendar year immediately preceding the enactment of this subsection.

"(G) Impediments to the acquisition of insurance or other means of obtaining liability coverage other than those referred to in the preceding subparagraphs.

"(H) The effects of the standards of liability and financial responsibility requirements imposed pursuant to this Act on the cost of, and incentives for, developing and demonstrating alternative and innovative treatment technologies, as well as waste generation minimization.

"(4) SUBMISSION.—The Comptroller General shall submit a report on the results of the study to Congress with appropriate recommendations within 12 months after the enactment of this subsection.".

SEC. 209. RESEARCH, DEVELOPMENT, AND DEMONSTRATION.

(a) PURPOSE.—The purposes of this section are as follows:

(1) To establish a comprehensive and coordinated Federal program of research, development, demonstration, and training for the purpose of promoting the development of alternative and innovative treatment technologies that can be used in response actions under the CERCLA program, to provide incentives for the development and use of such technologies, and to improve the scientific capability to assess, detect and evaluate the effects on and risks to human health from hazardous substances.

(2) To establish a basic university research and education program within the Department of Health and Human Services and a research, demonstration, and training program within the Environmental Protection Agency.

(3) To reserve certain funds from the Hazardous Substance Trust Fund to support a basic research program within the Department of Health and Human Services, and an applied and developmental research program within the Environmental Protection Agency.

(4) To enhance the Environmental Protection Agency's internal research capabilities related to CERCLA activities, including site assessment and technology evaluation.

(5) To provide incentives for the development of alternative and innovative treatment technologies in a manner that supplements or coordinates with, but does not compete with or duplicate, private sector development of such technologies.

(b) AMENDMENT OF CERCLA.—Title III of CERCLA is amended by adding the following new section at the end thereof:

"SEC. 311. RESEARCH, DEVELOPMENT, AND DEMONSTRATION.

"(a) HAZARDOUS SUBSTANCE RESEARCH AND TRAINING.—

"(1) AUTHORITIES OF SECRETARY.—The Secretary of Health and Human Services (herein-

after in this subsection referred to as the Secretary), in consultation with the Administrator, shall establish and support a basic research and training program (through grants, cooperative agreements, and contracts) consisting of the following:

"(A) Basic research (including epidemiologic and ecologic studies) which may include each of the following:

"(i) Advanced techniques for the detection, assessment, and evaluation of the effects on human health of hazardous substances.

"(ii) Methods to assess the risks to human health presented by hazardous substances.

"(iii) Methods and technologies to detect hazardous substances in the environment and basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances.

"(B) Training, which may include each of the following:

"(i) Short courses and continuing education for State and local health and environment agency personnel and other personnel engaged in the handling of hazardous substances, in the management of facilities at which hazardous substances are located, and in the evaluation of the hazards to human health presented by such facilities.

"(ii) Graduate or advanced training in environmental and occupational health and safety and in the public health and engineering aspects of hazardous waste control.

"(iii) Graduate training in the geosciences, including hydrogeology, geological engineering, geophysics, geochemistry, and related fields necessary to meet professional personnel needs in the public and private sectors and to effectuate the purposes of this Act.

"(2) DIRECTOR OF NIEHS.—The Director of the National Institute for Environmental Health Sciences shall cooperate fully with the relevant Federal agencies referred to in subparagraph (A) of paragraph (5) in carrying out the purposes of this section.

"(3) RECIPIENTS OF GRANTS, ETC.—A grant, cooperative agreement, or contract may be made or entered into under paragraph (1) with an accredited institution of higher education. The institution may carry out the research or training under the grant, cooperative agreement, or contract through contracts, including contracts with any of the following:

"(A) Generators of hazardous wastes.

"(B) Persons involved in the detection, assessment, evaluation, and treatment of hazardous substances.

"(C) Owners and operators of facilities at which hazardous substances are located.

"(D) State and local governments.

"(4) PROCEDURES.—In making grants and entering into cooperative agreements and contracts under this subsection, the Secretary shall act through the Director of the National Institute for Environmental Health Sciences. In considering the allocation of funds for training purposes, the Director shall ensure that at least one grant, cooperative agreement, or contract shall be awarded for training described in each of clauses (i), (ii), and (iii) of paragraph (1)(B). Where applicable, the Director may choose to operate training activities in cooperation with the Director of the National Institute for Occupational Safety and Health. The procedures applicable to grants and contracts under title IV of the Public Health Service Act shall be followed under this subsection.

"(5) ADVISORY COUNCIL.—To assist in the implementation of this subsection and to aid in the coordination of research and demonstration and training activities funded from the Fund under this section, the Secretary shall appoint an advisory council (hereinafter in this subsection referred to as the 'Advisory Council') which shall consist of representatives of the following:

"(A) The relevant Federal agencies.

"(B) The chemical industry.

"(C) The toxic waste management industry.

"(D) Institutions of higher education.

"(E) State and local health and environmental agencies.

"(F) The general public.

"(6) PLANNING.—Within nine months after the date of the enactment of this subsection, the Secretary, acting through the Director of the National Institute for Environmental Health Sciences, shall issue a plan for the implementation of paragraph (1). The plan shall include priorities for actions under paragraph (1) and include research and training relevant to scientific and technological issues resulting from site specific hazardous substance response experience. The Secretary shall, to the maximum extent practicable, take appropriate steps to coordinate program activities under this plan with the activities of other Federal agencies in order to avoid duplication of effort. The plan shall be consistent with the need for the development of new technologies for meeting the goals of response actions in accordance with the provisions of this Act. The Advisory Council shall be provided an opportunity to review and comment on the plan and priorities and assist appropriate coordination among the relevant Federal agencies referred to in subparagraph (A) of paragraph (5).

"(b) ALTERNATIVE OR INNOVATIVE TREATMENT TECHNOLOGY RESEARCH AND DEMONSTRATION PROGRAM.—

"(1) ESTABLISHMENT.—The Administrator is authorized and directed to carry out a program of research, evaluation, testing, development, and demonstration of alternative or innovative treatment technologies (hereinafter in this subsection referred to as the 'program') which may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment.

"(2) ADMINISTRATION.—The program shall be administered by the Administrator, acting through an office of technology demonstration and shall be coordinated with programs carried out by the Office of Solid Waste and Emergency Response and the Office of Research and Development.

"(3) CONTRACTS AND GRANTS.—In carrying out the program, the Administrator is authorized to enter into contracts and cooperative agreements with, and make grants to, persons, public entities, and nonprofit private entities which are exempt from tax under section 501(c)(3) of the Internal Revenue Code of 1954. The Administrator shall, to the maximum extent possible, enter into appropriate cost sharing arrangements under this subsection.

"(4) USE OF SITES.—In carrying out the program, the Administrator may arrange for the use of sites at which a response may be undertaken under section 104 for the purposes of carrying out research, testing, evaluation, development, and demonstration projects. Each such project shall be carried out under such terms and conditions as the Administrator shall require to assure the protection of human health and the environment and to assure adequate control by the Administrator of the research, testing, evaluation, development, and demonstration activities at the site.

"(5) DEMONSTRATION ASSISTANCE.—

"(A) PROGRAM COMPONENTS.—The demonstration assistance program shall include the following:

"(i) The publication of a solicitation and the evaluation of applications for demonstration projects utilizing alternative or innovative technologies.

"(ii) The selection of sites which are suitable for the testing and evaluation of innovative technologies.

"(iii) The development of detailed plans for innovative technology demonstration projects.

"(iv) The supervision of such demonstration projects and the providing of quality assurance for data obtained.

"(v) The evaluation of the results of alternative innovative technology demonstration projects and the determination of whether or not the technologies used are effective and feasible.

"(B) SOLICITATION.—Within 90 days after the date of the enactment of this section, and no less often than once every 12 months thereafter, the Administrator shall publish a solicitation for innovative or alternative technologies at a stage of development suitable for full-scale demonstrations at sites at which a response action may be undertaken under section 104. The purpose of any such project shall be to demonstrate the use of an alternative or innovative treatment technology with respect to hazardous substances or pollutants or contaminants which are located at the site or which are to be removed from the site. The solicitation notice shall prescribe information to be included in the application, including technical and economic data derived from the applicant's own research and development efforts, and other information sufficient to permit the Administrator to assess the technology's potential and the types of remedial action to which it may be applicable.

"(C) APPLICATIONS.—Any person and any public or private nonprofit entity may submit an application to the Administrator in response to the solicitation. The application shall contain a proposed demonstration plan setting forth how and when the project is to be carried out and such other information as the Administrator may require.

"(D) PROJECT SELECTION.—In selecting technologies to be demonstrated, the Administrator shall fully review the applications submitted and shall consider at least the criteria specified in paragraph (7). The Administrator shall select or refuse to select a project for demonstration under this subsection within 90 days of receiving the completed application for such project. In the case of a refusal to select the project, the Administrator shall notify the applicant within such 90-day period of the reasons for his refusal.

"(E) SITE SELECTION.—The Administrator shall propose 10 sites at which a response may be undertaken under section 104 to be the location of any demonstration project under this subsection within 60 days after the close of the public comment period. After an opportunity for notice and public comment, the Administrator shall select such sites and projects. In selecting any such site, the Administrator shall take into account the applicant's technical data and preferences either for onsite operation or for utilizing the site as a source of hazardous substances or pollutants or contaminants to be treated offsite.

"(F) DEMONSTRATION PLAN.—Within 60 days after the selection of the site under this paragraph to be the location of a demonstra-

tion project, the Administrator shall establish a final demonstration plan for the project, based upon the demonstration plan contained in the application for the project. Such plan shall clearly set forth how and when the demonstration project will be carried out.

"(G) SUPERVISION AND TESTING.—Each demonstration project under this subsection shall be performed by the applicant, or by a person satisfactory to the applicant, under the supervision of the Administrator. The Administrator shall enter into a written agreement with each applicant granting the Administrator the responsibility and authority for testing procedures, quality control, monitoring, and other measurements necessary to determine and evaluate the results of the demonstration project. The Administrator may pay the costs of testing, monitoring, quality control, and other measurements required by the Administrator to determine and evaluate the results of the demonstration project, and the limitations established by subparagraph (J) shall not apply to such costs.

"(H) PROJECT COMPLETION.—Each demonstration project under this subsection shall be completed within such time as is established in the demonstration plan.

"(I) EXTENSIONS.—The Administrator may extend any deadline established under this paragraph by mutual agreement with the applicant concerned.

"(J) FUNDING RESTRICTIONS.—The Administrator shall not provide any Federal assistance for any part of a full-scale field demonstration project under this subsection to any applicant unless such applicant can demonstrate that it cannot obtain appropriate private financing on reasonable terms and conditions sufficient to carry out such demonstration project without such Federal assistance. The total Federal funds for any full-scale field demonstration project under this subsection shall not exceed 50 percent of the total cost of such project estimated at the time of the award of such assistance. The Administrator shall not expend more than $10,000,000 for assistance under the program in any fiscal year and shall not expend more than $3,000,000 for any single project.

"(6) FIELD DEMONSTRATIONS.—In carrying out the program, the Administrator shall initiate or cause to be initiated at least 10 field demonstration projects of alternative or innovative treatment technologies at sites at which a response may be undertaken under section 104, in fiscal year 1987 and each of the succeeding three fiscal years. If the Administrator determines that 10 field demonstration projects under this subsection cannot be initiated consistent with the criteria set forth in paragraph (7) in any of such fiscal years, the Administrator shall transmit to the appropriate committees of Congress a report explaining the reasons for his inability to conduct such demonstration projects.

"(7) CRITERIA.—In selecting technologies to be demonstrated under this subsection, the Administrator shall, consistent with the protection of human health and the environment, consider each of the following criteria:

"(A) The potential for contributing to solutions to those waste problems which pose the greatest threat to human health, which cannot be adequately controlled under present technologies, or which otherwise pose significant management difficulties.

"(B) The availability of technologies which have been sufficiently developed for field demonstration and which are likely to be cost-effective and reliable.

"(C) The availability and suitability of sites for demonstrating such technologies, taking into account the physical, biological, chemical, and geological characteristics of the sites, the extent and type of contamination found at the site, and the capability to conduct demonstration projects in such a manner as to assure the protection of human health and the environment.

"(D) The likelihood that the data to be generated from the demonstration project at the site will be applicable to other sites.

"(8) TECHNOLOGY TRANSFER.—In carrying out the program, the Administrator shall conduct a technology transfer program including the development, collection, evaluation, coordination, and dissemination of information relating to the utilization of alternative or innovative treatment technologies for response actions. The Administrator shall establish and maintain a central reference library for such information. The information maintained by the Administrator shall be made available to the public, subject to the provisions of section 552 of title 5 of the United States Code and section 1905 of title 18 of the United States Code, and to other Government agencies in a manner that will facilitate its dissemination; except, that upon a showing satisfactory to the Administrator by any person that any information or portion thereof obtained under this subsection by the Administrator directly or indirectly from such person, would, if made public, divulge—

"(A) trade secrets; or

"(B) other proprietary information of such person,

the Administrator shall not disclose such information and disclosure thereof shall be punishable under section 1905 of title 18 of the United States Code. This subsection is not authority to withhold information from Congress or any committee of Congress upon the request of the chairman of such committee.

"(9) TRAINING.—The Administrator is authorized and directed to carry out, through the office of technology demonstration, a program of training and an evaluation of training needs for each of the following:

"(A) Training in the procedures for the handling and removal of hazardous substances for employees who handle hazardous substances.

"(B) Training in the management of facilities at which hazardous substances are located and in the evaluation of the hazards to human health presented by such facilities for State and local health and environment agency personnel.

"(10) DEFINITION.—For purposes of this subsection, the term 'alternative or innovative treatment technologies' means those technologies, including proprietary or patented methods, which permanently alter the composition of hazardous waste through chemical, biological, or physical means so as to significantly reduce the toxicity, mobility, or volume (or any combination thereof) of the hazardous waste or contaminated materials being treated. The term also includes technologies that characterize or assess the extent of contamination, the chemical and physical character of the contaminants, and the stresses imposed by the contaminants on complex ecosystems at sites.

"(c) HAZARDOUS SUBSTANCE RESEARCH.—The Administrator may conduct and support, through grants, cooperative agreements, and contracts, research with respect to the detection, assessment, and evaluation of the effects on and risks to human health of hazardous substances and detection of hazardous substances in the environment. The Administrator shall coordinate such research with the Secretary of Health and Human Services, acting through the advisory council established under this section, in order to avoid duplication of effort.

"(d) UNIVERSITY HAZARDOUS SUBSTANCE RESEARCH CENTERS.—

"(1) GRANT PROGRAM.—The Administrator shall make grants to institutions of higher learning to establish and operate not fewer than 5 hazardous substance research centers in the United States. In carrying out the program under this subsection, the Administrator should seek to have established and operated 10 hazardous substance research centers in the United States.

"(2) RESPONSIBILITIES OF CENTERS.—The responsibilities of each hazardous substance research center established under this subsection shall include, but not be limited to, the conduct of research and training relating to the manufacture, use, transportation, disposal, and management of hazardous substances and publication and dissemination of the results of such research.

"(3) APPLICATIONS.—Any institution of higher learning interested in receiving a grant under this subsection shall submit to the Administrator an application in such form and containing such information as the Administrator may require by regulation.

"(4) SELECTION CRITERIA.—The Administrator shall select recipients of grants under this subsection on the basis of the following criteria:

"(A) The hazardous substance research center shall be located in a State which is representative of the needs of the region in which such State is located for improved hazardous waste management.

"(B) The grant recipient shall be located in an area which has experienced problems with hazardous substance management.

"(C) There is available to the grant recipient for carrying out this subsection demonstrated research resources.

"(D) The capability of the grant recipient to provide leadership in making national and regional contributions to the solution of both long-range and immediate hazardous substance management problems.

"(E) The grant recipient shall make a commitment to support ongoing hazardous substance research programs with budgeted institutional funds of at least $100,000 per year.

"(F) The grant recipient shall have an interdisciplinary staff with demonstrated expertise in hazardous substance management and research.

"(G) The grant recipient shall have a demonstrated ability to disseminate results of hazardous substance research and educational programs through an interdisciplinary continuing education program.

"(H) The projects which the grant recipient proposes to carry out under the grant are necessary and appropriate.

"(5) MAINTENANCE OF EFFORT.—No grant may be made under this subsection in any fiscal year unless the recipient of such grant enters into such agreements with the Administrator as the Administrator may require to ensure that such recipient will maintain its aggregate expenditures from all other sources for establishing and operating a regional hazardous substance research center and related research activities at or above the average level of such expenditures in its 2 fiscal years preceding the date of the enactment of this subsection.

"(6) FEDERAL SHARE.—The Federal share of a grant under this subsection shall not exceed 80 percent of the costs of establishing and operating the regional hazardous substance research center and related research activities carried out by the grant recipient.

"(7) LIMITATION ON USE OF FUNDS.—No funds made available to carry out this subsection shall be used for acquisition of real property (including buildings) or construction of any building.

"(8) ADMINISTRATION THROUGH THE OFFICE OF THE ADMINISTRATOR.—Administrative responsibility for carrying out this subsection shall be in the Office of the Administrator.

"(9) EQUITABLE DISTRIBUTION OF FUNDS.—The Administrator shall allocate funds made available to carry out this subsection equitably among the regions of the United States.

"(10) TECHNOLOGY TRANSFER ACTIVITIES.—Not less than five percent of the funds made available to carry out this subsection for any fiscal year shall be available to carry out technology transfer activities.

"(e) REPORT TO CONGRESS.—At the time of the submission of the annual budget request to Congress, the Administrator shall submit to the appropriate committees of the House of Representatives and the Senate and to the advisory council established under subsection (a), a report on the progress of the research, development, and demonstration program authorized by subsection (b), including an evaluation of each demonstration project completed in the preceding fiscal year, findings with respect to the efficacy of such demonstrated technologies in achieving permanent and significant reductions in risk from hazardous wastes, the costs of such demonstration projects, and the potential applicability of, and projected costs for, such technologies at other hazardous substance sites.

"(f) SAVING PROVISION.—Nothing in this section shall be construed to affect the provisions of the Solid Waste Disposal Act.

"(g) SMALL BUSINESS PARTICIPATION.—The Administrator shall ensure, to the maximum extent practicable, an adequate opportunity for small business participation in the program established by subsection (b).".

SEC. 210. POLLUTION LIABILITY INSURANCE.

CERCLA is amended by adding the following new title at the end thereof:

"TITLE IV—POLLUTION INSURANCE

"SEC. 401. DEFINITIONS.

"As used in this title—

"(1) INSURANCE.—The term 'insurance' means primary insurance, excess insurance, reinsurance, surplus lines insurance, and any other arrangement for shifting and distributing risk which is determined to be insurance under applicable State or Federal law.

"(2) POLLUTION LIABILITY.—The term 'pollution liability' means liability for injuries arising from the release of hazardous substances or pollutants or contaminants.

"(3) RISK RETENTION GROUP.—The term 'risk retention group' means any corporation or other limited liability association taxable as a corporation, or as an insurance company, formed under the laws of any State—

"(A) whose primary activity consists of assuming and spreading all, or any portion, of the pollution liability of its group members;

"(B) which is organized for the primary purpose of conducting the activity described under subparagraph (A);

"(C) which is chartered or licensed as an insurance company and authorized to engage in the business of insurance under the laws of any State; and

"(D) which does not exclude any person from membership in the group solely to provide for members of such a group a competitive advantage over such a person.

"(4) PURCHASING GROUP.—The term 'purchasing group' means any group of persons which has as one of its purposes the purchase of pollution liability insurance on a group basis.

"(5) STATE.—The term 'State' means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Marianas, and any other territory or possession over which the United States has jurisdiction.

"SEC. 402. STATE LAWS; SCOPE OF TITLE.

"(a) STATE LAWS.—Nothing in this title shall be construed to affect either the tort law or the law governing the interpretation of insurance contracts of any State. The definitions of pollution liability and pollution liability insurance under any State law shall not be applied for the purposes of this title, including recognition or qualification of risk retention groups or purchasing groups.

"(b) SCOPE OF TITLE.—The authority to offer or to provide insurance under this title shall be limited to coverage of pollution liability risks and this title does not authorize a risk retention group or purchasing group to provide coverage of any other line of insurance.

"SEC. 403. RISK RETENTION GROUPS.

"(a) EXEMPTION.—Except as provided in this section, a risk retention group shall be exempt from the following:

"(1) A State law, rule, or order which makes unlawful, or regulates, directly or indirectly, the operation of a risk retention group.

"(2) A State law, rule, or order which requires or permits a risk retention group to participate in any insurance insolvency guaranty association to which an insurer licensed in the State is required to belong.

"(3) A State law, rule, or order which requires any insurance policy issued to a risk retention group or any member of the group to be countersigned by an insurance agent or broker residing in the State.

"(4) A State law, rule, or order which otherwise discriminates against a risk retention group or any of its members.

"(b) EXCEPTIONS.—

"(1) STATE LAWS GENERALLY APPLICABLE.—Nothing in subsection (a) shall be construed to affect the applicability of State laws generally applicable to persons or corporations. The State in which a risk retention group is chartered may regulate the formation and operation of the group.

"(2) STATE REGULATIONS NOT SUBJECT TO EXEMPTION.—Subsection (a) shall not apply to any State law which requires a risk retention group to do any of the following:

"(A) Comply with the unfair claim settlement practices law of the State.

"(B) Pay, on a nondiscriminatory basis, applicable premium and other taxes which are levied on admitted insurers and surplus line insurers, brokers, or policyholders under the laws of the State.

"(C) Participate, on a nondiscriminatory basis, in any mechanism established or authorized under the law of the State for the equitable apportionment among insurers of pollution liability insurance losses and expenses incurred on policies written through such mechanism.

"(D) Submit to the appropriate authority reports and other information required of licensed insurers under the laws of a State relating solely to pollution liability insurance losses and expenses.

"(E) Register with and designate the State insurance commissioner as its agent solely for the purpose of receiving service of legal documents or process.

"(F) Furnish, upon request, such commissioner a copy of any financial report submitted by the risk retention group to the commissioner of the chartering or licensing jurisdiction.

"(G) Submit to an examination by the State insurance commissioner in any State in which the group is doing business to determine the group's financial condition, if—

"(i) the commissioner has reason to believe the risk retention group is in a financially impaired condition; and

"(ii) the commissioner of the jurisdiction in which the group is chartered has not begun or has refused to initiate an examination of the group.

"(H) Comply with a lawful order issued in a delinquency proceeding commenced by the State insurance commissioner if the commissioner of the jurisdiction in which the group is chartered has failed to initiate such a proceeding after notice of a finding of financial impairment under subparagraph (G).

"(c) APPLICATION OF EXEMPTIONS.—The exemptions specified in subsection (a) apply to—

"(1) pollution liability insurance coverage provided by a risk retention group for—

"(A) such group; or

"(B) any person who is a member of such group;

"(2) the sale of pollution liability insurance coverage for a risk retention group; and

"(3) the provision of insurance related services or management services for a risk retention group or any member of such a group.

"(d) AGENTS OR BROKERS.—A State may require that a person acting, or offering to act, as an agent or broker for a risk retention group obtain a license from that State, except that a State may not impose any qualification or requirement which discriminates against a nonresident agent or broker.

"SEC. 404. PURCHASING GROUPS.

"(a) EXEMPTION.—Except as provided in this section, a purchasing group is exempt from the following:

"(1) A State law, rule, or order which prohibits the establishment of a purchasing group.

"(2) A State law, rule, or order which makes it unlawful for an insurer to provide or offer to provide insurance on a basis providing, to a purchasing group or its member, advantages, based on their loss and expense experience, not afforded to other persons with respect to rates, policy forms, coverages, or other matters.

"(3) A State law, rule, or order which prohibits a purchasing group or its members from purchasing insurance on the group basis described in paragraph (2) of this subsection.

"(4) A State law, rule, or order which prohibits a purchasing group from obtaining insurance on a group basis because the group has not been in existence for a minimum period of time or because any member has not belonged to the group for a minimum period of time.

"(5) A State law, rule, or order which requires that a purchasing group must have a

minimum number of members, common ownership or affiliation, or a certain legal form.

"(6) A State law, rule, or order which requires that a certain percentage of a purchasing group must obtain insurance on a group basis.

"(7) A State law, rule, or order which requires that any insurance policy issued to a purchasing group or any members of the group be countersigned by an insurance agent or broker residing in that State.

"(8) A State law, rule, or order which otherwise discriminate against a purchasing group or any of its members.

"(b) APPLICATION OF EXEMPTIONS.—The exemptions specified in subsection (a) apply to the following:

"(1) Pollution liability insurance, and comprehensive general liability insurance which includes this coverage, provided to—

"(A) a purchasing group; or

"(B) any person who is a member of a purchasing group.

"(2) The sale of any one of the following to a purchasing group or a member of the group:

"(A) Pollution liability insurance and comprehensive general liability coverage.

"(B) Insurance related services.

"(C) Management services.

"(c) AGENTS OR BROKERS.—A State may require that a person acting, or offering to act, as an agent or broker for a purchasing group obtain a license from that State, except that a State may not impose any qualification or requirement which discriminates against a nonresident agent or broker.

"SEC. 405. APPLICABILITY OF SECURITIES LAWS.

"(a) OWNERSHIP INTERESTS.—The ownership interests of members of a risk retention group shall be considered to be—

"(1) exempted securities for purposes of section 5 of the Securities Act of 1933 and for purposes of section 12 of the Securities Exchange Act of 1934; and

"(2) securities for purposes of the provisions of section 17 of the Securities Act of 1933 and the provisions of section 10 of the Securities Exchange Act of 1934.

"(b) INVESTMENT COMPANY ACT.—A risk retention group shall not be considered to be an investment company for purposes of the Investment Company Act of 1940 (15 U.S.C. 80a-1 et seq.).

"(c) BLUE SKY LAW.—The ownership interests of members in a risk retention group shall not be considered securities for purposes of any State blue sky law.".

SEC. 211. DEPARTMENT OF DEFENSE ENVIRONMENTAL RESTORATION PROGRAM.

(a) IN GENERAL.—(1) Title 10, United States Code, is amended—

(A) by redesignating section 2701 as section 2721; and

(B) by inserting after chapter 159 the following new chapter:

"CHAPTER 160—ENVIRONMENTAL RESTORATION

"Sec.
"2701. Environmental restoration program.
"2702. Research, development, and demonstration program.
"2703. Environmental restoration transfer account.
"2704. Commonly found unregulated hazardous substances.
"2705. Notice of environmental restoration activities.
"2706. Annual report to Congress.
"2707. Definitions.

"§ 2701. Environmental restoration program

"(a) ENVIRONMENTAL RESTORATION PROGRAM.—

"(1) IN GENERAL.—The Secretary of Defense shall carry out a program of environmental restoration at facilities under the jurisdiction of the Secretary. The program shall be known as the 'Defense Environmental Restoration Program'.

"(2) APPLICATION OF SECTION 120 OF CERCLA.—Activities of the program described in subsection (b)(1) shall be carried out subject to, and in a manner consistent with, section 120 (relating to Federal facilities) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (hereinafter in this chapter referred to as 'CERCLA') (42 U.S.C. 9601 et seq.).

"(3) CONSULTATION WITH EPA.—The program shall be carried out in consultation with the Administrator of the Environmental Protection Agency.

"(4) ADMINISTRATIVE OFFICE WITHIN OSD.—The Secretary shall identify an office within the Office of the Secretary which shall have responsibility for carrying out the program.

"(b) PROGRAM GOALS.—Goals of the program shall include the following:

"(1) The identification, investigation, research and development, and cleanup of contamination from hazardous substances, pollutants, and contaminants.

"(2) Correction of other environmental damage (such as detection and disposal of unexploded ordnance) which creates an imminent and substantial endangerment to the public health or welfare or to the environment.

"(3) Demolition and removal of unsafe buildings and structures, including buildings and structures of the Department of Defense at sites formerly used by or under the jurisdiction of the Secretary.

"(c) RESPONSIBILITY FOR RESPONSE ACTIONS.—

"(1) BASIC RESPONSIBILITY.—The Secretary shall carry out (in accordance with the provisions of this chapter and CERCLA) all response actions with respect to releases of hazardous substances from each of the following:

"(A) Each facility or site owned by, leased to, or otherwise possessed by the United States and under the jurisdiction of the Secretary.

"(B) Each facility or site which was under the jurisdiction of the Secretary and owned by, leased to, or otherwise possessed by the United States at the time of actions leading to contamination by hazardous substances.

"(C) Each vessel owned or operated by the Department of Defense.

"(2) OTHER RESPONSIBLE PARTIES.—Paragraph (1) shall not apply to a removal or remedial action if the Administrator has provided for response action by a potentially responsible person in accordance with section 122 of CERCLA (relating to settlements).

"(3) STATE FEES AND CHARGES.—The Secretary shall pay fees and charges imposed by State authorities for permit services for the disposal of hazardous substances on lands which are under the jurisdiction of the Secretary to the same extent that nongovernmental entities are required to pay fees and charges imposed by State authorities for permit services. The preceding sentence shall not apply with respect to a payment that is the responsibility of a lessee, contractor, or other private person.

"(d) SERVICES OF OTHER AGENCIES.—The Secretary may enter into agreements on a reimbursable basis with any other Federal agency, and on a reimbursable or other basis with any State or local government agency, to obtain the services of that agency to assist the Secretary in carrying out any of the Secretary's responsibilities under this section. Services which may be obtained under this subsection include the identification, investigation, and cleanup of any offsite contamination possibly resulting from the release of a hazardous substance or waste at a facility under the Secretary's jurisdiction.

"(e) RESPONSE ACTION CONTRACTORS.—The provisions of section 119 of CERCLA apply to response action contractors (as defined in that section) who carry out response actions under this section.

"§ 2702. Research, development, and demonstration program

"(a) PROGRAM.—As part of the Defense Environmental Restoration Program, the Secretary of Defense shall carry out a program of research, development, and demonstration with respect to hazardous wastes. The program shall be carried out in consultation and cooperation with the Administrator and the advisory council established under section 311(a)(5) of CERCLA. The program shall include research, development, and demonstration with respect to each of the following:

"(1) Means of reducing the quantities of hazardous waste generated by activities and facilities under the jurisdiction of the Secretary.

"(2) Methods of treatment, disposal, and management (including recycling and detoxifying) of hazardous waste of the types and quantities generated by current and former activities of the Secretary and facilities currently and formerly under the jurisdiction of the Secretary.

"(3) Identifying more cost-effective technologies for cleanup of hazardous substances.

"(4) Toxicological data collection and methodology on risk of exposure to hazardous waste generated by the Department of Defense.

"(5) The testing, evaluation, and field demonstration of any innovative technology, processes, equipment, or related training devices which may contribute to establishment of new methods to control, contain, and treat hazardous substances, to be carried out in consultation and cooperation with, and to the extent possible in the same manner and standards as, testing, evaluation, and field demonstration carried out by the Administrator, acting through the office of technology demonstration of the Environmental Protection Agency.

"(b) SPECIAL PERMIT.—The Administrator may use the authorities of section 3005(g) of the Solid Waste Disposal Act (42 U.S.C. 6925(g)) to issue a permit for testing and evaluation which receives support under this section.

"(c) CONTRACTS AND GRANTS.—The Secretary may enter into contracts and cooperative agreements with, and make grants to, universities, public and private profit and nonprofit entities, and other persons to carry out the research, development, and demonstration authorized under this section. Such contracts may be entered into only to the extent that appropriated funds are available for that purpose.

"(d) INFORMATION COLLECTION AND DISSEMINATION.—

"(1) IN GENERAL.—The Secretary shall develop, collect, evaluate, and disseminate information related to the use (or potential use) of the treatment, disposal, and manage-

ment technologies that are researched, developed, and demonstrated under this section.

"(2) ROLE OF EPA.—The functions of the Secretary under paragraph (1) shall be carried out in cooperation and consultation with the Administrator. To the extent appropriate and agreed upon by the Administrator and the Secretary, the Administrator shall evaluate and disseminate such information through the office of technology demonstration of the Environmental Protection Agency.

"§ 2703. Environmental restoration transfer account

"(a) ESTABLISHMENT OF TRANSFER ACCOUNT.—

"(1) ESTABLISHMENT.—There is hereby established in the Department of Defense an account to be known as the 'Defense Environmental Restoration Account' (hereinafter in this section referred to as the 'transfer account'). All sums appropriated to carry out the functions of the Secretary of Defense relating to environmental restoration under this chapter or any other provision of law shall be appropriated to the transfer account.

"(2) REQUIREMENT OF AUTHORIZATION OF APPROPRIATIONS.—No funds may be appropriated to the transfer account unless such sums have been specifically authorized by law.

"(3) AVAILABILITY OF FUNDS IN TRANSFER ACCOUNT.—Amounts appropriated to the transfer account shall remain available until transferred under subsection (b).

"(b) AUTHORITY TO TRANSFER TO OTHER DOD ACCOUNTS.—Amounts in the transfer account shall be available to be transferred by the Secretary to any appropriation account or fund of the Department for obligation from that account or fund. Funds so transferred shall be merged with and available for the same purposes and for the same period as the account or fund to which transferred.

"(c) OBLIGATION OF TRANSFERRED AMOUNTS.—Funds transferred under subsection (b) may only be obligated or expended from the account or fund to which transferred in order to carry out the functions of the Secretary under this chapter or environmental restoration functions under any other provision of law.

"(d) BUDGET REPORTS.—In proposing the Budget for any fiscal year pursuant to section 1105 of title 31, the President shall set forth separately the amount requested for environmental restoration programs of the Department of Defense under this chapter or any other Act.

"(e) AMOUNTS RECOVERED UNDER CERCLA.—Amounts recovered under section 107 of CERCLA for response actions of the Secretary shall be credited to the transfer account.

"§ 2704. Commonly found unregulated hazardous substances

"(a) NOTICE TO HHS.—

"(1) IN GENERAL.—The Secretary of Defense shall notify the Secretary of Health and Human Services of the hazardous substances which the Secretary of Defense determines to be the most commonly found unregulated hazardous substances at facilities under the Secretary's jurisdiction. The notification shall be of not less than the 25 most widely used such substances.

"(2) DEFINITION.—In this subsection, the term 'unregulated hazardous substance' means a hazardous substance—

"(A) for which no standard requirement, criteria, or limitation is in effect under the Toxic Substances Control Act, the Safe Drinking Water Act, the Clean Air Act, or the Clean Water Act; and

"(B) for which no water quality criteria are in effect under any provision of the Clean Water Act.

"(b) TOXICOLOGICAL PROFILES.—The Secretary of Health and Human Services shall take such steps as necessary to ensure the timely preparation of toxicological profiles of each of the substances of which the Secretary is notified under subsection (a). The profiles of such substances shall include each of the following:

"(1) The examination, summary, and interpretation of available toxicological information and epidemiologic evaluations on a hazardous substance in order to ascertain the levels of significant human exposure for the substance and the associated acute, subacute, and chronic health effects.

"(2) A determination of whether adequate information on the health effects of each substance is available or in the process of development to determine levels of exposure which present a significant risk to human health of acute, subacute, and chronic health effects.

"(3) Where appropriate, toxicological testing directed toward determining the maximum exposure level of a hazardous substance that is safe for humans.

"(c) DOD SUPPORT.—The Secretary of Defense shall transfer to the Secretary of Health and Human Services such toxicological data, such sums from amounts appropriated to the Department of Defense, and such personnel of the Department of Defense as may be necessary (1) for the preparation of toxicological profiles under subsection (b) or (2) for other health related activities under section 104(i) of CERCLA. The Secretary of Defense and the Secretary of Health and Human Services shall enter into a memorandum of understanding regarding the manner in which this section shall be carried out, including the manner for transferring funds and personnel and for coordination of activities under this section.

"(d) EPA HEALTH ADVISORIES.—

"(1) PREPARATION.—At the request of the Secretary of Defense, the Administrator shall, in a timely manner, prepare health advisories on hazardous substances. Such an advisory shall be prepared on each hazardous substance—

"(A) for which no advisory exists;

"(B) which is found to threaten drinking water; and

"(C) which is emanating from a facility under the jurisdiction of the Secretary.

"(2) CONTENT OF HEALTH ADVISORIES.—Such health advisories shall provide specific advice on the levels of contaminants in drinking water at which adverse health effects would not be anticipated and which include a margin of safety so as to protect the most sensitive members of the population at risk. The advisories shall provide data on one-day, 10-day, and longer-term exposure periods where available toxicological data exist.

"(3) DOD SUPPORT FOR HEALTH ADVISORIES.—The Secretary of Defense shall transfer to the Administrator such toxicological data, such sums from amounts appropriated to the Department of Defense, and such personnel of the Department of Defense as may be necessary for the preparation of such health advisories. The Secretary and the Administrator shall enter into a memorandum of understanding regarding the manner in which this subsection shall be carried out, including the manner for transferring funds and personnel and for coordination of activities under this subsection.

"(e) CROSS REFERENCE.—Section 104(i) of CERCLA applies to facilities under the jurisdiction of the Secretary of Defense in the manner prescribed in that section.

"(f) FUNCTIONS OF HHS TO BE CARRIED OUT THROUGH ATSDR.—The functions of the Secretary of Health and Human Services under this section shall be carried out through the Administrator of the Agency of Toxic Substances and Disease Registry of the Department of Health and Human Services established under section 104(i) of CERCLA.

"§ 2705. Notice of environmental restoration activities

"(a) EXPEDITED NOTICE.—The Secretary of Defense shall take such actions as necessary to ensure that the regional offices of the Environmental Protection Agency and appropriate State and local authorities for the State in which a facility under the Secretary's jurisdiction is located receive prompt notice of each of the following:

"(1) The discovery of releases or threatened releases of hazardous substances at the facility.

"(2) The extent of the threat to public health and the environment which may be associated with any such release or threatened release.

"(3) Proposals made by the Secretary to carry out response actions with respect to any such release or threatened release.

"(4) The initiation of any response action with respect to such release or threatened release and the commencement of each distinct phase of such activities.

"(b) COMMENT BY EPA AND STATE AND LOCAL AUTHORITIES.—

"(1) RELEASE NOTICES.—The Secretary shall ensure that the Administrator of the Environmental Protection Agency and appropriate State and local officials have an adequate opportunity to comment on notices under paragraphs (1) and (2) of subsection (a).

"(2) PROPOSALS FOR RESPONSE ACTIONS.—The Secretary shall require that an adequate opportunity for timely review and comment be afforded to the Administrator and to appropriate State and local officials after making a proposal referred to in subsection (a)(3) and before undertaking an activity or action referred to in subsection (a)(4). The preceding sentence does not apply if the action is an emergency removal taken because of imminent and substantial endangerment to human health or the environment and consultation would be impractical.

"(c) TECHNICAL REVIEW COMMITTEE.—Whenever possible and practical, the Secretary shall establish a technical review committee to review and comment on Department of Defense actions and proposed actions with respect to releases or threatened releases of hazardous substances at installations. Members of any such committee shall include at least one representative of the Secretary, the Administrator, and appropriate State and local authorities and shall include a public representative of the community involved.

"§ 2706. Annual report to Congress

"(a) REPORT ON PROGRESS IN IMPLEMENTATION.—The Secretary of Defense shall submit to Congress a report each fiscal year describing the progress made by the Secretary during the preceding fiscal year in implementing the requirements of this chapter.

"(b) MATTERS TO BE INCLUDED.—Each such report shall include the following:

"(1) A statement for each installation under the jurisdiction of the Secretary of the number of individual facilities at which a hazardous substance has been identified.

"(2) The status of response actions contemplated or undertaken at each such facility.

"(3) The specific cost estimates and budgetary proposals involving response actions contemplated or undertaken at each such facility.

"(4) A report on progress on conducting response actions at facilities other than facilities on the National Priorities List.

"§ 2707. Definitions

"In this chapter:

"(1) The terms 'environment', 'facility', 'hazardous substance', 'person', 'release', 'removal', 'response', 'disposal', and 'hazardous waste' have the meanings given those terms in section 101 of CERCLA (42 U.S.C. 9601).

"(2) The term 'Administrator' means the Administrator of the Environmental Protection Agency.".

(2) The tables of chapters at the beginning of subtitle A, and at the beginning of part IV of subtitle A, of such title are each amended by inserting after the item relating to chapter 159 the following new item:

"160. Environmental Restoration ..... 2701".

(3) The table of sections at the beginning of chapter 161 of such title is amended to reflect the redesignation made by paragraph (1)(A).

(b) MILITARY CONSTRUCTION PROJECTS.—(1) Chapter 169 of title 10, United States Code, is amended by inserting at the end of subchapter I the following new section:

"§ 2810. Construction projects for environmental response actions

"(a) Subject to subsection (b), the Secretary of Defense may carry out a military construction project not otherwise authorized by law (or may authorize the Secretary of a military department to carry out such a project) if the Secretary of Defense determines that the project is necessary to carry out a response action under chapter 160 of this title or under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).

"(b)(1) When a decision is made to carry out a military construction project under this section, the Secretary of Defense shall submit a report in writing to the appropriate committees of Congress on that decision. Each such report shall include—

"(A) the justification for the project and the current estimate of the cost of the project; and

"(B) the justification for carrying out the project under this section.

"(2) The project may then be carried out only after the end of the 21-day period beginning on the date the notification is received by such committees.

"(c) In this section, the term 'response action' has the meaning given that term in section 101 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601).".

(2) The table of sections at the beginning of subchapter I of such chapter is amended by adding at the end thereof the following new item:

"2810. Construction projects for environmental response actions.".

(c) EFFECTIVE DATE.—Section 2703(a)(2) of title 10, United States Code, as added by subsection (a), shall apply with respect to funds appropriated for fiscal years beginning after September 30, 1986.

SEC. 212. REPORT AND OVERSIGHT REQUIREMENTS.

Section 301 of CERCLA is amended by adding at the end thereof the following new subsection:

"(h) REPORT AND OVERSIGHT REQUIREMENTS.—

"(1) ANNUAL REPORT BY EPA.—On January 1 of each year the Administrator of the Environmental Protection Agency shall submit an annual report to Congress of such Agency on the progress achieved in implementing this Act during the preceding fiscal year. In addition such report shall specifically include each of the following:

"(A) A detailed description of each feasibility study carried out at a facility under title I of this Act.

"(B) The status and estimated date of completion of each such study.

"(C) Notice of each such study which will not meet a previously published schedule for completion and the new estimated date for completion.

"(D) An evaluation of newly developed feasible and achievable permanent treatment technologies.

"(E) Progress made in reducing the number of facilities subject to review under section 121(c).

"(F) A report on the status of all remedial and enforcement actions undertaken during the prior fiscal year, including a comparison to remedial and enforcement actions undertaken in prior fiscal years.

"(G) An estimate of the amount of resources, including the number of work years or personnel, which would be necessary for each department, agency, or instrumentality which is carrying out any activities of this Act to complete the implementation of all duties vested in the department, agency, or instrumentality under this Act.

"(2) REVIEW BY INSPECTOR GENERAL.—Consistent with the authorities of the Inspector General Act of 1978 the Inspector General of the Environmental Protection Agency shall review any report submitted under paragraph (1) related to EPA's activities for reasonableness and accuracy and submit to Congress, as a part of such report a report on the results of such review.

"(3) CONGRESSIONAL OVERSIGHT.—After receiving the reports under paragraphs (1) and (2) of this subsection in any calendar year, the appropriate authorizing committees of Congress shall conduct oversight hearings to ensure that this Act is being implemented according to the purposes of this Act and congressional intent in enacting this Act.".

SEC. 213. LOVE CANAL PROPERTY ACQUISITION.

(a) CONGRESSIONAL FINDINGS.—

(1) The area known as Love Canal located in the city of Niagara Falls and the town of Wheatfield, New York, was the first toxic waste site to receive national attention. As a result of that attention Congress investigated the problems associated with toxic waste sites and enacted CERCLA to deal with these problems.

(2) Because Love Canal came to the Nation's attention prior to the passage of CERCLA and because the fund under CERCLA was not available to compensate for all of the hardships endured by the citizens in the area, Congress has determined that special provisions are required. These provisions do not affect the lawfulness, implementation or selection of any other response actions at Love Canal or at any other facilities.

(b) AMENDMENT OF SUPERFUND.—Title III of CERCLA is amended by adding the following new section at the end thereof:

"SEC. 312. LOVE CANAL PROPERTY ACQUISITION.

"(a) ACQUISITION OF PROPERTY IN EMERGENCY DECLARATION AREA.—The Administrator of the Environmental Protection Agency (hereinafter referred to as the 'Administrator') may make grants not to exceed $2,500,000 to the State of New York (or to any duly constituted public agency or authority thereof) for purposes of acquisition of private property in the Love Canal Emergency Declaration Area. Such acquisition shall include (but shall not be limited to) all private property within the Emergency Declaration Area, including non-owner occupied residential properties, commercial, industrial, public, religious, non-profit, and vacant properties.

"(b) PROCEDURES FOR ACQUISITION.—No property shall be acquired pursuant to this section unless the property owner voluntarily agrees to such acquisition. Compensation for any property acquired pursuant to this section shall be based upon the fair market value of the property as it existed prior to the emergency declaration. Valuation procedures for property acquired with funds provided under this section shall be in accordance with those set forth in the agreement entered into between the New York State Disaster Preparedness Commission and the Love Canal Revitalization Agency on October 9, 1980.

"(c) STATE OWNERSHIP.—The Administrator shall not provide any funds under this section for the acquisition of any properties pursuant to this section unless a public agency or authority of the State of New York first enters into a cooperative agreement with the Administrator providing assurances deemed adequate by the Administrator that the State or an agency created under the laws of the State shall take title to the properties to be so acquired.

"(d) MAINTENANCE OF PROPERTY.—The Administrator shall enter into a cooperative agreement with an appropriate public agency or authority of the State of New York under which the Administrator shall maintain or arrange for the maintenance of all properties within the Emergency Declaration Area that have been acquired by any public agency or authority of the State. Ninety (90) percent of the costs of such maintenance shall be paid by the Administrator. The remaining portion of such costs shall be paid by the State (unless a credit is available under section 104(c)). The Administrator is authorized, in his discretion, to provide technical assistance to any public agency or authority of the State of New York in order to implement the recommendations of the habitability and land-use study in order to put the land within the Emergency Declaration Area to its best use.

"(e) HABITABILITY AND LAND USE STUDY.—The Administrator shall conduct or cause to be conducted a habitability and land-use study. The study shall—

"(1) assess the risks associated with inhabiting of the Love Canal Emergency Declaration Area;

"(2) compare the level of hazardous waste contamination in that Area to that present in other comparable communities; and

"(3) assess the potential uses of the land within the Emergency Declaration Area, including but not limited to residential, industrial, commercial and recreational, and the risks associated with such potential uses.

The Administrator shall publish the findings of such study and shall work with the State of New York to develop recommendations based upon the results of such study.

"(f) FUNDING.—For purposes of section 111 and 221(c) of this Act, the expenditures authorized by this section shall be treated as a cost specified in section 111(c).

"(g) RESPONSE.—The provisions of this section shall not affect the implementation of other response actions within the Emergency Declaration Area that the Administrator has determined (before enactment of this section) to be necessary to protect the public health or welfare or the environment.

"(h) DEFINITIONS.—For purposes of this section:

"(1) EMERGENCY DECLARATION AREA.—The terms 'Emergency Declaration Area' and 'Love Canal Emergency Declaration Area' mean the Emergency Declaration Area as defined in section 950, paragraph (2) of the General Municipal Law of the State of New York, Chapter 259, Laws of 1980, as in effect on the date of the enactment of this section.

"(2) PRIVATE PROPERTY.—As used in subsection (a), the term 'private property' means all property which is not owned by a department, agency, or instrumentality of—

"(A) the United States, or

"(B) the State of New York (or any public agency or authority thereof).".

TITLE III—EMERGENCY PLANNING AND COMMUNITY RIGHT-TO-KNOW

SEC. 300. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This title may be cited as the "Emergency Planning and Community Right-To-Know Act of 1986".

(b) TABLE OF CONTENTS.—The table of contents of this title is as follows:

Sec. 300. Short title; table of contents.

Subtitle A—Emergency Planning and Notification

Sec. 301. Establishment of State commissions, planning districts, and local committees.
Sec. 302. Substances and facilities covered and notification.
Sec. 303. Comprehensive emergency response plans.
Sec. 304. Emergency notification.
Sec. 305. Emergency training and review of emergency systems.

Subtitle B—Reporting Requirements

Sec. 311. Material safety data sheets.
Sec. 312. Emergency and hazardous chemical inventory forms.
Sec. 313. Toxic chemical release forms.

Subtitle C—General Provisions

Sec. 321. Relationship to other law.
Sec. 322. Trade secrets.
Sec. 323. Provision of information to health professionals, doctors, and nurses.
Sec. 324. Public availability of plans, data sheets, forms, and followup notices.
Sec. 325. Enforcement.
Sec. 326. Civil Actions.
Sec. 327. Exemption.
Sec. 328. Regulations.
Sec. 329. Definitions.
Sec. 330. Authorization of appropriations.

Subtitle A—Emergency Planning and Notification

SEC. 301. ESTABLISHMENT OF STATE COMMISSIONS, PLANNING DISTRICTS, AND LOCAL COMMITTEES.

(a) ESTABLISHMENT OF STATE EMERGENCY RESPONSE COMMISSIONS.—Not later than six months after the date of the enactment of this title, the Governor of each State shall appoint a State emergency response commission. The Governor may designate as the State emergency response commission one or more existing emergency response organizations that are State-sponsored or appointed. The Governor shall, to the extent practicable, appoint persons to the State emergency response commission who have technical expertise in the emergency response field. The State emergency response commission shall appoint local emergency planning committees under subsection (c) and shall supervise and coordinate the activities of such committees. The State emergency response commission shall establish procedures for receiving and processing requests from the public for information under section 324, including tier II information under section 312. Such procedures shall include the designation of an official to serve as coordinator for information. If the Governor of any State does not designate a State emergency response commission within such period, the Governor shall operate as the State emergency response commission until the Governor makes such designation.

(b) ESTABLISHMENT OF EMERGENCY PLANNING DISTRICTS.—Not later than nine months after the date of the enactment of this title, the State emergency response commission shall designate emergency planning districts in order to facilitate preparation and implementation of emergency plans. Where appropriate, the State emergency response commission may designate existing political subdivisions or multijurisdictional planning organizations as such districts. In emergency planning areas that involve more than one State, the State emergency response commissions of all potentially affected States may designate emergency planning districts and local emergency planning committees by agreement. In making such designation, the State emergency response commission shall indicate which facilities subject to the requirements of this subtitle are within such emergency planning district.

(c) ESTABLISHMENT OF LOCAL EMERGENCY PLANNING COMMITTEES.—Not later than 30 days after designation of emergency planning districts or 10 months after the date of the enactment of this title, whichever is earlier, the State emergency response commission shall appoint members of a local emergency planning committee for each emergency planning district. Each committee shall include, at a minimum, representatives from each of the following groups or organizations: elected State and local officials; law enforcement, civil defense, firefighting, first aid, health, local environmental, hospital, and transportation personnel; broadcast and print media; community groups; and owners and operators of facilities subject to the requirements of this subtitle. Such committee shall appoint a chairperson and shall establish rules by which the committee shall function. Such rules shall include provisions for public notification of committee activities, public meetings to discuss the emergency plan, public comments, response to such comments by the committee, and distribution of the emergency plan. The local emergency planning committee shall establish procedures for receiving and processing requests from the public for information under section 324, including tier II information under section 312. Such procedures shall include the designation of an official to serve as coordinator for information.

(d) REVISIONS.—A State emergency response commission may revise its designations and appointments under subsections (b) and (c) as it deems appropriate. Interested persons may petition the State emergency response commission to modify the membership of a local emergency planning committee.

SEC. 302. SUBSTANCES AND FACILITIES COVERED AND NOTIFICATION.

(a) SUBSTANCES COVERED.—

(1) IN GENERAL.—A substance is subject to the requirements of this subtitle if the substance is on the list published under paragraph (2).

(2) LIST OF EXTREMELY HAZARDOUS SUBSTANCES.—Within 30 days after the date of the enactment of this title, the Administrator shall publish a list of extremely hazardous substances. The list shall be the same as the list of substances published in November 1985 by the Administrator in Appendix A of the "Chemical Emergency Preparedness Program Interim Guidance".

(3) THRESHOLDS.—(A) At the time the list referred to in paragraph (2) is published the Administrator shall—

(i) publish an interim final regulation establishing a threshold planning quantity for each substance on the list, taking into account the criteria described in paragraph (4), and

(ii) initiate a rulemaking in order to publish final regulations establishing a threshold planning quantity for each substance on the list.

(B) The threshold planning quantities may, at the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(C) If the Administrator fails to publish an interim final regulation establishing a threshold planning quantity for a substance within 30 days after the date of the enactment of this title, the threshold planning quantity for the substance shall be 2 pounds until such time as the Administrator publishes regulations establishing a threshold for the substance.

(4) REVISIONS.—The Administrator may revise the list and thresholds under paragraphs (2) and (3) from time to time. Any revisions to the list shall take into account the toxicity, reactivity, volatility, dispersability, combustability, or flammability of a substance. For purposes of the preceding sentence, the term "toxicity" shall include any short- or long-term health effect which may result from a short-term exposure to the substance.

(b) FACILITIES COVERED.—(1) Except as provided in section 304, a facility is subject to the requirements of this subtitle if a substance on the list referred to in subsection (a) is present at the facility in an amount in excess of the threshold planning quantity established for such substance.

(2) For purposes of emergency planning, a Governor or a State emergency response commission may designate additional facilities which shall be subject to the requirements of this subtitle, if such designation is made after public notice and opportunity for comment. The Governor or State emergency response commission shall notify the facility concerned of any facility designation under this paragraph.

(c) EMERGENCY PLANNING NOTIFICATION.—Not later than seven months after the date of the enactment of this title, the owner or operator of each facility subject to the requirements of this subtitle by reason of subsection (b)(1) shall notify the State emergency response commission for the State in which such facility is located that such facility is subject to the requirements of this subtitle. Thereafter, if a substance on the list of extremely hazardous substances referred

to in subsection (a) first becomes present at such facility in excess of the threshold planning quantity established for such substance, or if there is a revision of such list and the facility has present a substance on the revised list in excess of the threshold planning quantity established for such substance, the owner or operator of the facility shall notify the State emergency response commission and the local emergency planning committee within 60 days after such acquisition or revision that such facility is subject to the requirements of this subtitle.

(d) NOTIFICATION OF ADMINISTRATOR.—The State emergency response commission shall notify the Administrator of facilities subject to the requirements of this subtitle by notifying the Administrator of—

(1) each notification received from a facility under subsection (c), and

(2) each facility designated by the Governor or State emergency response commission under subsection (b)(2).

SEC. 303. COMPREHENSIVE EMERGENCY RESPONSE PLANS.

(a) PLAN REQUIRED.—Each local emergency planning committee shall complete preparation of an emergency plan in accordance with this section not later than two years after the date of the enactment of this title. The committee shall review such plan once a year, or more frequently as changed circumstances in the community or at any facility may require.

(b) RESOURCES.—Each local emergency planning committee shall evaluate the need for resources necessary to develop, implement, and exercise the emergency plan, and shall make recommendations with respect to additional resources that may be required and the means for providing such additional resources.

(c) PLAN PROVISIONS.—Each emergency plan shall include (but is not limited to) each of the following:

(1) Identification of facilities subject to the requirements of this subtitle that are within the emergency planning district, identification of routes likely to be used for the transportation of substances on the list of extremely hazardous substances referred to in section 302(a), and identification of additional facilities contributing or subjected to additional risk due to their proximity to facilities subject to the requirements of this subtitle, such as hospitals or natural gas facilities.

(2) Methods and procedures to be followed by facility owners and operators and local emergency and medical personnel to respond to any release of such substances.

(3) Designation of a community emergency coordinator and facility emergency coordinators, who shall make determinations necessary to implement the plan.

(4) Procedures providing reliable, effective, and timely notification by the facility emergency coordinators and the community emergency coordinator to persons designated in the emergency plan, and to the public, that a release has occurred (consistent with the emergency notification requirements of section 304).

(5) Methods for determining the occurrence of a release, and the area or population likely to be affected by such release.

(6) A description of emergency equipment and facilities in the community and at each facility in the community subject to the requirements of this subtitle, and an identification of the persons responsible for such equipment and facilities.

(7) Evacuation plans, including provisions for a precautionary evacuation and alternative traffic routes.

(8) Training programs, including schedules for training of local emergency response and medical personnel.

(9) Methods and schedules for exercising the emergency plan.

(d) PROVIDING OF INFORMATION.—For each facility subject to the requirements of this subtitle:

(1) Within 30 days after establishment of a local emergency planning committee for the emergency planning district in which such facility is located, or within 11 months after the date of the enactment of this title, whichever is earlier, the owner or operator of the facility shall notify the emergency planning committee (or the Governor if there is no committee) of a facility representative who will participate in the emergency planning process as a facility emergency coordinator.

(2) The owner or operator of the facility shall promptly inform the emergency planning committee of any relevant changes occurring at such facility as such changes occur or are expected to occur.

(3) Upon request from the emergency planning committee, the owner or operator of the facility shall promptly provide information to such committee necessary for developing and implementing the emergency plan.

(e) REVIEW BY THE STATE EMERGENCY RESPONSE COMMISSION.—After completion of an emergency plan under subsection (a) for an emergency planning district, the local emergency planning committee shall submit a copy of the plan to the State emergency response commission of each State in which such district is located. The commission shall review the plan and make recommendations to the committee on revisions of the plan that may be necessary to ensure coordination of such plan with emergency response plans of other emergency planning districts. To the maximum extent practicable, such review shall not delay implementation of such plan.

(f) GUIDANCE DOCUMENTS.—The national response team, as established pursuant to the National Contingency Plan as established under section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.), shall publish guidance documents for preparation and implementation of emergency plans. Such documents shall be published not later than five months after the date of the enactment of this title.

(g) REVIEW OF PLANS BY REGIONAL RESPONSE TEAMS.—The regional response teams, as established pursuant to the National Contingency Plan as established under section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.), may review and comment upon an emergency plan or other issues related to preparation, implementation, or exercise of such a plan upon request of a local emergency planning committee. Such review shall not delay implementation of the plan.

SEC. 304. EMERGENCY NOTIFICATION.

(a) TYPES OF RELEASES.—

(1) 302(a) SUBSTANCE WHICH REQUIRES CERCLA NOTICE.—If a release of an extremely hazardous substance referred to in section 302(a) occurs from a facility at which a hazardous chemical is produced, used, or stored, and such release requires a notification under section 103(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (hereafter in this section referred to as "CERCLA") (42 U.S.C. 9601 et seq.), the owner or operator of the facility shall immediately provide notice as described in subsection (b).

(2) OTHER 302(a) SUBSTANCE.—If a release of an extremely hazardous substance referred to in section 302(a) occurs from a facility at which a hazardous chemical is produced, used, or stored, and such release is not subject to the notification requirements under section 103(a) of CERCLA, the owner or operator of the facility shall immediately provide notice as described in subsection (b), but only if the release—

(A) is not a federally permitted release as defined in section 101(10) of CERCLA,

(B) is in an amount in excess of a quantity which the Administrator has determined (by regulation) requires notice, and

(C) occurs in a manner which would require notification under section 103(a) of CERCLA.

Unless and until superseded by regulations establishing a quantity for an extremely hazardous substance described in this paragraph, a quantity of 1 pound shall be deemed that quantity the release of which requires notice as described in subsection (b).

(3) NON-302(a) SUBSTANCE WHICH REQUIRES CERCLA NOTICE.—If a release of a substance which is not on the list referred to in section 302(a) occurs at a facility at which a hazardous chemical is produced, used, or stored, and such release requires notification under section 103(a) of CERCLA, the owner or operator shall provide notice as follows:

(A) If the substance is one for which a reportable quantity has been established under section 102(a) of CERCLA, the owner or operator shall provide notice as described in subsection (b).

(B) If the substance is one for which a reportable quantity has not been established under section 102(a) of CERLCA—

(i) Until April 30, 1988, the owner or operator shall provide, for releases of one pound or more of the substance, the same notice to the community emergency coordinator for the local emergency planning committee, at the same time and in the same form, as notice is provided to the National Response Center under section 103(a) of CERCLA.

(ii) On and after April 30, 1988, the owner or operator shall provide, for releases of one pound or more of the substance, the notice as described in subsection (b).

(4) EXEMPTED RELEASES.—This section does not apply to any release which results in exposure to persons solely within the site or sites on which a facility is located.

(b) NOTIFICATION.—

(1) RECIPIENTS OF NOTICE.—Notice required under subsection (a) shall be given immediately after the release by the owner or operator of a facility (by such means as telephone, radio, or in person) to the community emergency coordinator for the local emergency planning committees, if established pursuant to section 301(c), for any area likely to be affected by the release and to the State emergency planning commission of any State likely to be affected by the release. With respect to transportation of a substance subject to the requirements of this section, or storage incident to such transportation, the notice requirements of this section with respect to a release shall be satisfied by dialing 911 or, in the absence of a 911 emergency telephone number, calling the operator.

(2) CONTENTS.—Notice required under subsection (a) shall include each of the following (to the extent known at the time of the notice and so long as no delay in responding to the emergency results):

(A) The chemical name or identity of any substance involved in the release.

(B) An indication of whether the substance is on the list referred to in section 302(a).

(C) An estimate of the quantity of any such substance that was released into the environment.

(D) The time and duration of the release.

(E) The medium or media into which the release occurred.

(F) Any known or anticipated acute or chronic health risks associated with the emergency and, where appropriate, advice regarding medical attention necessary for exposed individuals.

(G) Proper precautions to take as a result of the release, including evacuation (unless such information is readily available to the community emergency coordinator pursuant to the emergency plan).

(H) The name and telephone number of the person or persons to be contacted for further information.

(c) FOLLOWUP EMERGENCY NOTICE.—As soon as practicable after a release which requires notice under subsection (a), such owner or operator shall provide a written followup emergency notice (or notices, as more information becomes available) setting forth and updating the information required under subsection (b), and including additional information with respect to—

(1) actions taken to respond to and contain the release,

(2) any known or anticipated acute or chronic health risks associated with the release, and

(3) where appropriate, advice regarding medical attention necessary for exposed individuals.

(d) TRANSPORTATION EXEMPTION NOT APPLICABLE.—The exemption provided in section 327 (relating to transportation) does not apply to this section.

SEC. 305. EMERGENCY TRAINING AND REVIEW OF EMERGENCY SYSTEMS.

(a) EMERGENCY TRAINING.—

(1) PROGRAMS.—Officials of the United States Government carrying out existing Federal programs for emergency training are authorized to specifically provide training and education programs for Federal, State, and local personnel in hazard mitigation, emergency preparedness, fire prevention and control, disaster response, long-term disaster recovery, national security, technological and natural hazards, and emergency processes. Such programs shall provide special emphasis for such training and education with respect to hazardous chemicals.

(2) STATE AND LOCAL PROGRAM SUPPORT.—There is authorized to be appropriated to the Federal Emergency Management Agency for each of the fiscal years 1987, 1988, 1989, and 1990, $5,000,000 for making grants to support programs of State and local governments, and to support university-sponsored programs, which are designed to improve emergency planning, preparedness, mitigation, response, and recovery capabilities. Such programs shall provide special emphasis with respect to emergencies associated with hazardous chemicals. Such grants may not exceed 80 percent of the cost of any such program. The remaining 20 percent of such costs shall be funded from non-Federal sources.

(3) OTHER PROGRAMS.—Nothing in this section shall affect the availability of appropriations to the Federal Emergency Management Agency for any programs carried out by such agency other than the programs referred to in paragraph (2).

(b) REVIEW OF EMERGENCY SYSTEMS.—

(1) REVIEW.—The Administrator shall initiate, not later than 30 days after the date of the enactment of this title, a review of emergency systems for monitoring, detecting, and preventing releases of extremely hazardous substances at representative domestic facilities that produce, use, or store extremely hazardous substances. The Administrator may select representative extremely hazardous substances from the substances on the list referred to in section 302(a) for the purposes of this review. The Administrator shall report interim findings to the Congress not later than seven months after such date of enactment, and issue a final report of findings and recommendations to the Congress not later than 18 months after such date of enactment. Such report shall be prepared in consultation with the States and appropriate Federal agencies.

(2) REPORT.—The report required by this subsection shall include the Administrator's findings regarding each of the following:

(A) The status of current technological capabilities to (i) monitor, detect, and prevent, in a timely manner, significant releases of extremely hazardous substances, (ii) determine the magnitude and direction of the hazard posed by each release, (iii) identify specific substances, (iv) provide data on the specific chemical composition of such releases, and (v) determine the relative concentrations of the constituent substances.

(B) The status of public emergency alert devices or systems for providing timely and effective public warning of an accidental release of extremely hazardous substances into the environment, including releases into the atmosphere, surface water, or groundwater from facilities that produce, store, or use significant quantities of such extremely hazardous substances.

(C) The technical and economic feasibility of establishing, maintaining, and operating perimeter alert systems for detecting releases of such extremely hazardous substances into the atmosphere, surface water, or groundwater, at facilities that manufacture, use, or store significant quantities of such substances.

(3) RECOMMENDATIONS.—The report required by this subsection shall also include the Administrator's recommendations for—

(A) initiatives to support the development of new or improved technologies or systems that would facilitate the timely monitoring, detection, and prevention of releases of extremely hazardous substances, and

(B) improving devices or systems for effectively alerting the public in a timely manner, in the event of an accidental release of such extremely hazardous substances.

Subtitle B—Reporting Requirements

SEC. 311. MATERIAL SAFETY DATA SHEETS.

(a) BASIC REQUIREMENT.—

(1) SUBMISSION OF MSDS OR LIST.—The owner or operator of any facility which is required to prepare or have available a material safety data sheet for a hazardous chemical under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act (15 U.S.C. 651 et seq.) shall submit a material safety data sheet for each such chemical, or a list of such chemicals as described in paragraph (2), to each of the following:

(A) The appropriate local emergency planning committee.

(B) The State emergency response commission.

(C) The fire department with jurisdiction over the facility.

(2) CONTENTS OF LIST.—(A) The list of chemicals referred to in paragraph (1) shall include each of the following:

(i) A list of the hazardous chemicals for which a material safety data sheet is required under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act, grouped in categories of health and physical hazards as set forth under such Act and regulations promulgated under such Act, or in such other categories as the Administrator may prescribe under subparagraph (B).

(ii) The chemical name or the common name of each such chemical as provided on the material safety data sheet.

(iii) Any hazardous component of each such chemical as provided on the material safety data sheet.

(B) For purposes of the list under this paragraph, the Administrator may modify the categories of health and physical hazards as set forth under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act by requiring information to be reported in terms of groups of hazardous chemicals which present similar hazards in an emergency.

(3) TREATMENT OF MIXTURES.—An owner or operator may meet the requirements of this section with respect to a hazardous chemical which is a mixture by doing one of the following:

(A) Submitting a material safety data sheet for, or identifying on a list, each element or compound in the mixture which is a hazardous chemical. If more than one mixture has the same element or compound, only one material safety data sheet, or one listing, of the element or compound is necessary.

(B) Submitting a material safety data sheet for, or identifying on a list, the mixture itself.

(b) THRESHOLDS.—The Administrator may establish threshold quantities for hazardous chemicals below which no facility shall be subject to the provisions of this section. The threshold quantities may, in the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(c) AVAILABILITY OF MSDS ON REQUEST.—

(1) TO LOCAL EMERGENCY PLANNING COMMITTEE.—If an owner or operator of a facility submits a list of chemicals under subsection (a)(1), the owner or operator, upon request by the local emergency planning committee, shall submit the material safety data sheet for any chemical on the list to such committee.

(2) TO PUBLIC.—A local emergency planning committee, upon request by any person, shall make available a material safety data sheet to the person in accordance with section 324. If the local emergency planning committee does not have the requested material safety data sheet, the committee shall request the sheet from the facility owner or operator and then make the sheet available to the person in accordance with section 324.

(d) INITIAL SUBMISSION AND UPDATING.—(1) The initial material safety data sheet or list required under this section with respect to a hazardous chemical shall be provided before the later of—

(A) 12 months after the date of the enactment of this title, or

(B) 3 months after the owner or operator of a facility is required to prepare or have available a material safety data sheet for the chemical under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act.

(2) Within 3 months following discovery by an owner or operator of significant new information concerning an aspect of a hazardous chemical for which a material safety data sheet was previously submitted to the local emergency planning committee under subsection (a), a revised sheet shall be provided to such person.

(e) HAZARDOUS CHEMICAL DEFINED.—For purposes of this section, the term "hazardous chemical" has the meaning given such term by section 1910.1200(c) of title 29 of the Code of Federal Regulations, except that such term does not include the following:

(1) Any food, food additive, color additive, drug, or cosmetic regulated by the Food and Drug Administration.

(2) Any substance present as a solid in any manufactured item to the extent exposure to the substance does not occur under normal conditions of use.

(3) Any substance to the extent it is used for personal, family, or household purposes, or is present in the same form and concentration as a product packaged for distribution and use by the general public.

(4) Any substance to the extent it is used in a research laboratory or a hospital or other medical facility under the direct supervision of a technically qualified individual.

(5) Any substance to the extent it is used in routine agricultural operations or is a fertilizer held for sale by a retailer to the ultimate customer.

SEC. 312. EMERGENCY AND HAZARDOUS CHEMICAL INVENTORY FORMS.

(a) BASIC REQUIREMENT.—(1) The owner or operator of any facility which is required to prepare or have available a material safety data sheet for a hazardous chemical under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act shall prepare and submit an emergency and hazardous chemical inventory form (hereafter in this title referred to as an "inventory form") to each of the following:

(A) The appropriate local emergency planning committee.

(B) The State emergency response commission.

(C) The fire department with jurisdiction over the facility.

(2) The inventory form containing tier I information (as described in subsection (d)(1)) shall be submitted on or before March 1, 1988, and annually thereafter on March 1, and shall contain data with respect to the preceding calendar year. The preceding sentence does not apply if an owner or operator provides by the same deadline and with respect to the same calendar year, tier II information (as described in subsection (d)(2)) to the recipients described in paragraph (1).

(3) An owner or operator may meet the requirements of this section with respect to a hazardous chemical which is a mixture by doing one of the following:

(A) Providing information on the inventory form on each element or compound in the mixture which is a hazardous chemical. If more than one mixture has the same element or compound, only one listing on the inventory form for the element or compound at the facility is necessary.

(B) Providing information on the inventory form on the mixture itself.

(b) THRESHOLDS.—The Administrator may establish threshold quantities for hazardous chemicals covered by this section below which no facility shall be subject to the provisions of this section. The threshold quantities may, in the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(c) HAZARDOUS CHEMICALS COVERED.—A hazardous chemical subject to the requirements of this section is any hazardous chemical for which a material safety data sheet or a listing is required under section 311.

(d) CONTENTS OF FORM.—

(1) TIER I INFORMATION.—

(A) AGGREGATE INFORMATION BY CATEGORY.—An inventory form shall provide the information described in subparagraph (B) in aggregate terms for hazardous chemicals in categories of health and physical hazards as set forth under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act.

(B) REQUIRED INFORMATION.—The information referred to in subparagraph (A) is the following:

(i) An estimate (in ranges) of the maximum amount of hazardous chemicals in each category present at the facility at any time during the preceding calendar year.

(ii) An estimate (in ranges) of the average daily amount of hazardous chemicals in each category present at the facility during the preceding calendar year.

(iii) The general location of hazardous chemicals in each category.

(C) MODIFICATIONS.—For purposes of reporting information under this paragraph, the Administrator may—

(i) modify the categories of health and physical hazards as set forth under the Occupational Safety and Health Act of 1970 and regulations promulgated under that Act by requiring information to be reported in terms of groups of hazardous chemicals which present similar hazards in an emergency, or

(ii) require reporting on individual hazardous chemicals of special concern to emergency response personnel.

(2) TIER II INFORMATION.—An inventory form shall provide the following additional information for each hazardous chemical present at the facility, but only upon request and in accordance with subsection (e):

(A) The chemical name or the common name of the chemical as provided on the material safety data sheet.

(B) An estimate (in ranges) of the maximum amount of the hazardous chemical present at the facility at any time during the preceding calendar year.

(C) An estimate (in ranges) of the average daily amount of the hazardous chemical present at the facility during the preceding calendar year.

(D) A brief description of the manner of storage of the hazardous chemical.

(E) The location at the facility of the hazardous chemical.

(F) An indication of whether the owner elects to withhold location information of a specific hazardous chemical from disclosure to the public under section 324.

(e) AVAILABILITY OF TIER II INFORMATION.—

(1) AVAILABILITY TO STATE COMMISSIONS, LOCAL COMMITTEES, AND FIRE DEPARTMENTS.—Upon request by a State emergency planning commission, a local emergency planning committee, or a fire department with jurisdiction over the facility, the owner or operator of a facility shall provide tier II information, as described in subsection (d), to the person making the request. Any such request shall be with respect to a specific facility.

(2) AVAILABILITY TO OTHER STATE AND LOCAL OFFICIALS.—A State or local official acting in his or her official capacity may have access to tier II information by submitting a request to the State emergency response commission or the local emergency planning committee. Upon receipt of a request for tier II information, the State commission or local committee shall, pursuant to paragraph (1), request the facility owner or operator for the tier II information and make available such information to the official.

(3) AVAILABILITY TO PUBLIC.—

(A) IN GENERAL.—Any person may request a State emergency response commission or local emergency planning committee for tier II information relating to the preceding calendar year with respect to a facility. Any such request shall be in writing and shall be with respect to a specific facility.

(B) AUTOMATIC PROVISION OF INFORMATION TO PUBLIC.—Any tier II information which a State emergency response commission or local emergency planning committee has in its possession shall be made available to a person making a request under this paragraph in accordance with section 324. If the State emergency response commission or local emergency planning committee does not have the tier II information in its possession, upon a request for tier II information the State emergency response commission or local emergency planning committee shall, pursuant to paragraph (1), request the facility owner or operator for tier II information with respect to a hazardous chemical which a facility has stored in an amount in excess of 10,000 pounds present at the facility at any time during the preceding calendar year and make such information available in accordance with section 324 to the person making the request.

(C) DISCRETIONARY PROVISION OF INFORMATION TO PUBLIC.—In the case of tier II information which is not in the possession of a State emergency response commission or local emergency planning committee and which is with respect to a hazardous chemical which a facility has stored in an amount less than 10,000 pounds present at the facility at any time during the preceding calendar year, a request from a person must include the general need for the information. The State emergency response commission or local emergency planning committee may, pursuant to paragraph (1), request the facility owner or operator for the tier II information on behalf of the person making the request. Upon receipt of any information requested on behalf of such person, the State emergency response commission or local emergency planning committee shall make the information available in accordance with section 324 to the person.

(D) RESPONSE IN 45 DAYS.—A State emergency response commission or local emergency planning committee shall respond to a request for tier II information under this paragraph no later than 45 days after the date of receipt of the request.

(f) FIRE DEPARTMENT ACCESS.—Upon request to an owner or operator of a facility which files an inventory form under this section by the fire department with jurisdiction over the facility, the owner or operator of the facility shall allow the fire department to conduct an on-site inspection of the facility and shall provide to the fire department specific location information on hazardous chemicals at the facility.

(g) FORMAT OF FORMS.—The Administrator shall publish a uniform format for inventory forms within three months after the date of the enactment of this title. If the Administrator does not publish such forms, owners and operators of facilities subject to the requirements of this section shall provide the information required under this section by letter.

SEC. 313. TOXIC CHEMICAL RELEASE FORMS.

(a) BASIC REQUIREMENT.—The owner or operator of a facility subject to the requirements of this section shall complete a toxic chemical release form as published under subsection (g) for each toxic chemical listed under subsection (c) that was manufactured, processed, or otherwise used in quantities exceeding the toxic chemical threshold quantity established by subsection (f) during the preceding calendar year at such facility. Such form shall be submitted to the Administrator and to an official or officials of the State designated by the Governor on or before July 1, 1988, and annually thereafter on July 1 and shall contain data reflecting releases during the preceding calendar year.

(b) COVERED OWNERS AND OPERATORS OF FACILITIES.—

(1) IN GENERAL.—(A) The requirements of this section shall apply to owners and operators of facilities that have 10 or more full-time employees and that are in Standard Industrial Classification Codes 20 through 39 (as in effect on July 1, 1985) and that manufactured, processed, or otherwise used a toxic chemical listed under subsection (c) in excess of the quantity of that toxic chemical established under subsection (f) during the calendar year for which a release form is required under this section.

(B) The Administrator may add or delete Standard Industrial Classification Codes for purposes of subparagraph (A), but only to the extent necessary to provide that each Standard Industrial Code to which this section applies is relevant to the purposes of this section.

(C) For purposes of this section—

(i) The term "manufacture" means to produce, prepare, import, or compound a toxic chemical.

(ii) The term "process" means the preparation of a toxic chemical, after its manufacture, for distribution in commerce—

(I) in the same form or physical state as, or in a different form or physical state from, that in which it was received by the person so preparing such chemcial, or

(II) as part of an article containing the toxic chemical.

(2) DISCRETIONARY APPLICATION TO ADDITIONAL FACILITIES.—The Administrator, on his own motion or at the request of a Governor of a State (with regard to facilities located in that State), may apply the requirements of this section to the owners and operators of any particular facility that manufactures, processes, or otherwise uses a toxic chemical listed under subsection (c) if the Administrator determines that such action is warranted on the basis of toxicity of the toxic chemical, proximity to other facilities that release the toxic chemical or to population centers, the history of releases of such chemical at such facility, or such other factors as the Administrator deems appropriate.

(c) TOXIC CHEMICALS COVERED.—The toxic chemicals subject to the requirements of this section are those chemicals on the list in Committee Print Number 99-169 of the Senate Committee on Environment and Public Works, titled "Toxic Chemicals Subject to Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986" (including any revised version of the list as may be made pursuant to subsection (d) or (e)).

(d) REVISIONS BY ADMINISTRATOR.—

(1) IN GENERAL.—The Administrator may by rule add or delete a chemical from the list described in subsection (c) at any time.

(2) ADDITIONS.—A chemical may be added if the Administrator determines, in his judgment, that there is sufficient evidence to establish any one of the following:

(A) The chemical is known to cause or can reasonably be anticipated to cause significant adverse acute human health effects at concentration levels that are reasonably likely to exist beyond facility site boundaries as a result of continuous, or frequently recurring, releases.

(B) The chemical is known to cause or can reasonably be anticipated to cause in humans—

(i) cancer or teratogenic effects, or

(ii) serious or irreversible—

(I) reproductive dysfunctions,

(II) neurological disorders,

(III) heritable genetic mutations, or

(IV) other chronic health effects.

(C) The chemical is known to cause or can reasonably be anticipated to cause, because of—

(i) its toxicity,

(ii) its toxicity and persistence in the environment, or

(iii) its toxicity and tendency to bioaccumulate in the environment,

a significant adverse effect on the environment of sufficient seriousness, in the judgment of the Administrator, to warrant reporting under this section. The number of chemicals included on the list described in subsection (c) on the basis of the preceding sentence may constitute in the aggregate no more than 25 percent of the total number of chemicals on the list.

A determination under this paragraph shall be based on generally accepted scientific principles or laboratory tests, or appropriately designed and conducted epidemiological or other population studies, available to the Administrator.

(3) DELETIONS.—A chemical may be deleted if the Administrator determines there is not sufficient evidence to establish any of the criteria described in paragraph (2).

(4) EFFECTIVE DATE.—Any revision made on or after January 1 and before December 1 any calendar year shall take effect beginning with the next calendar year. Any revision made on or after December 1 of any calendar year and before January 1 of the next calendar year shall take effect beginning with the calendar year following such next calendar year.

(e) PETITIONS.—

(1) IN GENERAL.—Any person may petition the Administrator to add or delete a chemical from the list described in subsection (c) on the basis of the criteria in subparagraph (A) or (B) of subsection (d)(2). Within 180 days after receipt of a petition, the Administrator shall take one of the following actions:

(A) Initiate a rulemaking to add or delete the chemical to the list, in accordance with subsection (d)(2) or (d)(3).

(B) Publish an explanation of why the petition is denied.

(2) GOVERNOR PETITIONS.—A State Governor may petition the Administrator to add or delete a chemical from the list described in subsection (c) on the basis of the criteria in subparagraph (A), (B), or (C) of subsection (d)(2). In the case of such a petition from a State Governor to delete a chemical, the petition shall be treated in the same manner as a petition received under paragraph (1) to delete a chemical. In the case of such a petition from a State Governor to add a chemical, the chemical will be added to the list within 180 days after receipt of the petition, unless the Administrator—

(A) initiates a rulemaking to add the chemical to the list, in accordance with subsection (d)(2), or

(B) publishes an explanation of why the Administrator believes the petition does not meet the requirements of subsection (d)(2) for adding a chemical to the list.

(f) THRESHOLD FOR REPORTING.—

(1) TOXIC CHEMICAL THRESHOLD AMOUNT.—The threshold amounts for purposes of reporting toxic chemicals under this section are as follows:

(A) With respect to a toxic chemical used at a facility, 10,000 pounds of the toxic chemical per year.

(B) With respect to a toxic chemical manufactured or processed at a facility—

(i) For the toxic chemical release form required to be submitted under this section on or before July 1, 1988, 75,000 pounds of the toxic chemical per year.

(ii) For the form required to be submitted on or before July 1, 1989, 50,000 pounds of the toxic chemical per year.

(iii) For the form required to be submitted on or before July 1, 1990, and for each form thereafter, 25,000 pounds of the toxic chemical per year.

(2) REVISIONS.—The Administrator may establish a threshold amount for a toxic chemical different from the amount established by paragraph (1). Such revised threshold shall obtain reporting on a substantial majority of total releases of the chemical at all facilities subject to the requirements of this section.

The amounts established under this paragraph may, at the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(g) FORM.—

(1) INFORMATION REQUIRED.—Not later than June 1, 1987, the Administrator shall publish a uniform toxic chemical release form for facilities covered by this section. If the Administrator does not publish such a form, owners and operators of facilities subject to the requirements of this section shall provide the information required under this subsection by letter postmarked on or before the date on which the form is due. Such form shall—

(A) provide for the name and location of, and principal business activities at, the facility;

(B) include an appropriate certification, signed by a senior official with management responsibility for the person or persons completing the report, regarding the accuracy and completeness of the report; and

(C) provide for submission of each of the following items of information for each listed toxic chemical known to be present at the facility:

(i) Whether the toxic chemical at the facility is manufactured, processed, or otherwise used, and the general category or categories of use of the chemical.

(ii) An estimate of the maximum amounts (in ranges) of the toxic chemical present at the facility at any time during the preceding calendar year.

(iii) For each wastestream, the waste treatment or disposal methods employed, and an estimate of the treatment efficiency typically achieved by such methods for that wastestream.

(iv) The annual quantity of the toxic chemical entering each environmental medium.

(2) USE OF AVAILABLE DATA.—In order to provide the information required under this section, the owner or operator of a facility may use readily available data (including monitoring data) collected pursuant to other provisions of law, or where such data are not readily available, reasonable esti-

mates of the amounts involved. Nothing in this section requires the monitoring or measurement of the quantities, concentration, or frequency of any toxic chemical released into the environment beyond that monitoring and measurement required under other provisions of law or regulation. In order to assure consistency, the Administrator shall require that data be expressed in common units.

(h) USE OF RELEASE FORM.—The release forms required under this section are intended to provide information to the Federal, State, and local governments and the public, including citizens of communities surrounding covered facilities. The release form shall be available, consistent with section 324(a), to inform persons about releases of toxic chemicals to the environment; to assist governmental agencies, researchers, and other persons in the conduct of research and data gathering; to aid in the development of appropriate regulations, guidelines, and standards; and for other similar purposes.

(i) MODIFICATIONS IN REPORTING FREQUENCY.—

(1) IN GENERAL.—The Administrator may modify the frequency of submitting a report under this section, but the Administrator may not modify the frequency to be any more often than annually. A modification may apply, either nationally or in a specific geographic area, to the following:

(A) All toxic chemical release forms required under this section.

(B) A class of toxic chemicals or a category of facilities.

(C) A specific toxic chemical.

(D) A specific facility.

(2) REQUIREMENTS.—A modification may be made under paragraph (1) only if the Administrator—

(A) makes a finding that the modification is consistent with the provisions of subsection (h), based on—

(i) experience from previously submitted toxic chemical release forms, and

(ii) determinations made under paragraph (3), and

(B) the finding is made by a rulemaking in accordance with section 553 of title 5, United States Code.

(3) DETERMINATIONS.—The Administrator shall make the following determinations with respect to a proposed modification before making a modification under paragraph (1):

(A) The extent to which information relating to the proposed modification provided on the toxic chemical release forms has been used by the Administrator or other agencies of the Federal Government, States, local governments, health professionals, and the public.

(B) The extent to which the information is (i) readily available to potential users from other sources, such as State reporting programs, and (ii) provided to the Administrator under another Federal law or through a State program.

(C) The extent to which the modification would impose additional and unreasonable burdens on facilities subject to the reporting requirements under this section.

(4) 5-YEAR REVIEW.—Any modification made under this subsection shall be reviewed at least once every 5 years. Such review shall examine the modification and ensure that the requirements of paragraphs (2) and (3) still justify continuation of the modification. Any change to a modification reviewed under this paragraph shall be made in accordance with this subsection.

(5) NOTIFICATION TO CONGRESS.—The Administrator shall notify Congress of an intention to initiate a rulemaking for a modification under this subsection. After such notification, the Administrator shall delay initiation of the rulemaking for at least 12 months, but no more than 24 months, after the date of such notification.

(6) JUDICIAL REVIEW.—In any judicial review of a rulemaking which establishes a modification under this subsection, a court may hold unlawful and set aside agency action, findings, and conclusions found to be unsupported by substantial evidence.

(7) APPLICABILITY.—A modification under this subsection may apply to a calendar year or other reporting period beginning no earlier than January 1, 1993.

(8) EFFECTIVE DATE.—Any modification made on or after January 1 and before December 1 of any calendar year shall take effect beginning with the next calendar year. Any modification made on or after December 1 of any calendar year and before January 1 of the next calendar year shall take effect beginning with the calendar year following such next calendar year.

(j) EPA MANAGEMENT OF DATA.—The Administrator shall establish and maintain in a computer data base a national toxic chemical inventory based on data submitted to the Administrator under this section. The Administrator shall make these data accessible by computer telecommunication and other means to any person on a cost reimbursable basis.

(k) REPORT.—Not later than June 30, 1991, the Comptroller General, in consultation with the Administrator and appropriate officials in the States, shall submit to the Congress a report including each of the following:

(1) A description of the steps taken by the Administrator and the States to implement the requirements of this section, including steps taken to make information collected under this section available to and accessible by the public.

(2) A description of the extent to which the information collected under this section has been used by the Environmental Protection Agency, other Federal agencies, the States, and the public, and the purposes for which the information has been used.

(3) An identification and evaluation of options for modifications to the requirements of this section for the purpose of making information collected under this section more useful.

(l) MASS BALANCE STUDY.—

(1) IN GENERAL.—The Administrator shall arrange for a mass balance study to be carried out by the National Academy of Sciences using mass balance information collected by the Administrator under paragraph (3). The Administrator shall submit to Congress a report on such study no later than 5 years after the date of the enactment of this title.

(2) PURPOSES.—The purposes of the study are as follows:

(A) To assess the value of mass balance analysis in determining the accuracy of information on toxic chemical releases.

(B) To assess the value of obtaining mass balance information, or portions thereof, to determine the waste reduction efficiency of different facilities, or categories of facilities, including the effectiveness of toxic chemical regulations promulgated under laws other than this title.

(C) To assess the utility of such information for evaluating toxic chemical management practices at facilities, or categories of facilities, covered by this section.

(D) To determine the implications of mass balance information collection on a national scale similar to the mass balance information collection carried out by the Administrator under paragraph (3), including implications of the use of such collection as part of a national annual quantity toxic chemical release program.

(3) INFORMATION COLLECTION.—(A) The Administrator shall acquire available mass balance information from States which currently conduct (or during the 5 years after the date of enactment of this title initiate) a mass balance-oriented annual quantity toxic chemical release program. If information from such States provides an inadequate representation of industry classes and categories to carry out the purposes of the study, the Administrator also may acquire mass balance information necessary for the study from a representative number of facilities in other States.

(B) Any information acquired under this section shall be available to the public, except that upon a showing satisfactory to the Administrator by any person that the information (or a particular part thereof) to which the Administrator or any officer, employee, or representative has access under this section if made public would divulge information entitled to protection under section 1905 of title 18, United States Code, such information or part shall be considered confidential in accordance with the purposes of that section, except that such information or part may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this section.

(C) The Administrator may promulgate regulations prescribing procedures for collecting mass balance information under this paragraph.

(D) For purposes of collecting mass balance information under subparagraph (A), the Administrator may require the submission of information by a State or facility.

(4) MASS BALANCE DEFINITION.—For purposes of this subsection, the term "mass balance" means an accumulation of the annual quantities of chemicals transported to a facility, produced at a facility, consumed at a facility, used at a facility, accumulated at a facility, released from a facility, and transported from a facility as a waste or as a commercial product or byproduct or component of a commercial product or byproduct.

Subtitle C—General Provisions

SEC. 321. RELATIONSHIP TO OTHER LAW.

(a) IN GENERAL.—Nothing in this title shall—

(1) preempt any State or local law,

(2) except as provided in subsection (b), otherwise affect any State or local law or the authority of any State or local government to adopt or enforce any State or local law, or

(3) affect or modify in any way the obligations or liabilities of any person under other Federal law.

(b) EFFECT ON MSDS REQUIREMENTS.—

(1) Any State or local law enacted after August 1, 1985, which requires the submission of a material safety data sheet from facility owners or operators shall require that the data sheet be identical in content and format to the data sheet required under subsection (a) of section 311. In addition, a State or locality may require the submission of information which is supplemental to the information required on the data sheet (including information on the location and quantity of hazardous chemicals present at the facility), through additional sheets at-

tached to the data sheet or such other means as the State or locality considers appropriate.

(2) If any State or local law—

(A) is enacted after August 1, 1985, and

(B) requires such a facility owner or operator who supplies a hazardous chemical to any other facility owner or operator to furnish a material safety data sheet to such other facility owner or operator,

such requirements shall be identical to the requirements under section 311(a).

SEC. 322. TRADE SECRETS.

(a) AUTHORITY TO WITHHOLD INFORMATION.—

(1) GENERAL AUTHORITY.—(A) With regard to a hazardous chemical, an extremely hazardous substance, or a toxic chemical, any person required under section 303(d)(2), 303(d)(3), 311, 312, or 313 to submit information to any other person may withhold from such submittal the specific chemical identity (including the chemical name and other specific identification), as defined in regulations prescribed by the Administrator under subsection (c), if the person complies with paragraph (2).

(B) Any person withholding the specific chemical identity shall, in the place on the submittal where the chemical identity would normally be included, include the generic class or category of the hazardous chemical, extremely hazardous substance, or toxic chemical (as the case may be).

(2) REQUIREMENTS.—(A) A person is entitled to withhold information under paragraph (1) if such person—

(i) claims that such information is a trade secret, on the basis of the factors enumerated in subsection (b),

(ii) includes in the submittal referred to in paragraph (1) an explanation of the reasons why such information is claimed to be a trade secret, based on the factors enumerated in subsection (b), including a specific description of why such factors apply, and

(iii) submits to the Administrator a copy of such submittal, and the information withheld from such submittal.

(B) In submitting to the Administrator the information required by subparagraph (A)(iii), a person withholding information under this subsection may—

(i) designate, in writing and in such manner as the Administrator may prescribe by regulation, the information which such person believes is entitled to be withheld under paragraph (1), and

(ii) submit such designated information separately from other information submitted under this subsection.

(3) LIMITATION.—The authority under this subsection to withhold information shall not apply to information which the Administrator has determined, in accordance with subsection (c), is not a trade secret.

(b) TRADE SECRET FACTORS.—No person required to provide information under this title may claim that the information is entitled to protection as a trade secret under subsection (a) unless such person shows each of the following:

(1) Such person has not disclosed the information to any other person, other than a member of a local emergency planning committee, an officer or employee of the United States or a State or local government, an employee of such person, or a person who is bound by a confidentiality agreement, and such person has taken reasonable measures to protect the confidentiality of such information and intends to continue to take such measures.

(2) The information is not required to be disclosed, or otherwise made available, to the public under any other Federal or State law.

(3) Disclosure of the information is likely to cause substantial harm to the competitive position of such person.

(4) The chemical identity is not readily discoverable through reverse engineering.

(c) TRADE SECRET REGULATIONS.—As soon as practicable after the date of enactment of this title, the Administrator shall prescribe regulations to implement this section. With respect to subsection (b)(4), such regulations shall be equivalent to comparable provisions in the Occupational Safety and Health Administration Hazard Communication Standard (29 C.F.R. 1910.1200) and any revisions of such standard prescribed by the Secretary of Labor in accordance with the final ruling of the courts of the United States in United Steelworkers of America, AFL-CIO-CLC v. Thorne G. Auchter.

(d) PETITION FOR REVIEW.—

(1) IN GENERAL.—Any person may petition the Administrator for the disclosure of the specific chemical identity of a hazardous chemical, an extremely hazardous substance, or a toxic chemical which is claimed as a trade secret under this section. The Administrator may, in the absence of a petition under this paragraph, initiate a determination, to be carried out in accordance with this subsection, as to whether information withheld constitutes a trade secret.

(2) INITIAL REVIEW.—Within 30 days after the date of receipt of a petition under paragraph (1) (or upon the Administrator's initiative), the Administrator shall review the explanation filed by a trade secret claimant under subsection (a)(2) and determine whether the explanation presents assertions which, if true, are sufficient to support a finding that the specific chemical identity is a trade secret.

(3) FINDING OF SUFFICIENT ASSERTIONS.—

(A) If the Administrator determines pursuant to paragraph (2) that the explanation presents sufficient assertions to support a finding that the specific chemical identity is a trade secret, the Administrator shall notify the trade secret claimant that he has 30 days to supplement the explanation with detailed information to support the assertions.

(B) If the Administrator determines, after receipt of any supplemental supporting detailed information under subparagraph (A), that the assertions in the explanation are true and that the specific chemical identity is a trade secret, the Administrator shall so notify the petitioner and the petitioner may seek judicial review of the determination.

(C) If the Administrator determines, after receipt of any supplemental supporting detailed information under subparagraph (A), that the assertions in the explanation are not true and that the specific chemical identity is not a trade secret, the Administrator shall notify the trade secret claimant that the Administrator intends to release the specific chemical identity. The trade secret claimant has 30 days in which he may appeal the Administrator's determination under this subparagraph to the Administrator. If the Administrator does not reverse his determination under this subparagraph in such an appeal by the trade secret claimant, the trade secret claimaint may seek judicial review of the determination.

(4) FINDING OF INSUFFICIENT ASSERTIONS.—

(A) If the Administrator determines pursuant to paragraph (2) that the explanation presents insufficient assertions to support a finding that the specific chemical identity is a trade secret, the Administrator shall notify the trade secret claimant that he has 30 days to appeal the determination to the Administrator, or, upon a showing of good cause, amend the original explanation by providing supplementary assertions to support the trade secret claim.

(B) If the Administrator does not reverse his determination under subparagraph (A) after an appeal or an examination of any supplementary assertions under subparagraph (A), the Administrator shall so notify the trade secret claimant and the trade secret claimant may seek judicial review of the determination.

(C) If the Administrator reverses his determination under subparagraph (A) after an appeal or an examination of any supplementary assertions under subparagraph (A), the procedures under paragraph (3) of this subsection apply.

(e) EXCEPTION FOR INFORMATION PROVIDED TO HEALTH PROFESSIONALS.—Nothing in this section, or regulations adopted pursuant to this section, shall authorize any person to withhold information which is required to be provided to a health professional, a doctor, or a nurse in accordance with section 323.

(f) PROVIDING INFORMATION TO THE ADMINISTRATOR; AVAILABILITY TO PUBLIC.—Any information submitted to the Administrator under subsection (a)(2) or subsection (d)(3) (except a specific chemical identity) shall be available to the public, except that upon a showing satisfactory to the Administrator by any person that the information (or a particular part thereof) to which the Administrator has access under this section if made public would divulge information entitled to protection under section 1905 of title 18, United States Code, such information or part shall be considered confidential in accordance with the purposes of that section, except that such information or part may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this title.

(g) INFORMATION PROVIDED TO STATE.—Upon request by a State, acting through the Governor of the State, the Administrator shall provide to the State any information obtained under subsection (a)(2) and subsection (d)(3).

(h) INFORMATION ON ADVERSE EFFECTS.—(1) In any case in which the identity of a hazardous chemical or an extremely hazardous substance is claimed as a trade secret, the Governor or State emergency response commission established under section 301 shall identify the adverse health effects associated with the hazardous chemical or extremely hazardous substance and shall assure that such information is provided to any person requesting information about such hazardous chemical or extremely hazardous substance.

(2) In any case in which the identity of a toxic chemical is claimed as a trade secret, the Administrator shall identify the adverse health and environmental effects associated with the toxic chemical and shall assure that such information is included in the computer database required by section 313(j) and is provided to any person requesting information about such toxic chemical.

(i) INFORMATION PROVIDED TO CONGRESS.—Notwithstanding any limitation contained in this section or any other provision of law, all information reported to or otherwise obtained by the Administrator (or any representative of the Administrator) under this title shall be made available to a duly authorized committee of the Congress upon written request by such a committee.

SEC. 323. PROVISION OF INFORMATION TO HEALTH PROFESSIONALS, DOCTORS, AND NURSES.

(a) DIAGNOSIS OR TREATMENT BY HEALTH PROFESSIONAL.—An owner or operator of a facility which is subject to the requirements of section 311, 312, or 313 shall provide the specific chemical identity, if known, of a hazardous chemical, extremely hazardous substance, or a toxic chemical to any health professional who requests such information in writing if the health professional provides a written statement of need under this subsection and a written confidentiality agreement under subsection (d). The written statement of need shall be a statement that the health professional has a reasonable basis to suspect that—

(1) the information is needed for purposes of diagnosis or treatment of an individual,

(2) the individual or individuals being diagnosed or treated have been exposed to the chemical concerned, and

(3) knowledge of the specific chemical identity of such chemical will assist in diagnosis or treatment.

Following such a written request, the owner or operator to whom such request is made shall promptly provide the requested information to the health professional. The authority to withhold the specific chemical identity of a chemical under section 322 when such information is a trade secret shall not apply to information required to be provided under this subsection, subject to the provisions of subsection (d).

(b) MEDICAL EMERGENCY.—An owner or operator of a facility which is subject to the requirements of section 311, 312, or 313 shall provide a copy of a material safety data sheet, an inventory form, or a toxic chemical release form, including the specific chemical identity, if known, of a hazardous chemical, extremely hazardous substance, or a toxic chemical, to any treating physician or nurse who requests such information if such physician or nurse determines that—

(1) a medical emergency exists,

(2) the specific chemical identity of the chemical concerned is necessary for or will assist in emergency or first-aid diagnosis or treatment, and

(3) the individual or individuals being diagnosed or treated have been exposed to the chemical concerned.

Immediately following such a request, the owner or operator to whom such request is made shall provide the requested information to the physician or nurse. The authority to withhold the specific chemical identity of a chemical from a material safety data sheet, an inventory form, or a toxic chemical release form under section 322 when such information is a trade secret shall not apply to information required to be provided to a treating physician or nurse under this subsection. No written confidentiality agreement or statement of need shall be required as a precondition of such disclosure, but the owner or operator disclosing such information may require a written confidentiality agreement in accordance with subsection (d) and a statement setting forth the items listed in paragraphs (1) through (3) as soon as circumstances permit.

(c) PREVENTIVE MEASURES BY LOCAL HEALTH PROFESSIONALS.—

(1) PROVISION OF INFORMATION.—An owner or operator of a facility subject to the requirements of section 311, 312, or 313 shall provide the specific chemical identity, if known, of a hazardous chemical, an extremely hazardous substance, or a toxic chemical to any health professional (such as a physician, toxicologist, or epidemiologist)—

(A) who is a local government employee or a person under contract with the local government, and

(B) who requests such information in writing and provides a written statement of need under paragraph (2) and a written confidentiality agreement under subsection (d).

Following such a written request, the owner or operator to whom such request is made shall promptly provide the requested information to the local health professional. The authority to withhold the specific chemical identity of a chemical under section 322 when such information is a trade secret shall not apply to information required to be provided under this subsection, subject to the provisions of subsection (d).

(2) WRITTEN STATEMENT OF NEED.—The written statement of need shall be a statement that describes with reasonable detail one or more of the following health needs for the information:

(A) To assess exposure of persons living in a local community to the hazards of the chemical concerned.

(B) To conduct or assess sampling to determine exposure levels of various population groups.

(C) To conduct periodic medical surveillance of exposed population groups.

(D) To provide medical treatment to exposed individuals or population groups.

(E) To conduct studies to determine the health effects of exposure.

(F) To conduct studies to aid in the identification of a chemical that may reasonably be anticipated to cause an observed health effect.

(d) CONFIDENTIALITY AGREEMENT.—Any person obtaining information under subsection (a) or (c) shall, in accordance with such subsection (a) or (c), be required to agree in a written confidentiality agreement that he will not use the information for any purpose other than the health needs asserted in the statement of need, except as may otherwise be authorized by the terms of the agreement or by the person providing such information. Nothing in this subsection shall preclude the parties to a confidentiality agreement from pursuing any remedies to the extent permitted by law.

(e) REGULATIONS.—As soon as practicable after the date of the enactment of this title, the Administrator shall promulgate regulations describing criteria and parameters for the statement of need under subsections (a) and (c) and the confidentiality agreement under subsection (d).

SEC. 324. PUBLIC AVAILABILITY OF PLANS, DATA SHEETS, FORMS, AND FOLLOWUP NOTICES.

(a) AVAILABILITY TO PUBLIC.—Each emergency response plan, material safety data sheet, list described in section 311(a)(2), inventory form, toxic chemical release form, and followup emergency notice shall be made available to the general public, consistent with section 322, during normal working hours at the location or locations designated by the Administrator, Governor, State emergency response commission, or local emergency planning committee, as appropriate. Upon request by an owner or operator of a facility subject to the requirements of section 312, the State emergency response commission and the appropriate local emergency planning committee shall withhold from disclosure under this section the location of any specific chemical required by section 312(d)(2) to be contained in an inventory form as tier II information.

(b) NOTICE OF PUBLIC AVAILABILITY.—Each local emergency planning committee shall annually publish a notice in local newspapers that the emergency response plan, material safety data sheets and inventory forms have been submitted under this section. The notice shall state that followup emergency notices may subsequently be issued. Such notice shall announce that members of the public who wish to review any such plan, sheet, form, or followup notice may do so at the location designated under subsection (a).

SEC. 325. ENFORCEMENT.

(a) CIVIL PENALTIES FOR EMERGENCY PLANNING.—The Administrator may order a facility owner or operator (except an owner or operator of a facility designated under section 302(b)(2)) to comply with section 302(c) and section 303(d). The United States district court for the district in which the facility is located shall have jurisdiction to enforce the order, and any person who violates or fails to obey such an order shall be liable to the United States for a civil penalty of not more than $25,000 for each day in which such violation occurs or such failure to comply continues.

(b) CIVIL, ADMINISTRATIVE, AND CRIMINAL PENALTIES FOR EMERGENCY NOTIFICATION.—

(1) CLASS I ADMINISTRATIVE PENALTY.—(A) A civil penalty of not more than $25,000 per violation may be assessed by the Administrator in the case of a violation of the requirements of section 304.

(B) No civil penalty may be assessed under this subsection unless the person accused of the violation is given notice and opportunity for a hearing with respect to the violation.

(C) In determining the amount of any penalty assessed pursuant to this subsection, the Administrator shall take into account the nature, circumstances, extent and gravity of the violation or violations and, with respect to the violator, ability to pay, any prior history of such violations, the degree of culpability, economic benefit or savings (if any) resulting from the violation, and such other matters as justice may require.

(2) CLASS II ADMINISTRATIVE PENALTY.—A civil penalty of not more than $25,000 per day for each day during which the violation continues may be assessed by the Administrator in the case of a violation of the requirements of section 304. In the case of a second or subsequent violation the amount of such penalty may be not more than $75,000 for each day during which the violation continues. Any civil penalty under this subsection shall be assessed and collected in the same manner, and subject to the same provisions, as in the case of civil penalties assessed and collected under section 16 of the Toxic Substances Control Act. In any proceeding for the assessment of a civil penalty under this subsection the Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents and may promulgate rules for discovery procedures.

(3) JUDICIAL ASSESSMENT.—The Administrator may bring an action in the United States district court for the appropriate district to assess and collect a penalty of not more than $25,000 per day for each day during which the violation continues in the case of a violation of the requirements of section 304. In the case of a second or subsequent violation, the amount of such penalty may be not more than $75,000 for each day during which the violation continues.

(4) CRIMINAL PENALTIES.—Any person who knowingly and willfully fails to provide notice in accordance with section 304 shall, upon conviction, be fined not more than $25,000 or imprisoned for not more than two years, or both (or in the case of a second or subsequent conviction, shall be fined not more than $50,000 or imprisoned for not more than five years, or both).

(c) CIVIL AND ADMINISTRATIVE PENALTIES FOR REPORTING REQUIREMENTS.—(1) Any person (other than a governmental entity) who violates any requirement of section 312 or 313 shall be liable to the United States for a civil penalty in an amount not to exceed $25,000 for each such violation.

(2) Any person (other than a governmental entity) who violates any requirement of section 311 or 323(b), and any person who fails to furnish to the Administrator information required under section 322(a)(2) or requested by the Administrator under section 322(d) shall be liable to the United States for a civil penalty in an amount not to exceed $10,000 for each such violation.

(3) Each day a violation described in paragraph (1) or (2) continues shall, for purposes of this subsection, constitute a separate violation.

(4) The Administrator may assess any civil penalty for which a person is liable under this subsection by administrative order or may bring an action to assess and collect the penalty in the United States district court for the district in which the person from whom the penalty is sought resides or in which such person's principal place of business is located.

(d) CIVIL, ADMINISTRATIVE, AND CRIMINAL PENALTIES WITH RESPECT TO TRADE SECRETS.—

(1) CIVIL AND ADMINISTRATIVE PENALTY FOR FRIVOLOUS CLAIMS.—If the Administrator determines—

(A)(i) under section 322(d)(4) that an explanation submitted by a trade secret claimant presents insufficient assertions to support a finding that a specific chemical identity is a trade secret, or (ii) after receiving supplemental supporting detailed information under section 322(d)(3)(A), that the specific chemical identity is not a trade secret; and

(B) that the trade secret claim is frivolous, the trade secret claimant is liable for a penalty of $25,000 per claim. The Administrator may assess the penalty by administrative order or may bring an action in the appropriate district court of the United States to assess and collect the penalty.

(2) CRIMINAL PENALTY FOR DISCLOSURE OF TRADE SECRET INFORMATION.—Any person who knowingly and willfully divulges or discloses any information entitled to protection under section 322 shall, upon conviction, be subject to a fine of not more than $20,000 or to imprisonment not to exceed one year, or both.

(e) SPECIAL ENFORCEMENT PROVISIONS FOR SECTION 323.—Whenever any facility owner or operator required to provide information under section 323 to a health professional who has requested such information fails or refuses to provide such information in accordance with such section, such health professional may bring an action in the appropriate United States district court to require such facility owner or operator to provide the information. Such court shall have jurisdiction to issue such orders and take such other action as may be necessary to enforce the requirements of section 323.

(f) PROCEDURES FOR ADMINISTRATIVE PENALTIES.—

(1) Any person against whom a civil penalty is assessed under this section may obtain review thereof in the appropriate district court of the United States by filing a notice of appeal in such court within 30 days after the date of such order and by simultaneously sending a copy of such notice by certified mail to the Administrator. The Administrator shall promptly file in such court a certified copy of the record upon which such violation was found or such penalty imposed. If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the United States, the Administrator may request the Attorney General of the United States to institute a civil action in an appropriate district court of the United States to collect the penalty, and such court shall have jurisdiction to hear and decide any such action. In hearing such action, the court shall have authority to review the violation and the assessment of the civil penalty on the record.

(2) The Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, or documents in connection with hearings under this section. In case of contumacy or refusal to obey a subpoena issued pursuant to this paragraph and served upon any person, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the administrative law judge or to appear and produce documents before the administrative law judge, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

SEC. 326. CIVIL ACTIONS.

(a) AUTHORITY TO BRING CIVIL ACTIONS.—

(1) CITIZEN SUITS.—Except as provided in subsection (e), any person may commence a civil action on his own behalf against the following:

(A) An owner or operator of a facility for failure to do any of the following:

(i) Submit a followup emergency notice under section 304(c).

(ii) Submit a material safety data sheet or a list under section 311(a).

(iii) Complete and submit an inventory form under section 312(a) containing tier I information as described in section 312(d)(1) (unless such requirement does not apply because of the second sentence of section 312(a)(2)).

(iv) Complete and submit a toxic chemical release form under section 313(a).

(B) The Administrator for failure to do any of the following:

(i) Publish inventory forms under section 312(g).

(ii) Respond to a petition to add or delete a chemical under section 313(e)(1) within 180 days after receipt of the petition.

(iii) Publish a toxic chemical release form under 313(g).

(iv) Establish a computer database in accordance with section 313(j).

(v) Promulgate trade secret regulations under section 322(c).

(vi) Render a decision in response to a petition under section 322(d) within 9 months after receipt of the petition.

(C) The Administrator, a State Governor, or a State emergency response commission, for failure to provide a mechanism for public availability of information in accordance with section 324(a).

(D) A State Governor or a State emergency response commission for failure to respond to a request for tier II information under section 312(e)(3) within 120 days after the date of receipt of the request.

(2) STATE OR LOCAL SUITS.—

(A) Any State or local government may commence a civil action against an owner or operator of a facility for failure to do any of the following:

(i) Provide notification to the emergency response commission in the State under section 302(c).

(ii) Submit a material safety data sheet or a list under section 311(a).

(iii) Make available information requested under section 311(c).

(iv) Complete and submit an inventory form under section 312(a) containing tier I information (unless such requirement does not apply because of the second sentence of section 312(a)(2)).

(B) Any State emergency response commission or local emergency planning committee may commence a civil action against an owner or operator of a facility for failure to provide information under section 303(d) or for failure to submit tier II information under section 312(e)(1).

(C) Any State may commence a civil action against the Administrator for failure to provide information to the State under section 322(g).

(b) VENUE.—

(1) Any action under subsection (a) against an owner or operator of a facility shall be brought in the district court for the district in which the alleged violation occurred.

(2) Any action under subsection (a) against the Administrator may be brought in the United States District Court for the District of Columbia.

(c) RELIEF.—The district court shall have jurisdiction in actions brought under subsection (a) against an owner or operator of a facility to enforce the requirement concerned and to impose any civil penalty provided for violation of that requirement. The district court shall have jurisdiction in actions brought under subsection (a) against the Administrator to order the Administrator to perform the act or duty concerned.

(d) NOTICE.—

(1) No action may be commenced under subsection (a)(1)(A) prior to 60 days after the plaintiff has given notice of the alleged violation to the Administrator, the State in which the alleged violation occurs, and the alleged violator. Notice under this paragraph shall be given in such manner as the Administrator shall prescribe by regulation.

(2) No action may be commenced under subsection (a)(1)(B) or (a)(1)(C) prior to 60 days after the date on which the plaintiff gives notice to the Administrator, State Governor, or State emergency response commission (as the case may be) that the plaintiff will commence the action. Notice under this paragraph shall be given in such manner as the Administrator shall prescribe by regulation.

(e) LIMITATION.—No action may be commenced under subsection (a) against an owner or operator of a facility if the Administrator has commenced and is diligently pursuing an administrative order or civil action to enforce the requirement concerned or to impose a civil penalty under this Act with respect to the violation of the requirement.

(f) COSTS.—The court, in issuing any final order in any action brought pursuant to this section, may award costs of litigation (in-

cluding reasonable attorney and expert witness fees) to the prevailing or the substantially prevailing party whenever the court determines such an award is appropriate. The court may, if a temporary restraining order or preliminary injunction is sought, require the filing of a bond or equivalent security in accordance with the Federal Rules of Civil Procedure.

(g) OTHER RIGHTS.—Nothing in this section shall restrict or expand any right which any person (or class of persons) may have under any Federal or State statute or common law to seek enforcement of any requirement or to seek any other relief (including relief against the Administrator or a State agency).

(h) INTERVENTION.—

(1) BY THE UNITED STATES.—In any action under this section the United States or the State, or both, if not a party, may intervene as a matter of right.

(2) BY PERSONS.—In any action under this section, any person may intervene as a matter of right when such person has a direct interest which is or may be adversely affected by the action and the disposition of the action may, as a practical matter, impair or impede the person's ability to protect that interest unless the Administrator or the State shows that the person's interest is adequately represented by existing parties in the action.

SEC. 327. EXEMPTION.

Except as provided in section 304, this title does not apply to the transportation, including the storage incident to such transportation, of any substance or chemical subject to the requirements of this title, including the transportation and distribution of natural gas.

SEC. 328. REGULATIONS.

The Administrator may prescribe such regulations as may be necessary to carry out this title.

SEC. 329. DEFINITIONS.

For purposes of this title—

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) ENVIRONMENT.—The term "environment" includes water, air, and land and the interrelationship which exists among and between water, air, and land and all living things.

(3) EXTREMELY HAZARDOUS SUBSTANCE.—The term "extremely hazardous substance" means a substance on the list described in section 302(a)(2).

(4) FACILITY.—The term "facility" means all buildings, equipment, structures, and other stationary items which are located on a single site or on contiguous or adjacent sites and which are owned or operated by the same person (or by any person which controls, is controlled by, or under common control with, such person). For purposes of section 304, the term includes motor vehicles, rolling stock, and aircraft.

(5) HAZARDOUS CHEMICAL.—The term "hazardous chemical" has the meaning given such term by section 311(e).

(6) MATERIAL SAFETY DATA SHEET.—The term "material safety data sheet" means the sheet required to be developed under section 1910.1200(g) of title 29 of the Code of Federal Regulations, as that section may be amended from time to time.

(7) PERSON.—The term "person" means any individual, trust, firm, joint stock company, corporation (including a government corporation), partnership, association, State, municipality, commission, political subdivision of a State, or interstate body.

(8) RELEASE.—The term "release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment (including the abandonment or discarding of barrels, containers, and other closed receptacles) of any hazardous chemical, extremely hazardous substance, or toxic chemical.

(9) STATE.—The term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Northern Mariana Islands, and any other territory or possession over which the United States has jurisdiction.

(10) TOXIC CHEMICAL.—The term "toxic chemical" means a substance on the list described in section 313(c).

SEC. 330. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated for fiscal years beginning after September 30, 1986, such sums as may be necessary to carry out this title.

TITLE IV—RADON GAS AND INDOOR AIR QUALITY RESEARCH

SEC. 401. SHORT TITLE.

This title may be cited as the "Radon Gas and Indoor Air Quality Research Act of 1986".

SEC. 402. FINDINGS.

The Congress finds that:

(1) High levels of radon gas pose a serious health threat in structures in certain areas of the country.

(2) Various scientific studies have suggested that exposure to radon, including exposure to naturally occurring radon and indoor air pollutants, poses a public health risk.

(3) Existing Federal radon and indoor air pollutant research programs are fragmented and underfunded.

(4) An adequate information base concerning exposure to radon and indoor air pollutants should be developed by the appropriate Federal agencies.

SEC. 403. RADON GAS AND INDOOR AIR QUALITY RESEARCH PROGRAM.

(a) DESIGN OF PROGRAM.—The Administrator of the Environmental Protection Agency shall establish a research program with respect to radon gas and indoor air quality. Such program shall be designed to—

(1) gather data and information on all aspects of indoor air quality in order to contribute to the understanding of health problems associated with the existence of air pollutants in the indoor environment;

(2) coordinate Federal, State, local, and private research and development efforts relating to the improvement of indoor air quality; and

(3) assess appropriate Federal Government actions to mitigate the environmental and health risks associated with indoor air quality problems.

(b) PROGRAM REQUIREMENTS.—The research program required under this section shall include—

(1) research and development concerning the identification, characterization, and monitoring of the sources and levels of indoor air pollution, including radon, which includes research and development relating to—

(A) the measurement of various pollutant concentrations and their strengths and sources,

(B) high-risk building types, and

(C) instruments for indoor air quality data collection;

(2) research relating to the effects of indoor air pollution and radon on human health;

(3) research and development relating to control technologies or other mitigation measures to prevent or abate indoor air pollution (including the development, evaluation, and testing of individual and generic control devices and systems);

(4) demonstration of methods for reducing or eliminating indoor air pollution and radon, including sealing, venting, and other methods that the Administrator determines may be effective;

(5) research, to be carried out in conjunction with the Secretary of Housing and Urban Development, for the purpose of developing—

(A) methods for assessing the potential for radon contamination of new construction, including (but not limited to) consideration of the moisture content of soil, porosity of soil, and radon content of soil; and

(B) design measures to avoid indoor air pollution; and

(6) the dissemination of information to assure the public availability of the findings of the activities under this section.

(c) ADVISORY COMMITTEES.—The Administrator shall establish a committee comprised of individuals representing Federal agencies concerned with various aspects of indoor air quality and an advisory group comprised of individuals representing the States, the scientific community, industry, and public interest organizations to assist him in carrying out the research program for radon gas and indoor air quality.

(d) IMPLEMENTATION PLAN.—Not later than 90 days after the enactment of this Act, the Administrator shall submit to the Congress a plan for implementation of the research program under this section. Such plan shall also be submitted to the EPA Science Advisory Board, which shall, within a reasonable period of time, submit its comments on such plan to Congress.

(e) REPORT.—Not later than 2 years after the enactment of this Act, the Administrator shall submit to Congress a report respecting his activities under this section and making such recommendations as appropriate.

SEC. 404. CONSTRUCTION OF TITLE.

Nothing in this title shall be construed to authorize the Administrator to carry out any regulatory program or any activity other than research, development, and related reporting, information dissemination, and coordination activities specified in this title. Nothing in this title shall be construed to limit the authority of the Administrator or of any other agency or instrumentality of the United States under any other authority of law.

SEC. 405. AUTHORIZATIONS.

There are authorized to be appropriated to carry out the activities under this title and under section 118(k) of the Superfund Amendments and Reauthorization Act of 1986 (relating to radon gas assessment and demonstration program) not to exceed $5,000,000 for each of the fiscal years 1987, 1988, and 1989. Of such sums appropriated in fiscal years 1987 and 1988, two-fifths shall be reserved for the implementation of section 118(k)(2).

SUMMARY OF THE DOMENICI/CHILES AMENDMENT TO S. 2706 THE SIXTH OMNIBUS RECONCILIATION ACT OF 1986, SEPTEMBER 19,1986

The FY 1987 Budget Resolution instructed nine Committees of the Congress to

change programs within their jurisdiction to reduce spending or increase revenues in FY 1987-1989. The Domenici-Chiles amendment expands upon these savings to meet the amount of savings which would be required under the August CBO/OMB deficit estimates (taking into account the probable passage of legislation which would increase these estimates to avoid the need for a sequester in FY 1987.

The Joint COB/OMB report estimated the FY 1987 deficit at $163.4 billion. The effect of current appropriations bills and other likely legislation is likely to raise the CBO/OMB estimate due in October to $168.5 billion. This would require the Congress to enact $14.5 billion in savings before October 1st to avoid a sequester. This amendment expands the provisions included in a original Senate-reported reconciliation and adds new provisions, coupled with the assumption of other savings legislation, savings will reach about $13.3 billion. The following is a summary of the amendment:

REVENUES

Accelerate State and local deposits

State and local governments currently deposit social security contributions into the trust fund twice each month and make a separate report to the Social Security Administration. The amendment would require state and local governments to make deposits in the same way and on the same schedule as private employers. This amendment would not affect beneficiaries in any way.

Oil pollution compensation

The amendment assumes the revenue provision included in the House-reported reconciliation bill with respect to oil spill liability legislation. This legislation assesses a 1.3 cent a barrel tax on oil and deposits these funds in an Oil Spill Liability Trust Fund.

Accelerate collection of excise taxes on all distilled spirits and cigarettes

The amendment reduces the time period in which excise tax payments on distilled spirits and tobacco products are payable to the federal government. Instead of coming due 15 to 30 days after the close of the semimonthly period in which the excise liability is incurred, the period is shortened to 14 days.

Appropriations for IRS compliance at House-passed levels

The amendment directs the Appropriations Conferees to fund the FY 1987 IRS budget at the budget authority levels contained in the House-passed Treasury-Postal Appropriations bill. At the appropriate time, Section 302(a) and (b) allocations under the Budget Act will be adjusted to avoid a point of order as a result of the increased funding. OMB and CBO are expected to attribute $2.4 billion in increased revenues for FY 1987 at the time this appropriation is enacted.

Cigarette tax

The Senate-reported reconciliation bill contains an 8 cent increase in the excise tax on cigarettes. This amendment strikes the cigarette tax provision.

Increased compliance through penalties

The amendment increases penalties for substantial under-statement of taxes and for negligent underpayment to 25 percent of the total taxes owed. In addition, this amendment would double the penalty for not depositing withholding tax collections in a timely fashion.

OUTLAYS

REA loan prepayments

The amendment increases the amount of Rural Electrification Administration loan prepayments permitted under the current Treasury regulations by $500 million.

Rural development insurance fund loan asset sales

The amendment expands upon the provision in the Senate-reported reconciliation bill directing the Secretary of Agriculture to sell notes or other obligations in the Rural Development Insurance Fund (RDIF). The original Senate-reported provision required the sale to raise $555 million in net proceeds. The amendment increases this amount to $1.0 billion.

Eximbank loan asset sales

This amendment expands the net proceeds from the sale of Eximbank loans from $500 million in the original Senate-reported version to $1.5 billion.

Petroleum oil overcharges

The amendment retains all provisions in the Senate Energy Title regarding overcharge fund and conservation programs, but requires the recoupment of petroleum product overcharge monies collected by the Department of Energy. This provision does not affect the Stripper Well Agreement.

Federal energy regulatory administration fees

The amendment retains the provisions in the Senate-reported reconciliation bill but requires that both direct and indirect costs of the NRC be recovered in fees. This slightly increases the fee collections contained in the Senate-reported reconciliation.

FDIC fee on foreign deposits

Under current law, banks pay a premium for deposit insurance based on their domestic deposits only. The amendment expands the assessment base of the Federal Deposit Insurance Corporation by including deposits at foreign branches of U.S. banks.

Sale of Conrail

The amendment directs the Secretary of Transportation to sell CONRAIL in FY 1987. The sale of CONRAIL was assumed in the FY 1987 budget resolution adopted by the Congress but was not reconciled.

Medicare

The Finance Committee fully met its original reconciliation instruction. However, in the interim, OMB has implemented regulations that save more than would the Finance Committee's proposed legislation. This amendment would increase savings in the reported reconciliation to provide for prompt payment of most hospital and physician bills in an average of 27 days, in FY 1987 and 24 days by FY 1990, compared to the 24 days in the original package.

Small Business Administration loan sales (Section 503)

This amendment strikes the recourse provisions in Title IX of the Senate-reported reconciliation package requiring the sale of SBA's Section 503 loan assets.

Advance final general revenue sharing payments

The amendment would direct the U.S. Treasury to make the payments due under General Revenue Sharing for the last quarter of FY 1986 by September 30th, 1986, Ordinarily this payment would be made in the first few days of October 1986.

OTHER NEW PROVISIONS CONTAINED IN THE AMENDMENT

Social Security COLA's

The amendment includes a provision eliminating the 3 percent COLA trigger for Social Security recipients. Under this amendment, Social Security beneficiaries will be paid a COLA at whatever the actual inflation rate is.

Byrd language on extraneous and germane amendments

The Byrd language establishing strict standards for extraneous and germane amendments that was adopted in P.L. 99-270, the Consolidated Omnibus Reconciliation Act of 1985, enacted earlier this year is made permanent.

President's budget

This amendment provides that the date of the submission of the President's budget be changed from the first Monday after January 3 to the first Tuesday in February.

Advanced deficiency payments

This amendment requires the Secretary of Agriculture to make advanced deficiency payments for the 1987 crops of wheat, feed grains, upland cotton, and rice. These payments are not to be less than 40 percent for wheat and feed grains, or 30 percent for rice and upland cotton.

Mr. DOLE. Mr. President, I want to indicate that I hope that we can resolve the Superfund issue.

My understanding is Senators PACKWOOD and BENTSEN did meet yesterday and there will be a meeting sometime next week to figure out how to finance it. I think that is the big unresolved question.

Mr. STAFFORD. That is the only question.

Mr. DOLE. But I certainly share the views expressed by the distinguished Senator from Vermont.

Mr. ROTH. Mr. President, I am extremely pleased to cosponsor this Superfund legislation today. We are considering legislation that was agreed to by the conferees on the programmatic portion of the Superfund Conference after many months of tough and enormously complex negotiations. These negotiations were led by my distinguished colleague and very good friend from Vermont, Senator STAFFORD. It was because of his outstanding leadership on many of the controversial issues that the Superfund conferees were able to complete this important piece of legislation.

This bill would authorize $8.5 billion in Superfund spending during the next 5 years. This represents a fivefold increase from the $1.6 billion authorized for the program's initial 5 years. In addition, the bill authorizes another $500 million for the New Underground Petroleum Tank Clean-Up Program.

This bill does not contain the tax title for the Superfund Program, and was introduced because of the delay in coming to an agreement on the funding components of Superfund. Personally I hope that a funding agreement can be arrived at shortly, and I will do

all I can to assist in this objective. We must not allow the hard work of our colleagues on the programmatic portion of this legislation to go for naught.

Mr. President, the Congress has spent more than 2 years working on this legislation, and it would be extremely unfortunate if we did not act on it. I wholeheartedly support what has been done thus far. The legislation is a compromise of several hundred issues that separated the House and Senate passed versions, and it includes stiff new requirements that I hope will lead to a better program. It is intended to ensure speedier, more thorough cleanup of the Nation's hazardous waste sites. It provides increased health protection for people who live near sites and increased opportunities for them to take part in cleanup decisions.

My only concern however is that we have a stable long-term funding solution to clean up our hazardous waste sites. We must not allow the national hazardous waste cleanup efforts to be delayed.

As a conferee on the tax portion of the conference I shall do all that I can to help bring about a timely agreement on a financing mechanism. As a staunch supporter of the Superfund Program, I feel that we must continue our efforts to establish and develop an effective and aggressive program to clean up our hazardous waste dumps. These efforts must go down the drain.

SUPERFUND

Mr. LAUTENBERG. Mr. President, I am pleased to join Senator STAFFORD, and other members of the Environment and Public Works Committee, in introducing this bill today.

In introducing this legislation, it is important to understand how we have gotten where we are on Superfund. Due to administration opposition in 1984, attempts by Congress to reauthorize Superfund died with the conclusion of the 98th Congress. Continued administration resistance to an expanded and strengthened Superfund was evident in the 99th Congress. The Environment and Public Works Committee, on which I serve, began the new Congress in 1985 by scheduling Superfund hearings in February, despite EPA requests that such hearings be canceled.

Mr. President, committed to acting on a bill early in the session, to avoid disruption in the program, the Environment and Public Works Committee acted swiftly. Under the leadership of our chairman, Senator STAFFORD, and ranking minority member, Senator BENTSEN, we completed action on a Superfund bill on March 7, 1985. The bill was then referred to the Senate Finance Committee, where, due again to administration concerns, final consideration was delayed until May 23, 1985. Finally, the Senate Judiciary Committee requested review of the bill, and completed its consideration in June.

Mr. President, despite this action by the three committees, the Superfund bill was not scheduled for consideration by the Senate until September 17. The Senate passed S. 51 on September 24, 1985, by a vote of 86–13. This was 1 week before taxing authority was to expire for raising funds for the program. However, Mr. President, the House of Representatives did not approve a Superfund bill until December 10, 1985. The Congress recessed for the year without sending a final bill to the White House.

Mr. President, when we returned in 1986, conferees were appointed by the House, and what was to be one of the most contentious, hard fought conferences between the House and Senate in recent times, began. As a member of that conference, I was determined to ensure that we produced a bill that truly addressed the threat of toxic wastes in my State and throughout the Nation.

That's why I fought during the Superfund Conference for the initiatives I had succeeded in having included in the Senate bill. And we were successful. In July the Conference agreed to the programmatic provisions of the bill. They would significantly advance environmental protection.

The conference report contains a strong Federal right-to-know program, which I sponsored, which is modeled on New Jersey's program. The right to know provisions are designed to give our citizens and emergency response personnel the information they need in the event of a chemical release, and to prevent such releases from occurring. I also successfully pursued a strong radon program to address this serious health risk.

Other provisions I sponsored are also in the conference report, and are important to New Jersey. The provisions would:

Overturn the Supreme Court's Exxon versus Hunt decision, which would preempt State taxing authority for State spill funds, such as New Jersey's.

Uphold the Boonton decision allowing municipalities to sue for cost recovery under the same Superfund provisions available to States, and to serve as trustees for natural resource damages.

Require the replacement of household, not just drinking water, at sites with water contamination.

Require Federal facilities to submit annual reports to Congress on the hazards and cleanup progress at their sites.

Allow States to receive Superfund funding for 10 years for operation and maintenance costs associated with cleaning up surface and groundwater contaminated at Superfund sites. New Jersey is dotted with such sites, especially in the South, which is dependent on groundwater for drinking water supplies.

Provide for State credits for work done at Superfund sites.

Clarify that States may transfer funds to EPA and the Army Corps of Engineers on an incremental basis for cleanups, and that States be credited with interest earned prior to actual application of the funds as the work progresses.

Provide health programs, which include health assessments at all existing NPL sites by 1988.

To ensure that we do not lose these and other important provisions in the bill, I have joined in supporting this bill today. This legislation consists of the legislative language agreed to by the programmatic conferees in the conference report to accompany H.R. 2005. It is my understanding that the report language to accompany this bill will consist of that in the joint explanatory statement of the committee of the conference to accompany the conference report on H.R. 2005.

In introducing this legislation today, we are responding to the pressing need to save the programmatic provisions of the Superfund bill, and get them to the President for his signature, should the Superfund tax conferees not reach agreement. Because of their work on tax reform, the tax conferees have not been able to complete the finance provisions of the Superfund bill. In order to ensure that we do not sacrifice all the work of the nontax conferees, we are introducing this measure.

Mr. President, I want to emphasize that in cosponsoring this bill, I am in no way deterred from my commitment and determination to see a complete Superfund bill, including taxing provisions, approved by the Congress, and signed by the President. We need equitable Superfund Tax provisions to provide the full $8.5 billion authorized in H.R. 2005 for the Superfund program.

Before we adjourn this session of Congress, we must reauthorize Superfund. We cannot afford to lose the advances incorporated in the reauthorization legislation. In addition to the initiatives I have already mentioned, this bill includes tough, new cleanup standards; a leaking underground storage tank program; and research and development provisions, which include grants for establishing university hazardous substance research centers. These R&D provisions can provide funds for renovation of existing building, such as those at EPA's Edison, New Jersey facility, if such facilities are used for joint research by EPA and the consortium of universities operating the National Science Foundation Industry/University Cooperative Center for Research in Hazardous and

Toxic Substances. This Consortium is headquarted at the New Jersey Institute of Technology. We cannot afford to lose these and many other significant advances in environmental protection, agreed to by the conferees.

To ensure that these provisions become law, we must get a bill, consisting of the nontax provisions we have agreed to in conference, to the President, before we adjourn. If we act quickly, should the President turn his back on the environment and veto the bill, we will be able to override that veto.

That's what this legislation is all about. Making sure that we do not forsake the important gains of the Superfund conferees and of this Congress. If the tax conferees do not complete the finance provisions—and I sincerely hope that they do—we are prepared to move ths bill, and to give this country the Superfund Program that it needs.

By Mr. DANFORTH (for himself, Mr. CHAFEE, Mr. BENTSEN, Mr. WILSON, Mr. CRANSTON, Mr. GORE, Mr. HEINZ and Mr. SASSER):

S. 2842. A bill to encourage the use of copy-code scanners on digital audio tape recording machines; to the Committee on Finance.

DIGITAL AUDIO TAPE TARIFF ACT

● Mr. DANFORTH. Mr. President, I am today introducing, along with Senators CHAFEE, BENTSEN, WILSON, CRANSTON, GORE, HEINZ, and SASSER, a tariff bill designed to offer an interim response to the urgent threat posed by the anticipated introduction of digital audio tape—DAT—recorders, a new technology that could result in widespread pirating of prerecorded music.

Let me state at the outset that we are not offering this measure as a general solution to the audio home taping problem, a complex copyright matter with which the Congress has been struggling for the last 5 years. Rather, we introduce this legislation with the intention of simply preserving the status quo until Congress has an opportunity to consider a comprehensive response to the home taping issue.

The Judiciary Committee now has pending before it copyright legislation dealing with the home taping issue, but there is a serious question as to whether the Congress will be able to act on that legislation in the time remaining before adjournment. Yet a flood of imports of new DAT machines from Japan could begin at any time, causing great potential damage to our music industry, and undermining Congress' effort to legislate a permanent solution to the problem.

Only last month, the administration, after considerable study, stated that they intend to work toward a solution to the audio home taping problem; namely, the mandatory installation in new tape recorders of an electronic chip—known as copy-code scanners—that can prevent the taping of copyrighted recordings that are encoded with an inaudible signal. In its statement before the Judiciary Committee, the administration specifically noted that this approach was particularly appropriate as a response to the new problem posed by DAT machines.

Clearly, if this approach is to be a part of any congressional solution, it must be implemented before not after, the new DAT machines flood the marketplace. Accordingly, our legislation seeks to preserve Congress' legislative options by discouraging the importation of any DAT machines that are not equipped with copy-code scanners. The bill seeks to accomplish this by imposing a 35-percent duty on DAT machines without copy-code scanners, and the current tariff rate of 4.1 percent on DAT machines that are equipped to protect unauthorized copying of copyrighted recordings.

I am advised that the EEC has been moving in the same direction in attempting to fashion a response to the new DAT technology. The EEC is seriously considering legislation or regulations that would require the installation of copy-code scanners in any DAT machines manufactured in, or imported into, the Common Market. Indeed, I understand that the EEC has already informally notified representatives of MITI, the Japanese trade ministry, that such a requirement is likely to be imposed. By enacting the legislation we are introducing today, the United States would be joining forces with the European nations in developing a unified response to DAT. Conversely, should the United States fail to act promptly, we are likely to become, by default, the only major market for the Japanese electronics manufacturers, as they divert their exports from Europe to America.

Mr. President, I ask that the bill be printed in the RECORD, together with an article that recently appeared in Billboard magazine.

There being no objection, the Material was ordered to be printed in the RECORD, as follows:

S. 2842

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Digital Audio Tape Tariff Act of 1986".

SEC. 2. DIGITAL AUDIO TAPE RECORDERS.

(a) The headnotes to part 5 of schedule 6 of the Tariff Schedules of the United States are amended by adding at the end thereof the following new headnote:

"7. For purposes of items 685.40 and 685.41, a 'copy-code scanner' is an integrated electrical circuit or system of circuitry which—

"(a) is built into the recording mechanism of an audio recording device,

"(b) if removed, bypassed, or deactivated, would render inoperative the recording capability of the audio recording device,

"(c) is capable of continuously detecting, within the audio frequency range of 3,500 to 4,100 hertz, a notch or absence of sound resulting from the removal of sound signals, in an encoded phonorecord, and

"(d) upon detecting such a notch or absence, is capable of preventing the audio recording device from recording the sounds embodied in the encoded phonorecord by causing the recording mechanism of the device to stop recording for at least 25 seconds.".

(b) Part 5 of schedule 6 of the Tariff Schedules of the United States is amended—

(1) by redesignating items 685.41 and 685.42 as items 685.42 and 685.43, respectively,

(2) by striking out item 685.40 and inserting in lieu thereof the following new items with a superior heading having the same degree of indentation as the item 685.40 that is struck:

	"Tape recorders and dictation recording and transcribing machines, and parts thereof:			
685.40	Digital audio tape recorders without copy-code scanners, and parts thereof.	35% ad val.		70% ad val.
685.41	Other	4.1% ad val.	3.9% ad val. (D). Free (A*, E, I).	35% ad val.".

SEC. 3. EFFECTIVE DATE.

(a) IN GENERAL.—The amendments made by this Act shall apply with respect to articles entered, or withdrawn from warehouse, for consumption after the date that is 15 days after the date of enactment of this Act.

(b) STAGED RATE REDUCTIONS.—

(1) The rate of duty in column number 1 for item 685.41 of the Tariff Schedules of the United States shall be subject to all staged rate reductions for item 685.40 of such Schedules that—

(A) take effect after the date of enactment of this Act, and

(B) were proclaimed by the President before the date of enactment of this Act.

(2) The rate of duty in column number 1 for item 685.43 of the Tariff Schedules of the United States shall be subject to all staged rate reductions for item 685.42 of such Schedules that—

(A) take effect after the date of enactment of this Act, and

(B) were proclaimed by the President before the date of enactment of this Act.

[From the Billboard, Sept. 6, 1986]

AN OPEN LETTER TO JAPAN—ERASING THE THREAT OF DIGITAL AUDIO TAPE

(By Stanley M. Gortikov)

An "assissination" is in the making. The targeted victim is the world's music industry. The assailants are Japan's equipment makers. The chosen weapon is DAT—digital audio tape.

You of Japan invent marvelous machines, but you damn those who fuel them. In DAT you have built a system for rapturous sounds, but you imperil the creators of those sounds.

You blithely assume that our music forever will flow to feed your mechanical inventories. Yet, you deliberately jeopardize musical opportunities . . . limit musical careers . . . heighten musical risks . . . mini-

mize musical incentives . . . and don't care if you stifle musical sales.

You excel in design, but know little of fairness. You treasure your own technical know-how, but demean the intellectual property rights of others. You wish to implant and spread the use of DAT, but you punitively expect to ignore all potential harm from that use.

DAT holds fantastic promise in its concept: miniaturization . . . sound . . . portability . . . flexibility. Those qualities could be harnessed for the benefit of all of us. However, it appears that the intended beneficiaries will be confined to you who make DAT equipment, plus digital tapers whose stealing you would facilitate.

DAT's intent is not just to become another (but better) medium to copy our industry's recordings. Instead, DAT literally will *clone* our music, making perfect replications of master quality.

The creation of such masters, however, is the business and right of the originators of a given recording—certainly not the right of a DAT equipment manufacturer, or of DAT buyers.

No longer should you ignore the source and soul of our recordings. Whitney Houston, for example, sings magnificently; her voice and performance are hers, not yours. Bob Dylan writes a unique song; it is his, not yours. A&M releases a fantastic recording; it is A&M's property, not yours.

Neither is it the right of digital tapers to clone onto digital audio tape Houston's voice or Dylan's song or A&M's record.

A recent Billboad commentary on DAT (Aug. 16), authored by an American spokesman for one Japanese company, acknowledged that 84 companies has "agreed on the specifics of the medium and were clearly aware of the impact that DAT might have on the software market."

If true, then why your deafeningly silent refusal to address the underlying intellectual property issues?

How can American recording companies blindly trust your expection that everything somehow will turn out all right, if only they individually commit their catalogs to DAT, release their new recorded talent, and thus risk all their assets?

Your country overtly demonstrates that it has contempt for the copyright owners of foreign recordings. You allow, for example, 2,400 record rental shops to operate in your country, even renting CDs for home taping for a fee of about 65 cents per day.

Sure, you do pemit a modest rental royalty for Japanese record enterprises . . . but not one cent for the American companies or performers who create what is pilfered.

With DAT waiting in the wings, ready to invade our borders, we have no choice but to be suspicious and apprehensive. We can only fear that we are perceived as just another American industry to be trampled on or exploited by Japan.

A reasonable music industry response to DAT equipment has already been introduced in the European Economic Market countries. This is a legislative initiative that calls for the mandatory inclusion in DAT recorders of a copy-code chip that would thwart the duplication of compatibly encoded copyrighted recordings. This low-cost copy-code chip, when installed within the recording circuitry, would "recognize" encoded copyrighted recordings and would decline to record them.

Copying of non-encoded and noncopyrighted recordings would not be inhibited. Playback, of course, also would not be affected. That sensible approach merits adoption in the U.S. and worldwide.

Even the Reagan Administration, in recent testimony before the U.S. Senate, affirmed that the problems of home taping merit a legislative solution. Further, the U.S. Administration called for the mandatory use of an antidumping protection system and a ban on the manufacture, sale, or importation of equipment without decoder protection.

It is not too late for a constructive about-face. No DAT machine has yet been offered for sale here. No retailer could be burdened with unsold inventory. No consumer has yet bought DAT equipment, so no consumer would be encumbered with a useless investment.

Protective U.S. legislation to control DAT's anticopyright impact could be mutually beneficial. With copy-code security assured, we also would not need to seek bans and trade sanctions. A prerecorded DAT software industry could then flourish.

Japan has achievable options for immediate action. As a start, talk with us, do not continue to shun us. Welcome key executives of American companies to meet to Japan with counterparts in DAT equipment companies, as well as with Japan's Trade Ministry (MITI). Offer us your proposals to protect our property and our talent.

Consider, rather than arbitrarily reject, the positive aspects of the copy-code system. Allow it to fulfill DAT's potential while assuring security for musical resources and rights owners.

A constructive prerequisite for us both is modification of attitude. We would prefer to perceive you as partner, not predator. But we need a positive signal from you.

You must find a way to accept the American music industry as your opportunity, not your victim.●

● Mr. CHAFEE. Mr. President, I am pleased to join my distinguished colleague, Senator DANFORTH, as an original cosponsor of this bill crafted to react swiftly to an immediate and threatening new technology which will exacerbate the troublesome problem of home taping of copyrighted music. Home taping has become an enormous problem for the American music community. Taping presently displaces about one-third of the industry's sales.

The harmful effects of home taping are felt first by the copyright owners as well as the composers of music and lyrics who rely on selling their prerecorded music. But everyone who listens to music is hurt too, because inevitably less music is produced as a consequence. Home taping can also result in higher record prices, because record companies will be forced to spread their costs of production over the fewer albums that are sold. In other words, those who buy records will pay more, so that those who tape can pay nothing.

This bill addresses only one type of taping equipment, the new digital audio tape recorder [DAT], a device which will permit the unauthorized duplication of absolutely perfect sound recordings. The DAT is the tape version of compact disc technology. Only blank tapes are available for this DAT machine; obviously, then, it can only be used for copying phono records.

I do not expect that this legislation will resolve the copyright problems of home taping. Indeed it cannot. As my colleagues are aware, House and Senate Judiciary Committees have been grappling with this issue, and I expect that the 100th Congress will be presented with comprehensive legislation to address the issue.

This tariff bill, however, is a useful interim step to take—a trade measure to maintain the status quo pending full congressional consideration of this new threat to copyrights and royalty rights of the American music industry. First the bill seeks a technological solution to this technological problem. It encourages the installation in these new tape recorders of an electronic chip that can prevent or permit the copying of a particular sound recording depending upon the presence of a corresponding signal on the recording itself. The bill places a 35-percent tariff on DAT machines without such a chip and a much lower tariff on those with the chip.

Second, the bill sends a message to the Japanese manufacturers of these machines and their government. The message is this: The Congress of the United States recognizes that the home taping of American music is a serious problem for our creative community—musicians and lyricists. We urge the parties to this controversy to work together to present us with a proposal for a long-term resolution of this problem.

Mr. President, American music is one of the Nation's great assets. Our music is heard around the world and it lives only because of the vitality and strength of our copyright and trade laws. As has been well documented, home taping has caused a massive displacement of record sales and has thereby undermined the music community's ability to continue to produce the diversified music that has been a hallmark of the American musical tradition. We owe it to our music community, to ourselves, and to our children as consumers of music to take great care that the exciting new technologies, developed solely to perform our great music, come into the market in a fair way, respectful of the rights of our creators.

For once we have the opportunity to deal with a potential problem before it becomes unmanageable. By setting up this differential tariff, we can hope to convince exporters to our market to adopt a simple, inexpensive, and equitable solution to this problem.●

By Mr. MATTINGLY:

S. 2843. A bill to amend the Congressional Budget Act of 1974 to minimize the impact on State and local governments of unexpected provisions of leg-

islation proposing the imposition of large unfunded costs on such governments, and for other purposes; to the Committee on Rules and Administration.

PROHIBITION AGAINST CONSIDERATION OF LEGISLATION IMPOSING LARGE UNFUNDED COSTS TO STATE AND LOCAL GOVERNMENTS

● Mr. MATTINGLY. Mr. President, today I am introducing legislation which addresses a serious problem that exists in the congressional decisionmaking process. Specifically, there is a growing tendency in Congress to address desirable national policy objectives by imposing obligations on State and local governments without providing offsetting Federal funds.

All too often, these "unfunded mandates" are enacted without any debate or analysis of the consequences for State and local governments. Many of these legislative initiatives are sound Federal policy. However, it is irresponsible to impose new costs on local governments without careful analysis. Congress accomplishes very little when it attempts to achieve national objectives with no consideration of the cost that this imposes on our State and local governments.

The legislation I am introducing today is designed to ensure that Congress fully recognizes and considers, prior to enactment, the impact of the major new costs on State and local governments. It would create a point of order, waivable under the rules of each House, against any legislation creating new unfunded obligations of more than $50 million annually. The bill, which is supported by the National Governors' Association and National Conference of State Legislatures, would also strengthen the existing requirement that the Budget Committees analyze the effects of our annual budget resolutions on programs affecting State and local governments.

I believe it is unfair and unwise to reduce Federal aid to local governments without a corresponding reduction in costly bureaucratic redtape and federally imposed mandates. It is time Congress reduced the financial burdens that are placed upon State and local governments. I urge my colleagues to join me in this effort.●

By Mr. BOREN (for himself, Mr. MELCHER, Mr. BAUCUS, Mr. HEFLIN, Mr. ABDNOR, and Mr. PRYOR):

S. 2844. A bill to require the Secretary of Agriculture to pay restitution to certain cattle producers for losses incurred in connection with the sale of cattle during a period in which excessive dairy cattle were slaughtered under the whole-herd buy-out program; to the Committee on Agriculture, Nutrition, and Forestry.

CATTLE RESTITUTION ACT

Mr. BOREN. Mr. President, on behalf of Senator MELCHER, Senator BAUCUS, Senator HEFLIN, Senator ABDNOR, Senator PRYOR, and myself, I am introducing today a bill which will require the Secretary of Agriculture to pay restitution to certain cattle producers for losses incurred in connected with the sale of cattle during the period in which excessive dairy cattle were slaughtered under the Dairy Termination Program, the so-called whole-herd buy-out program.

The Food Security Act of 1985 authorized a program whereby milk producers would discontinue their dairy operations in exchange for payments.

When this proposal was first considered, there was concern about the possible impact the whole-herd buy-out could have on the cattle market. At the time the program was included in the farm bill, we took adopted to provisions designed to assure that any adverse effect on the cattle industry would be negligible. First, the act required the Secretary to provide for the orderly and timely flow of cattle that are marketed as a result of the Dairy Program. Further, the act required the Secretary to purchase 400 million pounds of red meat in addition to those quantities normally purchased and distributed by the Department.

Properly administered, the Dairy Program could have reduced the production of milk without affecting red meat market prices at the same time.

However, the USDA required two-thirds of the scheduled dairy slaughterings to occur in the first period of the program, instead of spacing them out over the entire life of the program. In fact, in my home State of Oklahoma, 74 percent of the scheduled dairy slaughterings were to occur during the first buy-out period.

Not only did the Department of Agriculture fail to carry out the intent of the orderly marketing provisions by frontloading cattle, they also failed to implement the red meat purchase plan on a timely basis. Even though, by the Department's own estimates, over 44,000 dairy cattle had been exported and 96,000 slaughtered prior to the program announcement, they did not begin red meat purchases until the week of April 15. At that time, the Department only purchased 5.8 million pounds of red meat, which was approximately equal to less than 6 percent of the dairy cattle slaughtered as of that date.

The effect on beef markets was immediate and disasterous. Market prices dropped by as much as $10 per hundredweight.

For States like Oklahoma which have a substantial cattle feeding industry and a spring wheat cattle marketing program, the decline in prices could not come at a worse time. The market price fell at exactly the same time that Oklahoma beef producers normally market their cattle. For many producers in Oklahoma and other States with similar marketing patterns, the lower prices represented a reduction in their gross sales of 20 to 25 percent.

Mr. President, cattle market prices have begun to stabilize following the Department of Agriculture's gross mismanagement of the whole-herd buy-out program this spring, but unfortunately, the damage has already been done to the Nation's farmers and ranchers.

The Nation's cattle producers had to face huge losses due to the gross mismanagement which could easily have been avoided if the Department had followed the intent of Congress. Simply put, Government negligence imposed great hardships on our Nation's cattle industry.

Because the Department of Agriculture truly ignored the intent of Congress and completely mismanaged the whole-herd buy-out, I believe we have an obligation to provide compensation to the cattle producers for the damage inflicted upon them.

Mr. President, the bill I am introducing today will provide restitution to cattle producers who suffered losses due to the Department's mishandling of the Dairy Program. The Cattle Restitution Act of 1986 would provide cattle producers who marketed cattle between March 28 and June 30 with a direct payment. The payment would be $6 per hundredweight, based on the live weight of the cattle at the time of the sale. The Secretary would have the discretion of making this payment in cash or with commodities held by the Commodity Credit Corporation.

This bill is similar to one introduced yesterday in the House of Representative by Oklahoma Congressmen GLENN ENGLISH.

Regretfully, this bill will not come in time for many Oklahoma cattlemen who suffered severe losses as a result of this program and were forced out of business this year. Perhaps, though, some producers will be enabled to remain in business if Congress adopts this proposal.

I urge my colleagues to join in support of this legislation.

By Mrs. KASSEBAUM (for herself, Mr. HART, Mr. ARMSTRONG, Mr. DANFORTH, Mr. DOLE, Mr. BOREN, Mr. NICKLES, Mr. EAGLETON, Mr. BINGAMAN, Mr. DOMENICI, and Mr. MCCLURE):

S. 2845. A bill to designate the Santa Fe Trail as an historic trail under the National Trails System Act; to the Committee on Energy and Natural Resources.

SANTA FE TRAIL HISTORIC TRAIL STATUS

Mrs. KASSEBAUM. Mr. President, the mass migration West along the California and Oregon Trails during the mid-1800's is a story which many Americans study with great interest,

admiration, and more than a little awe. Stories have been handed down from generation to generation about the hardships endured by men and women alike. However, their journey along the trails was only the beginning, the hard part was taming the land and transforming it into what is known today as the "Breadbasket of the World."

Few people, however, realize another trail preceded both the California and Oregon Trails by more than 20 years. In 1821, the Santa Fe Trail, one of America's great trans-Mississippi pathways to the West, was opened, and commerce between the United States and Mexico ballooned into a million-dollar-a-year business. The trail was filled with caravans of freight wagons headed to Santa Fe, NM, and poured Mexican silver and raw products into the marketplace creating an economic boom for the region.

Because I feel this history should be preserved, I am introducing legislation which gives the Santa Fe Trail national trail status. Senators HART, ARMSTRONG, DANFORTH, DOLE, NICKLES, BOREN, EAGLETON, BINGAMAN, and DOMENICI are joining me in this effort.

An identical bill was passed by the House of Representatives on September 16. This legislation assures the recognition of current land uses and protects the landowner from property acquisition. Further, it complies with the National Trails System Act and requires the Secretary of the Interior to submit to Congress a comprehensive management and use plan for the development of the trail, including the identification of all significant natural, historical, and cultural resources which should be preserved.

Right now, this region is experiencing economic problems with which we are all too familiar. By giving this trail national status, we create a greater potential for economic growth by increased tourism. Followers of the trail will have the opportunity to retrace the wagon tracks of pioneer merchants from Missouri, listen to the quiet prairies of Kansas and Oklahoma, and experience the breathtaking beauty of the Colorado and New Mexico mountains.

Mr. President, giving the Santa Fe Trail national trail status will have two very positive effects upon this region and the United States. First, it cannot help but generate an interest by more people to explore this part of their national history, thereby prompting increased tourism. And more importantly, the legislation commemorates a part of history which all Americans, especially those of us who have walked along the trail, are especially proud.

Mr. President, I ask unanimous consent that the full text of this legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2845

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

(a) DESIGNATION.—Section 5(a) of the National Trails System Act (16 U.S.C. 1244(a)) is amended by adding the following new paragraph at the end thereof:

(14) The Santa Fe National Historic Trail, a trail of approximately 950 miles from a point of Old Franklin, Missouri, through Kansas, Oklahoma, and Colorado to Santa Fe, New Mexico, as generally depicted on a map entitled "The Santa Fe Trail" contained in the Final Report of the Secretary of the Interior pursuant to subsection (b) of this section, dated July 1976. The map shall be on file and available for public inspection in the office of the Director of the National Park Service, Washington, District of Columbia. The trail shall be administered by the Secretary of the Interior. No lands or interests therein outside the exterior boundaries of any federally administered area may be acquired by the Federal Government for the Santa Fe Trail except with the consent of the owner thereof. Before acquiring any easement or entering into any cooperative agreement with a private landowner with respect to the trail, the Secretary shall notify the landowner of the potential liability, if any, for injury to the public resulting from physical conditions which may be on the landowner's land. The United States shall not be held liable by reason of such notice or failure to provide such notice to the landowner. So that significant route segments and sites recognized as associated with the Santa Fe Trail may be distinguished by suitable markers, the Secretary of the Interior is authorized to accept the donation of suitable markers for placement at appropriate locations.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 10(c)(2) of such Act (16 U.S.C. 1249(c)(2)) is amended by striking out "(13)" and inserting in lieu thereof "(14)".

Mr. HART. Mr. President, no three words evoke the spirit of the American West more vividly than the words "Sante Fe Trail."

When Congress passed the National Trails System Act and created the historic trail designation, it sought to commemorate the courage and sacrifice of those who opened the West to commerce and settlement. The many trails that led America westward are rich in such courage and sacrifice, and surely none is richer than the Sante Fe.

Earlier this week, the House of Represenatatives approved this designation. At the time, one of the sponsors observed that most Americans probably assume the Sante Fe already enjoys historic status. Indeed, it is time that it did.

The bill we introduce today has been written to protect the rights of private property owners, as well as the integrity of the trail. This Senator is pleased to join in introducing it and urging its early approval.

Along these 950 miles—stretching from Old Franklin, MO through the territories of Kansas, Oklahoma and Colorado—coursed the hopes and aspirations of our national spirit. At its peak before the Civil War, several thousands of traders and settlers used the trail within a single year.

The Sante Fe was truly a pioneering trail. Even as Lewis and Clark explored their way to the Pacific in the early years of the 19th century, other pathfinders were working their way from the Mississippi River, across the plains and into the American southwest. By 1821, William Becknell of Missouri had traced the route that would become the trail's main trunk.

In the following year, Becknell substituted wagons for packhorses, ushering in the era of wagon trains—an enduring symbol of our Nation's expansion.

Becknell's route reached west and then turned south along three branches, two of which crossed the territory that became Colorado. The wagon trains took West the tools necessary to build a modern economy. They brought back silver, furs, and a new creature that came to be known as the Missouri mule.

The trail enjoyed a leading role until the advent of the railroads in the 1880's. The Sante Fe passed into history, then, nearly a century ago. Yet even today, in a few isolated areas, the old wagon ruts can still be discerned in the terrain.

The travelers of the Sante Fe Trail risked more than their possessions in making this journey. The way was arduous, the risks were real. By granting this trail historic status, we not only honor its contribution to our national success, we honor those individual men and women who paid the cost.

Nineteen sites along this trail have been selected for the National Historic Landmark Program. Interest in the trail has been heightened by such programs as the three-day seminar held this month at Trinidad State Junior College in Colorado—attended by more than 200 scholars and history enthusiasts from the States along the trail.

With formal designation, we promote this interest. We encourage more Americans to visit this part of their country and heritage. Most of all, we salute the brave men and woman who brought this trail to life. Let the mark they made on our history be remembered long after the last marks of the trail have faded into the earth.

Mr. BINGAMAN. Mr. President, I am pleased to add my name as an original cosponsor of the legislation introduced today by my distinguished colleague from Kansas to designate the Santa Fe Trail as a national historic trail.

I would like to point out that similar legislation, introduced by my distinguished colleague from New Mexico, Congressman RICHARDSON, has already been passed by the House of Representatives. H.R. 4794, as reported by the House Interior Committee, passed the House of Representatives yesterday under the Consent Calendar.

Both the House-passed bill and the Senate legislation would grant historical status to the 920-mile Santa Fe Trail. The trail begins in Independence, MO, continues through Kansas, Oklahoma, and Colorado, and ends in New Mexico. One route of the trail in New Mexico goes through Raton to Cimarron, Taos, Fort Union, La Junta (now Watrous), Las Vegas, across the Pecos River through Glorieta Pass and into Santa Fe. The other route carried travelers from Oklahoma, through eastern New Mexico to the Canadian Cross, through Wagon Mound, La Junta (Watrous), Las Vegas, the Glorieta Pass and into Santa Fe.

The Santa Fe Trail, opened in 1821, became one of the great trans-Mississippi pathways to the American West. It was once the major overland route between the central United States and the Western frontier.

This celebrated overland route is rich in historic and cultural value. It not only played a central role in the expansion of the West, but it was a major thoroughfare for commerce between the United States and the Republic of Mexico.

The historic trail designation would help to preserve the trail and be a spur to increased tourism in New Mexico and elsewhere. According to the New Mexico Economic Development and Tourism Department, the trail designation would mean an additional $160,000 for the travel industry annually in Northeast New Mexico, particularly in economically depressed Colfax, Mora, and San Miguel counties.

The designation would also be a great distinction for the trail and the State, since the national historic trail status is shared by only two other trails in America, the Oregon and California Trails. The legislation complies with the National Trails System Act, which requires the Secretary of the Interior to submit to Congress a comprehensive management and use plan before requesting funding.

The legislation is also carefully crafted not to disturb the land rights of individual landowners. The bill, as drafted, insures that no private land would be appropriated for the trail without the consent of the landowner. In addition, before acquiring any easement or entering into any cooperative agreement with a private landowner, the Secretary would be required to notify the landowners of the potential liability for public injury from physical conditions that may exist on the landowner's land.

The Santa Fe Trail is the last major overland wagon road to be considered for national historic trail designation. I feel it particularly deserving of this distinction. Passage of this bill would preserve and protect the trail. It would bring needed tourism to rural areas of New Mexico and other States. And it has strong local community support.

I encourage my colleagues to support this worthwile legislation.

Thank you, Mr. President.

By Mr. GRASSLEY (for himself and Mrs. HAWKINS):

S. 2846. A bill to provide for research concerning Alzheimer's disease and related dementias; to the Committee on Labor and Human Resources.

ALZHEIMER'S DISEASE AND RELATED DEMENTIAS SERVICES RESEARCH ACT OF 1986

● Mr. GRASSLEY. Mr. President, today I am introducing a bill which, if passed, will provide authority for the support of services relevant research on Alzheimer's disease, upgrade the coordination in the Department of Health and Human Services of all research on Alzheimer's disease, and will improve dissemination of information about Alzheimer's disease and about services available for the care of those who have it. The bill was introduced in the House of Representatives yesterday by Representative SNOWE. My colleague, Mrs. HAWKINS, joins me as a cosponsor of this bill.

Mr. President, as most of my colleagues know, Alzheimer's disease is terribly costly. An estimated 1.5 million people have severe dementia and another 1 to 5 million have mild to moderate dementia. The emotional burden on the families of those with Alzheimer's disease is heavy and destructive. The financial cost is great; some estimates of the direct cost to the Nation of caring for Alzheimer's disease and other dementia victims run as high as $40 billion. Recently, at a hearing on Alzheimer's disease of the Subcommittee on Aging, a witness from the Office of Technology Assessment estimated that people with dementia constitute probably somewhere between 60 and 70 percent of those who stay in nursing homes longer than 3 months. As invariably noted, correctly, in discussions of dementia, the number of those with it will increase. By the year 2000, it is estimated that the number of those with severe dementia will increase by 60 percent.

At the same time, Mr. President, although our effort in biomedical research on Alzheimer's disease and related dementias is up and running, our effort directed to better understanding how to take care of people with Alzheimer's disease is the here and now—on services relevant research, in other words—is minimal. In a survey of relevant Federal agencies conducted by the subcommittee, we found that, in contrast to the $50 million being spent for basic biomedical research, only about $500,000 to $1 million is being spent on services relevant research focused on those with dementia. It is true that these figures do not include research on long-term care systems which may have implications for caring for people with Alzheimer's disease; they include research specific to caring for Alzheimer's disease victims. While we must look to biomedical research for eventual solutions to the problem of Alzheimer's disease and related dementias, we must look to services relevant research to help us better understand how to take care of the great numbers of people who are presently afflicted with dementia.

In order to look into this situation, earlier this year the Subcommittee on Aging, of which I am the chairman, held two workshops on Alzheimer's disease. One workshop was devoted to "Health Services Research Related to Dementia" and the other to "Financing Care for Patients With Alzheimer's Disease and Related Disorders." The Subcommittee on Human Services of the House Select Committee on Aging, the Office of Technology Assessment, and the Alzheimer's Disease and Related Disorders Association joined the subcommittee in sponsoring these workshops. In addition, nine other Senators and seven Members of Congress joined us as cosponsors. The participants in these workshops were very knowledgeable people chosen for the sponsors by the Office of Technology Assessment which has underway a major project of Alzheimer's disease. In each case, they devoted one day to a disciplined discussion of key issues.

What emerged clearly from both of these workshops is that we are not in a position to answer most of the questions we have to answer before we can make sensible policy for caring for those with Alzheimer's disease or related dementias or for keeping the families, on which the greatest burden falls, involved in caring for their relatives who have this disease. Even such simple questions as "How many people have dementia?" "What is the cost of dementia?" and "What is the prevalence of dementia in nursing homes?" Despite my presentation earlier in this statement of numbers which purport to answer these questions, probably cannot be answered with precision. Others which cannot be answered with confidence include: How reliable are the diagnostic tools presently available for dementia patients? What is the course of illness for most of the dementias, and how does the course of illness relate to service needs? Is the burden of caring for patients with dementia more severe than for other disorders? Does special care for patients

with dementia reduce disability? Would improving the care of people with dementia cost more than current methods? Are those with dementia more expensive to care for? Should quality assurance programs in nursing homes and other settings in which dementia victims are cared for be organized differently than for other patients? Many other questions were addressed at the "Workshop on Services Relevant Research on Alzheimer's Disease and Related Dementias."

The second workshop sponsored by the subcommittee, "Financing Care for Patients With Alzheimer's Disease and Related Disorders," also concluded that additional research was essential if we are to make sensible policy in this area. In a background and summary paper written for the subcommittee, Dr. Karen Davis of Johns Hopkins Universiisty, in the course of summarizing discussion at the workshop, noted:

* * * concern about the potential budgetary impact of policy intiatives to provide assistance to Alzheimer's patients and their families is a major barrier to action. Continuing efforts to obtain more precise estimates of prevalence of Alzheimer's patients by degree of impairment, sources and extent of informal * * * support, utilization of health and long-term care services, cost of providing health and long-term care services, and distribution of expenditures by type of patient, type of service, and source of financing should all be important elements of future research efforts.

The bill I am introducing today authorizes annually $2 million each for the National Institute on Aging, the National Institute of Mental Health, and the National Center for Health Services research for the support of services relevant research which falls within the general mandate of each agency.

In addition, the bill would authorize the existing Secretary's Task Force on Alzheimer's Disease, created administratively by Secretary Heckler and continued under Secretary Bowen. The bill gives the same mandate to the task force as that given it by Secretary Heckler, but also requires it to report to the Congress and the public at least annually and requires it to assist the three agencies in the development of a plan for the expenditure of the $6 million authorized for services relevant research. No additional funds are provided for the task force. By authorizing the Secretary's Task Force on Alzheimer's Disease as a Council of the Department for the 5-year authorization period, we will increase the status of, and emphasis placed on, the problem of Alzheimer's disease in the Department.

The present task force has worked well and has certainly made an important contribution to the increased emphasis placed on Alzheimer's disease and related dementias in recent years; the authorization of this Council by the Congress and the requirement that it report annually to the Congress and the public will serve to reinforce the high priority which should be placed by the Department on dealing with dementia and the problems it creates. This Council would also be required to assist the National Institute on Aging, the National Institute of Mental Health and the National Center for Health Services Research in making the plan they will be required to make prior to spending any of the money authorized by this bill. I hope that this provision will help to assure that there is adequate coordination within the Department of the research activities related to Alzheimer's disease.

Finally, the bill would authorize the National Institute on Aging to spend $1.5 million for the dissemination of information about current research efforts in the Federal Government and about services available for the care of people with Alzheimer's disease.

The bill authorizes all the activities I have described for 5 years, 1987–91; funds would be provided, however, for 4 years, 1988–91.

Mr. President, I think the program contemplated by the bill I am introducing today, for a relatively small amount of money, can help us get answers to some of the key questions that stand in the way of improving the treatment of these Alzheimer's victims.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD after my statement.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2846

Be it enacted by the Senate and House of Respresentatives of the United States of America in Congress assembled, That this Act may be cited as the "Alzheimer's Disease and Related Dementias Services Research Act of 1986".

FINDINGS

SEC. 2. The Congress finds that—

(1) best estimates indicate that between 2,000,000 and 3,000,000 Americans presently have Alzheimer's disease or related dementias;

(2) estimates of the number of individuals afflicted with Alzheimer's disease and related dementias are unreliable because current diagnostic procedures lack accuracy and sensitivity and because there is a need for epidemiological data on incidence and prevalence of such disease and dementias;

(3) studies estimate that between one-half and two-thirds of patients in nursing homes meet the clinical and mental status criteria for dementia;

(4) the care for patients with Alzheimer's disease and related dementias falls primarily on their families, and such care is very often financially and emotionally devastating;

(5) the cost of caring for patients with Alzheimer's disease and related dementias is great and conservative estimates range between $38,000,000,000 and $42,000,000,000 per year solely for direct costs;

(6) although substantial progress has been made in recent years in identifying possible leads to the causes of Alzheimer's disease and related dementias and more progress can be expected in the near future, there is little likelihood of a breakthrough in the foreseeable future which would eliminate or substantially reduce the number of patients with such disease and dementias or the difficulties of caring for such patients;

(7) attempts to reduce the emotional and financial burden of caring for demential patients is impeded by a lack of knowledge about such patients, how to care for such patients, the costs associated with such care, the effectiveness of various modes of care, the quality and type of care necessary at various stages of the disease, and other appropriate services that are needed to provide quality care;

(8) the results of the little research that has been undertaken concerning dementia has been inadequate or the results have not been widely disseminated;

(9) more knowledge is needed concerning—

(A) the epidemiology of, and the identification of risk factors for, Alzheimer's disease and related dementias;

(B) the development and evaluation of reliable and valid multidimensional diagnostic and assessment procedures and instruments;

(C) the understanding of the optimal range and cost-effectiveness of community and institutional services for patients with Alzheimer's disease and related dementias and their families, particularly with respect to the design, delivery, staffing, and mix of such services and with respect to the relationship of formal to informal support services;

(D) the understanding of optimal methods to combine formal support services by health care professionals with informal support services provided by family, friends, and neighbors of patients with Alzheimer's disease, and the identification of ways family caregivers can be sustained through interventions to reduce psychological and social problems and physical problems induced by stress;

(E) existing data that are relevant to Alzheimer's disease and related dementias; and

(F) the costs incurred in caring for patients with Alzheimer's disease and related dementias; and

(10) it is imperative to provide appropriate coordination of the efforts of the Federal Government in the provision of services for patients with Alzheimer's disease and related dementias.

TITLE I—COUNCIL ON ALZHEIMER'S DISEASE

ESTABLISHMENT

SEC. 101. (a) There is established in the Department of Health and Human Services (hereinafter referred to as the "Department") the Council on Alzheimer's disease (hereinafter referred to as the "Council"). The Council shall be composed of—

(1) the Assistant Secretary for Health;

(2) the Surgeon General of the United States;

(3) the Assistant Secretary for Planning and Evaluation;

(4) the Director of the National Institute of Allergy and Infectious Diseases;

(5) the Director of the National Institute of Mental Health;

(6) the Director of the National Institute of Neurological and Communicative Diseases and Stroke;

(7) the Director of the National Institute on Aging;

(8) the Commissioner of the Administration on Aging;

(9) the Administrator of the Health Care Financing Administration (or the designee of such Administrator);

(10) the Director of the National Center for Health Services Research and Health Care Technology Assessment;

(11) the Administrator of Veterans' Affairs (or the designee of such Administrator); and

(12) such additional members as the Secretary of Health and Human Services (hereinafter referred to as the "Secretary") considers appropriate.

(b) The Secretary shall select a Chairman for the Council from among its members.

(c) A majority of the members of the Council shall constitute a quorum, but a lesser number may hold hearings.

(d) The Council shall meet periodically at the call of the Chairman, but not less than twice each year.

(e) The Secretary shall appoint an Executive Secretary for the Council and shall provide the Council with such additional administrative staff and support as may be necessary to enable the Council to carry out its functions.

FUNCTIONS

SEC. 102. (a) The Council shall—

(1) coordinate continuing research conducted by or through the Department on Alzheimer's disease and related dementias;

(2) establish a mechanism for the sharing of information among all officers and employees of the Department involved in carrying out programs serving elderly individuals;

(3) identify the most promising areas of research concerning Alzheimer's disease and related dementias;

(4) establish mechanisms to use the results of research concerning Alzheimer's disease and related dementias in the development of policies, programs, and means to improve the quality of life for older Americans; and

(5) assist the National Institute on Aging, National Institute of Mental Health, and the National Center for Health Services Research and Health Care Technology Assessment in developing and coordinating the plans for research required under titles II, III, and IV, and in making revisions in such plans.

(b)(1) Not later than 9 months after the date of enactment of this Act, the Council shall transmit to the Congress and make available to the public a report detailing the plans for research prepared by the National Institute on Aging, the National Institute of Mental Health, and the National Center for Health Service Research and Health Care Technology Assessment under titles II, III, and IV. Such report shall—

(A) describe, insofar as feasible, the activities to be carried out under such titles during each of the fiscal years 1987, 1988, 1989, 1990, and 1991; and

(B) ensure that activities carried out under such titles are coordinated with, and use, to the maximum extent feasible, the resources of, other Federal programs relating to Alzheimer's disease and related dementias, including centers supported under section 445 of the Public Health Service act, centers supported by the National Institute of Mental Health on psychopathology of the elderly, relevant activities of the Administration on Aging, other centers supported by Federal funds involved in research on Alzheimer's disease and related dementias, and other programs relating to Alzheimer's disease and related dementias which are planned or conducted by Federal agencies other than the Department.

(2) Within 1 year after the date on which the report required by paragraph (1) is transmitted to the Congress, and annually thereafter, the Council shall transmit to the Congress, and make available to the public, a report on—

(A) the revisions made by the National Institute on Aging, the National Institute of Mental Health, and the National Center for Health Services Research and Health Care Technology in the plans for research required by titles II, III, and IV;

(B) progress made by research sponsored by the Federal Government on Alzheimer's disease and related dementias; and

(C) new directions in research on Alzheimer's disease and related dementias which the Council considers potentially important.

TITLE II— RESPONSIBILITIES OF THE NATIONAL INSTITUTE ON AGING

RESEARCH PROGRAM AND PLAN

SEC. 201. (a) The Director of the National Institute on Aging shall conduct, or make grants for the conduct of, research relevant to appropriate services for patients with Alzheimer's disease and related dementias and their families.

(b)(1) Within 6 months after the date of enactment of this Act, the Director of the National Institute on Aging shall prepare and transmit to the Chairman of the Council a plan for the research to be conducted under subsection (a). The plan shall—

(A) provide for research concerning—

(i) the epidemiology of, and the identification of risk factors for, Alzheimer's disease and related dementias; and

(ii) the development and evaluation of reliable and valid multidimensional diagnostic and assessment procedures and instruments; and

(B) ensure that research carried out under the plan is coordinated with, and uses, to the maximum extent feasible, resources of, other Federal programs relating to Alzheimer's disease and related dementias, including centers supported under section 445 of the Public Health Service Act, centers supported by the National Institute of Mental Health on psychopathology of the elderly, relevant activities of the Administration on Aging, other programs and centers involved in research on Alzheimer's disease and related dementias supported by the Department, and other programs relating to Alzheimer's disease and related deamentias supported by the Department, and other programs relating to Alzheimer's disease and related dementias which are planned or conducted by Federal agencies other than the Department.

(2) Within one year after transmitting the plan required under paragraph (1), and annually thereafter, the Director of the National Institute on Aging shall prepare and transmit to the Chairman of the Council such revisions of such plan as the Director considers appropriate.

(c) In preparing and revising the plan required by subsection (b), the Director of the National Institute on Aging shall consult with the Chairman of the Council and the heads of agencies within the Department.

DISSEMINATION

SEC. 202. The Director of the National Institute on Aging shall disseminate the results of research conducted under this title to appropriate professional entities and to the public.

AUTHORIZATION

SEC. 203. To carry out this title, there are authorized to be appropriated $2 million for fiscal year 1988, $2 million for fiscal year 1989, $2 million for fiscal year 1990, and $2 million for fiscal year 1991.

TITLE III—RESPONSIBILITIES OF THE NATIONAL INSTITUTE OF MENTAL HEALTH

RESEARCH PROGRAM AND PLAN

SEC. 301. (a) The Director of the National Institute of Mental Health shall conduct, or make grants for the conduct of, research relevant to appropriate services for patients with Alzheimer's disease and related dementias and their families.

(b)(1) Within 6 months after the date of enactment of this Act, the Director of the National Institute of Mental Health shall prepare and transmit to the Chairman of the Council a plan for the research to be conducted under subsection (a). The plan shall—

(A) provide for research concerning—

(i) mental health services, assessments, and treatment modalities relevant to the mental, behavioral, and psychological problems associated with Alzheimer's disease and related dementias;

(ii) the optimal range and cost-effectiveness of community and institutional services for patients with Alzheimer's disease and related dementias and their families, particularly with respect to the design of such services, appropriate staffing for the provision of such services, the timing of such services during the progression of such disease or dementias, and the appropriate mix and coordination of such services;

(iii) the efficacy of various special care units in the United States for patients with Alzheimer's disease, including an assessment of the costs incurred in operating such units, appropriate standards to be used by such units, and the measurement of patient outcomes in such units;

(iv) methods to combine formal support services provided by health care professionals for patients with Alzheimer's disease and related dementias with informal support services provided for such patients by their families, friends, and neighbors, including services such as day care services, respite care services, home care services, and nursing home services, and an evaluation of the services actually used for such patients and the sources of payment for such services;

(v) methods to sustain family members who provide care for patients with Alzheimer's disease and related dementias through interventions to reduce psychological and social problems and physical problems induced by stress; and

(iv) improved methods to deliver services for patients with Alzheimer's disease and related dementias and their families, including services such as outreach services, comprehensive assessment and care management services, outpatient treatment services, home care services, respite care services, adult day care services, parital hospitalization services, and nursing home services; and

(B) ensure that research carried out under the plan is coordinated with, and uses, to the maximum extent feasible, resources of, other Federal programs relating to Alzheimer's disease and dementia, including centers supported under section 445 of the Public Health Service Act, centers support-

ed by the National Institute of Mental Health on psychopathology of the elderly, relevent activities of the Administration on Aging, other programs and centers involved in research on Alzheimer's disease and related dementias supported by the Department, and other program relating to Alzheimer's disease and related dementias which are planned or conducted by Federal agencies other than the Department.

(2) Within one year after transmitting the plan required under paragraph (1), and annually thereafter, the Director of the National Institute of Mental Health shall prepare and transmit to the Chairman of the Council such revisions of such plan as the Director considers appropriate.

(c) In preparing and revising the plan required by subsection (b), the Director of the National Institute of Mental Health shall consult with the Chairman of the Council and the heads of agencies within the Department.

DISSEMINATION

SEC. 302. The Director of the National Institute of Mental Health shall disseminate the results of research conducted under this title to appropriate professional entities and to the public.

AUTHORIZATION

SEC. 303. To carry out this title, there are authorized to be appropriated $2 million for fiscal year 1988, $2 million for fiscal year 1989, $2 million for fiscal year 1990, and $2 million for fiscal year 1991.

TITLE IV—RESPONSIBILITIES OF THE NATIONAL CENTER FOR HEALTH SERVICES RESEARCH AND HEALTH CARE TECHNOLOGY ASSESSMENT

RESEARCH PROGRAM AND PLAN

SEC. 401. (a) The Director of the National Center for Health Services Research and Health Care Technology Assessment shall conduct, or make grants for the conduct of, research relevant to appropriate services for patients with Alzheimer's disease and related dementias and their families.

(b)(1) Within 6 months after the date of enactment of this Act, the Director of the National Center for Health Services Research and Health Care Technology Assessment shall prepare and transmit to the Chairman of the Council a plan for the research to be conducted under subsection (a). The plan shall—

(A) provide for the inventory and analysis of existing date and studies relevant to Alzheimer's disease and related dementias, including data an studies available through the Health Care Financing Administration, the Administration on Aging, the National Center for Health Statistics, the Office of Human Development Services, the Office of the Assistant Secretary for Planning and Evaluation, and the Veterans' Administration;

(B) research concerning the costs incurred by patients with Alzheimer's disease and related dementias in obtaining services, particularly services which are essential to such patients and which are not needed by other patients under long-term care; and

(C) ensure that research carried out under the plan is coordinated with, and uses, to the maximum extent feasible, resources of, other Federal programs relating to Alzheimer's disease and dementia, including centers supported under section 445 of the Public Health Service Act, centers supported by the National Institute of Mental Health on psychopathology of the elderly, relevant activities of the Administration on Aging, other programs and centers involved in research on Alzheimer's disease and related dementias supported by the Department, and other programs relating to Alzheimer's disease and related dementias which are planned or conducted by Federal agencies other than the Department.

(2) Within one year after transmitting the plan required under paragraph (1), and annually thereafter, the Director of the National Center for Health Services Research and Health Care Technology Assessment shall prepare and transmit to the Chairman of the Council such revisions of such plan as the Director considers appropriate.

(c) In preparing and revising the plan required by subsection (b), the Director of the National Center for Health Services Research and Health Care Technology Assessment shall consult with the Chairman of the Council and the heads of agencies within the Department.

DISSEMINATION

SEC. 402. The Director of the National Center for Health Services Research and Health Care Technology Assessment shall disseminate the results of research conducted under this title to appropriate professional entities and to the public.

AUTHORIZATION

SEC. 403. To carry out this title, there are authorized to be appropriated $2 million for fiscal year 1988, $2 million for fiscal year 1989, $2 million for fiscal year 1990, and $2 million for fiscal year 1991.

TITLE V—DISSEMINATION

CLEARINGHOUSE ON ALZHEIMER'S DISEASE

SEC. 501. (a) The Director of the National Institute on Aging shall establish the Clearinghouse on Alzheimer's Disease (hereinafter referred to as the "Clearinghouse"). The purpose of the Clearinghouse is the dissemination of information concerning services available for patients with Alzheimer's disease and related dementias and their families. The Clearinghouse shall—

(1) compile, archive, and disseminate information concerning research, demonstration, evaluation, and training programs and projects concerning Alzheimer's disease and related dementias; and

(2) annually publish a summary of the information compiled under paragraph (1) during the preceding 12-month period, and make such information available upon request to appropriate individuals and entities, including educational institutions, research entities, and Federal and public agencies.

(b) The Clearinghouse may charge an appropriate fee for information provided through the toll-free telephone line established under subsection (a)(3).

(c) The Director of the National Institute on Aging, the Director of the National Institute of Mental Health, and the Director of the National Center for Health Services Research and Health Care Technology Assessment shall provide to the Clearinghouse summaries of the findings of research conducted under titles II, III, and IV.

DISSEMINATION PROJECT

SEC. 502. (a) The Director of the National Institute on Aging shall make a grant to, or enter into a contract with, a national organization representing patients with Alzheimer's disease and related dementias for the conduct of the activities described in subsection (b).

(b) The organization receiving a grant or contract under this section shall—

(1) establish a central computerized information system to—

(A) compile and disseminate information concerning initiatives by State and local governments and private entities to provide programs and services for individuals with Alzheimer's disease and related dementias; and

(B) translate scientific and technical information concerning such initiatives into information readily understandable by the general public, and make such information available upon request; and

(2) establish a national toll-free telephone line to make available the information described in paragraph (a), and information concerning Federal programs, services, and benefits for patients with Alzheimer's disease and related dementias and their families.

(c) The organization receiving a grant or contract under this section may charge appropriate fees for information provided through the toll-free telephone line established under subsection (b)(2), and may make exceptions to such fees for individuals and organizations who are not financially able to pay such fees.

(d) In order to receive a grant or contract under this section, an organization shall submit an application to the Secretary. Such application shall contain—

(1) information demonstrating that such organization has a network of contracts which will enable such organization to receive information necessary to the operation of the central computerized information system described in subsection (b)(1);

(2) information demonstrating that, by the end of fiscal year 1991, such organization will be financially able to, and will, carry out the activities described in subsection (b) without a grant or contract from the Federal Government; and

(3) such other information as the Secretary may prescribe.

AUTHORIZATION

SEC. 503. To carry out this title, there are authorized to be appropriated a total of $1,500,000 for fiscal years 1988 through 1991.

By Mr. KASTEN:

S.J. Res. 416. A joint resolution to commemorate the 100th birthday of Aldo Leopold and to recognize his contribution to the protection and wise management of renewable natural resources; to the Committee on the Judiciary.

COMMEMORATING THE 100TH BIRTHDAY OF ALDO LEOPOLD

● Mr. KASTEN. Mr. President, January 11, 1987, will mark the 100th anniversary of the birth of Aldo Leopold. Leopold was a man of conviction. He was a tireless advocate for the stewardship of our renewable natural resources. To professionals and laymen alike, Leopold was a titan in the conservation movement. He was more than a man ahead of his time; Aldo Leopold is a legend.

Born in Burlington, Iowa, Leopold spent his childhood years along the bottom lands of the Mississippi River which was then a wilderness unimpeded by levees, locks and other manmade structures. There, with a reverent eye cast toward the sky, he watched unending skeins of waterfowl wing their

way south in the fall and return to the north in the spring. These were formative years for Leopold, who would later mold the concept of scientific wildlife management, pioneer the doctrine of wilderness ecology, and bring life to the word "conservation."

This man has been described as a professional forester, game manager, scientist, teacher, writer, philosopher, and a gentleman. Leopold graduated with a Ph.D from Yale University Forestry School. After leaving Yale in 1908, he entered the U.S. Forest Service as a forest assistant in Arizona. He also served as supervisor of the Carson National Forest in New Mexico and as assistant district forester of the southwestern district of the Forest Service. Leopold's experiences as a forest manager sparked his interest in the preservation of wilderness areas and, largely through his determined efforts, he helped establish the Gila Wilderness Area in New Mexico as the first national forest wilderness.

Leopold is perhaps best known for the years he spent in my home State of Wisconsin. He was associate director of the Forest Products Laboratory in Madison, WI, and became a game and forestry consultant in 1928. While privately employed, Leopold completed the now classic treatise, "Game Management." In 1933, he was appointed professor of game management at the University of Wisconsin, a chair that he held with distinction until his death in 1948.

Leopold was also very active in a number of conservation organizations. He was an organizer of the Wildlife Society and the Wilderness Society and also served as president and vice president of these organizations. At various times, Leopold was director of the National Audubon Society and vice president of the American Forestry Association. He served on the council of the Society of American Foresters. Leopold also served as president of the Ecological Society of America.

While Leopold will be remembered for his professional endeavors, he also will be remembered for his work, "A Sand County Almanac." Leopold's "sand farm" in Wisconsin inspired writings that were collectively published posthumously in 1949. Like any literary classic, "Sand County" has withstood the test of time and is still read enthusiastically by college students and weekend naturalists alike. His opening passage in the foreword sets the tone of this masterpiece:

> There are some who can live without wild things, and some who cannot. These essays are the delights and dilemmas of one who cannot.
>
> Like winds and sunsets, wild things were taken for granted until progress began to do away with them. Now we face the question whether a still higher 'standard of living' is worth its cost in things natural, wild, and free. For us of the minority, the opportunity to see geese is more important than television, and the chance to find a pasqueflower is a right as inalienable as free speech.
>
> These wild things, I admit, had little human value until mechanization assured us of a good breakfast, and until science disclosed the drama of where they come from and how they live. The whole conflict thus boils down to a question of degree. We of the minority see a law of diminishing returns in progress; our opponents do not.

The conservation ideology that Leopold espoused and the focus of his philosophy of resource stewardship is embodied in what he described as a "land ethic." He stated in his "Sand County Almanac" that: "A land ethic changes the role of homo sapiens from conqueror of the land-community to plain member and citizen of it. It implies respect for his fellow-members, and also respect for the community as such." The exemplary dedication to resource conservation that Leopold demonstrated as a professional and as a private citizen prompted the National Wildlife Federation to name him to its conservation hall of fame in 1965.

Leopold's land ethic is timeless. The continued drainage and conversion of our wetlands; the despoiling of our air, soil, and water; the unabated erosion and denuding of our prairies, deserts and ranges; and the accelerated destruction of our forests, bear witness to this fact. The very conservation issues Leopold identified more than 35 years ago are still to be resolved. Many, in fact, have grown in scope and magnitude.

In order to commemorate the 100th birthday of the man who truly is the father of conservation, I would like to introduce the following Senate joint resolution. I hope my colleagues will join me in marking January 11, 1987, as a day for all citizens of this great Nation to celebrate the monumental achievements of Aldo Leopold.●

ADDITIONAL COSPONSORS

S. 173

At the request of Mr. LEAHY, the names of the Senator from Maine [Mr. MITCHELL], the Senator from Arizona [Mr. DECONCINI], the Senator from Alabama [Mr. DENTON], and the Senator from Massachusetts [Mr. KERRY] were added as cosponsors of S. 173, a bill to settle and adjust the claim of the Tehran American School for $13,333.94.

S. 519

At the request of Mr. EVANS, the names of the Senator from Vermont [Mr. LEAHY] and the Senator from Maine [Mr. COHEN] were added as cosponsors of S. 519, a bill to require a study of the compensation and related systems in executive agencies, and for other purposes.

S. 670

At the request of Mr. PELL, the name of the Senator from Delaware [Mr. BIDEN] was added as cosponsor of S. 670, a bill to amend the National Labor Relations Act to give employers and performers in the performing arts rights given by section 8(e) of such act to employers and employees in similarly situated industries, and to give to employers and performers in the performing arts the same rights given by section 8(f) of such act to employers and employees in the construction industry, and for other purposes.

S. 1026

At the request of Mr. PRESSLER, the name of the Senator from Illinois [Mr. DIXON] was added as cosponsor of S. 1026, a bill to direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program.

S. 1060

At the request of Mr. D'AMATO, the name of the Senator from South Dakota [Mr. ABDNOR] was added as cosponsor of S. 1060, a bill to amend the title II of the Social Security Act to protect the benefit levels of individuals becoming eligible for benefits in or after 1979 by eliminating the disparity (resulting from changes made in 1977 in the benefit computation formula) between those levels and the benefit levels of persons who became eligible for benefits before 1979.

S. 1296

At the request of Mr. MATHIAS, the name of the Senator from Arizona [Mr. DECONCINI] was added as cosponsor of S. 1296, a bill to amend the Immigration and Nationality Act to modify the requirement for naturalization of an understanding of the English language.

S. 2230

At the request of Mr. ROTH, the name of the Senator from Arkansas [Mr. BUMPERS] was added as a cosponsor of S. 2230, a bill to improve the management of the Government by establishing an Office of Federal Management in the Executive Office of the President, and for other purposes.

S. 2454

At the request of Mr. MURKOWSKI, the name of the Senator from Tennessee [Mr. SASSER] was added as a cosponsor of S. 2454, a bill to repeal section 1631 of the Department of Defense Authorization Act 1985, relating to the liability of Government contractors for injuries or losses or property arising out of certain atomic weapons testing programs, and for other purposes.

S. 2479

At the request of Mr. TRIBLE, the name of the Senator from Minnesota [Mr. DURENBERGER] was added as a cosponsor of S. 2479, a bill to amend chapter 39 of title 31, United States Code, to require the Federal Government to pay interest on overdue payments, and for other purposes.

S. 2588

At the request of Mr. DOMENICI, the name of the Senator from Rhode Island [Mr. CHAFEE] was added as a cosponsor of S. 2588, a bill to provide permanent authorization for White House Conferences on Small Business.

S. 2711

At the request of Mr. DODD, the name of the Senator from Arkansas [Mr. PRYOR] was added as a cosponsor of S. 2711, a bill to restrict procurement by the Department of Defense of ball bearings and roller bearings, and for other purposes.

S. 2734

At the request of Mr. MATHIAS, the names of the Senator from Illinois [Mr. SIMON] and the Senator from Georgia [Mr. NUNN] were added as cosponsors of S. 2734, a bill to amend chapter 83 of title 5, United States Code, to provide civil service retirement credit for service performed under the Railroad Retirement Act, and for other purposes.

S. 2781

At the request of Mr. EVANS, the name of the Senator from New Hampshire [Mr. RUDMAN] was added as a cosponsor of S. 2781, a bill to amend the Energy Policy and Conservation Act with respect to energy conservation standards for appliances.

S. 2794

At the request of Mrs. KASSEBAUM, the name of the Senator from Alaska [Mr. MURKOWSKI] was added as a cosponsor of S. 2794, an original bill to regulate interstate commerce by providing for uniform standards of liability for harm arising out of general aviation accidents.

S. 2799

At the request of Mr. MITCHELL, the name of the Senator from Rhode Island [Mr. CHAFEE] was added as a cosponsor of S. 2799, a bill to consolidate and improve Federal laws providing compensation and establishing liability for oil spills.

S. 2802

At the request of Mr. TRIBLE, the names of the Senator from Delaware [Mr. ROTH] and the Senator from Nevada [Mr. LAXALT] were added as cosponsors of S. 2802, a bill to prohibit foreign assistance to countries which fail to take steps to prevent and punish the laundering of drug-related profits in their territory, and for other purposes.

S. 2806

At the request of Mr. METZENBAUM, the names of the Senator from Illinois [Mr. SIMON], and the Senator from Indiana [Mr. QUAYLE] were added as cosponsors of S. 2806, a bill to amend title II, United States Code, to clarify the current meaning of section 1113, relating to the regulation of collective bargaining agreements by debtors in bankruptcy.

S. 2823

At the request of Mr. GORE, the name of the Senator from Kentucky [Mr. MCCONNELL] was added as a cosponsor of S. 2823, a bill to amend the Communications Act of 1934 to provide for security and fair marketing practices for certain encrypted satellite communications.

S. 2836

At the request of Mr. BUMPERS, the names of the Senator from South Dakota [Mr. ABDNOR], and the Senator from Iowa [Mr. GRASSLEY] were added as cosponsors of S. 2836, a bill to amend the Agricultural Act of 1949 to modify the support price and marketing loan program for the 1986 crop of soybeans, and for other purposes.

SENATE JOINT RESOLUTION 112

At the request of Mr. PELL, the names of the Senator from Oregon [Mr. HATFIELD], and the Senator from Alaska [Mr. STEVENS] were added as cosponsors of Senate Joint Resolution 112, a joint resolution to authorize and request the President to call a White House Conference on Library and Information Services to be held not later than 1989, and for other purposes.

SENATE JOINT RESOLUTION 395

At the request of Mr. HATCH, the names of the Senator from Pennsylvania [Mr. HEINZ], the Senator from Arkansas [Mr. BUMPERS], and the Senator from Alaska [Mr. STEVENS] were added as cosponsors of Senate Joint Resolution 395, a joint resolution to designate the period October 1, 1986, through September 30, 1987, as "National Institutes of Health Centennial Year."

SENATE JOINT RESOLUTION 415

At the request of Mr. GLENN, his name was added as a cosponsor of Senate Joint Resolution 415, a joint resolution to provide for a settlement to the Maine Central Railroad Co. and Portland Terminal Co. labor-management dispute.

SENATE CONCURRENT RESOLUTION 154

At the request of Mr. D'AMATO, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of Senate Concurrent Resolution 154, a concurrent resolution concerning the Soviet Union's persecution of members of the Ukrainian and other public Helsinki Monitoring Groups.

SENATE CONCURRENT RESOLUTION 157

At the request of Mr. QUAYLE, the name of the Senator from Virginia [Mr. TRIBLE] was added as a cosponsor of Senate Concurrent Resolution 157, a concurrent resolution to express the sense of the Congress that colleges and universities should enforce strict but fair antidrug use policies.

SENATE RESOLUTION 491—CALLING FOR A STRONG RESPONSE TO THE DANILOFF ARREST

Mr. HUMPHREY (for himself, Mr. DOLE, Mr. MOYNIHAN, Mr. WALLOP, Mr. MCCLURE, Mr. QUAYLE, and Mr. WILSON), submitted the following resolution; which was ordered to go over under the rule:

S. RES. 491

Whereas on August 30, 1986, Nicholas Daniloff was arrested, apparently in response to the arrest of the Soviet spy Gennadi F. Zakharov;

Whereas on September 5, 1986, President Reagan sent a message to Soviet General Secretary Gorbachev offering the President's personal assurances that Mr. Daniloff was not a spy;

Whereas despite the President's assurances, the Soviet Union indicted Mr. Daniloff on September 7, 1986;

Whereas the Soviet Union demonstrated an unprecedented disregard for the word of a United States President, while continuing to blatantly distort and conceal the facts surrounding the detention of Mr. Daniloff;

Whereas such mendacity jeopardizes the furtherance of any constructive relationship between the United States and the Soviet Union; and

Whereas hundreds of Soviet espionage agents operate at the United Nations, under cover of the Soviet mission to the United Nations and as members of the Secretariat of the United Nations: Now, therefore, be it

Resolved by the Senate of the United States that the Senate,

Declares that the Soviet action in imprisoning and falsely charging Mr. Daniloff reflects once again the failure of the Soviet Union to observe internationally recognized standards of human rights and civil conduct and raises profound doubts about Soviet willingness to live up to its responsibilities and commitments under any international or bilateral agreement, including arms control agreements.

Urges the President to continue his forthright demands for the immediate and unconditional release of Mr. Daniloff, including through the reiteration of that demand in his September 22, 1986, speech to the United Nations.

Calls on the President to condition his agreement to a summit meeting with Secretary General Gorbachev on the prompt return of Mr. Daniloff from the Soviet Union.

Urges the President to limit further discussions on arms control issues with the Soviet Union, and to refrain from concluding any arms control agreements with the Soviet Union, until that country, by permitting Mr. Daniloff unconditionally to depart the Soviet Union, demonstrates its willingness to observe basic and fundamental standards of international conduct, which is a precondition to such good faith discussions.

Declares that the Senate of the United States shall not ratify any arms control agreement negotiated with the Soviet Union until that country has unconditionally released Mr. Daniloff.

Expresses opposition to any new economic or commercial agreement with the Soviet Union, or any new transactions under existing economic or commercial agreements with the Soviet Union, until Mr. Daniloff has been granted unconditional permission to depart the Soviet Union.

Calls on the President to demand in his September 22 speech to the United Nations that the Soviet Union remove its spies from its United Nations mission and from the United Nations Secretariat and to take all measures necessary to bring an end to such direct Soviet violations of Article 100, Section 2, of the United Nations Charter.

AMENDMENTS SUBMITTED

OMNIBUS BUDGET RECONCILIATION ACT

DOMENICI (AND OTHERS) AMENDMENT NO. 2850

Mr. DOMENICI (for himself, Mr. DOLE, and Mr. CHILES) proposed an amendment which was subsequently modified, to the bill (S. 2706) to provide for reconciliation pursuant to section 2 of the concurrent resolution on the budget for fiscal year 1987 (S. Con. Res. 120, 99th Congress); as follows:

On page 2, line 10, strike "$555,000,000" and insert in lieu thereof "$1,000,000,000".

On page 3, between lines 14 and 15, insert the following new sections:

SEC. . ADVANCE DEFICIENCY PAYMENTS.

Notwithstanding any other provision of law, the Secretary of Agriculture shall, in accordance with criteria in section 107C of the Agriculture Act of 1949, make advance deficiency payments available for the 1987 crops of wheat, feed grains, upland cotton, and rice: *Provided*, That the percentage of the projected payment rate used in computing such payments shall not be less than (1) 40 percent in the case of wheat and feed grains, and (2) 30 percent in the case of rice and upland cotton.

SEC. . PREPAYMENT OF REA LOANS.

SEC. 102. The Secretary of the Treasury shall issue final regulations implementing the provisions of the undesignated paragraph captioned "PREPAYMENT OF LOANS BY RURAL ELECTRIFICATION AND TELEPHONE SYSTEMS" appearing at 100 Stat. 713-14 in Public Law 99-349 (7 U.S.C. 936 note) to permit the prepayment of loans made by the Federal Financing Bank and guaranteed under section 306 of the Rural Electrification Act of 1936 (7 U.S.C. 936), by the Administrator of the Rural Electrification Administration, in such amounts as to realize net proceed of not less than $1,720,000,000 from such loan prepayments during fiscal year 1987.

On page 6, line 6, strike "$500,000,000" and insert in lieu thereof "$1,500,000,000".

On page 8, between lines 14 and 15, insert the following new section:

SEC. . FDIC PREMIUMS ON FOREIGN DEPOSITS OF UNITED STATES BANKS.

The Federal Deposit Insurance act is amended—

(1) by striking "except as provided in section 7(b)(5)," after "(A)" in section 3(1)(5);

(2) by striking out "and" at the end of clause (A) of section 7(b)(5); and

(3) by striking out the period at the end of section 7(b)(5) and inserting in lieu thereof the following: "; and

"(C) any deposits received in any foreign branch of international banking facility, other than any foreign branch of a foreign bank as defined in section 1(b)(7) of the International Banking Act of 1978.".

On page 12, between lines 4 and 5, insert the following new section:

SEC. . SALE OF CONRAIL

The Secretary of Transportation is directed in fiscal year 1987 to sell the interest of the United States in the common stock of the Consolidated Rail Corporation (Conrail). Consistent with the public interest convenants provided for pursuant to S. 638, the "Conrail Sale Amendments Act of 1985" as passed by the Senate on February 4, 1986, the Secretary, as part of such sale, shall ensure that Conrail's rail service is continued, that the interests of rail labor are protected, that it is in the strongest possible financial condition after the sale, that it is viable long-term, and that the return to the Federal Government is maximized.

On page 12, line 8, strike insert "OR PETROLEUM PRODUCTS" after "CRUDE OIL".

On page 12, line 18, insert "or petroleum products" after "crude oil".

On line 24 of page 13, before the world "patry" insert the world "private".

On page 19, line 21, strike out the period and insert in lieu thereof ": *Provided*, That the Commission shall increase fees and annual charges sufficient to increase offsetting receipts by at least $33,000,000 in fiscal year 1987 above current collections.".

On page 27, line 18, strike "1½" and inset in lieu thereof "1.3".

On page 49, line 6, strike "24" and insert in lieu thereof "the applicable number of".

On page 49, strike line 8 through 11 and insert in lieu thereof the following:

"(B) In this paragraph—

"(i) the term 'clean claim' means a claim which meets the requirements of section 1814(a)(1) and any other requirements of this title for payment under this part, and

"(ii) the term 'applicable number of calendar days' means—

"(I) with respect to claims received in the 12-month period beginning October 1, 1986, 27 calendar days,

"(II) with respect to claims received in the 12-month period beginning October 1, 1987, 26 calendar days,

"(III) with respect to claims received in the 12-month period beginning October 1, 1988, 25 calendar days, and

"(IV) with respect to claims received in the 12-month period beginning October 1, 1989, and claims received in any succeeding 12-month period, 24 calendar days.".

On page 50, line 1, strike "24" and insert in lieu thereof "the applicable number of".

On page 50, strike lines 3 through 5 and insert in lieu thereof the following:

"(B) In this paragraph—

"(i) the term 'clean claim' means a claim which meets the requirements of section 1814(a)(1) and any other requirements of this title for payment under this part, and

"(ii) the term 'applicable number of calendar days' means—

"(I) with respect to claims received in the 12-month period beginning October 1, 1986, 27 calendar days,

"(II) with respect to claims received in the 12-month period beginning October 1, 1987, 26 calendar days,

"(III) with respect to claims received in the 12-month period beginning October 1, 1988, 25 calendar days, and

"(IV) with respect to claims received in the 12-month period beginning October 1, 1989, and claims received in any succeeding 12-month period, 24 calendar days.".

On page 50, beginning with line 11, strike all through line 21 on page 51 and insert in lieu thereof the following:

"(e)(1) If for three consecutive calendar months, an agency or organization with an agreement with the Secretary under section 1816 meets the requirements of subsection (c)(2) of such section, the Secretary shall discontinue periodic interim payments (under 42 C.F.R. 405.454(j)) with respect to all providers of services (other than providers of the type described in paragraph (3)) paid through the agency or organization until such time as the agency or organization fails to meet such requirements for three consecutive calendar months.

"(2) If for three consecutive calendar months, an agency or organization with an agreement with the Secretary under section 1816 meets the requirements of subsection (c)(2) of such section, the Secretary shall provide for periodic interim payments with respect to all subsection (d) hospitals (as defined in section 1886(d)(1)(B)) that request such payments and that are paid through the agency or organization until such time as the agency or organization meets such requirements for three consecutive calendar months.

On page 52, line 4, strike "1842" and insert in lieu thereof "1842(c)".

On page 52, line 7, strike "(A)".

On page 52, line 8, strike "24 days after a clean claim as defined in paragraph (2)(B)" and insert thereof "the applicable number of calendar days (as defined in clause (ii) of paragraph (2)(B)) after a clean claim (as defined in clause (i) of such paragraph)".

On page 52, line 14, strike "made." and insert in lieu thereof "made.'.".

On page 52, strike lines 15 through 19 and insert in lieu thereof the following:

(3) Section 1816(c) of such Act, as amended by subsection (a), is further amended by adding at the end thereof the following new paragraph:

"(3) If payment is not issued, mailed, or otherwise transmitted within the applicable number of calendar days (as defined in clause (ii) of paragraph (2)(B)) after a clean claim (as defined in clause (i) of such paragraph) is received from a provider of skilled nursing facility services, home health services, or hospice services that is not receiving periodic interim payments with respect to such services, interest shall be paid at the rate used for purposes of section 3902(a) of title 31, United States Code (relating to interest penalties for failure to make prompt payments) for the period beginning on the day after the required payment date and ending on the date on which payment is made.".

On page 52, line 21, strike "The" and insert in lieu thereof "Except as provided in paragraph (2), the".

On page 52, between lines 22 and 23, insert the following:

(2) The amendments made by paragraphs (2) and (3) of subsection (c) shall apply to claims received on or after April 1, 1987.

On page 52, line 23, strike "(2)" and insert in lieu thereof "(3)".

On page 115, between lines 14 and 15, insert the following:

SEC. 653. REVENUE SHARING PAYMENTS.

Nothwithstanding section 6702(b) of title 31, United States Code, the Secretary of the Treasury shall make the installment payment of revenue sharing funds under chapter 67 of such title that is otherwise required to be paid on or before October 5, 1986, by no later than September 30, 1986.

On page 117, beginning with line 21, strike out all through page 118, line 2, and insert the following:

(c) TERMINATION OF OPTIONAL COVERAGE.—Subsection (v) of section 218 of the Social Security Act is repealed.

On page 120, beginning with line 17, strike all through line 18 on page 123.

On page 123 between lines 18 and 19, insert the following new sections:

SEC. . DEPOSITS OF SOCIAL SECURITY CONTRIBUTIONS BY STATES AND LOCAL GOVERNMENT EMPLOYEES.

(a) RETURNS AND PAYMENTS.—(1) Subchapter C of chapter 21 of the Internal Revenue Code of 1954 is amended by redesignating section 3126 as section 3127, and by inserting after section 3125 the following new section:

"SEC. 3126. RETURN AND PAYMENT BY GOVERNMENTAL EMPLOYER.

"If the employer is a State or political subdivision thereof, or an agency or instrumentality of any one or more of the foregoing, the return of the amount deducted and withheld upon any wages under section 3101 and the amount of the tax imposed by section 3111 may be made by any officer or employee of such State or political subdivision or such agency or instrumentality, as the case may be, having control of the payment of such wages, or appropriately designated for that purpose.".

(2) The table of sections for subchapter C of chapter 21 of such Code is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 3126. Return and payment by governmental employer.
"Sec. 3127. Short title.".

(b) TREATMENT OF SERVICE UNDER SECTION 218 AGREEMENTS AS EMPLOYMENT PERFORMED BY EMPLOYEES.—

(1) SERVICE TREATED AS EMPLOYMENT.—(A) Section 3121(b)(7) of such Code is amended—

(i) by striking out "; or" at the end of subparagraph (C) and inserting in lieu thereof a comma;

(ii) by striking out the semicolon at the end of subparagraph (D) and inserting in lieu thereof ", or ", and

(iii) by adding after subparagraph (D) the following new subparagraph:

"(E) service included under an agreement entered into pursuant to section 218 of the Social Security Act,".

(B) Section 1402(b) of such Code is amended by striking out "under an agreement entered into pursuant to the provisions of section 218 of the Social Security Act (relating to coverage of State employees), or" in the flush sentence immediately following paragraph (2).

(2) INDIVIDUAL PERFORMING SERVICES TREATED AS EMPLOYEE.—(A) Section 3121(d) of such Code is amended by redesignating paragraph (3) as paragraph (4), and by inserting after paragraph (2) the following new paragraph:

"(3) any individual who performs services that are included under an agreement entered into pursuant to section 218 of the Social Security Act; or".

(B) Section 3306(i) of such Code is amended by striking out "subparagraphs (B) and (C) of paragraph (3)" and inserting in lieu thereof "paragraph (3) and subparagraphs (B) and (C) of paragraph (4)".

(c) CONFORMING AMENDMENTS IN SOCIAL SECURITY ACT.—(1) Subsections (e), (h), (i), (j), (q), (r), (s), and (t) of section 218 of the Social Security Act are repealed; and subsections (f), (g), (k), (l), (m), (n), (o), (p), and (u) of such section are redesignated as subsections (e), (f), (g), (h), (i), (j), (k), (l), and (m), respectively.

(2)(A) Section 205(c)(1)(D)(i) of such Act is amended by inserting "(as in effect prior to December 31, 1986)" after "section 218(e)".

(B) Section 205(c)(5)(F)(iii) of such Act is amended—

(i) by inserting "(as in effect prior to December 31, 1986)" after "section 218", and

(ii) by inserting "(as so in effect)" after "subsection (q) of such section".

(C) Section 218(d)(6) of such Act is amended—

(i) by striking out "subsection (f)" in subparagraph (A) and inserting in lieu thereof "subsection (e)", and

(ii) by striking out "subsection (f)(1)" in subparagraph (F) and inserting in lieu thereof "subsection (e)(1)".

(D) Section 218(d)(8)(D) of such Act is amended by striking out "subsection (p)" and inserting in lieu thereof "subsection (1)".

(E) Section 218(e)(1) of such Act (as redesignated by paragraph (1) of this subsection) is amended by striking out "Except as provided in subsection (e)(2), any agreement" and inserting in lieu thereof "Any agreement".

(F) Section 224(a)(2)(B) of such Act is amended by striking out "section 218(k)" and inserting in lieu thereof "section 218(g)".

(d) EFFECTIVE DATE.—The amendments made by this section are effective with respect to payments due with respect to wages paid after December 31, 1986, including wages paid after such date by a State (or political subdivision thereof) that modified its agreement pursuant to the provisions of section 218(e)(2) of the Social Security Act prior to the date of the enactment of this Act; except that in cases where, in accordance with the currently applicable schedule, deposits of taxes due under an agreement entered into pursuant to section 218 of the Social Security Act would be required within 3 days after the close of an eighth-monthly period, such 3-day requirement shall be changed to a 7-day requirement for wages paid prior to October 1, 1987, and to a 5-day requirement for wages paid after September 30, 1987, and prior to October 1, 1988. For wages paid prior to October 1, 1988, the deposit schedule for taxes imposed under sections 3101 and 3111 shall be determined separately from the deposit schedule for taxes withheld under section 3402 if the taxes imposed under sections 3101 and 3111 are due with respect to service included under an agreement entered into pursuant to section 218 of the Social Security Act.

SEC. . CERTAIN EXCISE TAX DEPOSITS ACCELERATED.

(a) TOBACCO.—Subsection (b) of section 5703 of the Internal Revenue Code of 1954 (relating to method of payment of tax) is amended by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

"(2) TIME FOR PAYMENT OF TAXES.—

"(A) IN GENERAL.—In the case of taxes on tobacco products and cigarette papers and tubes removed during any semimonthly period, the last day for the payment of such taxes shall be the 14th day after the last day of such semimonthly period.

"(B) SPECIAL RULE WHERE 15TH DAY FALLS ON SATURDAY, SUNDAY, OR HOLIDAY.—If, but for this subparagraph, the due date under paragraph (1) would fall on a Saturday, Sunday, or a Federal holiday, such due date shall be the immediately preceding day which is not a Saturday, Sunday, or such a holiday."

(b) DISTILLED SPIRITS.—Section 5061 of the Internal Revenue Code of 1954 (relating to method of collecting tax) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) TIME FOR PAYMENT OF TAXES ON DISTILLED SPIRITS.—

"(1) IN GENERAL.—If—

"(A) any tax is imposed on distilled spirits under this part, and

"(B) such distilled spirits are withdrawn under bond for deferred payment of tax or from bonded premises (including customs custody),

the last day for payment of such tax shall be the 14th day after the last day of the semimonthly period during which such withdrawal occurred.

"(2) EXCEPTION WHERE EARLIER PAYMENT REQUIRED.—Paragraph (1) shall not apply to any tax imposed on distilled spirits if the due date for the payment of such tax is earlier under subsection (b).

"(3) SPECIAL RULE WHERE 14TH DAY FALLS ON SATURDAY, SUNDAY, OR HOLIDAY.—If, but for this paragraph, the due date under paragraph (1) would fall on a Saturday, Sunday, or a Federal holiday, such due date shall be the immediately preceding day which is not a Saturday, Sunday, or such a holiday."

(c) EFFECTIVE DATE. —

(1) IN GENERAL.—The amendments made by this section shall apply to taxes paid after September 30, 1986, for semimonthly periods ending on or after such date.

(2) SPECIAL RULE FOR SEMIMONTHLY PERIOD ENDING SEPTEMBER 15, 1986.—With respect to remittances for taxes imposed on tobacco products and cigarette papers and tubes under section 5701 of the Internal Revenue Code of 1954 for the semimonthly period ending on September 15, 1986, the last day for such remittances shall be October 14, 1986.

SEC. . INCREASES IN CERTAIN PENALTIES.

(a) AGGREGATE NEGLIGENCE AND SUBSTANTIAL UNDERSTATEMENT PENALTIES NOT TO BE LESS THAN 25 Percent.—

(1) IN GENERAL.—Subchapter A of chapter 68 of subtitle F (relating to additions to tax) is amended by redesignating section 6662 as section 6663 and by inserting after section 6661 the following new section:

"SEC. 6662. AGGREGATE PENALTY ON CERTAIN UNDERPAYMENTS NOT TO BE LESS THAN 25 PERCENT.

"(a) GENERAL RULE.—If there is a tax imposed under section 6653(a) or 6661, or both, on any portion of the underpayment or understatement, then there is hereby imposed a tax equal to the excess (if any) of—

"(1) 25 percent of the amount of such portion, over

"(2) the aggregate amount of taxes imposed under sections 6653(a) and 6661 on such portion.

"(b) DEFINITIONS.—For purposes of this section, the terms 'underpayment' and 'understatement' have the meanings given such terms by section 6653(c)(1) and 6661(b)(2), respectively."

(b) INCREASE IN TAX ON FAILURE TO MAKE DEPOSIT OF TAXES.—Section 6656(a) (relating to underpayment of deposits) is amended by striking out "5 percent" and inserting in lieu thereof "10 percent".

(c) CONFORMING AMENDMENTS.—The table of sections for subchapter A of chapter 68 of subtitle F is amended by striking out the item relating to section 6662 and inserting in lieu thereof the following new items:

"Sec. 6662. Aggregate penalty on certain underpayments not to be less than 25 percent.
"Sec. 6663. Applicable rules."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to penalties assessed after the date of enactment of this Act.

SEC. . APPROPRIATIONS FOR IRS ENFORCEMENT.

The conference agreement on the appropriations measure providing funding for the Internal Revenue Service for the fiscal year ending September 30, 1987, will include the following funding levels: for "Salaries and Expenses", $95,147,000; for "Processing Tax Returns", $1,332,902,000; for "Examinations and Appeals", $1,623,162,000; and for "Investigation, Collection, and Taxpayer Service", $1,196,581,000: *Provided,* That the allocation to the Senate Committee on Appropriations pursuant to section 302(a) of the Budget Act, as amended, under Senate Concurrent Resolution 120, the concurrent resolution on the budget for fiscal year 1987, is increased by $300,000,000 in both new budget authority and outlays.

On page 191, lines 11 and 12, strike "together with any underlying Federal guaranty,".

On page 191, lines 22 and 23, strike "be with recourse to the Federal Government and shall".

At the end of the bill, add the following new titles:

TITLE .—SOCIAL SECURITY COLAS

SEC. . REMOVAL OF THREE PERCENT THRESHOLD FOR COST-OF-LIVING ADJUSTMENTS.

(a) SHORT TITLE.—This title may be cited as the "Cost-of-Living Adjustment Reform Act of 1986".

(b) IN GENERAL.—

(1) Section 215(i) of the Social Security Act is amended by striking out "is 3 percent or more" in paragraph (1)(B) and inserting in lieu thereof "is greater than zero".

(2) Section 215(i)(1)(B) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out "exceeds, by not less than 3 per centum, such Index" and inserting in lieu thereof "exceeds such Index".

(3) Section 2159(i)(2)(C) of such Act is amended—

(A) by striking out clause (i) and redesignating clauses (ii) and (iii) as clauses (i) and (ii), respectively; and

(B) by striking out "under clause (ii)" in clause (ii) as so redesignated and inserting in lieu thereof "under clause (i)".

(4) Section 215(i)(2)(C) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out clause (i) and by striking out "(ii)".

(5) Section 215(i)(4) of such Act is amended by inserting "and by the Cost-of-Living Adjustment Reform Act of 1986" after "Social Security Amendments of 1983".

(6) Section 215(i)(5)(A)(i) of such Act is amended by striking out "because the wage percentage increase was less than 3 percent" and inserting in lieu thereof "because there was no wage percentage increase greater than zero".

(c) TECHNICAL AMENDMENT TO SMI PROGRAM.—Section 1839(f)(2)(A) of such Act is amended to read as follows:

"(A) the monthly premium amount determined under subsection (a)(2) for that January reduced by the amount (if any) by which the month benefit under section 202 or 223 for that November, after the deduction of the premium (disregarding subsection (b)) for that individual for that December and after rounding under section 215(g), would exceed the monthly benefit under section 202 or 223 for that December, after the deduction of monthly premium amount determined under subsection (a)(2) (disregarding subsection (b)) for that individual for that January and after rounding under section 215(g), or".

(d) EFFECTIVE DATE.—

(1) Except as otherwise provided in this subsection, the amendments made by this section shall apply with respect to cost-of-living increases determined in 1986 and all subsequent years.

(2) The amendments made by paragraphs (3) and (4) of subsection (b) shall apply with respect to months beginning after September 1986.

(3) The amendment made by subsection (c) shall apply with respect to monthly premiums (under section 1839 of the Social Security Act) for months after December 1986.

TITLE—MISCELLANEOUS PROVISIONS

SEC. . COMPUTATION OF RETIREMENT ANNUITY FOR PART-TIME EMPLOYMENT.

(a) Subsection (b) of section 15204 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Public Law 99-272; 100 Stat. 335) is repealed.

(b) Subsection (c) of such section is redesignated as subsection (b).

SEC. . MAKING RULES ON EXTRANEOUS PROVISIONS PERMANENT.

(a) Section 20001(c) of Public Law 99-272 is amended by striking out "and shall remain in effect until January 2, 1987".

(b) Senate Resolution 286, adopted December 19, 1985, is amended by striking "section 1201" each place it appears and inserting in lieu thereof "section 20001".

SEC. . MODIFICATION OF DEADLINE FOR SUBMISSION OF PRESIDENT'S BUDGET.

(a) Section 1105(a) of title 31, United States Code, is amended by striking out "first Monday after January 3 of each year (or on or before February 5 in 1986)" and inserting in lieu thereof "first Tuesday in February of each year".

(b) Section 300 of the Congressional Budget Act of 1974 is amended by striking out "First Monday after January 3" and inserting in lieu thereof "First Tuesday in February".

(c) Section 1109(a) of title 31, United States Code, is amended by striking out "On or before the first Monday after January 3 of each year (on or before February 5 in 1986)" and inserting "Concurrently with each budget submitted pursuant to section 1105(a) of this title".

SEC. . TREATMENT OF LOAN ASSET SALES FOR DIRECT REDUCTION.

(a) In order to achieve the purposes of the concurrent resolution on the budget for fiscal year 1987, S. Con. Res. 120, 99th Congress, and notwithstanding any other provision of this Act, any sale of debentures, as well as any underlying Federal guaranty, by the Secretary of the Treasury, or any other agent of the United States, pursuant to provisions of this Act, shall be without recourse to the Federal Government and shall discharge the Federal Government's obligations with respect to any individual purchaser or assigneee of such debenture.

(b) In the interest of budgetary savings, it is the intent of the Congress that this section be interpreted by the Secretary of the Treasury, or any other agent of the United States, and any court of law, as superseding any provison of this Act appearing to set forth a contrary requirement.

STEVENS AMENDMENT NO. 2851

Mr. STEVENS proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

Strike all from line 18, page 18(b) through line 23, page 18(c).

CONSOLIDATED FEDERAL FUNDS REPORT AMENDMENTS OF 1986

DURENBERGER AMENDMENT NO. 2852

(Ordered to lie on the table.)

Mr. DURENBERGER submitted an amendment intended to be proposed by him to the bill (H.R. 3168) to require the Director of the Office of Management and Budget to prepare an annual report consolidating the available data on the geographic distribution of Federal funds, and for other purposes; as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. This Act may be cited as the "Consolidated Federal Funds Report Amendments of 1986".

SEC. 2. (a) Title 31, United States Code, is amended by inserting after chapter 61 the following new chapter:

"Chapter 62—Consolidated Federal Funds Report

"Sec.
"6201. Definitions.
"6202. Content, form, and data for report.
"6203. Printing and distribution of reports and machine-readable records.
"6204. Delegation.
"6205. Availability of information.
"6206. Data consistency and uniformity of data elements.
"6207. Authorization of appropriations.

"§ 6201. Definitions

"As used in this chapter, the term—

"(1) 'Director' means the Director of the Office of Management and Budget;

"(2) 'State' means any State, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands; and

"(3) 'municipality' means any subcounty unit of general local government that received Federal assistance in the fiscal year that is the subject of a report under this chapter.

"§ 6202. Content, form and data for report

"(a) For fiscal years 1986, 1987, 1988, 1989, and 1990, not later than 180 days after the end of each fiscal year, the Director shall prepare a Consolidated Federal Funds Report presenting the total amount of Federal funds that were obligated for expenditure or expended in each State, county or parish, congressional district, and municipality of the United States in appropriate general categories of Federal funds during the preceding fiscal year. To the extent practicable, such categories shall be consistently constituted from year to year. The report shall be in the form described in sub-

section (b) of this section and shall be based on the data referred to in subsection (c) of this section.

"(b) The Director shall include in each report required by subsection (a) of this section—

"(1) the total amount of Federal funds that were reported obligated for expenditure in each State, county or parish, congressional district, and municipality of the United States in appropriate general categories of Federal funds in the fiscal year preceding the fiscal year in which the report is made; or

"(2) the total amount of Federal funds that were reported actually expended in each State, county or parish, congressional district, and municipality of the United States in appropriate categories in the fiscal year preceding the fiscal year in which the report is made.

"(c) The report required by subsection (a) of this section shall be based on the data included in—

"(1) the assistance awards information system established pursuant to section 6102a of this title;

"(2) the Federal Procurement Data System established pursuant to section (6)(d)(4) of the Office of Federal Procurement Policy Act (41 U.S.C. 405(d)(4));

"(3) the appropriate data files of the Office of Personnel Management;

"(4) the payroll, pension, and grants files of the Office of the Secretary of Defense;

"(5) the appropriate data files of the United States Postal Service and the Postal Rate Commission;

"(6) the data system used by the Bureau of the Census to prepare the annual Federal aid to States report;

"(7) the retirement and disability files of the United States Coast Guard, the Tennessee Valley Authority, the Commissioned Corps of the Public Health Service, the Commissioned Corps of the National Oceanic and Atmospheric Administration, and the Foreign Service;

"(8) the insurance claims files of the Federal Emergency Management Agency and the Department of Agriculture;

"(9) the grants files of the Legal Services Corporation;

"(10) the excess earned income tax credit file of the Internal Revenue Service;

"(11) the appropriate data files of the National Railroad Passenger Corporation; and

"(12) the payroll file of the Federal Bureau of Investigation.

"(d) For the purposes of subsection (b) of this section, the general categories of Federal funds presented in each report required by subsection (a) of this section shall include data with respect to grants, loans, purchases and contracts, cooperative agreements, direct Federal payments to individuals, pay of civilian employees of the Government, military pay, annuities, retirement pay, pensions, and disability compensation.

"§ 6203. Printing and distribution of reports and machine-readable records

"(a)(1) The Director shall—

"(A) prepare—

"(i) printed copies of each of the reports required by this chapter; and

"(ii) machine-readable records of such reports; and

"(B) make the printed copies of the reports and the machine-readable records available to the public for purchase at a price fixed under subsection (b) of this section.

"(2) The Director shall transmit free of charge one of each of the printed copies of the reports required by this chapter to—

"(A) each Federal regional depository library;

"(B) the Committees on Government Operations, the Budget, and Appropriations of the House of Representatives; and

"(C) the Committee on Governmental Affairs, the Budget, and Appropriations of the Senate.

"(3) The Director shall also transmit promptly after the end of each calendar year, free of charge, one machine-readable record of the report required by section 6202 of this title to the Committee on Rules and Administration of the Senate and to the Committee on House Administration of the House of Representatives.

"(4) Subject to subsection (b) of this section, the Director may, at his discretion, waive all or part of the fee required by subsection (a)(1)(B) of this section.

"(b) In carrying out subsection (a)(1)(B) of this section, the Director shall, based on the estimates made under paragraphs (1) through (4) of this subsection, fix the price of each printed copy and each machine-readable record of the report so that the aggregate revenues obtained in each fiscal year under subsection (a) of this section will cover as much as is feasible of the incremental costs incurred in making such reports and machine-readable records available for purchase by the public. In computing such costs the Director shall not consider the costs of the activities set forth in sections 6102a and 6205 of this title but shall consider—

"(1) the cost of compiling the reports required by this chapter;

"(2) the cost of preparing the printed copies and machine-readable records under subsection (a) of this section;

"(3) the cost of distributing the printed copies and the machine-readable records of the report for each fiscal year; and

"(4) the number of printed copies and the number of machine-readable records of the report that will be purchased.

"§ 6204. Delegation

In order to carry out sections 6202 and 6203 of this title, the Director may delegate to any authority of the executive branch of the Federal Government the responsibility for carrying out such sections. The Director shall oversee the activities of any authority to which responsibilities are delegated under this section and shall monitor the compliance of each authority with respect to the requirements set forth in section 6205 of this title.

"§ 6205. Availability of information

Each head of any authority of the Government having custody of the data files and systems referred to in section 6202(c) of this title—

"(1) shall make available to the Director (or other authority to which the Director has delegated the responsibility to carry out such section) the information requested in the form designated; and

"(2) is authorized to make available to the Director (or such other authority) such administrative services, equipment, personnel, and facilities (and funds appropriated therefor) as the Director or such authority requires to carry out such section.

"§ 6206. Data consistency and uniformity of data elements

"The Director shall designate a single organizational unit to provide for data consistency and uniform reporting of data elements.

"§ 6207. Authorization of appropriations

"There are authorized to be appropriated to carry out this chapter such sums as may be necessary for each of the fiscal years 1986, 1987, 1988, 1989, and 1990.".

(b)(1) Section 6102a of title 31, United States Code, is amended by adding at the end thereof the following new subsection:

"(c) the Director shall transmit promptly after the end of each calendar quarter, free of charge, the data in the system required by subsection (a) to the Committee on Rules and Administration of the Senate and to the Committee on House Administration of the House of Representatives.".

(2) Section 6101(4)(B) of such title is amended by striking out "a department, agency, or instrumentality of the Government" and inserting in lieu thereof "Assistance from an agency for an agency".

(c) The table of chapters for subtitle V of title 31, United States Code, is amended by inserting after the item pertaining to chapter 61 the following new item:

"62. Consolidated Federal Funds Report

(d) The Consolidated Federal Funds Report Act of 1982 is repealed.

● Mr. DURENBERGER. Mr. President, I rise today in support of H.R. 3168, the Consolidated Federal Funds Report Amendments of 1985. The bill is a straightforward reauthorization of a very valuable document—the consolidated Federal funds report or CFFR. The CFFR provides important information on Federal outlays to individual States, counties, cities, and congressional districts. The categories include grants to State and local governments and individuals, cooperative agreements, loans, salaries, contracts, et cetera.

The CFFR pulls together this data from many different sources and agencies and presents it is a clear and consistent format—a format useful both to administrators and managers in Federal agencies and to those of us here on the Hill who want a clear understanding of the distribution and impact of Federal aid. The report is also useful at the State and local level where managers and planners rely heavily on the CFFR in developing their budgets and assessing the proposed impact of Federal policy changes.

The CFFR is the only complete source of information on Federal aid distribution. Prepared by OMB and Census, the report has received favorable comments from every quarter. GAO and OMB are anxious to continue its production and have endorsed this reauthorization.

Since the Consolidated Federal Funds Report Program began in 1983, the administration has funded it through reimbursement made to the Bureau of the Census by the participating agencies. Although section 6207 authorizes appropriations for the CFFR, the administration intends to continue to fund this program using the current reimbursement mecha-

nism. It is my understanding that both the House and Senate are in agreement that this approach should continue to be used in the spirit of cooperation among the participating agencies.

I should also note that I am offering a set of technical amendments to the bill. These amendments are noncontroversial and have been agreed to by the House managers of the bill.

The Consolidated Federal Funds Report Amendments of 1986 will reauthorize a report which will produce information of value of Federal, State, and local governments across the country. I urge its immediate passage.●

OMNIBUS BUDGET RECONCILIATION ACT

QUAYLE (AND OTHERS) AMENDMENT NO. 2853

Mr. QUAYLE (for himself, Mr. EXON, Mr. NICKLES, Mr. ZORINSKY, Mr. HUMPHREY, Mr. GRAMM, and Mr. WARNER) proposed an amendment to the bill (S. 2706), supra; as follows:

At the appropriate place in the text of the bill insert the following: (Section) that (a) the President may, within 3 days of the time the President approves any appropriation bill, transmit to both Houses of Congress, one or more special messages in accordance with subsection (b) proposing to rescind all or part of any item of appropriation provided in the appropriation bill, such special messages shall be considered in accordance with the provisions of this resolution.

(b)(1) Each special message transmitted under subsection (a) shall specify, with respect to each item of appropriation (or part thereof) proposed by the message to be rescinded, the matters referred to in paragraphs (1) through (5) of section 1012(a) of the Impoundment Control Act of 1974 (2 U.S.C. 683(a)).

(2) Each special message transmitted under subsection (a) shall be accompanied by a draft bill or joint resolution that would, if enacted, rescind each item of appropriation (or part thereof) proposed by the message to be rescinded.

(c)(1)(A) On the day on which a special message proposing to rescind an item of appropriation is transmitted to the House of Representatives and the Senate under subsection (a), the draft bill or joint resolution accompanying such special message shall be introduced (by request) in the House by the majority leader of the House, for himself and the minority leader of the House, or by the Members of the House designated by the majority leader and the minority leader of the House, and shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by the Members of the Senate designated by the majority leader and the minority leader of the Senate. If either House is not in session on the day on which a special message is transmitted, the draft bill or joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which such House is in session.

(B) A bill or joint resolution introduced in the House of Representatives or the Senate pursuant to subparagraph (A) shall be referred on the date of introduction to the Committee on Appropriations of such House. The committee shall report the bill or joint resolution without substantive revision (and with or without recommendation) not later than 5 calendar days of continuous session of the Congress after the date on which the bill or joint resolution is introduced. A committee failing to report a bill or joint resolution within the 5-day period referred to in the preceding sentence shall be automatically discharged from consideration of the bill or joint resolution, and the bill or joint resolution shall be placed on the appropriate calendar.

(C) A vote on final passage of a bill or joint resolution introduced in a House of the Congress pursuant to subparagraph (A) shall be taken on or before the close of the 10th calendar day of continuous session of the Congress after the date of the introduction of the bill or joint resolution in such House. If the bill or joint resolution is agreed to, the Clerk of the House of Representatives (in the case of a bill or joint resolution agreed to in the House of Representatives) or the Secretary of the Senate (in the case of a bill or joint resolution agreed to in the Senate) shall cause the bill or joint resolution to be engrossed, certified, and transmitted to the other House of the Congress on the same calendar day on which the bill or joint resolution is agreed to by such House.

(2) If prior to the passage by one House of a bill or joint resolution introduced in that House under this section, that House receives a bill or joint resolution containing the same provisions from the other House pursuant to subparagraph (C) of paragraph (1), then—

(A) the procedure in the House receiving the bill or joint resolution with respect to the bill or joint resolution introduced in that House shall be the same as if the bill or joint resolution had not been received from the other House; but

(B) the vote on final passage shall be on the bill or joint resolution of the other House.

(3)(A) A motion in the House of Representatives to proceed to the consideration of a bill or joint resolution under this section shall be highly privileged and not debatable. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(B) Debate in the House of Representatives on a bill or joint resolution under this section shall be limited to not more than 4 hours, which shall be divided equally between those favoring and those opposing the bill or joint resolution. A motion to postpone, made in the House of Representatives with respect to the consideration of a bill or joint resolution under this section, a motion to proceed to the consideration of other business, shall not be in order. A motion further to limit debate shall not be debatable. It shall not be in order to move to table or to recommit a bill or joint resolution under this section or to move to reconsider the vote by which the bill or joint resolution is agreed to or disagreed to.

(C) All appeals froam the decisions of the Chair relating to the application of the Rules of the House of Representatives to the procedure relating to a bill or joint resolution under this section shall be decided without debate.

(D) Except to the extent specifically provided in the preceding provisions of this paragraph, consideration of a bill or joint resolution under this section shall be governed by the Rules of the House of Representatives applicable to other bills and joint resolutions in similar circumstances.

(4)(A) A motion in the Senate to proceed to the consideration of a bill or joint resolution under this section shall be privileged and not debatable. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(B) Debate in the Senate on a bill or joint resolution under this section, and all debatable motions and appeals in connection therewith, shall be limited to not more than 4 hours. The time shall be equally divided between, and controlled by, the majority leader and the minority leader or their designees.

(C) Debate in the Senate on any debatable motion or appeal in connection with a bill or joint resolution under this section shall be limited to not more than 1 hour, to be equally divided between, and controlled by, the mover and the manager of the bill or joint resolution, except that in the event the manager of the bill or joint resolution is in favor of any such motion or appeal, the time in opposition thereto, shall be controlled by the minority leader or his designee. Such leaders, or either of them, may, from time under their control on the passage of a bill or joint resolution, allot additional time to any Senator during the consideration of any debatable motion or appeal.

(D) A motion in the Senate to further limit debate on a bill or joint resolution under this section is not debatable. A motion to table or to recommit a bill or joint resolution under this section is not in order.

(d) No amendment to a bill or joint resolution considered under this section shall be in order in either the House of Representatives or the Senate. No motion to suspend the application of this subsection shall be in order in either House, nor shall it be in order in either House for the Presiding Officer to entertain a request to suspend the application of this subsection by unanimous consent.

(e) For purposes of this section—

(1) "item of appropriation" means any numerically expressed amount of budget authority set forth in an appropriation bill;

(2) "appropriation bill" means any general or special appropriation bill, and any bill or joint resolution making supplemental, deficiency, or continuing appropriations;

(3) "appropriation Act" means any appropriation bill that has been approved by the President and become law;

(4) "budget authority" has the meaning given to such term in section 3(2) of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 622(2)); and

(5) continuity of a session of the Congress shall be considered as broken only by an adjournment of the Congress sine die, and the days on which either House is not in session because of an adjournment of more than 3 days to a day certain shall be excluded in the computation of the 5-day and 10-day periods referred to in subsection (c) of this section. If a special message is transmitted under this section during any Congress and the last session of the Congress adjourns sine die before the expiration of 10 calendar days of continuous session (or a special mes-

sage is transmitted after the last session of the Congress adjourns sine die), the message shall be deemed to have been retransmitted on the first day of the succeeding Congress and the 5-day and 10-day periods referred to in subsection (c) of this section shall commence on the day after such first day.

(f) The provisions of this section are enacted by the Congress—

(1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such they shall be considered as part of the rules of each House, respectively, or of that House to which they specifically apply, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change such rules (so far as relating to such House) at any time, in the same manner, and to the same extent as in the case of any other rule of such House.

TRIBLE (AND WARNER) AMENDMENT NO. 2854

Mr. TRIBLE (for himself and Mr. WARNER) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill (S. 2706), supra; as follows:

At the end of the amendment, add the following new title:

TITLE X—METROPOLITAN WASHINGTON AIRPORTS

SEC. 1001. SHORT TITLE AND TABLE OF CONTENTS.

This title may be cited as the "Metropolitan Washington Airports Act of 1986".

TABLE OF CONTENTS

Sec. 1001. Short title and table of contents.
Sec. 1002. Findings.
Sec. 1003. Purpose.
Sec. 1004. Definitions.
Sec. 1005. Lease of Metropolitan Washington Airports.
Sec. 1006. Capital improvements, construction, and rehabilitation.
Sec. 1007. Airports Authority.
Sec. 1008. Federal employees at the Metropolitan Washington Airports.
Sec. 1009. Relationship to and effect of other laws.
Sec. 1010. Authority to negotiate extension of lease.
Sec. 1011. Separability.
Sec. 1012. Nonstop flights.

SEC. 1002. FINDINGS.

The Congress finds that—

(1) the two federally owned airports in the metropolitan area of Washington, District of Columbia, constitute an important and growing part of the commerce, transportation, and economic patterns of the Commonwealth of Virginia, the District of Columbia, and the surrounding region;

(2) Baltimore/Washington International Airport, owned and operated by the State of Maryland, is an air transportation facility that provides service to the greater Metropolitan Washington region together with the two federally owned airports, and timely Federal-aid grants to Baltimore/Washington International Airport will provide additional capacity to meet the growing air traffic needs and to compete with other airports on a fair basis;

(3) the Federal Government has a continuing but limited interest in the operation of the two federally owned airports, which serve the travel and cargo needs of the entire Metropolitan Washington region as well as the District of Columbia as the national seat of government;

(4) operation of the Metropolitan Washington Airports by an independent local agency will facilitate timely improvements at both airports to meet the growing demand of interstate air transportation occasioned by the Airline Deregulation Act of 1978 (Public Law 95-504; 92 Stat. 1705);

(5) all other major air carrier airports in the United States are operated by public entities at the State, regional, or local level;

(6) any change in status of the two airports must take into account the interest of nearby communities, the traveling public, air carriers, general aviation, airport employees, and other interested groups, as well as the interests of the Federal Government and State governments involved;

(7) in recognition of the limited need for a Federal role in the management of these airports and the growing local interest, the Secretary has recommended a transfer of authority from the Federal to the local/State level that is consistent with the management of major airports elsewhere in the Nation;

(8) an operating authority with representation from local jurisdictions, similar to authorities at all major airports in the United States, will improve communications with local officials and concerned residents regarding noise at the Metropolitan Washington Airports;

(9) a commission of congressional, State, and local officials and aviation representatives has recommended to the Secretary that transfer of the federally owned airports be as a unit to an independent authority to be created by the Commonwealth of Virginia and the District of Columbia; and

(10) the Federal interest in these airports can be provided through a lease mechanism which provides for local control and operation.

SEC. 1003. PURPOSE.

(a) IN GENERAL.—It is therefore declared to be the purpose of the Congress in this title to authorize the transfer of operating responsibility under long-term lease of the two Metropolitan Washington Airport properties as a unit, including access highways and other related facilities, to a properly constituted independent airport authority created by the Commonwealth of Virginia and the District of Columbia, in order to achieve local control over the management, operation, and development of these important transportation assets.

(b) INCLUSION OF BWI NOT PRECLUDED.—Nothing in this title shall be construed to prohibit the Airports Authority and the State of Maryland from entering into an agreement whereby Baltimore/Washington International Airport may be made part of a regional airports authority, subject to terms and conditions agreed to by the Airports Authority, the Secretary, the Commonwealth of Virginia, the District of Columbia, and the State of Maryland.

SEC. 1004. DEFINITIONS.

In this title—

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Aviation Administration.

(2) AIRPORTS AUTHORITY.—The term "Airports Authority" means the Metropolitan Washington Airports Authority, a public body to be created by the Commonwealth of Virginia and the District of Columbia consistent with the requirements of section 1007.

(3) EMPLOYEES.—The term "employees" means all permanent Federal Aviation Administration personnel employed on the date the lease under section 1005 takes effect by the Metropolitan Washington Airports, an organization within the Federal Aviation Administration.

(4) METROPOLITAN WASHINGTON AIRPORTS.—The term "Metropolitan Washington Airports" means Washington National Airport and Washington Dulles International Airport.

(5) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

(6) WASHINGTON DULLES INTERNATIONAL AIRPORT.—The term "Washington Dulles International Airport" means the airport constructed under the Act entitled "An Act to authorize the construction, protection, operation, and maintenance of a public airport in or in the vicinity of the District of Columbia", approved September 7, 1950 (64 Stat. 770), and includes the Dulles Airport Access Highway and Right-of-way, including the extension between the Interstate Routes I-495 and I-66.

(7) WASHINGTON NATIONAL AIRPORT.—The term "Washington National Airport" means the airport described in the Act entitled "An Act to provide for the administration of the Washington National Airport, and for other purposes", approved June 29, 1940 (54 Stat. 686).

SEC. 1005. LEASE OF METROPOLITAN WASHINGTON AIRPORTS.

(a) AUTHORITY TO ENTER INTO LEASE.—The Secretary is directed to enter into a lease of the Metropolitan Washington Airports with the Airports Authority for a 50-year term and to enter into any related agreement necessary for the transfer of authority and property to the Airports Authority within nine months after the date of the enactment of this title.

(b) PAYMENTS.—

(1) LEASE PAYMENTS.—The lease shall provide for the Airports Authority to pay to the general fund of the Treasury $150,000,000 over the term of the lease, in equal annual installments.

(2) RETIREMENT OBLIGATIONS.—

(A) DISCONTINUED SERVICE.—Not later than one year after the lease takes effect, the Airports Authority shall pay to the Treasury of the United States, to be deposited to the credit of the Civil Service Retirement and Disability Fund, an amount determined by the Office of Personnel Management to represent the actual added costs incurred by the Fund due to discontinued service retirement under section 8336(d)(1) of title 5, United States Code, of employees who elect not to transfer to the Airports Authority.

(B) UNFUNDED LIABILITY.—Not later than two months after the lease takes effect, the Airports Authority shall pay to the Treasury of the United States, to be deposited to the credit of the Civil Service Retirement and Disability Fund, an amount determined by the Office of Personnel Management to represent the present value of the difference between (i) the future cost of benefits payable from the Fund and due the employees covered under section 1008(e) of this title that are attributable to the period of employment following the date the lease takes effect, and (ii) the contributions made by the employees and the Airports Authority under section 1008(e). In determining the amount due, the Office of Personnel Management shall take into consideration the actual interest such amount can be ex-

pected to earn when invested in the Treasury of the United States.

(c) MINIMUM TERMS AND CONDITIONS.—The Airports Authority shall agree, at a minimum, to the following conditions and requirements in the lease:

(1) OPERATION OF AIRPORTS AS A UNIT.—The Airports Authority shall operate, maintain, protect, promote, and develop the Metropolitan Washington Airports as a unit and as primary airports serving the Metropolitan Washington area.

(2) AIRPORT PURPOSES.—The real property constituting the Metropolitan Washington Airports shall, during the period of the lease, be used only for airport purposes. For the purposes of this paragraph, the term "airport purposes" means a use of property interests (other than a sale) for aviation business or activities, or for activities necessary or appropriate to serve passengers or cargo in air commerce, or for nonprofit, public use facilities. If the Secretary determines that any portion of the real property leased to the Airports Authority pursuant to this Act is used for other than airport purposes, the Secretary shall (A) direct that appropriate measures be taken by the Airports Authority to bring the use of such portion of real property in conformity with airport purposes, and (B) retake possession of such portion of real property if the Airports Authority fails to bring the use of such portion into a conforming use within a reasonable period of time, as determined by the Secretary.

(3) AIP REQUIREMENTS.—The Airports Authority shall be subject to the requirements of section 511(a) of the Airport and Airway Improvement Act of 1982 and the assurances and conditions required of grant recipients under such Act as of the date the lease takes effect. Notwithstanding section 511(a)(12) of such Act, all revenues generated by the Metropolitan Washington Airports shall be expended for the capital and operating costs of such airports.

(4) CONTRACTS.—In acquiring by contract supplies or services for an amount estimated to be in excess of $200,000, or awarding concession contracts, the Airports Authority shall obtain, to the maximum extent practicable, full and open competition through the use of published competitive procedures. By a vote of seven members, the Airports Authority may grant exceptions to the requirements of this paragraph.

(5) CONTINUATION OF REGULATIONS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), all regulations of the Metropolitan Washington Airports (14 C.F.R. part 159) shall become regulations of the Airports Authority on the date the lease takes effect and shall remain in effect until modified or revoked by the Airports Authority in accordance with procedures of the Airports Authority.

(B) EXCEPTIONS.—The following regulations shall cease to be in effect on the date the lease takes effect:

(i) section 159.59(a) of title 14, Code of Federal Regulations (relating to new-technology aircraft); and

(ii) section 159.191 of title 14, Code of Federal Regulations (relating to violations of Federal Aviation Administration regulations as Federal misdemeanors).

(C) OPERATIONS.—The Airports Authority may not increase or decrease the number of instrument flight rule takeoffs and landings authorized by the High Density Rule (14 C.F.R. 93.121 et seq.) at Washington National Airport on the date of the enactment of this Act and may not impose a limitation after the date the lease takes effect on the number of passengers taking off or landing at Washington National Airport.

(6) TRANSFER OF RIGHTS, LIABILITIES, AND OBLIGATIONS.—

(A) IN GENERAL.—Except as specified in subparagraph (B) of this paragraph, the Airports Authority shall assume all rights, liabilities, and obligations (tangible and incorporeal, present and executory) of the Metropolitan Washington Airports on the date the lease takes effect, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, accounts payable, and litigation relating to such rights and obligations, regardless whether judgment has been entered, damages awarded, or appeal taken. Before the date the lease takes effect, the Secretary shall also assure that the Airports Authority has agreed to cooperate in allowing representatives of the Attorney General and the Secretary adequate access to employees and records when needed for the performance of functions related to the period before the effectiveness of the lease. The Airports Authority shall assume responsibility for the Federal Aviation Administration's Master Plans for the Metropolitan Washington Airports.

(B) EXCEPTIONS.—The procedure for disputes resolution contained in any contract entered into on behalf of the United States before the date the lease takes effect shall continue to govern the performance of the contract unless otherwise agreed to by the parties to the contract. Claims for monetary damages founded in tort, by or against the United States as the owner and operator of the Metropolitan Washington Airports, arising before the date the lease takes effect shall be adjudicated as if the lease had not been entered into.

(C) PAYMENTS INTO EMPLOYEES' COMPENSATION FUND.—The Federal Aviation Administration shall remain responsible for reimbursing the Employees' Compensation Fund, pursuant to section 8147 of title 5, United States Code, for compensation paid or payable after the date the lease takes effect in accordance with chapter 81 of title 5, United States Code, with regard to any injury, disability, or death due to events arising before such date, whether or not a claim has been filed or is final on such date.

(D) COLLECTIVE BARGAINING RIGHTS.—The Airports Authority shall continue all collective bargaining rights enjoyed before the date the lease takes effect by employees of the Metropolitan Washington Airports.

(7) AUDITS.—The Comptroller General of the United States may conduct periodic audits of the activities and transactions of the Airports Authority in accordance with generally accepted management principles, and under such rules and regulations as may be prescribed by the Comptroller General. Any such audit shall be conducted at such place or places as the Comptroller General may deem appropriate. All books, accounts, records, reports, files, papers, and property of the Airports Authority shall remain in possession and custody of the Airports Authority.

(8) CODE OF ETHICS.—The Airports Authority shall develop a code of ethics and financial disclosure in order to assure the integrity of all decisions made by the board and its employees.

(9) RESTRICTION ON USE OF CERTAIN REVENUES.—Notwithstanding any other provision of law, no landing fee imposed for operating an aircraft or revenues derived from parking automobiles—

(A) at Washington Dulles International Airport may be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Washington National Airport; or

(B) at Washington National Airport may be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Washington Dulles International Airport.

(10) GENERAL AVIATION FEES.—The Airports Authority shall compute the fees and charges for landing general aviation aircraft at the Metropolitan Washington Airports on the same basis as the landing fees for air carrier aircraft, except that the Airports Authority may require a minimum landing fee not in excess of the landing fee for aircraft weighing 12,500 pounds.

(11) OTHER TERMS.—The Secretary shall include such other terms and conditions applicable to the parties to the lease as are consistent with and carry out the provisions of this title.

(d) SUBMISSION TO CONGRESS.—The Secretary shall submit the lease entered into under this section to Congress. The lease may not take effect before the passage of (1) 30 days, or (2) 10 days in which either House of Congress is in session, whichever occurs later.

(e) ENFORCEMENT OF LEASE PROVISIONS.—The district courts of the United States shall have jurisdiction to compel the Airports Authority and its officers and employees to comply with the terms of the lease. An action may be brought on behalf of the United States by the Attorney General, or by any aggrieved party.

SEC. 1006. CAPITAL IMPROVEMENTS, CONSTRUCTION, AND REHABILITATION.

(a) IMPROVEMENTS.—It is the sense of the Congress that the Airports Authority should—

(1) pursue the improvement, construction, and rehabilitation of the facilities at Washington Dulles International Airport and Washington National Airport simultaneously; and

(2) to the extent practicable, cause the improvement, construction, and rehabilitation proposed by the Secretary to be completed at both of such Airports within 5 years after the earliest date on which the Airports Authority issues bonds under the authority required by section 1007 of this title for any such improvement, construction, or rehabilitation.

(b) SECRETARY'S ASSISTANCE.—The Secretary shall assist the three airports serving the Washington, D.C., metropolitan area in planning for operational and capital improvements at those airports and shall accelerate consideration of applications for Federal financial assistance by whichever of the three airports is most in need of increasing airside capacity.

SEC. 1007. AIRPORTS AUTHORITY.

(a) POWERS CONFERRED BY VIRGINIA AND THE DISTRICT OF COLUMBIA.—The Airports Authority shall be a public body corporate and politic, having the powers and jurisdiction as are conferred upon it jointly by the legislative authority of the Commonwealth of Virginia and the District of Columbia or by either of the jurisdictions and concurred in by the legislative authority of the other jurisdiction, but at a minimum meeting the requirements of this section.

(b) PURPOSE.—The Airports Authority shall be—

(1) independent of the Commonwealth of Virginia and its local governments, the Dis-

trict of Columbia, and the Federal Government; and

(2) a political subdivision constituted solely to operate and improve both Metropolitan Washington Airports as primary airports serving the Metropolitan Washington area.

(c) GENERAL AUTHORITIES.—The Airports Authority shall be authorized—

(1) to acquire, maintain, improve, operate, protect, and promote the Metropolitan Washington Airports for public purposes;

(2) to issue bonds from time to time in its discretion for public purposes, including the purposes of paying all or any part of the cost of airport improvements, construction, and rehabilitation, and the acquisition of real and personal property, including operating equipment for the airports, which bonds—

(A) shall not constitute a debt of either jurisdiction or a political subdivision thereof; and

(B) may be secured by the Airports Authority's revenues generally, or exclusively from the income and revenues of certain designated projects whether or not they are financed in whole or part from the proceeds of such bonds;

(3) to acquire real and personal property by purchase, lease, transfer, or exchange, and to exercise such powers of eminent domain within the Commonwealth of Virginia as are conferred upon it by the Commonwealth of Virginia;

(4) to levy fees or other charges; and

(5) to make and maintain agreements with employee organizations to the extent that the Federal Aviation Administration is so authorized on the date of enactment of this title.

(d) CONFLICT-OF-INTEREST PROVISIONS.—The Airports Authority shall be subject to a conflict-of-interest provision providing that members of the board and their immediate families may not be employed by or otherwise hold a substantial financial interest in any enterprise that has or is seeking a contract or agreement with the Airports Authority or is an aeronautical, aviation services, or airport services enterprise that otherwise has interests that can be directly affected by the Airports Authority. Exceptions to requirement of the preceding sentence may be made by the official appointing a member at the time the member is appointed, if the financial interest is fully disclosed and so long as the member does not participate in board decisions that directly affect such interest. The Airports Authority shall include in its code developed under section 1005(c)(8) of this title the standards by which members will determine what constitutes a substantial financial interest and the circumstances under which an exception may be granted.

(e) BOARD OF DIRECTORS.—

(1) APPOINTMENT.—The Airports Authority shall be governed by a board of directors of 11 members, as follows:

(A) 5 members shall be appointed by the Governor of Virginia;

(B) three members shall be appointed by the Mayor of the District of Columbia;

(C) two members shall be appointed by the Governor of Maryland; and

(D) one member shall be appointed by the President with the advice and consent of the Senate.

The Chairman shall be appointed from among the members by majority vote of the members and shall serve until replaced by majority vote of the members.

(2) RESTRICTIONS.—Members shall (A) not hold elective or appointive political office, (B) serve without compensation other than for reasonable expenses incident to board functions, and (C) reside within the Washington Standard Metropolitan Statistical Area, except that the member appointed by the President shall not be required to reside in that area.

(3) TERMS.—Members shall be appointed to the board for a term of 6 years, except that of members first appointed—

(A) by the Governor of Virginia, 2 shall be appointed for 4 years and 2 shall be appointed for 2 years;

(B) by the Mayor of the District of Columbia, 1 shall be appointed for 4 years and 1 shall be appointed for 2 years; and

(C) by the Governor of Maryland, 1 shall be appointed for 4 years.

(4) REMOVAL OF PRESIDENTIAL APPOINTEES.—A member of the board appointed by the President shall be subject to removal by the President for cause.

(5) REQUIRED NUMBER OF VOTES.—Seven votes shall be required to approve bond issues and the annual budget.

(f) BOARD OF REVIEW.—

(1) COMPOSITION.—The board of directors shall be subject to review of its actions and to requests, in accordance with this subsection, by a Board of Review, of the Airports Authority, established by the board of directors. The Board of Review shall consist of the following, in their individual capacities, as representatives of users of the Metropolitan Washington Airports:

(A) 4 members of the House of Representatives from a list provided by the Speaker of the House;

(B) 4 members of the Senate from a list provided by the President pro tempore of the Senate; and

(C) one member chosen alternately from members of the House of Representatives and members of the Senate, from a list provided by the Speaker of the House or the President pro tempore of the Senate, respectively.

The members of the Board of Review shall elect a chairman. A member of the House of Representatives or the Senate from Maryland or Virginia and the Delegate from the District of Columbia may not serve on the Board of Review.

(2) TERMS.—Members of the Board of Review appointed under subparagraphs (A) and (B) of paragraph (1) shall be appointed for terms of 6 years, except that of the members first appointed one member under each of subparagraphs (A) and (B) shall be appointed for a term of two years and one member under each of subparagraphs (A) and (B) shall be appointed for a term of four years. Members of the Board of Review appointed under subparagraph (C) shall be appointed for terms of 2 years. A vacancy in the Board shall be filled in the same manner in which the original appointment was made. Any member appointed to fill a vacancy before the expiration of the term for which his or her predecessor was appointed shall be appointed only for the remainder of such term.

(3) PROCEDURES.—The Board of Review shall establish procedures for conducting its business. The procedures may include requirements for a quorum at meetings and for proxy voting. The Board shall meet at least once each year and shall meet at the call of the chairman or 3 members of the Board. Any decision of the Board of Review under paragraph (4) or (5) shall be by a vote of 5 members of the Board.

(4) DISAPPROVAL PROCEDURE.—

(A) SUBMISSION REQUIRED.—An action of the Airports Authority described in subparagraph (B) shall be submitted to the Board of Review at least 30 days (or at least 60 days in the case of the annual budget) before it is to become effective.

(B) ACTIONS AFFECTED.—The following are the actions referred to in subparagraph (A):

(i) the adoption of an annual budget;

(ii) the authorization for the issuance of bonds;

(iii) the adoption, amendment, or repeal of a regulation;

(iv) the adoption or revision of a master plan, including any proposal for land acquisition; and

(v) the appointment of the chief executive officer.

(C) 30-DAY DISAPPROVAL PERIOD.—If the Board of Review does not disapprove an action within 30 days of its submission under this paragraph, the action may take effect. If the Board of Review disapproves any such action, it shall notify the Airports Authority and shall give reasons for the disapproval.

(D) EFFECT OF DISAPPROVAL.—An action disapproved under this paragraph shall not take effect. Unless an annual budget for a fiscal year has taken effect in accordance with this paragraph, the Airports Authority may not obligate or expend any money in such fiscal year, except for (i) debt service on previously authorized obligations, and (ii) obligations and expenditures for previously authorized capital expenditures and routine operating expenses.

(5) REQUEST FOR CONSIDERATION OF OTHER MATTERS.—The Board of Review may request the Airports Authority to consider and vote, or to report, on any matter related to the Metropolitan Washington Airports. Upon receipt of such a request the Airports Authority shall consider and vote, or report, on the matter as promptly as feasible.

(6) PARTICIPATION IN MEETINGS OF AIRPORTS AUTHORITY.—Members of the Board of Review may participate as nonvoting members in meetings of the board of the Airports Authority.

(7) STAFF.—The Board of Review may hire one staff person, to be paid by the Airports Authority. The Airports Authority shall provide such clerical and support staff as the Board may require.

(8) LIABILITY.—A member of the Board of Review shall not be liable in connection with any claim, action, suit, or proceeding arising from service on the Board.

(g) CERTAIN ACTIONS TO BE TAKEN BY REGULATION.—Any action of the Airports Authority changing, or having the effect of changing, the hours of operation of or the type of aircraft serving either of the Metropolitan Washington Airports may be taken only by regulation of the Airports Authority.

(h) LIMITATION ON AUTHORITY.—If the Board of Review established under subsection (f) is unable to carry out its functions under this title by reason of a judicial order, the Airports Authority shall have no authority to perform any of the actions that are required by subsection (f)(4) to be submitted to the Board of Review.

SEC. 1008. FEDERAL EMPLOYEES AT THE METROPOLITAN WASHINGTON AIRPORTS.

(a) EMPLOYEE PROTECTION.—Not later than the date the lease under section 1005 takes effect, the Secretary shall ensure that the Airports Authority has established arrangements to protect the employment interests

of employees during the 5-year period beginning on such date. These arrangements shall include provisions—

(1) which ensure that the Airports Authority will adopt labor agreements in accordance with the provisions of subsection (b) of this section;

(2) for the transfer and retention of all employees who agree to transfer to the Airports Authority in their same positions for the 5-year period commencing on the date the lease under section 5 takes effect except in cases of reassignment, separation for cause, resignation, or retirement;

(3) for the payment by the Airports Authority of basic and premium pay to transferred employees, except in cases of separation for cause, resignation, or retirement, for 5 years commencing on the date the lease takes effect at or above the rates of pay in effect for such employees on such date;

(4) for credit during the 5-year period commencing on the date the lease takes effect for accrued annual and sick leave and seniority rights which have been accrued during the period of Federal employment by transferred employees retained by the Airports Authority; and

(5) for an offering of not less than one life insurance and three health insurance programs for transferred employees retained by the Airports Authority during the 5-year period beginning on the date the lease takes effect which are reasonably comparable with respect to employee premium cost and coverage to the Federal health and life insurance programs available to employees on the day before such date.

(b) LABOR AGREEMENTS.—

(1) ADOPTION.—The Airports Authority shall adopt all labor agreements which are in effect on the date the lease under section 1005 takes effect. Such agreements shall continue in effect for the 5-year period commencing on such date, unless the agreement provides for a shorter duration or the parties agree to the contrary before the expiration of that 5-year period. Such agreements shall be renegotiated during the 5-year period, unless the parties agree otherwise. Any labor-management negotiation impasse declared before the date the lease takes effect shall be settled in accordance with chapter 71 of title 5, United States Code.

(2) CONTINUATION.—The arrangements made pursuant to this section shall assure, during the 50-year lease term, the continuation of all collective bargaining rights enjoyed by transferred employees retained by the Airports Authority.

(c) RIGHTS OF TERMINATED EMPLOYEES.—Any transferred employee whose employment with the Airports Authority is terminated during the 5-year period beginning on the date the lease under section 1005 takes effect shall be entitled, as a condition of any lease entered into in accordance with section 1005 of this title, to rights and benefits to be provided by the Airports Authority that are similar to those such employee would have had under Federal law if termination had occurred immediately before such date.

(d) ANNUAL AND SICK LEAVE.—Any employee who transfers to the Airports Authority under this section shall not be entitled to lump-sum payment for unused annual leave under section 5551 of title 5, United States Code, but shall be credited by the Airports Authority with the unused annual leave balance on the date the lease under section 1005 takes effect, along with any unused sick leave balance on such date. During the 5-year period beginning on such date, annual and sick leave shall be earned at the same rates permitted on the day before such date, and observed official holidays shall be the same as those specified in section 6103 of title 5, United States Code.

(e) CIVIL SERVICE RETIREMENT.—Any Federal employee who transfers to the Airports Authority and who on the day before the date the lease under section 1005 takes effect is subject to subchapter III of chapter 83 of title 5, United States Code, or chapter 84 of such title shall, so long as continually employed by the Airports Authority without a break in service, continue to be subject to such subchapter or chapter, as the case may be. Employment by the Airports Authority without a break in continuity of service shall be considered to be employment by the United States Government for purposes of such subchapter and chapter. The Airports Authority shall be the employing agency for purposes of such subchapter and chapter and shall contribute to the Civil Service Retirement and Disability Fund such sums as are required by such subchapter and chapter.

(f) SEPARATED EMPLOYEES.—An employee who does not transfer to the Airports Authority and who does not otherwise remain a Federal employee shall be entitled to all of the rights and benefits available under Federal law for separated employees, except that severance pay shall not be payable to an employee who does not accept an offer of employment from the Airports Authority of work substantially similar to that performed for the Federal Government.

(g) ACCESS TO RECORDS.—The Airports Authority shall allow representatives of the Secretary adequate access to employees and employee records of the Airports Authority when needed for the performance of functions related to the period before the date the lease under section 1005 takes effect. The Secretary shall provide the Airports Authority access to employee records of transferring employees for appropriate purposes.

SEC. 1009. RELATIONSHIP TO AND EFFECT OF OTHER LAWS.

(a) OTHER LAWS.—In order to assure that the Airports Authority has the same proprietary powers and is subject to the same restrictions with respect to Federal law as any other airport except as otherwise provided in this title, during the period that the lease authorized by section 1005 of this title is in effect—

(1) the Metropolitan Washington Airports shall be considered public airports for purposes of the Airport and Airway Improvement Act of 1982 (49 App. U.S.C. 2201 et seq.); and

(2) the Acts entitled "An Act to provide for the administration of the Washington National Airport, and for other purposes", approved June 29, 1940 (54 Stat. 686), "An Act to authorize the construction, protection, operation, and maintenance of a public airport in or in the vicinity of the District of Columbia", approved September 7, 1950 (64 Stat. 770), and "An Act making supplemental appropriations for the support of the Government for the fiscal year ending June 30, 1941, and for other purposes", approved October 9, 1940 (54 Stat. 1030), shall not apply to the operation of the Metropolitan Washington Airports, and the Secretary shall be relieved of all responsibility under those Acts.

(b) INAPPLICABILITY OF CERTAIN LAWS.—The Metropolitan Washington Airports and the Airports Authority shall not be subject to the requirements of any law solely by reason of the retention by the United States of fee simple title to such airports or by reason of the authority of the Board of Review under section 1007(f).

(c) POLICE POWER.—The Commonwealth of Virginia shall have concurrent police power authority over the Metropolitan Washington Airports, and the courts of the Commonwealth of Virginia may exercise jurisdiction over Washington National Airport.

(d) PLANNING.—

(1) IN GENERAL.—The authority of the National Capital Planning Commission under section 5 of the Act of June 6, 1924 (40 U.S.C. 71d) shall not apply to the Airports Authority.

(2) CONSULTATION.—The Airports Authority shall consult—

(A) with the National Capital Planning Commission and the Advisory Council on Historic Preservation before undertaking any major alterations to the exterior of the main terminal at Washington Dulles International Airport, and

(B) with the National Capital Planning Commission before undertaking development that would alter the skyline of Washington National Airport when viewed from the opposing shoreline of the Potomac River or from the George Washington Parkway.

(e) OPERATION LIMITATIONS.—

(1) HIGH DENSITY RULE.—The Administrator may not increase the number of instrument flight rule takeoffs and landings authorized for air carriers by the High Density Rule (14 C.F.R. 93.121 et seq.) at Washington National Airport on the date of the enactment of this title and may not decrease the number of such takeoffs and landings except for reasons of safety.

(2) ANNUAL PASSENGER LIMITATIONS.—The Federal Aviation Administration air traffic regulation entitled "Modification of Allocation: Washington National Airport" (14 C.F.R. 93.124) shall cease to be in effect on the date of the enactment of this title.

SEC. 1010. AUTHORITY TO NEGOTIATE EXTENSION OF LEASE.

The Secretary and the Airports Authority may at any time negotiate an extension of the lease entered into under section 1005(a).

SEC. 1011. SEPARABILITY.

Except as provided in section 1007(h), if any provision of this title or the application thereof to any person or circumstance is held invalid, the remainder of this title and the application of such provision to other persons or circumstances shall not be affected thereby.

SEC. 1012. NONSTOP FLIGHTS.

A person may not operate an aircraft nonstop in air transportation between Washington National Airport and another airport that is more than 1,000 statute miles away from Washington National Airport.

KASSEBAUM (AND DOLE) AMENDMENT NO. 2855

Mrs. KASSEBAUM (for herself, Mr. DOLE, Mr. HEINZ, Mr. KASTEN, Mr. GOLDWATER, Mr. DENTON, Mr. GARN, Mr. SIMPSON, Mr. INOUYE, Mr. EXON, Mr. SPECTER, Mr. ABDNOR, Mr. HARKIN, Mr. PRESSLER, Mr. ZORINSKY, Mr. WALLOP, Mr. RUDMAN, Mrs. HAWKINS, Mr. MURKOWSKI, and Mr. NICKLES) proposed an amendment to amend-

ment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

TITLE .—AVIATION ACCIDENT LIABILITY

SHORT TITLE

SEC. 01. This title may be cited as the "General Aviation Accident Liability Standards Act of 1986".

FINDINGS AND PURPOSE

SEC. 02. (a) The Congress finds that—

(1) transportation by air of passengers continues to comprise an increasingly important component of the Nation's overall transportation system;

(2) although the incidence of injuries to passengers in general aviation accidents has decreased, the number of general aviation accident liability claims against general aviation aircraft manufacturers and the amount of damages sought in such claims is increasing at disproportionate rates, beyond any relationship to the quality of the aircraft manufactured and in use;

(3) the current system for determining liability and damages for compensating individuals injured in general aviation accidents is inadequate;

(4) competent general aviation manufacturers and component part manufacturers are ceasing or limiting production of general aviation aircraft or some models of such aircraft because of the increasing costs and unavailability of product liability insurance;

(5) the increase in the number of liability claims and the size of awards and settlements, and the excessive time and expense devoted to the resolution of such claims, impose a substantial economic burden on general aviation manufacturers and their dealers;

(6) the Federal Government has an interest in the general aviation accident liability system because the Federal Government has established a comprehensive system for regulating general aviation, including—

(A) establishing standards for design, construction, and certification of general aviation aircraft,

(B) establishing standards for maintenance of aircraft, licensing of persons who may perform or approve maintenance, repairs, and inspections,

(C) establishing standards for training and licensing of pilots,

(D) establishing a comprehensive air control system,

(E) conducting investigations to determine the probable cause of aviation accidents and prevent future accident, and

(F) conducting other activities necessary to assure a safe air transportation system,

and this Federal system is the exclusive legal authority for regulating aviation operations and safety;

(7) it is in the national interest to reduce unnecessary expenditures related to general aviation accident liability claims while providing more rapid and more efficient compensation for individuals harmed in general aviation accidents; and

(8) Federal action to reform the general aviation accident liability system will result in—

(A) the maintenance of airworthy general aviation aircraft; and

(B) a more rational general aviation accident liability system.

(b) It is the purpose of this title to establish standards for determining liability for harm arising out of general aviation accidents.

DEFINITIONS

SEC. 03. As used in this title, the term—

(1) "Administrator" means the Administrator of the Federal Aviation Administration;

(2) "claimant" means any person who brings a general aviation accident liability action subject to this title, and any person on whose behalf such an action is brought, including—

(A) the claimant's decedent; and

(B) the claimant's parent or guardian, if the action is brought through or on behalf of a minor or incompetent;

(3) "general aviation accident" means any accident which arises out of the operation of any general aviation aircraft and which results in harm;

(4) "general aviation aircraft" means any aircraft for which a type certificate or an airworthiness certificate has been issued by the Administrator under the Federal Aviation Act of 1958 (49 App. U.S.C. 1301 et seq.), which, at the time such certificate was originally issued, had a maximum seating capacity of fewer than twenty passengers, and which is not, at the time of the accident, engaged in scheduled passenger carrying operations as defined in regulations issued under the Federal Aviation Act of 1958 (49 App. U.S.C. 1301 et seq.);

(5) "general aviation manufacturer" means—

(A) the builder or manufacturer of the airframe of a general aviation aircraft;

(B) the manufacturer of the engine of a general aviation aircraft; and

(C) the manufacturer of any system, component, subassembly, or other part of a general aviation aircraft;

(6) "harm" means—

(A) property damage or bodily injury sustained by a person;

(B) death resulting from such bodily injury;

(C) pain and suffering which is caused by such bodily injury; and

(D) emotional harm (including bereavement and loss of affection, care, or society) which is caused by such bodily injury;

(7) "product" means a general aviation aircraft and any system, component, subassembly, or other part of a general aviation aircraft; and

(8) "property damage" means physical injury to tangible property, including loss of use of tangible property.

PREEMPTION; APPLICABILITY

SEC. 04.(a) This title supersedes any State law regarding recovery, under any legal theory, for harm arising out of a general aviation accident, to the extent that this title establishes a rule of law or procedure applicable to the claim.

(b) Nothing in this title shall be construed to supersede or to waive or affect any defense of sovereign immunity asserted by the United States or any State.

(c) Nothing in this title shall be construed to affect the liability of a manufacturer, owner, or operator of any aircraft that is not a general aviation aircraft, or a person who repairs maintains, or provides any other support for any aircraft that is not a general aviation aircraft, for damages for harm arising out of the operation of an aircraft that is not a general aviation aircraft.

(d) No right of action for harm exists under this title if that right would be inconsistent with the provisions of any applicable workers' compensation law.

(e) The provisions of this title shall only apply to—

(1) any manufacturer, owner, or operator of any general aviation aircraft, and any person who repairs, maintains, or provides any other support for such an aircraft;

(2) any occupant of a general aviation aircraft at the time of a general aviation accident, and any person who brings an action for harm caused by such accident on behalf of such occupant; and

(3) any nonoccupant of a general aviation aircraft at the time of a general aviation accident, only if such nonoccupant is bringing an action for harm caused by such accident which arises out of the harm to an occupant of such aircraft at the time of such accident.

UNIFORM STANDARDS OF LIABILITY FOR GENERAL AVIATION ACCIDENTS

SEC. 05. (a) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a party and may recover damages from such party if such party was negligent and such negligence is a proximate cause of the claimant's harm.

(b)(1) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a general aviation manufacturer of a product and may recover damages from such general aviation manufacturer if—

(A) the product, when it left the control of the manufacturer, was in a defective condition unreasonably dangerous for its intended purpose, according to engineering and manufacturing practices which were reasonably feasible;

(B) the defective condition is a proximate cause of the claimant's harm; and

(C) the general aviation aircraft was being used at the time of the accident, for a purpose and in a manner for which it was designed and manufactured.

(2) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a general aviation manufacturer of a product and may recover damages from such general aviation manufacturer if—

(A) at the time the product left the control of the manufacturer, the manufacturer—

(i) knew, or in the exercise of reasonable care should have known, about a danger connected with the product that caused the claimant's harm; and

(ii) failed to provide the warnings or instructions that a person exercising reasonable care would have provided with respect to the danger which caused the harm alleged by the claimant, unless such warnings or instructions, if provided, would not have materially affected the conduct of the user of the product; or

(B) after the product left the control of the general aviation manufactuer, the manufacturer—

(i) knew, or in the exercise of reasonable care should have known, about the danger which caused the claimant's harm; and

(ii) failed to take reasonable steps to provide warnings or instructions, after the manufacture of the product, which would have been provided by a person exercising reasonable care, unless such warnings or instructions, if provided, would not have materially affected the conduct of the product user;

and the failure to provide warnings or instructions described in subparagraph (A) or (B) of this paragraph is a proximate cause of the claimant's harm.

(3) Any person claiming damages for harm arising out of a general aviation accident

may bring an action against a general aviation manufacturer of a product and may recover damages from such general aviation manufactuer if—

(A) the manufacturer made an express warranty with respect to the product;

(B) such warranty relates to that aspect of the product which caused the harm;

(C) the product failed to conform to such warranty; and

(D) the failure of the product to conform to such warranty is a proximate cause of the claimant's harm.

(c)(1) In an action governed by subsection (b) of this section, a general aviation manufacturer shall not be liable if such manufacturer proves, by a preponderance of the evidence, that—

(A) the defective condition could have been corrected by compliance with action described in an airworthiness directive issued by the Administrator or a service bulletin issued by the manufacturer of the product; and

(B) such directive or service bulletin was issued at a reasonable time before the date of the accident and after the product left the control of the general aviation manufacturer.

(2) In any action governed by subsection (b) of this section, evidence of compliance with standards, conditions or specifications established, adopted or approved by the Federal Aviation Administration shall be admissible with regard to whether the product was defective and unreasonably dangerous for its intended purpose.

COMPARATIVE RESPONSIBILITY

SEC. 06. (a) All actions for harm arising out of a general aviation accident shall be governed by the principles of comparative responsibility. Comparative responsibility attributed to the claimant's conduct shall not bar recovery in an action under this title, but shall reduce any damages awarded to the claimant in an amount proportionate to the responsibility of the claimant. The trier of fact shall determine comparative responsibility by making findings indicating the percentage of total responsibility for the claimant's harm attributable to the claimant, each defendant, each third-party defendant, and any other person not a party to the action.

(b) Except as provided in subsection (c) of this section, a defendant is severally but not jointly liable in any action for harm arising out of a general aviation accident, and the liability of any defendant in any such action shall be determined on the basis of such defendant's proportionate share of responsibility for the claimant's harm.

(c) In any action for harm arising out of a general aviation accident—

(1) a general aviation manufacturer who is the builder or manufacturer of the airframe of the general aviation aircraft involved is jointly and severally liable for harm caused by a defective system, component, subassembly, or other part of such aircraft that the manufacturer installed or certified as part of the original type design for such aircraft; and

(2) a general aviation manufacturer who is the manufacturer of a system or component of the general aviation aircraft involved is jointly and severally liable for damages caused by a defective subassembly or other part of such system or component.

(d) A general aviation manufacturer and any other person jointly liable under subsection (c) of this section shall have the right to bring an action for indemnity or contribution against any person with whom they are jointly liable under subsection (c) of this section.

TIME LIMITATION ON LIABILITY

SEC. 07. (a) Except as provided in subsection (b) of this section, no civil action for harm arising out of a general aviation accident which is brought against a general aviation manufacturer may be brought for harm which is alleged to have been caused by an aircraft or a system, component, subassembly, or other part of an aircraft and which occurs more than—

(1) twenty years from—

(A) the date of delivery of the aircraft to its first purchaser or lessee, if delivered directly from the manufacturer; or

(B) the date of first delivery of the aircraft to a person engaged in the business of selling or leasing such an aircraft; or

(2) with respect to any system, component, subassembly, or other part which replaced another product in, or which was added to, the aircraft, and which is alleged to have caused the claimant's harm, twenty years from the date of the replacement or addition.

(b) Subsection (a) of this section does not apply in the case of harm to a claimant which occurs after the period set forth in subsection (a) of this section if the general aviation manufacturer or the seller of the product that caused the claimant's harm gave an express warranty that the product would be suitable, for the purpose for which it was intended, for a longer period of time.

(c) Nothing in this section shall be construed to affect a person's duty to provide, after the sale or lease of an aircraft, to aircraft owners, and to repair facilities to which a license or certificate to perform repairs has been issued by the Administrator, additional or modified warnings or instructions regarding the use or maintenance of such aircraft or any system, component, or other part of such aircraft.

SUBSEQUENT REMEDIAL MEASURES

SEC. 08. In any general aviation accident liability action governed by this title, evidence of any measure taken after an event which, if taken previously, would have made the event less likely to occur is not admissible to prove liability. Such evidence is admissible to the extent permitted under rule 407 of the Federal Rules of Evidence.

ADMISSIBILITY OF CERTAIN EVIDENCE

SEC. 09. In an action governed by this title, evidence of Federal, State, or local income tax liability or any social security or other payroll tax liability attributable to past or future earnings, support, or profits and the present value of future earnings, support, or profits alleged to have been lost or diminished because of harm arising out of a general aviation accident is admissible regarding proof of the claimant's harm.

PUNITIVE DAMAGES

SEC. 10. (a) Punitive damages may be awarded in an action under this title for harm arising out of a general aviation accident only if the claimant establishes by clear and convincing evidence that the harm suffered was the direct result of conduct manifesting a conscious, flagrant indifference to the safety of those persons who might be harmed by use of the general aviation aircraft involved.

(b) Evidence regarding the financial worth of a defendant or the defendant's profits or any other evidence relating solely to a claim for punitive damages under this title is not admissible unless the claimant establishes, before any such evidence is offered, that the claimant can present evidence that will establish prima facie proof of conduct manifesting a conscious, flagrant indifference to the safety of those persons who might be harmed by use of the general aviation aircraft involved.

(c) In any civil action in which the alleged harm to the claimant is death and the applicable State law provides, or has been construed to provide, for damages only punitive in nature, a defendant may be liable for any such damages pursuant to the provisions of this title regardless of whether a claim is asserted under this section. The recovery of any such damages shall not bar a claim under this section.

TIME LIMITATION ON BRINGING ACTIONS

SEC. 11. (a) Any action for harm arising out of a general aviation accident shall be barred, notwithstanding any State law, unless—

(1) the complaint is filed within 2 years after the date on which the accident occurred which caused the claimant's harm; and

(2) the summons and complaint are properly served upon the defendant within one hundred and twenty days after the filing of such complaint, unless the party on whose behalf such service is required can show good cause why such service was not made within such one hundred and twenty-day period.

Paragraph (2) of this subsection shall not apply to service of process in a foreign country pursuant to Rule 4(i) of the Federal Rules of Civil Procedure or any similar State law.

SANCTIONS

SEC. 12. It is the intent of Congress that, with respect to any action governed by this title, the sanctions for violation of rule 11 of the Federal Rules of Civil Procedure, including orders to pay to the other party or parties the amount of their reasonable expenses, including a reasonable attorney's fee, be strictly enforced.

JURISDICTION

SEC. 13. (a) The district courts of the United States, concurrently with the State courts, shall have originally jurisdiction, without regard to the amount in controversy, in all civil actions for harm arising out of a general aviation accident and in all actions for indemnity or contribution described in section 06(d) of this title.

(b) A civil action which is brought in a State court may be removed to the district court of the United States for the district embracing the place where the action is pending, without the consent of any other party and without regard to the amount in controversy, by any defendant against whom a claim in such action is asserted for harm arising out of a generic aviation accident.

(c) In any case commenced in or removed to a district court of the United States under subsection (a) and (b) of this section, the court shall have jurisdiction to determine all claims under State law that arise out of the same general aviation accident, if a substantial question of fact is common to the claims under State law and to the Federal claim, defense, or counterclaim.

(d)(1) A civil action in which the district courts of the United States have jurisdiction under subsection (a) of this section may be brought only in a district in which—

(A) the accident giving rise to the claim occurred; or

(B) any plaintiff or defendant resides.

(2) In an action pending in a district court of the United States under paragraph (1) of this subsection, a district court may, on motion of any party or its own motion, transfer the action to any other district for the convenience of parties and witnesses in the interest of justice.

(3) For purposes of this subsection, a corporation shall be considered to be a resident of any State in which it is incorporated or licensed to do business or is doing business.

SEVERABILITY

SEC. 14. If any provision of this title or the application of the provision to any person or circumstance is held invalid, the remainder of this title and the application of the provision to any other person or circumstance shall not be affected by such invalidation.

EFFECTIVE DATE

SEC. 15. (a) This title shall apply to any civil action for harm arising out of a general aviation accident which is filed on or after the date of enactment of this Act.

(b) If an action governed by this title is filed within one hundred and eighty days after the date of enactment of this Act, liberal leave shall be given to a party to amend any pleading, motion, statement of jurisdiction or venue, or other matter to conform to the provisions of this title.

D'AMATO (AND OTHERS) AMENDMENT NO. 2856

Mr. D'AMATO (for himself, Mr. GARN, Mr. MOYNIHAN, Mr. RIEGLE, Mr. MURKOWSKI, Mr. HECHT, and Mr. HEINZ) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

Strike lines 2 through 15 inclusive on page 4 of the amendment.

DANFORTH (AND OTHERS) AMENDMENT NO. 2857

Mr. DANFORTH (for himself, Mr. EAGLETON, and Mrs. KASSEBAUM) proposed an amendment to the bill S. 2706, supra; as follows:

At the appropriate place, insert the following:

SEC. . (a) Section 408 of the Federal Aviation Act of 1958 (49 App. U.S.C. 1378) is amended by adding at the end the following new subsection:

"EMPLOYEE SENIORITY RIGHTS

"(g)(1) In any case in which the Secretary determines that the transaction which is the subject of the application would result in the operational integration or partial operational integration of the affected carriers and that such integration would have an adverse effect on the seniority of any air carrier employee, the acquiring carrier, and the surviving collective bargaining representative (if any), shall provide for the development, in a fair and equitable manner, of integrated seniority ranking lists for all employee groups. In the event of a failure to agree, the dispute may be submitted by either party for adjustment in accordance with paragraph (2) of this subsection.

"(2)(A) If any dispute or controversy arises regarding integration of seniority lists under paragraph (1) of this subsection and such dispute or controversy cannot be resolved by the parties within 20 days after such dispute or controversy arises, the parties may refer such dispute or controversy to an arbitrator for consideration and determination. To assist in the selection of such an arbitrator, the National Mediation Board shall furnish to such parties a panel of seven names. The parties shall select such arbitrator by alternating in the deletion of names from such panel until one name remains, and such person shall serve as arbitrator. The arbitrator may conduct hearings regarding such dispute or controversy, but any such hearings shall be conducted in an expedited manner. The arbitrator shall render a determination regarding such dispute or controversy within 90 days after the dispute or controversy arises, unless an extension of such period is agreed to by all parties to such dispute or controversy. The determination of such arbitrator shall be binding on all such parties.

"(B) The salary and expenses of the arbitrator shall be borne equally by the carrier involved and the organization or organizations representing the employee or employees or, if no such representation exists, by the employees or group of employees.

"(C) The provisions of this paragraph shall not apply if all parties to such dispute or controversy agree that a different method for settling such dispute or controversy, or an alternative procedure for selecting an arbitrator, is appropriate in the particular circumstances. A party shall not be relieved from complying with the provisions of this paragraph by the recommendation of a different or alternative method or procedure unless such recommendation is agreed to and implemented by all parties to such dispute or controversy.".

(b) The amendment made by subsection (a) of this section shall apply with respect to any transaction approved by the Secretary of Transportation under section 408 of the Federal Aviation Act of 1958 (49 App. U.S.C. 1378) on September 12, 1986, and with respect to any transaction for which an original application is filed after the date of enactment of this Act: *Provided, however,* * * * by subsection (a) of this section shall not apply with respect to any transaction in which the parties invoke and are able to satisfy the requirements of the failing company doctrine.

(c) The item in the table of contents of the Federal Aviation Act of 1958 relating to section 408 is amended by adding at the end the following:

"(g) Fair treatment of employees.".

NICKLES (AND OTHERS) AMENDMENT NO. 2858

Mr. NICKLES (for himself, Mr. DOMENICI, Mr. MURKOWSKI, and Mr. BOREN) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

At the end of the bill, insert the following new section:

SEC. . FEE ON IMPORTED CRUDE OIL OR REFINED PETROLEUM PRODUCTS.

(a) IN GENERAL.—Subtitle E of the Internal Revenue Code of 1954 (relating to alcohol, tobacco, and certain other excise taxes) is amended by adding at the end thereof the following new chapter:

"Chapter 54—Imported Crude Oil or Refined Petroleum Products

"Sec. 5881. Imposition of tax.
"Sec. 5882. Definitions.
"Sec. 5883. Registration.
"Sec. 5884. Procedures; returns; penalties.

"SEC. 5881. IMPOSITION OF TAX.

"(a) IMPOSITION OF TAX.—In addition to any other tax imposed under this title, an excise tax is hereby imposed on—

"(1) the first sale within the United States of—

"(A) any crude oil, or

"(B) any refined petroleum product, that has been imported into the United States, and

"(2) the use within the United States of—

"(A) any crude oil, or

"(B) any refined petroleum product,

that has been imported into the United States if no tax has been imposed with respect to such crude oil or refined petroleum product prior to such use.

"(b) RATE OF TAX.—

"(1) CRUDE OIL.—For purposes of paragraphs (1)(A) and (2)(A) of subsection (a) the rate of tax shall be $4 per barrel, reduced by an amount which is equal to the excess of—

"(A) the energy policy price per barrel, over

"(B) $18.

"(2) REFINED PETROLEUM PRODUCT.—For purposes of paragraphs (1)(B) and (2)(B) of subsection (a), the rate of tax shall be equal to 150 percent of the rate of tax determined under paragraph (1) of this subsection.

"(3) FRACTIONAL PARTS OF BARRELS.—In the case of a fraction of a barrel, the tax imposed by subsection (a) shall be the same fraction of the amount of such tax imposed on the whole barrel.

"(c) DETERMINATION OF ENERGY POLICY PRICE.—

"(1) IN GENERAL.—For purposes of this section, the energy policy price with respect to any week during which the tax under subsection (a) is imposed shall be determined by the Secretary and published in the Federal Register on the first day of such week.

"(2) BASIS OF DETERMINATION.—For purposes of paragraph (1), the energy price for any week is the weighted average international price of a barrel of crude oil for the preceding 4 weeks as determined by the Secretary, after consultation with the Administrator of the Energy Information Administration of the Department of Energy, pursuant to the formula for determining such international price as used in publishing the Weekly Petroleum Status Report and as in effect on the date of the enactment of this section.

"(d) LIABILITY FOR PAYMENT OF TAX.—

"(1) SALES.—The taxes imposed by subsection (a)(1) shall be paid by the first person who sells the crude oil or refined petroleum product within the United States.

"(2) USE.—The taxes imposed by subsection (a)(2) shall be paid by the person who uses the crude oil or refined petroleum product.

"(3) TAX-FREE EXPORTS.—

"(A) IN GENERAL.—Under regulations prescribed by the Secretary, no tax shall be imposed under this chapter on the sale of crude oil or refined petroleum products for export or for resale by the purchaser to a second purchaser for export.

"(B) PROOF OF EXPORT.—Where any crude oil or refined petroleum product has been sold free of tax under subparagraph (A), such subparagraph shall cease to apply with respect to the sale of such crude oil or refined petroleum product, unless, within the 6-months period which begins on the date of the sale, the seller receives proof that the crude oil or refined petroleum product, has been exported.

"SEC. 5882. DEFINITIONS.

"For purposes of this chapter—

"(1) CRUDE OIL.—The term 'crude oil' means crude oil other than domestic crude oil (within the meaning of chapter 45).

"(2) BARREL.—The term 'barrel' means 42 United States gallons.

"(3) REFINED PETROLEUM PRODUCT.—The term 'refined petroleum product' shall have the same meaning given to such term by section 3(5) of the Emergency Petroleum Allocation Act of 1973 (15 U.S.C. 752(5)).

"(4) EXPORT.—The term 'export' includes shipment to a possession of the United States; and the term 'exported' includes shipment to a possession of the United States.

"SEC. 5883. REGISTRATION.

"Every person subject to tax under section 5881 shall, before incurring any liability for tax under such section, register with the Secretary.

"SEC. 5884. PROCEDURES; RETURNS; PENALTIES.

"For purposes of this title, any reference (other than in chapter 45 or section 6429) to the tax imposed by section 4986 shall be treated, except to the extent provided by the Secretary by regulation where such treatment would be inappropriate, as a reference to the tax imposed by section 5881.".

(b) CONFORMING AMENDMENT.—The table of chapters for subtitle E is amended by adding at the end thereof the following new item:

"Chapter 54. Imported crude oil or refined petroleum products.".

(c) DEDUCTIBILITY OF IMPORTED OIL TAX.—The first sentence of section 164(a) (relating to deductions for taxes) is amended by inserting after paragraph (5) the following new paragraph:

"(6) The imported oil taxes imposed by section 5881.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to sales and use of imported crude oil or imported refined petroleum products on or after October 1, 1986.

DOMENICI AMENDMENT NO. 2859

Mr. DOMENICI proposed an amendment to amendment No. 2850 proposed by him (and others) to the bill S. 2706, supra; as follows:

Beginning on page 19, line 23 of the pending amendment, strike all through page 20, line 3, and insert in lieu thereof the following:

"Beginning on page 191, line 1, strike all through page 192, line 12, and insert in lieu thereof the following

TITLE IX—COMMITTEE ON SMALL BUSINESS

PILOT LOAN ASSET SALE

SEC. 901. Title V of the Small Business Investment Act of 1958 is amended by adding at the end thereof the following new section:

"SEC. 506. (a) Except as provided in subsection (c), notwithstanding any law, rule, or regulation, the Secretary of the Treasury shall sell to the public, by private placement or otherwise as the Secretary determines to be appropriate, all of the right, title, and interest in debentures issued pursuant to section 503 of this title and held by the Federal Financing Bank in such amounts as to realize net proceeds of—

"(1) $343,000,000 from such sales during fiscal year 1987;

"(2) $55,000,000 from such sales during fiscal year 1988; and

"(3) $14,000,000 from such sales during fiscal year 1989.

"(b) Simultaneously with the sale referred to in subsection (a), the Administration shall assign all of its interest in notes, mortgages, guarantees, security interest, or other interest in underlying collateral supporting any debenture sold pursuant to this section to the purchaser of such interest.

"(C) Any sales by the Secretary under this section shall be on a nonrecourse basis to the Federal Government and shall provide that for purposes of disbursements, collections, and payments of receipts to purchasers the companies certified under section 503 of this title shall continue to have the right to service the loans underlying such debentures.

"(d) In the event of default on a debenture, the liability of the relevant certified development company shall be limited to all payments made by the small business concern to the certified development company and the collateral securing the defaulted loan.

"(e) With the sale of each debenture as specified in subsection (a), the Administration's guarantee of timely payment of principal and interest on the debenture will be deemed discharged. The Administration shall incur no liability or obligation to the Secretary or the Federal Financing Bank in connection with any sale of a debenture under this section.".

SEC. 902. In order to achieve the budget savings specified in the amendment made by section 901 of this Act, neither the Secretary of the Treasury nor the Administration shall sell any loans, portions of loans, or notes or debentures guaranteed by the Administration pursuant either to the Small Business Act or the Small Business Investment Act of 1958 except those specified in the amendment made by section 901, except that this section shall not apply to the sale of debentures or other securities provided for in sections 321 and 504 of the Small Business Investment Act of 1958.

GRASSLEY (AND OTHERS) AMENDMENT NO. 2860

Mr. DOMENICI (for Mr. GRASSLEY, for himself, Mr. LAUTENBERG, Mr. D'AMATO, Mr. PROXMIRE, Mr. DENTON, Mr. DOLE, Mr. MATTINGLY, Mr. HARKIN, Mr. CHILES, Mr. DECONCINI, Mr. HOLLINGS, and Mrs. HAWKINS) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

At the appropriate place in the Committee amendment, insert the following:

SEC. . DENIAL OF CERTAIN TAX BENEFITS WITH RESPECT TO ACTIVITIES IN CERTAIN FOREIGN COUNTRIES.

(a) DENIAL OF FOREIGN TAX CREDIT.—Section 901 (relating to taxes of foreign countries and of possessions of the United States) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) DENIAL OF FOREIGN TAX CREDIT, ETC. WITH RESPECT TO CERTAIN FOREIGN COUNTRIES.—

"(1) IN GENERAL.—Notwithstanding any other provison of this part—

"(A) no credit shall be allowed under subsection (a) for any income, war profits, or excess profits taxes paid or accrued (or deemed paid under section 902 or 960) during the taxable year to any country to which this subsection applies, and

"(B) subsections (a), (b), and (c) of section 904 and sections 902 and 960 shall be applied separately with respect to income for such taxable year from sources within any country so identified.

"(2) COUNTRIES TO WHICH SUBSECTION APPLIES.—

"(A) IN GENERAL.—This subsection shall apply to any foreign country—

"(i) the government of which the United States does not recognize, unless such government is otherwise eligible to purchase defense articles or services under the Arms Export Control Act,

"(ii) with respect to which the United States has severed diplomatic relations,

"(iii) with respect to which the United States has not severed diplomatic relations but does not conduct such relations, or

"(iv) which the Secretary of State has, pursuant to section 6(j) of the Export Administration Act of 1979, as amended, designated as a foreign country which repeatedly provides support for acts of international terrorisms.

"(B) PERIOD FOR WHICH SUBSECTION APPLIES.—This subsection shall apply to any foreign country described in subparagraph (A) during the period—

"(i) beginning on the later of—

"(I) January 1, 1987, or

"(II) 6 months after such country becomes a country described in subparagraph (A), and

"(ii) ending on the date the Secretary of State certifies to the Secretary of the Treasury that such country is no longer described in subparagraph (A).

"(3) PART-YEAR RULE.—If this subsection applies to any foreign country for any period less than an entire taxable year, paragraph (1) shall be applied by taking into account only that proportion of the taxes and income described in paragraph (1) for the taxable year as the portion of the taxable year which includes such period bears to the entire taxable year."

(b) DENIAL OF DEFERRAL OF INCOME.—

(1) GENERAL RULE.—Section 952(a) (defining subpart F income) is amended by striking out "and" at the end of paragraph (3), by striking out the period at the end of paragraph (4) and inserting in lieu thereof ", and", and by inserting immediately after paragraph (4) the following new paragraph:

"(5) the income of such corporation derived from any foreign country during any period during which section 904(1) applies to such foreign country."

(2) INCOME DERIVED FROM FOREIGN COUNTRY.—Section 952 (defining subpart F income) is amended by adding at the end thereof the following new subsection:

(3) INCOME DERIVED FROM FOREIGN COUNTRY.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of subsection (a)(5), including regulations which treat income paid through 1 or more entities as derived from a foreign country to which section 904(i) applies if such income was, without regard to such entities, derived from such country."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1987.

LEAHY AMENDMENT NO. 2861

Mr. DOMENICI (for Mr. LEAHY) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

At the appropriate place, add a new section as follows:

SEC. . Funds made available by title IV of the Agriculture, Rural Development, and Related Agencies Appropriations Act of 1986 for Public Law 480, title II programs, and not otherwise obligated on the date of enactment of this section, shall be obligated during fiscal year 1986 for the purposes for which they were made available only.

STENNIS (AND COCHRAN) AMENDMENT NO. 2862

Mr. DOMENICI (for himself, Mr. STENNIS, and Mr. COCHRAN) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

At the appropriate place in the bill, add the following new section:

SEC. . MEDICARE PAYMENTS TO LARGE RURAL HOSPITALS SERVING A DISPROPORTIONATE SHARE OF LOW-INCOME PATIENTS.

(a) IN GENERAL.—Section 1886(d)(5)(F)(v) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(F)(v)) is amended—

(1) by striking "or" at the end of subclause (II), and

(2) by striking subclause (III) and inserting in lieu thereof the following new subclauses:

"(III) such percentages as are determined by the Secretary to be appropriate for hospitals located in a rural area which have 300 or more beds, or

"(IV) 45 percent if the hospital is located in a rural area and has less than 300 beds."

(b) CONFORMING CHANGE.—Section 1886(d)(5)(F)(iv) of such Act is amended—

(1) in subclause (I) by inserting ", or is located in a rural area and has 300 or more beds," after "beds,", and

(2) in subclause (III) by inserting "and has less than 300 beds" after "area".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to discharges occurring on or after October 1, 1986.

GORTON (AND OTHERS) AMENDMENT NO. 2863

Mr. GORTON (for himself, Mr. HOLLINGS, Mr. GRASSLEY, Mr. MOYNIHAN, Mr. DOMENICI, Mrs. HAWKINS, Mr. WARNER, Mr. DENTON, Mr. RIEGLE, Mr. MATTINGLY, Mr. SASSER, Mr. CHILES, Mr. SPECTER, Mr. COHEN, Mr. CHAFEE, Mr. DECONCINI, and Mr. HEINZ) proposed an amendment which was subsequently modified, to the amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

At the end of the bill, add the following new title:

TITLE —MISCELLANEOUS RETIREMENT BENEFITS PROTECTIONS

Subtitle A—Protections From Extraordinary Public Debt Management

SEC. 01. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) IN GENERAL.—Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) AVAILABILITY OF FUNDS.—Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under any other provisions of law directly related to the programs established by this title.".

SEC. 02. CIVIL SERVICE RETIREMENT AND DISABILITY FUND.

(a) INVESTMENT AND RESTORATION OF THE FUND.—Section 8348 of title 5, United States Code, is amended by adding at the end the following new subsection:

"(j)(1) Notwithstanding subsection (c) of this section, the Secretary of the Treasury may suspend additional investment of amounts in the Fund if necessary to ensure that the public debt of the United States does not exceed the public debt limit.

"(2) Any amounts in the Fund which, solely by reason of the public debt limit, are not invested shall be invested by the Secretary of the Treasury as soon as such investments can be made without exceeding the public debt limit.

"(3) Upon expiration of the debt issuance suspension period, the Secretary of the Treasury shall immediately issue to the Fund obligations under chapter 31 of title 31 that (notwithstanding subsection (d) of this section) bear such interest rates and maturity dates as are necessary to ensure that, after such obligations are issued, the

holdings of the Fund will replicate to the maximum extent practicable the obligations that would be held by the Fund if the debt issuance suspension period had not occurred.

"(4) On the first normal interest payment date after the expiration of any debt issuance suspension period, the Secretary of the Treasury shall pay to the Fund, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Secretary to be equal to the excess of—

"(A) the net amount of interest that would have been earned by the Fund during such debt issuance suspension period if—

"(i) amounts in the Fund that were not invested during such debt issuance suspension period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to the Fund which occurred during such debt issuance suspension period solely by reason of the public debt limit had not occurred, over

"(B) the net amount of interest actually earned by the Fund during such debt issuance suspension period.

"(5) For purposes of this subsection and subsections (k) and (l) of this section—

"(A) the term 'public debt limit' means the limitation imposed by section 3101(b) of title 31; and

"(B) the term 'debt issuance suspension period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) SALES AND REDEMPTIONS BY THE FUND.—Section 8348 of title 5, United States Code, as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(k) The Secretary of the Treasury may sell or redeem securities, obligations, or other invested assets of the Fund only for the purpose of enabling the Fund to make payments authorized by the provisions of this subchapter or chapter 84 of this title or related provisions of law. If the Fund holds any amounts which, by reason of the public debt limit, are not invested, the Secretary may nevertheless make such sales and redemptions if, and only to the extent, necessary to ensure that such payments are made in a timely manner.".

(c) REPORTS REGARDING THE OPERATION AND STATUS OF THE FUND.—Section 8348 of title 5, United States Code, as amended by subsections (a) and (b), is further amended by adding at the end the following new subsection:

"(l)(1) The Secretary of the Treasury shall report to Congress on the operation and status of the Fund during each debt issuance suspension period for which the Secretary is required to take action under paragraph (3) or (4) of subsection (j) of this section. The report shall be submitted as soon as possible after the expiration of such period, but not later than the date that is 30 days after the first normal interest payment date occurring after the expiration of such period. The Secretary shall concurrently transmit a copy of such report to the Comptroller General of the United States.

"(2) Whenever the Secretary of the Treasury determines that, by reason of the public debt limit, the Secretary will be unable to fully comply with the requirements of subsection (c) of this section, the Secretary shall immediately notify Congress of the determination. The notification shall be made in writing.".

SEC. 03. COST-OF-LIVING ADJUSTMENTS IN CERTAIN FEDERAL BENEFITS.

(a) IN GENERAL.—Benefits which are payable in calendar year 1987, 1988, 1989, 1990, or 1991, under programs listed in section 257(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), including any cost-of-living adjustment in such benefits, shall not be subject to modification, suspension, or reduction in such calendar year pursuant to a Presidential order issued under such Act.

(b) DEFINITION.—For purposes of this section, the term "cost-of-living adjustment" means any increase or change in the amount of a benefit or in standards relating to such benefit under any provision of Federal law which requires such increase or change as a result of any change in the Consumer Price Index (or any component thereof) or any other index which measures costs, prices, or wages.

SEC. 04. EXEMPT PROGRAMS AND ACTIVITIES.

(a) IN GENERAL.—Section 255(g)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)) is amended by inserting after the item relating to Compensation of the President the following new item:

"Dual benefits payments account (60-0111-0-1-601);".

(b) APPLICATION.—The amendment made by subsection (a) shall apply to fiscal years beginning after September 30, 1986.

Subtitle B—Older Americans Pension Benefits

SEC. 10. BENEFIT ACCRUAL BEFORE MAXIMUM NORMAL RETIREMENT BENEFIT.

Section 4(f) of the Age Discrimination in Employment Act of 1967 (29 U.S.C. 623(f)) is amended—

(1) by inserting "(1)" after the subsection designation;

(2) by redesignating paragraphs (1) through (3) as subparagraphs (A) through (C), respectively;

(3) in subparagraph (B) (as so redesignated)—

(A) by striking out "and" after "hire any individual,"; and

(B) by inserting before the semicolon at the end thereof a comma and "and no employee benefit plan shall require or permit the suspension of an employee's benefit accrual, or the reduction of the rate of an employee's benefit accrual, because of age before accruing the maximum normal retirement benefit under the plan unless the plan is a defined benefit pension plan that provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan"; and

(4) by adding at the end thereof the following new paragraph:

"(2) Nothing in this section shall to construed to prohibit an employer, employment agency, or labor organization from observing the terms of an employee benefit plan that—

"(A) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1052(a)(2)); or

"(B) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

SEC. 11. BENEFIT ACCRUAL BEYOND NORMAL RETIREMENT AGE.

(a) ERISA AMENDMENTS.—

(1) IN GENERAL.—Subsection (a) of section 204 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1054(a)) is amended to read as follows:

"(a) Each pension plan shall satisfy the requirements of subsection (b)(3), and—

"(1) in the case of a defined benefit plan, shall satisfy the requirements of subsection (b)(1); and

"(2) in the case of a defined contribution plan, shall satisfy the requirements of subsection (b)(2).".

(2) DEFINED BENEFIT PLANS.—Section 204(b)(1) of such Act is amended by adding at the end thereof the following new subparagraph:

"(H)(i) Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if, under the terms of the plan, an employee's benefit accrual is suspended or the rate of an employee's benefit accrual is reduced solely because of age before accruing the maximum normal retirement benefit under the plan unless the plan provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan.

"(ii) A defined benefit plan shall not be treated as not satisfying the requirements of this subparagraph solely because the plan—

"(I) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2); or

"(II) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

(3) DEFINED CONTRIBUTION PLANS.—Section 204(b) of such Act is further amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2)(A) An individual account plan satisfies the requirements of this paragraph if, under the plan, employer contributions to the employee's account are not suspended or reduced solely because of age.

"(B) A target benefit plan (as defined under regulations prescribed by the Secretary of the Treasury) shall not be treated as not satisfying the requirements of this paragraph solely because the plan excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2).

"(C) An individual account plan (including such a target benefit plan) shall not be treated as not satisfying the requirements of this paragraph solely because the plan imposes a limitation on the contributions that may be made or on the number of years for which contributions will be made under the plan with respect to an employee.".

(4) CERTAIN PLAN AMENDMENTS.—Section 204(g)(2) of such Act is amended by adding at the end thereof the following new sentence: "For purposes of paragraph (1), in the case of a plan that on the date of enactment of the Sixth Omnibus Budget Reconciliation Act, 1986, provided for the distribution or the commencement of distribution of the entire interest of an employee under

the plan on or after attaining the normal retirement age under the plan regardless of whether the employee has separated from service, an amendment that postpones the date as of which such distribution will be made or commence, and which is adopted within the 12-month period following the date on which section 204(b)(1)(H) or section 204(b)(2) (as amended by such Act) becomes applicable to the plan, shall not be treated as reducing accrued benefits.".

(b) CODE AMENDMENTS.—

(1) DEFINED BENEFITS PLANS.—Section 411(b)(1) of the Internal Revenue Code of 1954 (relating to accrued benefit requirements) is amended—

(A) by striking out "GENERAL RULES.—" and inserting in lieu thereof "DEFINED BENEFIT PLANS.—"; and

(B) by adding at the end thereof the following new subparagraph:

"(H) CONTINUED ACCRUAL BEYOND NORMAL RETIREMENT AGE.—

"(i) IN GENERAL.—Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if, under the terms of the plan, an employee's benefit accrual is suspended or the rate of an employee's benefit accrual is reduced solely because of age before accruing the maximum normal retirement benefit under the plan unless the plan provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan.

"(ii) EXCEPTION.—A defined benefit shall not be treated as not satisfying the requirements of this subparagraph solely because the plan—

"(I) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 410(a)(2); or

"(II) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

(2) DEFINED CONTRIBUTION PLANS.—Section 411(b) of such Code is further amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2) DEFINED CONTRIBUTION PLANS.—

"(A) IN GENERAL.—A defined contribution plan satisfies the requirements of this paragraph if employer contributions to the employee's account are not suspended or reduced solely because of age.

"(B) TARGET BENEFIT PLANS.—A target benefit plan (as defined under regulations prescribed by the Secretary) shall not be treated as not satisfying the requirements of this paragraph solely because the plan excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 410(a)(2).

"(C) INDIVIDUAL ACCOUNT PLANS.—An individual account plan (including such a target benefit plan) shall not be treated as not satisfying the requirements of this paragraph solely because the plan imposes a limitation on the contributions that may be made or on the number of years for which contributions will be made under the plan with respect to an employee.".

(3) CERTAIN PLAN AMENDMENTS.—Section 411(d)(6)(B) of such Code (relating to amendments that reduce accrued benefits) is amended by adding at the end thereof the following sentence: "For purposes of subparagraph (B), in the case of a plan that on the date of enactment of the Sixth Omnibus Budget Reconciliation Act, 1986, provided for the distribution or the commencement of distribution of the entire interest of an employee under the plan on or after attaining the normal retirement age under the plan regardless of whether the employee has separated from service, an amendment that postpones the date as of which such distribution will be made or commence, and which is adopted within the 12-month period following the date on which section 411(b)(1)(H) or section 411(b)(2) (as amended by such Act) becomes applicable to the plan, shall not be treated as reducing accrued benefits.".

(4) INTEGRATED PLANS.—Section 401(a)(5) of such Code (relating to a nondiscriminatory classification of employees) is amended by inserting after the second sentence the following new sentence: "Nor shall a plan be considered discriminatory within the meaning of such provisions merely because, in the case of an employee who has attained the normal retirement age under the plan, the plan provides for a rate of benefit accrual or contributions (including retirement benefits created under State or Federal law) that does not exceed the rate of benefit accrual or contributions under the plan (including retirement benefits created under State or Federal law) in the case of an employee who has not attained the normal retirement age under the plan.".

(5) CONFORMING AMENDMENT.—The first sentence of section 411(a) of such Code (relating to minimum vesting standards) is amended by striking out "paragraph (2) of subsection (b), and" and all that follows through the end thereof and inserting in lieu thereof "subsection (b)(3), and also satisfies, in the case of a defined benefit plan, the requirements of subsection (b)(1) and, in the case of a defined contribution plan, the requirements of subsection (b)(2).".

SEC. 12. EFFECTIVE DATE.

(a) IN GENERAL.—The amendments made by this subtitle shall apply only to employees who are employed after December 31, 1988. In the case of such employees, such amendments shall apply to accrual computation periods beginning after December 31, 1986. In the case of employees not employed after December 31, 1988, the amendments made by this subtitle shall apply only to accrual computation periods beginning after December 31, 1988.

(b) PLAN AMENDMENTS.—If any amendment made by this subtitle requires an amendment to any plan, such plan amendment shall not be required to be made before the first plan year beginning on or after January 1, 1989, if—

(1) during the period after such amendment takes effect and before such first plan year, the plan is operated in accordance with the requirements of such amendment; and

(2) such plan amendment applies retroactively to the period after such amendment takes effect and before such first plan year. A pension plan shall not be treated as failing to provide definitely determinable benefits or contributions merely because it operates in accordance with this provision.

(c) SPECIAL RULE FOR COLLECTIVELY BARGAINED PLANS.—In the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers ratified before March 1, 1986, the amendments made by this subtitle shall not apply to plan years beginning before the earlier of—

(1) the later of—

(A) January 1, 1989, or

(B) the date on which the last of such collective bargaining agreements terminate (determined without regard to any extension thereof after February 28, 1986), or

(2) January 1, 1991.

(d) FINAL REGULATIONS.—The Secretary of Labor or the Secretary of the Treasury, as the case may be, shall issue before February 1, 1988, such final regulations as may be necessary to carry out the amendments made by this subtitle.

At the appropriate place, add the following new title:

TITLE II—SOCIAL SECURITY TRUST FUNDS

SEC. 201. SHORT TITLE.

This title may be cited as the "Social Security Trust Funds Management Act of 1986".

SEC. 202. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under any other provisions of law directly related to the programs established by this title.".

SEC. 203. REPEAL OF NORMALIZED TAX TRANSFER.

(a) Subsection (a) of section 201 of the Social Security Act is amended by striking out the matter following clause (4) and inserting in lieu thereof the following: "The amounts appropriated by clauses (3) and (4) shall be transferred from the general fund of the Treasury of the United States to the Federal Old-Age and Survivors Insurance Trust Fund, and the amounts appropriated by clauses (1) and (2) of subsection (b) shall be transferred from the general fund of the Treasury to the Federal Disability Insurance Trust Fund, upon receipt by the general fund of taxes specified in clauses (3) and (4) of this subsection (as estimated by the Secretary). Proper adjustments shall be made in amounts subsequently transferred to the extent amounts previously transferred were in excess of, or were less than, the taxes specified in such clauses (3) and (4). All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under other provisions of law directly related to the programs established by this title.".

(b) The amendment made by subsection (a) shall take effect on July 1, 1990.

SEC. 204. FAITHFUL EXECUTION OF DUTIES BY MEMBERS OF BOARD OF TRUSTEES OF TRUST FUNDS.

Section 201(c) of the Social Security Act is amended by striking the last sentence and inserting the following: "A person serving on the Board of Trustees (including the Managing Trustee) shall not be considered to be a fiduciary, but each such person shall faithfully execute the duties imposed on such person by this section. A person serving on the Board of Trustees (including the Managing Trustee) shall not be personally liable for actions taken in such capacity with respect to the Trust Funds.".

SEC. 205. REPORTS REGARDING THE OPERATION AND STATUS OF THE TRUST FUNDS.

Subsection (c) of section 201 of the Social Security Act is amended—

(1) by striking "once" in the fourth sentence and inserting "twice",

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively,

(3) by redesignating paragraphs (3), (4), and (5) as subparagraphs (D), (E), and (F), respectively,

(4) by inserting after subparagraph (B) (as redesignated by paragraph (2) of this section) the following:

"(C) Report to the Congress as soon as possible, but not later than the date that is 30 days after the first normal interest payment date occurring on or after the date on which any debt limit impact period for which the Managing Trustee is required to take action under paragraph (3) or (4) of subsection (d) ends, on—

"(i) the operation and status of the Trust Funds during such debt limit impact period, and

"(ii) the actions taken under paragraphs (3) and (4) of subsection (d) with respect to such debt limit impact period;",

(5) by striking out "in paragraph (2) above" and inserting in lieu thereof "in subparagraph (B) above",

(6) by inserting "(1)" after "(c)", and

(7) by adding at the end thereof the following:

"(2) The Managing Trustee shall report monthly to the Board of Trustees concerning the operation and status of the Trust Funds and shall report to Congress and to the Board of Trustees not less than 15 days prior to the date on which, by reason of the public debt limit, the Managing Trustee expects to be unable to fully comply with the provisions of subsection (a) or (d)(1), and shall include in such report an estimate of the expected consequences to the Trust Funds of such inability.".

SEC. 206. ELIMINATION OF UNDUE DISCRETION IN THE INVESTMENT OF TRUST FUNDS.

(a) Section 201(d) of the Social Security Act is amended, in the first sentence—

(1) by inserting "immediately" after "to invest"; and

(2) by striking ", in his judgment,".

(b)(1) Paragraph (2) of section 201(d) of the Social Security Act, as added by section 202 of this Act, is amended to read as follows:

"(2) If any amount in either of the Trust Funds is not invested solely by reason of the public debt limit, such amount shall be invested as soon as such investment can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title."

(2) The amendment made by paragraph (1) shall take effect on July 1, 1990.

SEC. 207. SALES AND REDEMPTIONS BY TRUST FUNDS.

Section 201(e) of the Social Security Act is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding at the end the following:

"(2)(A) The Managing Trustee may effect any such sale or redemption with respect to either Trust Fund only for the purpose of enabling such Trust Fund to make payments authorized by this title or under any other provisions of law directly related to the programs established by this title. If either of the Trust Funds holds any amounts which are not invested by reason of the public debt limit, the Managing Trustee is nevertheless directed to make such sales and redemptions if, and only to the extent, necessary to assure timely payment of benefits and other payments authorized by this title or by any other provisions of law directly related to the programs established by this title, but the principal amount of obligations sold or redeemed pursuant to this sentence shall not exceed the principal amount of obligations that would have been sold or redeemed under normal operating procedures in order to make such payments.".

SEC. 208. EFFECTIVE DATE.

Except as otherwise provided by this title, the amendments made by this title shall take effect on the date of enactment of this Act.

STEVENS AMENDMENT NO. 2864

Mr. STEVENS (for himself and Mr. ANDREWS) proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

At the end of section 102 insert the following new language: "Such regulations shall not prohibit full transferability and assignability of such loans without condition, and shall not require unreasonable reductions in rates to customers.".

HARKIN AMENDMENT NO. 2865

Mr. HARKIN proposed an amendment to amendment No. 2850 proposed by Mr. DOMENICI (and others) to the bill S. 2706, supra; as follows:

On page 10 of the amendment strike lines 8 and 9.

NOTICES OF HEARINGS

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. HELMS. Mr. President, I wish to announce that the Committee on Agriculture, Nutrition, and Forestry, has

scheduled hearings on the following days:

Wednesday, September 24, 1986, 10 a.m., in SR332—the full committee has scheduled a hearing to consider the nomination of Jim R. Billington, of Oklahoma, to be a member of the Farm Credit Administration Board, Farm Credit Administration; and

Thursday, September 25, 1986, 9:30 a.m., in SR332—the Subcommitte on Agricultural Research, Conservation, Forestry, and General Legislation, of the Committee on Agriculture, Nutrition, and Forestry, will hold a hearing to address two pieces of legislation; S. 2685, the Tennessee Wilderness Act of 1986 and S. 2782, the Sipsey Wild and Scenic River and Sipsey Wilderness Addition Act of 1986.

For further information, please contact the committee staff at 224-2035.

AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON PUBLIC LANDS, RESERVED WATER, AND RESOURCES CONSERVATION

Mr. ARMSTRONG. Mr. President, I ask unanimous consent that the Subcommittee on Public Lands, Reserved Water and Resource Conservation of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Friday, September 19, to hold a hearing on the following:

S. 1971, to transfer certain lands under the jurisdiction of the Secretary of the Interior to the city of Mesquite, Nevada;

S. 2194, to authorize the conveyance of 40 acres in Nevada to the Catholic Diocese of Reno/Las Vegas;

S. 2599, to declare that the United States holds certain public domain lands in trust for the Pueblo of Zia;

S. 2698, to transfer certain public lands in Nevada to the Toiyabe, Humboldt, and Inyo National Forests;

S. 2758, to authorize the exchange of certain lands in the States of Nevada and Florida;

S.J. Res. 372, authorizing establishment of a memorial to honor America's astronauts;

S. 2812 and H.R. 4037, relating to the Indiana Dunes National Lakeshore, and for other purposes; and

H.R. 4645, an act to modify the boundaries of the Cuyahoga Valley National Recreation Area.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON AVIATION

Mr. ARMSTRONG. Mr. President, I ask unanimous consent that Aviation Subcommittee of the Committee on Commerce, Science and Transportation be authorized to meet during the session of the Senate on Friday, September 19, to conduct a hearing on cabin air quality.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

PHILADELPHIA, 1787

● Mr. ARMSTRONG. Mr. President, 199 years ago this week, a small band of American patriots concluded their deliberations on a constitution for the United States. They had worked for only about 100 days, but their work culminated in the great, organic charter of the land that was to become the freest, richest, and most powerful nation the world has ever known. Our success is due, in large measure, to the inspired foundation that the framers laid to "form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty * * *."

On September 17 in 1787, in the State House in Philadelphia, 38 men put their signatures to a document that has withstood the roaring tempests of wars, the exhilaration of growth, and the ravages of depressions. And while military, political, and economic troubles are not strangers in our own time, yet it may be that our generation is called on to defend the Constitution against more insidious threats. Our external enemies present an ominous threat, but greater dangers may lie in our own affluence, apathy, and decadence.

On Monday, September 17, 1787, as the last delegates were filing forward to sign the new Constitution, Benjamin Franklin, the world-famous diplomat and scientist who was at the time the President of Pennsylvania, directed the attention of some of the delegates to the chair that was occupied by Gen. George Washington, the Convention's President. On the chair's back was a carved, gilded sun. Franklin observed that painters had found it difficult to distinguish in their art a rising from a setting sun, and he had often during their deliberations looked at that chair without being able to tell whether the sun was rising or setting. "But now at length," said the wise Franklin as the final names were being subscribed, "I have the happiness to know that it is a rising and not a setting sun."

Mr. President, in an attempt to honor and remember the work of the founders, I ask that a copy of Dr. Franklin's address to the convention on September 17, 1787, be placed in the RECORD:

ADDRESS OF BENJAMIN FRANKLIN

"Mr. President

"I confess that there are several parts of this constitution which I do not at present approve, but I am not sure I shall never approve them: For having lived long, I have experienced many instances of being obliged by better information or fuller consideration, to change opinions even on important subjects, which I once thought right, but found to be otherwise. It is therefore that the older I grow, the more apt I am to doubt my own judgment, and to pay more respect to the judgment of others. Most men indeed as well as most sects in Religion, think themselves in possession of all truth, and that wherever others differ from them it is so far error. Steele, a Protestant in a Dedication tells the Pope, that the only difference between our Churches in their opinions of the certainty of their doctrines is, the Church of Rome is infallible and the Church of England is never in the wrong. But though many private persons think almost as highly of their own infallibility as of that of their sect, few express it so naturally as a certain French lady, who in a dispute with her sister, said "I don't know how it happens, Sister but I meet with no body but myself, that's always in the right"—*Il n'y a que moi qui a toujours raison."*

"In these sentiments, Sir, I agree to this Constitution with all its faults, if they are such; because I think a general Government necessary for us, and there is no form of Government but what may be a blessing to the people if well administered, and believe farther that this is likely to be well administered for a course of years, and can only end in Despotism, as other forms have done before it, when the people shall become so corrupted as to need despotic Government, being incapable of any other. I doubt too whether any other Convention we can obtain may be able to make a better Constitution. For when you assemble a number of men to have the advantage of their joint wisdom, you inevitably assemble with those men, all their prejudices, their passions, their errors of opinion, their local interests, and their selfish views. From such an Assembly can a perfect production be expected? It therefore astonishes me, Sir, to find this system approaching so near to perfection as it does; and I think it will astonish our enemies, who are waiting with confidence to hear that our councils are confounded like those of the Builders of Babel; and that our States are on the point of separation, only to meet hereafter for the purpose of cutting one another's throats. Thus I consent, Sir, to this Constitution because I expect no better, and because I am not sure, that it is not the best. The opinions I have had of its errors, I sacrifice to the public good—I have never whispered a syllable of them abroad—Within these walls they were born, and here they shall die—If every one of us in returning to our Constituents were to report the objections he has had to it, and endeavor to gain partizans in support of them, we might prevent its being generally received, and thereby lose all the salutary effects and great advantages resulting naturally in our favor among foreign Nations as well as among ourselves, from our real or apparent unanimity. Much of the strength and efficiency of any Government in procuring and securing happiness to the people, depends, on opinion, on the general opinion of the goodness of the Government, as well as of the widom and integrity of its Governors. I hope therefore that for our own sakes as a part of the people, and for the sake of posterity, we shall act heartily and unanimously in recommending this Constitution (if approved by Congress and confirmed by the Conventions) wherever our influence may extend, and turn our future thoughts and endeavors to the means of having it well administered.

"On the whole, Sir, I cannot help expressing a wish that every member of the Convention who may still have objections to it, would with me, on this occasion doubt a

little of his own infallibility—and to make manifest our unanimity, put his name to this instrument. . . ."

NATIONAL POW-MIA RECOGNITION DAY

● Mr. ANDREWS. Mr. President, on POW-MIA Recognition Day we are painfully reminded how very high is the price of freedom. Since the Revolutionary War, Americans have been willing to sacrifice their lives when necessary to preserve the ideal of freedom that we as civilized humans so deeply cherish. Therefore, today we honor those brave individuals who have made a supreme sacrifice—not certain death, but that of an undetermined fate which leaves their families unaware and uncertain of their fate.

It is particularly tragic to imagine the fate of those 2,434 brave Americans still unaccounted for in Southeast Asia over 11 years after the last American transport left and Saigon fell to North Vietnam. This day illuminates this sorrowful fact as we honor those still lost to us and console the many families whom remain uninformed about the whereabouts of their fathers, sons, husbands, or brothers.

These servicemen are missing throughout Vietnam, Cambodia, and Laos. While these countries' governments maintain that there are no longer any POW's—only MIA's—it is difficult to take these claims as anything more than empty rhetoric.

In Vietnam, 591 prisoners were freed by Hanoi between February and April 1973. Then the Vietnamese allowed 68 stranded Americans to return home in 1976. Although we have seen an increase in the release of names and remains from the Vietnamese Government in the last 2 years, their motives remain questionable and the total number of bodies returned since the war's end is only 147.

An estimated 556 Americans remain unaccounted for in Laos and there has been little information released about the fate of these soldiers. While the Laotians did allow a joint United States-Laotian excavation at a crashsite near Pakse in 1985, gestures of compassion from this government appear slow in coming and infrequent and never without hints of a quid pro quo for United States aid or normalized relations.

Most sadly, Cambodia remains a mystery. Some of the Americans listed missing were captured in this country where atrocities against their own people have been a way of life. Unfortunately, the continuing political and military upheavals in Cambodia have resulted in almost a complete lack of information concerning our military personnel.

These three countries have demonstrated little, if any, humanitarian concerns for our POW-MIA's. Time will only tell if this condition will change. But, we have both the responsibility and the obligation to those missing Americans to remain unceasing in our efforts to resolve the question of the fate of these men and bring an end to the prolonged anguish of their families and of the Nation. We must bring our POW's-MIA's home where they belong; home to honor these Americans, living or at final peace, who have paid the supreme price for our freedom.●

THE ENGLISH PROFICIENCY ACT OF 1986

● Mr. CRANSTON. Mr. President, I am delighted to join with my good friend, the Senator from New Mexico [Mr. BINGAMAN] in introducing the English Proficiency Act of 1986. This bill, S. 2835 is much needed legislation. It is designed to help solve one of the most disabling problems an individual can have. That problem is illiteracy.

Thirteen percent of all Americans are illiterate, Mr. President, unable to read or to write. A total of one-third of all Americans are functionally illiterate—seriously impaired in their reading and writing abilities.

Previous attempts to combat illiteracy have lacked a careful sense of direction. This bill is aimed at bringing in as participating members of our society both those who cannot read and write in any language, and those who are not truly illiterate, but rather, are not yet proficient in English.

Mr. President, many people in our Nation can read and write in their native language, but not in English. Nearly half of those whose native tongue is not English have limited English proficiency. In effect, this may be as disabling to their participation in society as if they were truly illiterate.

As always, California is leading the Nation with new trends, new ideas, and new arrivals. The majority of California's new populations are young. Some have families. Others have found their way to my great State alone. Many cannot participate effectively in the society around them because of their inability to read and write English.

Hispanics are particularly plagued by limited English proficiency. In Los Angeles alone, there are an estimated 10,000 Hispanics on waiting lists for adult English instruction. Our democratic system—and the Nation as a whole—suffers when any substantial part of its population cannot fully participate. Some studies estimate that at least partial lack of English literacy among Hispanics may range as high as 56 percent.

Our bill targets this problem and strives to diminish the staggering inequity illiteracy and limited English proficiency create in our society.

English helps bind us together as a nation. Those who don't speak, read or write English are denied participation in the mainstream of society.

This legislation is a great first step toward integrating—socially, politically, and economically—into our society those with a language deficiency.

S. 2835 represents an investment in our future. Without this legislation, by the year 2000 an estimated 2.6 million children in this country may lack English proficiency.

Nonliterate children are in jeopardy of becoming underachieving adults. Parents determine much of the environment children become accustomed to and learn to accept. Low levels of literacy among parents create new generations of children with low levels of literacy, which reflects itself in limited employment opportunities. This legacy—passed on from one generation to another—results in many problems for individuals and for society.

Without parents who understand the doors that can be opened through literacy, children will fall victim to the malady of illiteracy.

Our Hispanic population is young and rapidly growing. By the year 2000 Hispanics may comprise 10 percent of the Nation's work force. And, obviously, Hispanics are not the only segment of our population in which this problem shows up. We cannot afford the possibility that a some large portion of our labor force will be a subclass, constrained by limited ability in English.

At present, attempts to improve literacy—public and private—are woefully inadequate. Most volunteer and publicly funded literacy programs do not accept those with limited English proficiency. They are designed for those who need improvement in English, rather than basic English instruction. And, private instruction is often too costly and requires too much of those who are struggling to survive in our society without proficiency in English.

I believe this legislation will go far in bringing into the mainstream of our society those who, up until now, have had no chance.

I am proud to be an original cosponsor of S. 2835. I believe it is legislation of great importance and hope my colleagues will join me, not only in cosponsoring it, but also in seeing it enacted before adjournment sine die of this Congress.●

A TRIBUTE TO WILLIAM R. THAYER

● Mr. GRASSLEY. Mr. President, I would like to take this opportunity to acknowledge a fellow Iowan—Mr. William R. Thayer—for his dedicated efforts on behalf of this State and our Nation's elderly citizens. As president of the American Association of Homes

for the Aging [AAHA] since November 1984, Bill Thayer has worked tirelessly to ensure that the elderly receive the care and services they need and deserve.

Bill is living proof of the traditional American ideal that you can come from a small town but still make a big difference in the lives of millions of your fellow citizens. As president of a nationwide association of nonprofit providers of care and services to America's elderly, Bill's dedication to compassionate and quality care has touched not only the lives of the 170 residents of Iowa's Madrid Home for the Aging where he is administrator, but also has enhanced the quality of the lives of hundreds of thousands of older persons in homes throughout America.

AAHA is celebrating its silver anniversary as a national organization during its annual meeting in New York City on September 28 through October 1, 1986, and during the ceremonies will pay tribute to Bill Thayer. As a member of the Special Committee on Aging and chairman of the Aging Subcommittee of the Senate Labor and Human Resources Committee, I wish to congratulate AAHA on 25 years of service to and advocacy on behalf of our older citizens. I take particular pleasure in joining with AAHA, and with my fellow Iowans of the Iowa Association of Homes for the Aging, in honoring Bill Thayer for the leadership he has provided the association as he completes his 2-year term.

Bill has distinguished himself as an effective and compassionate advocate for the elderly. He puts into practice every day the kind of personal concern and professional values which promote dignity and understanding for the senior members of our society.

Bill's experience in the field of aging amply prepared him to assume leadership of AAHA. He holds undergraduate and graduate degrees from Dakota Wesleyan University, Mitchell, SD, and the College of St. Thomas, St. Paul, MN. He has also continued to pursue additional study of health systems management at Harvard University. Before becoming administrator of Iowa's Madrid Home, Bill served as operations director, comptroller and administrator of the Ebenezer Society of Minneapolis, MN, and as an instructor with the Lutheran Homes for the Aging.

His concern for the elderly took a national perspective in 1981 when he was named a delegate to the White House Conference on Aging. And, he attained a number of elected State and national offices in the association prior to his election as AAHA president in 1984.

When Bill assumed AAHA's highest office, he announced an ambitious goal for the organization's membership to grow to 3,000 facilities by the time of its 25th anniversary. This goal was achieved in August. Under Bill's guidance, the association established a Midwest regional office in Chicago and welcomed community service providers as association members.

Bill personifies the association's nonprofit ethic of charity and philanthropy. All AAHA member facilities must be not-for-profit and most are affiliated with religious organizations. Members are joined together in a tradition of community involvement for the betterment of life of the elderly.

Working with AAHA Executive Vice President Sheldon Goldberg, Bill has overseen the expansion of association programs enhancing the effectiveness of nonprofit facilities. AAHA has sponsored group liability insurance for its members at a time of crisis in the insurance industry. Operational efficiency of nonprofit homes has also been encouraged through use of AAHA's group purchasing and a money-saving food purchasing program.

During Bill's tenure, the association inaugurated its Professional Development Institute. High-quality continuing education programs are offered to enhance the skills of professional long-term care and housing managers. Yet another major achievement of his term has been the launching of the Continuing Care Accreditation Commission to promote standards of professional practice in the life care industry. The program is already regarded as an effective means of helping consumers assess retirement community services.

Bill Thayer brings courage and insight to his work. He strives in all he does to make his dreams for the elderly a reality and a model for the long-term care field.

Mr. President, those of us in Congress who work to promote quality care for America's elderly join AAHA in celebrating Bill Thayer's achievements and his service to older Americans.

CONGRATULATIONS TO ROBERT WINER ON HIS 60TH BIRTHDAY

● Mr. LAUTENBERG. Mr. President, on September 29, Robert Winer, a close personal friend, will celebrate his 60th birthday. Today I want to offer him my congratulations.

Besides our personal friendship, I offer special recognition to Bob Winer today because of the contributions he has made to Paterson, my birthplace, and to the State of New Jersey. Bob Winer believes deeply in our democratic system. He supports that commitment by maintaining the manufacturing and production of products in the United States despite the attraction of lower cost production overseas and the very seductive benefits of foreign credit assistance and facilities.

Mr. President, Winer Industries, has its national headquarters in Paterson, NJ, where Bob's father started the family business almost 50 years ago. His father came to these shores without knowing what was ahead. But he had a deep belief that America was the country in which he wanted to live and bring up his family. Winer Industries now employes more than 1,000 people from Paterson, NJ, to Tennessee and Arizona. Winer Industries is a company which exemplifies not only good business leadership, but community leadership as well. That is because Bob Winer made it his personal mission to train and employ those without the career choices higher education affords.

In cities across America, company after company has deserted the urban settings in which they started. But Bob Winer has resisted this temptation. Instead he has created a modern facility, employing people in productive labor near their homes and families.

Winer Industries produces competitive, high quality products because the spirit of its employees and management combined leads to the production of the best products in their price line that customers can buy. As a result, Winer Industries was selected as one of the 100 best suppliers of 12,000 that service Sears Roebuck & Co. This award brought credit to the company and its workers and reflects the determination of Bob Winer to continue the legacy his father left behind. His mission is to be competitive in his industry, but to treat his employees and customers fairly, and to reinvest in facilities and new products to continue the family dream.

All of us in New Jersey take pride in Bob Winer's accomplishments and business leadership and wish him continued good health, happiness, and success. I am pleased to call him my friend.●

SOVIET JEWS AND THE BRODSKY CASE

● Mr. BINGAMAN. Mr. President, I rise today to celebrate the release from prison and emigration from the Soviet Union of Vladimir Brodsky and his family.

After serving more than 12 months in a Soviet labor camp on the charge of "hooliganism," Mr. Brodsky, his wife Dina, and their young child earlier today stepped off a plane to freedom. They landed in Vienna, and they are scheduled to fly to Israel Sunday.

My pleasure in seeing Soviet Jews seeking emigration be allowed to leave is always great, but this case has particular significance to me. On my trip to the Soviet Union last summer, I had the chance to meet personally with Dina, Brodsky, who was then pregnant

with their child. Since then I have corresponded with Dina and with General Secretary Gorbachev and other Soviet officials on the Brodskys' behalf. This is a happy ending to a story which began sadly years ago when the Brodskys first sought visas to emigrate. Their plight was exacerbated by Vladimir's "crimes," that is, his participation in peace activities. His civic concern and participation led to his conviction last August to 3 years in a labor camp.

Fortunately, Brodsky, a physician by profession, was singled out by a group with some leverage in Moscow—the International Physicians for the Prevention of Nuclear War, the group which won the 1986 Nobel Peace Prize. The team announced in May that Brodsky would be released. Yet it took until mid-September for him to be released from prison and taken to get a visa.

Unfortunately, only a tiny minority of those Soviet citizens being persecuted for their religious beliefs and cultural practices are lucky enough to be adopted by a group with such influence. The others must wait out their terms in prison and labor camps, isolated from their families, often restricted from even corresponding with them.

Such is the case of another refusenik whom I adopted after my trip last summer, Roald Zelichonok. Like the Brodsky case, I first learned of Mr. Zelichonok's troubles through his wife Galina, whom I met in Leningrad. Zelichonok was sentenced to 3 years in a Soviet labor camp for slandering the Soviet state. What was his real crime? Simply teaching Hebrew.

Mr. Zelichonok is elderly and in poor health, suffering from high blood pressure and severely underweight. Since his confinement, he has had to ensure sporadic solitary confinement and the denial of medical treatment. The Soviet authorities have periodically cut off his correspondence with his wife. In a recent letter to Galina, however, he was able to maintain his sense of humor. He spoke about the harsh conditions, which had worsened in recent weeks, but added that "if only I had the chicken soup, all of the other things would take care of themselves."

Roald's and Galina's courage in the face of such terror from day to day is an example to us all. But how long can they be expected to endure this? I wrote to General Secretary Gorbachev just this week for the second time in the past 3 months on the Zelichonoks behalf, but I fear that my protests fall on deaf ears. The Soviets cannot continue to underestimate the damage done to United States-Soviet relations by making Soviet Jews and individuals from other religious minorities, and most recently American journalist Nicholas Daniloff, pawns in the superpower chess game.

Those of us here in the Congress of the United States will not forget about Soviet human rights violations. We cannot allow ourselves to forget. As we rejoice in the Brodsky departure from the Soviet Union, we cannot forget about the Zelichonoks, and about the thousands of others struggling to survive and to leave the Soviet Union.●

UNITED NATIONS REFORM

● Mr. KENNEDY. Mr. President, over the past several months there has been an understandable concern expressed in many quarters of Congress over the need to achieve some fundamental reforms in the U.N. system. And strong criticism has been voiced over the operations and effectiveness of several U.N. agencies in recent years.

At the same time, Mr. President, there has also been a tendency to simply bash the United Nations for being the focus and the voice of international controversy.

But as the distinguished chairman of the House Committee on Foreign Affairs, Representative DANTE FASCELL, wrote today in the New York Times, there has been "enough U.N.-bashing." It is time to focus on the constructive and positive roles that the U.N. plays—not the least among its specialized agencies.

In fact, Mr. President, substantial progress has been achieved in the effectiveness of many of the U.N. agencies. One example today is the Office of the U.N. High Commissioner for Refugees. The new High Commissioner, Jean-Pierre Hocke, has undertaken some fundamental reforms that will increase the effectiveness of his operations in the field as well as strengthen the role of the central office in Geneva.

This is merely one example of the United Nations responding to our concerns and criticisms—when they are constructively offered. But I agree with Chairman FASCELL that the time for "U.N.-bashing" should be over.

For the RECORD, Mr. President, I would like to pay tribute to the important management and other reforms that have been achieved by the new U.N. High Commissioner for Refugees, and in doing so echo the points raised by our distinguished colleague, the chairman of the House Foreign Affairs Committee, Representative DANTE FASCELL.

I ask that a letter I have received with Senator SIMPSON from the Deputy U.N. High Commissioner for Refugees be printed at this point in the RECORD, along with today's outstanding article by Chairman FASCELL in the New York Times.

The material follows:

ENOUGH U.N.-BASHING

(By Dante B. Fascell)

WASHINGTON.—United Nations-bashing, an increasingly popular sport in the Administration, the Congress and a large segment of the public, has gotten out of hand. Unless all sides step back and rethink where they are going, crippling—perhaps fatal—damage will be inflicted on an organization that once was held as mankind's last best hope for peace.

There have been signs in the last week that the Administration may be moderating its stance toward the United Nations. I hope so. The organization's fate may be decided in coming weeks when Congress determines not whether to cut America's contributions to the organization but rather how deep those cuts should be.

Frustration has been building for some time, with good reason. The United Nations has been its own worst enemy, abdicating its responsibilities in favor of increasingly irresponsible—almost hysterical—anti-Western rehetoric and posturing. Still, America is not in the United Nations because it makes us feel good or because it "plays well" in Peoria, but because it is in our long-term interest to be there.

America has tried to shake the United Nations into an awareness that it has been pursuing a self-defeating course. When the United Nations granted recognition and observer status to the Palestine Liberation Organization, we withheld part of our contribution rather than benefit the P.L.O. And, of course, there is concern about Eastern bloc spies in the Secretariat and in Government missions.

Then, there is the issue of poor management and the budgetary process. America, which supplies 25 percent of the United Nations's funds, has no more say in how the money is spent than any other nation, some of which contribute virtually nothing.

Last year, in order to force budgetary reform, the Senate voted for an amendment calling for a reduction in America's assessment from 25 to 20 percent unless major donors were able to vote in proportion to their share of their contributions. A similar House amendment would have cut our share to 15 percent in protest against inflated United Nations salaries and pension benefis.

Since then, the Administration has responded with its own cuts. For example, in formulating its fiscal 1987 budget request, it decided, prematurely, to delete $79.1 million from our required payment because it determined that the United Nations would not achieve the budget reforms mandated by the Senate amendment. This decision exceeded the intent of the amendment, which simply requires that 20 percent of our total be "withheld" but not deleted from the budget until the United Nations had satisfied the requirement of the amendment.

In addition, the Administration's budget request eliminated $60 million more from America's required payment to the United Nations for a variety of other reasons. Thus, the Administration cut nearly $140 million out of our required payment before Congress began work on the 1987 budget.

Congress, faced with near-Draconian spending cuts mandated by the Gramm-Rudman-Hollings budget reduction process, has seen a flood of appropriations amendments aimed at trimming our contribution further. In the House, we were able to halt further cuts at $48 million because of the timely intervention of America's chief delegate to the United Nations, Vernon Walters.

Unfortunately, the Senate Appropriations Committee imposed a budget outlay restriction on America's payment that will cause a further $130 million cut in our required payment. While the combination of the cuts imposed by the Administration and the House is dangerously high, the Senate position would be tantamount to abdicating our membership.

The United Nations has gotten the message and has begun putting its house in order. Reforms will not be completed overnight. An 18-member group of experts on United Nations reform has just released its report with 71 recommendations hailed by Alan Keyes, Assistant Secretary of State for International Organizations, as "just what we've been waiting for." While not resolving the proportionate voting issue, the recommendations include big cuts in the size of the staff and other pending reforms.

Our nation should support that effort. The President must exercise his leadership in behalf of improving the United Nations. The Congress must provide adequate funding to enable the United Nations to get on with the more serious business at hand. And the public should recognize that the United Nations is more than a sterile debating society.

UNITED NATIONS, THE DEPUTY HIGH COMMISSIONER FOR REFUGEES,
August 11, 1986.

Hon. EDWARD M. KENNEDY,
U.S. Senator, Russell Office Building, U.S. Senate, Washington, DC

DEAR SENATOR KENNEDY: In his absence, Jean-Pierre Hocké has asked me to follow-up on your luncheon discussion in Washington with a note describing the general concept of the reforms he is implementing in UNHCR.

The fundamental objective of these reforms is to strengthen UNHCR's performance and cost-effectiveness in field operations which protect and assist refugees. Desirable derivative effects would be to set an example for greater UN effectiveness to the extent that UNHCR can facilitate better coordination and mutual reinforcement in the UN family, while also exemplifying ways in which other UN agencies could similarly be reformed.

Well before the General Assembly selected Jean-Pierre Hocké as High Commissioner, there was wide concern both within and outside the office that the UNHCR had lost its sense of identity and purpose. It lacked a clear command structure fixing responsibilities and accountability and it lacked the field orientation needed to move refugees out of increasingly stagnating and costly subsistence phases toward solutions to their tragic and intensely human problems.

After years of audits and studies and ultimata, certain UN members serious about reform recognized that the so-called "going for the jugular" approach was probably the only one with much chance of success. This meant the top leadership had to change. Jean-Pierre brought to UNHCR an impressive track record based on the time-tested fundamentals of leadership and teamwork. Application of these fundamentals would seem to be the obvious therapeutic response to the organization's drift and demoralization; instead, perhaps because the treatment was delayed so long, it has proved to be radical surgery. The surgery dealt with UNHCR's operating philosophy, with its structure, and with its procedures.

The old philosophy had the practical effect of establishing UNHCR as a headquarters-oriented entity, as a funding conduit from donors to NGOs, or government implementers, where everyone and therefore no one was responsible and accountable. The new philosophy emphatically asserts that the UNHCR is operational in the way that a general turn-key contractor is operational. UNHCR is responsible and accountable to the refugees and the international community for the conduct of operations which assist and protect refugees in the field.

The old structure consisted of a compartmentalized assistance and protection layer separating the High Commissioner from field operations. The new structure recognizes that nearly every refugee mission today must be an integrated protection/assistance operation, therefore the chain of command runs from the High Commissioner directly to five regional bureau chiefs, and on to representatives in the field. Responsibility and accountability rest in this chain of command for everything that goes right or wrong within the discharge of UNHCR's protection and problem-solving mandate. One could say that the primacy of refugee protection is decreed under the new integrated structure—not left to chance as could be the case in the old compartmentalized structure. The new Division of Refugee Law and Doctrine articulates the interrelationship of law and action and supports the regional bureaus in discharging their combined protection/assistance responsibilities.

The operational support part of the structure consists of budget, finance, personnel program management, technical services, emergency back-up, and social service elements, which report directly to the Deputy High Commissioner. Support services exist to help the Regional Bureau Chiefs do their job in the field.

UNHCR's new procedures are the sinews which tie leadership and teamwork together. The operational chain of command and the support elements need to be constantly communicating and coordinating with each other. This horizontal relationship is facilitated through integrated task forces dealing with our field emergencies, and through working groups dealing with on-going issues. An international management consulting firm is helping us introduce and fine-tune the new procedures, with the active participation of our own in-house working groups.

As is to be expected, there has been considerable internal trauma associated with such sharp changes in direction. Now I see us entering a consolidation phase where we can begin to implement those more routine but fundamental improvements needed to avoid recurring mistakes of the past and to position ourselves better for our longer term responsibilites. Some of these measures have already been implemented while others are in process. They include: (1) Developing mission statements and Representatives' responsibilities for each country where we operate; (2) Producing individual job descriptions and work objectives and mandating objective personnel evaluations against these standards—to use as a personnel management tool, and as a guide for rewards and sanctions for individuals performance; (3) Insuring that any external recruitment gives us the skills our current mission requires; (4) Taking into account that many of the current staff were recruited for a different UNHCR, with a different mission, and that large scale recruitment or replacements is impractical—we must enter a rigorous training period at every level; (5) We are already benefitting from objective, unsparing internal evaluations and "lessons-learned" from our field operations; (6) and we are currently assessing where we can eliminate lower priority posts so as to shift personnel to new posts which would be in the mainstream of our mission.

Jean-Pierre looks forward to keeping in touch with you on our progress, and values very much your strong support for refugees and UNHCR. We would also welcome your ideas as to ways we might help in the overall objective for what could be a ripple effect of reform within individual UN agencies, and the achievement of enhanced effectiveness when these agencies need to work together as a team.

From the High Commissioner and myself, warmest personal regards,

Sincerely,

ARTHUR E. DEWEY.●

THE GREAT PEACE MARCH

Mr. METZENBAUM. Mr. President, a few days ago, the Great Peace March, working its way from California to Washington, DC, began the portion of its trek that takes it through my home State of Ohio.

The 600 marchers who make up the body of the march have already traveled more than 2,700 miles, through 10 States. They have another 500 miles to travel before they will complete their arduous, sometimes seemingly impossible, sometimes controversial journey.

I joined the Great Peace March in my hometown of Cleveland on September 13. I was impressed by the spirit, by the persistance, by the depth of feeling the marchers possessed. I am a supporter of a mutual and verifiable freeze on nuclear weapons development and testing, and so perhaps it is natural that I became interested and involved in this remarkable effort by so many people.

But I have also become interested in the march through the vigorous and moving example of a longtime friend and former Clevelander, Irving Zeiger. Irving Zeiger has transplanted himself to Los Angeles where he is a successful businessman, and a devoted husband, father, and grandfather.

He joined the march and wrote a very moving piece about it which was published in the Cleveland Plain Dealer.

Because Irv Zeiger's personal statement about the Great Peace March is so moving, I ask that it be printed in the RECORD.

The article follows:

[From the Cleveland Plain Dealer, Aug. 16, 1986]

THE PEACE MARCH IS STILL ON THE ROAD

(By Irving Zeiger)

When I informed a few of my friends I was planning to spend a week on the Great Peace March for Global Nuclear Disarmament, I was met with understandable incredulity. When they learned I was serious, the immediate question was, "Will it do any good?" Besides, "Hasn't the march collapsed?"

My daughter, Leni Wildflower, and my grandson, Jesse Potter, and I flew to North Platte, Neb., and joined up. It was an unforgettable experience. The peace march has not collapsed. Six hundred dedicated, determined and patriotic Americans are alive and well, suntanned and fit, and have now walked more than halfway across the United States.

Kearney, Neb., is 1,733 miles from the Pacific. The peace march paraded through Kearney, complete with police escort. A peace city key was presented to the mayor. We planted a tree. The peace march has planted trees in more than 50 cities through which it has passed. The mayor welcomed us and proclaimed that the City Council had declared Kearney a nuclear free zone, the first city west of the Mississippi to take that action.

The sights and sounds as we walked along Nebraska Highway 30 will be with me for a long time. When that first freight train passed, with whistle blowing and engineer waving, a chill went through me, as it did with each succeeding train. I can't remember the last time I heard a train whistle; the truck drivers in their magnificent rigs slowing down, giving us room and flashing the peace sign; waving children in automobiles, and more peace signs; those wonderful Nebraskans greeting us, applauding, thanking, making us comfortable with water, food, flowers, small financial contributions, telling us they were glad we were there, anxious to do something; all this in an agricultural state suffering a huge decline in farms, population, industry and hope—while our government is consumed with Star Wars and more nuclear missiles. "Farms not arms," we chanted.

Who are the 600 marchers? They are everybody: workers, retirees, vets, students, children, homeowners, professionals, scholars, unemployed and highly employed. They have put their jobs on hold, their careers on hold, their education on hold, their family lives on hold in order to make the march. They have come together for uncommon reasons, but for the same purpose—to do something about the nuclear buildup that must be stopped.

Is the peace march reaching the American people? It has touched thousands in California, Nevada, Arizona, Utah, Colorado, Nebraska and now Iowa. It has touched them in a different way, in a people-to-people way.

Gov. Richard Lamm greeted the marchers in Colorado. Dozens of mayors have welcomed the marchers. Three Nebraska state senators visited the march. One senator, who had just run for governor, drove 150 miles from Lincoln to Shelton with his teenage daughters. All three walked with us for 15 miles. In Lincoln, Gov. Robert Kerrey greeted and endorsed the peace march. Sen Tom Harkin greeted the march in Iowa City.

As the peace march moves forward, marchers visit community organizations, churches and temples, Scout troops, local press and radio, businessmen's luncheons, Rotary Clubs, etc., bringing the message. The response from the people is quiet and powerful. They want an end to the threat of nuclear winter.

How is the march financing itself? The hard way. The march is in terrible shape financially. The early dollars are gone, small contributions trickle in. Marchers are being fed for $2 per day. Restaurants, YMCAs and churches occasionally provide food and shelter.

There is a rare miracle, as when a stranger in Denver appeared and contributed $25,000. Marchers are soliciting door-to-door. The marchers are undaunted. The march that almost died has become the march that won't quit.

Why was I there, I kept wondering. Why should I leave my comfortable home in the Hollywood Hills, leave my wife of 42 years for a week, leave a business that needs my attention, walk 10 to 15 miles a day in a blistering sun, survive on a diet of rice, grain and other unfamiliar foods, develop confidence in the portable latrines, sleep in a tent that I struggled to assemble in a country fairground, an alfalfa field, a sheep pasture, or worse—me with my 68 years and two artificial hips?

My answer is probably the same as for all the marchers. I wanted to do something. Surely the peace march is a noble moment in American history. When the march reaches Washington, D.C. on Nov. 15, as it most certainly will, America and people everywhere will acknowledge this heroic pilgrimage for the greatest of all purposes—peace on Earth. To have shared this experience with my daughter and grandson made it all the more memorable.

After six days and about 60 miles of marching, I boarded a plane at Grand Island, heading for home and my wife, my tennis and gin game, my business and my Dodgers. I thought about the question, "Will it do any good?" The question itself tells me the asker is worried. So am I. So are the people I met in Nebraska. I feel better since I met them. Will it do any good? I think so. I hope so.

It was President Eisenhower who said there may come a time when the government is going to have to get out of the way of the people. This might be the time. Ready or not, here comes the peace march.●

ARKANSAS' LIEUTENANT GOVERNOR WINSTON BRYANT

● Mr. PRYOR. Mr. President, recently I shared with my colleagues the acceptance address given by our Governor, Bill Clinton, on the occasion of his being elected head of the National Governors Association.

Today I wish to bring to the attention of my colleagues a leadership position undertaken by another Arkansas elected official.

Arkansas' Lieutenant Governor Winston Bryant was installed as chairman last month of the National Conference of Lieutenant Governors at the conference's annual meeting in Sante Fe, NM.

Winston will serve in this capacity for a 1-year period and act as official spokesman for the Nation's Lieutenant Governors. He is the first Arkansan to hold this position and only the third Southerner to serve in this national leadership post.

We in Arkansas are proud that the 49 other States have recognized the caliber of leadership we have in our State, a tribute to both our elected officials and our people.●

NATIONAL POW/MIA RECOGNITION DAY, SEPTEMBER 19, 1986

● Mr. NICKLES. Mr. President, today we pause in our deliberations to recognize, remember, and thank our Nation's POW/MIA's for their sacrifices in defense of the freedom that as Americans, we continue to enjoy. This Nation's former prisoners of war deserve our highest respect and honor—for they have endured a most painful experience, separation from country, loved ones and often, separation from their comrades-in-arms. Subjected to physical and spiritual torment by captors, they endured with valor, fortitude, and courage. Today many continue to bear the scars.

As a cosponsor to S. 1446, S. 2168, and S. 2422, all of which would improve benefits for former prisoners of war, I would like to remind the Members of this body that our POW's should not have to endure the financial and other strains of ill health by their sacrifices for us.

As I speak today, there are still 2,430 American Vietnam era service-members listed as missing-in-action, 49 of whom are Oklahomans. I believe that it is imperative that every American service-member know that when a person is lost, defending his or her country, that the United States will not rest until his or her family is cared for and an exact accounting is obtained.

In the past year, more remains of our missing soldiers have been returned to us than anytime since the end of the war in Vietnam. Although high-level talks with the Governments of Southeast Asian countries are continuing, the pace is frustrating. We have agreed with the Hanoi Government that technical talks will continue, that they will investigate and issue written reports on live sightings of Americans, that we will discuss specific crash sites and that they will permit our experts access to their information. In policy discussions with Laos they have agreed to accelerate cooperation and issue written reports on missing Americans.

America cannot rest knowing there is a chance that an American may still be held captive under the type of conditions our service-members were held in North Vietnam during the war. I believe it is imperative that each bit of information be investigated in detail and that each of the countries involved do their utmost to cooperate to bring the MIA's home.

I urge my colleagues to take several minutes today and be thankful for those of our POW/MIA's who have returned home, and to pray for the return of those still missing.●

NATIONAL POW/MIA RECOGNITION DAY

● Mr. BINGAMAN. Mr. President, today is "National POW/MIA Recognition Day," a day when across this country Americans will come together to remember the over 2,400 American men still missing from the Vietnam war. As Americans gather today, they will share a unity of purpose on this issue, namely a desire for the fullest possible accounting of those still unaccounted for in Southeast Asia.

All Americans support the priority which President Reagan has given to this issue. He has repeatedly promised that this Government will apply every resource it has available to achieving the fullest possible accounting of these brave men who have given so much to their Nation.

As a result of the administration's efforts, which enjoy bipartisan support in the Congress today, there is movement on this issue and the glimmer of hope that it may one day be satisfactorily resolved. Over the past 2 years there has been slow progress in the administration's negotiations with both Vietnam and Laos and the result has been the return of more of the remains of our men to their families than at any time since the end of the war more than a decade ago.

But much more needs to be done and we need much more cooperation from the Laotian and Vietnamese Governments. Convincing those Governments that it is in their interest to cooperate in resolving this humanitarian issue has been a long and frustrating process. It is a process in which we must continue to persevere with undiminished determination. We must make clear to the Southeast Asian governments that we mean it when we say that we will be satisfied with nothing less than the fullest possible accounting of our missing men.

The most troubling question we face, of course, is that of the possibility of living American prisoners in Indochina. While the governments of Indochina have repeatedly said that they are holding no one, they have never provided an accounting of some Americans whom our Government is absolutely sure were once in their hands alive. The President has said that the U.S. Government operates on the assumption that there are some Americans still held captive and therefore he has increased the intelligence resources devoted to this issue and they have pursued every lead, every piece of evidence to the fullest extent. That is the only thing that we can do until we get the answers we need.

My heart today goes out especially to the families of those missing in action in Southeast Asia. Currently, 31 of these families reside in my home State of New Mexico. I want today especially, to recognize Mrs. Virgie A. Townley, region IV of New Mexico State coordinator for the National League of Families of American Prisoners and Missing in Southeast Asia, for her undaunted spirit, courage and dedication to the plight of our POW/MIA's and their families.

There are many other Virgie Townleys across the country whose perseverance and dedication are keeping the flame of hope alive. I look forward to the day when their constancy is rewarded with a full accounting of their loved ones. That is the goal in which Americans are unified. And perhaps it is a sign of America's strength and resilience that such unity of purpose has emerged from our most divisive war.●

DORIS SMITH

● Mr. PRYOR. Mr. President, next week I will lose a dedicated staff member when Doris Smith retires. Born and raised in Monticello, IL, Doris' career in Government service began with employment at age 17 with the Treasury Department in Chicago. In 1945, she moved to Washington where she worked for 4 years for Treasury here. After marrying Jimmy Smith in 1947, she took a sabbatical from full-time work in 1949 that was to last for 20 years to raise two sons and a daughter.

She returned to work full-time in 1969 when she handled mail on the gun control issue for Senator Everett Dirksen. When Senator Dirksen died, she worked for his successor, Senator Ralph T. Smith. She then worked for Senators Adlai Stevenson III, Robert Taft, and Birch Bayh. It was my good fortune to hire Doris when I came to the Senate in 1979.

While a congressional mail operation may not be considered one of the most glamorous positions on the Hill, I can tell you that I rate an efficient mail room operation as essential to effective responsiveness to the people of my State. We've been so lucky to have someone like Doris who relishes that role.

Doris plans to take a well-deserved cruise and then plans to visit relatives back home in Illinois and in Maryland where she has resided since her move to the Washington area.

All of us will miss Doris greatly, but we know her retirement was well-earned by her lengthy service to the many people in Illinois, Ohio, Indiana, and Arkansas throughout her career.●

CATARACT SURGERY FEES

● Mr. BROYHILL. Mr. President, subsequent to my departure from the other body, the Energy and Commerce Committee, where I was ranking member, agreed to an unusually large reduction in Medicare payments for one specific procedure—the removal of cataracts and implantation of an intraocular lens. Furthermore, the administration, as part of its regulatory scheme to reduce payments for certain procedures in the Medicare Program proceeded with a regulatory proposal to reduce fees paid to cataract surgeons.

I have heard from ophthalmologists in North Carolina, and I'm sure that many of my colleagues have heard from the surgeons in their States, of the inequites that would result if the House provision becomes law, or if the administration is permitted to implement its current proposal.

I would like to ask the chairman of the Finance Committee, Mr. PACKWOOD, whether this matter will be open for consideration during the House-Senate conference?

● Mr. PACKWOOD. I understand your concern. The Finance Committee package addresses the issue of "inherent reasonableness" for physician services by placing parameters around the Secretary's application of his authority and specifies factors which are to be considered in determining the inherent reasonableness of charges. Because the Ways and Means and the Energy and Commerce Committees each have different positions in this area, it will undoubtedly be revisited during the conference.

● Mr. BROYHILL. The formula used by the administration in developing their regulation has resulted in inequitable reductions in physicians fees across the country. For instance, according to the American Academy of Ophthalmology, the range is from 5 percent to 51 percent. Ophthalmologists in North Carolina stand to lose an average of 31 percent per case. The State of California will lose an average of 7 percent. The irony of these reductions is this. In California, Medicare is willing to pay close to $2,100 for this procedure. In my State of North Carolina, the reimbursement is $1,200 for the same procedure.

● Mr. PACKWOOD. Yes, I know. While I believe "inherent reasonableness" can be used to reduce Medicare payments for overpriced procedures, clearly, the intent of the legislation is not to exacerbate current payment disparities.

PHYSICIAN PAYMENT

● Mr. DURENBERGER. Mr. President, I have a number of concerns that I'd like to express regarding the changes to Medicare's physician payment methodology that the Health Care Financing Administration is proposing, and their relation to the physician payment provisions included in the reconciliation package before us today.

As Chairman of the Finance Health Subcommittee, and an original sponsor of the "Medicare Physician Payment Reform Act" which is included in full in our reconciliation bill, I feel strongly that Medicare's physician payment

methodology has to be revised. The current methodology is riddled with inequitable disparities in allowed charges—disparities in fees paid in different goeographic areas, disparities in fees paid for cognitive versus procedural services, disparities in fees paid to "new" doctors versus doctors whose fees are constrained by the application of the Medicare Economic Index to the fees they charged 10 years ago, and disparities in fees allowed for surgical procedures which once represented risk, innovation, and the cutting edge of technological development, and now have become less "extraordinary" measures.

One example of this last disparity is cataract surgery involving intraoccular lens implantation. HCFA has cited evidence to show that this procedure is relatively overpriced under Medicare's physician payment system—and no one disputes that evidence.

I am concerned, however, about the way in which HCFA has proposed reducing these fees.

Last year's reconciliation bill gave HCFA the authority to reduce the disparities I cited above and to set "inherently reasonable" fees.

This year's reconciliation bill gives HCFA more specific direction as to the policy goals or factors to be used in making those adjustments.

But HCFA's first proposed exercise of this authority is not consistent with my understanding of what "inherent reasonableness" revisions are meant to accomplish.

Rather than reducing geographic disparities in cataract fees, the HCFA proposal would continue these disparities.

Rather than determining a fee that is appropriate for cataract operations with intraoccular lens implants, based on the time, risk, complexity, and resources involved, the HCFA proposal abrogates that responsibility and simply ties the fee for operations with IOL insertions to the fee for operations without IOL's. But operations without IOL insertions are rarely done anymore, and the fees for screens for those operations are at least as distorted as the fees for IOL insertions, if not more so. Linking the two fees together can result in forcing opthamologists in two different States who charge the same fees for IOL implants to be subjected to very different fee reductions if the fees they charge for operations without implants differ. This result is certainly not an "inherently reasonable" fee that appropriately reimburses cataract procedures across the country.

Clearly, tieing a fee for one operation to an equally distorted fee for another operation is not the way in which I envisioned "inherent reasonableness" being injected into Medicare's physician payment methodology.

I realize that won't be easy to make "inherently reasonable" revisions to physician payment on a gradual or incremental basis. But we'll simply have to work with HCFA to make the most fair and rational adjustments possible until the relative value scale, called for in COBRA, is completed.

There is a second reason to be particularly cautious in reducing cataract fees: many cataract operations are performed in ambulatory surgery centers, or A.S.C.'s. These A.S.C.'s are paid on a flat, prospectively set facility fee per procedure. Those facility fees have not been updated for 6 years—they are based on 1980 cost data.

This year's reconciliation package includes provisions, which I authored, which would require that those facility fees be updated. This is essential if we are to expect these convenient, low-cost facilities to be kept open and available to Medicare beneficiaries.

Any reduction in physicians' fees for cataract surgery should not jeopardize the continued existence of that important alternative site of care.

Mr. President, as the author of the ambulatory surgery provisions in the reconciliation package and as an original sponsor of the physician reimbursement provisions in the package, I would like to urge my distinguished colleague Senator PACKWOOD, Chairman of the Finance Committee, to consider these concerns as we go into conference on this bill.

● Mr. BROYHILL. The problems with this regulation and the Energy and Commerce Committee provision are apparent. I am not challenging the need for rationalization of Medicare payments for cataract surgery, only how we go about achieving that reduction.

I ask that when the Chairman takes this bill to conference that he consider an alternative developed by the American Academy of Ophthalmology. This alternative would in my opinion, rectify the major drawbacks in the administration's and Energy and Commerce Committee's plans.

First, it would base cuts on the current state-of-the-art cataract surgery, on current fee data. The HCFA regulation and Energy and Commerce provisions use an outdated procedure as the basis for reductions.

Second, it would make the distribution of the reductions more equitable, without the very large, unfair disparities caused by the other proposals.

Third, through a sliding scale approach, it would offer some protection from deep cuts to those ophthalmologists who have kept their fees lower. Over 3 years, the House proposal would save $410 million; the administration proposal would save $335 million; and the American Academy of Ophthalmology's alternative would save $215 million.

● Mr. PACKWOOD. The ophthalmologist's alternative saves less?

● Mr. BROYHILL. Yes, but do not forget, the Congress will gain more cataract-related savings from the Finance Committee's proposal to equalize payments for outpatient surgery, as well as the House provision to reduce anesthesia fees during cataract surgery. Mr. Chairman, the cumulative savings from all of these reductions is substantial for a procedure that we all agree is highly successful, safe and beneficial to our citizens.

● Mr. PACKWOOD. Thank you. I will take your comments into consideration as we proceed with the conference committee deliberations.

● Mr. BOREN. Mr. President, I rise to associate myself with comments expressed earlier by my distinguished colleague from North Carolina [Mr. BROYHILL] regarding proposed changes in Medicare reimbursement for cataract surgery.

These changes, which have been proposed by the Health Care Financing Administration, will only serve to perpetuate gross inequities in reimbursement policy. Rather than addressing true problems of "inherent unreasonableness," wide variations in reimbursement levels from State-to-State will continue.

I join with my colleague from North Carolina in urging the conference committee to take action in addressing this problem. I look forward to working with him in this effort.●

GLAMORIZED DRUG USE IN MOTION PICTURES: THE NEED FOR AN ADDITIONAL RATING

Mr. PRESSLER. Mr. President, on Monday I intend to introduce a resolution, which I will also file as an amendment, to help combat the drug epidemic facing our Nation. This sense-of-the-Senate resolution will attempt to resolve some of the mixed signals our young people are receiving regarding drug use.

Our educators, school administrators and parents have led the fight against drug use in our schools and communities for some time now. Students are repeatedly taught of the dangers of illegal drugs and how to say no to drugs. However, when students are out of the classroom during the weekends, they may see drug use depicted in a different light—at the movies.

Many of the popular films showing in our neighborhood movie theaters depict drug use in a benign or glamorous light. The heroes or the most popular characters many times use drugs, and their drug use in turn makes them more popular. Mr. President, this is sending a very mixed signal to the youth of our Nation.

Therefore, the resolution I will introduce on Monday calls on the

Motion Picture Association to adopt a "D" subcategory in their voluntary rating system for movies which clearly depict drug use in a benign or favorable light, so that parents can make an informed choice about the movies their children attend.

Currently, this resolution is endorsed by the National Association of Secondary School Principals (NASSP) and the national PTA. I expect many more organizations to join us in supporting this initiative after it is introduced.

Mr. President, the Motion Picture Association of America has already demonstrated its ability and willingness to respond to the needs of parents by implementing its overwhelmingly popular voluntary rating system over 18 years ago. Let us send them a unified and clear message that we need the cooperation and support of their influential industry to fight this war on drugs.●

NAUM AND INNA MEIMAN: CRUEL AND UNUSUAL PUNISHMENT

● Mr. SIMON. Mr. President, imagine living without a telephone. Imagine the time that it would take to accomplish even the simplest task. When a person is ill, the telephone is no longer an item of convenience—it is an essential method of communication in emergencies.

Two close friends, Naum and Inna Meiman, have been trying to emigrate from Moscow to Israel for over a decade. Since their initial application, the Soviet Government has harassed them continuously. Naum, a physicist, was fired and prohibited from working in his field. Both Naum and Inna have been followed. Their home has been ransacked.

The Soviets most recently disconnected the Meimans' telephone. Inna is deathly ill with cancer. Without a telephone, Inna has no means of acquiring immediate assistance in an emergency.

While the Soviets use resources to intimidate and frighten the Meimans, Inna's cancer is, unfortunately, progressing. The Soviets have refused to give Inna any more treatment. Experimental treatment, however, is available in the West.

The cost to the Soviets is minimal. The value of goodwill gestures is immeasurabale.

I strongly encourage the Soviets to let the Meimans emigrate to Israel.●

A NATIONAL CEMETERY IN ARIZONA

● Mr. DECONCINI. Mr. President, I am enormously pleased and grateful to my colleagues in the U.S. Senate on their action today to authorize the establishment of a national cemetery in Arizona as well as in nine other States. This is the culmination of a dream which the veterans of Arizona have had for more than 50 years.

I, and other members of the Arizona congressional delegation, have submitted legislation on this matter time and time again. Each session of Congress has passed with hope deferred for yet another year. The patience and determination of the veterans of Arizona have been tested to the limit, but it has not been found wanting. They have persevered as they did in combat on uncounted battlefields, and they have overcome.

We have erected noble and richly deserved memorial to the veterans of almost every conflict in which this country has engaged—from Valley Forge to Vietnam, from Chancellorsville to the Chosen Reservoir, from the Argonne to Anzio. Far too many of the youth of this land have lost their lives in those far-away places and now rest in the hallowed grounds in our national cemeteries.

It is only appropriate that memorials be built and dedicated to veterans who serve their Nation in time of conflict. These memorials very graphically demonstrate the gratitude of our Nation for the sacrifice of our brave military men and women. They are also lessons of history which will, hopefully, bring lasting peace to world weary of war.

We in the Senate now move to ensure that present day veterans will continue to receive a benefit long promised by a grateful Nation—burial in a national cemetery if so desired. In the eyes of the families and friends of veterans, an honored final resting place among their comrades-in-arms who shared in their awful travail of combat is the most lasting and most significant memorials of all. Veterans are very special people who deserve very special treatment throughout their lives and, ultimately, in death. Veterans deserve to be buried in close proximity to their families and this legislation makes that possible.

They have given of themselves—their youthful years, growing old before their time in combat or in prisoner-of-war camps; their health, impaired by disease and injury on battlefields in many foreign lands; their family life, with children born and growing up without them.

Although this moment has been so eagerly awaited, there is a bittersweet irony to passage at this point in time. The Arizona State Veteran's Cemetery has become the final resting place of many of my dear veteran friends. Those friends, along with other veterans, despite their failing health, never lost hope, refused to accept defeat in this matter. I feel sure there is comfort to their families that their dream is finally being realized.

I thank Chairman MURKOWSKI, Senator CRANSTON and other members of the Senate Committee on Veterans' Affairs for their help and support in getting this legislation passed.

THE HUMAN SERVICES AUTHORIZATION CONFERENCE REPORT

● Mr. DODD. Mr. President, last night the Senate adopted the human services authorization of 1986 conference report. I am delighted to have been a chief sponsor of this important measure.

This legislation includes under a separate title the "Child Development Associate Scholarship Assistance Act," a bill I introduced last year to provide scholarships for child care workers seeking on the job training along with a professional credential. I wish to thank Senator STAFFORD, author of the original package, and Senator HAWKINS, Chair of the Subcommittee on Children, Family, Drugs, and Alcoholism on which I serve as ranking minority, for agreeing to include my bill, S. 804, as a part of the conference report we adopted yesterday.

I am also pleased to join Senators HAWKINS, HATCH, STAFFORD, PELL, and RIEGLE in sponsoring the reauthorization of the Headstart, Dependent Care Block Grant, Follow Through, Community Service Block Grant, the Community Food and Nutrition, and Low Income Energy Programs contained in this omnibus measure. These six programs, which will be reauthorized for 4 years, are critical to the health, education, and welfare of millions of children and families at risk in this country.

THE CHILD DEVELOPMENT ASSOCIATE SCHOLARSHIP ASSISTANCE PROGRAM

As founder and cochairman of the Senate children's caucus, I can attest to the skyrocketing demand for quality, affordable child care in this country. At the first children's caucus policy forum in June 1983, we learned that as many as 15 million children between the ages of 5 and 12 lack any adult supervision after school because their parents must work. That estimate does not include the millions of preschool age children with parents in the labor force who need child care services.

One sure way to improve the quality of child care in this country is to improve the skills and performance of child care workers. The child development associate scholarship title of this omnibus reauthorization will provide eligible child care staff with training scholarships to perfect their skills through the Child Development Associate [CDA] Assessment and Credentialing Program.

Mr. President, the Child Development Associate National Credentialing

Program provides performance/based training for child care providers. The training focuses on 13 core areas, essential building blocks of quality child care, from providing a safe environment to encouraging parental involvement.

The CDA credential is the only national credential formally certifying professional child care skills. We are very much indebted to a constituent of mine, Prof. Ed Zigler of Yale University, who established the CDA Credentialing Program over a decade ago during his tenure as director of the Office of Child Development in the then Department of Health, Education, and Welfare.

The overwhelming majority of child care workers are women who work exceedingly long hours for very little pay. Close to 90 percent of all family day care providers, for example, earn less than the minimum wage. Yet such work provides an income for many women who would otherwise be dependent on the Aid for Dependent Children [AFDC] Program. Just as importantly, child care workers make it possible for other mothers to enter the work force and gain self sufficiency.

The child development associate scholarship title will provide low-income child care workers with scholarships to enable them to obtain CDA training and credentialing. The cost of my proposal is modest, totaling only $1.5 million on a yearly basis. Yet the benefits will be enormous for the workers who receive training and formal recognition of their skills as well as for the children in their care.

At present, some 3,000 child care workers a year receive CDA certificates. With the scholarship program now included in this reauthorization, an additional 1,000 to 2,000 low-income child care providers could be trained and certified.

THE HEADSTART REAUTHORIZATION

As the New York Times noted in an editorial: "* * * American society does know one sure way to lead poor children out of a life of poverty * * *—project Headstart." Given the crisis of children in poverty in this country, Headstart is good news indeed. For the biggest risk to the health, safety, and future well-being of close to 14 million American children is poverty. One out of every four children under the age of 6 now lives in a family whose income falls below the poverty line. For minority preschoolers, that figure is even higher: Every other black child and close to every other Hispanic child will celebrate their sixth birthdays in poverty.

But with the Headstart program, we have a well-proven way to help children escape from poverty. The High/Scope Educational Research Foundation conducted a landmark study of high quality preschool programs like Headstart. This study, entitled "changed lives," followed a group of poor children from age 3 to adulthood. Half had attended a high quality preschool. The other half had not. Those with the preschool experience were twice as likely to graduate from high school, go on to college or vocational training, and to get jobs. Those without the preschool experience were more likely to drop out of school, to become teen parents, and to end up unemployed and dependent upon the welfare system. As we celebrate the 20th anniversary of Headstart, we must keep in mind that at present, we only reach 18 percent of all children who are eligible for such services.

THE DEPENDENT CARE BLOCK GRANT REAUTHORIZATION

The dependent care block grant was authorized 2 years ago in response to new facts about the risks facing latchkey children in this country. This block grant was designed to provide start-up costs for afterschool care programs and child care resource and referral programs. The need for such programs is great. Thus, I am pleased to join in the reauthorization of this program. It is my hope that we will be able to send a stronger signal to the administration this time, such that funds appropriated for the dependent care block grant are released to States immediately.

THE COMMUNITY SERVICES BLOCK GRANT REAUTHORIZATION

The Community Services Block Grant Program continues to serve children and families in most need. Millions of younger and older Americans receive food assistance under this program, combating hunger and malnutrition. Millions more receive housing, transportation, and employment assistance. Last but never least, countless other Americans are able to get educational and job training services through the community services block grant helping them to become self-supporting.

In addition to permitting community action agencies to deliver the above-described services to hard-pressed communities across the country, this legislative package also reauthorizes the Community Food and Nutrition Program. This program has been exemplary in my State of Connecticut in encouraging low-income communities to start child nutrition projects. I am delighted that such innovative attempts to meet the nutritional needs of children and adults in my State will continue.

LOW-INCOME ENERGY ASSISTANCE REAUTHORIZATION

Finally, the conference report the Senate adopted yesterday reauthorizes the Low-Income Energy Assistance Program. This program is very important to many residents in my State of Connecticut, where freezing winter temperatures and high heating costs all too often force choices between paying for fuel or paying for food. The Low-Income Energy Assistance Program wisely prevents younger and older Americans from making such draconian choices.

In closing, Mr. President, we know that millions of Americans have joined the ranks of the poor since 1979. The biggest number of these Americans have been children. More alarming still is the fact that many such children come from two-parent homes where one parent is working full-time, year-round. Since 1978, two out of every three children added to the poverty rolls come from homes with working parents. The conference report adopted yesterday will provide many of these children and their families with critical supports, from Head Start, to Child Care, to Community Services, to Energy Assistance. I urge the President to sign this legislation as an important step toward giving such children and their families a head start.●

TIBET: THE TRAVAIL CONTINUES

● Mr. PELL. Mr. President, on the roof of the world, the travail of the 4 million Tibetan people continues. Recent years have brought great changes. Some of these changes have been very much for the better and the Chinese occupiers deserve some credit for seeking to reverse the worst abuses of the cultural revolution. On the other hand the goal of a Tibet for the Tibetans remains as elusive as at any time in the last three decades.

The Chinese Government has publicly recognized that it has committed "mistakes"—a polite euphemism to be sure—in Tibet. These mistakes include the deaths of some 10 percent of the Tibetan people, deaths caused directly by killings or indirectly through permitted starvation and unchecked disease. The admitted mistakes also include the effort to eradicate Tibet's fabulously rich religious and cultural heritage. In the 1960's and 1970's the Chinese occupiers prohibited the practice of Lamaist Buddhism, imprisoned or rusticated the monks, and tore down thousands of monasteries. Along with the monasteries, many of which were magnificent architectural achievements, priceless works of Tibetan art and scholarship were also pointlessly destroyed.

Religion is now back in Tibet. Recently two members of the minority staff of the Foreign Relations Committee visited that country and reported many examples of Buddhism's revival. Monks, in the traditional red garb, can be seen everywhere. In Lhasa the main monasteries are being restored and yak butter lamps again burn before the sacred images. Once

again pilgrims prostrate themselves as they circle the sacred Jokhang monastery in the center of Lhasa. This religious revival is the surest sign of the indomitable will of the Tibetan people and of their determination to preserve their culture and way of life.

Beneath the surface, however, all is not well in Tibet. Racial discrimination and the influx of Chinese colonizers are costing indigenous Tibetans their livelihood. While the recent opening of Tibet to foreigners has created employment in the construction and tourism sectors, most of the employment so generated goes to Chinese immigrants and not to Tibetans. Even the much vaunted policy of religious freedom has its limits.

Most alarming, however, is the Chinese colonization of Tibet. Within the boundaries of historic Tibet, Tibetans are losing ground. In Amdo, northeastern Tibet, 2,500,000 Chinese now outnumber 700,000 Tibetans. In Kham, eastern Tibet, there are now estimated to be some 2 million Chinese settlers. The Chinese have occupied the more fertile farmland pushing the Tibetans into the hills and mountains.

Even in the Tibetan autonomous region—the truncated part of historic Tibet set aside for the Tibetans—the Chinese are fast becoming the dominant population group in the major towns. Strikingly, the committee staff found that the Chinese officials do not even speak Tibetan. The conquered people then can only communicate with officials in the tongue of the conqueror.

Tibet has offered much to the world in terms of art, scholarship and above all spirituality. Its gentle and brave people have suffered horribly in the last 35 years. As some aspects of their situation improve, the world community must raise its voice to be sure this rich and wonderful society is not swamped by the numbers and might of the occupier.●

ABORTION AND INFORMED CONSENT: DELAWARE

● Mr. HUMPHREY. Mr. President, yesterday in remarks about a letter from Connecticut I discussed how abortion is not the "quick-fix" that its advocates claim. Adoption and parenting are obviously permanent outcomes to unplanned pregnancy because the baby is given life. Simply because the baby is killed in abortion does not mean he or she is gone. Abortion, too, is a permanent solution with grave consequences for the mother and worse for the child—even if the mother is a child. Since all outcomes are permanent, it seems eminently sensible that the one which preserves the life of the child and promotes the health of the mother be encouraged.

This is certainly the view of Edith in Delaware. There is nothing I could add to the poignancy of her letter. I hope my colleagues who advocate the so-called rape/incest exclusion will read her letter carefully. Very young women in these circumstances desire and need to know all the facts before they make a decision as irreversible as abortion. It is quite obvious that they do not currently receive this information, and such outrageous neglect must be rectified.

The letter follows:

WILMINGTON, DE,
June 2, 1986.

DEAR SENATOR HUMPHREY: How it saddens me that there is a need to write this letter. All surgical procedures require informed consent and the giving of alternatives when they exist. Is abortion and its two victims any different? More and more women are coming forth with more "if onlys"—"if only someone had told me the truth," "if only I was given an alternative," "if only the procedure had been explained and I knew about the possible complications," "if only I knew my baby would feel pain," if only * * * if only. * * * The list could go on for pages.

I had an abortion several years ago. The abortion was supposedly for all the "right reasons," it was "in my best interest." Besides the death of my baby, who I saw, the abortion complications began immediately. I have had years of physical pain, infections and operations, the last being April 18, 1986. There have also been psychological problems—nightmares, depression and suicidal tendencies. These are not all of the psychological complications I've had, there were and are a lot more.

At the time of my abortion, I was a 12-year-old incest victim. The abortion had a greater impact on my life than the incest. With the incest I lost my virginity; with the abortion my baby lost her life, and I've suffered both physically and psychologically. Abortion is no respecter of motives.

Every woman has a right to know the truth about abortion and its alternative. When a woman decides to have an abortion, it is a decision made in the "urgency of the moment," not rationally. There is no thought given to short- or long-term consequences. To them it is the end of their "problems." Informed consent would allow the woman to make an intelligent, responsible decision based on fact.

I have been where these women have been and I've been where they have to go!

In the service of Christ of All Life,

EDITH YOUNG.●

RESOLUTION PERTAINING TO NICHOLAS DANILOFF—SENATE RESOLUTION 491

Mr. HUMPHREY. Mr. President, I send to the desk a resolution and ask for its immediate consideration.

Mr. President, just for the benefit of those who might be listening—

Mr. BYRD. Mr. President, will the Senator yield?

Mr. HUMPHREY. Yes.

Mr. BYRD. Mr. President, I will not object to the introduction of the resolution. I can do that. I will simply object to the request that the Senate move to its immediate consideration.

The PRESIDING OFFICER. The resolution will go over under the rule.

Mr. HUMPHREY. That will not be necessary, Mr. President. I withdraw the resolution.

The PRESIDING OFFICER. The Senator has a right to withdraw his resolution.

Mr. HUMPHREY. As I was saying, Mr. President, because little was said before objection was raised, no one can understand what just transacted except perhaps a handful. I ask that the resolution be returned to my desk.

I think virtually every Senator in the Chamber is concerned about the fate of Nicholas Daniloff. We will all leave here and go to the comfort of our homes. Mr. Daniloff cannot do that. It seems to me highly unfortunate. I know Senator BYRD is objecting on behalf of one of his colleagues on that side of the aisle. This is certainly not directed toward him. I consider it highly unfortunate that objection has been raised against the immediate consideration of this resolution.

In my view, the response of the United States to the outrageous taking of Mr. Daniloff as hostage has been very weak, indeed. It has hardly been 7 or 8 days since this body unanimously passed a resolution condemning that act. Mr. Daniloff is still being held captive, still being held hostage. The administration, in the view of this Senator, and I believe in the view of a majority of Senators, has acted far too weakly in this matter. It has continued to conduct business as usual. Indeed, I believe the underlying reason the administration continues to conduct business as usual with the Soviets is the wish to preserve the extravagancy of a summit.

So we might go beyond saying it is business as usual and say that it is show business as usual.

I am still waiting for the resolution.

The PRESIDING OFFICER. The resolution will be returned.

□ 0050

Mr. HUMPHREY. Mr. President, I just want to touch upon the highlights.

The PRESIDING OFFICER. If the Senator will withhold, under the precedents of the Senate, the resolution cannot be withdrawn. The resolution will go over under the rule.

Mr. HUMPHREY. Very well, Mr. President.

Before concluding, I want to touch upon the highlights of the resolution.

The resolution in the "Resolved" section does the following: It declares that the Soviet action in imprisoning and falsely charging Mr. Daniloff reflects once again the failure of the Soviet Union to observe internationally recognize standards of human rights and civil conduct and raised profound doubts about Soviet willingness to live up to its responsibilities and commitments under any international

or bilateral agreement, including arms control agreements.

The resolution urges the President to continue his demands for the immediate and unconditional release of Mr. Daniloff; it calls upon the President to condition his agreement to a summit meeting with Secretary General Gorbachev on the prompt return of Mr. Daniloff from the Soviet Union; urges the President to limit further discussions on arms control and refrain from concluding any agreements, any arms control agreements, with the Soviet Union; and further declares that the Senate of the United States shall not ratify any arms control agreement negotiated with the Soviets until that country has unconditionally released Mr. Daniloff. Those are the highlights, Mr. President.

Again, I register my regret that Senators, or at least a Senator on the Democratic side of the aisle, has blocked immediate consideration of this resolution at a time when it might well be instrumental in giving his administration some backbone, such that our national honor and principles might be preserved, along with the safety of Mr. Daniloff.

I thank the Chair. I thank my colleagues for their forebearance in this matter.

Mr. BYRD. Mr. President, the distinguished Senator, I am sure, is disappointed that the objection was lodged to his request for immediate consideration of the resolution, but it was clearly stated 30 minutes to an hour ago, I suppose, by a Senator on this side that there would be an objection to immediate consideration of this resolution tonight. The Department of State has indicated that it would be very much opposed to the adoption of this resolution at this particular time——

Mr. HUMPHREY. Will the Senator yield?

Mr. BYRD. And has suggested that the adoption of this resolution might very well be counterproductive to the intentions and desires of the distingushed author of the amendment.

Yes, I shall be glad to yield.

Mr. HUMPHREY. Mr. President, I might just observe that at least from my point of view, the Department of State's objection to this resolution is a commendation and recommendation to this body to pass it. We can safely assume that the State Department has been guiding our policy with regard to Mr. Daniloff or our reaction to Mr. Daniloff's being taken hostage and I think they have done a perfectly miserable job. I take their opposition to be a recommendation for passage of this resolution.

I thank the Senator.

Mr. BYRD. I thank the distinguished Senator.

Mr. President, I almost wholeheartedly agree with the Senator's observations; nevertheless, I thought I should state for the record that I have been informed that the Department of State was very much opposed to this. That may mean something to some Senators in this Chamber. I thought it was appropriate to say it for the Record.

May I say to the distinguished Senator from New Hampshire, I would offer a suggestion to him. If he wishes to redraw the resolution and try again at some point early next week and include in the resolution a provision to prohibit the further selling of wheat, of grain, to the Soviet Union at prices that are subsidized by the American taxpayer, I might join him in cosponsorship of that type of resolution. But as I have stated, I can understand the Senator's disappointment and perhaps after a good weekend of rest and reflection, a different resolution might be drawn which might receive immediate consideration.

Mr. WALLOP. Mr. President, let me suggest that I regret very much, too, that we were not able to consider this resolution tonight. Let me suggest that the distinguished chairman of the Committee on Foreign Relations was not the one to object. We have heard a lot of heroic Red-bashing from that side of the aisle and I suggest that it is a cheap piece of heroism. When asked to put it into performance, it has not come about.

I regret that, because, I say to my friend from West Virginia, the distinguished minority leader, I do not believe that the reason for the objection is the objection of the State Department. I believe the reason for the objection is that it calls on the Senate and the President and the Government of the United States to react with some spine to the situation that has been created by the hostage-taking of the Soviet Union and by the accusation by the Secretary General of the President of the United States that he is a liar. We could have done something about that tonight. Yes, we could wait until it is perfect, and indeed, we could make it perfect by dribbling and drabbling along for a little bit longer over the course of time.

But we could have done something with 95 Senators here. We could have done something that meant something instead of sitting here talking about how heroically we detest the Sovet Union for their behavior in the Daniloff case. We could have put that into action. But no, the minority side of the aisle, which is the side of the aisle that directs the President as to how he must and must not negotiate arms control treaties of the United States, which ties his hands with regard to Asat testing, which seeks to limit the SDI, which seeks to limit the amount of strategic response this country is capable of raising against the Soviet threat, which seeks in every single way to tie the hands of the President, has invited by their actions this adventure on the part of the Secretary General.

I think it is a shame that there is one American that is a hostage who has been the target of all this. We could have done something tonight, Mr. President, but we chose not to. We chose not to by an objection raised from the minority side of the aisle.

I think that that level of Red-bashing that we have heard over the last few weeks is just that. It is accompanied by an unwillingness to take action that all of us could have collectively tonight. I regret to say, it was not done collectively, by the objection of one person on the minority side of the aisle we have not been able to do that. It is a pity.

Daniloff will live through the weekend but he might have taken some heart from an action by the Senate that sought to make some sense out of what is really nonsense.

Mr. BYRD. Mr. President, the distinguished Senator from Wyoming has made the statement that the objection was made, that the objection of the State Department was the reason the objection was made here. I did not say that. I did not say I was objecting because the State Department had advised that the action on this resolution at this time might be, probably would be counterproductive. I simply stated that as a fact for the record, the fact being that I have been informed that the State Department feels that action on this resolution tonight would be very counterproductive. I did not say that was the reason why I objected. I did not say that.

Mr. WALLOP. If I misspoke on behalf of the minority leader, certainly, I am sorry. My point was that that was not a point that was raised by the distinguished chairman of the Foreign Relations Committee. I would have thought that had that been of major concern to him, he might have raised it himself.

Mr. BYRD. The chairman of the Foreign Relations Committee, Mr. LUGAR, is not here to speak for himself.

Mr. WALLOP. Not any more, but he was here in plenty of time to know of the existence of this resolution and it was not he who raised the objection to its consideration.

Mr. BYRD. It was made clear on this side of the aisle by the distinguished ranking member of the Foreign Relations Committee that he would object.

Mr. WALLOP. That is my point.

Mr. BYRD. Yes, Mr. President, and I am making the point that when the objection was just made, I merely said that the State Department was opposed to this. I did not say that was the reason I was objecting.

Mr. WALLOP. I did not mean to imply that it was the minority leader who was in fact the objecter. He was objecting on behalf of the ranking member of the Foreign Relations Committee, as I understand it.

Mr. BYRD. But I did not indicate the Senator on whose behalf I was objecting.

□ 0100

Mr. WALLOP. True enough, but I suggest to the minority leader that none of us need guess.

Mr. BYRD. Of course we do not need to guess. The distinguished Senator from Rhode Island stood on his feet and openly stated he was objecting. And if the distinguished Senator from Wyoming had wanted to remonstrate at that time or debate with the distinguished Senator or criticize the distinguished Senator, the distinguished Senator from Wyoming had his opportunity then. At this point the Senator from Rhode Island has left the floor.

Mr. WALLOP. I would say to the minority leader that he only indicated that he would. That is not the time to debate it. The time to debate it is when he does it.

Mr. BYRD. The time to criticize the Senator is whenever he does, that is right. When he indicated that he would object, the distinguished majority leader did not press the matter. And so I agree with the distinguished Senator from Wyoming; the time to criticize the Senator from Rhode Island, if there is any criticism or any debate to be had, is whenever he makes this objection. He simply stated he would if the request was made. The request was not made.

MEASURE HELD AT DESK

Mr. SIMPSON. Mr. President, after conferring with the Democratic leader on various matters, I ask unanimous consent that S. 2840, the Stafford superfund bill, be held at the desk until the close of business Monday, September 22, 1986.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUPERFUND

Mr. STAFFORD. Mr. President, I ask unanimous consent that at such time as S. 2840, as passed by the Senate is also passed by the House of Representatives, the Committee on Environment and Public Works be authorized to print as a committee document the statement of managers which has been agreed upon by the nontax conferees on H.R. 2005. I further ask unanimous consent that the document be considered, for purposes of construing, interpreting, clarifying, or otherwise explaining the legislative language of S. 2840 or the intent underlying it, the relevant legislative history.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE HELD AT DESK

Mr. SIMPSON. Mr. President, I ask unanimous consent that once the Senate receives from the House H.R. 4873, to authorize certain transfers affecting the Pueblo at Santa Ana in New Mexico, and for other purposes, it be held at the desk pending further disposition.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURES PLACED ON CALENDAR

Mr. SIMPSON. I ask unanimous consent that House Joint Resolution 732, making supplemental appropriations to the Government of the Philippines, be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Labor Committee be discharged from further consideration of H.R. 4244, dealing with official papers of Joseph W. Martin, and that it be placed upon the calendar.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

VETERANS CEMETERY AT CLEVELAND, OH

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate now turn to the consideration of calendar item 908, H.R. 4345 dealing with a national cemetery near Cleveland, OH.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 4345) to authorize the Administrator of Veterans Affairs to establish a national cemetery in or near Cleveland, Ohio.

The Senate proceeded to consider the bill which had been reported from the Committee on Veterans' Affairs, with an amendment to strike out all after the enacting clause, and insert the following:

SPECIAL 1. AUTHORITY TO ESTABLISH NATIONAL CEMETERIES.

(a) AUTHORITY.—The authority of the Administrator of Veterans' Affairs under chapter 24 of title 38, United States Code, to develop and acquire cemeteries as part of the National Cemetery System includes, but is not limited to, the authority to establish additional national cemeteries to serve the needs of veterans and their families in—

(1) San Francisco, California;
(2) Chicago, Illinois;
(3) Cleveland, Ohio;
(4) Pittsburgh, Pennsylvania;
(5) Dallas/Fort Worth, Texas;
(6) Miami, Florida;
(7) Seattle, Washington;
(8) Atlanta, Georgia;
(9) Phoenix/Tucson; Arizona;
(10) Birmingham, Alabama; and
(11) and other State in which a national cemetery is not available for the burial of veterans.

(b) LAND ACQUISITION.—The Administrator may acquire land necessary for a cemetary authorized by subsection (a) of this section by donation, purchase, condemnation, exchange of lands in the United States public domain, or otherwise.

Mr. SIMPSON. Mr. President, I move the adoption of the committee substitute.

The PRESIDING OFFICER. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment was agreed to.

Mr. CRANSTON. Mr. President, as the ranking minority member of the Committee on Veterans' Affairs, I am pleased to rise in support of the pending measure, H.R. 4345, as reported by the committee with an amendment in the nature of a substitute. As amended, this measure would restate the administrator of Veterans' Affairs' authority to establish national cemeteries in 10 areas of the country which have been identified as "most in need" of new cemeteries, as well as in any State where there is no open National cemetery.

The committee's amendment to this measure was derived from a proposal Senator DECONCINI and I made based on a 1984 draft report reassessing the regional cemetery concept in connection with expansion of the VA's National Cemetery System. This report identified 10 geographic areas "where establishment of an appropriately sized and scoped national cemetery would have the maximum impact on service to veterans on the basis of present and future demographic conditions." The report noted that these areas "are where the largest number of veterans are and will continue to be concentrated within an area that can be practically served by an open national cemetery." Listed in order, according to the size of the veteran population involved, these areas are:

Northern California, Chicago, IL, Cleveland, OH, Pittsburgh, PA, Dallas/Fort Worth, TX, Miami, FL, Seattle, WA, Atlanta, GA, Phoenix/Tucson, AZ, and Birmingham, AL.

Thus, Mr. President, the reported bill would specify that the authority of the Administrator to establish national cemeteries includes the authority to establish national cemeteries in each of these 10 areas.

Mr. President, I'm delighted to note that the VA is already taking steps to establish a new national cemetery in northern California with the development of a site in Santa Nella, CA, and,

as a result of my efforts in urging the VA Administrator to expedite that project, the VA now plans to have that new national cemetery in operation before the end of 1990—about 2 years before initially scheduled.

In addition, in recognition of the fact that there are currently 18 States without open national cemeteries—only 3 of which are represented on the list of 10—and that a number of other States have open cemeteries but are not expected to have burial space in them to meet the demand for much more than 5 years, the committee bill would similarly specify that the authority of the Administrator to establish national cemeteries includes the authority, which is not time limited, to establish cemeteries in States where there is no burial space available for veterans and their families in a national cemetery.

Mr. President, I urge the Senate to approve the pending measure.

Mr. GLENN. Mr. President, I rise to express my support for this bill which authorizes the Administrator of Veterans' Affairs to establish national cemeteries in certain locations. As my colleagues may be aware, this bill began as a House initiative to authorize the establishment of a national cemetery in or near Cleveland, OH, and it is to that particular authorization that I wish to address my remarks.

With the virtual completion of the regional national cemeteries, questions are already being raised about the system's ability to meet future needs for reasonably accessible burial space for eligible deceased veterans. Interments in national cemeteries are increasing each year, and the projected peak period will be between the years 2000 and 2015, when the number of veterans age 65 and older will increase from about 4 million to about 9 million.

The Veterans' Administration has already identified the 10 areas of the country most in need of a national cemetery, and Cleveland is at or very near the top of that list. The Cleveland area has a veteran population of over 790,000 and the establishment of a national cemetery there could provide burial for nearly 8 percent of our Nation's veterans who are presently unserved by a national cemetery. The closest regional cemetery to Cleveland is at Fort Custer, MI, a long 257 miles away; to date there are only two Ohio veterans buried in that cemetery. Ohio's only open national cemetery, in Dayton, is projected to close in the year 2001.

I recognize that the Veterans' Affairs Committee's report calls attention to pending legislation which requires reports from the VA on the future of the National Cemetery System. I have no problem with those reports, but I need no study to tell me a veterans' cemetery is needed in the Cleveland area. People should not have to drive over 250 miles to honor and bury their loved ones who have served their country.

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment and third reading of the bill.

The amendment was ordered to be engrossed, and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having read the third time, the question is, Shall it Pass?

So the bill (H.R. 4345) was passed.

Mr. SIMPSON. I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The title was amended so as to read: "An Act to authorize the Administrator of Veterans' Affairs to establish national cemeteries in certain locations."

ORDER FOR H.R. 4754 TO BE HELD AT THE DESK

Mr. SIMPSON. Mr. President, I ask unanimous consent that when the Senate receives from the House H.R. 4754, dealing with the appointment of Commissioner of Food and Drugs, it be held at the desk pending further disposition.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR MONDAY, SEPTEMBER 22, 1986

ORDER FOR RECESS

Mr. SIMPSON. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until 12 noon on Monday, September 22, 1986.

ORDER FOR RECOGNITION OF CERTAIN SENATORS

Mr. President, I ask unanimous consent that following the recognition of the two leaders on Monday under the standing order, the following Senators be recognized for special orders, for not to exceed 5 minutes each: Senators COCHRAN, PROXMIRE, PRESSLER, and CHILES.

ORDER FOR ROUTINE MORNING BUSINESS

Mr. President, I ask unanimous consent that following the special orders just identified, there be a period for the transaction of routine morning business, not to extend beyond 1 p.m., with Senators permitted to speak therein for not more than 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. SIMPSON. Mr. President, at 1 p.m. on Monday, it will be the intention of the majority leader to turn to the consideration of a motion to proceed to the product liability measure.

Rollcall votes will not occur during Monday's session.

I believe the majority leader has indicated that next week there will be some vigorous nighttime activity, in order that we might conclude our efforts on October 3, toward ajournment, and let our colleagues be aware of that schedule.

Does the Democratic leader have any further business?

Mr. BYRD. Mr. President, I thank the distinguished acting Republican leader. I have no further business.

I would like at this point, however, to wish him a restful and enjoyable weekend with his nice family. I look forward to seeing him on Monday next, the good Lord willing.

Mr. SIMPSON. I thank the Democratic leader. It is not quite morning in the Rockies yet, but I do reciprocate the Senator's comments and his kindness.

RECESS UNTIL MONDAY SEPTEMBER 22, 1986

Mr. SIMPSON. Mr. President, there being no further business to come before the Senate, I move, in accordance with the previous order, that the Senate stand in recess.

The motion was agreed to, and at 1:06 a.m., Saturday, September 20, the Senate recessed until Monday, September 22, 1986, at 12 noon.

NOMINATIONS

Executive nominations received by the Senate September 19, 1986:

DEPARTMENT OF STATE

Everett Ellis Briggs, of New Hampshire, a career member of the Senior Foreign Service, class of minister-counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Honduras.

Theodore E. Gildred, of California, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Argentina.

Donald K. Petterson, of California, a career member of the Senior Foreign Service, class of minister-counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the United Republic of Tanzania.

Walter Edward Stadtler, of New York, a career member of the Senior Foreign Service, class of minister-counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the People's Republic of Benin.

UNITED NATIONS

The following-named persons to be representatives and alternate representatives of the United States of America to the 41st session of the General Assembly of the United Nations:

Representatives:

Vernon A. Walters, of Florida.

Herbert Stuart Okun, of the District of Columbia.

Thomas F. Eagleton, U.S. Senator from the State of Missouri.

Larry Pressler, U.S. Senator from the State of South Dakota.

Helen Marie Taylor, of Virginia.

Alternate representatives:

Patricia Mary Byrne, of Ohio.

Hugh Montgomery, of Virginia.

Joseph Verner Reed, of New York.

John Kerry, U.S. Senator from the State of Massachusetts.

Paul S. Trible, Jr., U.S. Senator from the State of Virginia.

DEPARTMENT OF STATE

Paul A. Russo, of Virginia, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Barbados, and to serve concurrently and without additional compensation as Ambassador Extraordinary and Plenipotenitary of the United States of America to the Commonwealth of Dominica, Ambassador Extraordinary and Plenipotentiary of the United States of America to Saint Lucia, Ambassador Extraordinary and Plenipotentiary of the United States of America to Saint Vincent and the Grenadines, Ambassador Extraordinary and Plenipotentiary of the United States of America to Antigua and Barbuda, and Ambassador Extraordinary and Plenipotentiary of the United States of America to St. Christopher and Nevis.

UNITED NATIONS

Noel Gross, of New Jersey, to be an alternate representative of the United States of America to the 41st session of the General Assembly of the United Nations.

EXTENSIONS OF REMARKS

THE LAST 2 YEARS OF SALVADOR ALLENDE

HON. PHILIP M. CRANE
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. CRANE. Mr. Speaker, in 1980, 67 percent of the Chilean people voted in favor of a new Constitution. This Constitution provides that democracy will be restored and elections will be held in 1989. Thus by 1989, Chile, too, will join the growing number of Latin American countries that have successfully made a peaceful transition back to democracy. But this doesn't seem to be good enough for Chile's critics. Many of them demand democracy immediately, and in their haste to force Chile to acquiesce, they threaten sanctions and embargoes to speed up the process. This is particularly alarming in light of the recent terrorist developments in Chile.

The assassination attempt on General Pinochet, coupled with the huge weapons caches uncovered thus far, are clear indications of what the Communist opposition has in mind for the future of Chile. The outlawed Communist Party, still considered to be the second largest in the country, maintains close ties with the Soviet leadership and has publicly endorsed the use of violence as a means of defeating the Pinochet regime. Knowing that they will be unable to win support with ballots, they have chosen bullets instead. Before Congress acquiesces in this violent takeover, I urge my colleagues to read the following article on the last 2 years of the Allende regime. Perhaps then, even the most ardent critics will understand why the people of Chile do not want to be enslaved by a repressive Communist regime again.

Reviewed by Alvin Bernstein in Commentary magazine, "The Last 2 Years of Salvador Allende" was written by the U.S. Ambassador to Chile who served from 1971 to 1973. Nathaniel Davis, our Ambassador to Chile when the coup occurred that toppled Salvador Allende, provides a firsthand account of Chile under Communist control. I commend it to my colleagues attention. The Bernstein review follows:

THE LAST 2 YEARS OF SALVADOR ALLENDE
(By Nathaniel Davis, Reviewed by Alvin H. Bernstein)

This past March, after Ferdinand Marcos left the Philippines, President Reagan dispatched a message to Congress declaring his opposition to right as well as left-wing tyrannies. He followed it with an unprecedented step, sponsoring a condemnation of Chile's military regime before the United Nations Commission on Human Rights. Though the White House publicly denied it, this represented a substantial change in policy. Donald Regan, White House Chief of Staff, later underlined the President's message when he was asked on television if the U.S. intended to topple General Pinochet's government "Not at this moment, no," he replied.

Nathaniel Davis was the U.S. Ambassador to Chile from 1971 to 1973, when the coup occurred that toppled Salvador Allende and resulted in his violent death. He was therefore present at the creation of the military regime that is now proving an embarrassment to the Reagan administration. His political memoir is a conscientious, detailed, and informative account of Allende's presidency, his fall, and the U.S. role in both. As an apologia pro vita sua of sorts, it also reflects Davis' determined quest to find out what really happened in Chile while he was the U.S. Ambassador there. In the process, Davis provides insights into the nature of Chilean politics that ought to be useful to contemporary policymakers now struggling publicly with the dilemma of Pinochet's Chile.

Davis argues, in brief, that the fall of the Allende government owed little or nothing to U.S. actions. The Chilean economy collapsed more because of the regime's mishandling of it than because of any campaign by the U.S. government and the multinational corporations. What is more, Davis says, the 1973 coup was an exclusively Chilean affair and Allende was not murdered but committed suicide.

Davis has a hard row to hoe in making his case, after the 1975 revelations of the Church Committee about the pre-accession shenanigans on the part of the U.S. (These had included not only a plan, rejected by Davis's predecessor Edward Korry, to bribe Chilean Congressmen, but also the botched kidnapping of the army's commander-in-chief, an inconveniently strict constitutionalist, which resulted in his being mortally wounded. Three submachine guns were smuggled into the country for the kidnapping via the U.S. diplomatic pouch.) Despite the back-drop, however, few fair-minded readers will come away from The Last Two Years of Salvador Allende without knowing that they have just spent their hours with a truthful man. This is not just because the author's straightforward integrity touches every page but also because his analysis of what really happened in Chile between the autumns of 1971 and 1973 has real consistency.

It reveals three constants. One is the U.S. desire to appear clean. Immediately after Allende's inauguration, the National Security Council directed that the U.S. pursue policies designed to hurt the Chilean economy, prevent Allende from consolidating his grip on the country, and limit his ability to act against U.S. interests. At the same time, it insisted that the U.S. maintain a correct public posture to avoid providing Allende with an external target. As is often the case, the wish to appear honest, together with the lack of any effective options but the dire and dangerous, limited what could be done behind the scenes. The second constant is the Chileans' idea of acceptable political behavior. These pages draw for us a cumulatively striking portrait of a people whose independence and parliamentary traditions made them shrink instinctively from violating constitutional rules. At every turn men would appear who followed those rules in preference to parochial self-interest. The third constant is the steady aversion of the Ambassador himself to "dirty tricks". These three inhibitions set the parameters within which those who wished to see a Chile without Allende could operate.

How much of what happened to the Chilean economy during Allende's presidency can be laid at the door of the U.S., either government or corporations, acting openly or secretly? The economy did not begin screaming the first year, as President Nixon wanted, though it did whine a bit. This was certainly not the CIA's doing, however. Davis shows in detail how circumstance, together with domestic mismanagement of a morass of financial problems caused by the regime's political composition and its Marxist economic policies, resulted in economic and, eventually political collapse.

In the early days, when the rich began fleeing the country, taking their money with them, and stocks slid along with sales of some durable goods, while the black market expanded, the Marxist government countered with some vigorous Keynesian pump-priming. This quick fix, together with establishment of a rural dole and initiation of a land-reform program, did help for a time. By September 1971, though, the inflation rate, running until then at a steady 15 percent, started to accelerate. Job creation ironically caused labor discipline to sag and in July the coal miners, railroad workers, and copper miners went on strike. These strains, as well as a one-third drop in the world demand for copper during 1971 and the government's spending spree, meant that by November nothing remained of the $350 to $450 million in foreign reserves that Allende had inherited from the years of high copper prices. The government therefore resorted to a drastic expedient: it declared a moratorium on its interest payments on the national debt.

At the heart of these problems lay nationalization. Used as a political tool by the socialist ideologues in Allende's coalition, who wanted to destroy private enterprise and the forces of reaction, it ravaged private business and industry. Forced into bankruptcy by price and credit controls, these then fell cheaply into the hands of the state. What is more, the expropriated industries, once nationalized, were mismanaged by administrators appointed for political reasons in a crony socialism at least as inefficient as its capitalist counterpart. The radical Left continued to press for nationalization even when it meant economic decline and, soon, political disorder. Within seven weeks of taking office, Allende had proposed a constitutional amendment to nationalize all of Chile's mines and on July 11, 1971, the Congress unanimously adopted his proposal. It provided for compensation within thirty years at not less than 3-percent interest. But the President could, and on September 28 did, decide that profits since 1955 had been excessive, despite the fact that the corporations had faithfully obeyed the laws of this democratic land. On October 11, a week after Davis was sworn in

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.
Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

as new Ambassador, the Chilean Comptroller announced that Kennecott and Anaconda would get no compensation at all for their huge mines.

By the beginning of 1972, therefore, the new government had shaken international confidence with its moratorium on national-debt payments, created irreconcilable disagreements with the U.S. over its nationalization-without-compensation, and begun to alienate even its own electorate through the domestic effects of its policies. In the by-elections, candidates of Unidad Popular (the leftist coalition headed by Allende) suffered substantial defeats. Inflation was negating higher wages, there were shortages in goods, land reform was making less progress than under the former government of the Christian Democrats, private industry was collapsing, and the nationalized sector was falling increasingly into the red. The national deficit expanded and the tax base shrank while the government frantically printed money in an attempt to control the political consequences of its economic policies. These worsened through 1972 as the inflation rate first doubled (in August), then jumped another 50 percent (in September), bringing the official increase in the consumer-price index to 100 percent for the first nine months of 1972. Riots and further strikes broke out, including a particularly violent and costly one by the nation's truckers.

This mess was not the fault of the U.S. At the UN later, Allende would blast ITT for having tried to prevent his inauguration, which was true, and accuse the multinational corporations generally of attempting to undermine his economy. This was less fair, for they could legitimately protest that they had not set out to do so, but rather had been forced to respond to the government's mismanagement. The bankers, too, had cut but not eliminated credit to the country because Allende had stopped servicing the national debt. His own action had increased the risk of lending capital to a regime that was weakening its economy by refusing to pay compensation to the private industries it was forcibly nationalizing. The startling fact is that, in April 1972, U.S. policy-makers, more concerned with their image than with destabilizing Chile's economy, gave the country $200 million in relief from its creditors. Indeed, it received more disbursements from public international sources under the Unidad Popular regime than in any comparable period of its history. As a result of all this help, by September 1973 when the coup came, Allende's Chile was running the highest per-capita debt in the world.

The U.S. did not need to intervene to weaken Allende's position. In November of 1972 he himself made it obvious how worried he was about the economic and political situation by inviting three military men into his cabinet. One, the Commander-in-Chief of the Army, General Carlos Prats Gonzales, he made Minister of the Interior. This man was another strict constitutionalist who was reluctant to see himself and his colleagues from the other services drawn into the political arena. Their entry seemed necessary to hold the country together and Prats ended the truckers' strike by promising not to nationalize the industry. Given the Marxist direction in which the government was moving, these actions were at best cosmetic. Allende's invitation to the officer corps to play a political role probably resulted, as Davis suggests, in overcoming the military's natural inhibition against involvement in any coup.

On the economic front, Allende was doing no better. He wanted another quick fix and the future appeared to depend on what the Communist world might do for Chile. He had announced in July that he intended to turn to Eastern Europe for loans. At the end of November, leaving Prats in charge, he set off for Moscow, stopping on the way in Algeria to declare his support for the PLO. Even this avowal did not help him secure the $500 million dollars in hard currency that he sought to shore up his crumbling economy. The Soviets, ever cautious about their investments and entanglements, advised him to seek an accommodation with the U.S. on the issue of copper compensation and offered him $200 million in credits, not cash. They evidently questioned Chile's future and, while they were willing to help, they were not about to pick up the tab.

The leftist ideologues in his government now added to Allende's difficulties. They had Chile openly tilting toward East European educational models in ways that could not possibly have been pinned on any U.S. efforts to destabilize. A reform "to inculcate the values of socialist humanism" in the schools brought the Catholic Church into the fray for the first time, as it too joined the opposition and began to thunder against the regime. In the March by-elections the opposition parties registered 56 percent of the vote, less than the two-thirds required for impeachment proceedings but enough to convince the military members of the cabinet to leave the government.

Tension had now risen so high on so many fronts that some eruption of violence seemed inevitable, even in Chile, the long-standing democracy deeply committed to constitutionalist ways. More and more people, the Christian Democrats among them, were coming to believe that their problems could not be settled at the polls. The movement to launch a coup spread very gradually through the military, beginning among officers at the colonel level and later being taken seriously by the generals and admirals. While economic and political grievances played their part, the driving force was fear. After the march elections, the military watched with growing apprehension the increased flow of arms from Cuba and Eastern Europe to the leftist paramilitary forces in areas of Chile in effect controlled by the extreme left wing, not the government: parts of the countryside, shantytowns organized into militarized hamlets, and the worker-ruled industrial belts. Seeing their enemies grow stronger, the armed forces concluded that time was against them.

Events that summer removed the constitutional obstacles to military action. The Chamber of Deputies declared that Allende was acting outside the law and seeking total power. Before the end of August, the Congress and the Supreme Court had repudiated Unidad Popular's claim to legality. Following the lead of their civilian colleages, the military also began distancing themselves from Allende's regime. On August 23 the generals expressed their dissatisfaction with the government in a vote of no-confidence against their commander-in-chief, General Prats, whom they saw as having joined the other side. Prats resigned and was replaced immediately by his deputy, General Augusto Pinochet.

Allende's political and economic troubles, inextricably entangled, came to a head during the first week of September. A second costly and violent truckers' strike had broken out in late July, and now the taxi drivers came out too, along with most professionals and about 125,000 shopkeepers. In a last-ditch effort to hang onto the reins, Allende decided privately to have a national plebiscite. On September 9, that expedient, if ever it could have worked, was compromised by a speech delivered by the Secretary General of Allende's own Socialist party, Carlos Altamirano Orrego, in which he denounced the forces of reaction, refused to deal with them, and threatened to destroy them with "the force of the people, their industrial commands, their peasant councils, their organization." Until that moment there were still those among the senior officer corps who were dragging their heels; despite his subsequent denials, evidence from impartial sources reveals that General Pinochet was one of them. The speech, however, confirmed the military's worst fears and that very day they scheduled their coup for September 11. In the early morning hours, while working on the speech that would announce the plebiscite he hoped would save him, Allende received word that the coup had begun.

From 9:30 a.m., first with guns, then with tanks, the armed forces attacked the Moneda Palace. The first aerial assault, just before noon, made further resistance impossible. The alternatives were surrender or death. One of the doctors in the President's entourage describes how Allende, as he walked in the final procession leaving the Moneda to surrender, withdrew to a separate room, placed under his chin the muzzle of an automatic rifle given him by Fidel Castro, and blew out his brains.

Within days of Allende's suicide, the Left invented and spread abroad the story that the military had murdered him. Despite her early statements to the contrary, his wife eventually joined their ranks, as did Fidel Castro. The media helped weave a tangled web of fact and fiction that reinforced the tale. With the attention to detail of a classical philologist, Davis traces the origins and course of this fabrication and makes as convincing a case as possible that the doctor's version of events is correct. He labors to reconstruct reality from the available evidence but he labors at a disadvantage. The carefully reassembled jigsaw puzzle he places before his reader lacks a central piece: Allende's body was buried the day after the coup and none of the twenty-seven photographs taken of it has ever been made public.

Does Davis convince us also of his view that the U.S. played no real role in this coup? After thorough digging, he and the Church Committee were able to unearth only one attempt at "dirty tricks" during his ambassadorship. It began just before his arrival, but came to fruition while he was in office withour his knowledge. CIA officers in Santiago sent documents, including a forged letter, to a Chilean officer outside the country in a attempt to convince the military that the police investigative forces were in league with the Cubans against them. The effects of this operation are not traceable, but both the Committee and Davis seem satisfied that it was the last of its kind.

The covert measures Ambassador Davis permitted consisted solely of funneling some $2 million a year to the moderate opposition (mostly the Christian Democrats and the National party) and to the free press. He thought it justified to work covertly to keep Chile an open society but drew the line at underhanded operations designed to destabilize or disrupt it. Even the

reader who instinctively believes that the U.S. should not bribe Congressmen, inspire violent kidnappings, or deceive its friends in a foreign country comes away from this book wondering whether Davis should not have been more troubled by the prospect of Allende, unimpeded, consolidating his Marxist grip on the country.

The Ambassador derides President Nixon's concern over the geopolitical importance of having a second Cuba in Latin America. Apparently Nixon took seriously the warning of an Italian businessman that Allende's victory would mean a "red sandwich" between Chile and Cuba. On hearing this, Davis quips, "It would have been quite a Dagwood Special: four thousand miles of heterogeneous societies and regimes would lie between those two slabs of Marxist pumpernickel"—a good line but not an adequate response to the legitimate, long-term security concerns of the U.S. and its regional allies.

It would be more difficult for Davis to take the moral position he does against covert intervention in Chile if the Chilean military had not acted and a Marxist regime with ties to the Soviet bloc were now operating in South America. What that part of the world would look like at this point is of course a matter of speculation, but Davis never confronts the issue. An elected Communist president in the U.S. sphere of influence (even one elected by only a third of his countrymen) is the nightmare of any believer in democracy. The perennial problem of how clean you can keep your hands in a dirty world endures because statesmen and administrators have a moral obligation to preserve our interests abroad, as well as to remain true to our domestic principles.

GOOD SOLDIERS IN THE WAR ON DRUGS

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. EDWARDS of California. Mr. Speaker, that nationally renowned scholar of constitutional law, the distinguished Art Buchwald, defends with eloquence the House-passed omnibus bill in his learned article of September 18, 1986.

I am reprinting it in the CONGRESSIONAL RECORD to comfort those who supported the bill.

[From the Washington Post, Sept. 18, 1986]

GOOD SOLDIERS IN THE WAR ON DRUGS

(By Art Buchwald)

The United States is celebrating the 200th anniversary of the Constitution. As part of the ceremonies, the House of Representatives just passed a bill that would require the armed forces to become involved in battling drugs in this country.

It's been a long time since the military has been assigned a role in keeping domestic order, and I for one am glad we finally are going to use them for what they are trained to do—maintain law and order at home.

Selwyn Barnaby is not as sanguine about the provision as I am.

"Who wants tanks in our streets?" he complained.

"There won't be tanks in the streets," I assured him, and if there are, their guns will only be pointed at the windows of the drug dealers."

"How will they know who the drug dealers are?" Barnaby asked.

"The Pentagon will set up a special branch of military intelligence. If the services are responsible for getting the dealers and pushers, they must gather an awful lot of information about our citizens."

"That's what I'm worried about. As soon as the military is given a police role in this country, it will open files on all of us, and then they will use them for other things besides finding dope."

"May I remind you," I said, "that this isn't Chile. Our military will not spy on innocent people—only those who are guilty."

"By whose reckoning?"

"Barnaby, this is an emergency, and we have to use every weapon in our arsenal to beat the drug dealers. If this means giving the military new powers, so be it."

"But once you use the armed forces for antidrugs enforcement, what is to prevent them from being assigned to other police duties? One of the things I have always enjoyed about this country is that we have never seen any troops in the street."

"You're overreacting. It is my impression that the services will be expected to halt penetration of illegal aircraft into the United States and monitor the U.S.-Mexican border. So it isn't as if the Marines are going to knock down your door at 4 o'clock in the morning."

"Speaking of knocking down your door," Barnaby said, "did you know the House also passed a law making it all right to introduce evidence obtained illegally and without a search warrant, as long as the officer was acting 'in good faith'?"

"What's unreasonable about that?" I demanded.

"Who knows when a cop is acting 'in good faith'?"

"Cops always act in good faith. They had their hands tied for years because they couldn't do what they wanted to do. But this is coming to an end. Once we see that illegal search and seizure works in drug cases, we can do away with search warrants once and for all."

Barnaby said, "You really believe that, don't you?"

"This is the way I see it," I told him. "The people of this country have to be prepared to give up some of their liberties, particularly during an election year. Do you know what is responsible for the drug crisis? The Constitution of the United States. There are so many loopholes in it that any narcotics dealer can crawl through it standing up. The only way to win the war on drugs is to fix the Constitution so that it no longer gives aid and comfort to the dope peddlers."

"Which means?"

"I have to report this conversation to the Pentagon."

"What are you going to report?"

"That you're soft on drugs, you don't want the military on the streets, and you have a thing about policemen knocking down your door in good faith."

REPRESENTATIVE FLORIO ON ENVIRONMENTAL POLICY

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. TORRICELLI. Mr. Speaker, I would like to commend to the attention of my colleagues an article on my distinguished friend and colleague from the State of New Jersey, Mr. FLORIO.

As head of the task force on the environment for the Democratic Policy Commission, Mr. FLORIO has issued a report of great significance for our Nation's environmental policy.

FLORIO HAS KEY ROLE IN PARTY REPORT BLASTING GOP ENVIRONMENTAL STAND

(By David Marziale)

WASHINGTON.—A Democratic Party policy report to be released next month will attack the Reagan administration's environmental policies and urge the Democrats to take a hard line on environmental protection.

The report, to be issued by the Democratic Policy Commission, will cover several national issues. Its environmental protection action was developed by an 18-member task force headed by Rep. James J. Florio, D-N.J.

Florio's task force issued a 10-page report, which will be in the general policy report, Philip Burgem, excutive director of the Democratic Policy Commission, said.

The task force report issued a blistering critique of the Reagan administration's policies, saying the Republican administration had broken the nation's commitment to environmental protection.

"In the last six years (since Reagan has been President) the tools of environmental action have rusted with disuse," the report says. "Crimes to our environment are not punished. The civil laws are not enforced.

"Mandates of Congress are not followed. Federal enforcement of the environmental laws has fallen into a Sleepy Hollow slumber."

The report says the Reagan administration has spread "the false notion that our society must choose between economic development and preservation of the environment—that we are unable to have both."

"We (Democrats) do not so grievously underestimate what America can accomplish," the task force said. "We do not believe that a developing modern society inevitably must fool its own environment. And we believe that a society that ignores its environment is a society that will perish."

The report adds that public-opinion polls have shown overwhelming support for more environmental action, rather than the Reagan policy of less action.

The task force made 11 recommendations, most of which will be included in the overall report, Burgess said.

Among them are:

Removal of cancer-causing asbestos from buildings in cases in which the material can be isolated and removed. "Like any other murderer, asbestos must not be allowed in our midst," the report says.

Stepping up action to clean the nearly 100 major toxic waste sites included on the federal Superfund list. "Each year we delay, and the problem only worsens as these waste sites contaminate ground and surface water in conmmunities throughout the country," the task force said.

Ensuring compliance with the health standards of the federal Clean Air Act. The report says the standards will not be met in 40 to 50 cities. "This is intolerable," it adds. "All Americans, whenever they live, have a right to clean and healthy air to breathe.

Protecting water resources, including the Great Lakes, the Puget Sound and the Florida Everglades. "Our nation's water resources must not be treated as if they were sewers, for the runoff from city streets and pesticide and herbicide applications, or

chemical waste dumpings or maritime spills."

Enacting "community right-to-know" legislation to inform workers and residents of nearby chemical dangers.

"We like the Florio report because it emphasizes that a clean and healthy environment is essential for economic growth," Burgess said.

He said the policy commission's report, which will be issued in mid-September, will cover a wide range of issues, including defense, foreign policy, trade, economic development and family issues.

"The report will provide new direction for the Democratic Party as it moves into the 1986 and 1987 elections," Burgess said.

He said Florio was chosen to head the environmental task force because the South Jersey congressman is "a young Democratic leader who has established himself on environmental issues."

THE ENGLISH FIRST MOVEMENT

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. GARCIA. Mr. Speaker, concern over the English as the official language movement, concern which I share, continues to grow. Once people are informed about the issue, I believe that they will see that it is an unnecessary measure that only serves as a divisive force, as in California this year. Therefore, I would like to share with my colleagues two recent articles that address this important matter.

[From the Boston (MA) Globe, Aug. 4, 1986]

LANGUAGE THAT BINDS

A one-sentence bill passed by the Massachusetts House would make English the official language of the Commonwealth of Massachusetts. Similar legislation is pending in other states and has been proposed in Congress.

The bill's sponsor, Rep. John Loring (R-Acton), says he is concerned that state and local governments are coming under increased pressure to offer government services in several languages. That these services—especially bilingual-education programs—might be curtailed is the concern of the bill's opponents, including Rep. Byron Rushing (D-South End) and Sen. Royal Bolling (D-Roxbury).

It is not clear that the bill would prohibit the offering of such services in a variety of languages—or whether the offering of such services is not a good idea, official language or no.

There are public safety and convenience arguments for the "En el caso de una emergencia" signs in T cars, which instruct passengers to follow the directions of the train crew in an emergency. If there are civil service jobs for which a non-English speaker is otherwise qualified—not including public safety jobs—ignorance of the language should not stand as a barrier to competing for the job. Since knowledge of English does not seem to make good drivers (the evidence is available on every Massachusetts highway), there is no reason why someone who does not speak English cannot get a driver's license.

It is possible that the real target of the official-language bill is bilingual education. There is now a debate over which kind of language training is best, and it should be resolved after a thoughtful review of the alternatives, not by some back-door device.

One of the bills supporter, Sen. Edward P. Kirby (R-Whitman), makes the philosophical argument that "the country needs to be held together with a common language." Foreign-speaking immigrants "did pretty well in the past." Kirby says, "and in fact did better when there was a strong sentiment that everyone should speak English."

Kirby, who has a good sense of history, is right. What he misses, however, is that this nation has held together for a good 200 years—through successive waves of foreign-language immigrants—without the need to proclaim English as the "official language.' It is the language of the country, and it needs no legal endorsement.

[From the Miami (FL) News, Aug. 27, 1986]

LANGUAGE ON THE LINE

ATTORNEY SEES CIVIL RIGHTS THREAT IN ENGLISH-ONLY EFFORTS

(By John Trasviña a legislative attorney in Washington for the Mexican American Legal Defense and Educational Fund (MALDEF), which opposes movements to declare English the official language of the United States.)

In any debate over bilingual elections and the efforts to make English the official language of the United States, the same questions are repeatedly raised.

The answers to these questions hold the key to whether English-only efforts will be defeated and the legalization of discrimination based on language proficiency thwarted.

Q. Isn't English already the nation's official language?

A. English is the language of general societal, economic and political discourse in the United States. Without proficiency in English, it is next to impossible to get ahead in this country. Latins and other language-minority citizens recognize the importance of English better than anyone. Ten thousand Latinos in Los Angeles alone are on waiting lists for adult night school English classes.

In Miami, 98 percent of Hispanic parents surveyed felt it essential for their children to read and write English perfectly. They do not need a constitutional amendment to tell them English is important; they need the opportunities and resources so they can get off the waiting lists and into classes.

Q. If English is for all intents and purposes official, why not put it into the Constitution?

A. Elevating English to constitutional status could permit language proficiency to be used as a precondition to the enjoyment of certain rights and liberties under the law. The Constitution is not the place for mere symbolism. It measures our rights and responsibilities as Americans. The present agenda of groups seeking to "constitutionalize" English is little more than an effort to make persons not yet proficient in English second-class citizens in the eyes of the law.

Q. What will the proposed English Language Amendment do?

A. Supporters of the English Language Amendment have made clear that they will use it as a legal foundation to end bilingual education and bilingual voting materials. They have already used this campaign for English to intrude upon private and commercial uses of other languages by attacking Spanish-language housing advertisements and restaurant menus in Florida, Chinese-language business and grocery signs in California and corporate advertising in Spanish by the Phillip Morris Company and others.

California's Proposition 63 on the November ballot would permit any resident to take court action against local and state government agencies he or she felt were not stopping the "erosion" of English.

Perhaps most drastically, the English Language Amendment threatens to prohibit the testimony of non-English-speaking crime victims or witnesses since court trials constitute official state proceedings.

Q. Won't the amendment force people to learn English?

A. It is unnecessary and inhumane to deprive individuals of their civil and constitutional rights so they will learn English. As the U.S. Supreme Court said in 1923, "Perhaps it would be highly advantageous if all had ready understanding of our ordinary speech, but this cannot be coerced by methods which conflict with the Constitution—a desirable end cannot be promoted by prohibited means."

The use of a bilingual ballot on Election Day does not diminish the primacy of English the remaining 364 days of the year. The thousands on the night school waiting lists in communities throughout the country are a tribute to the year-round respect and need for the English language.

A more respectable solution to their needs is legislation such as the English Proficiency Act introduced by the Congressional Hispanic Caucus to provide more support for local community centers adult English programs.

Q. Has this issue ever come up before in our history?

A. Yes. In the 1920s, German-Americans were the target of laws restricting the teaching of German or making English the official language in about 20 states in the Midwest. The U.S. Supreme Court struck down these English-only laws and held, "The protection of the Constitution extends to all, to those who speak other languages as well as to those born with English on the tongue." (Meyer vs. Nebraska).

Q. What are Hispanics and other doing about the issue today?

A. The movement for English opportunity and against the English Language Amendment, which started with major Hispanic organizations, is growing to include Asian Americans and other civil rights groups, institutions and individuals nationwide.

Prominent leaders in the mainstream of both the Democratic and Republican parties have come out against the English Language Amendment.

In July, both the Christian Science Monitor and USA Today national newspapers issued warnings against the English Language Amendment. California's chief law enforcement officials, Attorney General John Van de Kamp and Los Angeles Police Chief Daryl Gates, Los Angeles Mayor Tom Bradley and San Francisco Mayor Dianne Feinstein, and California Assembly Speaker Willie Brown are leading the campaign against that state's Proposition 63.

With this expanding coalition, English-only efforts can be defeated.

STOP BASHING PUBLIC SERVICE

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Ms. OAKAR. Mr. Speaker, I would like to call to the attention of all my colleagues some

recent observations on the need to stop bashing people in the public service of this country. They came in a speech at the Brookings Institution about the quality of political appointments to Government service.

That speech focused on the needless damage being done to the value and appeal of public service by misguided and wrongheaded attitudes on the part of many political and business leaders. It asserted that such attitudes are at the heart of what is wrong with the quality of our public service. And it made clear that changing those attitudes is the key to attracting our best people to it.

The speech is all the more remarkable because of its author. He is Harry Freeman, executive vice president of the American Express Co. Private sector managers are not exactly known for their concern about the excellence of public service; in fact, they are more prone to criticize and forget it. But Mr. Freeman is not an ordinary business executive. He has served in the public sector, and drawn conclusions, at first hand, about what is required to achieve and sustain a higher level of appointments and performance. The supremely important step, he believes, is to reform the basic view of government and private sector leaders alike who discount public service as second-rate, use it as a politically convenient scapegoat and dismiss it as unworthy of talented and energetic people.

I agree. I am, Mr. Speaker, inserting Mr. Freeman's most noteworthy remarks into the RECORD in the hope that they will be widely read and pondered by interested citizens everywhere.

REMARKS OF HARRY L. FREEMAN, EXECUTIVE VICE PRESIDENT, AMERICAN EXPRESS CO.

"WHY CIVIL SERVICE REFORM WON'T REFORM THE CIVIL SERVICE: A CORPORATE PERSPECTIVE"

I'm delighted to be here. It does something for my ego to be in such distinguished and thoughtful company. I am particularly pleased to share the platform with Joe Fowler, one of America's most eminent dual career personalities.

While this conference appropriately concentrates its attention on civil service, my own comments will focus on another part of national public service. My concern, and the focus of my remarks, is directed toward political appointments, i.e. that layer of people above the civil service and below the Cabinet appointments. These include assistant secretaries, deputy assistant secretaries, and so forth.

Right up front I'm going to tell you that I am concerned that we are not getting the quality of people we should be getting to fill these critical political appointments. And why is this so? Plain and simple, I lay the responsibility at the feet of the people who have run for President over the last two decades.

In my view, these Presidential aspirants have run "against Washington" and by doing so, have discouraged a lot of creative and talented people from coming to Washington to serve their country in the public service. The flow of talent from the private sector into public service has been effectively damned and the results could be disastrous. So while I think that some of the issues set to be discussed here—such as conflict of interest rules, compensation, and business ethics as pertaining to former government employees—are important, I see them frankly as secondary issues. The primary issue that I see confronting the nation is this:

We've got to get qualified and talented people to make that important move from the private sector into the public service.

Sorry to get on my soapbox so early on, but as you can tell I feel very strongly about this issue. And again, I am grateful to have this opportunity to express my thoughts on the topic to you, and to share the platform with Joe Fowler.

A New Kind of Dual Career?

Traditionally and classically, the dual-career, dual-perspective person came into government after achieving distinction in the private sector—in business or the law, or in academic life. It helped, in fact it was essential, to have independent means, either through inheritance or business success, or through what was once called a "fortunate marriage." For such people, public service was a kind of crowning touch to an already charmed life.

In addition, there was another group that joined the ranks of public servants but for a very different reason: namely, as an alternative to unemployment. This was especially true during the Great Depression when the only jobs available were in government.

In the past few years, we've seen the emergence of a new kind of dual-perspective person: the public servant who establishes a reputation in government, then takes up a career in the private sector. Paul O'Neill, now President of International Paper Company, is one such person; Bill Ruckelshaus is another; another, to name a slightly more controversial figure, is David Stockman.

My own career has followed this model. Starting in 1966, I served for several years in the Agency for International Development and in the Overseas Private Investment Corporation—with a brief interruption to practice law and to be a "financial type" in California. My work today in the private sector depends heavily on the knowledge and the perspective that I gained while working in government.

So as someone who has worked on both sides of the fence, I can say without hesitation that I'm a great believer in dual careers and the dual perspectives that they provide. I can say with conviction that the corporate world, in its own self-interest, needs excellence in government. It needs able, professional, imaginative public servants who have some insight into the issues that are of critical interest to the business community. While I believe many corporate leaders would readily agree, I venture that but a few will do anything to help. Why?

We often imagine the interests of the public sector and the private sector to be opposed. Very often, the media is quick to highlight the points of difference and dispute, the popular stereotype being that private interest and the public interest are generally in conflict. But that stereotype, as generally is the case with stereotypes, is misleading and inaccurate.

Today the interests of the two sectors converge at least as often as they stand in conflict. A prosperous, productive private sector produces the tax revenues that Congress and the Administration need to finance defense programs, debt service and Social Security. Conversely, it serves the private sector well to have skilled and professional public servants conduct trade negotiations, issue patents, write regulations and shape tax legislation—the infrastructure and environment in which business flourishes or suffers.

To most people in professional Washington—and certainly to those of us gathered here today—it is simply accepted that the nation, including the private sector, needs and wants excellence in government and in public service. We think that point should be obvious. Unfortunately, what is not obvious to many people is how to effect this excellence. How to ensure that the right people are being considered for the right job. And more importantly, how to encourage the right people to accept the challenge of public service, especially in light of some of the disincentives that currently make that choice less than easy to make.

The Attack on Excellence

There's a great deal of complacency in our nation that excellence in government is an obvious good, and today I want to attack that complacency. It is apparent to me, from my vantage point in the corporate world, that most people today, including most senior corporate officials, put rather low priority on excellence in government, or at least do not fully understand the important role they can play in achieving this excellence.

In recent years, some have even questioned the very concept of excellence in government and in the public service.

Last May, the Wall Street Journal carried a remarkable op-ed article by Terry W. Culler, an executive recruiter who, until recently, was the Associate Director in charge of work-force effectiveness for the U.S. Office of Personnel Management.

"The government," Mr. Culler wrote, "should be content to hire competent people, not the best and most talented people. A good case can be made that those individuals are needed in the private sector, where wealth is produced rather than consumed."

"The government," Mr. Culler continued, "does not need top graduates . . ., administrative offices staffed with MBA's from Wharton, or policy shops full of the best and brightest whatevers. Government's goal should be not employee excellence, but 'employee sufficiency.' "

Only a few weeks ago journalist Don Feder weighed in with an even stronger version of this thesis in his nationally-syndicated column: "For the Record." Mr. Feder wrote, "I am adamantly opposed to the concept of excellence in government. The very idea is terrifying . . . Imagine that life would be like with a highly motivated IRS, an aggressive OSHA, and a Department of Health and Human Services driven to succeed . . . I want a government that is disorganized, lethargic, and low-performing. It's our best hope for the preservation of liberty."

To most of us with experience in Washington, such views are heresy; easily-refuted heresy. Finding cures for cancer, negotiating arms-control treaties, making trade and tax policy, are matters of great consequence—even matters of life and death. For these and a thousand other undertakings, more sufficiency will never be enough; excellence is essential.

That is our view. But it is a consensus view beyond Washington? I doubt it. As I indicated at the start of my talk, nearly two decades of government-bashing, I'm afraid, have taken their toll. The whole *ethos* of excellence in public service—the very notion that public service is a high calling, deserving of the best talents—is now a minority notion. The consensus supporting public

service, let alone excellence in public service, has been deflated.

Why Nuts-and -Bolts Reform Won't Fly

This breakdown in consensus is the reason that most proposals for civil-service reform and recruitment for public service seem to me to miss the point. To use a couple of highly accurate cliches—and to mix a metaphor in the bargain—they put the cart before the horse; they miss the forest for the trees.

I have no quarrel with proposals to improve the incentives for public service, including pay. I have no quarrel with reviewing the laws and regulations governing ethics and disclosure with an eye toward removing barriers to public service. I encourage these efforts, indeed, I have called repeatedly, most recently in an article in the New York Times, for steps to make it less burdensome and more attractive for talented leaders to make the move from the private sector into public service.

I have no quarrel with the specific proposals for reform which have been circulated for consideration at this meeting. I applaud the existence of a Center for Business and Government at Harvard, and I applaud in advance the efforts which Joe Fowler will tell us about.

My point is this: Such nuts-and-bolts reforms will not go far, perhaps nowhere, until we can rebuild a strong national consensus in support of public service as a calling. It is time to call a "time-out" to the representation of public service as a frustrating, unrewarding, no-win situation that should be avoided by all individuals of substance. Changing public attitudes about public service is not simply one of the reforms we need to achieve; it is the reform we need to achieve. Rebuilding the ethos of public service is not simply one change that is needed, along with pay reform; it is the fundamental change that will make all others possible. It is the horse; it is the forest; it is the structure into which we will fit the nuts and bolts of incremental reform.

A Place To Begin

I have no pre-wrapped, pre-tested, foolproof program that will achieve that ambitious end. But I can suggest a couple of ways in which we might begin to do it.

First, we can support, morally and materially, efforts like Joe Fowler's Public/Private Careers Project and the Center for Excellence in Government here in Washington. The Center, founded three years ago by Mark Abramson, has done many things right:

It has focused, for example, on the real key to excellence in government—attracting the best people—rather than simply on improving management systems.

It has become a forum for those dual-perspective people I mentioned earlier—people like Peter Dawkins who have lived in both cultures and can reconcile the worlds of the public interest and the private sector; and

It has devoted itself to the very cultural change that I am calling for.

We need to look at the disincentives that make the move from the private sector into the public so unattractive. The long and uncertain appointment and confirmation process needs to be streamlined—so that senior executives will not be left twisting in the wind for many months after making a major career choice. The disparity between private and public compensation needs to be rectified, with a careful look at the mandatory participation in the retirement programs that the "dual careerist" may never use. One of my colleagues argues that every citizen should be provided with, say, two years of exemption from taxation while in public service. This kind of creative thinking is necessary, if public service is to compete with the lucrative benefits of a job in the private sector.

In addition, we need to begin our educational efforts designed to change public attitudes, with special attention made toward reshaping the attitudes of senior leaders in the American business community. I suggest this for more than one reason. These leaders have great power to influence public opinion. Yet, they are often victims themselves of ignorance and false notions about government and about public servants. Moreover, these leaders with their wealth of talent and experience could serve their country well, but may be reluctant to enter public service because of the "bad press" it has received. As my friend Drew Lewis recently said, "There are highs in public and private sectors. But there is no high like a real high in the public sector."

And perhaps most importantly, we can marshal support among the Presidential candidates in 1988 for a moratorium on government-bashing. The idea that government can do nothing right is one of those false and pernicious claims that, left unchallenged, will become a self-fulfilling prophecy. Unfortunately, for some time Presidential candidates of both parties have been among the most successful spreaders of that falsehood. The leaders in this room can perform a major public service by persuading the candidates in 1988 to have no part in careless, indiscriminate attacks on government and the public service, and affirmatively, to get the candidates on a pro-excellence in government theme. An "excellence in government" theme is consistent with either a "smaller" or "bigger" government plank. A reasoned debate about the role of government, yes; mindless government-bashing, no. If necessary, we need to revive the equivalent of the old Democratic and Republican "truth squads" that followed candidates around to try and set the record straight.

Getting What We Deserve

I'd like to close with two quotations. One is from Paul O'Neill of International Paper, reflecting on the differences between public and private life:

"Leaders . . . generally don't say that their troops are lousy, bad and 'ne'er-do-wells' who couldn't work any place else. In my experience, since the Kennedy days people who work in government have been damaged, hampered and demotivated by a leadership that has said their workers are bad . . ."

That, in my judgment, ladies and gentlemen, sums up much of the problem that we face, and underscores the cultural change we need to make.

The second, and probably more widely known quote is from Adlai Stevenson. "In the end," he once said, "we get the public servants we deserve."

He was right. All of us, especially leaders in the corporate sector, need to remember that if we denigrate the calling of public service, we will not get the caliber of people that make for greatness. And we'll deserve what we get.

THE ALZHEIMER'S DISEASE AND RELATED DISORDERS RESEARCH ACT OF 1986

HON. OLYMPIA J. SNOWE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Ms. SNOWE. Mr. Speaker, today I am introducing, along with my colleagues Hon. Mario Biaggi and Hon. Silvio Conte, the "Alzheimer's Disease and Related Disorders Research Act of 1986". A similar bill is being introduced in the Senate by Mr. Grassley. This legislation is designed to form a basis for the coordination of the activities of the National Institute on Aging (NIA), the National Institute on Mental Health (NIMH), and the National Center for Health Services Research and Health Care Technology Assessment (NCHSR) as they pertain to Alzheimer's disease and related disorders. In addition, my bill will create a national clearinghouse will compile and disseminate information on Federal, State, and private sector activities in research, demonstrations, and services relating to Alzheimer's disease.

The purpose of this legislation is not to create new projects or centers. Instead, the intent of this bill is to provide needed knowledge about services-related activities for Alzheimer's disease through research by agencies with jurisdiction in this area. While I am fully aware that Alzheimer's victims and their families need assistance in reducing the emotional and financial burdens associated with this illness, we need to know, in a more systematic way, how to provide that relief.

All of us know of the devastating effect that Alzheimer's has on its victims and their families. Today between 3 to 4 million Americans are affected by disorders that cause severe and progressive deterioration of their mental capabilities. Clearly, the long-term answer is to support biomedical research that will eventually provide a solution to the cause or causes of this disease. But, in the meantime, families are struggling to provide care to their afflicted family members.

In light of the need to more fully define the kinds of support that families and individuals with Alzheimer's need, numerous of my colleagues and I sponsored a day long siminar in February on services-relevant research for Alzheimer's disease. At that workshop, it became readily apparent that there were enormous gaps in our knowledge about the effect Alzheimer's disease has on its victims and their families. That workshop cleraly showed that without more detailed information, we might fail to act in an effective way to assist those suffering from Alzheimer's. It became clear that the basic information on Alzheimer's disease and related dementias was unavailable and that more knowledge was needed regarding:

Epidemiology and risk factors;

Diagnostic and assessment instruments;

Design, delivery, staffing, mix, and coordination of services;

The interface of formal services provided by health care professionals and the informal support services provided by family, friends, and neighbors;

Relevant data, future data needs and projections on the cost of services; and

Coordination of services-relevant research at the Federal level.

All of these considerations resulted in the bill that I am introducing today. In this bill, the Secretary's Task Force on Alzheimer's Disease will assist the NIA, NIMH, and NCHSR in the development of a coordinated agenda for services-relevant research. Each of these agencies will work together to develop a plan to address gaps in information within their areas of expertise. Further, they will be required to use, to the maximum extent available, existing Federal resources, such as the National Institute on Aging's Alzheimer's Disease Research Centers, the National Institute of Mental Health's Centers on Psychopathology of the Elderly, relevant activities of the Administration on Aging, and other centers and activities which may be planned or underway by other agencies of the Federal Government, in order to accomplish their goals.

Under the provisions of this bill, NIA will undertake research stressing epidemiology and the identification of risk factors for Alzheimer's disease, and will develop diagnostic procedures and instruments aimed at more correctly identifying individuals with that disease. NCHSR will be responsible for inventorying and analyzing existing data sets and studies relevant to dementia, and for developing estimates of the costs borne by patients and families, with particular stress on isolating what is essential to the dementia patient as distinguished from other patients with long-term care needs.

NIMH will stress the assessment and treatment modalities relevant to the mental, behavioral, and psychological problems associated with dementias, and will identify the optimal range and cost effectiveness of community and institutional services, particularly as they relate to design, staffing, timing of the use of services during the progression of the disorder, service mix, and coordination with other services. NIMH will also be required to assess the efficacy of special care units which have developed around the country with respect to costs and patient outcomes; to determine how to best combine formal and informal support services; to evaluate ways to sustain family caregivers in order to reduce psychological, social and stress-included physical problems; and to identify the best methods of delivering such services as outreach, case management, home care, respite care, adult day care, and others.

In addition to their research function, NIA will be responsible for developing a clearinghouse which will organize and disseminate information on services-relevant research. In this capacity, they will compile, archive, and disseminate information on research, demonstrations, evaluations, training programs, and projects dealing with Alzheimer's and related dementias. Additionally, they will be required to coordinate with the Administration on Aging in order to assure that adequate information on services and service delivery systems is available to victims of Alzheimer's and their families, to compile information regarding State and local government and private sector initiatives, and to translate research and technical information into nontechnical terms. Finally, they will be required to make this information available through a toll-free telephone number and a yearly summary of information which will be available to interested parties.

This bill will enable us to systematize what we know, to identify what we don't know, and to use the information developed as a basis for future legislative action on Alzheimer's disease. I am sponsoring a bill of this type with the belief that if we spend a small sum of money for research and thoughtful planning now, we can better assure that future moneys spent on services for Alzheimer's disease victims and their families will be targeted on properly identified needs. In this way, we can make certain that any money spent on families and victims of Alzheimer's disease will be money well spent.

HONORING SENATOR ARTHUR DORMAN

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. HOYER. Mr. Speaker, on Saturday, September 20, 1986 the Beth Torah Congregation of West Hyattsville, MD will honor Maryland State Senator Arthur Dorman as its "Man of the Decade." Arthur Dorman is one of the most respected and accomplished citizens in all of Prince George's County.

He is not being honored, however, just for his service in this decade.

Arthur and Betty Dorman and their family have been members of the Beth Torah Congregation since 1960. His active service began in 1961 and 1962 when he served as vice president for education. Arthur Dorman's fellow congregants chose him to be president of the synagogue in 1963 and 1964. Since 1965, Arthur Dorman has served as a trustee of Beth Torah. He was instrumental as president in 1965 in developing a long-range plan which led to the congregation moving from Mount Rainier, MD to its current location in West Hyattsville. In 1984, Senator Dorman worked with the other trustees to retire the mortgage on the current location for the Beth Torah Congregation. Still a trustee, Arthur Dorman also serves as one of the congregation's substitute rabbis.

Though he is being honored specifically for his work in his congregation Art Dorman has made a significant contribution to every facet of his community.

Following service in World War II in both the merchant marine and the U.S. Army, Arthur Dorman graduated from George Washington University. He graduated from the Pennsylvania College of Optometry in 1953, and began his practice as an optometrist in Langley Park. Over the years, Dr. Dorman's practice fluorished and respect for him professionally grew to such an extent that he was named Maryland Optometrist of the Year in 1967 and National Optometrist of the Year in 1968.

In the Prince George's County community at large, Dr. Dorman may be best known as a respected political leader. He has served in political office for more than 20 years. First appointed to the house of delegates in February 1965, he was elected in his own right in 1966. He served there with distinction through 1974, including a period as speaker pro tem from 1972–74,

In 1974, the voters of the 21st legislative district elected Arthur Dorman to the State senate. He has been reelected twice and can expect to be so again in November. In the senate, Arthur Dorman serves as vice chair of the Committee on Economic Affairs. He has made significant contributions in areas as wide ranging as the environment, education and civil liberties. Arthur Dorman is considered the father of Maryland's Freedom of Information law. He floor managed senate consideration of Maryland's landmark Chesapeake Bay legislation. And, he has been instrumental in gaining needed education funds for Prince George's County schools.

In addition to his active religious, professional and political life, Arthur Dorman has participated in a wide variety of civic and service organanizations ranging from the Kiwanis to several PTA's. In almost every organization in which he has participated, he has quickly risen to a position of leadership.

Most important, Betty and Arthur Dorman are the parents of four fine children, Pam, Janet, Barbara, and Matthew.

Mr. Speaker, Arthur Dorman represents what is best about our Nation. Actively invovled in every area of community life, he stands for excellence in everything he does. The members of Beth Torah are right to honor Arthur Dorman both for his many contributions to their congregation and for his humanity. He is not just "Man of the Decade" but a man for all seasons.

PRODUCT LIABILITY CODE

HON. PETER H. KOSTMAYER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. KOSTMAYER. Mr. Speaker, I want to draw my colleagues' attention to a significant resolution passed at the recent meeting of the National Governors' Association.

The Governors unanimously passed a resolution calling on Congress to adopt a Federal Uniform Product Liability Code. This reverses a standing position of the National Governors' Association, and also reverses long-standing tradition that tort and liability law be reserved to the States.

It's obvious that reform in this area needs to be seriously considered at the Federal level. While it appears at this late date that final action either in the House or Senate this year will be impossible, I urge my colleagues to consider the position of the Governors, and pass constructive reform, as soon as possible.

NATIONAL GOVERNORS' ASSOCIATION RESOLUTION ON PRODUCT LIABILITY INSURANCE

The National Governors' Association recognizes the growing national problem of the liability insurance crisis. Affordable liability coverage has become increasingly more difficult to obtain or has simply become unavailable, resulting in a severely adverse effect on government entities, public and

private organizations, businesses, and professionals throughout the nation.

The National Governors' Association believes that the nature and extent of the problem of liability insurance requires the coordinated efforts of federal, state, and local governments and the private sector. Specifically, the National Governors' Association supports actively working to resolve this national issue through continued review and analysis of the problem, collection and dissemination of statistical and legislative data on federal and state programs and initiatives, and development of long-term policy goals that will effectively counter the escalating problems of the liability insurance crisis.

The issue of product liability reform has increasingly pointed toward federal action as a way in which to alleviate the problems faced by product manufacturers with regard to inconsistent state product liability laws. This lack of uniformity makes it impossible for insurers to predict accurately the potential liability of product manufacturers and insurers. Clearly, a national product liability code would greatly enhance the effectiveness of interstate commerce. Furthermore, the system causes inflated prices for our consumer goods, the discontinuation of necessary product lines, and adversely affects the international competitiveness of the United States. Governors urge Congress to adopt a federal uniform product liability code.

The Governors further believe that the insurance industry of America provides an important and vital public service to consumers and the private sector. As we call for the adoption of a national uniform product liability code, we believe there must also be effective oversight of the insurance industry so as to guarantee that the needs of both American businesses and American consumers are met and protected. This is especially important in light of concerns which have been raised concerning rate increases, the availability of insurance industry practices on cancellation and non-renewal of policies, coverage restriction, and reinsurance.

In establishing a uniform federal product liability code, Congress should assess the impact of a uniform code on public safety and consumer protection and, if deemed appropriate, enhance federal safety and consumer protection standards.

CRUSADE CAN'T WORK UNLESS IT DENTS DEMAND FOR DRUGS

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. EDWARDS of California. Mr. Speaker, with the recent passage of the omnibus drug bill, writers all over the country are commenting on its possible impact in the fight against illegal drugs and the tragedy sown in their paths.

Joanne Jacobs, of the San Jose Mercury News, wrote an extremely cogent article on this issue, which appeared in that excellent newspaper on September 18, 1986.

I submit this compelling article for the RECORD and I highly commend it to the attention of our colleagues.

[From the San Jose Mercury News, Sept. 18, 1986]

CRUSADE CAN'T WORK UNLESS IT DENTS DEMAND FOR DRUGS

I don't know what they're smoking in Washington these days, but it must be powerful stuff. The vote junkies have blown their minds.

Look at the bill passed overwhelmingly by the House of Representatives last week. The military will seal our 4,000-mile border by land, sea and air within 45 days. Drug smugglers who cause a death (how exactly?) will get the death penalty, second-offense dealers will get life in prison without parole. Fourth Amendment rights will be dumped for drug cases. And it'll cost $6 billion over a five-year period.

What are these guys on?

President Reagan's anti-drug brainstorm was mandatory random urine testing for perhaps 1.1 million federal workers in "sensitive" jobs, regardless of whether there's probable cause, or even improbable cause, to suspect a worker is under the influence of drugs.

Then presidential aspirant Pete DuPont chimed in with an even loonier idea: Testing 14 million high school students—again with no concern for the presumption of innocence or invasion of privacy.

This is nuts. It's dangerous. It's damned expensive. And it's motivated not by concern for "our children" or our society's values—certainly not by evidence of a genuine drug crisis—but by vote-grubbing at its very grubbiest.

The fact is that drug use is declining in the United States, according to the National Institute of Drug Abuse. The number of high school students who smoke marijuana every day has been cut in half. Heroin use has leveled off, and fewer young people are getting hooked. Even the number of cocaine users seems to have peaked.

While cocaine-related deaths have tripled, due to new and more lethal forms of the drug, cocaine's 565 victims hardly compare to 100,000 deaths a year from alcohol, and 300,000 from tobacco.

Special costs of $60 billion a year for drug use are half the estimated $117 billion costs of alcohol abuse—and drunks are more likely than drug users to injure innocent third parties.

David F. Musto, a Yale professor of psychiatry and history of medicine, writes in the Los Angeles Times that "the percentage of people who ever use a drug and eventually get into serious trouble is conservatively estimated for cocaine at 3 percent. If this were the percentage of airline passenges who, for one reason or another, never reached the plane's destination, commercial air travel would come to a halt, but in the looser and less closely observed world of drug users such a fraction of casualties is not a hinderence until after years of accumulation."

In other words, the drug abusers notice after awhile that some of their friends have been badly messed up. The smart ones quit, and the dumb ones move on to the next "in" drug.

Certainly, it would be far better if Americans gave up coke, pills, pot, booze and smokes and we all took up jogging, yoga and bean sprouts.

In particular, we need to work much harder to keep young people away from mood-altering drugs of all kinds (I'd include television in the list). By definition, teenagers don't have the maturity to decide what substances to put into their bloodstreams, and they can't handle the vital job of growing up when their minds and moods are fogged.

But a completely "drug free" society is an impossible goal that will cost us dearly in liberties and dollars.

Supply-side solutions—turning the military into a huge, overarmed border patrol, sending the boys to Bolivia, handing out ridiculously disproportionate sentences (if Susie turns in Mom and Dad on a second offense, do they go to prison for life?), suspending civil liberties to bust smugglers—won't work as long as the demand is there.

The hottest new demand-side proposal—indiscriminate drug testing—is inaccurate, intrucive and ineffective against the really dangerous drugs. And that's just the i's.

To cut demand, the anti-drug crusaders must fund rehabilitization programs for those who want to quit drugs, and develop education programs to persuade kids to live without artificial highs.

In large part, that means teaching kids to read and write so they can feel competent and confident in the straight world, and insisting on self-discipline and self-restraint in the classroom—things schools should be trying to do in any case—rather them simply lecturing on the evil effects of various drugs.

Nancy Reagan wants an "outspoken intolerance" for all drug use—no moral middle ground. Her husband, Ron, says that "drug abuse is a repudiation of everything America is."

But a society that tolerates getting high on alcohol has no moral ground from which to condemn marijuana, which doesn't get you any higher and claims far fewer victims.

And Americans have been abusing various substances since John Smith discovered tobacco. Among other things, America is a consumer society in the market for instant gratification, a fact which our feel-good President has been quick to exploit.

Drug abuse is not caused by smugglers or street pushers but by the unwillingness of too many Americans to cope with the difficulties of life, to rely on their own resources, to take the hard road instead of the shortcut.

It will not be solved by barricading our borders or locking up the men who satisfy our appetites. It is not so easy to defend us from ourselves.

FRAUDULENT DOCUMENTS USED IN IMMIGRATION

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. CRANE. Mr. Speaker, as the close of the 99th Congress draws nearer, Congress will be debating many crucial bills before the scheduled adjournment. One particular issue that is expected to be brought to the House floor is the problem of illegal immigration into the United States.

Last week the Washington Times ran a series of articles regarding this subject. Since the district I represent is north of Chicago, I had a particular interest in the September 10, 1986, article entitled "Forged Documents Are Key to Benefits for Chicago Aliens." For the past several years when Congress has considered immigration proposals, I have had

concern with granting amnesty to illegal aliens because of the likely increase in forged documents.

Granting amnesty to illegal aliens is ludicrous. An arbitrary date of 1982, or previously suggested dates, could produce a nightmarish problem for enforcement agencies. A flood of fraudulent documents could swamp the communities, making proof of entry, residence, or registration increasingly difficult. I am not persuaded that such a provision will be effective in deterring illegal immigration. However, it could create a new underground industry for forged, stolen and fraudulent documents.

There are serious problems with our immigration policies that need to be addressed. However, before enacting any legislation it must be recognized that illegal aliens are getting smarter and are taking advantage of counterfeit documents. Therefore, I would like to share with my colleagues the following article by J.H. Doyle that appeared in the Washington Times on September 10, 1986. This article clearly demonstrates that the United States is already having trouble in combating fraudulent documents by illegal immigrants.

FORGED DOCUMENTS ARE KEY TO BENEFITS FOR CHICAGO ALIENS

(By J.H. Doyle)

CHICAGO.—With a fake Social Security card or birth certificate, an illegal alien can silently join the American work force and enjoy most of the benefits of citizenship.

For $50 to $1,000 per item on Chicago's black market, a new arrival can buy a birth or marriage certificate, a driver's license, a Social Security card and an Immigration and Naturalization Service "green card."

"We're seeing the illegal alien getting much smarter," said Brian R. Perryman, assistant director for INS investigations here. "He's taking advantage of counterfeit documents. He's papering himself to fit into the system.

"There's so much bad paper out there, our identity systems are being subverted," he said. "We don't know who these people really are or where they're from."

The Chicago metropolitan area has the nation's third-largest illegal alien population, U.S. Census Bureau officials say.

There are 250,000 to 400,000 illegal aliens living in Chicago, of which some 75 percent are Mexican nationals, INS officials say. Nationwide, about 55 percent of the illegal aliens are Mexicans.

Chicago's huge Polish-American community has drawn about 30,000 undocumented Poles. The city's illegal aliens—people who entered the United States without permission or overstayed their visas—include Filipinos, Koreans, Nigerians and others.

With a local address, a new arrival here can get a Cook County voter registration card without offering proof of citizenship. He can use the card to obtain other credentials and benefits.

"If you come into the country illegally, you've got to establish false identification," said Michael T. Dyer, special agent for the Department of Health and Human Services here. "And one of the first things you need is a Social Security card.

"Almost everyone demands a Social Security number in employment, and even to cash a check if you don't have a bank account," he said. "Illegal aliens can either buy a card, or if they're not going to be here too long, they can use your number."

The city's first Mexicans arrived early in the century to work in the steel, railroad and meat-packing industries.

Pilsen—a barrio where Spanish is the primary language—remains Chicago's port of entry for Mexicans fleeing the poverty of their homeland. Neighborhood churches operate shelters for those with no money or place to stay.

"Every day, walking down the street, you see new faces," said Martha P. Obregon, a staff member at Casa Aztlan, a Pilsen community center. "And you assume they are from outside the country."

Casa Aztlan, which receives federal and private funds, offers English classes, youth programs and referral services, "We don't ask them where they're from or whether they're undocumented," Ms. Obregon said.

Pilsen has a 70 percent high school dropout rate, a 13 percent unemployment rate and a low level of literacy among its residents. Illegal aliens who work in Pilsen's shops and restaurants often get paid subminimum wages.

"I'd say that 40 percent of the people here have [legal] papers, and 60 percent don't," said Andres Macias, the owner of a grocery store in Little Village, another Mexican neighborhood in Chicago.

"They come by bus, plane, train and private car," he said. "They have friends and family here. They know people. That's how it's growing."

Some residents question the city's ability to absorb the new wave of illegal immigrants.

"The jobs are drying up," said the Puerto Rican owner of a Little Village tavern. "Industries are moving out. Factories are closing. I've been here since 1954. I've never seen it so bad."

With its tradition of ethnic neighborhoods—Czech, Greek, Jewish, Irish, Italian and Polish—Chicago has so far absorbed the newest arrivals without a political backlash.

On the issue of illegal immigration, Chicago's black and Hispanic leaders have forged a powerful alliance. In 1983, Mexican-American voters provided a critical swing vote to elect Chicago Mayor Harold Washington.

Last year, with Hispanic leaders by his side, Mr. Washington signed an order denying INS agents access to city files and ending the city's practice of asking job and license applicants about their citizenship status.

While community leaders have kept the peace, teen-age and adult gang violence is spilling onto Chicago's streets.

"We've had problems with a few gangs of older illegals, [ranging] from 25 to 35 years old," a Chicago police officer said. "They're not afraid to kill."

Some 15 percent of felony arrests in Cook County involve illegal aliens, law enforcement officers said.

A federal drug strike force here is trying to dismantle the "Durango-Chicago pipeline." Several members of the Herrera crime family, which is based in Durango, Mexico, were recently convicted on heroin and cocaine trafficking charges.

Federal prosecutors also busted several Chicago marriage fraud rings that arranged sham marriages for clients wanting permanent U.S. resident status.

A 1982 study by the Illinois attorney general showed that the state paid $66 million a year on unemployment insurance to illegal aliens, and that half of their applications were based on false immigration papers.

Last year, the Labor Department sent $1.6 million in emergency funds to Illinois school districts that are educating an estimated 20,000 illegal immigrant children.

The Cook County Hospital admits and pays for the emergency treatment of illegal aliens, but a hospital official said the cost to taxpayers is unknown because treatment records are not yet computerized.

Many of Chicago's undocumented aliens can be found working for minimum wage as busboys, maids and laborers. But area employers are hiring a growing number of them for higher wages as semi-skilled workers in light manufacturing plants.

"They need some breaking in, but they're good workers," said a foreman in a furniture factory that hires illegal aliens. "They're dependable. Some of them have been here for years. The local hires come and go."

"The undocumented workers are taking jobs that have gone wanting,"said Mario Aranda, director of the Latino Institute in Chicago. "We are finding this throughout the country."

They usually work under Spanish-speaking foremen and receive an average wage of $4.50 to $5 an hour, the INS said. The jobs are filled through a network of friends and relatives.

The INS targets those illegal aliens who have higher-paying jobs and may displace native workers, as well as those firms that repeatedly hire large numbers of them.

"We've gone into some companies and arrested their whole work force," said Mr. Perryman of the INS. "We've shut them down."

But most illegal aliens detained by the INS are back on the street within an hour by posting bond and requesting a deportation hearing. Many return to their same jobs.

Heinz Hartkopf, a vice president at IBG International Inc., a Chicago firm that makes greenhouses, acknowledged that immigration agents had raided his factory.

"It was kind of Gestapo-style the way they carried it out," he said. "But all the people they took away have since proven their legal status. To the best of my knowledge, we don't have anyone working illegally here."

Medline Industries Inc., a Chicago manufacturer of hospital supplies, has been raided by the INS five times and 140 of its workers have been detained, according to law enforcement officials. John Mills, the company's president, declined to comment.

Creative Label Inc., a Chicago engraving firm, has been raided five times by immigration agents and 38 of its workers have been apprehended, authorities said.

"[What] matters to me is that the company remains competitive by maintaining a low-wage labor force," said Gary Karil, the firm's spokesman. "I don't really care where they're from as long as they have proper identification and they're over 18.

"I cannot legally find out if they are illegal aliens," he said. "If I do that, I'm discriminating against them and I'm liable for a discrimination suit. I cannot ask certain questions."

RECOGNITION OF J. FLETCHER CREAMER, SR., FOR CIVIC ACTIVITIES

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. TORRICELLI. Mr. Speaker, I rise in honor of J. Fletcher Creamer, Sr., in recognition of his long and meritorious service to Bergen County, NJ, and our country.

As chairman and chief executive officer of J. Fletcher Creamer and in Edgewater, "Fletch," as he is known to his many friends and business associates, is widely respected throughout the State of New Jersey. He is a leader and innovator in the rapidly growing fields of real estate development and construction.

Fletch is a life-time Bergen County resident who now lives in Saddle River with his wife, Katherine. They have four sons, Fletcher, Jr., who is a partner in the family business, Glenn, Dale, and Jeffrey.

He served in the U.S. Navy in two wars, World War II in the Pacific and the Korean conflict.

His civic activities are many and varied. He has been chairman and director of the Commerce and Industry Association of New Jersey for two terms. He was a commissioner of the Hackensack Meadowlands Development Commission and of the New Jersey Sports and Exposition Authority. He has been active in the Bergen County United Fund and the Boy Scouts of America. He was a trustee of the Englewood Hospital Association and is presently on the Board of Governors, Hackensack Medical Center.

Fletch has been active in the Republican Party on a national and statewide level for many years. He served this year as vice-chairman, Friends of Tom Kean for Governor.

Among his many awards are Bergen Scout, the Boy Scouts of America; the Brotherhood Award, National Conference of Christians and Jews; and CYO Big Guy of the Year.

It is with great pleasure that I recognize the accomplishments of this outstanding citizen.

PUERTO RICANS: GROWING PROBLEMS FOR A GROWING POPULATION

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. GARCIA. Mr. Speaker, the National Committee for Full Employment, the National Puerto Rican Forum and nearly 40 other interested organizations have recently published a report on the Puerto Rican community entitled "Puerto Ricans: Growing Problems for a Growing Population." I would like to share some of the major findings and recommendations of this informative report with my colleagues:

PUERTO RICANS: GROWING PROBLEMS FOR A GROWING POPULATION

EXECUTIVE SUMMARY

More than 8 million people were out of work in August, 1986; the unemployment rate decreased slightly from 6.9 percent to 6.8 percent. However, the "Real Rate" of joblessness and underemployment stood at 12.2 percent or 14.6 million Americans, when those who have given up looking for work and those who must work part-time because they cannot find full-time jobs are included.

The official unemployment rate for Hispanics increased to 11.0 percent in August, 1986, from 10.5 percent the previous month. The "Real Rate" for Hispanics stands at 19.2 percent.

The unemployment rate for Puerto Ricans was 13.4 percent during the second quarter of 1986, higher than that for Mexican-Americans or Cuban-Americans.

Puerto Rican youth 16–19 had a lower percentage of their population group holding jobs (either full- or part-time) than any other youth population group—22 percent.

Hispanic men earn 71.2 cent for every dollar earned by white males. Hispanic women earn only 51.4 cent.

The Hispanic poverty rate rose to 29 percent in 1985, approaching more closely the black rate of 31.3 percent. In the Northeast and the West, Hispanic rates—39 percent and 26 percent—exceeded black rates—28 percent and 20 percent.

41.9 percent of Puerto Ricans were poor in 1985; 74.4 percent of Puerto Rican female headed households were poor.

The Hispanic population increased by 61 percent between 1970 and 1980, far surpassing the 9 percent increase for non-Hispanics.

Florida, Massachusetts, and Texas registered Puerto Rican population increases of over 200 percent between 1970 and 1980. Pennsylvania and Connecticut Puerto Ricans increased by over 100 percent.

The national dropout rate for Puerto Ricans and Mexican-Americans is 40 percent. In some cities 80 percent of Puerto Rican youth are dropouts.

The Adult Performance Level Study in 1975 found 56 percent of Hispanics functionally illiterate, and 26 percent only marginally literate.

Although 55 percent of U.S. Puerto Rican youth in 1980 were academically eligible to attend college, only 25 percent enrolled. Only 28 percent of those graduated.

THE NATIONAL PUERTO RICAN FORUM: RECOMMENDATIONS

Since its inception in 1957, the National Puerto Rican Forum has been at the forefront in aggressively pursuing the socio-economic improvement of the Puerto Rican community. While much has changed since its beginning, the mission of the Forum has not. It remains today, as it was then, threefold:

(a) To provide educational and economic opportunities to the Puerto Rican people;

(b) To promote research on, and analysis of, the Puerto Rican and other Hispanics' situation that would instill interest in, and contribute to, public policy for institutional changes and the advancement of the economically disadvantaged; and,

(c) To develop community leadership and create programs that would solve the needs of the community.

As the century enters the final years of what was labeled "the decades of the Hispanics," the Forum is faced with many challenges as it seeks to fulfill its mission.

As a direct service organization, the Forum sees first hand what this report illustrates statistically. Society is undergoing profound economic, social, and political changes that will drastically alter the face of the nation in the next decade.

For Puerto Ricans, and Hispanics generally, these changes are both a blessing and a curse. By the turn of the century, Hispanics are expected to be the largest single minority in the country. Sheer numbers alone will provide Hispanics with increased political and economic buying power which will force policymakers and businesses to develop marketing strategies reflecting the Hispanic experience. Evidence of that occurring can be seen in the manner in which both major political parties are courting the Hispanic vote and the heavy amount of advertising, in English and Spanish, within the Hispanic community.

Now more than ever, economic policy must reflect the current economic realities of the Puerto Rican community. As stated by the National Puerto Rican Coalition:

". . . Because of its relative poverty, the Puerto Rican community is especially sensitive to the health of the American economy and to burdens imposed by taxation. At the same time, the community's poverty necessities greater than average dependence on government sponsored social safety-net and ladder-of-opportunity programs. While government outlays for these programs have already been cut, pending deficit reduction legislation could result in further funding cuts . . ." (20).

For an organization like the Forum, this presents problems in attempting to serve its clientele. With dwindling government resources the Forum's offices in Chicago, Hartford, Cleveland, Miami, New York City, and Washington, D.C., are struggling to keep pace with the volume of demand.

If the nation truly wants to address the concerns of the Puerto Rican community, the National Puerto Rican forum believes that the following recommendations need to be acted upon:

First and foremost, Puerto Ricans and other Hispanics need to be seated at the local, state, and national decision-making tables participating in the formulation of public policy.

There needs to be an increase in funding for training and educational service within the Puerto Rican community to address the unique needs of its people. Stipends must be provided for those who need the training and cannot afford it without support for child care or transportation expenses. Organizations like the Forum are being stretched to the limit, asked to do more with less while the needs increase.

The educational system must become more sensitive to the linguistic and cultural needs of Puerto Rican children. Bilingual services, ESL classes, literacy classes and adult basic occupational skills need to be provided.

The educational system must focus a great deal on the dropout population and, in coordination with the business community and community organizations, provide dropouts with constructive alternatives to crime, drugs, and unemployment.

The Congress must continue to provide funding for the safety net programs that Puerto Ricans are heavily dependent on. Any decrease in funding for these programs should correspond with increases in training and educational opportunity programs.

There must be a greater commitment on the part of the business community to pro-

vide training and employment opportunities for Puerto Ricans. Joint partnerships like the agreements the Forum has with McDonald's, Aetna Life Insurance, Citibank, and the cities of New York and Chicago need to be duplicated by other companies. Employers need to play more of an active role in ensuring that Puerto Ricans receive the type of training that will prepare them for the available employment opportunities. More joint ventures need to be developed with Hispanic businesses as a means of promoting economic development within the community. They should provide management assistance to Puerto Rican businesses and help reduce the barriers Puerto Rican businesses face when seeking venture capital.

Due to the increasing number of people from Puerto Rico the forum is serving, Congress must address the current economic situation of Puerto Rico to alleviate the high rate of unemployment and poverty there.

One fact is very clear: The socio-economic situation of the Puerto Rican community in the United States and in Puerto Rico is at a crucial stage; unless corrective action is taken immediately, another generation of Puerto Rican youth will be left behind, forced to depend on the government to live in dignity.

COMMUNITY DEVELOPMENT CREDIT UNION REVOLVING LOAN FUND TRANSFER ACT

HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Ms. KAPTUR. Mr. Speaker, community development credit unions [CDCU's] have proven to be essential and creative institutions in meeting the banking and financial needs of our neighborhoods and low-income communities. CDCU's offer credit union services to those communities which are often ignored by commercial banks or exploited by loan sharks and high interest financial services. To support the CDCU effort, in 1980 Congress authorized a revolving loan fund for capital expansion of these credit unions. Since then the program has helped 42 new and existing credit unions in low-income communities. CDCU's are one of the most feasible and needed financial institutions in low-income communities.

Their track record is one of success. Community development credit unions are now operating in low-income neighborhoods across this country—in San Francisco, in Chicago, and here in Washington. They give people whose neighborhoods have been redlined and denied credit an alternative. They serve people who cannot afford commercial banking services or who are denied accounts with commercial banks. They give people a source of consumer loans, sometimes even home mortgages, and a place to safely keep their money.

The Community Development Credit Union Revolving Fund Transfer Act will simply transfer these existing funds from HHS to the auspices of the National Credit Union Administration, the financial supervisory agency for credit unions. It is highly qualified and very willing to administer the program. HHS has not released any funds since 1984 because of the questionable future of its administration. Those people which most need banking services are the losers. No new funds are necessary under this bill. By reactivating this program under the NCUA, low-income individuals will once again be provided an access to funds for consumer and community development needs.

THE 25TH ANNIVERSARY OF WESTINGHOUSE FURNITURE SYSTEMS

HON. PAUL B. HENRY

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. HENRY. Mr. Speaker, I rise today to recognize Westinghouse Furniture Systems on the company's 25th anniversary. Acquired in 1961 by the Westinghouse Electric Corp., Westinghouse Furniture Systems, formerly Architectural Systems, Inc., of Grand Rapids, MI, has grown from 25 workers to over 900 employees, establishing itself as one of the top systems furniture marketers worldwide.

During the 1960's the company's original product emphasis was on floor-to-ceiling partitions. After researching the benefits of systems furniture and the tremendous growth potential of the open office market, systems furniture was added to the product line in 1970. The company continued to expand the systems furniture line to take advantage of high technology manufacturing environments.

In September 1984, President Ronald Reagan, accompanied by former President Gerald R. Ford, formally dedicated a newly renovated Westinghouse Furniture Systems' office and manufacturing facility. A portion of the remodeled building includes a showroom for the testing of its systems furniture and office technologies. The design of this "office of the future" is intended to stimulate the firm's customers to envision the office environment of the future, while showcasing Westinghouse products and technology. A unique "people mover" robot shuttles groups around the facility and is currently the only one of its kind in the world.

Russell A. Nagel, president of Westinghouse Furniture Systems, who was selected as Michigan's industrialist of the year in 1985, says of the new facility:

"We have built and equipped our new headquarters facility with keen attention to people, technology, and environment. We believe the Westinghouse workplace is the finest high-technology office facility today. And we pledge to continue our development and production of new systems and techniques to maintain the leading edge."

In addition to the Grand Rapids facility, Westinghouse Furniture Systems has offices and showrooms in 28 domestic and 19 international locations including Europe, Asia, South America, and the Middle and Far East, as well as a manufacturing facility located in Puerto Rico.

Westinghouse Furniture Systems is recognized as a pioneer in new management techniques. White-collar workers are an integral part of the production system and work closely with blue-collar workers to produce a quality product. Customer needs are first priority and an "ombudsman" reports to the president and is responsible for those activities directly influencing the customer's satisfaction with the company's products.

Productivity should not be limited to the work environment and the company's employees are encouraged to become involved in community events and programs. Westinghouse Furniture Systems and its workers regularly contribute time, money, and furniture to local organizations. Each year, the business unit of the company involves itself with at least one major community fund raising event.

Over the years, Westinghouse has taken a leadership role in developing new and innovative technology in systems furniture, and the next 25 years promises to bring exciting new concepts in office systems furniture and related products. Please join with me, Mr. Speaker and colleagues, in offering congratulations and best wishes to Westinghouse Furniture Systems—a company with a vision that makes the future a reality.

RELEASE OF REPORT FROM TASK FORCE ON TOXIC EMERGENCIES

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. VISCLOSKY. Mr. Speaker, as a member of the House Environmental and Energy Study Conference, Task Force on Toxic Emergencies, I join with other colleagues today in announcing the release of a final report on toxic emergencies. This final product is the result of a national study initiated by the congressional task force in 1985.

The project served a very useful purpose and was developed to identify what types of programs existed throughout the country to prepare for toxic emergencies.

Even more so, participating agencies, enforcement agencies, and public officials from northwest Indiana shared their ideas and plans on how to prevent these emergency situations. With the help of these local authorities, I was able to provide the task force with 72 responses with various reports on how municipalities in my congressional district prepare for such calamities. The level of cooperation between local authorities was impressive and I commend each of these parties for their hard work and responsiveness.

I firmly believe that as our society grows and develops new technologies, our local environments will require protection, and most importantly, the inhabitants will need to be protected from potentially hazardous emergencies. The report from the task force further elaborated the reasons why we should have a succinct and wide-reaching environmental policy.

This Congress has worked to protect and improve the environment by enacting measures aimed at public protection. Over the past 18 months, we have worked to create a stronger and enforceable Superfund Program, created stronger laws to protect the Nation's drinking water supply, and improve the Na-

tion's air quality standards. These policies are essential to guarantee the integrity of our Nation's environment so our citizens can work and live in safe communities.

I personally commend the staff of the task force of the Environment and Energy Conference Committee for their work on this project and believe that the results reflect the increasing importance of this issue. The direct results of these preventative programs will not only benefit millions of Americans today, but prepare for future Americans.

COMMUNITY DEVELOPMENT CREDIT UNIONS

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. GARCIA. Mr. Speaker, today I am introducing, with my colleague MARCY KAPTUR, legislation to assist low income communities nationwide to start their own Community Development Credit Unions [CDCU]. What this bill simply does is transfer funds presently administered by the Office of Community Development at HHS to the National Credit Union Administration.

The purpose of this revolving loan fund program was originally to give community groups interested in starting a community development credit union seed money at low interest rates along with technical assistance. However, no loans have been made since 1983, and those that were made carried an interest rate that was not affordable for low income communities.

No new funding is needed for this program. Because money is loaned out as it is repaid, the program is self-supporting. The administration wants to terminate this program, but I and my colleagues that have cosponsored the bill feel strongly that it is a no cost, in place community economic development program that will help low income communities nationwide meet their financial services needs—needs that are not being met by existing financial institutions.

Financial institutions are leaving low income neighborhoods, and often the residents of these neighborhoods are left with no financial services. The CDCU's in existence today have been operating successfully from San Francisco to the Bronx, because they are run by people who care—the people who live and work in those neighborhoods that many financial institutions feel are no longer sufficiently profitable to service.

This legislation will give more of our citizens an opportunity to obtain affordable financial services. It gives low income families the opportunity to save their hard earned money without having to meet outrageous minimum balance requirements, and to obtain loans that other institutions would refuse.

TRIBUTE TO JOHN D. ANDERSON

HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Ms. KAPTUR. Mr. Speaker, earlier this month Ohio lost one of its most respected business and community leaders, John D. Anderson. He was a truly remarkable and generous man. Mr. Anderson was a principal partner in the Andersons, a world-renowned agribusiness headquartered in my district. His death will leave a large void in the Toledo area. He was a man of kindness, leadership, expertise, and common sense.

John D. Anderson held various leadership positions with a multitude of civic and community organizations. He was a man who could not say no to friends and neighbors. He served on the boards of numerous corporations and educational institutions and helped build the family business into a corporation dedicated to its customers, its employees, and the community at large. John was a devoted family man and an active member of St. Joan of Arc Church.

I know my colleagues in the House of Representatives join me in offering our most sincere condolences to his widow, Mary, and the entire Anderson family. It is our hope that all of your loving memories of John will sustain you through these difficult days. He touched the lives of thousands of people and they are all better for knowing him. He will be missed and it is fitting to honor his memory in the CONGRESSIONAL RECORD, the journal of the people of the United States.

PEACE CORPS

HON. GUS YATRON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. YATRON. Mr. Speaker, it is a great pleasure to be able to say a few words today in honor of the 120,000 men and women, including over 5,000 from my home State of Pennsylvania, who have dedicated several years of their lives to fight poverty, illiteracy, and underdevelopment as Peace Corps volunteers.

Twenty-five years after President Kennedy brought this idea to fruition, volunteers have served in more than 90 countries, helping and teaching in fields such as medicine, education, engineering, and agriculture. From Guatemala and Ghana, to Kiribati and Tonga, they have spread good will toward the United States which lasts for generations, and they have brought back to this country a deep understanding and admiration for the nations and cultures where they served.

If it were not for the Peace Corps, many people in these villages would never have the opportunity to meet a real American. Around the world, a large number of individuals form their perceptions of the people of our country by the violent portrayals of Americans by Hollywood actors. But it is estimated that the Peace Corps volunteers have had personal contact with over a million persons throughout the world.

At the 20th anniversary conference of the returned Peace Corps volunteers, Prime Minister Seaga of Jamaica, in June 1981 said, "The Peace Corps * * * is wanted, needed, and loved by so many countries of the world." Mr. Speaker, I think we should give a warm thank you to all those who have sacrificed to help make the world a better place by serving in the Peace Corps.

STATEMENT BY REPRESENTATIVE RICHARD A. GEPHARDT IN RECOGNITION OF THE 25TH ANNIVERSARY OF THE PEACE CORPS

What a milestone for international understanding. And what proof that an idea can accomplish even more than we dared hope. It is hard for me to realize that twenty-five years have passed since President Kennedy offered Americans the opportunity to share the best of our spirit and idealism through this unique people-to-people program. I salute the Peace Corps and the thousands of Americans who have participated since 1961.

As I meet former Volunteers, now working in community action programs in St. Louis, in business and industry, and even here on the floor of the House, I am always impressed with their commitment and energy. And, although we know their contributions in Asia, Africa, and Latin America were tangible and important, almost all of them say they received far more than they gave. If so, they have used their experiences to enrich us all with a greater understanding of other cultures as well as the universality of human dignity.

TOXIC EMERGENCIES

HON. BILL GREEN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. GREEN. Mr. Speaker, I am pleased to join with my colleagues today in announcing the publication of the final report of the Environmental and Energy Study Conference's Task Force on Toxic Emergencies. I believe that this report should be required reading for any individual interested in the issue of hazardous materials emergencies.

Founded in July of last year, the EESC Task Force on Toxic Emergencies conducted surveys in Members' congressional districts and home States. They studied the programs of the many Federal agencies now involved in toxic emergencies, the level of training of personnel actually involved in the cleanup processes, the degree of interaction and cooperation between differing jurisdictions involved in emergency preparedness, and programs now being developed by industrial concerns, environmental organizations, and governmental bodies. Four issues were covered in the surveys: emergency planning, training, equipment, and histories of past incidents involving hazardous materials.

The information received from the survey indicates that different communities vary widely in their preparations for toxic emergencies. It is scary to note, however, that less than half of the firefighters in the communities respond-

ing to the survey have been trained for handling these incidents, and police officers were reported to have far less training than needed. In addition, concerns should be raised concerning equipment purchases and jurisdictional coordination.

Overall, I would urge every Member of Congress to read the report, and to make it available to the public safety personnel in his or her congressional district. I commend those Members of Congress and their staffs who have put together this fine study, and I thank the Environmental and Energy Study Conference for its fine work in the project.

TOXIC EMERGENCIES

HON. BOB LIVINGSTON

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. LIVINGSTON. Mr. Speaker, I was very pleased to be a member of the Environmental and Energy Study Conference's Task Force on Toxic Emergencies, and I would like to take this opportunity to commend Senator GORE and Representative WISE, the cochairman, as well as the other members of the task force, for their fine work on this very special and important project. I would also like to thank the staff of the committee, led by Special Projects Coordinator Jane Beal, for their hard work and assistance.

As you know, in order to study the problem of hazardous materials accidents, each task force member conducted surveys in their respective districts to assess the extent of emergency planning for dealing with toxic accidents. I was very pleased with the response that I received from our local fire and police departments, local officials, and the State agencies responsible for dealing with toxic emergencies. My surveys indicate that a high degree of thought, planning, and coordination has already taken place for dealing with this problem, and I hope that local and State officials in Louisiana will continue their efforts to protect our citizens from toxic dangers.

Now that the task force has issued its report, I urge interested officials around the country to closely examine its contents. Not only is there a wealth of valuable information about what other jurisdictions are doing to combat potential toxic emergencies, but it also provides details about Federal activities in this area. The training and information resources made available by the Federal Emergency Management Agency [FEMA], the Environmental Protection Agency [EPA], and the Department of Transportation should be looked into and taken advantage of by all local and State officials interested improving their emergency preparedness planning.

Once again, I commend the members and staff of the task force for their fine work, and I look forward to working with them on future projects.

TRIBUTE TO JAMES A. McFAUL

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. TORRICELLI. Mr. Speaker, I rise in honor of James A. McFaul in recognition of his long and meritorious service to the Bergen County park system.

James McFaul served as executive director of the Bergen County Park Commission for 26 years. During his tenure in that office, the recreation areas of the park system have increased from 10 to 26.

Facilities added during the past 26 years include a wildlife center, swimming lakes, three golf courses, a ski center, two horseback riding centers, 55 tennis courts, picnic groves, fishing lakes, hiking trails, campsites, bicycle paths, playgrounds, ball fields, a miniature railroad, and historic sites.

Chosen State Conservationist of the Year in 1967 by the New Jersey Federation of Sportmen's Clubs, Mr. McFaul received the federation's highest honor, the Governor's Trophy.

The YMCA of Bergen County in 1970 presented Mr. McFaul with a special award for service to youth.

James McFaul has been a strong advocate of wilderness preservation within the park system and of wildlife education. The zoo at Van Saun County Park is in its third renovation and is adding more natural features. There is also a zoo at the wildlife center. Both have educational programs. The park system has two wooded reservations with hiking trails and camping.

In addition to his long service to the Nation's parks, Jim served his country well during two periods of crisis. He was recalled for military service for 17 months of active duty during the Korean conflict after becoming a tank officer in Europe during World War II.

It is with great pleasure that I recognize the devotion to his community of this outstanding citizen. I wish Jim and his wife, Dorothy, a long and happy retirement.

PERSONAL EXPLANATION

HON. TOM LEWIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. LEWIS of Florida. Mr. Speaker, due to official business, I was unable to record my vote on House Resolution 536, a resolution providing for the consideration of H.R. 2482, the Federal Insecticide, Fungicide, and Rodenticide Act Amendments. Had I been present for rollcall vote 388, I would have voted "aye."

HAPPY 25TH ANNIVERSARY—PEACE CORPS

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. CLINGER. Mr. Speaker, the Peace Corps is celebrating its 25th anniversary this year, and many of those who served as volunteers with the corps over the years are in town to mark the occasion. I know I speak for all my colleagues in the House in welcoming all former and present Peace Corps volunteers to our Nation's Capital and extending to them a heartfelt thanks for the jobs they have done in the name of America while serving in outposts all over the world. Happy birthday, Peace Corps, and best wishes in your next 25 years.

FACING TOXIC EMERGENCIES—A STEP FORWARD

HON. THOMAS R. CARPER

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. CARPER. Mr. Speaker, I am delighted to participate today in the release of the report of the Environmental and Energy Study Conference Task Force on Toxic Emergencies. As a member of the 14-member task force, I was privileged to take part in this investigation of our disaster response capabilities.

The report summarizes the results of comprehensive surveys conducted by task force members in their districts and States. Aimed at local officials, fire and police departments, State agencies, and industry, the surveys evaluated emergency planning and preparedness for possible hazardous materials incidents.

The need for a review of this sort cannot be overstated—thousands of people are killed, injured, and evacuated each year, from Bhopal, India, to Mounds View, MN, as warehouses explode, trucks overturn, trains derail, and pipelines burst. As the home of many chemical industries, my State of Delaware is particularly vulnerable to accidents involving hazardous chemicals.

The task force report provides a dual benefit. On the one hand, it illuminates shortcomings in our ability to respond to toxic emergencies. On the other hand, it documents successful programs that have helped some localities and States meet the challenge of toxic emergencies. Naturally, those plusses and minuses vary in degree and detail from region to region and State by State. There are some general conclusions, however, that deserve attention at the National, State, and local levels. For example, first responders—notably firemen—need better training and equipment. To counter that problem, the State of Delaware provides, through the Delaware Fire School, elaborate and extensive training programs including several courses focusing on hazardous materials incidents. Delaware has

also established State Emergency Response Team (SERT) with equipment and expertise for handling hazardous situations that may be lacking at the local level.

Delaware, blessed by its manageable size, knowledgeable and active citizens, and responsible industry, has made great strides in addressing some of the pressing problems which still plague other areas of the country. I hope that these effective programs, coupled with positive actions taken elsewhere, will provide an inspiration and blueprint to help other States and localities improve their own toxic emergency response capabilities.

The key to solving our remaining toxic emergency challenges is cooperation between industry and those who have the responsibility to protect us from chemical disasters. This report of the Task Force on Toxic Emergencies represents a significant effort to identify problems and solutions that could set the stage for a coordinated Government/industry push for improved emergency preparedness.

STEAMTOWN U.S.A.

HON. JOSEPH M. McDADE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. McDADE. Mr. Speaker, I am pleased to introduce bipartisan legislation today, along with 25 of my colleagues, to make Steamtown U.S.A. an official component of the National Park System.

Steamtown U.S.A., located in Scranton, PA, is a unique museum and "living exhibit" to America's steam age. Steamtown contains one of the world's largest collections of steam and railroad memorabilia. The collection includes approximately 40 steam locomotives and 100 assorted pieces of other railroad rolling stock. A planned museum complex to display this memorial to the age of steam centers around a historic roundhouse, locomotive and erecting shops, and rail yards.

The "living exhibit" excursions provide visitors with an exhilarating 13-mile train ride, powered by a steam-propelled locomotive, through spectacular countryside between Scranton and Moscow, PA. A planned expansion will take the trip up to the scenic Pocono region and to the Delaware Water Gap.

The legislation I am introducing today would allow the Park Service to develop and run this steam age museum while the nonprofit Steamtown Foundation operates the trains and works on locomotive restoration.

Even in its early stages, Steamtown has shown its popular appeal by attracting over 215,000 visitors from throughout the Nation. The State of Pennsylvania recognizes the importance of Steamtown, and is providing $1 million over the next 2 years. Private contributions are also financing Steamtown, but the backing of the Federal Government through legislation I have introduced is essential to insure its continued success and expansion.

Earlier this week, I gave National Park Service Director William Penn Mott, Jr., a tour of Steamtown and joined him on a ride aboard one of Steamtown's historic locomotives. Mott shares my enthusiasm for Steamtown, calling it a "national treasure" and "an ideal location for telling the story of railroading in the United States."

I urge my colleagues to lend their support to this legislation which is designed to preserve an important part of our Nation's history for the education and enjoyment of future generations.

WELCOME PRIME MINISTER PERES

HON. RICHARD STALLINGS

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. STALLINGS. Mr. Speaker, the White House visit by Prime Minister Shimon Peres of Israel follows his successful summit meetings with President Hosni Mubarak of Egypt last week and with King Hassan II of Morocco in July. These historic meetings, coupled with the Israeli-Egyptian agreement to arbitrate their longstanding border dispute, are welcome news indeed. Further, they reflect positively on the leadership of Prime Minister Peres, who referred to both nations as being "very rich in deserts and in hope" and having "to overcome the deserts and to respond to the hopes of our two peoples."

The Prime Minister's desert analogy recalled for me my visit to Israel last year where I had the distinct pleasure of meeting him. What impressed me most, aside from the enthusiasm of the Israelis, was their success in making the deserts bloom with abundance, not unlike my own district in Idaho. The visit also furthered my understanding of Israeli hopes for a just peace with secure borders, and reinforced my support for our one democratic ally in the region. Finally, my visit renewed my belief in the wisdom of Camp David.

The Camp David accords must surely be one of the most remarkable achievements of modern diplomatic history. After 30 years of conflict and untold billions expended in fruitless warfare, the leaders of Israel and Egypt agreed at last that the time had come to say: Enough. Enough violence and destruction. Enough hate and killing. Enough madness and terrorism. In the eloquent words of Elie Wiesel, writing in the September 11 New York Times about the recent terrorist attack on a synagog, "This much we must have learned from history: When Jews are attacked, the entire human community ought to feel unsafe." This is also the message of Camp David which requires our renewed commitment.

Camp David promised the hope of peace in the Middle East. The current visit by Prime Minister Peres is a welcome sign pointing toward the return to the Camp David strategy of seeking constructive solutions to seemingly intractable problems. The path is clear. We need the courage and vision to follow it.

PEACE CORPS ANNIVERSARY

HON. JIM MOODY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. MOODY. Mr. Speaker, I would like to take a moment today to commemorate the 25th anniversary of the Peace Corps and to extend my warmest thanks and respect to all those volunteers who have given of themselves for the benefit of others. These people represent the greatest elements of the American spirit: Courage, determination, and the heartfelt desire to help those in need. They have my sincere admiration.

From Sri Lanka to Swaziland, Tanzania to Thailand, these volunteers have shared their lives and skills. In Niger, the Peace Corps taught villagers how to build windbreaks and plant trees to create productive rangeland along a sand dune. In Zaire, volunteers initiated a project to provide clean water to a local village, and later saw local health personnel expand the project to 25 villages. In Morocco, 50 Peace Corps volunteers reforested a devastated area.

While these projects may seem small in the grand scheme of things, each one has had a concrete positive impact on the community where it was developed. These projects establish the kind of person-to-person good will that massive government-to-government aid frequently does not. Each has been the product of a committed volunteer who was willing to leave his or her family, friends, and home for 2 long years in an effort to make a difference.

We can only hope that one day everyone will be willing to devote so much of their lives in a far-off place, for an unknown return, in the hopes of enriching the lives of the disadvantaged. Only then will we have realized our true potential.

REGINA HIGH SCHOOL CELEBRATES 30TH ANNIVERSARY

HON. DENNIS M. HERTEL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. HERTEL of Michigan. Mr. Speaker, this month marks a very special event for Regina High School in Harper Woods, MI. Members of the Regina community will celebrate 30 years of dedication to quality, Catholic education for young women.

Regina High School, a Catholic, private, 4-year comprehensive high school for girls, is a dream realized by the late Cardinal Mooney and is dedicated to the Virgin Mary. Regina is owned and operated by the Sisters of St. Joseph, Third Order of St. Francis of Garfield Heights, OH.

With a student body of 1,040, Regina represents more than 80 parishes and over 90 different grade schools (public and private).

A thirst for learining and an eye toward higher education, nearly one-third of the school's very first graduating class in 1960

continued their education beyond high school. Today, 93 percent of the 217 graduates in the class of 1986 plan to continue their education by entering college or other post-secondary schools.

Regina is fully accredited by the University of Michigan, North Central Association for Secondary Schools and Colleges, and is a member of the National Catholic Education Association. Currently, the schools offers over 150 classes. In comparison, in 1956, no more than 10 courses taught by eight sisters were offered to ninth graders.

During the past 30 years, Regina has expanded with a gymnasium, chapel, auditorium, and, most recently, a complete computer lab, new offices, and two new classrooms. In addition, uniforms have been modified, and many traditions have developed, but the basic goal of providing a well-rounded education in the Catholic tradition remains at the heart of Regina's philosophy.

The spirit of Regina High School, undoubtedly, has touched the lives of many. Today, it reaches to the U.S. Congress and, in return, on behalf of the Members of the U.S. House of Representatives, I congratulate the students, faculty, Sisters of St. Joseph, administration, parents and family members, and the entire Regina community on this historic occasion.

VFW POST 4164 HONORED

HON. BOB TRAXLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. TRAXLER. Mr. Speaker, I would like to bring to the attention of the Members of the House the extraordinary record of achievements of the Veterans of Foreign Wars Post 4164, Caro, MI, and its outstanding Commander Merkel Fader. Under Commander Fader's able leadership, Post 4164 has just been named "All State Post" at this July's State VFW Convention.

Post 4164 has been extremely active in community affairs for the past 40 years and has been an integral and most highly valued element of Caro's civic pride. This year's designation as "All State Post," in fact, is the second time that Post 4164 has been so honored.

During the tenure of Commander Merkel Fader, Post 4164 has consistently met and exceeded its annual Post membership recruitment goals. This has enabled the Post to play such a significant role in Caro and Tuscola County with its many programs to promote the spirit of Americanism, through hospital service for veterans, community services with the public schools, working to improve traffic safety and education, to name but a few.

Mr. Speaker, I know that all the Members of the House will want to join with me in commending Commander Merkel Fader and the entire membership of Caro VFW Post 4164 for their richly deserved designation as "1985–1986 All State Post." May their good works and dedication to the community continue to serve as an example for all other veteran and civic organizations to emulate.

AN OUNCE OF PREVENTION

HON. LYNN MARTIN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mrs. MARTIN of Illinois. Mr. Speaker, an ounce of prevention, it is said, is worth a pound of cure. The Congressional Task Force on Toxic Emergencies has just completed an effort in prevention that will go a long way toward curing a problem all of us would like to see addressed—our ability to respond to toxic materials accidents and emergencies.

In July of last year the task force began to study the degree of emergency planning for hazardous materials incidents on both the State and local levels. The effort was broad based and extensive. Representatives of local governments, industry, and police and fire departments were surveyed about our existing capability and plans regarding toxic substances accidents. About 800 responses were received. Those responses reflect the State of readiness in a wide variety of areas that face different levels of risk including urban areas, agricultural centers, residential districts and major transportation routes.

The findings of this study indicate that our level of preparedness varies greatly, even within the same State. Some areas seem better prepared than others. I am proud to note that Illinois is credited with having addressed the task of regulating transportation of hazardous materials with an extensive program of enforcement with stiff fines for violators. The point of the study is not, however, to heap either blame or criticism—it is to assess our current plans and abilities to deal with toxic substance emergencies.

We might consider these incidents to be rare and sporadic. The terrible consequences of such accidents, however, require us to make sure that every community will be able to react appropriately if they are unlucky enough to face this dangerous situation.

The stakes are high. Ask Anaheim, CA, which had to evacuate 7,000 residents when fire struck a local pesticide warehouse. Miamisburg, OH, now knows of the importance of preparedness. A tank car derailed near there and forced the evacuation of 25,000 and the hospitalization of 400.

Just as we insure against events that we hope will never happen, we must assess our ability to deal effectively with a hazardous materials accident. The task force, on which I served with 13 other Members of Congress from both parties, has given us such an assessment. We must now take care to protect our citizens against these emergencies.

SALUTING THE PEACE CORPS AT 25

HON. BEN GARRIDO BLAZ

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. BLAZ. Mr. Speaker, as a former Marine Corps officer, I am used to writing commendations and pinning medals on people. I have talked of honor and courage and selflessness in making these awards. These are the qualities we revere, for in the military it is our job to protect the Nation and preserve the peace.

Now as a representative of the people of the territory of Guam and a leader concerned with the development of the Pacific, I can see that there have been many unsung heroes, peaceful warriors, in the work of preserving the peace.

The 120,000 Peace Corps volunteers who have served our Nation around the world have made a vital contribution to maintaining the peace. Through the relationships they build, the social and economic contributions they make and the understanding they bring to the Third World and our Nation, they are building and strengthening the peace and stability we all seek in the world.

For in addition to protecting the peace of the world, our Nation has a clear responsibility to foster development, to create positive change, to encourage progressive development—to help build the future. This is especially true in the Pacific—in Micronesia, Polynesia, and Melanesia, where volunteers have worked tirelessly to help island people make the difficult transition from colonies to nationhood.

The Peace Corps volunteers, who celebrate the 25th anniversary of the corps this week, have been willing to go out into foreign lands, at great personal sacrifice, and learn foreign languages and cultures so they can more effectively work with the people of the world to build that better future.

So while I have no medals to give to the returned Peace Corps volunteers this weekend and there may never be a monument to the PCV, I want to join with my colleagues in the Congress in offering my sincere congratulations to the corps on this auspicious anniversary and my warmest thanks to the volunteers who made the dream a reality.

Above all else the Peace Corps experience is an intensely personal one—a one-on-one relationship between the brave, dedicated volunteer and the host country.

So I commend each and every volunteer. And I salute you for a job well done over the years. The Peace Corps is a tribute to the American spirit of good will and generosity. The Peace Corps volunteer is an embodiment of those virtues in active service to the Nation and the world.

THE REOPENING AND NEW LIFE OF THE HISTORIC FORT STEUBEN HOTEL

HON. DOUGLAS APPLEGATE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. APPLEGATE. Mr. Speaker, a new life has been given to the historic Fort Steuben Hotel, in Steubenville, OH. The new Fort Steuben officially reopens its doors on Friday, September 26, 1986, as an apartment complex for elderly and handicapped tenants in the community.

Built in 1919, the Fort Steuben Hotel was the resting stop for thousands of visitors in a

region of booming industrial and economic growth. The hotel closed its doors in February 1984 due to the necessity of extensive reparations. The restoration of this historic landmark assures its continued use and place in Steubenville history. The once famous ballroom, which was the location of wedding receptions, banquets, and dances, has been renovated into an elegant community room for the Fort Steuben tenants.

I am very pleased with the role of Federal funding for this project through the Housing and Urban Development Section 202 Program. The strong inititative and planning by the Diocese of Steubenville and Marian Manor, Inc., have been the impetus which has made possible this tremendous achievement. The joint effort included funding support from Federal, city, and private sources, totalling $4.1 million.

Mr. Speaker, I am pleased to recognize the reopening of the Fort Steuben as a community housing project and I know it will continue to serve as a historic landmark for the well-being of the surrounding area for several generations to come.

TASK FORCE ON TOXIC EMERGENCIES

HON. H. JAMES SAXTON

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. SAXTON. Mr. Speaker, I am pleased to announce that the Task Force on Toxic Emergencies has completed and is today releasing its final report on hazardous materials incidents and the preparedness of our communities and States to deal with these accidents.

This report is the result of almost a year of work by the task force which included conducting surveys in Members' home districts. These surveys were distributed among four major groups: Fire and police departments, local officials, State agencies, and industry groups. The questions sought information on the levels of awareness and training among first responders, the coordination between State and Federal authorities and laws and the presence of any specialized programs or training for dealing with toxic emergencies.

We can all recognize the need for a coordinated response to toxic emergencies. Without a joint effort by agencies and officials trained and prepared to handle toxic emergencies, a relatively simple spill or leak can become a toxic nightmare threatening the health and welfare of area residents and the environment.

The report released today by the task force is an important first step in gauging the existing capabilities and highlighting the areas of need as well as those of example. I was pleased to participate in this report and survey and am confident it will serve as an important tool in assisting others prepare for toxic emergencies.

DOWLING COLLEGE RECEIVES FAA GRANT

HON. THOMAS J. DOWNEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. DOWNEY of New York. Mr. Speaker, it is with great pride that I rise to pay tribute to Dowling College, located in Oakdale, NY. Today, Dowling College received an award for its outstanding program in airway science from the Federal Aviation Administration (FAA).

Dowling is a small school, but it plays a big role on Long Island. For instance, Long Island's own commercial airport, MacArthur Airport, has experienced significant growth in traffic in the past few years. However, the resulting increase in noise has been a problem for the residential neighborhoods around the airport. Nobody wants to stop the benefits of growth but nobody wants to sacrifice their quality of life either. Nor should they. Dowling's airway science program can help find the solutions we need to problems like this.

The FAA has awarded Dowling $223,300 to refurbish and expand its airway science laboratory and acquire computer equipment. Dowling has earned this award and I am confident that not just Long Island, but the Nation, at large will benefit from the research that is done as a result of the grant. To Dowling I say, keep up the good work.

HONORING RABBI MORRIS FELDMAN OF QUEENS COUNTY, NY

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. ACKERMAN. Mr. Speaker, I rise today in honor of Rabbi Morris Feldman, the spiritual leader of Anshe Shalom in Kew Gardens, New York, and a source of strength for the entire Queens County community on the joyous occasion of his 70th birthday, which will be celebrated on Saturday, September 20.

Rabbi Feldman has been an active leader in over four decades of community service. Time does not permit a full listing of his accomplishments over the course of his distinguished career, but I will try to summarize his achievements. Rabbi Feldman established the first Hillel in Pittsburgh, PA, serving the four universities of that city, so that Jewish students would have the opportunity to take advantage of their rich cultural, historical, religious, and social heritage. He developed a thought-provoking television program, Moral Issues of Our Times, which captured the prestigious Peabody Award. He is active within the Rabbinic Assembly, and serves on the law committee of that important religious body.

Throughout his career, Rabbi Feldman has been involved in interfaith organizations, furthering his belief in strong ties between people of all religions. In Queens, he has been especially active in the community home for the developmently disabled, and he conducts a model seder every Passover at the home.

Mr. Speaker, Rabbi Feldman's wife, Gertrude, is also active in the New York community as the supervisor of special projects in the Jewish Community Service of Long Island. They have two daughters, Beth and Tamar. During his birthday celebration this weekend, Rabbi Feldman will also be honored as Man of the Year at Anshe Shalom, for all the dedication he has shown for that congregation, as well the wider New York community.

Mr. Speaker, people like Rabbi Feldman are much too rare in this world. The love, the care, and the commitment he gives every day have affected the lives of countless people. I call now for all of my colleagues in the United States House of Representatives to join me in wishing a hearty Mazel Tov to Rabbi Morris Feldman, and in sending him only our very best wishes for the years to come.

IN HONOR OF JUDGE JOHN M. PARKS

HON. DENNIS E. ECKART

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. ECKART of Ohio. Mr. Speaker, I rise today to pay tribute to a truly outstanding individual, Judge John M. Parks, a resident of my congressional district in Ohio. Throughout the Honorable John M. Parks' 22-year-career, he has earned the respect and admiration of his peers, receiving three outstanding and three superior awards from the Ohio Supreme Court. He has been characterized as having the unique ability to bring both wit and wisdom to the difficult task of deciding the multitude of disputes that confront a judge.

Prior to his law career, Judge Parks served as special agent in the FBI investigating countersubversive activities from 1942 to 1945, earning a special commendation from FBI Director J. Edgar Hoover.

My community will surely miss a judge of his caliber and experience. It is my pleasure and a personal honor for me to pay tribute to the Honorable Judge John M. Parks on the occasion of his retirement.

FOUR MEMBERS ARE HONORED BY ASSOCIATION OF CERTIFIED PROFESSIONAL SECRETARIES

HON. JOHN McCAIN

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. McCAIN. Mr. Speaker, it is my privilege to call to the attention of my colleagues Karen G. Crawford of Phoenix, AZ, who, as president, recently addressed the Association of Certified Professional Secretaries to honor four members for their outstanding performance on the certified professional secretaries's examination.

The certified professional secretaries' examination is developed and administered twice

annually by the Institute for Certifying Secretaries, a department of professional secretaries international [PSI]. Members of the institute are from education, management, and the secretarial profession.

Six areas of business practices are tested on the CPS examination: behavioral science in business, business law, economics, management, accounting, office administration and communication, and office technology.

Karen Crawford was educated at Utah State University and Arizona State University. She earned her CPS rating in 1970 and is a former member of the CPS Institute. She was served on the PSI seminar team for the research and educational foundation, the PSI international public and world affairs committee, and the international education and program committee. She is the past president of two Arizona chapters: Valley of the Sun in Phoenix and the Scottsdale, AZ, chapter.

Karen was a charter member and served two terms as president of the CPS Society of Arizona. She is currently the charter president of the Association of Certified Professional Secretaries—worldwide organization formed in October 1985 for those persons who have earned the CPS rating.

Presently, Karen G. Crawford is secretary/treasurer of R.M. Hobson, Inc., a Government-bond dealer in Phoenix. She is one of three owners of the company and a member of the board of directors. She is the principal of Karen Crawford Associates, a seminar firm specializing in presentations for secretaries.

I salute Karen Crawford not only for her involvement in the Arizona business community, but also for her ongoing efforts on behalf of the Association of Certified Professional Secretaries.

THE CATASTROPHE OF UNINSURED AND UNDERINSURED AMERICANS: IN SEARCH OF A U.S. HEALTH PLAN

HON. EDWARD R. ROYBAL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. ROYBAL. Mr. Speaker, most Americans would agree that the United States has among the best—if not the best—health care in the world. That is, the best health care for those who are fortunate enough to have access to it. Tragically, many Americans do not have adequate access to quality health care.

On September 12, the House Select Committee on Aging held a hearing focused on two critical access deficiencies. First is the large and growing number of Americans without any health insurance coverage. Recent studies indicate that over 31 million people are uninsured. Without the protection of insurance coverage, hospitals and other health care providers are growing more and more reluctant to provide needed care.

The second great deficiency is one of underinsurance, inadequate coverage for primary, acute, and long-term care. Young families are more and more likely to be working for employers who provide only minimal coverage. Over 200 million Americans are without long-term care protection—be it public or private—and are at major risk of financial disaster when hit by a catastrophic, chronic illness.

I am deeply saddened by the personal tragedies I have witnessed due to a lack of access to needed health care. It is unacceptable that the personal catastrophe of an illness can be accompanied by a second catastrophe—a financial disaster striking young and old alike.

Clearly, a broad-based problem exists and only a broad-based solution will provide the full health protection which Americans so desperately require. Fortunately, there is no shortage of options for dealing with this tragic problem.

In choosing among the many available options or in packaging a more comprehensive solution, certain criteria should be applied:

Are the uninsured fully insured?

Are the underinsured insured for basic health costs?

Are the underinsured insured for catastrophic acute care costs?

Are the underinsured insured for catastrophic long-term care costs?

Is the quality of health care assured?

Are costs affordable for individuals, government and employers?

By applying these criteria to all proposals, the American people and policymakers can judge the adequacy and merits of each one.

As we consider different options, it is important to keep in mind that all funding comes from the same source, the American people. How much Americans pay depends heavily on their health status and insurance coverage and, unfortunately, much less on their ability to pay. The challenge is to create an insurance system which ensures equal access even for those Americans with limited ability to pay for needed health care.

For that reason, I introduced my U.S. Health Act of 1986 (H.R. 5070), a comprehensive, national health plan to guarantee that all Americans have access to the full spectrum of necessary health care. Not only would U.S. Health dismantle existing barriers to health care, but it would slow the current health care cost spiral and improve health care quality as well.

Uncertainty may exist about the extent of public support for active Government leadership. However, the public, fostered by the growing personal experience with inadequate health care coverage, is making increasing demands that Government address this crisis.

The Federal Government, in conjunction with States and the private sector, has the responsibility and must make the commitment to act as the steward of the Nation's health care delivery system and the protector of the Nation's health.

As has been demonstrated by the Medicare Program, Government can take an active role in ensuring access to millions of Americans while working closely with the private sector. Outside of the United States, Canada has also demonstrated that Government can take the leadership role in assuring health care accessibility and affordability. So too the American Government can take the lead in and should shoulder the responsibility for ensuring equity of access for all Americans. Equal access is far too important a matter to be left to chance, to whim or to market forces.

Given the forces of change and the current inequities of access, now is the time to make the commitment to protect the uninsured and underinsured. The risk to the uninsured and underinsured is great and grows every day. High and rapidly rising health costs are hitting Americans of all ages. If costs are not controlled, health costs for everyone—individuals, employers, Government—will outdistance our ability to pay for needed health care. We no longer can afford not to act.

However, public and private sector policymakers will not solve the problem unless and until Americans of all ages demand that it be done. When public policymakers believe that elections will be won or lost on this issue, then and only then will this catastrophic problem of over 31 million uninsured and over 200 million underinsured Americans be solved.

Mr. Speaker, the Select Committee on Aging chairman's report, "America's Uninsured and Underinsured: A Nation at Risk of Inadequate Health Care and Catastrophic Costs," follows:

AMERICA'S UNINSURED AND UNDERINSURED: A NATION AT RISK OF INADEQUATE HEALTH CARE AND CATASTROPHIC COSTS

Health insurance coverage for 235 million Americans of all ages is a deep and immediate concern to Congress because it is an essential element if people are to access needed care and reduce the personal burden of catastrophic health costs.[1] Recent studies continue to document serious gaps in insurance coverage. Over 31 million persons—more than 13 percent of the U.S. population—are uninsured, highlighting the need for some type of remedial action. Of equal concern are the many millions of Americans who are underinsured—those whose insurance is inadequate. The underinsured are also not ensured access to needed health care, be it primary, acute or long term care, nor are they protected from catastrophic health costs. When faced with a catastrophic acute or long term illness, over 200 million Americans are potentially underinsured.

THE UNINSURED

Any effort to estimate the number of uninsured people is difficult due to the lack of a satisfactory data gathering system. As a result, the following current estimates of the uninsured are low since they miss significant numbers of uninsured.

The U.S. Census Bureau's Survey of Income and Program Participation (SIPP) taken during the third quarter of 1985 revealed that approximately 13.5 percent of Americans, representing 31.8 million persons, are without health insurance—public or private. The uninsured are, by and large, people under age 65, as the Medicare program provides coverage for the elderly. About 150,000 people over age 65 are uninsured. The 16 to 24 age group contains the largest proportion of uninsured with over 22 percent lacking insurance. Sixteen percent of those under the age of 16 are without insurance.

The SIPP survey shows that of those under 65 years of age, about 15.2 percent

[1] Access is defined as the ability to pay for services, the availability of services, and the absence of other barriers. This report focuses on the ability to pay issue.

are uninsured. To give some historical perspective to this statistic, 12.5 percent of people under age 65 were uninsured in 1977. (National Medical Care Expenditure Survey (NMCES), 1977) This proportion rose to a high of 17.1 percent in 1983. (SIPP, 1983)

The employment factor

Approximately 75 percent of the uninsured are employed adults or their dependents. The employed uninsured tend to be young and relatively less educated. Workers in occupations that are seasonal or transitory in nature and those in occupations requiring relatively less technical skill are also more likely to be uninsured. (National Center for Health Services Research, 1985)

The poverty factor

Although the uninsured are distributed across income levels, a disproportionately large share are economically disadvantaged. According to the 1982 Current Population Survey, 35 percent of the uninsured have a family income below the federal poverty threshold of $9,000 for a family of four; 64 percent (nearly two-thirds) of the uninsured have a family income below 200 percent of the federal poverty standard.

The geographic factor

The likelihood of being without health insurance appears, to some extent, to be a function of geographic region of residence. Two-tenths of the residents of the West South Central states are uninsured, whereas, only one in ten residents of New England are uninsured. Some of this variation is directly related to the varying adequacy of state eligibility criteria of Medicaid programs. (Congressional Research Service, 1986)

The Medicaid factor

Medicaid deserves much credit for improving the poor's access to health care. However, many poor persons are not eligible for Medicaid coverage. Poor people may not qualify for Medicaid either because they don't meet the categorical requirements (i.e. they aren't aged, blind, disabled, or eligible for Aid to Families with Dependent Children) or because they don't meet the state-determined resource and income requirements. This latter problem is exemplied by the fact that the cut-off income level for Medicaid eligibility dipped below 55 percent of the federal poverty threshold in 23 states in 1984. (Marion Lewin and Lawrence Lewin, Business and Health, September 1984)

According to a 1982 study, only 37.5 percent of those—both aged and nonaged—with incomes below the federal poverty standard are actually eligible for Medicaid. Another 13.2 percent of those with incomes below the federal cut-off level are covered by employer-provided health insurance, leaving 49.3 percent of the federally-certified poor without any form of public or private health insurance. (Thomas Joe, Judith Meltzer, and Peter Yu, Health Affairs, Spring 1985) These are the people who fall through Medicaid's cracks.

The uninsurable factor

Included in the group of persons who are uninsured are persons who are not covered by a group health plan and cannot purchase private health insurance because of preexisting medical conditions. This group also includes many insured Americans who have very restricted coverage due to one or more serious health problems. President Reagan's Health Policy Advisory Group estimates that "perhaps one million Americans are uninsurable * * * totally or for specific conditions."

THE UNDERINSURED

The many millions of Americans who have inadequate health insurance—the underinsured—are also a major public policy concern. Estimates of the underinsured are determined by examining the extent to which payments of out-of-pocket health costs affect a family's financial well-being. Even for those with some type of health care coverage, the associated out-of-pocket costs, as a result of premiums, deductibles, and copayments as well as payment for noncovered services, can reach catastrophic levels or preclude persons from seeking needed care.

A recent National Center for Health Services Research (NCHSR) study suggests that "two distinct types of families have out-of-pocket expenses that are relatively high in relation to income: (1) families which, due to high-cost illness, incur *total* health care bills so large that in spite of relatively good insurance coverage, the uncovered portion paid out-of-pocket amounts to a considerable sum; these are the intended beneficiaries of most traditional stop-loss catastrophic health insurance proposals; and (2) families for whom relatively small out-of-pocket expenses represent a high percentage of their income due to a combination of low income and inadequate health care coverage."

Depending on the way "underinsured" is defined, estimates of the proportion of the privately insured under age 65 who are inadequately insured range from 8 percent to 26 percent. In general, about 13 percent are thought to be underinsured. However, the percentage who are underinsured for catastrophic acute or long term illnesses is much higher—more than 85 percent of all Americans. According to the NCHSR report, between one-third and two-thirds of all non-group enrollees are underinsured. Group enrollees, who represent 90 percent of persons with private insurance, are still a substantial majority of the underinsured.

The catastrophic cost factor

On the problem of catastrophic health costs, the NCHSR study shows that the families with a high ratio of out-of-pocket expenses to income were found to be headed by someone under 18 or over 65 years of age, not employed, and with lower income. The proportion who are underinsured is highest when it comes to catastrophic protection—insurance against the small possibility of large uninsured expenses from a costly ilness. More than 200 million Americans—over 85 percent of Americans—lack adequate protection against catastrophic acute or long term care costs.

The high and rising cost factor

Already individuals and employers are having difficulty paying the high cost of adequate health insurance. Even for people who might be able to afford adequate insurance and most other out-of-pocket health care costs, the future presents the problem of rapidly rising out-of-pocket costs. Elderly out-of-pocket costs are projected to rise about twice as fast as their income. Even working Americans are unlikely to keep pace. Per capita health care costs are projected to grow at an 8.0 percent annual rate between 1985 and 1990 while the costs of other goods (Consumer Price Index) are projected to grow at a much slower annual rate of 4.8 percent. (Health Care Financing Review, Spring 1986)

The noncovered acute care factor

Americans over the age of 65 are in a somewhat different position than Americans under the age 65 primarily due to the availability of Medicare coverage for basic medical care. However, most elderly are still at risk, jsut as are the non-elderly. Medicare and most private insurance exclude payments for preventive examinations, eyeglasses, prescriptions, prosthetic devices, and foot care. Furthermore, both Medicare and most private insurance provide only the most minimal protection against catastrophic health care costs—the most significant of which is the enormous, unpredictable, and growing cost of long term care.

One indicator of the inadequacy of Medicare coverage is the fact that about two-thirds of the elderly have chosen to purchase supplemental insurance policies. However, the supplemental insurance policies are both expensive and generally only help pay for deductibles and coinsurance for Medicare covered services. As a result, the elderly remain unprotected from the costs of dental care, prescription drugs, and long term care. Further, neither Medicare nor the private supplemental policies provide protection for expenses resulting from longer term, acute illness.

The noncovered long term care factor

When it comes to long term care, over 85 percent of Americans are underinsured. Home care remains a relatively uncovered service for most Americans. Nursing home coverage provided by Blue Cross and Blue Shield, commercial insurance plans and Medicare is limited. Currently, only 16-25 private insurance companies offer long-term care insurance which is substantially more comprehensive than standard Medigap policies and which go beyond restrictive Medicare definitions for nursing care.

At a cost of $20,000 to $50,000 a year, nursing home care would be financially devastating to most people. According to a study conducted by Harvard and Massachusetts Blue Cross and Blue Shield for the Committee on Aging, nearly two out of three elderly persons alone will impoverish themselves after 13 weeks in a nursing home.

The age 55 to 65 factor

Inadequate private insurance is a problem particularly among those between the ages of 55 and 65. While this age group is more likely to be insured throughout the year than the rest of Americans, they face the likelihood of high medical expenditures at an age of reduced employment, reduced income and lower rates of group insurance enrollment. (NCHSR, 1985)

The uninsured and underinsured at risk

The risks and problems facing many millions of uninsured and underinsured Americans are great and growing.

The risk of inadequate access

According to a 1982 Robert Wood Johnson Foundation survey on access, one million families have at least one member who was refused care because of inadequate funds. Similarly, 5.1 percent of insured families found it difficult to obtain health care in the twelve months prior to the survey. The survey also indicated that 4.8 percent of insured families needed health care in the twelve months prior to the survey but did not obtain it. A Louis Harris survey indicated that over 8 percent of American families in 1983 did not obtain needed medical care for financial reasons.

The National Medical Care Expenditure Survey determined that utilization patters suggest that the uninsured may not have the access they need to medical care. The

insured under age 65 receive 54 percent more physician ambulatory care than the uninsured. Further, the insured under age 65 receive almost twice as much hospital care as the uninsured.

Not only do the uninsured receive less care, but they perceive themselves to be in poorer health than the insured. The Robert Wood Johnson Foundation's 1982 study shows that 20.4 percent of the uninsured believe themselves to be in fair or poor health compared to only 13.4 percent of the insured. Poorer health status of the uninsured indicates that more health care is needed for the uninsured, not less.

The risk of catastrophic health costs

Catastrophic costs refer to large, unaffordable, out-of-pocket health case expenditures that can result from illnesses requiring either acute or long term care. In determining whether or not a person's medical expenses are catastrophic, either a person's medical expenditures can be measured against a specific dollar threshold amount or measured relative to an individual's income.

A recent National Center for Health Services Research study documented the number of families with high out-of-pocket health care expenditures relative to income in 1977. Of all families, 19.9 percent incur out-of-pocket costs for personal health services exceeding 5 percent of income; 9.6 percent have health care costs in excess of 10 percent of income; and 4.3 percent have health costs in excess of 20 percent of income.

Another indicator of the inadequacy of coverage is the fact that elderly Americans will be spending just over 16 percent of their income on health care in 1986, averaging $1,850 per person. Older persons now pay a larger portion of their income for health care than they did when Medicare and Medicaid began 20 years ago. (House Selection Committee on Aging, 1986)

Since the previous figures are based solely on out-of-pocket expenses actually paid, they likely underestimate the problem. These figures fail to incorporate costs for those services that were needed but were not sought by or provided to the uninsured and underinsured.

The growing risk for the uninsured and underinsured

The impact of non-existent or inadequate insurance on access to needed care is expected to grow even stronger as health care costs continue their upward spiral. As health care costs rise rapidly, it is less likely that Americans can pay the out-of-pocket costs and more likely that access is restricted.

Rising Costs

In the case of the elderly, the House Committee on Aging estimates that out-of-pocket costs will grow from 12 percent of elderly income in 1977 to 18.5 percent in 1991. By 1991, elderly out-of-pocket cost are projected to average $2,633 per person and to amount to about 40 percent of total elderly health care costs. For the total population, the situation will also get worse as health expenditures continue to rise faster than the Gross National Product, a measure of the nation's ability to pay.

Changing Employer Behavior

Employers—the primary purchasers of private health care coverage—are increasingly becoming "prudent buyers" and are beginning to shop for the least expensive providers of health care and encourage insurance companies to do the same. Responding to this pressure to reduce prices, health care providers are beginning to scrutinize their costs, eliminate or reduce services that do not generate an adequate level of revenues, and avoid free or discounted care for the poor and near poor.

Increasing Competition

Further exacerbating the already restricted financial access to health care is the current emphasis on "competition" in our health system. Prior to this era of "market reform" in health care, private and public health care providers provided varying amounts of free and discounted care and could recover the associated "lost" charges by shifting them onto the bills of private paying patients. But this voluntary and informal pattern of cross-subsidization of free and discounted care is becoming less available as the health system becomes more price-sensitive.

Changing Hospital Behavior

Vanderbilt University survey indicates that both private and public hospitals are taking actions to limit the amount of free care provided. In 1981 and 1982, approximately 15 percent of hospitals adopted explicit policies and procedures to restrict care to nonpaying patients. (Geraldine Dallek, Health/PAC Bulletin, May/June 1985)

The growing pressure to limit the amount of care provided to non-paying patients appears to be prompting a rise in the practice of "patient dumping." While data on the number of patients transferred due to an inability to pay do not exist, a study of Chicago's Cook County Hospital revealed that the number of annual transfer patients received by the hospital increased 500 percent between 1979 and 1985. (Washington Report on Medicine and Health, July 15, 1985) Similarly, a study of Parkland Memorial Hospital in Dallas, Texas indicated a 300 percent increase in the number of transfer patients received between 1983 and 1985. (Wall Street Journal, March 8, 1985)

According to the Urban Institute, even state and local governments have reduced their direct financial support for public hospitals—what have long been considered the hospitals of last resort for the uninsured and underinsured. (Marion Lewin and Lawrence Lewin, Business and Health, September 1984) In 1985 alone, 17 state and local public hospitals closed their doors. Furthermore, the need for subsidized care is most critical in impoverished communities where local taxpayers are less able to finance care for the uninsured poor. (Urban Institute, June 1984)

INSURING THE UNINSURED AND UNDERINSURED

"Equal access" occurs when entry into the health care delivery system is based on need rather than factors such as status of health insurance coverage, ability to pay out-of-pocket costs, or place of residence. As described earlier, most Americans do not have equal access. However, most Americans would agree that the inequities should be removed and that equal access to health care should be achieved. The key questions are how and when.

Options for insuring the uninsured and underinsured

Fortunately there is no shortage of options for insuring the uninsured and underinsured. Though there are many ways to characterize the many options, much of the current debate focuses on private versus public sector options.

Private Sector Options

Some argue that private sector options should be the primary or only options used. Here the approaches might include encouraging or requiring employees to extend coverage to more employees, retirees or laid-off workers or to expand the breadth of coverage for all employees. Another option might be to encourage personal saving for medical expenses through vehicles such as medical IRAs or health savings accounts. Another route might be to allow expanded tax deductions or credits to cover expenses such as for long term care. Yet another option is to encourage insurance companies to make more insurance policies available which cover catastrophic acute and long term care expenses. What must be kept in mind is that these private sector options serve to decrease federal revenues and do not directly address the problems of the medically indigent and others with limited ability to pay.

Public Sector Options

Some argue that public sector options shoud be the primary or only options used. State and federal options might incude extending the Medicaid program to pick up all of the poor or the unemployed. A different approach for the unemployed might be to purchase private insurance for them. Another Medicaid alternative might be to allow low income individuals to "buy" into Medicaid. A similar option might be for States to develop private "risk pools" where individuals could buy insurance at group rates. States might tax hospitals to create "bad debt and charity pools" and permit hospitals to draw from these pools to cover uncompensated care. Another route might be to use grant programs such as the community health center and maternal and child health programs.

Looking only at the federal level, a wide range of options are available. Using Medicare as a base, federal approaches might include extending the eligible Medicare population or expanding coverage to include catastrophic acute and long term care. Some recent proposals to institute Medicare vouchers might be used to cover other people. The federal government might also provide the services directly as it does through the Veterans Administration and the Indian Health Service. A hospital-based option might be to mandate some minimum "fair share of free care" and provide enforcement through conditions for hospital licensure, certificate of need approval, participation in the Medicare program or eligibility for tax-exempt bonds.

A more ambitious and comprehensive federal public insurance option might protect all Americans (including the fully insured, the uninsured, and the underinsured), cover health and long term care, shield Americans from catastrophic acute and long term care expenses, upgrade the quality assurance system and contain total health care costs. One such comprehensive health protection package is the "USHealth" plan introduced by Chairman Roybal. (See attached summary of U.S. Health Act of 1986 (H.R. 5070)).

Criteria for assessing the options

As we consider the available options, it is important to keep in mind that all funding comes from the same source, the American people. Funding may come directly or indirectly from the American people through individual premiums, joint employer/employee paid premiums, individual and corporate taxes or direct out-of-pocket payments to health care providers. How much Ameri-

cans pay depends heavily on their health status and insurance coverage and, unfortunately, much less on their ability to pay. The challenge is to create an insurance system which ensures equal access even for those Americans with limited ability to pay for needed health care.

Many options are available for ensuring equal access for all Americans. In choosing among them or in packaging a more comprehensive solution, certain criteria should be applied:

Are the uninsured fully insured?

Are the underinsured insured for basic health costs?

Are the underinsured insured for catastrophic acute care costs?

Are the underinsured insured for catastrophic long term care costs?

Is the quality of health care assured?

Are costs affordable for individuals, government and employers?

By applying these criteria to all proposals, the American people and policymakers can judge the adequacy and merits of each one.

Commitment to insuring the uninsured and underinsured

Uncertainty may exist about the extent of public support for active government leadership. However, the public, fostered by the growing personal experience with inadequate health care coverage, is making increasing demands that government address this crisis.

The Federal Government, in conjunction with States and the private sector, has the responsibility and must make the commitment to act as the steward of the nation's health care delivery system and the protector of the nation's health.

As has been demonstrated by the Medicare program, government can take an active role in ensuring access to millions of Americans while working closely with the private sector. Medicare has continued to mature as a major health insurance program and continues to provide leadership on cost containment and quality assurance issues. Outside of the United States, Canada has also demonstrated that government can take the leadership role in assuring health care accessibility and affordability. So too the American government can take the lead in and should shoulder the responsibility for ensuring equal access for all Americans. Equal access is far too important a matter to be left to chance, to whim or to "market forces."

Major health care reforms as envisioned above are never easy, but they must be done. They can be done if we put aside our differences and recognize what is most important—namely, protecting the American people.

Given the forces of change and the current inequities of access, now is the time to make the commitment to protect the uninsured and underinsured. The risk to the uninsured and underinsured is great and grows every day. High and rapidly rising health costs are hitting Americans of all ages. If costs are not controlled, health costs for everyone—individuals, employers, government—will outdistance our ability to pay for needed health care. We no longer can afford not to act.

Public and private sector policymakers will not solve the problem unless and until Americans of all ages demand that it be done. When public policymakers believe that elections will be won or lost on this issue, then and only then will this catastrophic problem of over 31 million uninsured and over 200 million underinsured Americans be solved.

UNDERESTIMATING THE IMPORTANCE OF DRUG ERADICATION IN FOREIGN COUNTRIES

HON. DONALD J. PEASE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. PEASE. Mr. Speaker, I am glad to see the Congress and the Reagan administration moving to adopt strong measures to deal with the drug epidemic in our midst. But in the stampede to act, I am concerned that any new Federal spending on this problem be directed at those facets of the drug problem where it is likely to do the most good.

First, I fear that too little priority and resources are being committed to eliminating drug supplies where they are produced in foreign countries; $48 million in new appropriations to be requested by the President as part of a $1.5 billion package seems woefully inadequate. I would call to the attention of my colleagues a thoughtful article by James Mills, an expert in the ways and means of the international narcotics industry, that appeared in last Friday's New York Times. I request that it be reproduced in its entirety. The gist of his argument is that international drug dealers can most effectively be affected through interdiction efforts in countries where drugs are produced.

Second, the Reagan administration has failed to enforce existing laws that are tailor made to applying real pressure on appropriate foreign governments to act against drug producers subject to their control. Under title V of the Trade Act of 1974,

The President shall not designate any country a beneficiary developing country under ths section (for trade preferences) if such country does not take adequate steps to cooperate with the United States to prevent narcotic drugs and other controlled substances produced, processed, or transported in such country from entering the United States unlawfully.

To the best of my knowledge, this prohibition has never been applied once to any of the countries that are major sources of the drugs flowing into the United States. To the contrary, in 1985, President Reagan and the U.S. Trade Representative gave duty-free treatment to $3.3 billion in products imported from precisely those countries where the international drug flow begins.

Mexico	$1,200,000,000
Peru	166,000,000
Bolivia	14,000,000
Colombia	99,000,000
Turkey	39,000,000
Pakistan	35,000,000
Jamaica	18,000,000
Burma	1,700,000
Thailand	235,000,000
India	286,000,000
Hong Kong	1,200,000,000

Source: U.S. Trade Representative.

A more cost effective means to combat drug use would be to enforce the drug laws on the books to curtail foreign supplies.

[From the New York Times, Sept. 5, 1986]

THE SIMPLEST WAY TO FIGHT DRUGS

(By James Mills)

What do the traffickers themselves think of all this drug hysteria—President Reagan's urinalysis, the first blockade of New York harbor since the War of 1812, proposals to seal the Mexican border with a 2,000-mile cocaine curtain? In a fortified mansion in Bangkok, in a Mexico City prison, in homes, hotel rooms and restaurants on four continents, I have spoken to a few of the men who run the international narcotics industry, and I am certain their reaction to the war on drugs is the same today as when I met them. They are laughing. With each desperate new response to the drug dilemma, we move further and further from the real solution, and give the narcotics tycoons every reason to celebrate.

When an intelligent person has a problem, he first examines the problem, breaks it into its components, tries to find the fundamental cause (as opposed to symptoms masquerading as causes) and then attacks that cause. He also asks himself what attacks have been made on the problem in the past, and which, if any, of those attacks have had success.

Clearly, the cause of the drug problem is drugs. If drugs had never existed, there could be no drug problem. Apparent solution: remove drugs. Without the presence of drugs, there would be no need for programs to interdict drugs, arrest drug dealers, seize drug profits, treat drug addicts or test potential drug users.

What attacks have been launched against the drug problem in the past? They include: interdiction, law enforcement, penalties, treatment, denying profits, eradication.

Which of these, if any, have worked? Only one: eradication. It worked in Turkey, and it worked, more recently and temporarily, in Mexico. None of the others has ever worked, to any significant degree, anywhere at any time.

Doesn't common sense tell us that before we throw billions of dollars and immense efforts at other recommended attacks on the problem, we should fully exhaust attempts at eradication, the only remedy that has ever worked? Not only is eradication the only remedy that has worked, it is also the only approach that directly attacks the fundamental problem—removing drugs.

Eradication also happens, fortunately, to be the cheapest and easiest approach. Ninety-five percent of the world's cocaine, for example, originates in only two countries, Peru and Bolivia. They have a combined population approximately equal to that of California. They are impoverished and desperately in need of aid. Surely, it would be relatively easy to encourage—and, if necessary, to force—those countries to stop growing coca.

Peru and Bolivia complain that eradication of coca plants would unduly upset peasants who earn their livings from coca. But when members of the Senate Select Committee on Narcotics Abuse and Control visited Peru and Bolivia in 1983 they found that many, if not most, of the coca-growing campesinos had until recently been growing legitimate food crops. Only when the campesinos abandoned food crops for the more lucrative coca plants did both those countries have to be fed by emergency international relief programs.

Bolivia further claims that since campesinos represent 60 percent of the electorate, their disfavor could topple the Government.

Well, so what—compared to the alternative of continuing cocaine abuse? Bolivian governments have been collapsing regularly for the past 30 years and will no doubt continue to collapse with or without the eradication of coca fields.

Note that Thailand has offered the peasants-will-starve argument for some 15 years, while its poppy acreage has grown and grown. Turkey said the same thing (it had 300,000 farmers growing poppies)—until President Richard M. Nixon gave the Turkish Government money for the farmers who were put out of the opium business in the early 1970's. Most of the money went into the pockets of corrupt officials. Still, there were no reports of mass starvation in Turkey.

A few weeks ago, President Victor Paz Estenssoro of Bolivia, asking for $100 million a year in anti-drug funds from the United States, was quoted as saying: "If we are going to tell the peasants not to grow coca, we have to have alternatives. Without an all-weather highway, they can't market rice, coffee, oranges, and other legal crops they could substitute for coca." I first heard those words—virtually verbatim—about a decade ago from Thailand officials. The Thais got the money they requested, they got their crop substitution programs and they got their highway. Today, the money is gone, crop substitution is still in the "demonstration" stage, poppy acreage is vastly increased and the highway has been used to transport opium and morphine base.

It is also argued that if we eradicate in one country, growers will simply shift to another. This ignores the fact that there are only a limited number of locations with the agricultural and climatic conditions necessary for the growth of coca and poppies. And once the full power of the United States comes down on Peru and Bolivia, forcing eradication, surely other countries will see the handwriting on the wall. Will they imagine that they can succeed where Peru and Bolivia failed? Would not the United States be as capable of coercing those countries into eradication as it was Peru and Bolivia? And isn't there something fundamentally unsound, and craven, about the other-countries-will-step-in argument? Is it wise not to attack one enemy for fear that others might then appear?

After having observed the international drug scene for 20 years, I am convinced that eradication is the only thing that will work, and that it would work quite easily. If President Reagan dug in his heels and became obsessive about eradication, he could reduce the availability of cocaine by 50 percent in six months, and 80 percent in a year. Heroin could be similarly reduced, though over a longer period of time.

Why, then, is eradication always at the bottom of every politician's list of "things to do?" I think because it's the least politically attractive recommendation. Surely, it is no accident that the present furor over drugs (sparked only in part by the emergence of crack) precedes the November elections by three months. (President Reagan declared his war on drugs 19 days before the 1982 elections.) Politicians appear to believe that workers are interested only in what is nearest to them. So we get domestic solutions: interdiction, testing and enforcement. Eradication—a big word that happens in distant lands—isn't so viscerally appealing as capital punishment for pushers.

We have to stop wanting to appear as if we are doing something—and do something. There is no end to the good you can accomplish if you don't care who gets the credit. Eradication could make all other approaches, from interdiction to testing, irrelevant.

I might also add that drugs are not exclusively an American problem. The war must be a world war not only in the sense that producing countries are our enemies, but in the sense that other victim countries are—or should be—our allies. We do not have the highest per capita addiction rate in the world. (Colombia is said to have three million addicts, which is one in nine citizens—almost unbelieveable.) Many countries in Asia, Latin America, and Europe have large and growing drug problems. They should be as eager as we to see to it that producing countries get out of the dope business.

Last year, 23 Americans died in terrorist attacks, and we bombed Libya. If the world's coca fields were in Libya, instead of Peru and Bolivia, President Reagan would know what to do and we would not have a cocaine problem today.

By concentrating the bulk of its efforts on domestic approaches, our Government keeps the heat off the leaders of the international narcotics industry, men whose supply, production and management teams are overseas.

So the traffickers are laughing. They know how to solve the drug problem. The war on drugs is the best thing that ever happened to them.

"HIGH FLEXIBLE" FUEL

HON. CLAUDINE SCHNEIDER

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Miss SCHNEIDER. Mr. Speaker, last year the President's Commission on Industrial Competitiveness warned of a serious shortcoming that the United States must remedy if it is to maintain a strong and vigorous competitive position in the global marketplace. While noting that the United States is preeminent in advancing scientific and technological breakthroughs, the Commission went on to point out that the United States is far less resourceful in ensuring the timely commercialization of these developments. This is quite apparent in the economic downturn of not only the smokestack industries—processing of primary metals, steelmaking, automaking—but also in the competitive threat to our "sunrise" high technology industries, where the United States is losing market shares in 7 out of 10 product areas.

If we are to ensure a strong, robust economy, then we must remain alert to innovative opportunities when they present themselves to us. A case in point is the Department of Defense's support for research and development in gas-turbine technology, which holds out extraordinary promise for commercial spinoff in the utility sector. I would like to share with my colleagues an article explaining the gains to be made from this technological innovation that recently appeared in the Wall Street Journal by Drs. Robert Williams and Eric Larson at Princeton's Center for Energy and Environmental Studies.

GAS TURBINES COULD MEET ELECTRICITY DEMAND

(By Robert H. Williams and Eric D. Larson)

Analysts from the Energy Department and private utilities often warn that unless more and more large coal and nuclear power plants are built, the U.S. will face economically crippling power shortages in the future. This is not necessarily the case. Advances in gas-turbine technology, arising in large part from Defense Department support for research and development on military-aircraft engines, make possible a more hopeful electric future.

Large, new nuclear and coal plants have proved to be very costly, accounting for much of the 60% increase in the U.S. average, inflation-corrected price of electricity since 1970. Growing concerns about nuclear safety and acid rain are likely to lead to further regulatory constraints on nuclear and coal power, which will make it difficult to reduce these costs. In addition, future growth in electricity demand is highly uncertain. Thus by investing in large plants that take at least eight years to build, utilities risk being caught up in a vicious circle. If demand grows more slowly than expected, the resulting excess capacity leads to higher customer rates, which reduce demand further, necessitating still higher rates, etc.

Consider instead new gas-turbine technologies having largely unfamiliar names (e.g., advanced combined cycles, evaporative-regenerative gas turbines, turbocharged steam-injected gas turbines, and intercooled steam-injected gas turbines), which have recently become available or could be commercialized quickly. These advanced gas turbines, like turbines now used by utilities for meeting peak electrical demands, have low capital costs. But unlike peaking turbines they are highly energy efficient, requiring 30% to 40% less fuel.

These natural gas-fired turbines can produce electricity at less total cost than coal or nuclear plants, even with gas prices much higher than at present. Having small sizes and short lead times, these gas turbines are ideal for planning in the face of uncertainty: Utilities can wait to see how demand is evolving before deciding to build. If natural gas should eventually get too costly, these plants could be shifted to synthetic gas derived from coal and still be competitive with conventional coal or nuclear plants. Using coal this way would produce much less air pollution than burning it in conventional coal power plants. For the more efficient options, the switch to coal gas could probably be delayed until well after the year 2000.

Despite such attractions, utilities are not rushing to buy advanced gas turbines nor are manufacturers rushing to build them. The bias against gas turbines began in the mid-1970s, when natural gas was being used up at a much faster rate than new supplies were being found, leading Congress to pass the Powerplant and Industrial Fuels Use Act of 1978, which put constraints on the use of natural gas by utilities. Since the deregulation of the price of new natural gas, however, the supply outlook has improved. Additions to gas reserves have been comparable to production, and there is now a gas surplus. Present law, however, perversely allows utilities to use gas inefficiently (in existing plants) but prohibits them from using it efficiently (in new plants).

While the Fuels Use Act constraints are not absolute, few utilities are interested in

getting exemptions—in part because they have not yet adapted to thinking of the gas turbine as a major power-generating option and in part because most utilities don't need new generating capacity. However, it is also worthwhile to replace existing gas-fired steam-electric plants with efficient gas turbines. This could lead to lower electrical rates and to gas savings nationwide equivalent to about 500,000 barrels of oil a day. But utilities are not adequately motivated to retire economically inefficient capacity, so no significant replacement market is developing for these new turbines.

Manufacturers are not pushing to develop and market these new turbines, because the utility market is uncertain and the Defense Department already provides a secure and profitable military-aircraft market for gas turbines. The high efficiency that could be achieved in utility applications is, to a large degree, the result of Defense Department R&D on jet engines, which averaged $425 million a year over the past decade.

Because they are not looking for new civilian markets, U.S. manufacturers are not prepared to commit the modest incremental R&D investments needed to tailor advanced gas turbines to utility needs. However, these technologies are so inherently attractive, and their development costs so low, that they will be developed somewhere. A Japanese consortium is already being organized to finance the development of utility-scale steam-injected gas turbines.

Barring immediate and politically unlikely support for new nuclear and coal plants, new gas-turbine technologies spell the end of the era of the electric behemoths. The speed of the transition to these new technologies and U.S. manufacturers' roles in marketing them are, to some extent, dependent on public policies. Ending restrictions on utility use of natural gas, providing incentives for utilities to replace economically inefficient equipment, and perhaps redirecting a modest amount of military R&D money to utility gas turbines would all help shape a formidable U.S. capability in these new gas-turbine markets. The U.S. can be a technological leader in these markets, building on its undisputed lead in jet-engine technology, or follow others, to its economic detriment.

A COMMON HERITAGE

HON. MANUEL LUJAN, JR.

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. LUJAN. Mr. Speaker, I am pleased to submit for the RECORD a speech the Honorable ESTEBAN TORRES delivered to the Congressional Hispanic Caucus Institute, Inc., dinner on Tuesday, September 16. Congressman TORRES speaks eloquently of the common heritage held by all Hispanics and the overriding wish that Hispanic-Americans be first accepted as citizens of the United States.

As our colleague says:

Our heritage provides us with a bright light to illuminate our past and a powerful beam to guide us into the future.

REMARKS OF CONGRESSMAN ESTEBAN E. TORRES BEFORE THE CONGRESSIONAL HISPANIC CAUCUS INSTITUTE, INC.

It is a high personal honor and public privilege that you have bestowed upon me this chairmanship. I pledge to you that I will work diligently to retain your confidence and trust.

As Hispanics we share a common heritage. We are of many races but we all trace our ancestors back to the Iberian Peninsula, the Spanish speaking countries of this hemisphere, the Caribbean Islands of Puerto Rico, Cuba, the Dominican Republic, the trust territories of the Virgin Islands and Guam.

We are Members of Congress, but first, and foremost, we are citizens of the United States of America.

We are Members of Congress because constituents have sent us here to act on their behalf. Thus, we represent all the people of our respective districts: be they Anglos, Blacks, Asians, Native Americans and, yes, the Hispanics. We do not represent one group to the exclusion of all others.

We did not just recently arrive on the scene. As far back as the 1820's there have been Hispanic Members of Congress. The combined service of current Hispanic Caucus members in the House of Representatives is 145 years.

We represent all areas of the country and we are strategically placed among all the major committees. We hold leadership positions and chairmanships.

As Democrats and Republicans, we are in these positions because we have worked within our state delegations and with the leadership of the House to get where we are. We will continue to seek leadership roles. Among us, to be sure, there is a future Speaker of the House of Representatives and future Senate leaders.

We know that taken as a whole, Hispanics in this country are younger than the total U.S. population, are less educated, are unemployed more often, and are much more likely to be at the lower end of the occupational scale. It is this multitude of circumstances which presents us with special problems and unique challenges. That is why we work so hard to find solutions to these problems and to meet the challenges of the future.

I believe that because of our ancestral heritage, we have a special outlook on world affairs. Our families originally came here to seek economic opportunity or political freedom or both. And when we see the squalor of poverty or the pillage of war in a foreign land, we are naturally moved to take action to provide economic assistance and achieve peace. We know better than to act unilaterally, we work in concert with our allies around the world. Dictatorships of the left or the right cannot look to us for support. The Blacks of South Africa are kin to us and we fight along side them in freedom's name. Cuban political prisoners and other prisoners of conscience throughout Latin America are welcomed to our shores unconditionally, but with one resolve: there shall be no more closed societies in this hemisphere.

Whether the problem which confronts us is domestic or foreign, we act in the best interests of our constituents and the United States. We do so as students of history, as public servants and as Americans first.

Ladies and Gentlemen, our heritage provides us with a bright light to illuminate our past and a powerful beam to guide us into the future. We need to be well grounded in our heritage during every week of the year, not only during this week. Hispanic Heritage Week is a time for collective celebration and collective planning. Our Hispanic past is an inspiration best expressed by the traditional addage that says, "people find in the greatness of their past the courage and confidence for the future".

For the most part I have been talking about the elected members of the Hispanic Caucus. We are important people, I suppose. At this hour, more important than who we are is who you are. None of this could be possible without your support. This is a family! This is a family made up of corporate, business and labor leaders. It includes our civic leadership in state houses and court houses throughout this land. It is a family of women and men in local governments, and of young women and men in uniform defending our nation. You are educators, scientists and representatives of the fourth estate . . . the media. I see the faces of abuelos and abuelitas who we will never abandon in the quest for balanced budgets. Yes, we are family, a family that represents the best of American life.

It is this extended family that allows the programs of the Congressional Hispanic Caucus Institute to set a foundation for those who will follow us: I am speaking now about the young people who are our future. Without you, we could not be as effective.

To our friends and supporters, to our family, you have my gratitude, my salute and my loyalty.

A DWINDLING OF CHOICES

HON. JIM MOODY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. MOODY. Mr. Speaker, I commend to my colleagues this article about dwindling contraceptive choices which appeared in the Wall Street Journal last week.

This article underscores the difficulties facing women—especially poor women—who wish to regulate their own fertility. I urge that we think seriously about how to encourage the contraceptive research and development necessary to reverse this regressive trend.

CANADA ATTRACTS U.S. WOMEN SEEKING IUDS

(By Peggy Berkowitz)

As contraceptive choices dwindle in the U.S. because of health and litigation problems, some women are traveling to Canada for intrauterine devices—a trend that the products' makers would like to discourage.

Canadian birth-control clinics report a steady trickel of women coming from the U.S., where IUDs' are becoming scarce.

The demand began last winter after G.D. Searle & Co. decided to stop selling its Copper-7 and Tatum-T Intrauterine Copper Contraceptives in the U.S. because of the high cost of defending hundreds of product-liability suits. The move by Searle, a unit of Monsanto Co. and maker of the most widely used IUDs, has all but eliminated the IUD market in the U.S.

FOREIGN SALES

But drug companies including Searle continue to sell IUDs in Canada and other countries, where product-liability actions aren't a big problem. Both Searle and Johnson & Johnson's Ortho Pharmaceutical (Canada) Ltd., the other major manufacturer of IUDs in Canada, insist their products are safe. (The Food and Drug Administration still approves the devices.) But the

companies show little enthusiasm for the movement of U.S. women to Canada to procure IUDs.

A spokesman for Searle says the company doesn't know how many U.S. women are making such a move, but adds, "We wouldn't condone it." He declined to be more specific. Searle is still considering the sale of its foreign IUD business, as announced last January.

In Toronto, a spokesman for Ortho Pharmaceutical says only that the company is aware of the trend but isn't promoting the practice.

Some product-liability lawyers in the U.S. say that U.S. women who obtain an IUD in Canada and develop problems could probably sue the parent companies here.

USE DROPS STEADILY

Use of the devices has dropped steadily in the U.S. in recent years, primarily because of the controversy surrounding the products. A.H. Robins Co.'s withdrawal 12 years ago of its Dalkon Shield IUD was followed by thousands of costly lawsuits against the pharmaceutical company, prompting it to file for Chapter 11 protection in 1984. U.S. users of IUDs have dropped to an estimated 1.9 million in 1985, down about 17% from three years earlier.

Despite the potential problems, significant numbers of U.S. women continue to seek doctors that will fit them with IUDs. Mary Pat Ruh, for example, a Buffalo anesthesiologist, couldn't find a local doctor who would replace her IUD after Searle took the device off the market last winter. "I tried the pill for awhile and couldn't tolerate it," she says. So this summer, Dr. Ruh called the first gynecologist listed in the Fort Erie, Ontario, phone book and traveled north 12 miles for an appointment.

Planned Parenthood, a non-profit agency that promotes birth control, is referring IUD users to its Canadian affiliates. And some U.S. doctors are sending patients to Canadian colleagues. In Vancouver, British Columbia, the Planned Parenthood clinic says it gets about two to four U.S. clients a week.

Because the plastic-based devices require replacement about every three years, the number of women traveling to Canada is expected to increase as supplies in the U.S. are used up and as more women who already have the devices seek to have them replaced.

FEAR OF LAWSUITS

Candian doctors charge Americans about $50 to $100 for the IUD, its insertion and a gynecological exam, similar to U.S. doctors' fees when copper-bearing IUDs were readily available.

Although some U.S. doctors stockpiled Searle's IUDs, others say they won't fit the devices anymore because they fear lawsuits, Robert Resink, chairman of the reproductive-medicine department at University of California, San Diego, says concerns about medical-liability suits are so great in California that he assumes that "any doctors in this department who kept a few IUDs aside are keeping them for their wives."

A hormone-secreting IUD called Progestasert is still being marketed in the U.S. by Alza Corp., based in Palo Alto, Calif. But the device must be changed annually and is much more expensive than the copper-bearing IUDs.

A trip to Canada for an IUD is still a decision mainly for the affluent. Thus, some doctors and officials in birth-control clinics expect more abortions among U.S. women who use IUDs; these women, they say, will rely on the devices beyond their useful lifespan or switch to less-effective contraceptive methods.

TRUTH IN SAVINGS LEGISLATION

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. HUBBARD. Mr. Speaker, I have just received the September 11 letter from my good friend and fellow Kentuckian, Charles Beach, Jr., president of Peoples Exchange Bank of Beattyville, KY, which I would like to share with my colleagues.

Charlie Beach has contacted me about his concerns with regard to pending legislation before our House Committee on Banking, Finance and Urban Affairs. The measure, H.R. 2282 or the Truth in Savings Act, is one to which he is greatly opposed.

I hope my colleagues will take a few minutes to read and consider his timely comments. The letter to me from Mr. Beach is as follows:

SEPTEMBER 11, 1986.

Hon. CARROLL HUBBARD, Jr.,
Rayburn Building, Washington, DC.

DEAR CONGRESSMAN HUBBARD: I wish to express my very strong opposition to H.R. 2282 (Truth in Savings Act) which has been marked up and reported out of the House Banking Financial Institution Sub-Committee and is awaiting full Committee action.

1. Having been through the Truth in Lending, the excessive compliance requirements are burdensome, time-consuming; and not only increase the ultimate cost to the borrower, but in no way can be cost justified. The proposals set forth in this Bill would place a similar burdensome regulatory requirement on all depository institutions and commercial banks.

2. H.R. 2282 addresses a single method of computing interest which would deny banking institutions flexibility of paying interest on deposits and ultimately amounts to a governmental pricing control which is not necessary in this period of deregulation. Obviously, the competitive market is going to fix price and determine those rates paid by commercial banks.

3. The Bill is obviously grossly discriminatory against commercial banks and depository institutions while our competitors, the non-bank entities, are completely ignored and enjoy immunity to this burdensome requirement.

4. The Disclosure Amendment by Congressman Schumer relating to the disclosure requirement on credit cards is acceptable; however, if it applies to banks, why should it not apply to all non-bank entities.

We have seen the disruption, the inefficiencies, the dilution of quality of service caused by deregulation of the communications, the transportation and now the financial industries. In this service recessionary period, should not Congress have a priority interest, and pass legislation preserving the safety and soundness of the commercial banking system rather than an on-going effort to pursue regulatory compliance requirements which impede our efforts to better serve our customer and result in an increase in cost of service to him?

It was great to see you at the Kentucky Bankers Association convention in Louisville, I enjoyed your remarks, and your interest in this matter will be greatly appreciated.

Sincerely,

CHARLES BEACH, Jr.,
President, Peoples' Exchange Bank.

HOW THE SOVIETS OPERATE

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. LAGOMARSINO. Mr. Speaker, many of our colleagues were bewildered by the illegal and unjustified imprisonment of journalist Nick Daniloff by Soviet authorities. However, as Mortimer Zuckerman, editor-in-chief of US News & World Report, the employer of Mr. Daniloff, notes we should not be surprised by this action because of two crucial factors in the Soviet system: the interests of the state are above all others and there is an ingnorance of public opinion. The Soviet leaders do not have to justify themselves to their public.

Mr. Zuckerman's comments provide a very insightful analysis of the way the Soviets operate. I urge my colleagues to read this very informative piece, taken from US News & World Report, September 22, 1986:

A MODICUM OF TRUST

(By Mortimer B. Zuckerman)

Americans have been outraged by the imprisonment of Nicholas Daniloff, but there has been bewilderment with the anger. Why should Gorbachev risk his campaign for arms control by such an offense? Didn't he anticipate our reaction? The bafflement arises because we assume the Soviets inhabit the same moral universe. They don't. It was the same with Chernobyl. How could the Soviets delay warning neighboring states and lie to them?

The answer is twofold. In the Soviet system, the perceived interests of the state are paramount. A society that does not cherish the individual has no scruples holding any individual hostage. Secondly, there is ignorance of public reaction. The Soviet Union is, as we know, a closed society, without a free press, where leaders do not have to justify themselves to public opinion. Totalitarian leaders who do not have to respond democratically to their own people are insulated. Their isolation is compounded by centuries of hostility to and paranoia about foreigners. Thus, they are prone to miscalculate in dealings with other countries.

The contrasts could not be greater. The Soviet Union has never known a day of democratic freedom in its history. The United States was conceived and developed as the most open society in the free world. An energetic free press provides regular feedback on public reaction. Both societies have ambitions to be the dominant world power. But the U.S., though passionate for the advancement of freedom in the world, is satisfied with peaceful, evolutionary change while the U.S.S.R. is a dissatisfied imperial power, revolutionary in its ideological outlook, expansionist in its historic urges.

The Soviet Union is prepared to do whatever is necessary to dominate. That doesn't change, whoever leads or whatever media

tune he plays. For all Gorbachev's sweet noises, witness what he does in areas of contention. The Soviets are even more intensely involved in Afghanistan, Angola, Ethiopia and South Yemen, and tightening their control of Eastern Europe, which for them is legitimized by their enormous sacrifices in World War II. Arguably, there have been differences as great as these between rivals in the past but never with such profound consequences for mankind.

By all previous historical experience, the United States and the U.S.S.R., as competing powers, should have gone to war against each other many times. They have not. Their mutual restraint is directly attributable to nuclear weapons, which negate any benefits of military "victory." The dangers are so great that both political leaderships have managed the relationship within the limits of prudence.

Sane leaders then are forced to focus not on their differences but on their few mutual interests. Concern for ecology and the environment is one such area; nuclear proliferation is another. The principal common interests are surely nuclear-arms reduction and the elimination of a first-strike capacity by either side. With 45,000 nuclear warheads, triple the number of 15 years ago, the arms race is irrational and destabilizes rather than enhances security.

Unlike the 1970s, the U.S. today can negotiate from a position of strength. Trends in the military balance of power favor the United States. The American economy is flourishing while the Soviet economy is falling further behind. Most critical is political will. The power of a leader, Clausewitz said, is the product of the extent of the means at his disposal and the strength of his will. President Reagan uniquely projects the reality and image of American strength. The Soviets are coping with the political weakness of domestic stagnation. The timing is right to negotiate a stable and verifiable agreement that truly reduces nuclear arms.

So the crucial lesson of the Daniloff affair is the ability of the Soviets to damage their own interests. There cannot be an arms deal without a modicum of mutual trust and a shared sense of civilized rational behavior. The American public will not endorse a treaty if the Soviet Union continues to respond as a hard-nosed, secret-police state. It is this kind of state that reveals itself in the Daniloff frame-up.

The modicum of trust is gravely eroded.

Only the courage of Nick Daniloff and his wife Ruth redeems a dark and ugly scene in Moscow.

THE PERES-MUBARAK SUMMIT

HON. HOWARD WOLPE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. WOLPE. Mr. Speaker, a troubling and uneasy chapter in relations between Egypt and Israel has at last ended, and a new discourse begun, with the summit meeting between President Hosni Mubarak and Prime Minister Shimon Peres. For far too long, the cold peace between their countries had persisted, threatening to undermine the Treaty of Peace signed in 1979. This disturbing episode—marked by Egypt's withdrawal of its ambassador in the wake of the Lebanon war, its refusal to restore diplomatic relations even following Israel's withdrawal, and the seemingly endless bickering over the mile-square salient of Taba—is over. Taba will be resolved through binding arbitration. A new Egyptian Ambassador will assume his post in Israel. But most importantly, the dialog of peace has been renewed.

The Peres-Mubarak summit was impressive for several reasons. First, it represents continuity in diplomacy between Israel and Egypt, which now embraces the second generation of leadership following the historic breakthrough engineered by Anwar Sadat and Menachem Begin.

Second, it reflects a recommitment by both countries to work together in good faith to find solutions to Israeli-Arab issues, and to the Palestinian issue in all its aspects. Both sides are showing greater flexibility: the Egyptian, in understanding forcefulness and legitimacy of Israel's concerns; and the Israelis, in their willingness to explore an international peace conference.

Third, there exists the implicit rededication to the principles of the Treaty of Peace, foremost among them the renunciation of war. This restores a sense of confidence among the peoples of both countries and the friends of peace throughout the region. This may lead to an expansion in cultural, trade, academic and scientific ties between Israel and Egypt.

Fourth, the stage has been set, with the declaration of both leaders that 1987 should be the year for negotiations, for further diplomatic Initiatives in the Middle East over the next year.

This last achievement—which is both the promise and challenge for the future—is particularly critical to the United States. For too long, the administration has failed to exercise the needed leadership with Israel and her neighbors to capitalize on positive developments. King Hussein has broken with the PLO. King Hassan has met with Prime Minister Peres—the second Arab leader to openly do so. President Mubarak has resolved the immediate impediments to normal relations with Israel. In the next several months, it is imperative that the United States become more actively involved in order to serve as the catalyst that can bring the forces of moderation together. Without that involvement, these recent achievements will be crippled, and will wither under the onslaught of those whose goal is the failure and defeat of ourselves, the foreign policy objectives of the United States, and those we support.

This is the moment to intensify our political activity without hesitation, and I call on the President and the Secretary of State to move forward immediately to cultivate these seeds of peace.

President Mubarak and Prime Minister Peres deserve our appreciation and gratitude for refusing to live with the consequences of failure to restore full diplomatic relations. President Mubarak has made a crucial judgment in the interests of peace at a sensitive juncture. Prime Minister Peres has again shown how a leader's courage and conviction can change reality. Although he will relinquish his office in October, the entire coalition government supported his mission to Egypt, and he will be able, as foreign minister, to continue his extraordinary efforts. For the second time this summer, Shimon Peres has successfully worked with an Arab leader to make the Middle East a safer place today than it was yesterday. All of us are the beneficiaries of his triumphs.

VALUABLE NEW PUBLICATION ON COMMUNITY SERVICES FOR ALZHEIMER'S VICTIMS

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. BIAGGI. Mr. Speaker, as the ranking New York member of the House Select Committee on Aging, it is my privilege to announce the release of a very special publication published by the New York City Alzheimer's Resource Center, entitled, "Agendas for Action: The Aging Network Responds to Alzheimer's Disease." This is a comprehensive, 164-page directory and summary of current services offered by 244 State and area agencies on aging in 46 States to Alzheimer's disease patients and their families.

"Agendas for Action" is an outstanding compendium which will serve and is serving now as an essential reference for programs designed to assist Alzheimer's disease victims and their families across the Nation. It successfully and efficiently demonstrates the resourcefulness, energy, and commitment of the Nation's State units on aging and area agencies on aging in their efforts to meet the great challenge of Alzheimer's disease. Alzheimer's disease can be a devastating illness, not only for the victim, but also for the victim's loved ones. Currently, it is estimated that over 2 million middle-aged and older adults are victims of this disease, sometimes known as senile dementia. In New York City alone, there are approximately 50,000 persons living in the community who are afflicted with Alzheimer's disease or similar disorders. It is estimated that 50 to 60 percent of nursing home residents have some form of dementia.

Inherently, a diagnosis of Alzheimer's disease changes the life not only of the patient, but of the entire family. Progressive deterioration of the patient and the unpredictability of symptoms force the patient and family to adjust to new problems and levels of impairment on a continual basis. Families are thus caught in the dilemma of increasing demands and decreasing resources.

"Agendas for Action" serves as both a source of information about available programs nationwide and highlights activities that can be replicated or adapted in communities across the Nation. Included in the publication are descriptions of:

Special services, programs and model projects specifically tailored for Alzheimer's families, including respite and home care, family support groups, adult day care, counseling and legal services.

State efforts on behalf of Alzheimer's disease patients and their families, with emphasis on task forces and study commissions created to investigate the impact of Alzheimer's disease, and to recommend appropriate policy and legislative action.

The 12 national demonstration projects funded by the Administration on Aging, as part of its Alzheimer's disease initiative.

The scope of the services conducted by the New York City Alzheimer's Resource Center.

Collaborative activities of State and area agencies on aging in cooperation with the Alzheimer's Disease and Related Disorders Association, government agencies, foundations, the clergy, medical and academic communities, private industry, social service agencies, and others.

"Agendas for Action" is a joint project of the Brookdale Foundation and the New York City Alzheimer's Resource Center, two institutions that are very well known to me. I have had the pleasure of working with both in various different areas, and have been very proud of the many services provided by each agency, as well as the support given by the New York City Department for the Aging. The Brookdale Foundation is to be commended for their part in this excellent document. The foundation recognized the importance of addressing the needs of Alzheimer's families. In 1983, it awarded a grant to the Department of the Aging for the establishment of an Alzheimer's Resource Center. Brookdale's intent was to have its grant matched with public and other funds, making the center a collaborative undertaking of the public, private, and voluntary sectors. With matching funds from the city of New York, the center opened its doors in March 1984. From the inception, the New York City Alzheimer's Resource Center has operated in cooperation with the Alzheimer's Disease and Related Disorders Association-New York City Chapter.

"Agenda for Action" is a product of this union, and I would like to salute Janet Sainer, commissioner of the New York City Department for the Aging for her leadership, as well as Stephen Schwartz, president of the Brookdale Foundation and last but certainly not least, Randi Goldstein, director of the New York City Alzheimer Resource Center for outstanding collaboration on this timely and vital document.

Copies of "Agendas for Action" may be obtained by writing to the New York City Alzheimer's Resource Center of the New York City Department for the Aging, 280 Broadway, New York, NY 10007.

U.S. NEWS & WORLD REPORT JOURNALIST NICHOLAS DANILOFF

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. LEVINE of California. Mr. Speaker, last week, this body unanimously passed a resolution which I sponsored condemning the Soviet Union for the unjustifiable arrest, indictment, and imprisonment of Nicholas Daniloff, a reporter for U.S. News & World Report, and urging his immediate and unconditional release.

Nick Daniloff has since been released into the custody of the American Ambassador, even though he remains a Soviet hostage. Although one cannot say for sure whether the House resolution contributed to his release from prison, we do know that it played a significant role in boosting Mr. Daniloff's morale at a time when he was, to use his words, "rotting, without legal counsel and in isolation from the outside world, in a basement cell."

Mr. Speaker, I am privileged to have here a letter which Nick Daniloff wrote to you upon learning of the House resolution on his behalf. I would like to insert the full text into the RECORD and strongly urge my colleagues to read it so that each Member can see how his or her vote contributed to Nick Daniloff's sense of having strong and United American support. One cannot help but be moved by his eloquence and by his strength of character.

U.S. NEWS & WORLD REPORT,
Washington, DC, September 16, 1986.

To the House of Representatives of the United States:

DEAR FRIENDS: I learned of the congress' joint resolution in the Daniloff case as I visited with my wife Ruth in Lefortoro Prison. I cannot express in words how your support bolstered my morale as I sat, without legal counsel and in isolation from the outside world, in a basement cell. Your resolution was all the more (touching) for me because, as a journalist, I covered your debates, your committee deliberations, your searching appraisals and your final decisions between 1974-1980.

I am today, September 16, 1986, still a hostage. Released into the custody of the American Embassy is *not* a swap. The exchange of an innocent journalist for a Lt. Col. of the KGB is extremely distasteful to me.

I realize that for the sake of U.S.-Soviet relations—to say nothing of my family—some kind of political solution must be reached. I believe this will require extraordinary diplomatic skill and may take a while.

As far as letting the Soviets get away with this outrage—I do not believe they have succeeded. They will fear the international propaganda scars for years to come!

Respectfully,

NICK DANILOFF.

A TRIBUTE TO THE TUSCOLA COUNTY ADVERTISER AND RUDY H. PETZOLD, PUBLISHER

HON. BOB TRAXLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. TRAXLER. Mr. Speaker, I rise today to bring to the attention of our colleagues a very important event, and to pay particular tribute to a very special individual. I would like my colleagues to join me in honoring the Tuscola County Advertiser for a century of newspapering in Michigan. And I would also at this time like to recognize Mr. Rudy H. Petzold, who has been the publisher of the Advertiser for the past 25 years.

While stationed in the Army, Rudy Petzold struck up a correspondence with his predecessor, James Gallery. Mr. Gallery having learned of Petzold's possible interest in a local newspapering job. Mr. Gallery hired Rudy Petzold by mail, and the two never met until the day Petzold reported for work. This mail order journalist spent 7 years as reporter and editor before becoming involved in the ownership of the newspaper. When in 1962, Petzold bought 10 percent of the Advertiser, and then purchased the remaining 90 percent 3 years later.

Since becoming publisher in 1965, Petzold has completely renovated and remodeled the Advertiser building and its operations. This constant advancement has helped the Advertiser to continue as one of Michigan's premiere weekly newspapers.

The newspaper has moved four times during its 111 years of existence. However, the present home of the Advertiser was purchased in 1904, and had previously been a hardware store and saloon. In 1923, a single story was added to enlarge the printshop area. In the late 1930's an open area between the Advertiser and the present hardware building was closed in with a building which then housed the Cairo office of the Michigan Auto Club for many years. Today, this building is part of the Advertiser building. Since 1965, the Advertiser building has undergone almost constant remodeling; shifting to meet its rapidly growing and changing business operations.

As one of Tuscola County's oldest businesses, the Advertiser has been honored as a centennial business by the Michigan Historical Society. And on July 24, 1986, the Tuscola County Advertiser was listed on the State register of historic sites by the Michigan Historical Commission.

And as one of Michigan's most respected weekly newspapers, it has received 70 awards of excellence from the Michigan Press Association, and was honored as Michigan's outstanding weekly newspaper by the University of Michigan Press Club in 1983.

Three of its publishers have served as presidents of the Michigan Press Association. This distinct honor includes Fred Slocum in 1894, A.D. Gallery in 1916 and currently, Rudy Petzold.

I am proud to know Rudy Petzold and to claim him as a good friend and fellow supporter of Michigan State University. He is a remarkable individual, a fine human being and a marvelous community asset. I ask my colleagues to join with me today in honoring him for his dedication and achievements, and to wish him continued success in the future. And ask my colleagues to also join with me in saluting the anniversary of a most distinguished and well respected weekly newspaper, the Tuscola County Advertiser, may it grow and prosper for another 100 years.

CLAUDE PEPPER LEADS ON DEFENSE AGAINST COMMUNISM

HON. BOB STUMP

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986,

Mr. STUMP. Mr. Speaker, by a vote of 229 to 186 the House agreed on September 17, 1986 to preserve the covert action option for the United States in meeting the Communist challenge in Angola. The leadership of one of the most respected Members of the House of Representatives, CLAUDE PEPPER, showed the way to a bipartisan approach in support of the

Angolan resistance. Mr. PEPPER's article in the New York Times of September 17, 1986 explained the vital importance of maintaining United States options in Angola. Those who follow future developments in the liberation of Angola should remember Mr. PEPPER's words.

YES: TO HELP PROMOTE PEACE

(By Claude Pepper)

WASHINGTON.—The House will make a serious mistake if it votes today to ban covert United States aid to the Angolan freedom fighters led by Jonas Savimbi. Such a ban would jeopardize our ability to restore peace to Angola, where Communist troops from around the world are fighting viciously to keep a Marxist Government in power.

Just last year, Congress achieved a major foreign policy victory by repealing the provision known as the Clark amendment, in effect since 1976, which barred all covert assistance to Angola. In 1985, Congress wisely decided that the United States should adopt the same foreign policy toward Angola that it has toward all other countries in the world. The Intelligence Authorization Act of 1987, under consideration in the House today, would undo this major achievement and once again subject Angola to special treatment.

I fought to overturn the Clark amendment and I will fight against this ill-advised attempt to bring it back. While it was law, the Soviet Union and its ally Fidel Castro sent hundreds of thousands of troops to Angola to fight for Communism while America sat idly by. A return to the principles of the Clark amendment could have only one result: the Communists would step up their support of the Marxist Government in Luanda and the forces trying to restore democracy would be imperiled.

Some of my friends in Congress, particularly my black colleagues, quiz me about my stance on Angola. They wonder how I can support the Unita guerrillas, who also receive support from South Africa. Essentially, my colleagues wonder how it is possible to be a liberal and also a champion of Jonas Savimbi.

The answer is that I am not persuaded by the argument that if South Africa helps the Angolan freedom fighters, America should not help them. In the past, when Congress voted aid to the hungry people of Africa no one rose to say, "Wait a minute, I don't want to vote for any aid to those starving people if South Africa is going to help them, too."

The Angola freedom fighters are hungry. Their villages have been bombed by Soviet aircraft. Many are wounded; many have died. Yet I am told that we should not aid these black men, women and children whom the South Africans happened to have fed.

I have opposed racism throughout my public career. I do not need to be coached about the evils of apartheid, and I have voted for as strong a sanction against it as anyone in Congress. But this is not the issue in Angola. The issue there is the onslaught of Fidel Castro's armies. And the question facing the House today is whether or not we should extend to the Angolan people the same compassion that we extend to other peoples facing the Communist menace.

In the last year, the Soviet Union has poured more than a billion dollars in military equipment into Angola to prop up a Marxist regime that is also aided by more than 35,000 Cuban troops. The Angolan regime surpasses even the Soviet Union in its vehement anti-Americanism and in its votes against us at the United Nations. Finally, Fidel Castro receives more than half a billion dollars a year from the Angolan Government—money earned in oil royalties from the Gulf Oil Company. This subsidy is a major loophole in the United States' trade embargo against Cuba.

Our policy in Angola thus effectively cancels out our efforts to fight Communism in Central America. We must be consistent. If we are as threatened by the turmoil in Central America as President Reagan says, we must not bar any kind of aid, including covert assistance, to Angola.

The Marxist regime in Angola goes out of its way to make its Cuban guests and other Soviet proxies feel at home. In the capital, a large mural of Lenin proclaims, "Under the watchful eye of Lenin, we are building the workers' party." The Government is intent on denying freedom of speech, union rights and democracy. It is also eager to spread its subversion of democratic principles to other countries.

With the Clark amendment, we lost one chance to establish a democratic Government in Angola. We must not repeat this blunder now, as Jonas Savimbi seeks to reclaim democracy there. If the United States is to be true to its principles, we must provide all possible support for that effort.

JOINT CENTER FOR POLITICAL STUDIES

HON. MICKEY LELAND

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. LELAND. Mr. Speaker, I would like to bring to the attention of my colleagues an article published in the New York Times on September 12, 1986, This article, written by Mr. Kenneth B. Noble, describes the activities of the Joint Center for Political Studies.

The joint center serves an important function. It has published valuable studies concerning many political and economic issues from the point of view of blacks in America. In 16 years the center has become a highly respected source of scholarly research, conducting studies that other researchers have not attempted.

I believe my colleagues will find this an interesting topic, and I commend the article to them.

RESEARCH UNIT FOCUSES ON PROGRESS FOR BLACKS

(By Kenneth B. Noble)

WASHINGTON, Sept. 10.—For 16 years now the offices of the Joint Center for Political Studies has issued a steady outpouring of scholarly studies, books and newsletters on political and economic issues from a black perspective.

The center has filled a void, its supporters say, noting that while intensive research centers have sprouted on Washington's intellectual landscape in recent years, few have focused on how blacks are faring in the political arena.

For example, the center has sponsored research on the growing role of blacks in the armed forces and was an early voice chronicling the problems of the black family. In another area, a study by the center challenged the notion that the increasing black migration to the suburbs signaled a move into the mainstream of American life and the achievement of integration.

AN UNRIVALED VOICE, ONE SAYS

Some say the center, a nonprofit organization financed mainly by wealthy contributors, corporations and labor unions, has emerged as perhaps the nation's premier black research center.

"The Joint Center has grown into an unrivaled voice on political issues generally," said Prof. Drew S. Days of the Yale university Law School, who was assistant Attorney General for Civil Rights in the Carter Administration. "They've been able to do this not by relying upon rhetoric, but through hard work."

But the center is not resting. It is now enlarging its agenda and seeking still more influence of domestic and foreign policy issues.

"We want to be concerned about international trade, arms control or East-West tensions," said Eddie N. Williams, the center's president, who is 54 years old.

"We don't presume that there is necessarily a black point of view on these issues, but black people, especially black leaders, should be informed," he said, "And when you look around, there are no organizations that consistently reach them to any significant degree."

To that end, the center has announced plans to push beyond its earlier boundaries and put together coalitions of intellectuals and scholars who specialize on issues involving blacks, whether black voting patterns or national security.

Recently, for example, the center began a study of black philantrophy, analyzing financial contributions and voluntary activities by blacks in behalf of blacks.

The center is viewed by some as being perhaps too sober, with faintly liberal leanings, an image Mr. Williams has tried to discourage. He can pepper his conversation with allusions to a growing number of black Republican elected officials and a need for black participation across the political spectrum.

WE'RE PRETTY INDEPENDENT

"In the present vernacular, we are more on the liberal side," says Mr. Williams, a former journalist, Foreign Service official and a vice president of the University of Chicago. "But I'd like to think we're pretty independent."

Of his own views, Mr. Williams says, "I never publicly speculate about my personal political commitments."

Mr. Williams' ability to lead the center in a mostly nonpartisan direction is cited by his supporters as a strength.

"Eddie Williams has been a middle-of-the-road, main stream voice, the kind of guy who makes foundations that fund this sort entity feel comfortable," said Prof. Mary Frances Berry of Howard University a member of the United States Civil Rights Commission. "He's not going to fly off on some tangent somewhere, so while being safe, the work of the center is very good."

The center operates with a staff of 45, including 23 scholars and analysts, and a yearly budget of $2.3 million. Its donors include Adolph Coors, the Colorado brewer; the Ford Foundation; the United Automobile Workers and the Tobacco Institute. It has also received money from both the Republican and Democratic National Committees.

Its board includes Robert McCormick Adams, secretary of the Smithsonian Institution; Marian Wright Edleman, head of the Children's Defense Fund, and Bernard

Rapoport, chairman of the American Income Life Insurance Company.

Mr. Williams does not avoid tough issues. In an article in Focus, the center's monthly newsletter, he urges black voters to support, at all levels, only those candidates who are "committed to the imposition of tough sanctions against South Africa."

The center's main mission, however, continues to be charting how blacks are faring. It recently published its 15th edition of Black Elected Officials. In 1970, the chronicle notes, only 1,469 blacks held elective office; 16 years later, the number had quadrupled.

RATE OF INCREASE HAS SLOWED

Still, Mr. Williams says, those figures are no cause for rejoicing. Blacks now constitute 11 percent of the country's population of voting age but they still hold less than 1.5 percent of its elective offices. In addition, the current rate of increase is only a third of what it was from 1970, when the center began keeping statistics, to 1976.

Other recent studies include a list of all elected and appointed black judges, and a demographic political and economic breakdown on states and congressional districts. For example, the 15th Congressional District on Manhattan's East Side ranks first in the nation for highest per capita income, while the 18th Congressional district in the South Bronx ranks lowest.

Mr. Williams says the recent Georgia Congressional race in which John Lewis, the Atlanta City Council member, defeated Julian Bond, a state legislator, "represents some things we're going to see more of in the future: two strong, viable black candidates competing for the same position."

"That reflects a kind of political maturing of the black community," he said.

TRIBUTE TO PACKWOOD-UPJOHN ELEMENTARY SCHOOL OF KALAMAZOO, MI

HON. HOWARD WOLPE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. WOLPE. Mr. Speaker, today I want to pay tribute to an elementary school in my district—the Parkwood-Upjohn Elementary School of the Kalamazoo Public School District. Today, September 19, 1986, the Kalamazoo community will join in celebration to honor the school for having received the prestigious National Award of Excellence. The Parkwood-Upjohn Elementary School has earned this distinction through it's ability to effectively utilize existing resources to serve it's students. Furthermore, the staff has implemented a broad curriculum that has significantly improved student citizenship skills. Moreover, the school has demonstrated strong educational leadership that has helped the student's achievement in all grade levels and has sparked a high degree of parent and community involvement.

Mr. Speaker, the Parkwood-Upjohn Elementary School is highly unique; 22 percent of its student body are physically handicapped young men and women, who have successfully entered the classroom. In addition, the school houses a uniquely successful physically handicapped preschoolers programs.

The Parkwood-Upjohn Elementary School community takes understandable pride in being recognized as one of the Nation's top elementary schools. It has received a very prestigious award that reflects the extraordinary commitment and dedication of the Parkwood-Upjohn students, their parents, and the schools administrator, support staff, and teachers. I am honored and privileged to represent such constituents who fully understand the value of education for young Americans, and who have worked so hard to develop such an outstanding school program.

A TRIBUTE TO CHIEF JOHN J. O'ROURKE—FIREFIGHTER EXTRAORDINAIRE

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. BIAGGI. Mr. Speaker, it is my privilege and pleasure to rise today to pay tribute to Chief John J. O'Rourke of the New York City Fire Department, who is retiring from the department after 33 years of dedicated service, leaving a legacy of accomplishments, achievements, and contributions to the New York community. His life reflects the community leadership, altruism, and genuine devotion to community service that are intrinsic to his nature. The New York Fire Department and the entire city of New York will sorely miss the leadership of Chief O'Rourke. Finding someone capable of filling his shoes is indeed an impossible task.

John was born in Brooklyn, NY, and spent his entire life in dedicated service to the New York community. In 1944, 1 month after he graduated from high school, John joined the U.S. Navy. There, through his work with the construction battalions—Seabees—and the Phillipine Liberation Campaign, John developed the skills he used for years to come with the fire department. For 3 years he served our country in the Pacific Theater. And, not long after he returned to the States, he decided to continue those years of service, this time with the fire department.

In 1953, John was appointed to the fire department. For 10 years he served with the rank-and-file firefighters in engine companies 215 and 250 and ladder company 105. During these years, he received four citations for personal bravery, including one for his heroic assistance when two planes collided over Brooklyn in 1960. In 1963, John was promoted to the rank of lieutenant were he led the men of ladder companies 120 and 4.

By now, the fire department had recognized the tremendous leadership ability that John possesses. He quickly climbed the ranks from lieutenant to captain, to battalion chief (of battalions 1 and 9), and then to deputy chief of the bureau of fire. During this time he attended John Jay College of Criminal Justice, where he graduated magna cum laude. This is quite a remarkable achievement. Not only was John supporting a family, rapidly climbing a difficult career ladder, he was attending school on a part-time basis and excelling in all of his courses. This portrays John's intelligence, ambition, talent, and perseverance. I trust that my colleagues share my admiration for this wonderful accomplishment.

Deputy chief was not the last rank that John attained. In March 1981, he rose to the rank of deputy assistant chief of the executive officer bureau of support services, the deputy assistant chief of operations, and chief of training. In April 1984 he assumed the position of department chief, a position he has excelled in ever since. In 1985, John was awarded the city of New York's administrative medal. This is an honor presented by the mayor of New York for administrative excellence. This year he received the New York Association of Sprinkler Contractor's Public Service Award for excellence in the field of fire protection. And now, after his long and fulfilling career, Capt. John J. O'Rourke will be retiring to spend more time with his lovely wife Helen, and their three beautiful daughters: Barbara, who is a public relations specialist; Carol, who recently graduated from Hofstra Law School; and Susan who is currently attending college. I know John will also look forward to spending time with his grandson Justin.

John, I know my colleagues join me in wishing you many healthy and happy retirement years. Through your many years of service to your fellow man, you truly deserve the best life has to offer.

NATIONAL HISPANIC HERITAGE WEEK

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. RODINO. Mr. Speaker, it is a great privilege for me to join with my friends in New Jersey's Hispanic community in recognizing and celebrating the great contributions Hispanic-Americans have made to our Nation.

This year, September 14–20 is designated National Hispanic Heritage Week, a time to call attention to the many ways in which our country has been enriched by the various Hispanic cultures. The celebrations in Newark began on September 15, with a special program featuring prominent Hispanic community leaders, including Mr. Pablo Rivera Alvarez, vice chairman of the Hispanic Employment Program Managers, Mr. Arne Tornquist, chairman of the Federal Executive Board of Northern New Jersey, Hon. Henry Martinez, president of the Newark City Council, Mr. Raul Alarcon, Sr., president of WSKQ and KSKQ Radio, and Mr. Marcial Lopez, director of Orquesta Borincana. Other prominent Hispanic-Americans who deserve special recognition are Maria Gonzalez, Joe Rosaria and the late Tony Perez. Their compassion and contributions to the community have made it a better place for all of Newark's citizens.

From the very discovery of America, right up until today, the Spanish settlers and their descendants have added invaluably to the rich diversity of our society in which all of us take great pride. These contributions span the spectrum of our Nation's endeavors: art, music, education, science, government, business, entertainment. The bravery of Hispanic

heroes in the service of their country is legendary.

There are some 16 million Hispanic citizens of the United States, and they are the fastest growing minority group in America. They are a political force to be reckoned with.

I pledge to work constantly with my colleagues to eliminate from our society the inequity and injustice that daily frustrate the Hispanic and other minorities. We and our successors cannot rest as long as the promise of our Constitution to secure the blessings of liberty to ourselves and our posterity remains, for too many citizens, a promise unfulfilled.

MIA-POW RECOGNITION DAY

HON. FRANK McCLOSKEY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. McCLOSKEY. Mr. Speaker, today we seek to recognize and honor our servicemen who are still listed as missing-in-action in Southeast Asia, those who were prisoners of war and those who still likely are captive.

Too many questions remain unanswered in our efforts to resolve the final status of those still missing in Vietnam, Laos, and Cambodia.

The position of our Government is that we "cannot rule out" the possibility that some POW's are still being held. The new Director of the DIA even says it is his own personal assessment that one day we may "walk out" a live POW from the jungles of Southeast Asia.

Over 800 live sighting reports persist. We know that the Vietnamese Communists are playing a very cruel and grisly game in releasing piecemeal the remains of U.S. servicemen.

We are concerned that the process of identification of these remains is flawed as indicated in recent hearings before the House Armed Services Investigations Subcommittee on which I serve.

We have heard too many accounts from MIA families that the remains "positively" identified as loved ones could not possibly be so.

No less a respected publication as the Wall Street Journal has carried articles indicating the likelihood that U.S. POW's still may be alive in Southeast Asia.

Mr. Speaker, the only way to effectively put to rest this issue and bring peace of mind to the American people is to establish the MIA/POW Commission called for in House Concurrent Resolution 129. We must approve this resolution before Congress adjourns so the work of review can begin. Two hundred and forty of our colleagues have cosponsored this resolution.

I returned from Vietnam in February of this year more convinced than ever that Americans POW's have been or are now being held by the Vietnamese.

More than 15,000 of my constituents signed petitions, Indiana's two Senators and myself, urging swift and favorable action on House Concurrent Resolution 129. Far from duplicating efforts or impeding progress on the MIA/POW issue, the Commission will help to clarify and expedite the process of recovering the remains of our missing and determining once and for all whether Americans are being held as POW's in Vietnam.

MIA and POW families are supporting this resolution and I believe the Congress should do likewise.

SAY YES TO MICHIGAN

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. BONIOR. Mr. Speaker, the State of Michigan is preparing to celebrate in 1987 its sesquicentennial, 150 years of statehood and 150 years of progress. Our State slogan is, "Say Yes to Michigan." Recently, I came across an article in the Washington Post which underscores the appropriateness of our State's slogan. With your permission, I would like to share that article with my colleagues here in the Congress.

[From the Washington Post, Sept. 5, 1986]

YOU WENT WHERE?

(By Judy Mann)

Some families go to the beach in the summer, some go to the mountains, and some people go camping—although why anyone would do that, I can't imagine. Our family has gone to the beach since I was a 2- or 3-year-old and we've gone to the beach ever since I had my own 2-or 3-year-olds. If it's summer, you go the the beach.

The only real question has been what beach and when. In modern times—that is to say, the last decade or so—we have always had to go to the beach sometime in the last couple of weeks of August to accommodate the swimming careers of my various offspring. That settle, family discussions focused on the burning issue of which beach to go to—North Carolina's Outer Banks or the Eastern Shore in Maryland. And, of course, we usually began these long-distance telephone discussions with various branches of the family in February or March, when family members had some notion of how their summers were shaping up, and long after all the beach houses on the East Coast had been rented for August.

This year was not much different. My sister, who lives in Bloomfield Hills, Mich., and I did our part to support the long-distance phone companies throughout the spring, debating the logistical merits of vacationing at every resort between Myrtle Beach in South Carolina and Rehoboth in Delaware.

Sometime in June, she came up with a startling suggestion. She and her husband had recently purchased a town house in a condominium development on Little Traverse Bay. She suggested our families could vacation there. I said: "Where's Little Traverse Bay?"

She said: "Northern Michigan."

Nobody spends summer vacation in Northern Michigan.

She said it wasn't rented for the last week of August and the Memorial Day weekend.

I could figure out why.

She said there was a beach, and forests and wonderful nature trails, swimming pools, and fishing. She promised they would not be frozen over in August. We could stay in the house rent-free. Michigan was sounding better by the minute. Thanks to airline deregulation, Michigan became a bargain. Who minds a little frost?

The main topic of conversation in Washington from July 4 on is where are you going on vacation.

Try saying: "Michigan."

About three-quarters of the people raise their eyebrows and mutter something sympathetic like: "Why?" Or: "Family reunion, huh?" You quickly develop a brief explanation for your aberrent vacation.

There was, however, a group of people (all of whom, it turned out, came from that part of the country) whose eyes lit up and who said: "What part of Michigan?" By mid-August I'd gotten my geography straightened out enough to be able to answer "Traverse Bay," as though I knew what I was talking about, which I didn't, since it turned out to be Little Traverse Bay. That didn't seem to matter. Eyes lit up more. "It's beautiful up there," was the unanimous verdict. But since that verdict came from midwesterners, it was, of course, suspect. What do they know from the joys of summering by the ocean and basking in the boiling sun with a trashy novel?

Nothing, perhaps. But what they do know about is scenery and views of lakes and bays and sailboats that will take your breath away. Air that is probably the purest on the continent. Magnificent homes that were built before the Depression to accommodate clan gatherings for the entire summer. In Harbor Springs, for example, huge homes were built right on the bay so residents could sit on their front porches or sweeping lawns and look directly onto the water.

It is different from the ocean beaches, no question about that. The air at night was cool so you could sleep without air conditioning. Some days were chilly, others warm. You could hike nature trails in pine forests in the morning and go the beach in the afternoon and swim if you were brave. Or you could look for Petosky stones, the fossilized coral 350 million years old that is abundant near the Great Lakes. You could visit shops in Petosky, a town infinitely more interesting and charming than any beach town with a broadwalk. You could go out on the bay in a boat or fish off the pier in Petosky. My son, the 10-year-old, went fishing on the bay in a boat with his grandpa and his uncle and caught his first big fish—a lake trout, out of season, but in his memory for a lifetime.

You could read and be with relatives and do all the things you do at the beach, but more. Northern Michigan may be one of the country's best-kept secrets and a visit there was a wonderful vacation. More than that, though, it brought home once again what a wonderfully varied country we live in.

AMERICA REMEMBERS

HON. BOB McEWEN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. McEWEN. Mr. Speaker, today our Nation commemorates those American Servicemen and women who were prisoners of war or missing in action. POW/MIA Recognition Day serves a solemn reminder that the price of freedom is always high, but Americans have always paid it.

Now 13 years after the American involvement in the Vietnam war, the fate of the 2,430

servicemen, who are still unaccounted for, continues to haunt their families. It is the not knowing that hurts the most. When speaking of a husband, a father, or a brother, 99 percent certainly is not enough, and it will never be.

Our country deeply sympathizes with the pain and suffering experienced by the families of those servicemen. Moreover, I understand the tragic loss which each family must feel, and I want to express my strong hope and personal commitment to obtaining the fullest possible accounting of these Americans.

Mr. Speaker, if factfinding missions to Southeast Asia have taught us anything, it is that we cannot close the books on those men and their families until we have learned all that we can. We cannot rest, we cannot relent until each and every report brought before us is given a full and conclusive airing and investigation.

Mr. Speaker, as America prepares to commemorate the many sacrifices endured by its servicemen and families of those still missing-in-action, I want to extend my deepest sympathy and appreciation on behalf of a grateful Nation.

THE SIMPLEST WAY TO FIGHT DRUGS

HON. STAN LUNDINE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. LUNDINE. Mr. Speaker, I would like to share with my colleagues an article published Friday, September 5, 1986, in the New York Times. It provides an exceptionally clear description of the illegal drug problem, emphasizing eradication, rather than domestic solutions, which include interdiction, testing, and enforcement, as the most effective way to combat this international problem.

The author of this piece, James Mills, has been following the international drug world for 20 years. He argues very convincingly that eradication plans and crop substitution program do work, and that this country should devote a more serious effort to foster these programs in the Latin American countries most responsible for the cocaine trade, Peru and Bolivia.

One way in which we can accomplish this goal is to condition our foreign aid to Peru and Bolivia, as well as to other countries with drug-dependent economies, on that country's drug eradication efforts.

I am very pleased that a legislative vehicle to accomplish this goal, the Drug Eradication Act of 1986, which I introduced earlier this year, was included, in its entirety, in the omnibus drug bill which the House passed last week. It will allow the use of U.S. economic leverage through international lending institutions to achieve the eradication of drug crops in developing countries. It requires that drug eradication plans be developed within 1 year, and implemented by drug producing countries as a prerequisite for U.S. support for assistance from the multilateral development banks [MDB's].

Mr. Mills' advice should not be taken lightly. The drug problem is serious, and is here to stay. The House has taken a very important first step in approving an omnibus drug bill which includes my plan to foster eradication programs in developing countries. However, this is only the first step.

Next year, and in the years to come, Congress needs to oversee the implementation of these eradication plans. In this way we can cut off the drug supply at the roots, before it can grow into a serious international problem.

Once again, I urge my colleagues to read Mr. Mill's article and to make it required reading for Members of the new Congress entering in January.

THE SIMPLEST WAY TO FIGHT DRUGS

(By James Mills)

What do the traffickers themselves think of all this drug hysteria—President Reagan's urinalysis, the first blockade of New York harbor since the War of 1812, proposals to seal the Mexican border with a 2,000-mile cocaine curtain? In a fortified mansion in Bangkok, in a Mexico City prison, in homes, hotel rooms and restaurants on four continents, I have spoken to a few of the men who run the international narcotics industry, and I am certain their reaction to the war on drugs is the same today as when I met them. They are laughing. With each desperate new response to the drug dilemma, we move further and further from the real solution, and give the narcotics tycoons every reason to celebrate.

When an intelligent person has a problem, he first examines the problem, breaks it into its components, tries to find the fundamental cause (as opposed to symptoms masquerading as causes) and then attacks the cause. He also asks himself what attacks have been made on the problem in the past, and which, if any, of those attacks have had success.

Clearly, the cause of the drug problem is drugs. If drugs had never existed, there could be no drug problem. Apparent solution: remove drugs. Without the presence of drugs, there would be no need for programs to interdict drugs, arrest drug dealers, seize drug profits, treat drug addicts or test potential drug users.

What attacks have been launched against the drug problem in the past? They include: interdiction, law enforcement, penalties, treatment, denying profits, eradication.

Which of these, if any, have worked? Only one: eradication. It worked in Turkey, and it worked, more recently and temporarily, in Mexico. None of the others have ever worked, to any significant degree, anywhere at any time.

Doesn't common sense tell us that before we throw billions of dollars and immense effort at other recommended attacks on the problem, we should fully exhaust attempts at eradication, the only remedy that has ever worked, Not only is eradication the only remedy that has worked, it is also the only approach that directly attacks the fundamental problem—removing drugs.

Eradication also happens, fortunately, to be the cheapest and easiest approach. Ninety-five percent of the world's cocaine, for example, originates in only two countries, Peru and Bolivia. They have a combined population approximately equal to that of California. They are impoverished and desperately in need of aid. Surely, it would be relatively easy to encourage—and, if necessary, to force—those countries to stop growing coca.

Peru and Bolivia complain that eradication of coca plants would unduly upset peasants who earn their livings from coca. But when members of the Senate Select Committee on Narcotics Abuse and Control visited Peru and Bolivia in 1983 they found that many, if not most, of the coca-growing campesinos had until recently been growing legitimate food crops. Only when the campesinos abandoned food crops for the more lucrative coca plants did both those countries have to be fed by emergency international relief programs.

Bolivia further claims that since campesinos represent 60 percent of the electorate, their disfavor could topple the Government. Well, so what—compared to the alternative of continuing cocaine abuse? Bolivian governments have been collapsing regularly for the past 30 years and will no doubt continue to collapse with or without the eradication of coca fields.

Note that Thailand has offered the peasants-will-starve argument for some 15 years, while its poppy acreage has grown and grown. Turkey said the same thing (it had 300,000 farmers growing poppies)—until President Richard M. Nixon gave the Turkish Government money for the farmers who were put out of the opium business in the early 1970's. Most of the money went into the pockets of corrupt officials. Still, there were no reports of mass starvation in Turkey.

A few weeks ago, President Victor Paz Estenssoro of Bolivia, asking for $100 million a year in anti-drug funds from the United States, was quoted as saying: "If we are going to tell the peasants not to grow coca, we have to have alternatives. Without an all-weather highway, they can't market rice, coffee, oranges and other legal crops they could substitute for coca." I first heard those words—virtually verbatim—about a decade ago from Thailand officials. The Thais got the money they requested, they got their crop substitution programs and they got their highway. Today, the money is gone, crop substitution is still in the "demonstration" stage, poppy acreage is vastly increased and the highway has been used to transport opium and morphine base.

It is also argued that if we eradicate in one country, growers will simply shift to another. This ignores the fact that there are only a limited number of locations with the agricultural and climatic conditions necessary for the growth of coca and poppies. And once the full power of the United States comes down on Peru and Bolivia, forcing eradication, surely other countries will see the handwriting on the wall. Will they imagine that they can succeed where Peru and Bolivia failed? Would not the United States be as capable of coercing those countries into eradication as it was Peru and Bolivia? And isn't there something fundamentally unsound, and craven, about the other-countries-will-step-in argument? Is it wise not to attack one enemy for fear that others might then appear?

After having observed the international drug scene for 20 years, I am convinced that eradication is the only thing that will work, and that it would work quite easily. If President Reagan dug in his heels and became obsessive about eradication, he could reduce the availability of cocaine by 50 percent in six months, and 80 percent in a year. Heroin could be similarly reduced, though over a longer period of time.

Why, then, is eradication always at the bottom of every politician's list of "things to do?" I think because it's the least politically attractive recommendation. Surely, it is no accident that the present furor over drugs

(sparked only in part by the emergence of crack) precedes the November elections by three months. (President Reagan declared his war on drugs 19 days before the 1982 elections.) Politicians appear to believe that workers are interested only in what is nearest to them. So we get domestic solutions: interdiction, testing and enforcement. Eradication—a big word that happens in distant lands—isn't so viscerally appealing as capital punishment for pushers.

We have to stop wanting to appear as if we are doing something—and do something. There is no end to the good you can accomplish if you don't care who gets the credit. Eradication could make all other approaches, from interdiction to testing, irrelevant.

I might also add that drugs are not exclusively an American problem. The war must be a world war not only in the sense that producing countries are our enemies, but in the sense that other victim countries are—or should be—our allies. We do not have the highest per capita addiction rate in the world. (Colombia is said to have three million addicts, which is one in nine citizens—almost unbelieveable.) Many countries in Asia, Latin America and Europe have large and growing drug problems. They should be as eager as we to see to it that producing countries get out of the dope business.

Last year, 23 Americans died in terrorist attacks, and we bombed Libya. If the world's coca fields were in Libya, instead of in Peru and Bolivia, President Reagan would know what to do and we would not have a cocaine problem today.

By concentrating the bulk of its efforts on domestic approaches, our Government keeps the heat off the leaders of the international narcotics industry, men whose supply, production and management teams are overseas.

So the traffickers are laughing. They know how to solve the drug problem. The war on drugs is the best thing that ever happened to them.

ORGAN TRANSPLANTATION POLICY ACT OF 1986

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. STARK. Mr. Speaker, today, I am introducing for myself and Mr. ROSTENKOWSKI the Organ Transplantation Policy Act of 1986. The purpose of the bill is to ensure that U.S. residents have priority in receiving organ transplants.

Increasingly, foreign nationals are coming to America for the sole purpose of receiving a kidney transplant. Americans are forced to wait on dialysis machines as wealthy foreigners step to the head of the line for kidneys donated by Americans. We need to ensure that U.S. residents have priority in receiving these organs.

Organs for transplantation are in short supply. The problem is most acute with kidney transplantation. Between 1980 and 1985, the number of people waiting for kidney transplants has increased by 93 percent. There are approximately 8,000 to 10,000 people waiting for kidney transplants in the United States. Transplantation can improve life expectancy, and generally results in a better quality of life. In addition, transplantation is substantially less expensive than dialysis therapy.

According to a report by the Inspector General of the Department of Health and Human Services, 5 percent of the kidneys transplanted in the United States—or 1 out of 20—are given to foreign nationals. The report also shows that about 200 to 250 kidneys are exported from the United States each year. Kidney experts estimate that in northern California 560 individuals are waiting to receive a kidney transplant.

The Organ Policy Act of 1986 requires that a hospital contact the national organ procurement and transplantation network before exporting an organ or transplanting the organ into a nonresident alien. If the network determines that there is a U.S. resident who is a suitable recipient, the hospital would be required to cooperate with the network in arranging for transplantation of the organ into the U.S. resident.

This legislation will improve the health of hundreds of Americans with kidney disease and will help reduce Medicare expenditures by reducing the need for costly dialysis treatment. For these reasons, I intend to make this issue a priority.

PRESIDENT REAGAN'S DRUG INITIATIVE

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. GILMAN. Mr. Speaker, earlier this week our Nation heard the President and the First Lady speak movingly about the need for this Nation to rise up against the illicit substances that flow through our streets. Following this televised broadcast, the President submitted to the Congress a package of legislative proposals pertaining to various aspects of the drug abuse and trafficking problem. However, a major difference between the President's proposal and H.R. 5484, the Omnibus Drug Enforcement, Education, and Control Act of 1986, which overwhelmingly passed the House last week by a vote of 392–16, is that the House approach in combating narcotics trafficking and drug abuse would authorize more than $2.1 billion in new budget authority, whereas the President's proposal would redirect nearly $900 million within the existing Federal budget from other programs to certain drug programs.

The support of the House of Representatives for the omnibus drug bill was based upon years of hearings conducted by our Select Committee on Narcotics Abuse and Control, where I serve as the ranking minority member, and upon the good work of the 12 standing committees, including the Foreign Affairs Committee, on which I am a senior member. Over the years, it has become obvious that our existing law enforcement network is insufficient to cope with the massive narcotics trafficking confronting our Nation. Similarly, drug treatment and rehabilitation facilities are straining to provide services at a time when waiting lists for their programs grow longer each month.

The $900 million in the President's proposal is redirected funding, which when combined with existing resources, would total $3.2 billion. Certainly priorities for allocating scarce resources must be established and I applaud the President for elevating narcotics trafficking and drug abuse to a higher priority on his agenda and for his personal involvement and that of First Lady in this critical issue. But I also question the proposed source of the $900 million. For example, is it coming from Social Security or from Medicare or from a combination of these and other important domestic programs?

The President's effort to create a drug-free workplace and drug-free schools, to devote resources for drug treatment, for improving international cooperation, for strengthening our law enforcement capabilities, and for involving the private sector are laudable objectives.

Hopefully, the President's proposal will not be funded at the expense of domestic programs intended to help senior citizens and others on fixed incomes. In this regard, I look foward to learning in greater detail, the President's proposals for financing his program.

NATIONAL POW-MIA RECOGNITION DAY

HON. BOB CARR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. CARR. Mr. Speaker, today has been designated as National POW-MIA Recognition Day. On this day, the Prisoner of War Committee of Michigan will dedicate the first State memorial of its kind to the POW-MIA's of Michigan.

The monument, which will stand on the grounds of the 150 acre Oakland Hills Memorial Gardens in Novi, MI, is a lasting tribute to the brave men of Michigan, who have yet to return to their families from the Vietnam conflict.

Michigan will never forget its 84 sons listed as missing in action. While the Vietnam War was not a popular crusade for many, these men fulfilled the highest and most demanding duty that they could be asked to perform by their Nation. Under pressure from home and the frontline, they proved to be true patriots.

While it has been more than a decade since the United States has withdrawn from its military involvement in Southeast Asia, the scars of the conflict can never be completely healed until every MIA is accounted for.

Nationwide more than 2,500 remain missing in action or presumed prisoners of war. In Michigan we are still deprived of the presence and contributions of 84 of our citizens. We must not forget these lives. The memorial which will be dedicated today ensures that their memory endures in our steadfast for their return. Their memory is sacred and forever.

POW-MIA RECOGNITION DAY

HON. DON BONKER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. BONKER. Mr. Speaker, the continuing uncertainty about the fate of the men still listed as missing in Southeast Asia is one of the most troubling legacies of the Vietnam war. Reports of live sightings perpetuate the hopes and prolong the pain for many of the families of these brave servicemen.

This day of national recognition is a special tribute to the missing, to their families, and to those who were POW's and were fortunate enough to have been released. It is my hope that we will continue the progress we have made in recent years toward providing the fullest possible accounting of the missing, both to alleviate the suffering of the families and to ensure that there are no Americans being held against their will in Vietnam.

Ten men from my district in southwest Washington State have been missing since well before the end of the Vietnam war. The families of these missing servicemen have devoted years of work in efforts to locate them. On their behalf and in recognition of the bravery of their sons, fathers, brothers, and husbands, I would like to honor them now. They are Bruce A. Berg, Gary P. Booth, Harley H. Hall, Melvin A. Holland, Roderick B. Lester, Richard A. Livingston, James R. McQuade, Lawrence F. Nyman, David S. Price, and James D. Williamson.

Determining the fate of these men has been a slow, painful, and incomplete process and, as a nation, we have a great deal more still to do. It is the responsibility of our Government to ensure that every possible clue to the fate of these men is diligently pursued. The Defense Intelligence Agency must maintain the highest degree of professionalism and dedication to this cause and the administration must exercise all diplomatic options to foster a cooperative spirit with the Vietnamese and the Laotian Govenrment in order to permit the most thorough possible investigations.

In conclusion, Mr. Speaker, I hope that we all take a moment today to think about these missing men and to consider what we can do to provide information to these families. I further hope that someday we will no longer have a need for National MIA-POW Recognition Day because we will have provided the answers the families so desperately need and deserve.

H.R. 4838, LABOR PROTECTIVE PROVISIONS IN AIRLINE MERGERS

HON. BILL FRENZEL

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. FRENZEL. Mr. Speaker, on Tuesday, September 16, I was the congressional representative at GATT Ministerials in Uruguay, and therefore missed votes on bills considered under suspension that day.

One bill of particular interest to me and my district is H.R. 4838, requiring the adoption of Labor Protective Provisions [LPP's] in airline mergers where the Secretary of Transportation finds likely harm to wages or job security as a result of the merger. Had I been present, I would have voted for the bill. I am pleased that it passed as it did.

There are turbulent times for the air industry, with mergers a commonplace occurrence. Each merger necessitates difficult decisions as two labor forces are merged. H.R. 4838 will prevent airlines from taking unfair advantage of their employees by forcing concessions that could not be won without the uncertainty caused by a pending merger.

I earlier had announced my reluctance to support a bill that could infringe on the competitive posture of airlines. Upon closer consideration, however, I have concluded that the bill responsibly addresses the real concerns of employees, and does not force the Secretary of Transportation to issue provisions that will prevent an airline from improving its competitiveness. I continue to believe that employees' interests are best served when the airlines strengthen their position. I also believe, however, that this bill does not take away that ability, and that it does provide an important protection for employees.

CONGRATULATIONS TO THE NEW YORK METS

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. ACKERMAN. Mr. Speaker, in 1969, they were the miracle team. In 1973, "you gotta believe" was the cry, and everyone in New York did. But this year, they have been simple awesome.

I'm referring, or course, to the 1986 National League East champions, the New York Mets.

The outcome has been clear for months. Last night, the Mets made the inevitable a reality.

In clinching their division yesterday—the earliest the NL East has ever been won—the Mets continued their inexorable course to the world championship.

Let by Manager Davey Johnson, the Mets lineup reads like an all-star roster: Carter, Hernandez, Strawberry, Gooden, Darling, Fernandez strike fear into the hearts of opposing players. Backman, Dykstra, Teufel, Aguilera, Orosco, McDowell, Wilson, Knight—their names are already legends in New York City.

The Mets lead the league in hitting, lead the league in pitching, and now lead the East by an amazing—there's that word again—19 games.

No doubt, Mr. Speaker, you are among the skeptics, partial as you are to a gallant but obviously inferior team that sports scarlet hosiery. Heretics are found also in Houston and southern California. But elsewhere, no one can doubt that the Mets will finish in October what they began last April.

Perhaps the grim reality for the rest of baseball was summed up by a sign at Shea Stadium last night. it read: The Dynasty Begins.

BOVINE SOMATOTROPIN

HON. STEVE GUNDERSON

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. GUNDERSON. Mr. Speaker, today, I am reintroducing legislation that I previously brought to the attention of the House on June 26. The bill requires a study to be done by the U.S. Department of Agriculture on the use of bovine somatotropin and its potential impact on the dairy industry in this country, specifically, the dairy price support program and the structure of the industry as a whole.

WHAT IS BOVINE SOMATOTROPIN?

Commonly referred to as bovine growth hormone, bovine somatotropin, is a naturally occurring protein in cattle and is found in the pituitary gland. The gene responsible for natural bovine somatotropin is isolated and transferred from the animal to ordinary bacteria cells. The bacteria are used to produce, through standard fermentation procedures, large quantities of BST. The bacteria are then killed, the BST separated, highly purified and formulated for use.

THE POTENTIAL IMPACT OF BST

The changes and innovations that have occurred over the last several years have had a profound impact on the ability for a cow to produce milk. The widespread acceptance of artificial insemination and the improved feeding practices have helped to increase the average production per cow from 5,400 pounds of milk per year to 12,500 in 1984. The adoption of BST has the potential to increase milk production anywhere from 10 to 40 percent.

Studies have shown that stimulates cows to direct food energy into milk production and while there is an increase in feed intake, there is actually an increase in feed efficiency. Injected daily, greater production begins 3 or 4 days after the first injection and reaches full effects in a couple weeks. Initial research indicates that the milk from cows being injected with BST is no different than that from other cows. There is also apparently no adverse impact on the cow.

PURPOSE OF THE LEGISLATION

The bill I am introducing today simply would require USDA to analyze the impact bovine somatotropin could have on the Federal Dairy Price Support Program and the structure of the dairy industry—the number of farmers and herd size—as a whole. The studies would have to be completed by January 1, 1988.

Despite the contentions of some individuals that the development of bovine growth hormone is a step in the wrong direction, we cannot close our eyes and hope it goes away. Whether we like it or not BST is likely to be on the market soon.

While it is difficult to see any direct benefits of bovine somatotropin at present, it would be extremely irresponsible for us to ignore a new technology that has the potential to benefit the dairy farmers of this country.

REASON FOR REINTRODUCING LEGISLATION

My reasoning for reintroducing this legislation makes the bill more specific so that it would be referred solely to the House Agricul-

ture Committee, because, quite frankly, the use of bovine somatotropin and its potential impact on the dairy sector and dairy policy is an issue that is best handled by the Agriculture Committee.

WHAT'S AT STAKE?

Bovine somatotropin will eventually be on the commercial market. We have to seize the initiative and learn more about this advancement so we can be prepared for it. Bovine somatotropin has the potential to increase the efficiency of dairy farmers by lowering their costs, but, at the same time increase the surplus of milk.

The legislation I am reintroducing today does not seek to ban the commercial use of BST but rather to make sure that necessary information is available so that the proper choices can be made in the future.

NATIONAL DEFENSE STOCKPILE

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. BENNETT. Mr. Speaker, current national defense stockpile policy originated out of the experiences of World War II and the Korean conflict. That policy has been to maintain a national defense stockpile of strategic and critical materials needed to support our defense, industrial and essential civilian requirements in the event of a national emergency. However, estimated requirements for the strategic and critical materials to be maintained in the stockpile have fluctuated dramatically over the years. These fluctuations have been brought about by changes in policymakers' perceptions about the strategic threat to the United States. Since the Reagan administration took office, the United States has embarked on a costly military buildup to counter the massive Soviet buildup which has occurred in recent years. At the same time, the administration's stockpile policy is inconsistent with their stated perception concerning the Soviet threat. On July 8, 1985, the administration proposed reducing current stockpile goals from $16 billion to $700 million, largely as a result of the Office of Management and Budget's desire to use stockpile funds to reduce the Federal budget deficit.

As chairman of the subcommittee responsible for oversight of the national defense stockpile, I believe that this is a shortsighted and dangerous policy and not in the best interest of our national security.

The issues involved are not simple, but extremely complex. In this regard, I recommend that my colleagues read two recent reports by Alfred R. Greenwood of the Congressional Research Service on this complex subject. The first report was issued on February 8, 1986, and is entitled "The Reagan Administration Proposes Dramatic Changes to National Defense Stockpile Goals" (86-578 ENR). The second report was issued on August 29, 1986 and is entitled "National Defense Stockpile Policy—the Congressional Debate" (86-863 ENR).

SALUTE TO THE CAMPHILL MOVEMENT

HON. DENNIS E. ECKART

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. ECKART of Ohio. Mr. Speaker, I rise today to salute and pay special tribute to the 25th anniversary of the Camphill Movement in the United States.

The Camphill Movement, begun in this country in 1961, now consists of five communities in New York, Pennsylvania, and Minnesota. It's based upon a solid dedication to allowing developmentally disabled persons to live fully integrated, dignified, and productive lives.

In these communities, disabled persons live with nondisabled families and students from around the world, providing educational opportunities as well as the chance for shared responsibility and meaningful, constructive work.

This growing Camphill Movement was founded in 1939 by Dr. Karl Konig in Scotland. There are now over 70 Camphill centers in Great Britain, Europe, Africa, South America, and the United States. Each community upholds the common characteristic of stressing community life shared equally by disabled and nondisabled residents alike. Extended family settings help to cultivate the experience of social interdependence based upon mutual understanding and respect.

Additionally, these communities are extremely self-sufficient through carefully maintained gardens and the production of bread, cheese, maple syrup, and other food items. There are indeed many diverse opportunities for learning, and cultural and artistic activities are emphasized and integrated into daily life.

This year, the Camphill Movement is celebrating its 25th anniversary of caring and commitment in the United States. New York Gov. Mario Cuomo recently presented that State's Camphill village with a special citation, recognizing them for their outstanding accomplishments in providing high quality care for disabled residents.

I am honored to be familiar with this program and its philosophy, and I join with Governor Cuomo and all others who will be participating in this 25th anniversary celebration in expressing my respect for the Camphill Movement's efforts and contributions. It is the elements of real sharing, of dedication to small details, of commitment to caring for the land, and of working to bring out the best in each individual that make these communities so special.

It is my hope that this innovative, successful approach will expand in this country and will continue in its fine tradition of working with disabled people. Let the Camphill Movement be a model and an inspiration for other programs just now beginning as we explore alternatives to more traditional care environments.

MIA-POW: THE FINAL CHAPTER

HON. SHERWOOD L. BOEHLERT

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. BOEHLERT. America is always grateful to those who fight to defend our freedoms and our families—our soldiers. And in return, those men and families expect that America will never abandon them, or forget any who failed to return home from that defense.

Many of us know the sacrifices made by families of servicemen. To have a loved one reported as missing-in-action or possibly held prisoner certainly makes those hardships more difficult.

But in this adversity, there is strength. Our concern, our resolve deepens, as we seek a full accounting of the 2,430 military and civilians (156 of them fellow New Yorkers) as yet unaccounted for in Southeast Asia.

President Reagan has made the POW/MIA issue a top priority: For this, he is to be commended. Of Vietnam he has said that "we will write no last chapters, we will close no books, we will put away no final memories, until all your questions about the missing and possible prisoners of war have been answered." Indeed, some of those questions have finally begun to be answered, especially during this past year.

In January, the highest-level U.S. delegation ever to travel to Hanoi, led by Assistant Secretary of Defense Richard Armitage, helped to create a 2-year timetable for a final resolution of the POW/MIA along humanitarian lines. A few weeks thereafter, a congressional delegation (led by fellow New York Congressmen GERALD SOLOMON and BENJAMIN GILMAN) returned from Hanoi with a number of breakthroughs: the admission of the possibility of missing Americans still alive in Southeast Asia; an agreement by the Vietnamese to return 14 sets of American remains; and an agreement for continued negotiations. In July, another U.S. delegation (which included representatives from the Pentagon, Department of State, the National Security Council, and the National League of Families) formalized our commitment to resolving the issue, with promises of expertise and equipment to aid in the identification of remains.

After delays by the Vietnamese, the POW/MIA issue is back on track. More meetings are scheduled between our two Governments in the next month; the Vietnamese have promised "significant results" from their investigations. The cooperation is long overdue.

There is now a united front to a final resolution of the POW/MIA issue. All Americans stand with the President in his determination to write a last chapter for the book on Southeast Asia. We will not give up the quest. We must receive the fullest accounting possible of the more than 2,400 Americans who didn't come home. Until then, we must be, as in the words of the Marine Corps motto, "Semper Fidelis"—that is, "ever faithful."

WOZA AFRIKA!—A COLLECTION OF PLAYS ABOUT SOUTH AFRICA

HON. WALTER E. FAUNTROY

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 19, 1986

Mr. FAUNTROY. Mr. Speaker, more than 30 South African writers and actors will be performing in Washington, DC, from September 17 through October 12 at the New Playwrights' Theatre. The WOZA Africa Festival is an unforgetable experience.

This 4-week festival of plays is written, directed and performed by South African artists.

"WOZA Afrika!," as the collection of plays is called, will be presented following its presentation at the Mitzi E. Newhouse Theatre at Lincoln Center in New York. Each play in the festival will be presented first in New York for 1 week and then the following week in Washington.

"Asinamali!" by Mbongeni Ngema will open the festival, playing September 17 through 21. "Asinamali!" which means "We have no money!" is the story of the five black men brought together in a South African prison where they tell their tales with music, dancing, laughter and joyful exuberance.

"Bopha," written and directed by Percy Mtwa, will be staged September 24 through 28. The play examines the paradoxical character of the black policeman in South Africa.

A double bill, "Children of Asazi," written and directed by Matsemela Manaka, and "Gangsters," written and directed by Maishe Maponya, will play October 1 through 5.

"Born in the U.S.A.," developed by director Barney Simon and a seven-member cast—Vanessa Cooke, Timmy Kwebulana, Neil McCarthy, Gcina Mhlophe, Terry Norton, Thoko Ntshinga and Fiona Ramsey—during an 18-month workshop, is the final attraction of the festival and will play October 8 through 12.

The five theatre companies, totaling about 30 South African actors, directors, and playwrights include the Market Theatre, Committed Artists, Earth Players, the Soyikwa Cultural Center, and the Bahumutsi Theatre.

With the presentation of these plays, for the first time American audiences will have an opportunity to learn about South African life from people who came from the townships.

Each play will be given eight performances, Wednesdays through Sundays at 8 p.m. with matinees at 2 p.m. on Thursdays, Saturdays, and Sundays.

I urge all Members to attend these compelling performances.
